A complete copy of the Annual Report, containing the President's remarks, will be mailed upon request

The Financial Situation

THE appearance, with White House approval at least in substance, of an elaborate proposed "Banking Act of 1935" has, whatever the other consequences, served largely to destroy what remained of the popular impression that in the course of the past year the President had "turned to the Right." The evidence of a more conservative frame of mind on the part of the President most frequently cited in financial circles has (apart from a more tempered tone in his official utterances) always been what were reported to be private assurances that the Chief

Executive no longer was willing to countenance a "central bank" project of the sort supposed to be under consideration during a good part of the past summer. There never was, in our judgment, much evidence of a determination on the part of the President to pursue a rational and careful course in respect to banking, credit and allied subjects, but an impression to the contrary nonetheless prevailed widely, at least until quite recently.

UnderminingConfidence

HE insistence of the Administration upon a relief bill which commits the Administration to the most costly sort of provision for the unemployed, and the utter disregard of the grave and even critical state of the national budget, inevitably undermined seriously the faith of those who had hoped for a more orthodox type of action. The relief measure, moreover, revealed the Administration going farther, perhaps, than in almost any of the previous legislation in demanding dictatorial powers over a wide range of

our economic life. Many of the provisions, particularly when viewed in the light of the President's statements upon the occasion of the submission of the report of the National Resources Board, revealed the Administration as still harboring unfaltering faith in "planned economy."

The general impression made by the sweeping social security program of the Administration was neither as clear nor as definite as might have been expected, and as should have been the case, in our judgment, largely because this program appeared conservative in comparison with such schemes as the so-called Townsend Plan, which had gained wide notoriety meanwhile. Another reason why this program impressed the public as relatively "conserva-

tive" is found in the fact that many of the President's own advisers had seemed to be championing projects even more extreme than the one actually submitted. Soberer second thought has, however, been bringing a clearer realization of the lack of sound sense in, and the far-reaching consequences of, any such social insurance plans as those now under consideration in Washington. The recent suggestion of one of the President's advisory boards that a special organization be created to assist in "relocating" industry has raised further doubts. These and similar develop-

ments during the past month or so had already done much damage to the idea that the President henceforth was to be at least moderately conservative. Whatever standing the myth still retained has now apparently been pretty well demolished by the appearance of the banking

bill.

Money and the Government

Many of those whose clamor is responsible for the proposed Banking Act of 1935 never tire of asserting that a measure of this type (or one much more drastic) is necessary to "restore" to the Federal Government its control over money.

The argument usually runs about as follows: Currency as such no longer plays a dominant role in American life. Deposits subject to check have largely replaced bank notes and other types of pocket money. But such deposits are created largely at the discretion of thousands of private citizens acting as bankers. Hence the "bankers" now control the supply of money.

Here is another, and one of the most dangerous, of the aberrations of the monetary quacks of the day. In the first place, in individual cases Congress has never undertaken to say, and the framers of the Constitution never intended it should have the right to determine, just when money should come into existence.

At no time has the Government operated gold and silver mines for the sole purpose of coining the metal thus obtained. As for note issues, the early years of our history were the days when all sorts of banks issued currency with but little restriction.

As far as money proper is concerned, the most that the Federal Government has ever undertaken to do, and all that it can wisely do, is to state what shall constitute money, and set forth general conditions under which it may be brought into existence upon the initiative of the citizen. This latter, of course, it also does in regard to deposits of most banks, although of course State banks are still in some measure at least left to State control.

Money, and deposits used as money, are merely devices for facilitating economic processes vital to our economic welfare and even to our continued existence. The thought that they ought in some way to be used for other purposes, such as those suggested by managed-money advocates, ought not to be entertained for a moment.

All this is of course obvious enough, but apparently there is need for further and emphatic reiteration of it at this time.

An Objectionable Measure

THIS seems to be about the best—and it is something—that can be said for the larger part of the banking legislation now proposed. We present in another place a careful analysis of the more important teatures of this measure from the pen of Dr. H. Parker Willis, who is well known to our readers. We here unhesitatingly express condemnation of the proposed law.

A number of serious questions are raised by the provisions of Titles I and III. This is especially true of the plan to oblige banks to pay premiums to the FDIC upon all their deposit liabilities at the same time that deposits only to the amount of

\$5,000 each are insured. Such a plan, of course, is highly unjust and inequitable, since it requires some of the larger institutions to make large contributions to the Corporation without obtaining any benefits worth mentioning, the large proportion of their deposits regularly being much greater than \$5,000 each.

The clearly revolutionary and, in our opinion, wholly objectionable provisions of the measure are found in Title II. It is evident that the main objectives of this title are:

- (1) To place the whole Federal Reserve System by legislation under the thumb of the President of the United States;
- (2) To rearrange the organization of the System in a way best to facilitate its employment in the

political management of the currency and credit of the country, and in the financing of a Federal Government intoxicated with the idea of spending its way to prosperity;

(3) To extinguish several of the remaining safeguards that common sense and experience had placed upon the management of banking and currency in the United States through legislation.

Some Provisions

Membership on the Reserve Board in the future would be open only to those who (in the opinion of the politicians) are suited by education or experience to participate in the formulation of national economic and monetary policies. What may well be the criteria upon which such eligibility may be determined in the future is clearly indicated by our experimentation with the Warren monetary fantasies. The owners of the Reserve banks are henceforth to be permitted (through directorates) to choose the chief executive officer of their institutions only within the limits of Presidential approval. The politically controlled Federal Reserve Board would dominate the Open Market Committee, whose wishes must henceforth be followed by the privately-owned Federal Reserve banks. The Presidentially controlled governors of the individual Reserve banks would have minority representation upon the committee. Any asset adjudged "sound" by political appointees would be eligible for rediscount at the Reserve banks. No collateral at all would be required for Federal Reserve notes. A national bank in Maine would be permitted to make liberal loans on Florida real estate. These are some of the more obvious features of the measure as proposed. Of course, the term "central bank," which apparently has lost political prestige, is not used either in the bill itself or in any of the supporting statements by the Administration, but that fact ought not to mislead anyone who has cut his eye-teeth.

It is all very well to assert, as some are doing, that certain of the least desirable of these provisions were included in substance in the emergency legislation of the past two years. It is of course true that from the very first the political powers have exerted undue influence upon the Reserve System and that for a good while the system has largely been operated from Washington or with the wishes of Washington largely in mind. But is all this a good reason why the most objectionable characteristics of the administration of the System and the worst features of temporary emergency legislation should now be seized upon, enacted into permanent law and made an abiding part of the future operations of the system? Of course, anything but an emphatic negative in answer to such a question would be patently absurb. What we need is not this, but repeal of the indefensible provisions of the temporary legislation in question and a complete divorce of the system from political domination. Much more beside is needed, but until we can obtain this much, or at least a substantial portion of it, there is small hope indeed that we shall be able to make even a good start out of the morass of unsound banking and credit into which we are now floundering deeper and deeper day by day.

The President vs. the A. F. of L.

WERE it not for the mass of countervailing evidence, in part already cited, it might well be that the community would find a good deal in the President's attitude toward the American Federa-

tion of Labor to support the idea of a determination on his part to pursue a more conservative and wiser course in the future. Sharp attacks upon the Administration, or at least upon some prominent members of it, by Messrs. Lewis and Green, and the recent publication by the President of correspondence between himself and a representative of the American Federation of Labor, leave little room for doubt that the Administration has at last dared to cross swords with the hierarchy of the American labor union, and so far as present appearances go, intends to stand its ground. The controversies now coming to a head first began to take real form and substance about a year ago. The President from the first had formed the habit of having a great many representatives of organized labor, particularly of the American Federation of Labor, among his closest advisers and among the memberships of the numerous NRA boards. To many he seemed by word and deed to be promising heaven and earth to organized labor. Until about this time last year or a little later he appeared to be favoring the American Federation of Labor in virtually all of his labor policies. Then came the crisis in the automobile industry, with the final result that the President surprised most observers with a compromise agreement between the manufacturers and the representatives of labor which carried the principle of proportional representation in the groups representing labor in the collective bargaining activities in the motor industry.

This general principle was quite inconsistent with the position his own organizations had been taking in this matter, and of course quite out of accord with several formal opinions which the Labor Relations Board has since rendered to the effect that majority representation is the only proper interpretation of the provisions of Section 7A of the National Industrial Recovery Act. The American Federation of Labor has never liked the automobile agreement. It has protested at each renewal of that pact during the past year. It is now in open revolt over the fact that the President has seen fit once more to renew this contract. Of course in his letter to the counsel of the American Federation of Labor, the President was able to show the futility of protesting against the general line of policy pursued in the automobile industry. The truth of the matter is that the agreement in question seems to be functioning as well as, or better than, any of the other similar agreements in other industries of importance, and of course comes much nearer to what seems to us the plain meaning of the words embodied in Section 7A of the National Recovery Act. Certainly it is much to be preferred to those arrangements under which the Labor Relations Board is insisting that majority representation be the rule. We think the President is to be heartily commended for the stand he has

Labor Policies Generally

We only wish that it seemed safe to assume that a similar attitude will be shown by him in his dealings with organized labor throughout. Of this, though, one can hardly be quite certain at this writing. The automobile industry seems to have been a case apart throughout the past year. The stamp of approval which the President has here placed upon a more reasonable interpretation of Section 7A has not to date deterred his own Labor Relations Board from insisting upon radically different policies in other fields. One would suppose that his action in

again overruling the Board would leave this latter body in a rather discredited and impotent position. The apparent unwillingness of the Administration to have the matter of majority representation tested in the courts suggests also that the President is not enthusiastically behind his Labor Relations Board. But until quite recently that body has continued to proceed with considerable aplomb, and of course the question of what the Administration is willing to have Congress do, or wants Congress to do, in the matter of changing and continuing the National Industrial Recovery Act is still a question about which little or no official information is available. There is still a good deal of demand in some quarters for a further shortening of hours by legislative fiat, and of course labor has certain very definite interests in the so-called social insurance program. When some of these latter questions are more fully clarified, it will be time enough to arrive at a definite opinion as to what the labor policy of the Administration is at the present time.

The Administration and Monopoly

EANWHILE the attitude of the Administration toward restraint of trade and monopoly remains as obscure as ever, and perhaps even more difficult to understand. Various reports, apparently semi-official, concerning the terms upon which Congress will be asked to continue the existence of the NRA, or at least the work that the NRA is now supposedly doing, have appeared in the daily press. These assert that price fixing as such, and presumably production control as well, are to be banned except in special circumstances where it would be permitted only under close Government supervision. Yet at the same time it is asserted that trade practice agreements, which more often than not are but indirect means of controlling prices or production or both, are to be continued and left largely to the trades themselves to administer. If this is really the program as planned it must be said in the name of realism that what we used to call restraint of trade is apparently to be encouraged rather than frowned upon or abolished. Yet the Administration has within the past few weeks instituted suits of major importance under the anti-trust laws, one some time ago against moving picture interests and two others this week against a number of steel companies. We are in no position to express an opinion upon the legal merits of any of these cases. We believe in competition and decry any policy or practice, whether on the part of the Government or industry itself, that unduly interferes with or restricts competition. It seems reasonable, however, to ask the Government to make clear just what its policy is concerning such matters. Its action on the codes and its various pronouncements about price cutters hardly suggest that it would object to such practices as are said to be in vogue in the moving picture industry, and certainly would not lead one to expect it to attack a steel merger which would leave the combined company much smaller than the two leading concerns already in the industry. The public, as well as the defendants in these suits, is entitled to much more light upon what the Administration desires and intends to do in such matters as these.

Congressiona! Revolt

ONGRESS continues to surprise a good many with the vigor with which it appears ready to assert itself against Executive domination. Senator

Glass's Appropriations Committee divided evenly the other day in a vote to rewrite the pending work relief measure, converting it into a direct relief bill costing the country about half what has been proposed. Though thus defeated in the committee in their attempts to perform a real service to the country, the opponents of the measure are said to be planning to take their objections to the floor of the Senate, where a real struggle is predicted which will test the strength of the President in the upper Chamber. It is not clear at this writing just what changes this committee will make in the measure before sending it to the floor of the Senate. The chances appear good that some of the more extreme features of the bill will be eliminated. What the fate of the amended measure will be in the Senate, and later before the Conference Committee, where it is more or less certain to have to go, is a question that only time can answer. Meanwhile the difficulties which the measure has been forced to face in the Senate Committee have served to reveal a strength in the opposition that most observers did not expect to see at this time. Although the situation has not reached any such stage in connection with the social insurance program, it becomes increasingly evident that this measure as written will have plenty of trouble. Even the Secretary of the Treasury wishes to have it amended—and no one knows whether he or the drafters of the original measure, or either of them for that matter, speak for the President. Since the bill as written has been more carefully studied, and the true significance of its terms have more and more been grasped by the more intelligent business man, opposition to it has been steadily growing both in and outside of Congress. While there is a tendency on the part of the financial community to assume that the measure, in some form not very greatly different from the original, will ultimately go to the statute book, the grounds for such an assumption seem to be disappearing rather steadily. It need hardly be added that the banking bill and the still more recently proposed holding company measure will be obliged to face the most strenuous sort of opposition, which is very likely to succeed in effecting substantial modifications at one stage or another. Of course it would be easy to make too much of the revolt, if that it may be called, in Congress. It will be recalled that at about this time last year, or not very much later, Congress "kicked over the traces" and passed a bonus measure, later to readopt it over the President's veto. Yet, taking the session as a whole, it did almost everything that the President demanded of it, although of course the latter was obliged to enter into a number of compromises, which he will doubtless be ready enough to do this year if necessary. The Chief Executive, after the election results of last autumn and with the enormous organizations and funds at his disposal, unquestionably has formidable power in his hands which he has not as yet seen fit to apply fully. But at any rate, the revival of independence in Congress as far as it has gone is encouraging.

Holding Companies

HE proposed holding company measure seems to be another of those rather involved projects. So far only an official abstract of it is available, but the general objectives, and the broader methods to be employed to reach those objectives, appear to be plain enough. The project must be condemned without awaiting the details. Its avowed purpose is that of abolishing the holding company (with a few exceptions) in the public utility industry. That the drastic change entailed by this is to be spread out over a number of years perhaps mitigates the evils of the measure, but certainly does not justify its aims. As our readers are well aware, we have no word to say in the defense of many holding company practices in recent years. However, we do believe that there is a useful function for them in the public utility industry as well as elsewhere in our economic and financial structure, and accordingly are quite certain that the treatment here accorded them will not help but will injure the public in whose name the measure is avowedly prepared.

Federal Reserve Bank Statement

HIEFLY as a result of United States Treasury financial transactions, further monetary extremes are reflected in the Federal Reserve Bank statement as of Feb. 6. Idle funds continued to accumulate in the week covered by the statistics, and member bank deposits with the System on reserve account increased by no less than \$90,892,000. A sharp and somewhat more than seasonal rise took place in the total of money in circulation, but disbursements of Treasury funds far more than offset this factor. The Treasury deposited with the Federal Reserve banks \$94,142,000 of gold certificates, although the increase in the monetary gold stocks of the country, as reflected in the usual monetary summary, was only \$34,000,000. Late last year the Treasury withheld gold by failing to deposit certificates to a degree corresponding with the increase in the monetary gold stock, but the contrary process has been followed this year. If ordinary calculations are of any value in this period of esoteric monetary transactions, it would seem that the Treasury now has deposited certificates representing not only all its so-called "free gold," but also some that represent the gold "profit" resulting from devaluation of the dollar. Largely by this means idle funds are being piled up and it is noteworthy that the reserve deposits of member banks with the Federal Reserve banks now aggregate \$4,632,647,000, or somewhat more than double the requried reserves. The excess reserves thus are more than \$2,300,000,000, which is a record figure and an alarming one.

The sharp increase of the week brought the gold certificate holdings of the 12 Federal Reserve banks up to \$5,445,101,000 on Feb. 6 from \$5,350,959,000 on Jan. 30. A recession occurred in "other cash" and the total reserves thus increased only to \$5,731,-990,000 from \$5,647,154,000. On the liabilities side, Federal Reserve notes in actual circulation moved up to \$3,101,685,000 from \$3,068,172,000. Deposit liabilities increased to \$4,844,189,000 from \$4,792,-450,000, the gain of member bank reserve balances being partly offset by a decrease in United States Treasury deposits on general account, foreign deposits and other deposits. Even though liabilities were materially higher, the increase of gold certificates proved more than an offset, and the ratio of total reserves to deposit and Federal Reserve note liabilities combined moved up to 72.1% on Feb. 6 from 71.8% on Jan. 30. In other respects, also, the banking statistics reflect tendencies previously in evidence. Discounts by the System continued to dwindle and were \$6,428,000 on Feb. 6 against \$7,058,000 on Jan. 30. Industrial advances in-

creased slightly to \$17,824,000 from \$17,493,000. Open market bankers' bill holdings fell \$35,000 to \$5,503,000, while holdings of United States Government securities were off \$49,000 to \$2,430,221,000.

Corporate Dividend Declarations

IVIDENDS the current week were again of a favorable nature and included several of a noteworthy character. American Rolling Mill Co. declared a dividend of \$2 per share on account of accumulations on the 6% preferred stock, series B, payable March 1. This is the first payment on the issue since Jan. 15 1933, when a regular quarterly distribution of \$1.50 was made. Columbian Carbon Co. declared a dividend of \$1 per share on the voting trust certificates for common stock, payable March 1; 85 cents per share was paid last Dec. 1 and Sept. 1 and only 75 cents June 1. Archer-Daniels-Midland Co. declared a special dividend of 25 cents per share in addition to the regular quarterly of same amount on the common stock, payable March 1; similar distributions were made last Sept. 1 and Dec. 1.

Business Failures in January

BUSINESS failures in the United States for January this year were considerably reduced in number, as compared with those for that month in earlier years back to 1920. The liabilities also were for a smaller amount. The records of Dun & Bradstreet show 1,184 defaults in mercantile lines for the opening month of the year, involving a total indebtedness of \$18,823,697. For January of last year, the corresponding figures were respectively 1,364 and \$32,905,428. For that month in many of the preceding years back to 1920, the number of business defaults with the liabilities, were more than double those for January this year. As recently as 1932, the same record was three times as high.

The January figures this year compare with 963 business failures in December, owing a total of \$19,910,610. Some increase after the close of the year usually occurs, but it was no greater this year than generally appears. The fact is that in each month during the last half of 1934, business defaults were down to a very low total, considerably below the figures for the preceding years back to 1920. It is evident that the New Year has started out along the same line.

Separated by branches of business, the report for January this year was relatively better for the trading division, than for the other leading classes. Failures last month were more largely of the smaller varieties, that is, the smaller concerns. In both respects, this has characterized the reports of business defaults for a number of months past. There were 826 failures classified in the trading division in January this year, with liabilities of \$8,129,322; 269 of manufacturing concerns for \$5,318,989 of indebtedness, and 89 in the third class, mainly agents and brokers, owing \$5,375,386. In January of last year the number of trading failures was 951, for \$18,110,930; manufacturing concerns 295, owing \$9,265,377, and others, 118, for \$5,529,121 of liabilities.

The improvement in January as compared with that month in 1934 was most notable in the West and the South. For each of the leading geographical divisions of the United States there was a reduction in the number of business failures. The East did not show such a marked decline as did some of the other sections. Separating the report by Federal Reserve

Districts, the East is covered by the first three divisions. For the Boston and the New York Federal Reserve districts there were reductions in the former as to the number of failures of 5.2 per cent and in the latter of 7.4 per cent. For the Philadelphia District a small increase appears. Liabilities in the Boston District were slightly higher last month than they were a year ago, but for the two other sections they were scarcely more than one-half the amount reported for last year.

For the Cleveland District, failures in both years numbered about the same, but liabilities this year were very much less. Chicago comes next and in that District failures were greatly reduced this year; also liabilities. The same is true as to the Minneapolis Federal Reserve District. Some reduction appeared for the Kansas City and San Francisco Districts, although liabilities reported for the latter were heavy, and nearly as high as in January a year ago.

In the South the reports were generally very favorable. This has been the case for a number of months past, well back into last year, and undoubtedly reflects the release of large Government funds in that part of the country. For the St. Louis Federal Reserve District, which covers a large part of the Central-Southern States and the Southwest, the reduction in the number of failures was not so marked as in the other divisions, but liabilities were very much smaller. This was also true as to Texas, covered by the Dallas District. But for the seaboard States of the South, covered by the Richmond and Atlanta Federal Reserve districts, the reduction in the number of failures in January, between the two years was above one-third. Liabilities also were very much smaller this year.

The New York Stock Market

CECURITIES trading in the New York market remained this week almost completely under the spell of the gold clause litigation uncertainty and further moves by the Administration in Washington which are decidedly antagonistic to business. There was very little activity in stocks at any time, the turnover on the New York Stock Exchange last Monday being only 345,055 shares, while in all subsequent sessions the 500,000-mark was only slightly exceeded. Prices moved materially lower in the early half of the week, and modest gains Thursday and yesterday served to offset the losses only in part. The week was much the most monotonous and gloomy witnessed so far this year, all average compilations reflecting lows for 1935 in the early part of the week. To the gold clause uncertainty and the prospect of nearly \$5,000,000,000 in extraordinary national expenditures in the coming fiscal year was added this week a new banking bill which caused chills to run down the spines of all conservative bankers, as it would place the banking system almost completely under Treasury domination. Also proposed in Washington was a measure calculated to eliminate holding companies in the utilities industry. As if these blows were not enough, the Department of Justice instituted suit under the Clayton anti-trust law to prevent a proposed merger of the Republic Steel Co. with five smaller companies. One of the few satisfactory developments was an indication that Federal financial support for railroads will be continued. In these circumstances no incentive existed for investment activities.

Monday's session on the New York Stock Exchange was gloomy in the extreme. There was hardly any demand for stocks, and small offerings sufficed to reduce quotations sharply in some instances. All groups of issues were marked downward, but because of the inactivity most recessions were only fractional. The downward tendency was again in evidence on Tuesday, and in that session lowest average figures were attained for the current year in stocks. The market was vulnerable, and small offerings again sufficed to depress figures. The tone was slightly improved in another quiet session on Wednesday, but most issues showed further losses. There was a more liberal sprinkling of small gains, however, despite reports of the proposed banking and utility holding company legislation. Fractional gains predominated on Thursday, owing in good part to the better sentiment occasioned by indications of continued Federal financial support for the carriers. Railroad stocks were better as a whole, while utility, motor and steel stocks likewise advanced. Republic Steel shares naturally declined a little because of Administration opposition to the merger proposal. The upward movement was continued vesterday in the most active session of the week. The gains were numerous, but small, and the increase in activity was not pronounced, as the gold clause decision was considered imminent.

In the listed bond market irregular conditions prevailed. United States Government securities were in persistent demand, and small fractional gains were recorded day by day. Highest-grade corporate bonds showed no great changes, but speculative issues were marked sharply lower early in the week, while modest gains were general thereafter. Movements in speculative bonds were far more pronounced than those in equities, but the total turnover in bonds also was exceedingly small. In the foreign exchange markets uncertainty prevailed, with the gold units persistently soft. The stabilization fund intervened, however, and was reported a heavy buyer of gold in European markets for shipment to the United States. Commodity markets were weak and strong by turns, with the most pronounced movement of the week recorded on Monday, when grains dipped to an unusual degree. Trade and industrial reports remain moderately favorable, but the securities markets were not in a mood to take much account of the improvement. Steel-making operations for the country were estimated for the week ending to-day at 52.8% of capacity by the American Iron and Steel Institute against 52.5% last week. Production of electric power for the week ended Feb. 2, as reported by the Edison Electric Institute, was 1,762,671,000 kilowatt hours against 1,781,666,000 kilowatt hours in the preceding week. Car loadings of revenue freight were 598,164 cars in the week to Feb. 2, an increase of 42,396 cars over the previous weekly period, the American Railway Association reports.

As indicating the course of the commodity markets, the May option for wheat in Chicago closed yesterday at 965%c. as against 961%c. the close on Friday of last week. May corn at Chicago closed yesterday at 845%c. as against 84c. the close on Friday of last week. May oats at Chicago closed yesterday at 497%c. as against 495%c. the close on Friday of last week. The spot price for cotton here in New York closed yesterday at 12.65c. as against

12.55c. the close on Friday of last week. Domestic copper closed yesterday at 9c., the same as on Friday of last week.

In London the price of bar silver was 24 7/16 pence per ounce as against 24 5/16 pence per ounce on Friday of last week, and spot silver on New York at 53%c. against 53½c. on Friday of last week. In the matter of the foreign exchanges, cable transfers on London closed yesterday at \$4.881/8 as against \$4.871/8 the close on Friday of last week, while cable transfers on Paris closed yesterday at $6.56\frac{1}{8}$ c. as against $6.56\frac{1}{4}$ c. on Friday of last week. On the New York Stock Exchange 56 stocks reached new high levels for the year, while 410 stocks touched new low levels. On the New York Curb Exchange 55 stocks touched new high levels for the year, while 121 stocks touched new low levels. Call loans on the New York Stock Exchange remained unchanged at 1%.

On the New York Stock Exchange the sales at the half-day session on Saturday last were 399,090 shares; on Monday they were 344,955 shares; on Tuesday, 558,780 shares; on Wednesday, 557,040 shares; on Thursday, 524,130 shares, and on Friday, 587,260 shares. On the New York Curb Exchange the sales last Saturday were 74,205 shares; on Monday, 83,930 shares; on Tuesday, 100,095 shares; on Wednesday, 127,200 shares; on Thursday, 117,245 shares, and on Friday, 166,045 shares.

The stock market this week was again subject to the same influences as on previous occasions when cautiousness and uncertainty were the dominating features of trading. The cause for most concern to traders continues to be the much-awaited decision of the Supreme Court on the gold clause suits now pending before that body. As compared with the close on Friday a week ago, prices at yesterday's close were generally lower. General Electric closed yesterday at 23% against 23½ on Friday of last week; Consolidated Gas of N. Y. at 18% ex-div. against 195/8; Columbia Gas & Elec. at 63/4 against 7; Public Service of N. J. at 241/4 against 257/8; J. I. Case Threshing Machine at 55½ against 54%; International Harvester at 40½ against 41¼; Sears, Roebuck & Co. at 351/2 against 331/2; Montgomery Ward & Co. at 26% against 25%; Woolworth at 53% exdiv. against 541/4; American Tel. & Tel. at 104 against 105, and American Can at 1141/2 against 112.

Allied Chemical & Dye closed yesterday at 135¾ against 135 on Friday of last week; E. I. du Pont de Nemours at 94⅓ against 94; National Cash Register A at 16 against 16¾; International Nickel at 23⅓ against 23; National Dairy Products at 15¾ against 16; Texas Gulf Sulphur at 35 against 35; National Biscuit at 28⅓ against 28⅓; Continental Can at 66 against 65⅓; Eastman Kodak at 113⅓ against 113; Standard Brands at 17⅓ against 175⅓; Westinghouse Elec. & Mfg. at 38⅓ against 37⅓; Columbian Carbon at 73¼ against 71; Lorillard at 20¼ against 19⅓; United States Industrial Alcohol at 37⅓ against 36⅓; Canada Dry at 13⅓ against 13⅓; Schenley Distillers at 25⅙ against 25, and National Distillers at 27⅓ against 26⅓.

The steel stocks are fractionally lower than at the close on Friday a week ago. United States Steel closed yesterday at 361/8 against 363/8 on Friday of last week; Bethlehem Steel at 293/4 against 297/8; Republic Steel at 131/4 against 137/8, and Youngstown Sheet & Tube at 173/4 against 181/2. In the motor group, Auburn Auto closed yesterday at 233/4

against $24\frac{1}{4}$ on Friday of last week; General Motors at $31\frac{3}{8}$ against $30\frac{7}{8}$; Chrysler at $38\frac{7}{8}$ against $37\frac{1}{8}$, and Hupp Motors at $2\frac{3}{4}$ against $2\frac{3}{4}$. In the rubber group, Goodyear Tire & Rubber closed yesterday at $22\frac{3}{8}$ against $22\frac{1}{4}$ on Friday of last week; B. F. Goodrich at $9\frac{7}{8}$ against $9\frac{7}{8}$, and U. S. Rubber at $14\frac{3}{8}$ against 14.

The railroad shares are irregularly changed for the week as compared with the close on Friday of last week. Pennsylvania RR. closed yesterday at 213/4 against 211/8 on Friday of last week; Atchison Topeka & Santa Fe at 445% against 437%; New York Central at 171/4 against 175/8; Union Pacific at 100 against 101; Southern Pacific at 15\% against 151/8; Southern Railway at 12% against 12%, and Northern Pacific at 171/2 against 173/4. Among the oil stocks, Standard Oil of N. J. closed yesterday at 40½ against 40½ on Friday of last week; Shell Union Oil at 7 against 6%, and Atlantic Refining at 243/8 against 243/4. In the copper group, Anaconda Copper closed yesterday at 10\% against 10\% on Friday of last week; Kennecott Copper at 17 against 165/8; American Smelting & Refining at 35 against 34\%, and Phelps Dodge at 14\% against 14\%.

European Stock Markets

PRICE irregularity and inactive sessions were the rule this week on stock exchanges in all leading European financial centers. Movements were small at London, Paris and Berlin, but the recessions were generally more pronounced than the advances. The international agreement announced by British and French Ministers at London over the week-end produced a good impression, but all markets were more concerned with monetary matters and local influences than high international politics. The approach of settlement day on the London market, Thursday, caused some anxiety there, owing to the crash in the pepper and shellac markets last week. The settlement actually passed without incident, but late on Thursday announcement was made of the failure of a leading firm of produce and metal dealers. The Paris market was depressed by indications that rediscounting facilities for short-term Treasury obligations may not be made available readily by the Bank of France. Continued unsettlement in foreign exchanges was not conducive to new commitments by traders and investors in any of the European markets. It is understood that French officials discussed stabilization with British Ministers, during their visit to London late last week, but the results were negative. The opinion now prevails in Paris, it is said, that British authorities believe stabilization attempts futile until the gold units are devalued. There was open discussion in the Belgian Parliament this week of devaluation of the Belga, with adherents of several parties favoring the expedient. Trade and industrial reports of the leading European countries fail to reflect any important changes currently.

Few changes of any importance were noted on the London Stock Exchange in the quiet initial trading session of the week. British funds opened firm but eased later, while industrial issues were irregular. Some speculative buying was noted in shares of a television company, but the market otherwise was featureless. German bonds were firm, while other international securities showed few changes. An uncertain tone again was in evidence Tuesday, with British funds lower on realizing sales. Further gains were recorded in the television shares, and

a few industrial issues joined the upward movement, but most securities drifted slightly lower. In the international section German bonds again were strong, while other issues receded. Uncertainty in the commodity markets affected securities on the approach of settlement day, and the tone was dull Wednesday. British funds drifted downward, and the industrial section also closed with losses. Television shares met heavy realizing sales and failed to furnish a relieving feature. International securities followed the general tendency to lower levels. Sentiment was somewhat better on Thursday, when British funds were well maintained, while a few industrial stocks showed modest improvement. Home rails also were higher, but the great bulk of issues showed little change. Failure of the firm of James & Shakespeare, Ltd., produce and metal dealers with capital of £425,000, was announced after the close. The tone yesterday was uncertain, as there was still a good deal of anxiety regarding the commodity market incidents. British funds and most industrial stocks were lower, but gains appeared in home rail issues and international securities.

Dealings on the Paris Bourse were started optimistically on Monday, owing to the week-end developments at London, but public participation was lacking and prices soon began to drop. Rentes closed without much change, but French bank, utility and industrial stocks mostly were off for the day. International issues were irregular. Announcement on Tuesday that the national deficit on 1934 tax returns was 4,000,000,000 francs acted as a subduing influence Tuesday, and more losses than gains were shown in the irregular market. Rentes held better than stocks, but the recessions were small in all instances. There was very little trading Wednesday, which was the anniversary of the civil strife in Paris, last year. Rentes improved slightly, however, on unrealized rumors that the Bank of France discount rate would be lowered. French equities were uncertain, while foreign securities drifted lower as After a firm opening, Thursday, prices again slipped downward on the Bourse, with the recessions quite pronounced toward the end. Rentes were not greatly changed, but bank stocks suffered from extensive liquidation and industrial shares Prices yesterday were likewise were affected. marked sharply lower, owing to Parliamentary opposition to Premier Flandin's policies. Rentes and bank stocks were affected more than international securities.

Losses were general on the Berlin Boerse when trading was resumed on Monday. Gains recorded in the previous week occasioned realizing sales and all groups of equities suffered, with losses ranging up to 5 points. Fixed-interest securities were quiet and not much changed. After a further sharp and general decline early Tuesday, recovery set in on the German market and closings were mostly at improved figures. Stocks that were heaviest on the previous day showed the largest gains, but it was surmised in some quarters that bank intervention was chiefly responsible for the advances. Bonds were dull and unchanged. In a very quiet session on Wednesday, mild irregularity was noted. Professional speculators withdrew from the market, reports said. and there was no indication of public interest. In these circumstances movements were mostly fractional, with gains and losses about equally represented at the close. Fixed-income issues were

definitely soft. No change was witnessed in conditions on Thursday, other than a very slightly stronger tone at the finish. The market was hesitant and inactive, and changes were hardly worth recording. The tone was irregular in a quiet session yesterday, but more gains than losses appeared at the close.

Brazilian Trade Agreement

SIGNATURES were attached in Washington, last Saturday, to a reciprocal trade treaty between the United States and Brazil, negotiated under the special tariff and treaty powers granted President Roosevelt by Congress last year. Tariff concessions of some importance are made by each country on products of the other, and there is no doubt that some stimulation of commercial exchanges will follow. In a separate note, moreover, the Brazilian Government promised to take steps for continued payments on its governmental and commercial obligations to the United States. This is the second treaty negotiated under the special powers, an arrangement having been made with Cuba last summer. But special conditions made possible an exceptionally favorable agreement with Cuba, whereas the Brazilian treaty was drafted with due reference to the most-favored-nation pacts signed by the United States with almost all countries. The new accord, for this reason, is looked upon as a model for more than a dozen additional treaties which now are under negotiation. Secretary of State Cordell Hull signed the new agreement for the United States, while Ambassador Oswaldo Aranha signed for Brazil. The ceremony took place at the White House, before a distinguished gathering, which included the members of the special Brazilian Financial Mission headed by Finance Minister Arthur de Souza Costa. The Mission came to the United States to discuss debt and commercial problems. After concluding the tariff negotiations, Senhor de Souza Costa and his associates came to New York, and they have been in this city all this week.

Coffee is the chief Brazilian product, but it is already on the free list of the United States tariff schedule, and the American tariff concessions thus are confined to 50% reductions in existing rates on manganese ore, Brazil nuts, castor beans, copaiba balsam, processed ipecac and processed mate. Brazilian import duties are to be cut from 20% to 60% on a long list of American products, such as automobiles and parts, tires, radio apparatus, paints and varnishes, soap, oilcloths, linoleum, leather, steel furniture, gasoline pumps, cement, canned goods, oatmeal, powdered milk and chewing gum. In the separate Brazilian note, the promise is made that exchange will be made available gradually for payment of currently deferred commercial balances, while sufficient exchange is to be provided for payment, when due, for future imports from the United States. If bank credits can be obtained for funding of the existing commercial balances, it is added, exchange will be reserved in sufficient amounts to continue the servicing of Brazilian dollar bonds in accordance with the Aranha agreement of last February.

In an official summary of the tariff agreement with Brazil, issued by the State Department, it is noted that the pact is based upon the principle of unconditional most-favored-nation treatment and on the consequent assumption that the concessions which each country grants to the products of the other will, as a general rule, in the absence of special consideration, be extended to like products of other countries. Secretary of State Hull expressed his personal gratification over what he called "the first break in the log-jam of international trade created by restrictions, such as quotas, import licenses, trade controls, special arrangements and almost numberless other throttling devices." Agreements of a similar nature are in the making with 15 other countries, he remarked, and the negotiations are so far advanced in some cases that completion may be expected soon. "Having once started on the road away from the medieval mercantilism which was strangling the commerce of a new world, progress should now be more rapid and the movement should gain momentum," Mr. Hull added. The State Department declared that the agreement was designed rather to facilitite an increase in international trade than to divert trade away from other countries. In Brazil, also, the conclusion of the pact caused satisfaction, according to dispatches from Rio de Janeiro.

It was indicated in Washington, last Sunday, that an official "blacklist" of countries that persist in discriminating against the United States in trade matters is under preparation, and that tariff concessions contained in such treaties as the one just concluded with Brazil might not be extended to such discriminating countries. Soviet Russia, it was stated, will not receive the benefit of the 50% reduction in the manganese tariff, and it was suggested that this action reveals the significance of the phrase "in the absence of special considerations" in the State Department summary of the most-favorednation aspects of the Brazilian treaty. Secretary of State Hull explained on Monday that the new policy is one of indirect pressure on foreign governments, with a view to obtaining equal treatment. Such pressure will be exerted in two ways, it was said. The United States will refuse to negotiate special tariff pacts with countries that are discriminating against us, and will also refuse to generalize tariff concessions in such instances.

Litvinoff Answers Hull

OREIGN COMMISSAR MAXIM LITVINOFF issued a statement in Moscow, last Saturday, which presents the Russian side of the debt negotiation controversy with the United States Government. After dragging along for a year, these negotiations were suddenly terminated on Jan. 31, and a statement then was issued by United States Secretary of State Cordell Hull, in which the blame for the failure was placed upon the Russian Government and the comment added that an agreement does not seem possible owing to the Soviet attitude. M. Litvinoff declared in his rebuttal that the deadlock resulted from the rejection by the State Department of one of the chief points agreed upon in conversations with President Roosevelt in 1933. The portion of the understanding thus put in question concerns a loan which the United States Government was to extend to Russia, he indicated. Russia steadily has adhered to the principle that it is willing to discuss old debts, but only upon recognition of Soviet counter-claims and provisions for loans, M. Litvinoff remarked. The Soviet Government adhered strictly to the provisions of the agreement reached with President Roosevelt, but refused "to follow the path which would have led to complete

annulment of the results achieved previously and to the necessity of new negotiations concerning the fundamental principles of agreement." To these comments, the Soviet statement added an expression of regret that the negotiations have not succeeded, and it was also remarked that the relations of the two countries should not be injured by the circumstance. No attempt was made in Washington to conceal the profound disappointment felt over the turn of events, and announcement was made, Wednesday, that the general Consulate in Moscow will be discontinued and a number of American representatives withdrawn from Russia. Significant, also, is the decision not to extend to Russia the 50% tariff reduction on manganese ore to be effected under the new reciprocal tariff with Brazil,

Anglo-French Understanding

NDEAVORS to secure the peace of Europe, in which Great Britain long has played a leading part, found a new expression at the end of three days of discussion by Ministers of the British and French Governments in London, from Jan. 31 to Feb. 3. A tentative understanding was reached by the two Governments for recognition of German rearming in return for German re-entry into the League of Nations, and at the same time a suggestion was made for a five-Power mutual air defense pact, in which Great Britain, France, Italy, Germany and Belgium would be the participants. The first of these general proposals follows closely the lines of the reported British plan, which Premier Pierre-Etienne Flandin of France and Foreign Minister Pierre Laval journeyed to London to discuss. The aerial defense proposal was not previously rumored, in connection with the recent London talks, but it is at least of equal importance. Consummation of the plans hinges on the reaction of the German Government, and it is significant that the Nazi leaders of that country are giving unremitting attention to them at present.

The plans disclosed at the end of the London conversations follow a long period of private diplomatic discussions among all the leading governments of Europe. It has been plain for some time that a general effort was being made to find a formula for adjustment of problems involved in the acknowledged German rearming and demand for equality, the absence of the Reich from the League, and the French thesis of security before disarmament. When France and Germany agreed at Rome on principles governing the Saar plebiscite, it was assumed quite generally that important further proposals would be made. The plans now proposed undoubtedly are parts of the general scheme for maintenance of European peace, as it was developed and perfected in the London discussions. The two French Ministers consulted in London chiefly with Prime Minister Ramsay MacDonald and Foreign Secretary Sir John Simon. A meeting of the British National Cabinet last Saturday gave an indication of the importance of the new development, as the British week-end is disturbed only for extraordinary occasions. At the conclusion of the conversations, last Sunday, a carefully worded joint communication was issued, all interested governments having been informed of the proposals immediately prior thereto.

The object of the London meeting, this communication said, was to promote the peace of the world

by closer European co-operation in a spirit of most friendly confidence, and to remove those tendencies which, if unchecked, are calculated to lead to a race in armaments and an increase in the dangers of war. The League of Nations was praised for recent efforts in behalf of international conciliation, and the British and French Governments declared their intentions of continuing such policies. In behalf of the British Government, gratification was expressed over the recent Franco-Italian accord, and London agreed to consult with those Powers if the independence and integrity of Austria is menaced.

"The British and French Ministers hope that the encouraging progress thus achieved may now be continued by means of direct and effective co-operation with Germany," the statement continued. "They have agreed that neither Germany nor any other Power whose armaments have been defined by peace treaties is entitled by unilateral action to modify these obligations. But they are further agreed that nothing could contribute more to the restoration of confidence and the prospects of peace among nations than a general settlement freely negotiated between Germany and the other Powers. This general settlement would make provision for the organization of security in Europe, particularly by means of the conclusion of pacts freely negotiated between all interested parties and insuring the mutual assistance of Eastern Europe and the system foreshadowed in the Rome proces verbal for Central Europe. Simultaneously, and in conformity with the declarations of Dec. 11 1932, regarding equality of rights in a system of security, this settlement would establish agreements regarding armaments generally, which in the case of Germany would replace the provisions of part of the Treaty of Versailles at present limiting arms and armed forces in Germany. It would also be part of the general settlement that Germany should resume her place in the League of Nations, with a view to active membership. The French Government and the Government of the United Kingdom trust that the other governments concerned may share these views."

The communication related also that the British and French Ministers were impressed by the special dangers to peace created by modern developments in the air. Misuse of air forces might lead to sudden aerial aggression by one country upon another, it was remarked, and consideration, therefore, was given to the possibility of a reciprocal regional agreement against air attacks. "It is suggested," the statement added, "that the signatories would undertake immediately to give the assistance of their air forces to whichever of them might be the victim of unprovoked aerial aggression by one of the contracting parties. The British and French Ministers, on behalf of their respective governments, found themselves in agreement that a mutual arrangement of this kind for Western Europe would go far to operate as a deterrent to aggression and to insure immunity from sudden attacks from the air, and they have resolved to invite Italy, Germany and Belgium to consider with them whether such a convention might not be promptly negotiated." The sole aim of the two governments in this connection is that of reinforcing peace, it was said, and the two countries expressed their willingness to resume consultations without delay after the receipt of replies.

Immediately after issuance of this joint statement, Foreign Secretary Sir John Simon made a radio address in which he explained the results of the London conversations to the British people and urged popular support for the program. There is a distinct advantage for Great Britain in the aerial defense proposal, he said, as such a treaty would give England the right to call for aid from European countries. There would, moreover, be no additional responsibilities or obligations for Great Britain, as the London Government already is bound to take part in any aggressive conflict in Western Europe under the Locarno treaty, he pointed out. Premier Flandin, after his return to Paris, Monday, also endeavored to explain the results of the London conversations in a radio speech. He expressed the hope that Germany, which has been asserting its desire for peace recently, will take advantage of the opportunity now presented. "That great nation should participate equally and freely in the construction of European security that is so desirable," M. Flandin remarked. To the Chamber of Deputies, M. Flandin explained on Tuesday that British and French statesmen had established solidarity and reciprocity of action in negotiating an air convention. The impression thus given that the Anglo-French aerial agreement was an established fact was not accepted in London, however, as acceptance by Germany was considered the sine qua non by the British Government. It was generally agreed in London, however, that Germany will be isolated if she does not accept the proffer now made.

Although the British Government took the highly unusual step of publishing the results of the London conference before informing the Parliament, it was generally agreed by London observers that acceptance of the proposals in Great Britain is assured. French approval also was held a foregone conclusion, as all shades of French opinion expressed satisfaction over the achievements of the French Ministers in London. The reaction of the German Government, however, is difficult to predict, partly because free expression of opinion is banned in the Reich and partly because of the inclusive nature of the proposals. Chancellor Adolf Hitler and Foreign Minister Konstantin von Neurath devoted all their attention to the Anglo-French proposals this week, and it was held especially significant that former Crown Prince Friedrich Wilhelm was called into conference on the matter. There are, of course, certain features in the proposals which will hardly appeal to the Nazi Government. The suggestion for conclusion of the long-discussed Eastern Locarno and the approval of the Franco-Italian idea of a security pact for Central Europe are among such features. The Reich, moreover, always has insisted upon recognition of armaments equality before returning to Geneva, and suitable formulas thus remain to be evolved. It is thus apparent that a protracted period of direct international discussions impends, with the peace of Europe probably hanging in the balance.

British Dole

THERE is much that is instructive for the United States in British experiences with the dole, since relief expenditures in this country have grown to enormous proportions and are producing a state of mind among the recipients quite similar to that

in evidence in Great Britain. A new plan of caring for British unemployed, whose right to unemployment insurance had expired, was adopted by the Parliament in London last year, and a start toward its general introduction was made beginning Jan. 7. It was proposed to meet the needs of the uninsured on a national basis, as against the old plan of local relief agencies, and estimates indicated that the costs of the new scheme would be considerably higher. But in many individual instances the new rates paid were less than the old figures, and a storm of protest was raised by the dole recipients. Minister of Labor Oliver Stanley promised to investigate the alleged grievances, which he attributed at first to difficulties in setting up new and complicated machinery. The protests continued to swell in volume and number, however, and Mr. Stanley admitted, Tuesday, that "a substantial amount of hardship" perhaps justified the "widespread uneasiness." The new regulations would be suspended, he said, where they caused a diminution of payments, but would be maintained where they occasioned an increase. Even these concessions apparently failed to satisfy some of the dole recipients at Sheffield, who staged a riot before the City Hall, Wednesday, in which a score of persons were injured. Protest meetings in which still higher payments were demanded were held in numerous places in Great Britain, an Associated Press dispatch said.

French Policies

LTHOUGH the French Government of Premier A Pierre-Etienne Flandin is making satisfactory progress in the international field, internal difficulties appear to be increasing and there is keen general interest in the effect of the developments on the "New Deal" program of the Premier. Much apprehension was occasioned by the approach of the anniversary, on Feb. 6, of the riots in the Place de la Concorde which caused the deaths of 20 persons and injury to hundreds. The Government issued an order prohibiting all demonstrations in the streets of Paris, but crowds surged along the boulevards and it was found necessary to make more than 1,000 Communists splashed red paint over statues and bridges in the city, but the day, fortunately, passed without serious incidents. roster of French unemployed, meanwhile, continues to increase, and the deficit of the Government also is growing. There were rumors, this week, that M. Flandin might seek a loan in London, as the regents of the Bank of France are not disposed to agree to the rediscounting by that institution of the increased amount of short-term Treasury bills recently authorized. It was in order to facilitate the rediscounting that M. Moret was removed as Governor of the Bank of France on Jan. 2 and replaced by M. Jean Tannery. A Paris dispatch of last Saturday to the New York "Times" indicates that the regents, who represent the private shareholders, feel that the French Government should adopt a policy calculated to uphold its credit and permit continued long-term financing. If this were done, they claim, there would be no need of wholesale resort to short-term borrowing, with the Bank of France bolstering the Treasury's credit through excessive use of rediscounting facilities. "The serious situation this entails for France's financial structure if it continues cannot be overestimated." the dispatch adds.

Chilean Debts

NNOUNCEMENT by the Foreign Bondholders' Protective Council, last Monday, that the Chilean Government is sending a financial mission to the United States for consultations on the defaulted external debts of that country represents an interesting and significant development. Chile has adopted a procedure in connection with its defaults that can hardly be considered an admirable one, and the new mission is intended to explain that procedure. Laws already have been passed by the Chilean Congress, and signed by the Executive, for resuming interest payments and amortization in accordance with amounts available to the Caja Autonoma de Amortizacion de la Deuda Publica from the Government's share of profits of the Nitrate Sales Corporation and from the revenues of certain taxes applied on copper enterprises. Half the amount thus realized is to be utilized for interest payments on all external debt of the Government, municipalities, railroads and mortgage banks, aggregating approximately \$437,000,000, while the other half is to go for purchases of bonds in the respective foreign markets. It is calculated by those familiar with Chilean affairs that the stipulated revenues would amount, under present conditions, to no more than \$4,000,000 annually, and the resumption of interest payments thus would be at the rate of $\frac{1}{2}\%$ per annum. More important than the immediate amount of the debt service is the principle which Chile is endeavoring to establish—the principle of paying in accordance with a few special revenues, rather than in accordance with the usual principle of national capacity to pay. There is no doubt that spokesmen for American and British bondholders will have serious objections to make to the Chilean plan.

Discount Rates of Foreign Central Banks

THERE have been no changes during the week in the discount rates of any of the foreign central banks. Present rates at the leading centers are shown in the table which follows:

DISCOUNT RATES OF FOREIGN CENTRAL BANKS

Country	Rate in Effect Feb. 8	Date Established	Pre- vious Rais	Country	Rate in Effect Feb. 8	Date	Pro- vious Rate
Austria	436	June 27 1934	5	Hungary	436	Oct. 17 1932	5
Belgium	216	Aug. 28 1934	3	India	314	Feb. 16 1934	4
Bulgaria	7	Jan. 3 1934	8	Ireland	3	June 30 1932	314

Holland	236	Sept. 18 1933		Switzerland	2	Jan. 22 1931	236

Foreign Money Rates

IN LONDON open market discounts for short bills on Friday were $5-16@\frac{3}{8}\%$ as against $5-16@\frac{3}{8}\%$ on Friday of last week, and $5-16@\frac{3}{8}\%$ for three-months' bills as against $\frac{3}{8}\%$ on Friday of last week. Money on call in London yesterday was $\frac{1}{4}\%$. At Paris the open market rate remains at $1\frac{1}{8}\%$, and in Switzerland at $1\frac{1}{2}\%$.

Bank of England Statement

THE Bank's statement for the week ended Feb. 6 shows a loss of £37,483 of bullion leaving the total at £193,022,108 as compared with £191,787,025 a year ago. The loss in gold being attended by an expansion of £2,047,000 in circulation, reserves fell

off £2,084,000. Public deposits decreased £4,-414,000 while other deposits rose £2,358,898. The latter consists of bankers' accounts which increased £5,113,137 and other accounts which declined £2,-754,239. Proportion of reserve to liabilities dropped slightly to 47.53% from 48.21% a week ago; last year the ratio was 53.98%. Loans on Government securities increased £390,000 and those on other securities fell off £334,292. Of the latter amount £13,941 was from discounts and advances and £320,361 from securities. No change was made in the 2% discount rate. Below are tabulated the different items with comparisons of prior years:

BANK OF ENGLAND'S COMPARATIVE STATEMENT

	Feb. 6 1935	Feb. 7 1934	Feb. 8 1933	Feb. 10 1932	Feb. 11 1931
	£	£	£	£	£
Circulation	376,988,000	368,184,624	357,380,130	346,519,212	347,245,425
Public deposits	16,535,000	17.272.431	13,501,583	16,435,197	13,502,637

Bank of France Statement

HE Bank of France statement for the week ended Feb. 1 shows a decline in gold holdings of 134,296,964 francs. The total of gold now stands at 81,879,707,304 francs, which compares with 76,860,453,361 francs a year ago and 81,893,916,973 francs two years ago. French commercial bills discounted and creditor current accounts record decreases of 448,000,000 francs and 1,926,000,000 francs, while advances against securities show an increase of 85,000,000 francs. Notes in circulation reveal a large gain, namely 1,658,000,000 francs. The total of circulation is now at 83,343,044,770 francs, in comparison with 81,059,108,685 francs last year and 84,561,690,325 francs the previous year. The proportion of gold on hand to sight liabilities stands at 80.56% and compares with 79.10% the corresponding period a year ago. A comparison of the various items for three years appears below:

BANK OF FRANCE'S COMPARATIVE STATEMENT

Bank of Germany Statement

THE Reichsbank's statement for the last quarter of January shows a further increase in gold and bullion, the current advance being 596,000 marks. The Bank's gold now aggregates 79,782,000 marks, in comparison with 376,180,000 marks last year and 821,903,000 marks the previous year. Reserve in foreign currency, bills of exchange and checks, advances and investments record increases of 50,000 marks, 275,144,000 marks, 25,069,000 marks and 701,070,000 marks, respectively. Notes in circulation show an increase of 231,177,000 marks. The total of circulation is now 3,660,096,000 marks, which compares with 3,458,412,000 marks a year ago and 3,337,805,000 marks two years ago. The proportion of gold and foreign currency to note

circulation stands at 2.30%, compared with 11.1% a year ago. A decrease appears in silver and other coin of 123,766,000 marks; in notes on other German banks of 12,514,000 marks; in other assets of 58,626,000 marks; in other daily maturing obligations of 116,838,000 marks, and in other liabilities of 7,316,000 marks. Below we furnish a comparison of the different items for three years:

New York Money Market

HERE was nothing to distinguish the New York money market this week from previous periods, other than a continual increase in the pressure of idle funds. With excess reserves of member banks with the Federal Reserve System now in excess of \$2,300,000,000, no occasion for any early hardening of rates seems conceivable. Where any tendency in rates is discernible, it is toward lower charges. The United States Treasury, for instance, sold on Monday an issue of \$75,000,000 discount bills due in 182 days at an average discount of 0.12%, computed on an annual bank discount basis. Yesterday, a similar issue was sold at an average discount of 0.11%. Call money on the New York Stock Exchange was again 1% all week and for all transactions, while in the unofficial street market trades were reported daily at 3/4%. Time money held to its range of 3/4@1%. Commercial paper and bankers' bill rates were carried over from last week. The comprehensive brokers' loan total of the New York Stock Exchange for the end of January was \$824,-958,161, a decrease of \$55,304,994 during January.

New York Money Rates

DEALING in detail with call loan rates on the Stock Exchange from day to day, 1% remained the ruling quotation all through the week for both new loans and renewals. The market for time money is unchanged this week, no transactions having been reported. Rates are nominal at 34@1% for two to five months and 1@11/4% for six months. Transactions in prime commercial paper have been in good volume. Paper has been in fair supply and the demand has been brisk. Rates are 34% for extra choice names running from four to six months and 1% for names less known.

Bankers' Acceptances

THE market for prime bankers' acceptances has shown no change this week. Few bills have come out this week and these are mostly in the silk group. Rates are unchanged. Quotations of the American Acceptance Council for bills up to and including 90 days are 3-16% bid and ½% asked; for four months, 5-16% bid and ½% asked; for five and six months, ½% bid and ½% asked. The bill buying rate of the New York Reserve Bank is ½% for bills running from 1 to 90 days and proportionately higher for longer maturities. The Federal

Reserve banks' holdings of acceptances decreased from \$5,538,000 to \$5,503,000. Their holdings of acceptances for foreign correspondents, however, increased from \$317,000 to \$366,000. Open market rates for acceptances are nominal in so far as the dealers are concerned, as they continue to fix their own rates. The nominal rates for open market acceptances are as follows:

	10	Asted
d A		Asked
		16% bid
R	RTY D	

Discount Rates of the Federal Reserve Banks

THERE have been no changes this week in the rediscount rates of the Federal Reserve banks. The following is the schedule of rates now in effect for the various classes of paper at the different Reserve banks:

DISCOUNT RATES OF FEDERAL RESERVE BANKS

Federal Reserve Bank	Rate in Effect on Feb. 8	Date Established	Previous Rate
Boston	2	Feb. 8 1934	214
New York	11/6	Feb. 2 1934	2
Philadelphia	2	Jan. 17 1935	216
Cleveland	2	Feb. 3 1934	213
Richmond	216	Jan. 11 1935	3
Atlanta	2	Jan. 14 1935	214
Chicago	2	Jan. 19 1935	234
Bt. Louis	2	Jan. 3 1935	216
Minneapolis	214	Jan. 8 1935	3
Kansas City	214	Dec. 21 1934	3
Dallas	214	Jan. 8 1935	3
San Francisco	2	Feb. 16 1934	214

Course of Sterling Exchange

CTERLING exchange is steadier than at any time since the wide break in the foreign exchange market which occurred on Jan. 15. Trading in this and all other currencies is greatly restricted as markets continue hesitant and nervous pending the decision of the United States Supreme Court on the gold clauses. Fluctuations this week were within extremely nacrow limits, considering the abnormal conditions affecting all exchanges, and the ruling rates were fractionally better in terms of the dollar than the highest quotations of last week. This steadiness is attributed largely to official support of the London authorities. In terms of the French franc sterling has been slightly easier than last week. The range this week has been between \$4.86\% and \$4.89 for bankers' sight bills, compared with a range of between \$4.851/4 and \$4.871/2 last week. The range for cable transfers has been between \$4.87 and \$4.89\(\frac{1}{4}\) compared with a range of between \$4.85% and \$4.87% a week ago.

The following tables give the mean London check rate on Paris from day to day, the London open market gold price and the price paid for gold by the United States:

	ituation is essentially un-

The foreign exchange situation is essentially unchanged from the past few weeks or since the middle of January. Financial interests in all chief centers of the world have been awaiting with a certain impatience the decision of the United States Supreme

Court on the gold contract clauses, and this silent watchfulness is strongly reflected in the nervousness accompanying foreign exchange trading. This anxiety is expected to be reflected in the foreign exchanges for many days to come. Since a Supreme Court decision does not become effective for 25 days after it is rendered, it seems almost certain that for this period at least foreign exchange traders cannot take positive technical positions in any of the major currencies.

There can be no doubt that the anxiety felt by banking interests here and abroad is largely unjustified, for no matter what conclusion is reached by the Supreme Court, the "chaos" predicted by the United States Attorney-General will not ensue. Whatever changes may occur in the attitude of the Washington Administration toward the currency or respecting its policies on gold and silver purchases, more conservative courses will doubtless be pursued, and any changes which may be necessary to conform to the decision of the Supreme Court will be carried out in an orderly manner which will preclude the possibility of inordinate drain on United States gold holdings or any other activity in foreign exchange or other markets of a sort to give encouragement to speculative interests. London, at least, shows no apprehension of a serious disturbance in the foreign exchange market. Sterling has been the currency the least affected by the events of the past year or more, and at present the London market is less nervous than any of the Continental markets. In fact, the fears shown at present originate largely on the Continent and have their focus in Paris.

The British Exchange Equalization Fund has been consistently operating abroad to keep sterling fluctuations within the narrowest practicable limits and in doing so must have on several occasions acquired gold from Continental sources. Last week the gold and bullion holdings of the Bank of England reached £193,059,591, an all-time high for the Bank's gold, representing an increase of £1,263,740 over Jan. 31 1934. It is thought that a very considerable part of this increase in the Bank's gold resulted from sales to the Bank of metal by the Exchange Equalization Fund. The Bank carries its gold at the rate of 84s. 10d. per fine ounce. The difference between this figure and the market price, now around 142s. per ounce, is carried by the Exchange Equalization Fund. The fund makes no attempt to cause sterling either to rise or to fall, but operates solely to keep fluctuations within narrow limits. The pound is undoubtedly firm against all currencies of the world except the dollar, which unit it is felt is undervalued.

As in the case of the British fund, there is no way of knowing positively what steps the United States Treasury Department takes in respect to foreign exchange operations, but well-informed bankers here are convinced that the United States Treasury fund has been operating abroad more or less consistently since the middle of January. It is believed that a great deal of the gold coming to this side during the past few weeks was purchased directly for this fund. According to the prevailing rates for the European gold currencies, there should be heavy shipments of gold from abroad simply to correct discrepancies in exchange, but the large shipments of gold since the middle of January have been virtually without effect in strengthening the exchange. The mechanism

of the gold points is not functioning. The large imports of metal during the past few weeks seem to have resulted from sales by private owners of the metal. Gold shipments to New York have been in excess of \$400,000,000 since Nov. 5 and since the middle of January gold receipts have exceeded \$180,000,000. The British private banks do not carry gold for their own account, but are permitted to receive it on deposit for private account. The gold now so held by the British bank is believed to exceed \$1,000,000,000.

It was known, of course, that M. Flandin, Prime Minister of France, and the Belgian officials have been discussing the possibility of a return to gold and stabilization of the pound and the dollar. No official account has been issued regarding these discussions, which ended several days ago. Wellinformed London opinion has it that the British authorities gave the French and Belgian officials to understand that there would be no stabilization of the pound and the dollar until the foreign gold bloc countries further devalue their currencies. The British apparently would no longer resist stabilization with the United States on the basis of the old parity, but feel that it would be useless to effect such stabilization unless the gold bloc should reduce their parities officially in a corresponding degree. It was quite clear a few weeks ago that the London authorities take no interest in plans for international stabilization at present. The pronouncement by all the heads of the large London banks at the annual meetings of their shareholders toward the end of January clearly showed that financial London is perfectly satisfied with the present financial and monetary policies of Great Britain, and does not look forward to any change in the immediate future and surely not during the coming year.

Money continues in great abundance in Lombard Street and rates are exceptionally low and unchanged from last week. Call money against bills is easy at $\frac{1}{2}\%$ to $\frac{1}{4}\%$. Two-months' bills are 5-16% to $\frac{3}{8}\%$, three-months' bills 3/8%, four-months' bills 3/8% to 7-16%, and six-months' bills 7-16% to $\frac{1}{2}$ %. All the gold taken in the London open market this week was for unknown destination. This designation denotes generally takings for private hoarders, who leave the gold for the most part on deposit with the London banks. The market is, however, well satisfied that a large share of the gold taken in the open market during the past few weeks was for American official account. On Saturday last there was sold in the open market £293,000, on Monday £522,000, on Tuesday £434,000, on Wednesday £585,000, on Thursday £594,000, and on Friday £358,000.

The Bank of England statement for the week ended Feb. 6 shows a decrease in gold holdings of £37,483. The Bank's total bullion on Feb. 6 stood at £193,022,108, which compares with £191,787,025 a year ago and with the minimum of £150,000,000 recommended by the Cunliffe committee.

At the Port of New York the gold movement for the week ended Feb. 6, as reported by the Federal Reserve Bank of New York, consisted of imports of \$28,555,000, of which \$12,458,000 came from England, \$11,369,000 from France, \$2,902,000 from Holland, \$1,675,000 from Canada, \$131,000 from India, \$13,000 from Jamaica, and \$7,000 from Guatemala. There were no gold exports. The Reserve Bank reported a decrease of \$286,000 in gold earmarked

for foreign account. In tabular form the gold movement at the Port of New York for the week ended Feb. 6, as reported by the Federal Reserve Bank of New York, was as follows:

GOLD MOVEMENT AT NEW YORK, JAN. 31-FEB. 6, INCLUSIVE

GOLD MOVEMENT AT NEV	V IORK, JAN. 31-FEB. 6, INCLUSIV.
Imports	Exports
\$12,458,000 from England	
11,369,000 from France	
2,902,000 from Holland	
1,675,000 from Canada	The state of the s
131,000 from India	None
13,000 from Jamaica	
7,000 from Guatemala	

\$28.555.000 total	,

Net Change in Gold Earmarked for Foreign Account Decrease: \$286,000

Note—We have been notified that approximately \$54,000 of gold was received from China at San Francisco.

The above figures are for the week ended Wednesday evening. On Thursday \$604,300 of gold was received, of which \$476,200 came from France, \$274,700 from Holland, and \$56,400 from England. There were no exports of the metal or change in gold held earmarked for foreign account. On Friday \$7,196,000 of gold was received, of which \$4,861,400 came from France, \$1,675,200 from Canada, \$348,800 from India, \$307,200 from England and \$3,400 from Guatemala. There were no exports of the metal but gold held earmarked for foreign account increased \$3,400.

Canadian exchange continues to display an undertone of ease in terms of the dollar. On Saturday last Montreal funds were at a discount of 1-16%, on Monday at a discount of 1-16% to par, on Tuesday at a discount of 1-32% to par, on Wednesday at a discount of 1/8% to 1-16%, on Thursday at a discount of 5-32% to 1-16%, and on Friday at a discount of 5-32% to par.

Referring to day-to-day rates, sterling exchange on Saturday last was dull but steady. Bankers' sight was 4.86% 4.87%; cable transfers 4.87% 4.87%. On Monday, in quiet trading, sterling displayed firmness. The range was $4.87\frac{1}{8}$ $4.87\frac{5}{8}$ for bankers' sight and $4.87\frac{1}{4}$ $4.87\frac{3}{4}$. On Tuesday the market continued extremely dull but the pound was firmer. Bankers' sight was \$4.88\\[\)8@\$4.88\\[\)4; cable transfers $$4.88\frac{1}{4}$ @\$4.88\%. On Wednesday the pound was steady. The range was \$4.88\frac{1}{4}@\$4.89 for bankers' sight and \$4.88\%@\$4.89\% for cable transfers. On Thursday sterling was steady in dull trading. The range was 4.87% 4.88% for bankers' sight and \$4.88@\$4.883% for cable transfers. On Friday sterling was steady, the range was $\$4.87\frac{3}{4}$ @ $\$4.88\frac{1}{8}$ for bankers' sight and \$4.87\%@\$4.88\\\4 for cable transfers. Closing quotations on Friday were \$4.88 for demand and \$4.881/8 for cable transfers. Commercial sight bills finished at \$4.87\frac{3}{4}; 60-day bills at \$4.871/8; 90-day bills at \$4.863/4; documents for payment (60 days) at \$4.871/8, and seven-day grain bills at \$4.871/2 Cotton and grain for payment closed at \$4.873/4.

Continental and Other Foreign Exchange

FRENCH francs are under pressure, with rates far below the export point for gold from Paris to New York. Banking circles are advised by their European correspondents, and press dispatches from the other side concur, that French and Belgian officials found no encouragement in London in recent conversations of an official character directed toward international stabilization of currency. Despite vigorous efforts by the Flandin Government to improve the French economy and the positive asser-

tions reiterated by the officials of the Bank of France that there will be no devaluation of the franc and no inflation, it would seem that the situation is causing diminished confidence. The Bank of France endorses the Government's view that expensive long-term money is a serious obstacle to a reduction in the cost of production and that the national credit is undervalued. All technical conditions justify lower rates which are prevented, the Bank says, only by a deficiency in confidence.

Recent plans of the Government for establishing rediscount facilities for holders of Government bills seem to be encountering some opposition in the Council of the Bank of France, although the resignation of M. Moret was forced and M. Jean Tannery was elevated to the Governorship for the purpose of creating such rediscount facilities. It is now well established that M. Moret did not approve the Government's plan for extensive rediscounting by the Bank of the Treasury's short-term obligations, and that he was sustained in this attitude by the regents of the Bank, about two-thirds of whom are chosen by the stockholders. The French budget is badly unbalanced and the Treasury is in immediate need of funds. Long-term bonds cannot be sold to the public on a moderate interest basis. S'nort-term financing has become difficult to accomplish in the ordinary way (as in England) and consequently the Treasury wants to tap the facilities of the Bank of France by forcing it to rediscount these obligations.

The "Wall Street Journal" recently pointed out: "The effect of this, if done on a large scale, would be to set in motion a process which, during and after the war, brought about the inflation which smashed the mark to nothing and the franc to almost nothing. Both the Bank of France and the Reichsbank simply printed notes as the respective treasuries needed the money. This the former Governor of the French Bank (M. Moret) and the regents insist must not happen again."

It is evident that the Council of the Bank of France fears that M. Flandin's policy may lead the Bank into the position of a permanent lender to the Treasury. Such a fear arises from the doubts which are expressed as to whether the Government's plan for increasing the price of rentes and drawing hoarded capital back into activity and starting a business revival will succeed. The Government hopes that the market conditions will be so much improved by the late autumn that the Treasury bills can be consolidated and various other long-term loans be issued at cheap rates. It is generally believed that the opposition of the regents of the Bank to the Government's rediscounting plans will be overcome.

The current statement of the Bank of France shows a decrease in gold holdings of 134,296,964 francs. Total gold holdings on Feb. 1 stood at 81,879,707,304 francs, which compares with 76,860,453,361 francs a year ago, and with 28,935,000,000 francs when the unit was stabilized in June 1928. The Bank's ratio is at the high figure of 80.56%, which compares with 79.10% a year ago and with legal requirement of 35%.

Italian lire continues to show weakness not only in terms of the dollar but also in terms of the other European gold units. It is known that the French Bank has been aiding the Italian unit for some months. Foreign exchange traders in New York state that there is no special development abroad

which can account for the softness in the lira and in the Belgian unit. The softness is not being accompanied by any signs of extensive pressure. The total lire turnover in New York has been at abnormally low levels for some time.

There is no change in the German mark situation. The quotations for the free mark are arbitrarily established by the Reichsbank exchange control. On the basis of a statement filed by the Konversions-Kasse fur Deutsche Auslandsschulden (Conversion Office for German Foreign Debts) with the Securities and Exchange Commission at Washington, a reduction of approximately \$114,280,000 has been made in less than six months in the standstill obligations outstanding. The standstill agreements cover certain defined classes of obligations held by American and other non-German bankers or banking institutions and other creditors. Most of these obligations are held by bankers and banking houses

The following table shows the relation of the leading European currencies still on gold to the United States dollar:

(old Dollar	New Dollar	Range
	Parity	Parity	This Week
France (franc)	3.92	6.63	6.54% to 6.571/2
Belgium (belga)	13.90	23.54	23.17 to 23.25
Italy (lira)	5.26	8.91	8.421/2 to 8.47
Switzerland (franc)	19.30	32.67	32.14 to 32.26
Holland (guilder)	40.20	68.06	67.17 to 67.38

The London check rate on Paris closed on Friday at 74.30, against 74.27 on Friday of last week. In New York sight bills on the French center finished on Friday at 6.563/4, against 6.56 on Friday of last week; cable transfers at 6.56\%, against 6.56\% and commercial sight bills at 6.543/4, against 6.54. Antwerp belgas closed at 23.24 for bankers' sight bills and at 23.25 for cable transfers, against 23.22 and 23.23. Final quotations for Berlin marks were 39.98 for bankers' sight bills and 39.99 for cable transfers, in comparison with 39.98 and 39.99. Italian lire closed at 8.46 for bankers' sight bills and at 8.47 for cable transfers, against 8.46 and 8.47. Austrian schillings closed at 18.75, against 18.76; exchange on Czechoslovakia at 4.16½, against 4.16; on Bucharest at $1.00\frac{1}{2}$, against $1.00\frac{1}{2}$; on Poland at 18.82, against 18.81 and on Finland at $2.15\frac{1}{2}$, against $2.16\frac{1}{2}$. Greek exchange closed at $0.92\frac{7}{8}$ for bankers' sight bills and at 0.931/8 for cable transfers, against $0.92\frac{3}{4}$ and 0.93.

EXCHANGE on the countries neutral during the war presents no new features of importance from recent weeks. The main features affecting the neutral exchanges have been pointed out above in the resume of sterling exchange. Holland guilders and Swiss francs continue easy in terms of the dollar, ruling well below new dollar parity. These currencies are also easy in terms of French francs and the British pound. Both these units are affected adversely by the recurrence of devaluation talk in the chief centers of Holland and Switzerland. The Scandinavian currencies are relatively steady, as they move in close relation with sterling exchange.

Bankers' sight on Amsterdam finished on Friday at 67.29, against 67.31 on Friday of last week; cable transfers at 67.30, against 67.32 and commercial sight bills at 67.27, against 67.29. Swiss francs closed at 32.23 for checks and at 32.24 for cable transfers, against 32.21 and 32.22. Copenhagen checks finished at 21.79 and cable transfers at 21.80, against 21.74 and 21.75. Checks on Sweden closed at 25.16

and cable transfers at 25.17, against 25.11 and 25.12; while checks on Norway finished at 24.53 and cable transfers at 24.54, against 24.47 and 24.48 Spanish pesetas closed at 13.60½ for bankers' sight bills and at 13.61½ for cable transfers, against 13.60 and 13.61.

XCHANGE on the South American countries is Extremely inactive as trading in these units is more or less affected by the influences bearing upon the major exchanges, particularly sterling. Viewing exchange from the longer range, however, the tendency of the unofficial or free markets in the South American currencies is firmer and tending to expand. A recent dispatch from Buenos Aires states that assurance against currency inflation, increase in circulation, and change in the physical volume of gold taken over from the Caja de Conversion by the proposed central bank has been given by the Finance Minister. Argentine gold stocks of 246,000,000 pesos (approximately \$334,000,000), according to Finance Minister Federico's outline, will be revalued at about the official rate of exchange, instead of at the free rate. The central bank bill now before Congress provides for the bank to be set up for forty years, with an authorized capital of 30,000,000 pesos, two-thirds to be subscribed at the outset, half by the Government without voting power and the balance pro rata to all operating banks.

Argentine paper pesos closed on Friday, official quotations, at 32½ for bankers' sight bills, against 32½ on Friday of last week; cable transfers at 32¾, against 32¾. The unofficial or free market close was 25¾, against 25½. Brazilian milreis, official rates, are 8.13 for bankers' sight bills and 8¼ for cable transfers, against 8.11 and 8¼. The unofficial or free market close was 6¾, against 6¾. Chilean exchange is nominally quoted on the new basis at 5.20, against 5.20. Peru is nominal at 23.50, against 23.55.

EXCHANGE on the Far Eastern countries presents no new features from those of the past week. The Japanese yen fluctuates with sterling exchange, with which the Bank of Japan control conforms. Tokio dispatches on Thursday stated that Finance Minister Korekiyo Takahashı informed the Diet that the time is not ripe for Japan's return to the gold standard. He also said that it is not advisable at present to urge Manchoukuo to establish gold as the basis of its currency, now maintained on the silver standard. The Chinese situation continues tense owing to the great depletion which has taken place in the Shanghai silver stocks, which have been reduced 42% since last June. United Press dispatches stated that last week interest rates in Shanghai had risen to as high as 32%, as the demand for silver continued to run ahead of the supply.

Closing quotations for yen checks yesterday were 28.47, against 28.38 on Friday of last week. Hong Kong closed at 44, against $43\frac{5}{8}$ @43 13-16; Shanghai at $36\frac{1}{4}$ @36 5-16, against $35\frac{3}{8}$ @35 $\frac{1}{2}$; Manila at 49.95, against 49.95; Singapore at $57\frac{1}{2}$, against $57\frac{3}{8}$; Bombay at 36.98, against 36.90 and Calcutta at 36.98, against 36.90.

Foreign Exchange Rates

PURSUANT to the requirements of Section 522 of the Tariff Act of 1922, the Federal Reserve Bank is now certifying daily to the Secretary of the Treasury the buying rate for cable transfers in the

different countries of the world. We give below a record for the week just passed:

FOREIGN EXCHANGE RATES CERTIFIED BY FEDERAL RESERVE BANKS TO TREASURY UNDER TARIFF ACT OF 1922 FEB. 2 1935 TO FEB. 8 1935, INCLUSIVE

Country and Monetary Unti	Noon Buying Rate for Cable Transfers in New York Value in United States Money

a These are the gold holdings of the Bank of France as reported in the new form of statement. b Gold holdings of the Bank of Germany are exclusive of gold held abroad, the amount of which the present year is £1,060,200.

The Drive for a Planned Economy

Those who still affect to believe that the Administration, in spite of its apparent radicalism, is in fact veering toward the conservative Right, and that the grip of Federal domination is gradually being relaxed, would do well to scrutinize the report of the Business Advisory and Planning Council of the Department of Commerce which was made public last Sunday. Overshadowed at the moment by the proposed changes in the banking laws, the campaign against utilities and holding companies, and the controversy between the President and the American Federation of Labor over the automobile industry, the proposals contained in the report have aroused far less discussion than their importance deserves. As a matter of fact, the proposals are among the most extraordinary that have lately been put forward by any department of the Government, and their effect, if they were carried out, would be in the fullest sense revolutionary.

What is proposed is a long step toward what, if the process were carried to its logical conclusion, would be a widespread decentralization and redistribution of American industries. "We find," so the report states, "that the population is now being and should be further decentralized, but that industry is not being decentralized to keep pace with the population." Population, in other words, is moving, as the Council thinks it should, into rural communities where, in the absence of industries, "there is no cash income provided . . . except Government relief money." It is accordingly proposed to extend Government aid to such industries as "can operate more advantageously in rural districts than in crowded metropolitan centers." "There is a type of industry," the report continues, "which by reason of its seasonal production cannot furnish steady employment to its workers. Such an industry is a liability to a congested area, as it upsets the labor market during its peak periods and creates unemployment during its slack seasons. It is our proposal that a department be set up to select and encourage the relocation of such industries as would contribute to the welfare of these communities, and that a revolving fund be made available to this department to be used when necessary as loans to these industries to defray the cost of moving and insure their success in getting started in their new location."

The initial fund which the report recommends is \$2,500,000, an amount which, while it "would not adequately meet all the demands placed upon it," would nevertheless be "sufficiently large to start and maintain the project for one year." The administration of the plan contemplates the establishment of "a satisfactory credit rating . . . through prescribed procedure, taking into consideration the advantages of a rural community to the manufacturer," and a loan based "on the number of workers employed, as the loan would not be greater than the actual monthly payroll for a limited number of months plus the actual cost of moving. A ratio limit between cost of moving and monthly payroll could be established to avoid investing too much of the capital in anything except labor wages." As necessary preliminaries to the extension of Treasury aid, the department would choose the communities which needed an industrial payroll to ease the burden of unemployment relief, pick out the proper industry to be located, and build the kind of low-cost factory required, the factory to be rented to the industry.

Secretary Roper, who made public the report without, apparently, giving it his official endorsement, was reported by the Washington correspondent of the New York "Times" as warning against "haphazard action," and as opposing anything that might be "harmful to property owners and general business in cities." "To a considerable extent," he was reported as saying in substance, "rural rehabilitation through decentralization of industry could best be effected by the establishment of branch establishments in isolated communities." One naturally asks why, if he had such substantial reservations in mind, Secretary Roper allowed the report to be published.

From every point of view the proposals of the Business Advisory and Planning Council are objectionable. In the absence of a detailed census enumeration, the assumption that there is any movement of population from large centers to rural communities of sufficient magnitude to constitute an industrial

problem may well be questioned. If by a "rural" community is meant a place with not more than 2,500 inhabitants, as the Federal census defines the term, it may also be doubted whether the burden of unemployment relief, which ostensibly is one of the main reasons for the Council's plan, is relatively anywhere near as great in such places as it is in larger communities, particularly industrial centers. The proposal to lighten this burden, whether disproportionately heavy or not, by transplanting seasonal or other industries to these small places is peculiarly unconvincing. To the extent that the industry is a skilled one it cannot be expected to give employment to many local workers, because few of them will have the necessary skill, while if skilled workers are brought in from outside the number of local unemployed will not be cut down. Few rural communities have houses for much more than their present population, and while the plan contemplates a loan to build a factory and move the plant, workers who come with the plant appear not to be provided for. If, moreover, the industry which is transplanted is a seasonal one, it will be no less seasonal in the new location than in the old, and the same disturbance of the labor market which the Council points to in "congested" areas, with active employment at peak periods and unemployment at slack times, will be repeated, and on the same scale as far as the industry itself is concerned.

Superficially, at least, the plan somewhat resembles the subsistence homestead scheme on which the Government is already spending some millions of the taxpayers' money, with the prospect of many millions more to come. Both projects represent a systematic attack upon American industry, particularly in its larger forms, to force it to decentralize. The reasons which have led to the centralization of industry are many. Nearness to markets or supplies of raw materials, transportation facilities, capital requirements for elaborate and expensive installations of equipment, taxes, wages and other costs of operation—all these factors, and others, have entered into the problem. Broadly speaking, industry has centralized because it was more profitable to do so, and because centralization favored mass production at relatively low cost. The demand for decentralization aims to replace centralized production at low cost, to an extent which the plan does not determine, with small production units, many of which will operate at increased cost unless wages are cut to the bone, in the expectation that unemployment in small communities now non-industrial will thereby be reduced and congested metropolitan areas thinned out. We regard that expectation as wholly illusory. Industry will decentralize of its own accord whenever and wherever it finds it profitable to do so, as the thousands of small communities which already have local industries or branches of larger ones testify. It will not willingly scatter its plants over other rural areas merely in order that such areas may have a larger cash income at the cost of additional industrial debt in the form of Government loans.

This is not the whole story, however. Save for unimportant exceptions here or there, in the aggregate of no appreciable consequence, such decentralization as the Council's report contemplates will not be accomplished except under Government pressure, amounting virtually to compulsion. What the plan points to, accordingly, is a further and far-reaching

control of industry by the Federal Government. In this respect the plan is wholly of a piece with the other extensions of Government authority over industry and business which have marked the course of the Roosevelt Administration. The industrial and business codes, ostensibly intended to root out unfair practices and give the smaller employers an equitable chance in competition with larger ones, have gripped industry and trade at almost every point, and the system is apparently to be continued for another two years with changes which, if they are correctly forecast, will leave the Government, and specifically the President, essentially in control. Direct Government competition with private industry, from the large operations of the Tennessee Valley Authority and other similar undertakings to small local factories which make work for the unemployed, is multiplying, and a further gigantic continuance of work relief is scheduled for approval by Congress at the President's demand. A systematic campaign is being waged against public utility companies, with Federal grants in aid of the construction of municipal plants, holding companies have been marked for early dissolution, the railroads are helpless in Government hands, and the last remaining vestiges of independent banking seem destined soon to disappear with complete Treasury administration substituted. It would need no great development of the plan which the Department of Commerce officials have drawn up to give the Government the authority to decentralize any industry at discretion and allocate its operations wherever, in its judgment, a community might conceivably benefit by having them performed.

It is difficult to see in all this even a remote indication of a "turn to the Right." A scrutiny of the Administration policy from the beginning fails to show any yielding at any important point. There have been concessions in minor details, and a variety of readjustments to correct defects in the machinery, but principles have not been surrendered or even materially modified. What we are witnessing is a persistent, and on the whole consistent, drive toward a planned national economy in all the leading departments of our national economic life, with significant bearings upon social life as well. Instead of free development we now have regimentation; instead of a national advance through the education born of experience in competitive struggle, we have a program thrust upon us. It would be encouraging to be able to think that the signs of dissent and resistance which have lately appeared in Congress over the relief bill and other measures presaged an effective reassertion by Congress of its legislative independence, but we cannot yet be sure that opposition in committees will be followed by equal opposition in the Senate or House of Representatives. It is of the nature of plans that they grow with what they feed upon, and the prospect seems to be for more regimentation rather than for less.

The Anglo-French Proposals and the European Outlook

The United States has an interest, albeit a minor and indirect one, in the agreement and proposals which representatives of the British and French Governments drafted at London on Feb. 2. In the separate treaty of peace which it concluded with Germany in 1921, the United States reserved to it-

self the benefits of certain designated parts of the Treaty of Versailles, among them Part V, relating to German armament, which the London agreement proposes to replace with other more general provisions. The question of German armament, however, is one with which the United States has never concerned itself, and it has already been intimated semi-officially at Washington that no objection would be made by the American Government to such changes in the Versailles treaty as have now been suggested. With this unimportant exception, and save as the London proposals may affect the peace of Europe and the world, the program that has been outlined does not directly affect this country.

The acclaim with which the agreement was at first welcomed as a kind of harbinger of European peace has been appreciably tempered as the document itself has been more carefully studied. After throwing an undeserved sop to the League of Nations for "the particularly important part" it has played "in recent settlements of certain international problems," the London statement expresses the satisfaction of the British Government with the Italo-French agreement recently concluded at Rome, and associates Great Britain with Italy and France in the consultations which are to take place "if the independence or integrity of Austria is menaced." The signers of the statement further agree "that neither Germany nor any other Power whose armaments have been defined by the peace treaties is entitled by unilateral action to modify these obligations," but they also agree that "nothing could contribute more to the restoration of confidence and the prospects of peace among nations than a general settlement freely negotiated between Germany and the other Powers."

This settlement, it is stated, should provide for "the organization of security" by pacts of mutual assistance affecting Eastern and Central Europe, and, "in conformity with the terms of the declaration of Dec. 11, 1932, regarding equality of rights in a system of security," should establish armament agreements "which in the case of Germany would replace the provisions of Part V of the Treaty of Versailles." As a part of the settlement, Germany must "resume her place in the League of Nations with a view to active membership." In these various proposals it is hoped that all other Powers concerned may agree. Finally, it is "suggested" that consideration be given to a regional agreement, to include Germany, Italy and Belgium as well as Great Britain and France, for mutual assistance in the event of "unprovoked aerial aggression by one of the contracting parties," and an implication is given that such assistance will be immediately rendered by Great Britain and France, the one to the other, in case of an air attack by either of the other Powers.

The agreement appears to have raised more questions than it has answered. In spite of the assertion that the armament limitations imposed by the peace treaties cannot be changed by unilateral action, the agreement obviously recognizes the fact that Germany has disregarded them by increasing its armament, and that Part V of the Versailles treaty must now be replaced by different provisions. It reaffirms an earlier declaration regarding equality of rights in the matter of security, but the revision of Part V is offered only on condition that Germany agree to a general settlement of the armament question and go back into the League. This means that

Germany must re-enter not only the League but the Disarmament Conference, both of which it left because equality of treatment was, in its judgment, denied. The overwhelming victory which Chancellor Hitler won in the general election shortly after Germany's withdrawal suggests that Germany's attitude at those points may not easily be changed.

The air proposals, again, while they appear to create some general understanding between Great Britain and France regarding mutual assistance, depend for their effectiveness upon acceptance by Italy, Belgium and Germany. Incidentally, they also recognize by implication that Germany has an important air force. The attitude of the Italian Government is not yet officially known, but it is reported that Italy is not interested in the proposed air alliance, its geographical position making aid from Great Britain or Belgium very unlikely, and the recent agreement regarding Austria protecting it from attack from Germany. Further, in spite of the approving reference to pacts of mutual security affecting Eastern Europe, British opinion is reported as invincibly opposed to any British commitments in that part of the Continent. The question is also being asked whether, if Germany is allowed to make good its escape from the armament restrictions of the Treaty of Versailles, Hungary, Rumania and Bulgaria may not also demand release from similar restrictions in the peace treaties which applied to them. On this point the Little Entente, and specifically Czechoslovakia, are likely to be heard from before the proposal is finally acted upon.

The most substantial merit, apparently, of the London Agreement, aside from the friendly tone in which it is couched, is that it makes another wide breach in the Versailles treaty and formally invites German co-operation in a settlement which, it is hoped, would make for peace. In other respects it does little more than thresh over old straw. It proposes a five-Power pact of mutual assistance in air defense, notwithstanding that the Locarno Pact fully covers the matter of possible aggression among the same Powers, and it reasserts equality of rights in security while in the same breath it prescribes conditions under which general security is to be furthered by Germany. It has, in short, some of the characteristics of an ultimatum as well as of a friendly suggestion of a joint program. Such as it is, however, it puts the issue pretty squarely before Germany, and one can readily understand why Chancellor Hitler, confronted with propositions which involve concessions to Germany as well as a radical change in German foreign policy, should be devoting all his time to consideration of his reply.

The President's Banking Proposals

[By H. PARKER WILLIS, former Secretary Federal Reserve Board]

In sending Congress a bill, definitely accepted as an Administration measure, and in urging the early enactment of it, President Roosevelt has, for the first time, pretty definitely laid before the country his conceptions of legislation on this important subject. Ever since the beginning of this Administration we have had intimations, hints and suggestions that it was going to do something very extensive in the way of reforming our banking statutes. The Banking Act of 1932 was allowed to go to the statute book, although after considerable doubt and after encountering many obstacles, without the definite

support of the present Administration; but it was widely rumored that something of a very different and more far-reaching type would make its appearance. The radical and incompetent statutes on banking adopted during the year 1933 were generally disregarded by our people on the ground that they were what they were proposed to be-emergency remedies, hence not to be permanently reckoned with. When the Act of Jan. 30 1934 made its appearance, it was the impression of many people that we now had reached a definite expression of the wishes of our Government in regard to banking and currency changes. The partial assumption of central banking functions by the Treasury of the United States, provided for in the Act of 1934, was defended or apologized for on the ground that it, too, had an element of emergency; it was a way of putting into effect a new and great experiment in money. If the changes thus implied in banking were necessary to help the nation out of its embarrassments, many persons were willing to accept them.

But during the summer of 1934 it became evident that we were far from having reached the end of the "New Deal" philosophy on banking and currency. Not only was a central banking plan widely rumored, but in the early autumn, conferences of examiners were called at which the notion was put forward that slow loans at banks were to be freely tolerated, while industrial loans by Reserve banks were pressed and the Reserve banks themselves had been urged then and earlier to buy long-term Government bonds. Still later came the Treasury "Report on the availability of bank credit," in which was presented the thought that the idea of "liquidity" was practically obsolete, and that it

might well be abandoned.

All of this should have served as ample notice to the instructed, but did not do so. The bankers were led to suppose that the "truce" which was supposed to have been effected between themselves and the administration would practically debar any further legislation from taking place—a view in which they were confirmed by the utterances of Senator Fletcher, and others, although they should have had ample warning to the contrary through the banking questionnaire which Mr. Fletcher himself issued during the autumn. Now comes the definite disclosure of what is sought by the administration at Washington. It is a government-operated central bank. Although the measure does not call for the acquisition of the stock in Federal Reserve banks, it might quite as well do so; however, the present method is far cheaper than the plan originally contemplated would have been. The present proposal is the fusing of all central banking powers in the hands of the Federal Reserve Board at Washington, and of making the Board itself the direct executor of the will of the President of the United States. The Board, it is understood, is to have a million dollar marble palace in Washington, with all of the equipment, shower baths and the like, that go with legislative activity in this new day; while the Reserve banks are to be left in full undisputed control of their present costly buildings and equipment. The power, however, of banking direction and of the distribution of credit is located in the White House, by a system especially devised for that purpose. This brings out into the open the long-festering controversy between centralization and local self-government in finance. It is a controversy which was supposed to have been given a tentative settlement at the time the Reserve Act was adopted, but the passage of that measure has proven to be nothing more than a temporary step in this ever-changing debate. We now have definitely before the country the question, whether one who happens to be President of the United States shall at any given time be able to change, direct, supervise, and control, the volume and character of the credit of the country, the rates of interest that are charged by financial institutions and, above all else, the degree of safety which may be allowed to the savings and the property of the people.

Idea of Federal Reserve Act

In order to understand the bill which is now proposed by the government, it is necessary to review, briefly, the ideas underlying the Federal Reserve Act. The conception of the Act rested upon the view that it is desirable to maintain among the banks of the country the power to liquidate—that is to say, to pay off depositors, upon demand; and generally, to maintain the credit of the country in a convertible condition. To that end the Reserve banks were vested with the function of discounting short-term commercial paper and of holding required reserves representing the funds of various member banks available for settlement of their obligations. Reserve banks were, moreover, given the power to go out into the open market and buy short-term liquid paper, in order to enable them to serve those elements in the community who had no access to the Reserve banks, since the only depositors of the latter were permitted to be member banks. This great power of keeping the banks of the country liquid and solvent, of assisting them in case of difficulty, and of controlling the flow of credit in such a way as to make it at all times equally available to business and commerce was thought of as being best handled and most safely protected by the bankers of the country themselves. The Reserve banks were, therefore, made corporations, whose stockholders were banks; and in the original draft of the Federal Reserve bill it was proposed to give the Reserve banks themselves a controlling place on the Federal Reserve Board, so that the whole system would have been a self-governing banking agency.

Political considerations led President Woodrow Wilson to change this composition of the Board, making it an all-government group of politicians. Under this fundamental error there has grown up from time to time, and of late years more or less continuously, a political menace to the safety of our deposits and to the structure of our credit. During the World War the entire Federal Reserve system was used as a means of floating Liberty Bonds. There was a change after the war but it did not last long, and the practice of directing and controlling the discount rate and the general policies of the System as the sale of Treasury notes required became settled. Since the opening of the depression and the advent of large government deficits, the continuous use of the banks as agencies for holding government bonds has steadily grown and, to-day, the principal assets of the banks are evidences of government debt. With the Federal Reserve Board constantly subordinated to the Treasury Department, and with its membership steadily chosen for political reasons, it has never been able fully to carry out the purposes of the Federal Reserve Act itself. The provision of the

original act which required two of the appointive members to be men of tested banking experience was soon repealed, but the Board has always contrived to maintain some element of competence. never willing to offer a determined frontal resistance, the nucleus of it has been steadily against the process of debauching of its membership, which has continued through several administrations, or the filling of the System with frozen obligations. It has endeavored to maintain the conception of the Federal Reserve System as a modern central banking organization devoted to the original aims which were stated in the Federal Reserve Act. Although appointed by the President of the United States, it has, during much of its history, continued to regard itself as, in a certain sense at least, an independent body, approximating the status of that "Supreme Court of Finance" which was thought of originally by supporters of the Federal Reserve Act. It has, without doubt, steadily resisted the effort to give appointments to politicians or to make loans designed to placate given classes in the community. To these facts must be ascribed such hold as the System has succeeded in retaining over the financial community of the United States.

Purpose of New Act

The purpose of the new Act is quite different. First of all, it undertakes to change completely the basis upon which our banking system rests. It permits every National bank to make real estate loans up to the total of its capital and surplus over and above the value of its banking premises. The loans may run as high as 75% of the value of the real estate, provided that an amortization requirement is applied. Bank examiners have been instructed not to discriminate severely against slow assets; while, as is well known, many of the bankseven among those which are already insured-are the proprietors of large bodies of depreciated securities. With this as a background, the new bill undertakes to make all of the holdings of the members the basis for paper rediscountable at the Reserve banks, provided that "any sound asset" of a member bank may be admissible as a basis for borrowing. The Reserve Board being already the judge of "soundness," there are evidently no further restrictions upon the process of rediscounting. At the same time, the Federal Reserve Board is given the authority to raise or lower the Reserve requirements exacted of member banks, as it may see fit. The bill assigns as a reason for this provision the desire "to prevent injurious credit expansion or contraction," but there has never been a time in the whole history of the Federal Reserve System when contraction was forced in this way, and it is safe to say there probably never will be. In short, therefore, the new bill is essentially a measure for freezing the assets of member banks, admitting them freely to discount at Reserve banks, and shifting reserve requirements to meet the resulting situation —whatever it may be.

Controlling the Reserve Banks

It has often happened, in the history of the Reserve Banking System, that in spite of lax regulations or even pressure from Washington, local Reserve banks have refused to manipulate rates of discount, to establish "cheap money" or to admit paper which they knew to be hazardous, when the banking conditions within the district were risky.

To leave such power of regulation in the hands of a Reserve bank which might prove recalcitrant would, of course, open the door to the possibility that the "free credit," provided for through the relaxation of reserves and the undermining of the eligibility requirements, would not be available. Accordingly, it is thought best to reorganize the entire Reserve banking structure itself. The directing body of each Reserve bank now consists of nine directors, three of whom are appointed by the Governmentone of the members to be Chairman, while the general body of directors selects their own chief executive officer called "Governor" and commit to him the actual operation of the bank itself. Under the new plan, the nine directors would still be retained, but of the Government-directors named by the Federal Reserve Board, one so named would now be Governor—the office of Chairman and Governor being combined. This Governor would still nominally be chosen by the local directors, but his appointment would be subject to confirmation by the Reserve Board. It has always been true that the Reserve Board could eliminate an undesirable Governor, and it has sometimes done so, but this power has been the result of "moral suasion" and influence exerted in the case of obviously undesirable officers. The new proposal quite definitely changes this status, makes the Governor directly responsible to the Reserve Board, consolidates his powers with those of Chairman and places him in a position of complete dependence upon the Board, since he is chosen annually and is removable at any time without notice. Whenever his term ends, either at the close of the year or through his removal as Governor, he automatically ceases to be a director. Put in a nutshell, this simply means that the idea of a local self-governing board is to be superseded by that of an advisory local board, operating the detailed administrative machinery of a bank which is actually controlled and directed by a person appointed from Washington and removable on orders from that place. The Reserve bank must and will, in such circumstances, become wholly subservient to the wishes of those who name its Governor. It will be a local financial despotism, since the Governor will in no wise be responsible for his appointment, duties, powers, or make his reports to the bank itself.

Changing the Status of the Board

The Federal Reserve Board was originally a body consisting of five appointive and two ex-officio members (Secretary of the Treasury and the Comptroller of the Currency), with a Governor (chosen from among the appointive members) who held office upon his designation by the President. the end of his term of office he resumed his status as a member, and since the membership of the Board had to be geographically distributed, the power of the President in designating governors was limited to the existing membership of the Board, though at times he succeeded in enlarging the scope of his choice by inducing members to resign and then naming his own candidate for the governorship. An example of this sort was furnished, a few months ago, when President Roosevelt shifted Mr. A. C. Miller from his position as a representative of the Twelfth District to a basis as representative of the Richmond District, on the ground that he was then a resident of Washington. He thus opened the way

for the appointment of Mr. Eccles as Governor and at the same time as representative of the Pacific Coast, where the latter's residence originally was.

Under the new bill it is planned to have the present six appointive members geographically distributed as before, but whenever the President designates one of the members as governor, the member so appointed serves until he is removed as governor, and when that happens he automatically closes his term as a member of the Board. The governor when appointed serves "until the further order of the President" and, of course, in the event of his discontinuance as governor, the President would be able to substitute a new governor of his own selection from outside the Board. As the President already has two political appointees on the Board, he would thus be able at all times to make sure of a third; and, as the history of the Board has shown, would invariably be able thus to carry any policy he might desire should the Board, as in rare cases it has been, be somewhat recalcitrant. So far as the Board is concerned, provision for early reorganizing it is made through a new policy, which permits present members to retire on full pay upon reaching the age of 70. As there are three members who have reached or will shortly attain that age, it may be expected that within less than two years the complete reorganization of the Board will be effected. The new act provides that in making these new appointments the choice shall fall upon persons who are "well qualified by education or experience, or both, to participate in the formulat on of the national economic and monetary policies." This brief description of the outstanding changes in Board organization proposed in the new law makes it clear that when the new marble million dollar palace proposed for the new organization is completed, its inhabitants will be a group of financial dependents who will of necessity do as they are told by the President of the United States. The governor of the Board will more and more become the complete and despotic head of the whole System.

The Note Currency

One phase of the new measure that has attracted most attention up to date is the way in which it deals with the Federal Reserve notes. The first draft of the Federal Reserve bill 22 years ago called for a genuine bank note currency like that which is issued by most of the European central banks. Then, as a matter of expediency, democratic politicians were permitted to make the notes a liability of the Treasury Department which guaranteed them, and in order to protect the government against this guarantee it was agreed to place assets in trust behind the notes. Such assets were made to consist of short-term commercial paper, it being the belief of the originators of the Act that bank currency should expand and contract according as business expanded and contracted. This phase of the Federal Reserve Act was never given a trial, for almost immediately the outbreak of the World War led to modifications which permitted the placing of bond-secured paper and, eventually, government bonds behind the notes, so that in effect they have been almost as truly bond-secured notes as were the national bank notes themselves. They have often been very large in amount, and at other times they have considerably shrunk, but this element of elasticity has never been due to the changes in business which had theoretically been regarded as the true measure of outstanding currency. Now, it is proposed to sweep away all of the protection behind the notes and to make them straight unsecured obligations of the Reserve banks. This they in effect really are and should be, since they are in theory no different from the deposit credits on the books of the banks. Unfortunately they remain also government legal tender notes with Reserve banks the holders of two and a half billion dollars of government bonds, their chief current business consisting of government bonds, and now making industrial loans and authorized to discount "any sound asset" of a member bank, the whole conception of liquid currency disappears, and the reserve notes become confessedly, as they have in fact been—low-denomination obligations of the government without interest.

The failure to apply the Federal Reserve Act in actual practice in its note sections has been one of the great failures of the management of the System and one of the fundamental reasons why it has been so disappointing in its operation. The new act undertakes to aggravate this situation and to stereotype it. Our bank notes in the future are to be nothing more than representatives of the assets of the rank and file of the banks,-no better, no worse; and as for eventual redeemability—the 40% "reserve" to be held behind them consisting, under the Act of Jan. 30 1934, of irredeemable gold certificates, while gold itself has a value determined by the Secretary of the Treasury, and by him only, since upon him devolves the responsibility of fixing the price at which gold coin and bullion is to be purchased when imported.

Under the new banking act we shall have neither a sound and elastic, nor a redeemable, currency.

Real and Theoretic Changes

The new banking act, happily, is receiving a good deal of attention from our bankers, although much of what they have to say is not uttered except in private. A certain group of them undoubtedly feels that, whatever may be thought of the new provisions, they do not, at any rate, very greatly change what has come to be regarded by them as actual practice. They know that, of late years, the Treasury Department has controlled the Reserve Board, and that the Board itself has been hopelessly impotent. They are aware that the Reserve banks have been anything but exponents of sound central banking. They know that the Reserve notes have been furthest removed from the status of sound credit currency. There are undoubtedly many of them who are inclined to say: Why worry about a statute which, in many particulars, merely confirms what has already become accepted practice. It is this type of attitude which most positively illustrates the evils of the kind of management we have had in Reserve banking for these many years past. A bad practice becomes settled and then it is recognized and finally enacted into law. However, it is not true that, even of recent years, our Reserve System has been run upon the low political level which is now proposed under the new legislation. It has had many reservations and some loyalties. The new act sweeps these into the discard. It confirms the worst practice at Reserve banks, adds to it and carries it to the 'nth degree of power. It confirms the idea of political banking and of the subservience of banking to special interests—the promotion of uneconomic ends by the use of the people's funds to sustain them. The nation faces

to-day the gravest of financial danger, and the proposed new act definitely deprives it of any possibility of re-erecting the bulwarks which had been provided for the protection of the small savers and property owners of the country at large.

Administration's Banking Act of 1935— The Issue Is Drawn

[Editorial from New York "Herald Tribune" of Feb. 6 1935]

When that far-reaching piece of legislation, the Gold Reserve Act of 1934, was jammed through a bewildered Congress last year, the country was informed that it represented a "modernization" of the gold standard—"the adoption," as Secretary Morgenthau gayly put it, of a "1934 model, streamlined, and with knee-action." Now Mr. Morgenthau and Governor Eccles of the Reserve Board, after several weeks of cogitation, have brought forth a companion piece which they call the Banking Act of 1935. This measure, we are told, represents a similar "modernization" of the banking system.

The plain truth of the matter is that these twin pieces of legislation—the one already in the statute books and the other about to be introduced in Congress—will "modernize" our currency and banking system in precisely the same manner and to precisely the same extent that two very large charges of dynamite would "modernize" a rather old and flimsy wooden building. If the first charge, set off a year ago, has not wrecked the banking system, then the one which it is now proposed to touch off should make its

destruction complete.

To talk as if the legislation now proposed represented a genuine and sincere attempt to improve the country's banking system is sheer hypocricy. What this bill will do if it becomes law, as its sponsors very well understand, will be to complete the work begun with the Gold Reserve Act of 1934 of bringing the banks under complete control of the Administration-dominated Treasury and Federal Reserve Board. It will mark the end of the independent banking system so laboriously and painstakingly established more than 20 years ago and the degeneration of the Federal Reserve into an agency of the Treasury. It will place at the disposal of Mr. Farley's colossal political machine the entire machinery of banking and currency of the United States.

The mechanism of the proposed bill provides, broadly, for two things. It provides, first, for transferring the most important powers still remaining with the Reserve banks to the Presidentially-appointed Federal Reserve Board at Washington, and it provides, second, for assuring that the membership of that Board is representative of the Admin-

istration's financial policies.

The first of these objectives it would achieve by establishing Federal Reserve veto power over the actions of the Governors of the regional banks, and by transferring final authority to the Board on the three fundamental powers of credit control-control of the rediscount rate, open market operations, and establishment of eligibility requirements for rediscount. Assurance that the Board will be plastic to the wishes of the Administration would be achieved by a device which is not more than a degree removed from recent proposals to "pack" the Supreme Court. This is a subtle provision that members of the Board be retired at the age of 70. One member is already past that age limit, and two others will have passed it within a few months. means that the Administration would have at its disposal the appointment of one-half the six appointive members of the Board during this period, while it will also have on the Board, as an ex-officio member, the Secretary of the Treasury.

Whether this country does or does not want a politically controlled central bank may be open to argument. But at least it is entitled to a showdown on the issue. It would be unfortunate to adopt such a system with our eyes open, but it would be doubly unfortunate to have it put over on us without realizing it. For that reason it is tremendously important that every one understand now, as this legislation is being introduced, that that is precisely what it calls for. The day after this bill became law the Government could buy the stock of the regional banks outright and it would not add one iota to its complete control of the banking

The New Capital Flotations in the United States During the Month of January

In presenting our compilations of the new financing done during the opening month of the new year there is nothing to be said beyond repeating the comment made with reference to preceding months, namely, that the volume of new flotations continues extremely meager. The grand total of new issues brought out in January was no more than \$140,851,689, and this included an offering of \$36,000,000 Federal Intermediate Credit banks 11/2% collateral trust debentures. The municipal disposals amounted to \$96,-492,689, while corporate issues aggregated only \$7,726,000. Conditions for bringing out private issues of securities continued unfavorable throughout January because of the gold clause situation and because business executives, underwriters and others continue reluctant to undertake important new underwriting commitments in view of the liabilities still imposed by the Securities Act. The total of the new issues of all descriptions brought out in January at \$140,-851,689 compares with \$186,126,709 put out in December and \$141,852,301 floated in November. Of the \$140,851,-689 grand total of financing during January, \$48,754,776 represented refunding operations, that is, to take up or replace old issues outstanding, leaving the strictly new capital demand at \$92,096,913.

United States Government issues, of course, appeared in the usual order during January and consisted entirely of offerings of new Treasury bills sold on a discount basis. In view of the importance and magnitude of United States Treasury issues, we furnish below a summary of the new offerings floated during the month.

New Treasury Financing During the Month of January 1935

An offering of \$75,000,000 or thereabouts of 182-day Treasury bills was announced by Secretary of the Treasury Morgenthau on Dec. 25. The bills, however, were dated Jan. 2 1935 and will mature July 3 1935, and hence form part of the Government's financing for the month of January. Tenders to the offering amounted to \$214,130,000, of which \$75,150,000 was accepted. The average price for the bills was 99.949, the average rate on a discount basis being 0.10%. The bills were used to retire a similar issue.

Mr. Morgenthau on Jan. 3 announced another offering of \$75,000,000 or thereabouts of 182-day Treasury bills. The bills were dated Jan. 9 and will mature July 10 1935. Subscriptions to the offering totaled \$141,685,000, of which \$75,185,000 was accepted. The average price for the bills was 99.942, the average rate on a bank discount basis being 0.12%. This financing provided for the refunding of an issue of similar securities.

A further offering of \$75,000,000 or thereabouts of 182-day Treasury bills was announced on Jan. 10 by Mr. Morgenthau. The bills were dated Jan. 16 and will mature July 17 1935. Tenders to the offering totaled \$142,359,000, of which \$75,079,000 was accepted. The average price for the bills was 99.926, the average rate on a bank discount basis being 0.15%. This offering was used to refund a maturing issue.

On Jan. 17 Mr. Morgenthau announced a still further offering of \$75,000,000 or thereabouts of 182-day Treasury bills. The bills were dated Jan. 23 and will mature July 24 1935. Subscriptions to the offering totaled \$232,573,000, of which \$75,129,000 was accepted. The average price for the bills was 99.927, equivalent to an average rate on a bank discount basis of 0.15%. This financing provided for the refunding of an issue of similar securities.

Mr. Morgenthau on Jan. 24 announced another offering of \$75,000,000 or thereabouts of 182-day Treasury bills. The bills were dated Jan. 30 and will mature July 31 1935. Tenders to the offering totaled \$203,618,000, of which \$75,-106,000 was accepted. The average price for the bills was 99.931, the average rate on a back discount basis being 0.14%. This offering was used to refund a maturing issue.

Another offering of \$75,000,000 or thereabouts of 182-day Treasury bills was announced by Secretary of the Treasury Morgenthau on Jan. 31. The bills, however, were dated Feb. 6 and will mature Aug. 7 1935 and hence form part of the Government's financing for the month of February. Tenders to the offering amounted to \$262,985,000, of which \$75,185,000 was accepted. The average price for the bills was 99.939, the average rate on a discount basis being 0.12%. The bills were used to retire a similar issue. The rate on this offering compares with 0.14% on bills dated Jan. 30.

0.15% on bills dated Jan. 23, 0.15% on bills dated Jan. 16, 0.12% on bills dated Jan. 9 and 0.10% on bills dated Jan. 2.

In the following we show in tabular form the Treasury financing done in January. The results show that the Government disposed of \$375,649,000, all of which went to take up existing issues.

UNITED STATES TREASURY FINANCING DURING JANUARY, 1935

Features of January Private Financing

Returning to the limited volume of corporate offerings announced during January, we find that there were but eight new issues, totaling no more than \$7,726,000, all of which, of course, was domestic financing. In December there were 11 new issues for an aggregate of \$47,259,150. The January financing comprised two short-term issues for an aggregate of \$4,100,000; three long-term issues totaling only \$1,622,000, and three tstock emissions accounting for only \$2,004,000.

The portion of the month's corporate financing raised for refunding purposes was \$2,459,000, or more than 31% of the total. In December the refunding portion was \$12,-398,000, or about 26% of the total. In January 1934 the amount for refunding was \$1,500,000, or about 20% of that month's total.

Included in the month's financing was an offering of \$36,000,000 Federal Intermediate Credit banks 1½% collateral trust debentures dated Jan. 15 1935, due in nine and 12 months, offered at price on application.

There were no foreign issues of any description marketed here during January. It is also to be recorded that no new investment trusts of the fixed type were announced in Janu-

During January there was but one offering bearing a convertible feature, namely:

37,000 shs. San Jose Water Works 6% cum. conv. preferred stock (convertible into common stock on a share-for-share pasis).

In the following we furnish a complete summary of the new financing—corporate, State and city, foreign government, as well as Farm Loan issues—brought out in the United States during January, and covering all classes of issues except those of the United States Government:

New Capital Issues in Great Britain

The following statistics have been compiled by the Midland Bank Limited. These compilations of issues of new capital, which are subject to revision, exclude all borrowings by the British Government for purely financial purposes; shares issued to vendors; allotments arising from the capitalization of reserve funds and undivided profits; sales of already issued securities which add nothing to the capital resources of the company whose securities have been offered; issues for conversion or redemption of securities previously held in the United Kingdom; short-dated bills sold in anticipation of long-term borrowings; and loans by municipal and county authorities except in cases where there is a specified limit to the total subscription. They do not include issues of capital by private companies except where particulars are publicly announced. In all cases the figures are based upon the prices of issue:

A New Banking Bill

[Editorial from New York "Times" of Feb. 4 1935]

Congress will be asked at the present session to act on a new banking bill which is now in the making. One of the matters dealt with in it is the insurance of deposits. present the maximum limit of such insurance is \$5,000 for each account. But under existing law a much more ambitious plan is due to be put into effect on July 1, insuring in full all deposits up to \$10,000, 75% of those between that figure and \$50,000, and 50% of those in excess of the latter sum. Obviously, this would involve much greater risks both for the Government and for the more conservatively managed banks. And because this fact has come to be recognized in Washington, it is now proposed to retain permanently the present limit of \$5,000. This is a wise decision, which will be welcomed by conservative bankers. There will be less agreement, however, concerning the corollary proposal to base assessments for the maintenance of the insurance fund on the total deposits of each bank rather than, as at present, on the amount actually insured. This plan would necessarily impose a heavier burden on many larger institutions.

Information concerning other matters dealt with in the new bill is less definite, but one suggestion said to have been submitted to its framers is of special interest. This is an amendment of Section 21 of the Banking Act of 1933, which makes it unlawful, under penalty of fine, imprisonment, or both, for any institution engaged in the business of "issuing, underwriting, selling or distributing" securities "to engage at the same time to any extent whatever in the business of receiving deposits." It has been proposed to amend this section to make it clear that banks are not forbidden to sell or distribute Government or municipal securities. Why should the line be drawn there? The sweeping provisions of Section 21 destroying part of the mechanism by which securities of all kinds were formerly underwritten has plainly been one of the causes of the sharp decline in long-term investment in industrial issues. A reconsideration of this section of the law, amending prohibitions which are unnecessarily severe, would help to revive the investment market on which the lagging capital goods industries, in particular, are heavily dependent.

The Course of the Bond Market

Although certain classes of bonds in the lower rating groups suffered severe declines in the earlier part of the week, followed by a rally on Thursday, high grades have maintained their recent strength throughout this decline, and in some instances have advanced to new high prices. As a matter of fact, the lower-grade railroad issues were the only distinctly weak feature in the decline, due partially to the fact that reported earnings of Class I roads for 1934, while showing an increase in gross, revealed a decline in net income largely on account of wage increases and increased cost of supplies. Other sections of the lower-grade bond market were characterized by minor fluctuations or small losses; even the utility holding company bonds failed to decline much upon announcement of the proposed Federal legislation to regulate holding companies. United States Government issues closed fractionally higher each day.

These and the higher-grade corporate issues remain close to recent high price levels.

High-grade and medium-grade railroad bonds showed small price fluctuations, with the general trend slightly lower. Atchison gen. 4s, 1995, closed at 108½ compared with 108 last Friday; Union Pacific first 4s, 1947, at 109¼ were off ½ point. Illinois Central ref. 4s, 1955, closed at 84½ compared with 85 last week. Lower-grade rail issues showed large price declines at the beginning of the week, but later rallied and regained part of their losses. Chicago & North Western 4¾s, 1949, closed at 18¾ compared with 18½ last week; New York Central ref. 5s, 2013, at 63½ were off 1 point; Southern Pacific 4½s, 1981, also declined 1 point to 63½.

Utility bonds were quieter and prices fluctuated in a narrower range this week. Medium- to lower-grade bonds provided what activity there was, with weakness prevailing in the first few days followed by some recovery. Among issues in this group showing the widest fluctuations, Northwestern Power 6s, 1960, advanced 4 points for the week, closing at 35; Manitoba Power 5½s, 1951, gained 3 to close at 64¾; Broad River Power 5s, 1954, at 75¼ were up 1¼, and Utah Light & Traction 5s, 1944, advanced 1¾ to 74½. High grades maintained a firm tone. Holding company bonds for the most part did not react noticeably upon announcement of Federal legislation; Standard Gas & Electric 6s, 1935 and 1951, were among the weakest of this group, declining 7¾ to 47½, and 2¾ to 33¼, respectively.

Strength in highest-grade industrial issues contrasted with weakness in many second-line bonds, particularly steels, during the week. In the former classification. Liggett & Myers Tobacco 7s, 1944, rose to a new peak at 134, up 2½ for the week, with the 5s, 1951, of the same company at a new high of 119¼, up 1¾. Illinois Steel 4½s, 1940, gained 1¼ point to 107¾, and Standard Oil of New York 4½s, 1951, advanced ¼ to 104. On the other hand, Youngstown Sheet & Tube 5s, 1970, dropped to 93½ from 95; Republic Iron & Steel 5½s, 1953, lost 3 points, closing at 98; Otis Steel 6s, 1941, declined 3½ to 83½, and General Steel Castings 5½s, 1949, were off 3¾ to 83½. Oils and rubbers generally underwent small fluctuations. Miscellaneous price changes included a 3½-point advance by American Ice 5s, 1953, to 81½; a 3¼-point drop by Childs 5s, 1943, to 59, and a loss of 2½ by United Drug 5s, 1953, to 90½.

Minor fluctuations again characterized the foreign bond market. Strength was found principally among the German corporate issues, Scandinavian bonds, and Polish obligations. Weakness occurred among Chilean, Argentine, Colombian and Uruguayan issues.

Moody's computed bond prices and bond yield averages are given in the following tables:

* These prices are computed from average yields on the basis of one "ideal" bond (43% coupon, maturing in 31 years) and do not purport to show either the average level or the average movement of actual price quotations. They merely serve to illustrate in a more comprehensive way the relative levels and the relative movement of yield averages, the latter being the truer picture of the bond market. For Moody's index of bond prices by months back to 1923, see the issue of Feb. 6 1932, page 907.

*Actual average price of 8 long-term Treasury issues. † The latest complete list of bonds used in computing these indexes was published in the issue of Oct. 13 1934, page 2264. †† Average of 30 foreign bonds but adjusted to a comparable basis with previous averages of 40 foreign bonds.

BOOK REVIEW

Hours and Wages Provisions in NRA Codes

A Compilation Organized by Leon C. Marshall. Washington: The Brookings Institution. 50 cents.

This publication, No. 16 in the Pamphlet Series issued by The Brookings Institution, presents in statistical form the detailed provisions regarding wages and hours of the 500 codes framed by the National Recovery Administration down to August, 1934. It is essentially a preliminary study, and does not attempt to present all the statistical comparisons to be drawn from the codes or to analyze or interpret the code provisions. What it offers, for the industrial or trade codes, is first a statistical exhibit of the number of workers in the industry, the basic and overtime work periods, overtime and

maximum hours for excepted periods, and the hours, when stated, of excepted occupations such as executives, outside salesmen and watchmen; and after that, for the same codes, the wage provisions for all the various classes of labor. It thus facilitates both a study and analysis of the hour and wage provisions of any particular code and a comparison of the provisions of one code with those of another. Potentially, it is pointed out, on the basis of 1929 employment figures, the codes cover about 27,000,000 workers, while more than 22,000,000 are now included—"a number," the compiler remarks, "sufficiently large to excite interest in ascertaining as precisely as may be the employment structure of wages, hours and other conditions under which they are working."

The pamphlet is of prime interest for code administrators, employers and employees, and of indispensable usefulness for any one making a comparative study of the codes.

Indications of Business Activity

THE STATE OF TRADE—COMMERCIAL EPITOME Friday Night, Feb. 8 1935.

General business continued to surge ahead at a very encouraging pace. Sharp increases were made in steel activity and railroad loadings. Many lines of business have been unfavorably affected by the uncertainty over the gold question and cold weather, but sales of coal and winter merchandise have benefited by the lower temperatures. Steel output rose to 53% in the Pittsburgh district, and the rate in the Chicago district was 68. Sales and specifications were the best in many weeks. Railroads and the automobile industry were the best buyers. Car loadings made the best showing since early in November 1934. Bituminous coal output was the largest of any week since March 1934 and exceeds all comparative totals back to 1931. In lumber, new business lagged because of adverse weather conditions, but orders ran ahead of production. The automobile industry was active. Retail business was good, helped by more favorable weather and special sales. Wholesale trade continued to gain. Heavy fill-in orders for winter merchandise were reported. Business failures in this country showed a reduction. Grain markets were lower most of the week, but recently showed some firmness. Weakening factors were continued uncertainty over the gold clause cases and a lack of demand. Yet offerings were not heavy, and there was a further reduction in the visible supply. Cotton moved within narrow range, and after considerable weakness early in the week showed some rallying power later on. Trading was alike affected by the same influences as mentioned above. Coffee was very weak all week, reaching new lows for the season almost daily. Other commodities were generally easier, with trading light. The general disposition among operators is to await the gold clause decision by the United States Supreme Court before doing much on either side of the market. It was rather cold here early in the week, and light snowfalls occurred at times, but at the close of the week warmer weather prevailed. A thaw set in on the 3rd inst. which made sloppy walking, but it afforded the city a chance to attack the snow remaining on the streets from the last heavy storm. The Pennsylvania snowstorm of last week cost the State \$400,000. A weather freak occurred at Angola, N. Y., on the 7th inst., where an East wind on Lake Erie shut off the village's water. Firemen maintained the supply from the lake with their pumper. The wind blew the water away from the end of an intake pipe not far from the lake shore. Many inhabitants resorted to melted snow for their water supply. Late last week Connecticut temperatures were down to 1 above zero. On the 5th inst. Pennsylvania had a six-inch snowfall, the first since the 17-inch record-breaker of a fortnight ago. Heavy rains and floods in Long Beach, Calif., routed people from their homes and marooned many children in school. The downpour measured 1.29 inches in two hours and 45 minutes on the 6th inst., and followed two days and nights of heavy rains. Austrian and Swiss landslides killed several persons. To-day it was snowing and cold here, with temperatures ranging from 31 to 37. The forecast was for rain to-night and Saturday. Overnight at Boston it was 20 to 34 degrees; Baltimore, 28 to 34; Pittsburgh, 32 to 38; Portland, Me., 14 to 30; Chicago. 26 to 30; Cincinnati, 32 to 38; Cleveland, 30 to 32; Detroit. 20 to 24; Charleston, 38 to 46; Milwaukee, 26 to 30; Dallas. 50 to 62; Savannah, 40 to 44: Kansas City, 30 to 32; Springfield, Mo., 40 to 48; Oklahoma City, 36 to 48; Denver, 30 to 38; Salt Lake City, 38 to 54; Los Angeles, 52 to 60: San Francisco, 52 to 58; Seattle, 34 to 54; Montreal, 10 to 20, and Winnipeg, 22 to 26.

Revenue Freight Car Loadings for Latest Week Show Sharp Gain

Loadings of revenue freight for the week ended Feb. 2 1935 totaled 598,164 cars. This is an increase of 42,396 cars, or 7.6% from the preceding week, and a gain of 32,763 cars, or 5.8% from the total for the like week of 1934. The comparison with the corresponding week of 1933 was even more favorable, the present week's loadings being 112,105 cars, or 23.1% higher. For the week ended Jan. 26 loadings were 1.3% below the corresponding week of 1934, and 16.9% above those for the like week of 1933. Loadings for the week ended Jan. 19 showed a gain of 0.2% when compared with

1933 and an increase of 12.7% when the comparison is with the same week of 1933.

The first 16 major railroads to report for the week ended Feb. 2 1935 loaded a total of 257,889 cars of revenue freight on their own lines, compared with 243,037 cars in the preceding week and 245,204 cars in the seven days ended Feb. 3 1934. A comparative table follows:

The Association of American Railroads in reviewing the week ended Jan. 26 reported as follows:

Loading of revenue freight for the week ended Jan. 26 totaled 555,768 cars. This was a decrease of 7,187 cars below the preceding week, and 7,332 cars below the corresponding week in 1934, but an increase of 80,476 cars above the corresponding week in 1933.

Miscellaneous freight loading for the week ended Jan. 26 totaled 189,448 cars, a decrease of 11,794 cars below the preceding week, and 4,213 cars below the corresponding week in 1934, but an increase of 35,417 cars above the corresponding week in 1933.

Loading of merchandise less than carload lot freight totaled 146,788 cars,

a decrease of 5,585 cars below the preceding week, 15,099 cars below the corresponding week in 1934 and 13,969 cars below the same week in 1933.

Coal loading amounted to 153,503 cars, an increase of 15,903 cars above

Coal loading amounted to 153,503 cars, an increase of 15,903 cars above the preceding week, 27,755 cars above the corresponding week in 1934, and 56,149 cars above the same week in 1933.

Grain and grain products loading totaled 22,603 cars, a decrease of 2,579 cars below the preceding week, 9,103 cars below the corresponding week in 1934 and 2,721 cars below the same week in 1933. In the Western Districts alone, grain and grain products loading for the week ended Jan. 26 totaled 13,724 cars, a decrease of 7,386 cars below the same week in 1934.

Live stock loading amounted to 13,809 cars, a decrease of 1,132 cars below the preceding week, 4,712 cars below the same week in 1934 and 3,592 cars below the same week in 1933. In the Western Districts alone, loading of live stock for the week ended Jan. 26 totaled 10,464 cars, a decrease of 3,968 cars below the same week in 1934.

Forest products loading totaled 17,922 cars, a decrease of 2,800 cars below the preceding week, and 2,765 cars below the same week in 1934, but an increase of 3,483 cars above the same week in 1933.

Ore loading amounted to 2,563 cars, a decrease of 257 cars below the preceding week, and 629 cars below the corresponding week in 1934, but an increase of 1,037 cars above the corresponding week in 1933

increase of 1,037 cars above the corresponding week in 1933.

Coke loading amounted to 9,132 cars, an increase of 1,057 cars above the preceding week, 1,434 cars above the same week in 1934 and 4,672 cars above the same week in 1933.

Three districts—Eastern, Allegheny and Pocahontas reported increases for the week of Jan. 26, compared with the corresponding week in 1934, in the number of cars loaded with revenue freight, while four districts—Southern, Northwestern, Centralwestern and Southwestern—reported decreases. All districts, however, reported increases compared with the corresponding week in 1933.

Loading of revenue freight in 1935 compared with the two previous years

	1935	1934	1933
Week of Jan. 5 Week of Jan. 12 Week of Jan. 19 Week of Jan. 26	498,073 553,675 562,955 555,768	500,813 557,266 561,902 563,100	439,469 509,893 499,554 475,292
Total	2 170 471	2.183.081	1 924 208

In the following table we undertake to show also the loadings for the separate roads and systems for the week ended Jan. 26 1935. During this period a total of 56 roads showed increases when compared with the corresponding week last year. The most important of these roads which showed increases were the Pennsylvania System, the New York Central RR., the Chesapeake & Ohio RR., the Illinois Central System, the Louisville & Nashville RR., and the Southern Pacific RR. (Pacific Lines).

Number of Freight Cars and Locomotives in Need of Repair on Jan. 1 1935

Class I railroads on Jan. 1 had 290,709 freight cars in need of repairs, or 15.5% of the number on line, according to the Association of American Railroads. This was a decrease of 5,238 cars compared with the number in need of such repairs on Dec. 1, at which time there were 295,947 cars, or 15.6%.

Freight cars in need of heavy repairs on Jan. 1 totaled 227,432, or 12.1%, a decrease of 4,670 cars compared with the number in need of such repairs on Dec. 1, while freight cars in need of light repairs totaled 63,277, or 3.4%, a decrease of 568 compared with Dec. 1.

Locomotives in need of classified repairs on Jan. 1 totaled 10,344, or 22.1% of the number on line. This was a decrease of 374 compared with the number in need of such repairs on Dec. 1, at which time there were 10,718, or 22.7%.

Class I railroads on Jan. 1 had 4,778 serviceable locomotives in storag compared with 5,035 on Dec. 1.

Number of Surplus Freight Cars in Good Repair on Jan. 14 1935

Class I railroads on Jan. 14 had 376,575 surplus freight cars in good repair and immediately available for service, the Association of American Railroads announced on Feb. 7.

This was a decrease of 15,442 cars compared with Dec. 31, at which time there were 392,017 surplus freight cars.

Surplus coal cars on Jan. 4 totaled 102,571, a decrease of 8,887 below the previous period, while surplus box cars totaled 222,274, a decrease of 6,130 compared with Dec. 31.

Reports also showed 26,200 surplus stock cars, a decrease of 274 compared with Dec. 31, while surplus refrigerator cars totaled 9,618, a decrease of 294 for the same period.

Moody's Daily Index of Staple Commodity Prices Recovers Loss of Previous Week

Prices of primary commodities were subjected to alternate waves of bullish and bearish sentiment as conflicting opinions on the outcome of the gold clause trial held sway alternately. On the whole, and especially on the last two days of the week in review, confidence reasserted itself and prices advanced. Moody's Daily Index of Staple Commodity Prices erased its loss of the previous week and closed 2.1 points higher at 155.6.

Nine of the fifteen staples comprising the Index registered gains for the week, four were unchanged, and only two, wool tops and silk, showed slight losses. Hogs led the advance with a rise to new high levels for the season, while wheat and rubber also contributed important gains to the Index number. Cotton, sugar, corn, hides, cocoa and silver scored smaller advances. Steel scrap, copper, lead and coffee were unchanged.

The movement of the Index number during the week, with comparisons, is as follows:

Fri.,	Feb. 1153.5	2 Weeks Ago, Jan. 25 155.5
Sat	Feb. 2	Month Ago, Jan. 8 159.1
Mon	Feb. 4	Year Ago, Feb. 8139.7
Tues	Feb. 5	1933 High, July 18 148.9
Wed	Feb. 6	Low, Feb. 4 78.7
Thurs.	Feb. 7	1934-35 High, Jan. 8 '35160.0
Fri.,	Feb. 8155.6	Low, Jan. 2 '34 126.0

"Annalist" Weekly Index of Wholesale Commodity Prices for Week of Feb. 5 at Highest Level Since 1930

An advance of 0.9 points for the week carried the "Annalist" Weekly Index of Wholesale Commodity Prices to a new high since 1930, the index standing at 123.8 on Feb. 5, compared with 122.9 (revised) Jan. 29. In noting the foregoing, the "Annalist" said:

The rise was due entirely to sharply higher prices for cattle and hogs, gains and losses in other commodities largely balancing each other as most markets waited for a gold clause decision.

THE ANNALIST WEEKLY INDEX OF WHOLESALE COMMODITY PRICES Unadjusted for seasonal variation (1913=100)

Wholesale Commodity Prices Increased Further During Week of Feb. 2, According to United States Depart-

Wholesale commodity prices continued their upward trend during the week ended Feb. 2, the Bureau of Labor Statistics of the United States Department of Labor announced Feb. 7. The average level of prices rose by 0.1 of a point to 79.1% of the 1926 average, the highest level reached since Dec. 1930. The Bureau's announcement continued:

The Feb. 2 index is 1.7% above the high point reached in 1934, Sept. 8, when the index was 77.8%, and 11.4% above the low point of 1934, 71.0on Jan. 6. As compared with the corresponding week of a year ago, this week's index is higher by 8.7%, and when compared with the corresponding week of 1933, the index is up by 31.8%. Since prices began to advarlate in November of last year, the accumulated rise has been nearly 4%. Since prices began to advance

The advance in commodity prices during the week was confined chiefly to foods, with fuel and lighting materials, chemicals and drugs and house-furnishing goods showing smaller increases. Farm products, textile prod-ucts and miscellaneous commodities registered decreases, while three groups -hides and leather products, metals and metal products and building materials—remained unchanged.

All of the 10 major groups of commodities included in the index showed higher average prices than for their low point of 1934. Farm products registered the greatest rise with an increase of 36.4%; foods advanced 30%; chemicals and drugs 9.4%; miscellaneous commodities 6.5%; and hides and leather products 3%. Textile products, fuel and lighting materials, metals and metal products, and housefurnishing goods showed smaller

When compared with their respective high points of 1934, farm products are up by 5.4%; foods, 5.6%, and chemicals and drugs 2.4%. All other groups were lower than the 1934 peak, ranging from 1.4% for miscellane

ous commodities to nearly 9% for textile products Wholesale food prices for the week were up 0.7 of 1%, due to advances of 3% in meats, 2% in butter, cheese and milk, and slightly higher prices for fruits and vegetables. Cereal products decreased 11/2% and the sub-group of other foods was down more than 1%. Price increases were reported for butter, cheese, baked beans, fresh and cured beef, bacon, dressed poultry, and potatoes. Important food items decreasing in price were bread in New York, oatmeal, flour, lamb, fresh pork, lard and raw sugar. Since Dec. 8 1934 wholesale food prices have shown a steady upward tendency with an accumulated advance of approximately 9%. The index for the group, 81.5, is 24% above a year ago, when the index was 65.7, and

52% above two years ago, when the index was 53.6.

Index numbers for the high and low weeks of 1934, the week of Feb. 2. and per cent of change are shown in the following table:

Commodity Groups	Feb. 2 1935	Date &	f	Per Ct. of Change	0,	1	Per Ct.
All commodities	79.1	9-8	77.8	+1.7	1-6	71.0	11.4
Farm products	78.3	9-8	74.3	+5.4	1-6	57.4	36.4
Foods	81.5	9-8	77.2	+5.6	1-6	62.7	30.0
Hides and leather products	86.8	2-10	90.5	-4.1	8-18	84.2	3.1
Textile products	69.9	2-24	76.7	-8.9	12-8	69.3	0.9
Fuel and lighting materials	74.4	11-17	76.1	-2.2	3-31	72.4	2.8
Metals and metal products	85.2	5-12	88.8	-4.1	1-6	83.3	2.3
Building materials	84.9	6-30	87.8	-3.3	12-22	84.7	0.2
Chemicais and drugs	80.2	12-29	78.3	+2.4	1-6	73.3	9.4
Housefurnishing goods	82.2	5-26	83.9	-2.0	1-27	81.7	0.6
Miscellaneous		12-15	71.2	-1.4	1-6	65.9	6.5
products and foods	77.9	4-28	79.2	-1.6	1-6	77.6	0.4

Continued advances for chemicals caused the group of chemicals and Fertilizer materials, due to drugs to increase by 0.3 of 1% to a new peak. a decrease in the price of tankage, were slightly lower. Drugs and pharmaceuticals and mixed fertilizers remained unchanged from the previous The present index for the group as a whole, 80.2, is the highest since May 1931.

Fuel and lighting materials with an index of 74.4 increased 0.1 of 1%due to advancing prices of gasoline and kerosene. Average prices of coal and coke were unchanged.

The index of housefurnishing goods, 82.2, was up 0.1 of 1%, due to a fractional increase in average prices for furniture. The general level of

furnishings showed no change Farm products with a decline of nearly 1% during the week showed the greatest drop for any of the 10 major groups. The decrease was due mainly to a 1.7% drop in prices for grains and approximately 1% in other farm products, including cotton, eggs, apples, lemons, oranges, hay and seeds.
The general level of livestock and poultry was unchanged. Average prices of cows, calves, sheep and live poultry were higher, while steers and hogs Prices of corn, oats, rye and wheat also were lower. Higher prices were reported for hops, peanuts, onions and potatoes. The pre farm products index, 78.3, is 29% higher than a year ago and 95% higher than two years ago, when the indexes were 60.5 and 40.2, respectively.

Miscellaneous commodities with an index of 70.2 decreased 0.6 of 1%,

due to a decline of 4.2% in crude rubber, 1.6% in cattle feed, and a smaller decrease in other miscellaneous commodities. The sub-group of automobile tires and tubes was unchanged.

Textile products declined fractionally to 69.9% of the 1926 average, due to lower prices for cotton goods, silk and rayon, woolen and worsted goods and other textile products. Average prices of clothing and knit goods were unchanged.

Lower prices for hides, leather and harness in the group of hides and leather products were so slight as not to be reflected in the level for the group Average prices of shoes were stationary.

Metals and metal products with an index of 85.2 remained at the level of the previous week, although slight decreases were shown for certain non ferrous metals. The sub-group of agricultural implements, iron and steel, motor vehicles, and plumbing and heating fixtures were unchanged

In the group of building materials advances in lumber and other building materials were counter-balanced by a drop in paint materials, resulting in the index remaining unchanged at 84.9. Average prices of brick and tile, cement and structural steel showed no change.

The general level for the group of "All commodities other than farm

products and foods" remained unchanged from the level of the week before. The present index, 77.9, compares with 78.7 for a year ago and 66.8 for

two years ago.

The index of the Bureau of Labor Statistics is composed of 784 price series, weighted according to their relative importance in the country's

markets and based on average prices of the year 1926 as 100.0.

The following table shows index numbers of the main groups of commodities for the past five weeks and for the weeks of Feb. 3 1934 and Feb. 4

INDEX NUMBERS OF WHOLESALE PRICES FOR WEEKS OF FEB. 2, JAN. 26, JAN. 19, JAN. 12 AND JAN. 5, 1935, AND FEB. 3 1934 AND FEB. 4 1933 (1926=100.0)

United States Department of Labor Reports Increase of 2.2% in Retail Prices of Food During Two Weeks Ended Jan. 15

Retail prices of food advanced 2.2% during the two weeks' period ended Jan. 15 1935, the Bureau of Labor Statistics of the United States Department of Labor announced Jan. 29. The current index, 118.5 (1913=100.0), is the highest point reached since Oct. 15 1931, it was pointed out. Of the 42 articles of food included in the index, 22 advanced in price, 13 showed no change and 7 declined in price. The Bureau further reported:

Five of the six groups of food items registered increases. Eggs alone showed weakening prices and declined 1%

Meats advanced 7%, each individual item increasing in price; pork

chops leading with an advance of 11.6%. Cereals registered a gain of 0.1 of 1%, a decrease of 0.4 of 1% for wheat

cereal being slightly more than offset by advances in prices of corn flakes and corn meal Dairy products increased 2.4%, each item included showing a strengthen-

ing of price. Fruits and vegetables rose in price 0.4 of 1%; bananas, prunes and canned corn showing minor decreases, while oranges, cabbage and onions rose

Miscellaneous foods advanced 1%, decreases in price of sugar and tea being overbalanced by increases in lard, oleomargarine and vegetable lard substitute.

Price increases occurred in each of the geographical divisions and in each of the 51 reporting cities. Peoria, of the North Central group, registered the largest increase, 8.7%, due mainly to the large advance Houston, of the South Central group, showed the smallest in milk prices. increase, 0.1 of 1%.

INDEX NUMBERS OF RETAIL PRICES OF FOOD (1913=100.0)

	19	35	1934				1933	1930
	Jan. 15		Oct. 23 3 mos. ago				Jan. 15 2 years ago

Prices used in constructing the weighted index are based upon reports from all types of retail food dealers in 51 cities and cover quotations on 42 important food items. The index is based on the average of 1913 as 100.0. The weights given to the various food items used in constructing the index are based on the expenditures of wage earners and lower-salaried

The following table shows the percentages of price changes for individual commodities covered by the Bureau Jan. 15 1935, compared with Jan. 2 1935, Dec. 18 1934, Jan. 16 1934, Jan. 15 1933 and Jan. 15 1930.

General Level of Wholesale Commodity Prices in 1934 Above 1933 and 1932 but Below 1929-Report of United States Department of Labor

The Bureau of Labor Statistics, of the United States Department of Labor, reports that the general level of wholesale commodity prices rose to 74.9% of the 1926 average for the year 1934 as a whole, showing an increase of nearly 14% over the average for the year 1933, when the index was 65.9, and an increase of 153/4% over 1932, when the index was 64.8. When compared with 1929, however, the Bureau said, with an index of 95.3, the 1934 level was lower by 21 1-3%. During the year the trend was steadily upward except for slight reactions in April and October. The accumulated rise from January to December was 61/2%. Under date of Jan. 30 the Bureau added:

Prices of farm products showed wide variation during the year with the result that from the low in January to the high in September an increase of 25% was recorded. The year's index for the group, 65.3, was 27% higher than for 1933, when the index was 51.4, and $35\frac{1}{2}$ % higher than 1932, when the index was 48.2. Grains were up over 40%; livestock and poultry $18\frac{1}{2}$ %; and other farm products, including cotton, eggs, fruits, hay, milk, tobacco, potatoes, and woof. 26 1-3%.

Foods for the year were 16½% higher than for 1933, due to an advance of 26% in meats; 20% in butter, cheese and milk; 18% in cereal products; and 9% in fruits and vegetables and other foods. The index for the group as a whole was 70.5.

Price increases in the hides and leather products group were no nounced as in most of the other groups. All sub-groups recorded increases ranging from 2% in hides and skins to 8%% in shoes. The index for the group, 86.6, compares with 80.9 for a year ago, showing an increase of 7%.

The trend in textile products was downward. However, the general level

was 12½% above 1933. Cotton goods were up 21½%; woolen and worsted goods 15%; clothing 14½%, and knit goods 7 1-3%. Silk and rayon prices, on the other hand, were lower by 12¾%. The index for the group was 72.9 compared with 64.8 for 1933 and 54.9 for 1932.

An advance of about 23% in petroleum products, 14% in bituminous

coal. and 9% in coke resulted in fuel and lighting materials increasing 11%over the previous year. Average prices of anthracite coal were slightly

Metals and metal products with an index of 86.9 were nearly 9% higher. Nonferrous metals were up 131/2%; iron and steel, 10 1-3%; plumbing and heating fixtures, 8%; agricultural implements 7%, and motor vehicles 6%.

Average prices of building materials weakened slightly during the closing onths of 1934. The year's index, 86.2, however, is 12% above 1933, when months of 1934. the index was 77.0. Lumber was up 191/2%; brick and tile, 14%; structural steel and other building materials, 9%; and cement and paint and paint

Chemicals and drugs showed an increase of 4.8%, the smallest recorded for any of the 10 major groups, although drugs and pharmaceuticals were up 28%: mixed fertilizers. 15%, and fertilizer materials 2%. The sub-group of chemicals remained unchanged from last year.

Both furniture and furnishings in the group of housefurnishings goods were higher. Furnishings recorded an increase of 10% while furniture advanced 5%. The index for the group, 81.5, was 7½% over the previous

In the group of miscellaneous commodities, crude rubber recorded an increase of over 117% and cattle feed 54%. Automobile tires and tubes, paper and pulp, and other miscellaneous commodities showed smaller increases. The level for the group as a whole was $11\,\%\,\%$ above the previous

Raw materials, including farm products, coffee, hides and skins, raw silk, coal, crude petroleum, crude rubber, and other similar commodities, registered an advance of 21½% over 1933, and 24½% over 1932. They were, however, 29½% below the 1929 level.

The groups of semi-manufactured articles and finished products recorded creases of 11% over 1933. Semi-manufactured articles were 22%% over

1932, while finished products advanced 11% over the same period. Non-agricultural commodities, with an index of 76.9 were 11 1/2 % higher

than 1933 and 12½% higher than 1932.

The group of "All commodities other than farm products and foods"

advanced 10% over 1933 and nearly 12% over 1932.

Index numbers by groups and sub-groups of commodities for December 1934, and the years 1929 to 1934, inclusive, are contained in the following table.

INDEX NUMBERS OF WHOLESALE PRICES BY GROUPS AND SUB-GROUPS OF COMMODITIES (1926=100.0)

Groups and Subgroups	Year 1934	Dec. 1934	Year 1933	Year 1932	Year 1931	Year 1930	Year 1929
arm products	65.3	72.0	51.4	48.2	64.8	88.3	104.9

Business Conditions in Kansas City Federal Reserve District-Improvement Shown in 1934

"General business in the Tenth (Kansas City) District improved in 1934," according to the Kansas City Federal Reserve Bank, which said that "debits by banks to individual accounts increased 15.4%; trade at 32 department stores, 16.4%; wholesalers' sales, five lines combined, 14.8%, and retail lumber sales, 4.2%. Business mortality was low, the bank pointed out, with "failures being less numerous, and liabilities smaller than in any year since 1920." Regarding conditions in December 1934, the bank, in its "Monthly Review" of Feb. 1, said:

The dollar volume of trade at 32 department stores in December exceeded that of November by 62.6%, or about the usual seasonal amount. Sales were 13.5% above a year ago, and the largest for any December since 1930. Wholesale trade declined, and for the second time this year sales were below a year ago.

Marketings of all classes of live stock were lighter, and of grain heavier, in December than in the preceding month. Receipts of cattle, hogs and sheep fell below the 10-year average for December, as did those of grain. The production of flour and the output of all minerals except crude oil, as in November, was under F December 1933. Construction operations declined seasonally, and expenditures were insignificant.

The following, in part, is also from the bank's review:

The severe drought was one of the most important factors affecting business activity in the Tenth District in 1934. Crop yields were the poorest of record and acreage abandonment the largest. . . . Higher prices offset in part the low yields, and the farm value of 64 crops, based on Dec. 1 prices, was only 13.9% less than the value of like crops harvested in 1933. Farm income was, however, slightly larger in 1934 than in 1933. . . .

Business Conditions in Boston Federal Reserve District -- Moderate Increase from November to December Noted in Level of Activity

The level of general business activity in New England during December, states the Federal Reserve Bank of Boston, "was moderately higher than that for November, when allowances for customary seasonal changes had been made, and the average level for 1934 was slightly higher than in 1933." From the bank's Feb. 1 "Monthly Review" we also take the following (in part):

During the final quarter of 1934 an upward tendency prevailed, whereas in the last quarter of 1933 the volume of industrial production had been declining. One exception to the rising level in December occurred in the building industry in this district.

Production of boots and shoes in New England usually decreases between November and December, but in 1934 a small increase occurred. The volume for the entire year 1934 was practically the same as in the preceding year. . . .

According to the Massachusetts Department of Labor and Industries, employment in representative manufacturing establishments in Massachusetts increased 3.6% in December over November, while aggregate weekly pay rolls increased 12.5%. Usually a decrease of seasonal nature occurs between November and December in both employment and pay rolls.

The value of retail sales of reporting New England department and apparel stores in December was 7.6% higher than in the corresponding month a year ago. The cumulative sales value for 1934 in New England exceeded that of 1933 by 5.5%. . . .

Index of Wholesale Commodity Prices of National Fertilizer Association Unchanged During Week of Feb. 2

There was but little change in the general level of whole-sale commodity prices in the week ended Feb. 2. The index of the National Fertilizer Association for the week was 77.7, based on the 1926-1928 average as 100, remaining unchanged from the week preceding. The index a month ago was 76.9 and a year ago 70.2. Under date of Feb. 4 the Association also said:

Prices in general fluctuated within a narrow range last week with the advances which occurred in certain commodities being offset by minor declines in other commodities, although the number of declining prices exceeded the number of advances. Only two of the component groups in the index—grains, feeds and livestock, and fats and oils — moved upward last week; declines were registered by five groups, foods, fuel, textiles, metals and miscellaneous commodities. In every case, however, the reaction in the declining groups was negligible.

action in the declining groups was negligible.

Prices of 17 individual commodities advanced while 35 commodities declined in prices. Aside from the seven advances in the fats and oils group the principal commodities which rose in price last week included cattle, oats, beef and potatoes, items which are given relatively heavy weight. Declines were registered by six items in the textiles group, four in the metals group, and five in the miscellaneous commodities group, with no advances occurring in any of these groups. Price trends in the other important groups were mixed during the week.

The index numbers and comparative weights for each of the 14 groups included in the index are shown in the table below.

WEEKLY WHOLESALE PRICE INDEX-BASED ON 476 COMMODITY

	PRICES (1926-1	928=100)

Weekly Electric Output Declines Though Gain Over Same Period of 1934 Continues

The Edison Electric Institute in its weekly statement discloses that the production of electricity by the electric light and power industry of the United States for the week ended Feb. 2 1935 totaled 1,762,671,000 kwh. Total output for the latest week indicated a gain of 7.7% over the corresponding week of 1934, when output totaled 1,636,275,000 kwh.

Electric output during the week ended Jan. 26 1935 totaled 1,781,666,000 kwh. This was a gain of 10.6% over the 1,610,542,000 kwh. produced during the week ended Jan. 27 1934. The Institute's statement follows:

PERCENTAGE OF INCREASE 1935 OVER 193

Major Geographic Divisions	Week Ended Feb. 2 1935	Week Ended Jan. 26 1935	Week Ended Jan. 19 1935	Week Ended
New England	5.5	8.0	8.4	7.7
Middle Atlantic	6.4	8.6	6.4 7.1	5.4
Central Industrial		14.2	11.9	5.4 8.7
West Central	9.5 8.5	7.4	6.8	4.1
Southern States	8.9	10.3	11.0	9.4
Rocky Mountain	10.8	13.6	11.7	12.0
Pacific Coast	2.7	6.5	5.8	6.0
Total United States.	7.7	10.6	9.4	7.7

Arranged in tabular form the output in kilowatt-hours of the light and power companies of recent weeks and by months is as follows:

DATA FOR RECENT WEEKS

Note—The monthly figures shown above are based on reports covering approximately 92% of the electric light and power industry and the weekly figures are based on about 70%.

Lumber Movement Recovers from Severe Weather Effects—Shipments Show Substantial Gain

The National Lumber Manufacturers Association reports that recovery from the recent severe weather effect upon the lumber movement was indicated in the sawmill reports for the week ended Feb. 2 1935, which showed production and shipments well above those of the preceding week and orders above those first reported for the previous week. Revised order reports will show appreciable gain over the preceding week's final figures. Shipments were heaviest of any week since November and when revised will top any week of the fourth quarter of 1934. These comparisons are based upon reports from 1,043 mills whose production was 138,597,000 feet; shipments, 180,082,000 feet; orders received, 184,087,000 feet. Revised figures for the preceding week were: Mills, 1,203; production, 130,115,000 feet; shipments, 152,545,000 feet; orders, 189,380,000 feet. The Association further reports:

For the week ended Feb. 2 all regions except Southern Pine, Northeastern Softwoods and Northern Hardwoods reported orders above production. Total orders were 33% above output, softwoods showing excess of 34% and hardwoods of 19%. Shipments were 30% above production. All regions except Northern Hemlock and Northeastern Softwoods reported orders above those of the corresponding week of 1934, total orders being 27% above those of a year ago. Production was 10% in excess of that of the 1934 week.

Unfilled orders on Feb. 2, as reported by 954 identical mills were the equivalent of 30 days' average production, compared with 25 days' a year ago. Identical mill stocks on Feb. 2 were the equivalent of 165 days' output, compared with 163 days' on Feb. 3 1934.

Forest products car loadings totaled 17,922 cars during the week ended

Forest products car loadings totaled 17,922 cars during the week ended Jan. 26 1935. This was 2,800 cars less than during the preceding week, 2,765 cars below corresponding week of 1934 and 3,483 cars more than during similar week of 1933.

Lumber orders reported for the week ended Feb. 2 1935, by 876 softwood mills, totaled 175,038,000 feet, or 34% above the production of the same mills. Shipments as reported for the same week were 171,540,000 feet, or 31% above production. Production was 130,997,000 feet.

Reports from 202 hardwood mills give new business as 9,049,000 feet, or 19% above production. Shipments as reported for the same week were 8,542,000 feet, or 12% above production. Production was 7,600,000 feet.

Unfilled Orders and Stocks

Reports from 1,312 mills on Feb. 2 1935 give unfilled orders of 863,349,000 feet and gross stocks of 4,794,591,000 feet. The 954 identical mills report unfilled orders as 798,739,000 feet on Feb. 3 1935, or the equivalent of 30 days' average production, compared with 667,847,000 feet, or the equivalent of 25 days' average production, on similar date a year ago.

Identical Mill Reports

Last week's production of 753 identical softwood mills was 129,227,000 feet, and a year ago it was 118,838,000 feet; shipments were respectively 170,355,000 feet and 118,300,000; and orders received 174,104,000 feet, and 136,804,000 feet. In the case of hardwoods, 98 identical mills reported production last week and a year ago 6,464,000 feet and 4,624,000 feet; shipments 7,161,000 feet and 5,525,000 feet, and orders 7,233,000 feet had 5,744,000 feet.

Total Value of Exports and Imports of Merchandise by Grand Divisions and Principal Countries in

The Department of Commerce on Feb. 5 1935 issued its report showing the merchandise imports and exports by grand divisions and principal countries for the month of December and 12 months ending with December for the years 1933 and 1934. The following are the tables complete:

TOTAL VALUES (PRELIMINARY) OF EXPORTS AND IMPORTS OF MERCHANDISE BY GRAND DIVISION AND PRINCIPAL COUNTRIES

Prospects That Industrial Operations in First Quarter This Year Will Average Higher Than in any Similar Period Noted by National City Bank

"The favorable reports from the industries during the past month seem to dispel any remaining uncertainty as to the business prospect through the first quarter of the year, giving the optimists, for that period at least, plainly the better of the argument," says the National City Bank of New York in its February "Bulletin," made public Feb. 4. "On the basis of orders in hand, factory schedules, and trade prospects generally," the bank continues, "the likelihood that industrial operations will average higher than in any first quarter since 1931 appears to be clearly established." The bank goes on to say:

The upward trend which began during the fall has gained momentum since the turn of the year, chiefly from the rapid increase in automobile assemblies. Apparently the automobile manufacturers intend, if possible, to make a million vehicles during the quarter, which would be an increase of one-third over a year ago, and their demands for materials are requiring increased operations in other industries.

requiring increased operations in other industries.

Not since 1930 have a million automobiles been turned out in the first quarter. It is suggested by some that this early expansion is in part a precaution against the contingency of labor troubles later in the season. However that may be, automobile sales have continued good, showing less than the usual winter decline, and have been well above a year ago. The industry expects to sell perhaps 3,250,000 cars this year, against 2,780,000 in 1934, and is prepared to stock its dealers accordingly.

The rise in steel ingot production has been uninterrupted in 15 weeks, reaching 52.5% of capacity in the last week of January, and is due principally but by no means entirely to automobile orders. Tin-plate mills have speeded up, and farm equipment manufacturers and other miscellaneous buyers of steel have been placing more orders.

buyers of steel have been placing more orders. Textile mills in the main have a good volume of unfilled orders, and will give steady support to business during the quarter. The woolen mills have been unable to keep up with the demands of the clothing manufacturers for deliveries, and many of the men's wear mills particularly are booked to capacity to April 1. The recovery of this industry since its September low point has been sensational, the monthly consumption of raw wool having tripled. Silk mills are busier than a year ago, and rayon mills also, with unfilled orders representing a month's production. Cotton mill operations recovered promptly from the holiday curtailment, and are nearly as high as at the peak last year, while in the judgment of the market a good part of the spring cotton goods business is still to be placed. . . .

Three Factors Favorable for Spring Trade

This upturn in industry, with the resulting expansion in employment and manufacturing pay rolls, is the first of three factors which may be noted as favorable for spring trade. The second is the likelihood that the farmer will give perhaps more support to business than he did a year ago, when farm buying was a great factor in the spring rise. Both the Agriculture Adjustment Administration and the Department of Agriculture estimate that farm income during the first half of 1935 will be larger

than in 1934. The volume of products marketed will be smaller, but the higher prices will offset the shrinkage in quantity. It is to be expected that the effects of the drouth and the elimination of the surplus in many of the farm markets will continue evident, especially in livestock prices, for the first effect of the drought was to add to the slaughter of animals, and the reduction in the supply is only now appearing in the markets.

In addition to the increased receipts from marketings, rental and benefit payments by the AAA during the first six months will exceed those of the first half of last year. Also, this increased income will buy more, in some directions at least, as witness the announcement that the spring catalogue of one of the two largest mail order houses carries prices 6% below a year ago.

The third reason for anticipating a good spring business lies in the promised Government expenditures. According to the President's estimate, the Federal deficit for the fiscal year ending June 30 next will be \$4,300,000,000, excluding the sinking fund. During the first half of the year the deficit, excluding the sinking fund, amounted to \$1,560,000,000. Thus an expenditure of over \$2,700,000,000 in excess of receipts is contemplated for the second six months, which is at the rate of \$450,000,000 a month. The Treasury has never before in time of peace spent at such a rate except in two months, January and April 1934, and there is no assurance that it will be able to distribute the sum named within the allotted time. However, enough evidently will be disbursed to support spring

Increases in Factory Employment and Payrolls from November to December Reported by United States Department of Labor—Employment Increase Contrary to Seasonal Trend—6 to 18 Non-Manufacturing Industries Report Higher Employment

Factory employment and payrolls increased from November to December, reports the Bureau of Labor Statistics. United States Department of Labor. The employment increase is contrary to the movement shown in 12 of the 15 preceding years. Declines in payrolls in December have been shown in 8 of the 15 preceding years. Employment increased 1.7% from November to December it was reported, and payrolls increased 6.2%. Forty-four of the 90 manufacturing industries surveyed reported gains in employment in December, and 62 industries reported increased payrolls. Industries of major importance in which gains in both employment and payrolls were reported in December were: Automobiles, blast furnaces-steel works-rolling mills, foundries and machine shops, machine tools, hardware, woolen, cotton, silk, dyeing and finishing textiles, and boots and An announcement by the Labor Department also shoes.

The Bureau of Labor Statistics' index of factory employment for December 1934 is 78.1 (preliminary) and the December index of factory payrolls is 63.2 (preliminary). The level of employment in December 1934 was 5% above the level of the December 1933 index (74.4) and payrolls were 16% above the level of the December 1933 index (54.5). The base used in computing these indexes is the average for the three-year period, 1923-1925, which is taken as 100.

which is taken as 100.

The levels of employment and payrolls in the separate industries in December 1934 compared with December 1933 shows increased employment over the year interval in 62 industries and larger payrolls in 76 of the

Employment for the 12 month period ending December 1934 was 14.2% above the annual average of 1933, 22.9% above the annual average of 1932, and 1.8% above the 1931 average. A similar comparison of payrolls for the 12 months of 1934 with the annual average of 1933 showed a gain of 27.6%, and compared with the 12-month average of 1932, an increase of 34.3%. The annual average of payrolls for 1934 was 8.3% below the 12-month average of 1931.

The indexes of factory employment and payrolls are computed from returns supplied by representative establishments in 90 important manufacturing industries of the country. Reports were received in December from 25,288 establishments employing 3,605,568 workers whose weekly earnings were \$71,080,570 during the pay period ending nearest Dec. 15. The employment reports received from these co-operating establishments cover more than 50% of the total wage earners in all manufacturing

Increased activity in automobile plants, due to production of new models, was reflected in gains of 32.5% in employment and 48.9% in payrolls in this industry. The settlement of labor difficulties in the dyeing and finishing textiles industry resulted in a recovery from the previous month's sharp decline, employment showing an increase of 25.7% from November to December and payrolls increasing 36.1%. Establishments in the woolen and worsted goods industry reported seasonal gains, 14.1% in employment and 24.3% in payrolls. The hardware industry, due primarily to increased orders for automobile hardware, showed a gain of 11.1% in employment and 20% in payrolls. Employment in the fertilizer industry showed a gain of 9.1% and iron and steel forgings establishments reported an expansion of 7.8% in employment from November to December. Establishments in the aircraft industry reported an increase of 7.6% in number of workers while employment in the carpet and rug industry increased 6.3% and in the agricultural implement industry 5.3%. Among the remaining 35 industries reporting increased employment were the boot and shoe and leather industries with seasonal gains of 3.9% each; machine tools, 2.9%; book and job printing, 2.4%; cotton, 2.0%; silk, 1.8%; blast furnaces-steel worksrolling mills, 1.6%; and foundries and machine shops, 1.3%.

The most pronounced decreases in employment from November to December were seasonal in character. Employment in the beet sugar industry declined 40.2%; the canning and preserving industry reported 22% fewer workers; cement, 13.7%; marble, 11.8%; shirts and collars, 10.6%; stoves, 8.3%; and men's furnishings 7.3% fewer employees. The radio, women's clothing, ice cream, and brick industries also reported seasonal declines ranging from 3.1% to 6.5%. Other industries in which substantial decreases in employment were reported from November to December were. Cash registers, 6.8%; cane-sugar refining, 6.3%; millinery, 5.7%; butter, 4.9%; soap, 4.8%; sawmills, 3.6%; slaughtering, 3.5%; cigars and cigarettes, 3.3%; and jewelry, 3.2%. The men's clothing industry reported a decrease in employment of 1.6% and the glass and petroleum

refining industries reported declines of 1.2% and 1.1%, respectively.

In the following table are presented the indexes of employment and payrolls for December 1934, November 1934, and December 1933 for each of

the manufacturing industries covered by the Bureau of Labor Statistics. The indexes are not adjusted for seasonal variation.

As to employment conditions in non-manufacturing industries during December, the announcement said:

Increases in employment for November to December were shown in six of the 18 non-manufacturing industries surveyed monthly by the U. S. Bureau of Labor Statistics and increases in payrolls were reported in nine of these industries

The most pronounced changes over the month interval were seasonal in character. Retail trade establishments, reflecting expansion for holiday trade showed a gain of 8.5% in employment. The group of department stores, variety stores, general merchandise, and mail-order establishments which is most affected by Christmas trade reported an increase of 27.0% in number of workers. In the remaining 53,698 retail trade establishments for which data were available, employment increased 2.3% over the month interval.

Employment in the metalliferious and anthracite mining industries increased 2.8% and 1.4%, respectively, over the month interval. The gains in employment in the remaining three industries reporting increases (headers increases) and seed seed to the contract of the contr

(brokerage, insurance, and real estate) were 0.3% or less.

Among the 12 non-manufacturing industries reporting decreased employment from November to December, the greatest declines were shown in the quarrying and non-metallic mining and the building construction industries. These industries are adversely affected by winter weather. The quarrying industry showed a decrease of 15.1% in employment over the month interval and employment in the building construction industry based on reports supplied by 10.188 contractors employing 70,160 workers in December showed a falling-off of 10.7%.

reports supplied by 10.188 contractors employing 70.160 workers in December showed a falling-off of 10.7%.

Employment in the dyeing and cleaning industry showed a seasonal decline of 4.6% and the power and light industry reported a decrease of

In the remaining eight industries in which employment decreased over the month interval, the losses ranged from 1% in the laundry and electricrailroad and motor-bus operation industries to 0.1% in bituminous coal mining, banks, and wholesale trade.

The 18 non-manufacturing industries surveyed, with indexes of employment and payrolls for December 1934, where available, and percentage changes from November 1934 and December 1933 are shown below. The 12-month average for 1929 is used as the index base, or 100, in computing the index numbers of the non-manufacturing industries. Information for earlier years is not available from the Bureau's records.

INDEX OF EMPLOYMENT AND PAYROLL TOTALS IN NON-MANUFAC-TURING INDUSTRIES IN DECEMBER 1934 AND COMPARISON WITH NOVEMBER 1934 AND DECEMBER 1933 (Average 1929=100)

a Revised: Not comparable with indexes published prior to November 1934. Revised indexes, January 1929-November 1934, are being presented in the November 1934 "Trend of Employment," b The additional value of board, room, and tips cannot be computed. c Not available. d Preliminary.

Motor Output Nearly Doubles in January

The automobile industry initiated its 1935 production activities with an output for all American automobile factories of 306,000 units in January, according to a preliminary estimate released to-day by the Automobile Manufacturers Association.

On the basis of this estimate the industry's January output was 65~% above that of the preceding month and 87~% above the corresponding month of last year. The Association also revealed that in only 1926 and 1929 has January production exceeded that for this year.

Indexes of Business Activity of Federal Reserve Bank of New York

"Data indicative of the distribution of goods showed irregular changes during the first half of January," said the Federal Reserve Bank of New York, in presenting its monthly indexes of business activity in its "Monthly Review" of Feb. 1. The Bank continued:

The movement of miscellaneous and less than carload freight over the railroads increased in contrast to a usual seasonal reduction, and sales of new passenger automobiles were reported to have expanded more than seasonally. On the other hand, department stores sales in the Metropolitan area of New York did not maintain the increase over a year previous that occurred in December.

In December, increases of more than the usual seasonal proportions occurred in several lines of retail trade for which data are currently available. Seasonally adjusted indexes of department store and chain store sales rose to higher levels than in the preceding few months, and the index of mallorder house sales remained at about the same level as in November. Sales in most lines were considerably larger in December 1934 than in December 1933, the increase in department store sales amounting to 11% for the entire country, with larger gains in agricultural areas.

Among the more general indexes of business activity, increases after seasonal adjustment occurred during December in the indexes of railroad frieght car loadings and the volume of check transactions, while the indexes of life insurance sales and advertising were virtually unchanged from the November levels. More than the usual seasonal decrease was shown in sales of new passenger automobiles following an increase in November.

(Adjusted for seasonal variations, for usual year-to-year growth, and, where necessary, for price changes)

Production of Flour During January 1935 Shows Increase over Preceding Month

General Mills, Inc., in presenting its monthly summary of flour milling activities for approximately 90% of all flour mills in the principal flour milling centers of the United States reports that during the month of January 1935 flour production totaled 5,271,927 barrels as compared with 4,946,933 barrels in the preceding month and 5,649,844 barrels in the corresponding period of 1934. During December 1933 production amounted to 5,101,974 barrels.

During the seven months ended Jan. 31 1935 flour output by the same number of mills amounted to 37,530,252 barrels as compared with 36,850,248 barrels during the like period of 1934. The corporation's summary follows:

PRODUCTION OF FLOUR (Number of Barrels)

	Month of	Janaury	7 Mos. Ended Jan. 31		
	1935	1934	1935	1934	
Northwest Southwest Lake Central & Southern Pacific Coast	1,175,461 1,949,407 1,766,225 380,834	1,509,119 1,900,809 1,860,855 379,061	8,889,847 13,464,980 12,488,358 2,687,067	9,863,979 12,717,885 12,042,541 2,225,843	
Grand total	5,271,927	5,649,844	37,530,252	36,850,248	

Deliveries of Refined Sugar During 1934 by United States Beet Sugar Companies at Record—Totaled 1,460,879 Short Tons, 6,974 Tons in Excess of Quota

United States beet sugar companies delivered 29,217,589 bags of refined sugar, a record amount, during 1934, according to figures of the Domestic Sugar Bureau. Deliveries were equal to 1,460,879 short tons, an increase of 14.2% above the 1933 year when 1,279,651 tons were delivered, according to the New York Coffee & Sugar Exchange. Distribution was equivalent to 1,563,140 short tons raw value, the Exchange said Feb. 6, or 6,974 tons in excess of the 1934 quota assigned the beet companies under the Jones-Costigan Act. The 1935 quota has been set at 1,550,000 short tons raw value.

Sugar Situation Favorable for 1935, According to Ody H. Lamborn of Lamborn & Co.—Estimates Excess of 254,000 Tons in Available Supply for Year

Facing an entirely different set of conditions in 1935 from those existing in the sugar industry in 1934, when the entire structure of the business underwent a change, it now seems evident that, for the first time, the quota system, theoretically balancing supply and demand, will have an opportunity to function under decidedly more favorable auspices, according to a review and forecast of the sugar situation by Ody H. Lamborn, manager of Lamborn & Company, Inc. He said:

"Many of the beclouded issues have now become clear cut and the probabilities are that raw sugar producers and beet sugar processors will market their products in an orderly fashion and attempt to avoid present low prices in selling; the refined demand will be of tremendously concentrated volume in an attempt by refined buyers to cover for a long period; and purchasers of raws will be consistent in their desires to accumulate steadily against future sales of refined."

Basing his predictions on consumption figures for 1934, Mr. Lamborn says the available supply of sugar for 1935 represents an excess of only 254,000 tons. "This quantity is negligible," he contends, when factors are considered such as the "possible increase in consumption, the probable increase in trade invisibles, the probable replenishment of refiners' stock of refined, the reserve for working stock for sugar exchange requirements, including duty free sugar for delivery on the new Number 3 contract of the New York Coffee & Sugar Exchange, the exports of refined sugar applied against imports of raws prior to 1935, and the working stocks at the end of the year normally calculated at 250,000 tons.

Sugar Futures and Coffee Trading During January on New York Coffee & Sugar Exchange Largely in Excess of December Volume

Trading in sugar futures on the New York Coffee & Sugar Exchange during January more than doubled the December volume, amounting to 599,750 tons against 251,750 tons in December, a gain of 138.2%. Coffee trading during January amounted to 556,250 bags, against 191,000 bags in December, a gain of 191.2%. The Exchange on Feb. 5 further announced:

The expansion in sugar trading was partly attributed to the new contract which has a broad base providing for the delivery of all cane sugars consumed in this country so long as they are within existing quotas at the time of delivery, whereas the old contract provided only for delivery of Cuban sugar in bond. The trading in the new (no. 3) contract during January, the first month of its existence, amounted to 241,600 tons, 40% to the total trading, which is regarded by many as one of the most auspicious starts of any commodity contract traded on a futures market.

Plan of United States to Purchase Puerto Rican Sugar Cane Surplus Reported Abandoned

Puerto Rican sugar mills have been notified that the Agricultural Adjustment Administration, at Washington, has abandoned its plan to turn all surplus cane into high-test molasses for cattle feeding in the Middle West of the United States, said cable advices from San Juan, Feb. 5, to the New York "Times" of Feb. 6. The advices added:

J. B. Frisbie, in charge of the sugar section of the AAA here, was advised by Washington that utmost efforts were being made to dispose of the sugar surplus of the old and new crops. The Government proposes buying the molasses already made which is a small part of the 50,000,000 gallons originally proposed.

That the United States contemplated the purchase of the surplus sugar cane stocks of Puerto Rico was noted in our issue of Jan. 12, page 222.

Puerto Rican Raw Sugar Shipments to United States Jan. 1 to Feb. 2 Above Same Period Year Ago—Refined Shipments Down

Shipments of raw sugar from Puerto Rico to the United States, from Jan. 1 to Feb. 2, amounted to 73,213 short tons, a gain of 105.6% over shipments of 35,610 during the similar period in 1934, according to cables received by the New York Coffee & Sugar Exchange. Refined shipments, the Exchange said Feb. 4, totaled 6,875 tons this year compared with 13,498 during the same period last year, a drop of 48.9%

World's Visible Supply of Coffee Feb. 1 Reported 15.3% Below Feb. 1 1934

The world's visible supply of coffee, exclusive of restricted stocks in Brazil, decreased 1,181,711 bags or 15.3% from Feb. 1 1934 to Feb. 1 1935, according to figures compiled by the New York Coffee & Sugar Exchange, which show stocks of 6,536,702 bags this year compared with 7,718,413 last year. The Exchange on Feb. 4 announced:

United States supplies dropped 639,711 bags or 34.1% from 1,875,415 to 1,235,702 of which Brazilian coffees, afloat and in stock, were 851,853 against 1,638,299 a year ago, while coffees of other countries totaled 373,847 bags against 235,114 last year. Stocks in Brazilian ports awaiting shipment were 2,244,000 bags this year, 19.5% less than the 2,788,000 bags total on Feb. 1 1934. European supplies were about unchanged totaling 3,057,000 bags this year compared with 3,055,000 bags last year. On Jan. 1 1935, United States supplies were 1,234,867 bags. -European supplies 3,145,000 bags and Brazilian port stocks 2,262,000 bags. The world's total amounted to 6,641,867 bags.

Petroleum and Its Products—Connally Bill Still in House—Marland Calls Third Governors' Oil Conference—Texas Acts To Curb "Hot Oil" Movements—Pennsylvania Grade Crude up 15 Cents a Barrel—Lima Crude Cut 15 Cents a Barrel— Crude Output Within Federal Quota

The House Inter-State and Foreign Commerce Committee had not acted on the Connally oil measure as the week closed Friday although a full committee hearing was set for Feb. 9 to discuss the measure.

The Committee met Thursday to consider the recommendations of the Cole sub-committee which has been assigned

to handle oil legislation in the House but due to the failure of the sub-committee to agree upon any specific recommendations postponed action until the following day when it was scheduled to discuss the Connally measure, already passed by the Senate.

Friday afternoon, the Committee announced another postponement due, it was stated, to the desire of members of the Committee to appear before the Rules Committee in opposition to a proposed measure which would shift the Eastman water transportation legislation and the communications bill to the Committee on Merchant, Marine, Radio and Fisheries.

Administrator Ickes stated in his regular weekly press conference in Washington Thursday that he believed that sentiment for regulation of oil was greater than ever before and a good bill for Federal regulation of the industry would now pass both the House and the Senate.

A delegation of 15 Texas oil operators, business men and bankers went to Washington by air from Dallas Thursday to plead for Federal co-operation with State forces in controlling the East Texas field. The delegation is strongly in favor of the Connally bill and will present a resolution asking its passage to the House of Representatives. The delegation was appointed at a mass meeting held in Dallas Wednesday.

The third in the series of conferences of governors of oil producing States to consider the inter-State compact plan for control of production, sponsored by Governor Marland of Oklahoma will be held in Dallas on Feb. 15.

Governor Marland, acting upon the invitation of Governor Allred of Texas, has issued invitations to the governors of California, Kansas, New Mexico, Wyoming, Louisiana, Michigan, Ohio, Illinois, Colorado, West Virginia, Kentucky, Arkansas and Pennsylvania, in addition to Oklahoma and Texas.

The legislatures of Oklahoma, California, New Mexico, Kansas and Texas already have enacted legislation authorizing their respective governors to attend or send accredited representatives to these conferences. The first conference, held early last December, was for the purpose of considering the plan in its entirety, the second to iron out certain differences.

Strong support has been afforded to the movement in the recommendations of the House sub-committee which, after it completed its investigation of the oil industry, reported to the House Inter-State and Foreign Commerce Committee that it believed the States should be afforded full opportunity to test the inter-State compact plan before additional Federal legislation be passed.

This stand has since been strengthened by public statements by Representative Cole, Chairman of the investigation sub-committee and head of the new permanent House Committee on Oil Legislation. Mr. Cole, whose Committee is currently considering the Connally oil measure, passed by the Senate early in January, again has stated his belief that the States are entitled to a test of the inter-State compact plans before additional Federal supervision over the oil industry should be considered.

The then Governor-elect Allred expressed open opposition to the inter-State compact plan at the second of the conferences held in Oklahoma early last month. Despite this, late last week he asked and obtained authorization from the Texas Legislature to send a representative to the next conference.

In voting that the State be represented at the next meet, the Texas Legislature specified, however, that the program for conservation of crude oil should be confined to physical waste, without price fixing or perpetuation of monopoly or

regimentation.

The Legislature also has taken up the question of the authority of State district courts in connection with the Railroad Commission's orders. In the past few weeks Texas oil men have been successful in obtaining court orders prohibiting the Railroad Commission from interfering with their activities.

Two bills designed to cope with this situation were introduced last Monday. The measures, of which the most important is one which prohibits the issuance of temporary restraining orders or injunctions by a district court until notice has been served upon the Commission and upon the State, are said to have the support of the State Administration. This bill also provides that no hearing could be held until 10 days after service.

With "hot oil" movements in the East Texas field placed at approximately 55,000 barrels daily, of which more than 20,000 barrels was said to represent oil freed by court injunction, the Railroad Commission has taken further steps to bring the situation under control.

One of the most important actions taken along this line was the Commission's order revising its tender order of Dec. 5 so as to require that every person shall first obtain a permit from the Commission before selling any by-products of crude oil. The order, however, exempts filling stations from its provisions.

The injunction cases of the Commission against the railroads serving the East Texas area in which it sought to restrain these roads from handling oil products on which the Commission had refused tenders were dismissed in Federal Court by Judge McMillan on the State's request.

While the Attorney-General's office made no explanation for the surprise step of asking dismissal of the State's cases, it was reported that such action was taken to facilitate the way for a new suit against the railroads.

The State Appellate Court Wednesday dissolved the temporary restraining order recently issued by District Judge Charles Wheeler of Austin, against the Railroad Commission, permitting the removal of 100,000 barrels of fuel oil from the East Texas field without a tender on the claim that the oil was on hand prior to the tender order issued Dec. 10 by the Commission. The decision was hailed as a great aid to the Commission's effort to curb "hot oil" movements.

The Texas Railroad Commission has called a State-wide oil proration hearing which will be held in Austin Feb. 18 at which the physical condition of the wells in the East Texas and other fields will be considered in preparation to establishing March production quotas. The Oklahoma Corporation Commission will meet Feb. 26 to set March quotas for fields in that State.

A recommendation has been made to the Oklahoma House of Representatives by the committee on revenue and taxation for a boost in the gross production tax on crude oil and natural gas from 3% of value to 5% of value. The advance in oil taxes was reported to have the approval of the State Administration, headed by Governor Marland, former head of the Marland Oil Co., since merged with the Continental.

Prices of all grades of Pennsylvania crude were marked up 15 cents a barrel Monday, just a month to the day from a similar advance. The South Penn Oil Co. posted a new schedule which listed crude in South West Penn Pipes at \$2.02; Eureka at \$1.97; Buckeye, \$1.87.

As was the case when the last advance was posted, the Tide-Water Oil Co., Ltd., announced a similar boost in Bradford and Allegany which were lifted to \$2.35 a barrel. There was no change posted in the price of Corning crude.

The strength in Pennsylvania grade crude is due to the approach of the spring when seasonal factors cause a sharp rise in demand for lubricants manufactured from this crude, trade factors agree.

A reduction of 15 cents a barrel in the prices of Lima crude oil to \$1.15 posted Feb. 2 by the Ohio Oil Co. was explained as necessary to meet current market conditions by the company. The last price change in this field was in September 1933, when it was increased 10 cents a barrel.

Sharp curtailment of production in California and Oklahoma pared daily average output of crude oil in the United States last week 94,100 barrels, to 2,448,000 barrels, reports to the American Petroleum Institute disclosed. The output was 78,100 barrels below the Federal quota of 2,526,100 barrels.

A drop of 68,650 barrels in daily average production in Oklahoma cut the total to 441,300 barrels, against a quota of 497,100 barrels for the State, as producers followed their usual practice of month-end "pinch-backs." In California, similar tactics were credited with causing a drop of 27,300 barrels in production which totaled 479,300, against a quota of 488,600.

Texas, with an increase of 2,250 barrels shown in its report, rose to 1,012,550 barrels, against an allowable of 1,031,700 barrels. Kansas, with output pared to 137,250 barrels, kept in line with its quota of 138,600 but Louisiana output, at 114,500, was up 2,250 barrels on the week and was 5,000 barrels in excess of its allowable.

While 1934 crude oil production of 909,345,000 barrels was less than 1% above the 1933 total, demand last year showed an increase of 6%, the Bureau of Mines reported.

Crude runs to stills during the year rose 32,048,000 barrels to 893,302,000 barrels. Stocks of all oils dipped 6,153,000 barrels during the final month of 1934, the Bureau reported.

Price changes follow:
Feb. 2—The Ohio Oil Co. reduced the price of Lima crude oil 15 cents

a barrel to \$1.15.

Feb. 4—South Penn Oil Co. advanced all grades of Pennsylvania crude
15 cents a barrel, new prices being, in South West Penn pipes, \$2.02;
Eureka, \$1.97; Buckeye, \$1.87. The Tidewater Oil Co., Ltd., announced
a similar boost in Bradford and Allegeny to \$2.35 cents a barrel. Corning
prices held unchanged.

REFINED PRODUCTS—CAMDEN "GAS" PRICES EASE—STAND-ARD OF JERSEY LIFTS NORTH CAROLINA QUOTATIONS— MID-WEST BULK MARKET WEAK—LOS ANGELES PRICE STRUCTURE SOFT—MOTOR FUEL STOCKS RISE

Coincidental with an advance in North Carolina service station prices of gasoline of 2 to 2.4 cents a gallon posted Tuesday by Standard Oil of New Jersey in an effort to eliminate the last weak spot along the Atlantic Seaboard came news of price-slashing in Camden, where the recent two-months' gasoline price war originated.

Correction of the sub-normal market situation in North Carolina would mean that the entire Eastern coast gasoline price structure, with the exception of western New York State, would be at "normal levels." The advances posted by Standard in North Carolina lifted prices to 17 cents, taxes included, or "normal" levels.

Prices in Camden, which is particularly vulnerable to price cutting because of the bitter competition for gallonage in that area between the various major companies and the independents, were cut ½-cent a gallon to 15.4 cents, taxes included, by Sun Oil Co. Standard of Jersey met the cut immediately.

The cut brought quotations in this area, which was not affected by the recent ½-cent a gallon advance posted by Standard of Jersey, 1 cent below the State-wide level. Oil men were hopeful that the price easiness could be confined to this area but were frankly uneasy over what might develop.

No change has been shown in the sub-normal market conditions prevailing in Buffalo and the surrounding area in upper New York State. Prices are still around 4 cents a gallon under normal and no immediate expectation of restoring quotations to normal levels is in view, according to officials of companies serving this area.

An advance of ½-cent a gallon in service station prices of gasoline in Manhattan, the Bronx and Westchester was posted by the Socony-Vacuum Oil Co. Wednesday, effective Feb. 8. The new price is 17 cents a gallon, including State and Federal taxes. A similar advance was made in Deerfield County, Conn. Other marketers in this area are expected to bring prices in line.

A marked strengthening of demand for Pennsylvania lubricants was noted in the local market during the past week. Unfiltered oils have reflected the increase demand with fractional price increases. Fuel oil movements have been aided by the current cold weather and the price structure continues steady to strong. Bulk gasoline prices are firm.

The continued softness of low octane gasoline in the spot market in Chicago has weakened the market position of regular grade and may mean a cut in retail prices unless quickly corrected, trade reports from the mid-West indicate.

Low octane material opened the week easy, Monday offerings being made at 3½ to 3½ cents a gallon, against 3¾ to 3½ cents a gallon at the close of last week. Prices held around this range during the week but toward the close some offerings below the lower figures were reported available from East Texas and Oklahoma sources.

The seasonal weakness in gasoline prices has been accentuated during the past week or so by efforts of some refiners to push their stocks by means of price concessions. With jobbers showing little interest in the market, even in the face of lower prices, the sales pressure resulted in a general weakening of the price structure.

Offerings of regular grade gasoline have been reported available at 4 cents a gallon, compared with a going market of $4\frac{1}{2}$ to $4\frac{3}{4}$ cents a gallon in the Mid-Continent area. Standard of Indiana recently posted a fractional cut in retail prices and in Chicago, independents are selling under

the major's level. Unless the bulk market firms within a short period, its weakness presents a serious threat to the stability of the retail price structure, Chicago trade factors

With approximately one-third of the independently owned service stations in Los Angeles reported to be selling thirdgrade gasoline one cent a gallon under the majors' posting and many are two cents a gallon under, California oil men are holding conferences planned to develop means of ending this situation.

While sporadic price cutting by independent service stations in the Los Angeles area never has been completely eliminated, the rapid spread of the price-cutting competition has come to the point where it presents a serious threat to the stability of the general market, reports from the West coast indicate.

A conference at which representatives of the oil industry and the Oil Administration will discuss refining operations and the outlook for the three months beginning March 1 has been called by Administrator Ickes in Washington on Feb. 11. The meeting was called on the recommendation of the Planning and Co-ordination Committee.

While 1934 demand for motor fuel set a new high record, export shipments showed a sharp decline from the preceding year, preliminary statistics released by the Bureau of Mines during the week disclosed.

Motorists last year bought 406,268,000 barrels of motor fuel in the United States, an increase of 2,851,000 barrels over 1933. Shipments for foreign consumption, however, dipped 4,502,000 from 1933 to 24,819,000 barrels. Compared with the total recorded in 1931, last year's shipments were off 20,897,000 barrels.

December demand for motor fuel in the domestic market showed a gain over the comparable 1933 period of 7%, rising to 30,517,000 barrels, or a daily average of 984,000 barrels. Finished gasoline stocks were lifted 4,199,000 barrels during the final month of 1934 to 47,921,000 barrels at the close of the month. This total was 7,687,000 barrels under the total recorded in the like 1933 month, it was pointed out.

Gasoline stocks continued their seasonal rise during the week ended Feb. 2, reports to the American Petroleum Institute, indicating a gain of 1,678,000 barrels to 49,566,000 barrels. A decline of 98,000 barrels was shown in daily average runs of crude oil to stills which dipped to 2,201,000 barrels as reporting refineries pared their operating rates to 64.6%, off 2.8 from the previous week.

Leading oil companies operating service stations in the metropolitan New York area see little danger of the strike called against 650 stations employing 3,000 men in Brooklyn and Queens for Feb. 11 by the International Association of Oil Field, Gas Well and Refinery Workers affecting their units.

Pointing out that the newly-organized Local 349 of the union which is affiliated with the American Federation of Labor, is basing its strike call upon the reported refusal of the affected stations to recognize the union and violation of wage and hour provisions of the code, the major companies stated that they are operating in full accord with the code's labor provisions. It is believed that the organizing drive is aimed primarily at workers employed by small station operators, independent of the large companies.

Representative price changes follow:

Feb. 5—Standard Oil of New Jersey posted advances of 2 to 2.4 cents a

gallon in service station prices of gasoline in North Carolina.

Feb. 5—The Sun Oil Co. cut service station prices of gasoline ½ cent a gallon at Camden to 15.4 cents, taxes included. Standard of New Jersey met the cut, which brings Camden prices 1 cent under the State-wide level. Sun Oil also cut prices 4 cents a gallon in Vineland, N. J.

Feb. 6-Socony-Vacuum Oil Co., Inc., posted an advance of 1/2 cent a allon in service station prices of gasoline in Manhattan, the Bronx and Westchester, making prices in these sections of the metropolitan New York City area 17 cents a gallon, State and Federal taxes included. similar advance was posted in Fairfield County, Conn., to 17 cents a gallon, State and Federal taxes included.

Crude Oil Output for Latest Week Falls Below New Federal Quota

The American Petroleum Institute estimates that the daily average gross crude oil production for the week ended Feb. 2 1935 was 2,448,000 barrels. This was a decline of 94,100 barrels from the output of the previous week and also fell below the new Federal allowable figure which became effective Feb. 1. The drop amounted to 78,100 barrels. Daily average production for the four weeks ended Feb. 2 1935 is estimated at 2,515,000 barrels. The daily average output for the week ended Feb. 3 1934 totaled 2,121,650 barrels. Further details as reported by the Institute follow:

Imports of crude and refined oil at principal United States ports totaled 1,027,000 barrels for the week ended Feb. 2, a daily average of 146,714 crels, against an average of 110,321 barrels over the last four weeks

Receipts of California oil at Atlantic and Gulf Coast ports totaled 377,000 barrels for the week, a daily average of 53,857 barrels, against 46,071 barrels over the last four weeks.

Reports received for the week ended Feb. 2 from refining companies owning 89.8% of the 3,795.000 barrel estimated daily potential refining capacity of the United States, indicate that 2,201,000 barrels of crude oil daily were run to the stills operated by those companies and that they had in storage at refineries at the end of the week, 30,700,000 barrels of finished gasoline; 5,090,000 barrels of unfinished gasoline and 102,500,000 barrels of gas and fuel oil. Gasoline at bulk terminals, in transit and in pipe lines amounted to 18.866,000 barrels.

Cracked gasoline production by companies owning 95.6% of the potential charging capacity of all cracking units, averaged 431,000 barrels daily during the week.

a Amount of unfinished gasoline contained in naphtha distillates. b Estimated. Includes unblended natural gasoline at refineries and plants; also blended motor fuel at plants. c Includes 30,700,000 barrels at refineries and 18,866,000 barrels at bulk terminals, in transit and pipe lines. d Includes 29,557,000 barrels at refineries and 18,331,000 barrels at bulk terminals, in transit and pipe lines.

Production of Bituminous Coal at Highest Point Since March 1934—Anthracite Output Up 7.3%

According to the weekly coal report of the United States Bureau of Mines, Department of the Interior the total production of soft coal during the week ended Jan. 26 is estimated at 8,250,000 net tons. This is an increase of 490,000 tons, or 6.3%, over the preceding week, and is the highest output recorded since the end of March 1934. Production during the week in 1934 corresponding with that of Jan. 26 was 7,150,000 tons.

Anthracite production in Pennsylvania during the week ended Jan. 26 is estimated at 1,336,000 net tons, an increase of 91,000 tons, or 7.3%, over the preceding week. Production during the corresponding week in 1934 amounted to 1,184,000 tons.

During the coal year to Jan. 26 1935 283,661,000 net tons of bituminous coal and 43,554,000 net tons of anthracite were produced. This compares with 281,560,000 tons of bituminous and 42,282,000 tons of anthracite produced in the corresponding period of 1933-34. The Bureau's statement follows:

Production of Crude Petroleum During 1934 Slightly Above Total for 1933

The monthly petroleum report of the United States Bureau of Mines, Department of the Interior, stated that crude oil production in the United States in 1934 totaled 909,345,000 barrels. This was less than 1% above the output in 1933, although demand increased 6%. The production in December 1934 averaged 2,420,000 barrels daily, a gain of 5,000 barrels over the average in November. Production in the various States in December remained virtually unchanged from November. The largest change occurred in East Texas, where production averaged 430,000 barrels, compared with 445,000 barrels in November. This decline of 15,000 barrels was compensated by small gains in other parts of Texas, in Kansas and at Oklahoma City. The report of the Bureau of Mines further stated:

Crude runs to stills in December were 75,976,000 barrels, which brought the total for 1934 to 893,302,000 barrels. This was 32,048,000 barrels higher than in 1933, but 94,406,000 barrels below the peak of 1929. Another material withdrawal from crude-oil stocks was made in December, bringing the total as of the end of 1934 to 337,085,000 barrels. This represented a net withdrawal of 17,220,000 barrels for 1934.

A new annual record for domestic demand of motor fuel was indicated in the preliminary data, the total for 1934 of 406,269,000 barrels being 2,851,000 barrels higher than the previous high of 1931. However, the record of exports of motor fuel was less encouraging, as the total for 1934 of 24.819,000 barrels was 4.502,000 barrels less than in 1933 and 20.897.000 barrels below the level of 1931. The indicated domestic demand for motor fuel in December 1934 amounted to 30.517,000 barrels, or a daily average of 984,000 barrels. Compared with December a year ago, this represents a gain of nearly 7%, which, following the abnormal gains reported in October and November, climaxed a year that, as far as the domestic demand for gasoline is concerned, exceeded even the most optimistic estimates. accordance with the program of building up depleted inventories, finished gasoline stocks increased 4.119.000 barrels in December, totaling 47.921.000 barrels on Dec. 31; this was 7,687,000 barrels below the comparable total

The indicated domestic demand for the majority of the other major refined products in 1934 was higher than in 1933. The increase in domestic demand for kerosene in 1934 was 5,476,000 barrels, or 14%; in gas oil and fuel oil, 15,066,000 barrels, or 5%; and in lubricants, 1,345,000 barrels, cr 8%. On the other hand, the demand for wax declined materially. According to the Bureau of Labor Statistics, the price index for petroleum

products during December 1934 was 49.8, compared with 50.5 in November and 51.6 in December 1933.

The refinery data of this report were compiled from refineries with an aggregate daily recorded crude oil capacity of 3,519,000 barrels. These refineries operated during December at 70% of their capacity, given above, compared with a ratio of 69% in November.

Natural Gasoline Output During December Continues Upward Trend, Though Daily Average Declines

According to the United States Bureau of Mines, Department of the Interior, the upward trend in the production of natural gasoline was interrupted in December 1934, when the daily output declined to 4,380,000 gallons from an average of 4,500,000 gallons in November. Production increased in the Eastern States as the demand for natural gas increased, but these gains were more than offset by declines in Oklahoma and the Panhandle. Stocks of natural gasoline, which ordinarily increase in the winter months, again declined, the total as of Dec. 31 1934 amounting to 36,100,000 gallons, or 860,000 barrels. Total stocks of natural gasoline, including refinery stocks, amounted to 3,740,000 barrels on Dec. 31 1934, an increase of 60,000 barrels over stocks as of a year ago. The Bureau's report further showed:

Slab Zinc Production and Shipments During January 1935 Exceed Like Month of 1934

According to figures released by the American Zinc Institute on Feb. 6, 35,614 short tons of slab zinc were produced during the month of January 1935. This compares with 35,685 tons produced during the month of December and 33,077 tons in the corresponding month of 1934. Shipments increased from 31,707 tons in December to 35,538 tons in January. This latter figure also compares with 26,656 tons shipped during January 1934. Inventories on Jan. 31 1935 stood at 119,906 short tons as against 119,830 tons on Dec. 31 1934, and 111,981 tons on Jan. 31 1934. The Institute's statement follows:

Stocks of Bituminous Coal in Consumers Hands Increased During Last Quarter of 1934—Industrial Consumption Higher

The United States Bureau of Mines, Department of the Interior reported that stocks of bituminous coal increased slightly in the fourth quarter of 1934 and on Jan. 1 1935 stood at 34,440,000 net tons. This is an increase of 4.1% over the 33,077,000 tons on hand on Oct. 1 1934. The stocks on Jan. 1 1935 are also 4.9% higher than on the same date of last year, when they stood at 32,840,000 net tons. The Bureau's report further stated that:

To make a more satisfactory comparison of stocks, it is necessary to take into consideration the consumption of coal, which varies widely with the

changing seasons. It is obvious that the use of coal would increase in the winter months and there has been a steady advance in consumption since September. For this reason, we show that stocks in terms of days' supply on hand, which is calculated at the current rate of consumption for each period. On Jan. 1 1935, therefore, there was enough coal for only 32 days' requirements, which is 27.3% less than the 44 days' supply available at the

end of the previous quarter.

In addition to the stocks of bituminous coal held by industrial consumers and retail dealers on Jan. 1 1935 there were 7,738,000 net tons on the commercial docks of Lakes Superior and Michigan. These stock piles have decreased 8.3% since Oct. 1, when they stood at 8,441,000 net tons, but are 17.4% more than the 6,590,000 tons on hand on Jan. 1 1934. On Jan. 1 1935 there were 1,736,000 net tons of bituminous coal unbilled in cars at the mines or in classification yards which is 12% less than the 1,973,000 tons unbilled on Oct. 1 and 13.2% more than a year ago when 1,533,000 net tons were reported.

Industrial Stocks and Consumption

Stocks of bituminous ceal in the hands of industrial consumers decreased 4.2% in the month of December 1934 as the consumption by nearly all of the major classes of industrials increased. The total industrial stocks on hand on Jan. 1 1935 were 25,340,000 net tons, a decrease of 4.2% from the previous month. The largest decrease was reported by the by-product coke ovens with 9.2%.

ovens with 9.2%.
Total industrial consumption increased 9.2% in December ranging from a high of 21.5% at steel and rolling mills to a low of 6% at coal-gas retorts. There were two decreases in consumption, the cement mills with 28% and beehive coke ovens with 11.3%.

Bureau of Mines from a selected list of 2,000 representative manufacturing plants. The concerns reporting are chiefly large consumers and afford a satisfactory basis for estimate. d Collected by the Association of American Railroads.

Domestic Anthracite and Coke

A decrease was also reported by 454 representative retail coal dealers in stocks of anthracite and coke on Jan. 1 1935. Anthracite stocks declined 9.8% from the previous quarter ending Oct. 1 1934 and coke stocks, 2.7% however, they were 16.8% and 10.7% higher respectively than the stocks held by the same dealers a year ago.

Preliminary Estimates of Production of Coal for Month of January 1935

According to preliminary estimates made by the United States Bureau of Mines, Department of the Interior, bituminous coal output during the month of January 1935 amounted to 35,932,000 net tons, compared with 32,916,000 tons in the corresponding month last year and 31,386,000 tons in December 1934. Anthracite production during January totaled 5,724,000 net tons, as against 6,125,000 tons produced during January 1934 and 4,705,000 tons produced in December 1934. The Bureau's statement follows:

	Total for Month (Net Tons)	Number of Working Days	Average per Working Day (Net Tons)
January 1935 (Preliminary)-			
Bituminous coal	35,932,000	26.1	1,377,000
Anthracite	5.724,000	26	222,200
December 1934—	881,000	27	3,263
Bituminous coal	31,386,000	25	1,255,000
Anthracite	4,705,000	25	188,200
Beehive coke	83,600	25	3,334
Bituminous coal	32,916,000	26.1	1,261,000
Anthracite	6.125.000	26	235,600
Beehive coke	107,900	27	3,996

Note—All current estimates will later be adjusted to agree with the results of the complete canvass of production made at the end of the calendar year.

1934 Gold Production Shows Large Increase

World production of gold in 1934, according to a preliminary estimate by the American Bureau of Metal Statistics, amounted to 27,126,000 ounces, against 25,378,000 ounces in 1933, the previous high record output. The gain in production over 1933 resulted chiefly from increased activity in Russia.

The Bureau points out that production of gold in Russia, from information now available, appears to have averaged about 350,000 ounces monthly for 1934 and the present tabulation has been corrected accordingly. Prior to this accounting production in Russia has been estimated at 300,000 monthly for 1934.

Production in December amounted to 2,335,000 ounces, against 2,292,000 ounces in November and 2,378,000 ounces in October, the Statistical Bureau reports.

Gold production of the world in fine ounces follows:

	1933	1934		1934
United States.a	2,537,000	2.916.000	New Zealand 162,000	147,000

December Exports of Tin Above November, According to International Tin Committee

The five countries participating in the International Tin Agreement exported 7,463 tons of tin during December, compared with a corrected total of 7,230 tons in November, according to a communique issued by the International Tin Committee. The communique indicated that Bolivia exported 1,743 tons during November instead of 2,748 tons, as previously reported. The report for November was given in these columns of Jan. 12, page 227. As issued on Feb. 6 by the New York office of the International Tin Research and Development Council, the communique covering December exports follows:

INTERNATIONAL TIN COMMITTEE

Communique 1. The monthly statistics as to exports are as follows:

Large Tonnage of Lead Sold at Lower Prices—Copper Under Pressure Abroad

"Metal and Mineral Markets" in its issue of Feb. 7 stated that buying of lead was the feature in the market for non-ferrous metals last week, another reduction in the price bringing in quite a good volume of business. Domestic copper sold at about the same rate as in recent weeks, with nothing in sight to disturb the price structure here in the near

future. The foreign copper market was under pressure on liquidation of a substantial tonnage for account of dealers. Zinc and tin were quiet. Silver closed a shade lower for the week. The publication further stated:

Foreign Copper Lower

The trend of prices for copper abroad was downward last week. In view of the fact that between 12,000 and 14,000 tons of copper had to be liquidated in London in a comparatively short period, because of financial difficulties in at least one direction, the market stood up well. Demand for copper abroad was fairly active, notwithstanding the unsettlement in prices. The copper discussions going on in New York had little influence on London.

Domestic sales of copper for the week ended Feb. 5 totaled 6,513 tons, against slightly more than 6,000 tons in the week previous. January sales of Blue Eagle copper totaled 27,000 tons. The price held at 9c., Valley. Demand for copper products was not quite as good last week as recently.

The informal discussions on copper control in the foreign field have not yet reached the point where consideration of a date for a general meeting is possible. Most of the time so far has been taken up with the problem of establishing so-called standard production tonnages, much as in the tim scheme. These standard tonnages, in the proposed plan, would be used in calculating production quotas.

The Phelps Dodge Corp. is negotiating for the purchase of a large block of stock in United Verde Copper Co.

Lead Reduced to 3.50c., N. Y.

More than 7,000 tons of lead changed hands last week following another reduction of 10 points in the price of the metal last Friday. On Wednesday, Jan. 30, the American Smelting & Refining Co. announced that its contract settling basis had been reduced to 3.60c., New York, and on Friday, Feb. 1st, the same company, in the absence of any substantial sales, further reduced its price basis to 3.50c., New York. Sales in the West were at the usual 15-point differential—that is, at 3.45c., St. Louis, last Thursday (Jan. 31), and at 3.35c., St. Louis, on Friday. (Feb. 1). The price of the metal has continued unchanged since Friday in both the East and the West. The St. Joseph Lead Co. on Tuesday (Feb. 5), and yesterday (Feb. 6), asked and received a premium of \$1 per ton on its brands for delivery in the East. Buying of the week was well diversified among the various consuming interests.

Zinc Unchanged

Hope that something may be done to limit production of zinc caused some sellers to restrict their offerings of metal for forward delivery. Others, however, were free sellers and accepted business at 3.70c., St. Louis, for shipment over the next two months. With zinc concentrate at \$26 per ton, Joplin, producers of zinc are said to be unable to produce the metal for less than 4c. Galvanizing operations on the whole have not shown much improvement since the first of the year, which accounts for the indifferent call for Prime Western zinc. Activity in the automobile industry has absorbed a good tonnage of High Grade zinc.

Little Change in Tin

Comparative quiet characterized the domestic tin market last week. Daily sales volume amounted to 100 tons or less, and the general lack of interest in the metal was reflected by a practically stationary price level. Chinese tin, 99%, was quoted nominally as follows: Jan. 31st, 50.000c.; Feb. 1st, 50.000c.; 2d, 50.000c.; 4th, 50.000c.; 5th, 50.025c.; 6th, 50.025c.

Feb. 1st, 50.000c.; 2d, 50.000c.; 4th, 50.000c.; 5th, 50.025c.; 6th, 50.025c. United States deliveries of tin during January totaled 4,600 long tons, against 4,530 tons in December. The world's visible supply, including the Eastern carry-over, was 16,764 tons at the end of January, against 16,490 tons a month previous and 26,109 tons in January a year ago.

World production of tin on ore basis amounted to 9,638 long tons during December, against 9,305 tons in November, the American Bureau of Metal Statistics reports. Production for 1934 totaled about 111,722 long tons, against 87,972 tons in 1933 and 96,468 tons in 1932.

January Pig Iron Producing Rate Up Nearly 44%

The "Iron Age" in its issue of Feb. 7 stated that production of coke pig iron in January totaled 1,477,336 gross tons, compared with 1,027,622 tons in December. The daily rate in January, at 47,656 tons, increased 43.8% over the December rate of 33,149 tons a day. The "Age" continued:

There were 89 furnaces in blast on Feb. 1 making iron at the rate of 54,410 tons a day, against 69 furnaces on Jan. 1 operating at the rate of 37,615 tons a day. 24 furnaces were blown in during the month, of which 10 were Steel Corp. units, 13 were independent steel company furnaces, and one was a merchant stack. Four furnaces were blown out or banked, two of which were Steel Corp. stacks and two independent steel company furnaces.

Among the furnaces blown in were the following: Two Edgar Thomson, one Ohio, one Farrell, Carnegie Steel Co.; one Monongahela, one Ohio, National Tube Co.; two South Chicago (old) and two Gary, Illinois Steel Co.; one Lackawanna, two Cambria, Bethlehem Steel Co.; one Aliquippa and two Eliza, Jones & Laughlin Steel Corp.; one Ashland, American Rolling Mill Co.; two Haselton, Rebpublic Steel Corp.; one Shenango, Shenango Furnace Co.; one Riverside, Wheeling Steel Corp.; one Zug, National Steel Corp.; one Otis, Otis Steel Co., and one River, Corrigan, McKinney Steel Co.

Furnaces blown out or banked included: One Norton, American Rolling Mill Co.; one Ford furnace, and one Ensley and one Fairfield furnace of the Tennessee Coal, Iron & Railroad Co.

Steel Ingot Production Rises in January

The American Iron and Steel Institute in its latest monthly report places steel ingot production of all companies in January at 2,834,170 tons, this total showing a considerable increase when compared with the previous month's output of 1,941,595 tons. The percentage of operation has risen from 35.27% in December to 47.67%. In January 1934, 1,971,187 tons were produced. The approximate daily output in January 1935 was 104,969 tons for the 27 working days, while daily production in December 1934 averaged 77,664 tons for the 25 working days. In January of the previous year, which also contained 27 working days, the average output per day was 73,007 tons. Below we show the monthly figures since January 1934:

MONTHLY PRODUCTION OF OPEN HEARTH AND BESSEMER STEEL

INGOTS—JANUARY 1934 TO JANUARY 1935
[Reported by companies which in 1933 made 99.32% of the open hearth and 100% of the Bessemer ingot production.]

Calculated production for all companies is the same as the reported production for all companies.

Note—The percentages of capacity operated are calculated on annual capacitie as of Dec. 31 1933, as follows: Open hearth ingots, 60,583,813 gross tons; Besseme ingots, 7,895,000 gross tons:

Steel Output Reaches 56½%—Decline in Scrap is Checked

The "Iron Age" in its issue of Feb. 7 stated that steel production has registered another gain, rising from 56 to 561/2% of capacity, and scrap prices, though manifesting mixed tendencies, are on the average stronger than in recent weeks. The Pittsburgh ingot rate is up three points to 45% of capacity and operations in the Cleveland-Lorain district have advanced two points to 69%. In the Valleys the falling in of several open-hearths has resulted in a temporary recession of two points to 61%. Elsewhere production is substantially unchanged. At Detroit, where output is at 100% of capacity, one producer has so depleted its bank of ingots that it has been compelled to buy a round tonnage of semifinished steel in the open market. The "Age" further added:

Though additional increases in production are looked for in certain enters, notably Chicago and the Valleys, there are indications that the upswing in mill operations is losing momentum. Mills producing automobile teels are now operating virtually at capacity and, though tin mill output has risen to 75% and steel demand from miscellaneous sources is showing a steady growth, further significant expansion in raw steel production is believed to be dependent on bookings of railroad steel, construction material and pipe which have been laggards in the recent buying movement.

Although output may soon level off, no early recession is looked for. In fact, steel markers are now predicting that the present rate will be main tained well though the current quarter provided there are no serious labor disturbances. They also point out that, with four or five months of opera-tions at current levels, activity would spread to other lines. Even now expansion in miscellaneous lines has assumed sizable proportions. A number of tractor plants in the Middle West have bookings warranting capacity operations for the next six months. Farm implement makers have the best prospects since 1930. Agricultural demand for sheets and wire products has shown notable improvement. Stove manufacturers are running at a high rate. These and other non-automotive outlets for steel are estimated to have accounted for 35 to 50% of the bulge in demand which has developed in the past two months.

The labor outlook has been brightened by the settlement of the Pittsburgh Plate Glass Co. strike, and by the results of employee elections in auto-

mobile plants.

The gold clause case has checked iron and steel demand in certain districts. though it has not affected the buying policy of the motor car industry. With makers of cold-finished sheets booked full for this quarter, automobile makers are pressing for contracts for second quarter, though under the code prices for that period cannot be filed until Feb. 20.

The confidence of the iron and steel industry in sustained operations is indicated by the record-breaking gain in pig iron output in January. Total production for the month was 1,477,336 tons, compared with 1,027,622 tons in December. The daily rate, at 47,656 tons, showed an increase of 43.8% over the December average of 33,149 tons. Eighty-nine furnaces were in blast Feb. 1, a net gain of 20 over Jan. 1. January 1920, showed a net gain of 28 furnaces but the increase in daily rate was only 14.5%. In January 1925, there was a net increase of 23 furnaces, but the daily average

rose only 12% over the previous month.

Rail orders placed by the Southern Pacific, the Burlington and Wheeling & Lake Eric total 44,374 tons.

Structural steel awards of 16,600 tons are the largest with one exception since the last week of November. New projects of 16,150 tons compare with 9,400 tons in the previous week and 16,150 tons a fortnight ago. Sheet steel piling inquiries total 6,300 tons. Tentative barge work in the Chicago district calls for 15,000 tons of plates.

Significant changes in iron and steel prices for the coming quarter are considered unlikely. The "Iron Age" composite prices for pig iron and finished steel are unchanged at \$17.90 a ton and 2.124c. a lb. respectively. The scrap composite remains at \$12.17 a ton for the second week.

The American Iron and Steel Institute on Feb. 4 announced that telegraphic reports which it had received indicated that the opening rate of steel companies having 98.7% of the steel capacity of the industry will be 52.8% of the capacity for the current week, compared with 52.5% last week, 43.4% one month ago, and 37.5% one year ago. This represents an increase of 0.3 points, or 9.6%, from the estimate for the week of Jan. 28. Weekly indicated rates of steel operations since Oct. 23 1933 follow:

"Steel" of Cleveland, in its summary of the iron and steel markets on Feb. 4 stated:

A 43.6% increase in pig iron production in January, with a net gain of 22 active blast furnaces, and a further rise of 1 1/2 points in steelworks operation last week to 541/4 %, manifest the strong and unusually diverse character of manufacturing demand for iron and steel.

Pig iron production last month averaged 47,627 gross tons daily, up 14,466 tons; and total output was 1,476,424 tons, an increase of 448,418 tons. Both these gains were the largest for any January in history. The increase in the number of blast furnace stacks to 89, operating Jan. 31, was the largest for the month except January 1920, when the net gain was 23, and January 1925, with a net of 22. The month's output was the highest since June 1934.

This gain in pig iron is expected to be matched with a long stride in steel ingot production for January when official figures are announced this week, the steel rate as an average having been 13 points higher than in December. The month's steel bookings for leading interests were twice those of December, and thrice January last year. Steelmakers now confidently expect the current operating rate to continue or improve through February and March.

Deliveries to automobile manufacturers are becoming a problem, and it is more apparent they are striving to build up inventories of materials and parts. Autobody sheet production is now 80%. The majority of mills are booked to capacity for cold-rolled sheets for this quarter, and consumers are seeking preferred position for second quarter. Tinplate mills are operating at 85%.

The automobile industry has made a good start on its schedule for 1.000.000 cars this quarter, last week's output of 73.000 raising the total for January slightly above 300.000. Washington is renewing efforts to level out peaks and valleys, but if introduction of new models be moved up several months as proposed, midsummer unemployment in the steel industry may be intensified.

Steelmakers must decide by Feb. 20 on prices for second quarter, and so far as pertains to automobile manufacturers—always antagonistic to advances—this is a sellers' market. Opinion in the industry, however, is divided, with some leading producers leaning to a continuation of present levels. Reports that premiums have been offered for prompt shipment pertain to drawing extras, sometimes waived, which mills now find it easier to obtain.

Structural work and railroads are contributing little to steelworks activity. Both evidently are awaiting lifts from the Government—structurals, in the \$4,000,000,000 public works program; railroads in proposed freight advances and low interest rates on Federal loans.

Structural shape awards in the first five weeks this year are only 75% of the tonnage in the comparable period last year. Last week they amounted to only 8,500 tons. Amtorg Trading Corp. has ordered for Russia 4,500 tons of forged steel wheels and axles from the Carnegie Steel Co. Wheeling & Lake Erie has purchased 2,200 tons of rails; Atlantic Coast

Line is inquiring for 5,000 tons. New Orleans has awarded 4,500 tons of cast pipe.

Scrap consumption is rising, but many consumers are over-supplied and "Steel's" scrap price index last week dropped 43c. to \$11.65. A valley steelworks purchased 50,000 tons, and 70,000 tons were taken for shipment to Italy

A decline in scrap shipments was principally responsible for a reduction of 5.5% in December iron and steel exports to 282,655 tons. Imports fell off 44% to 19,708 tons. For the year 1934 iron and steel exports of 2,832,-764 tons were up 117% imports 316,761 tons down 23,6%.

764 tons were up 117%; imports, 316,761 tons, down 23.6%.

Steelworks operations in the Pittsburgh district last week rose 6 points to 44%; Chicago, 7 to 66; eastern Pennsylvania, 1½ to 30; Buffalo, 1 to 45; Birmingham, ½-point to 32. Detroit held at 100; Wheeling, 95; Youngstown, 64; while Cleveland was off 1 to 78 and New England, 16 to 52.

The scrap reduction has lowered "Steel's" iron and steel price composite 4c. to \$32.56, while the finished steel index is unchanged at \$54.

Steel ingot production for the week ended Feb. 4, is placed at a shade over 54% of capacity, according to the "Wall Street Journal" of Feb. 6. This compares with 53% in the previous week, and 50% two weeks ago. The "Journal" continues:

U. S. Steel is estimated at 47%, against nearly 46½% in the week before and 44% two weeks ago. Leading independents are credited with a fraction under 59%, compared with 57% in the preceding week, and 54% two weeks ago.

In the following table is given the percentage of production for the nearest corresponding week of previous years, together with the approximate change, in points, from the week immediately preceding.

	Industry	U. S. Steel	Independents
1935	54 +1 36½+2½	47 + ½ 32 +2	59 +2 40 +3

1928	84 79 +1	89	79

Current Events and Discussions

The Week with the Federal Reserve Banks

The daily average volume of Federal Reserve bank credit outstanding during the week ended Feb. 6, as reported by the Federal Reserve banks, was \$2,463,000,000, a decrease of \$3,000,000 compared with the preceding week and of \$153,-000,000 compared with the corresponding week in 1934. After noting these facts, the Federal Reserve Board proceeds as follows:

On Feb. 6 total Reserve bank credit amounted to \$2,466,000,000, an increase of \$6,000,000 for the week. This increase corresponds with increases of \$49,000,000 in money in circulation and \$91,000,000 in member bank reserve balances, offset in part by increases of \$34,000,000 in monetary gold stock and \$6,000,000 in Treasury and National bank currency and by decreases of \$77,000,000 in Treasury cash and deposits with Federal Reserve banks and \$14,000,000 in non-member deposits and other Federal Reserve accounts.

Relatively small changes were reported in holdings of bills discounted and purchased bills, United States Government securities, and industrial advances.

Beginning with the week ended Oct. 31 1934, the Secretary of the Treasury made payments to three Federal Reserve banks, in accordance with the provisions of Treasury regulation issued pursuant to subsection (3) of Section 13-B of the Federal Reserve Act, for the purpose of enabling such banks to make industrial advances. Similar payments have been made to other Federal Reserve banks upon receipt of their requests by the Secretary of the Treasury. The amount of the payments so made to the Federal Reserve banks is shown in the weekly statement against the caption "Surplus (Section 13-B)" to distinguish such surplus from surplus derived from earnings, which is shown against the caption "Surplus (Section 7)."

The statement in full for the week ended Feb. 6, in comparison with the preceding week and with the corresponding date last year, will be found on pages 926 and 927.

Changes in the amount of Reserve bank credit outstanding and in related items during the week and the year ended Feb. 6 1935, were as follows:

Returns of Member Banks in New York City and Chicago-Brokers' Loans

Below is the statement of the Federal Reserve Board for the New York City member banks and also for the Chicago member banks for the current week, issued in advance of the full statement of the member banks, which latter will not be available until the coming Monday. The New York City statement formerly included the brokers' loans of reporting member banks and showed not only the total of these loans but also classified them so as to show the amount loaned for their "own account" and the amount loaned for "account of out-of-town banks," as well as the amount loaned "for the account of others." On Oct. 24 1934 the statement was revised to show separately loans to brokers and dealers in New York and outside New York, loans on securities to others, acceptances and commercial paper, loans on real estate, and obligations fully guaranteed both as to principal and interest by the United States Government. This new style, however, now shows only the loans to brokers and dealers for their own account in New York and outside of New York, it no longer being possible to get the amount loaned to brokers and dealers "for account of out-of-town banks" or "for the account of others," these last two items now being included in the loans on securities to others. The total of these brokers' loans made by the reporting member banks in New York City "for own account" including the amount loaned outside of New York City, stood at \$593,000,000 on Feb. 6 1935, a decrease of \$21,-000,000 over the previous week.

Complete Returns of the Member Banks of the Federal Reserve System for the Preceding Week

As explained above, the statements of the New York and Chicago member banks are now given out on Thursday, simultaneously with the figures for the Reserve banks themselves and covering the same week, instead of being held until the following Monday, before which time the statistics covering the entire body of reporting member banks in 91 cities cannot be compiled.

In the following will be found the comments of the Federal Reserve Board respecting the returns of the entire body of reporting member banks of the Federal Reserve System for the week ended with the close of business Jan. 30:

The Federal Reserve Board's condition statement of weekly reporting member banks in 91 leading cities on Jan. 30 shows increases for the week of \$111,000,000 in net demand deposits, \$5,000,000 in time deposits and \$38,000,000 in reserve balances with Federal Reserve banks, and decreases of \$13,000,000 in total loans and investments and \$66,000,000 in Government deposits.

Loans on securities to brokers and dealers in New York City declined \$20,000,000 at reporting member banks in the New York district and \$21,000,000 at all reporting member banks; loans on securities to brokers and dealers outside New York City increased \$2,000,000; and loans on securities to others declined \$2,000,000. Holdings of acceptances and commercial paper bought declined \$8,000,000 in the New York district and \$10,000,000 at all reporting member banks; real estate loans showed little change for the week; and "other loans" increased \$7,000,000 in the Boston district, \$4,000,000 in the Chicago district and \$3,000,000 at all reporting banks, and declined \$7,000,000 in the New York district.

Holdings of United States Government direct obligations increased \$44,000,000 in the Chicago district, and declined \$31,000,000 in the New York district and \$19,000,000 in the Boston district, all reporting member banks showing a net increase of \$2,000,000 for the week; holdings of obligations fully guaranteed by the United States Government declined \$12,000,000 in the Chicago district and \$11,000,000 at all reporting banks; and holdings of other securities increased \$16,000,000 in the New York district, \$5,000,000 in the San Francisco district and \$26,000,000 at all reporting banks.

Licensed member banks formerly included in the condition statement of member banks in 101 leading cities, but not now included in the weekly statement, had total loans and investments of \$1,217.000,000 and net demand, time and Government deposits of \$1,392,000,000, compared with \$1,220,000,000 and \$1,389,000,000 respectively, on Jan. 23.

\$1,220,000,000 and \$1,389,000,000 respectively, on Jan. 23.

A summary of the principal assets and liabilities of the reporting member banks, in 91 leading cities, that are now included in the statement, together

with changes for the week and	the year ended		follows. T Decrease (—)

International Agreements Seen as Potent Remedy for World Depression—Dr. W. H. Coates, British Economist, Urges Pacts on Trade, Currency and Industry

International agreements can stimulate the growth of international trade, which alone will enable the world to recover from the depression, Dr. W. H. Coates, British member of the International Chamber of Commerce, declared on Jan. 25 in an address before the Incorporated Accountants' Society and the Institute of Bankers at Liverpool, England. Whatever recovery has already occurred in in various countries, he said, is concerned with domestic markets only. One of the greatest needs of the world to-day, he said, is a more uniform policy designed to bring production into harmony with demand for commodities where the current price is out of balance with industrial prices, or where stocks indicate the need for such action. The disequilibrium between agricultural and industrial prices must be remedied, he continued, and "the greatest service that international co-operation between responsible Governments could render to the welfare of the world would be to come together to consider and adopt measures for remedial action in this field."

The most useful step which could be taken in connection with currency, he said, would be an international agreement between the United States, the United Kingdom and France, but the first move would need to come from the United States and the gold bloc countries would need to devaluate.

Industrial agreements, he asserted, would constitute an excellent remedy for the position that has arisen in various countries because of Japanese competition. He also mentioned bilateral agreements with respect to foreign trade as an aid in overcoming the depression. A summary of his address, made public on Jan. 29, said in part:

Turning to bilateral Government agreements relating to foreign trade, Dr. Coates suggested that such agreements contributed something towards the increase or restoration of international trade, but by their nature they seemed likely only to touch the fringes of this great problem. They were somewhat poor substitutes for the work that industry has to do for itself. They not only interfered with the wider interests of triangular trade, but also they took a considerable time to negotiate and in some respects were contrary to the spirit of the most-favored-nation clause.

Summing up Dr. Coates stated that he was a strong supporter of international agreements. As he saw it, the first great problem was co-operation on a world scale for the purpose of raising primary prices. Not until this had been done would it be possible to tackle in earnest the second great problem of the stabilization of international currency, the third great problem of the removal of the forest of quotas and other barriers to international trade and the fourth great porblem of the resumption of international trade and the fourth great porblem of the resumption of international trade and the fourth great porblem of the resumption of international trade and the fourth great porblem of the resumption of international trade and the fourth great porblem of the resumption of international trade and the fourth great porblem of the resumption of international trade and the fourth great porblem of the resumption of international trade and the fourth great porblem of the resumption of international trade and the fourth great porblem of the resumption of international trade and the fourth great porblem of the resumption of international currency.

national lending. Five years should have been sufficient to teach the statesmen of the world that palliatives only prolong the agony of the patient, and that until fundamental evils are attacked, then fundamental results will not be achieved.

Comparative Figures of Condition of Canadian Banks

In the following we compare the condition of the Canadian banks for Dec. 31 1934 with the figures for Nov. 30 1934 and Dec. 30 1933.

London Markets Affected by Speculation in Pepper Market—Provisional Liquidator Named for James & Shakespeare—Liquidation of Strauss & Co.

Speculation in minor commodities, such as peanuts, white pepper and shellac, precipitated financial unsettlement in London this week. Last week (Jan. 30) the compulsory liquidation was announced of S. Strauss & Co., Ltd., one of the "big five" companies in the British grain trade; it was believed the losses, due to speculation in peanuts, would exceed £1,000,000.

A crisis in the white pepper market was averted yester-day (Feb. 8) when produce brokers announced that a settlement of pepper commitments estimated at 1,850,000 pcunds and valued at approximately \$9,250,000, due yester-day, had been postponed until Feb. 11, when all brokers involved except two will probably be saved by the banks. United Press advices (copyright) of Feb. 8, from London to the New York "Sun," said, in part:

James & Shakespeare, Mincing Lane dealers in metals and produce, associated in the shellac and pepper operations, went under yesterday. The firm was launched only last September, with capital of \$2,125,000. A number of produce dealers presented a petition for a provisional liquidator for the firm yesterday, and one was named.

One of the directors of the firm is Garbed Bishirgian, naturalized Armenian, who has specialized in pepper.

Great Britain and France Invite Germany to Negotiate Armament Agreement—Proposes Air Pact in Which Reich, Italy and Belgium Would Join—Official Communique

France and Great Britain, in a joint communique issued at London on Feb. 3, at the conclusion of Anglo-French conversations, revealed that the two nations have extended an invitation to Germany to co-operate in new international agreements designed to assure the continuance of European peace. The two Powers proposed discussions regarding a possible air convention in which Great Britain, France, Germany, Belgium and Italy would each agree to furnish instant assistance to the others in the event that any one of the five was attacked from the air by another of the participants.

French and British representatives had previously conferred for three days in an effort to find some means of stabilizing European peace with German co-operation. It was announced that a statement similar to the communique had been sent to the German, Italian and Belgian Governments.

While conciliatory to Germany, the communique indicated that neither Great Britain nor France would consent to unilateral revision of the Versailles treaty when it said that "neither Germany nor any other Power whose armaments have been defined by the peace treaties is entitled by unilateral action to modify these obligations." Nothing could further contribute to the restoration of confidence, however, than a general settlement between Germany and the other Powers, the communique said.

The text of the communique, as made public by the British Foreign Office on Feb. 3, is given below:

The object of the meeting between British and French Ministers which has been taking place in London was to promote the peace of the world by closer European co-operation in a spirit of most friendly confidence, and to remove those tendencies which, if unchecked, are calculated to lead to a race in armaments and an increase in the dangers of war.

to a race in armaments and an increase in the dangers of war.

With this object in view, the British and French Ministers proceeded to an examination of the general situation. They took note of the particularly important part played by the League of Nations in recent settlements of certain international problems and welcomed the successful results as evidence of a conciliatory spirit among all governments taking part in those settlements.

They declare their determination to pursue, both as regards problems of their own countries and the League, policies guided by the same methods of conciliation and cooperation.

With reference to the Franco-Italian agreement recently reached at Rome, the British Ministers, on behalf of His Majesty's Government in the United Kingdom, cordially welcomed the declaration by which the French and Italian Governments have asserted their intention to develop the traditional friendship which united the two nations, and associate His Majesty's Government with the intention of the French and Italian Governments to collaborate in a spirit of mutual trust in the maintenance of general peace.

The British Ministers expressed the congratulations of His Majesty's Government on the conclusion of the Rome agreement regarding Central Europe and made it clear that as a consequence of the declarations made by His Majesty's Government in conjunction with the French and Italian Governments on Feb. 17 and Oct. 27 last, His Majesty's Government consider themselves to be among the powers which will, as provided in the Rome agreement, consult together if the independence or integrity of Austria is morned.

The British and French Ministers hope that the encouraging progress thus achieved may now be continued by means of direct and effective cooperation with Germany. They have agreed that neither Germany nor any other power whose armaments have been defined by the peace treaties is entitled by unilateral action to modify these obligations.

But they are further agreed that nothing could contribute more to the restoration of confidence and the prospects of peace among nations than a general settlement freely negotiated between Germany and the other powers. This general settlement would make provision for the organization of security in Europe particularly by means of the conclusion of pacts freely negotiated between all interested parties and insuring mutual assistance in Eastern Europe and the system foreshadowed in the Rome process verbal for Central Europe.

Simultaneously and in conformity with the terms of the declaration of Dec. 11, 1932, regarding equality of rights in a system of security, this settlement would establish agreements regarding armaments generally, which in the case of Germany would replace the provisions of Part V of the Treaty of Versailles at present limiting arms and armed forces in Germany. It would also be a part of the general settlement that Germany should resume her place in the League of Nations with a view to active membership. The French Government and the Government of the United Kingdom trust that the other governments concerned may share these views.

In the course of these meetings the British and French Ministers have been impressed by the special dangers to peace created by modern developments in the air, misuse of which might lead to sudden aerial aggression by one country upon another, and have given consideration to the possibility of provision being made against these dangers by a reciprocal regional agreement between certain powers.

It is suggested that the signatories would undertake immediately to give the assistance of their air forces to whichever of them might be the victim of unprovoked aerial aggression by one of the contracting parties. The British and French Ministers, on behalf of their respective governments, found themselves in agreement that a mutual arrangement of this kind for Western Europe would go far to operate as a deterrent to aggression, and to insure immunity from sudden attacks from the air, and they

have resolved to invite Italy, Germany and Belgium to consider with them whether such a convention might not be promptly negotiated.

They earnestly desire that all countries concerned should appreciate that the object of this proposal is to reinforce peace—the sole aim pursued by the two governments. The Governments of France and the United Kingdom declare themselves ready to resume their consultations without delay after having received the replies of the other interested powers.

A dispatch from London to the New York "Times" on Feb. 3 commented on the overtures to Germany in part as

Italy's inclusion in the invitation to join the air defense convention is well understood to be largely a matter of courtesy. She is a signatory of the Locarno agreement which the proposed convention is intended to supplement, but physical obstacles would prevent her from adding Britain or Britain and Belgium from aiding her in case of attack. However, there is no reason why the example thus set should not be imitated by the formation of another group for Southern Europe, which again might cooperate with the first group.

Plans for Cotton Barter Between United States and Germany Reported Dropped-Assistant Secretary Sayre Before Senate Committee Cites Obstacles

The proposed cotton barter arrangements between the United States and Germany were indicated by President Roosevelt, at his press conference on Feb. 6, as having been terminated. The plans had been under discussion for some time, and in our issue of Dec. 18, page 3732, reference thereto was made. With regard to the abandonment of the plans a dispatch Feb. 6 from Washington to the New York "Times"

It was wrecked against international agreements that forbid "dumping" of goods in the American and foreign markets.

Mr. Roosevelt explained at a press conference that the plan for the barter, on which at one time centered the chief activities of the State Department, involved payment by Germany in cash of 25% of the value of the cotton and a contract providing for an exchange of German manufactured

products for the remaining 75%.

The German Government had offered to buy the cotton on these terms to hold for future sales to German manufacturers. By trading for 75% of the cotton, Germany also would have solved a difficult problem arising

from the shortage of foreign exchange in that country.

The President said that American importers had finally decided that they saw no way of selling the promised German products to be tendered for the cotton in any way except by violation of the anti-dumping agree-

Assistant Secretary of State Francis B. Sayre before the Senate Agricultural Committee on Feb. 7, stated that entrance of the United States into a deal with Germany under terms of a cotton barter proposal approved by the Export-Import Bank and blocked by the State Department would have struck at the heart of the Administration's foreign trade program of consummating multilateral trade arrangements with the world.

An account from Washington to the New York "Journal of Commerce," noting this, reported Mr. Sayre as saying that such a plan, which involved the sale of 800,000 bales of American cotton to the Reich to be paid for at the rate of 25% in American dollars and 75% in German marks, "did not seem to me an advantageous deal; it seemed a very poor trade." The account also said:

Mr. Sayre was called before the Committee to discuss the German cotton deal which President Roosevelt announced yesterday was definitely dead,

and also to amplify further the foreign trade policies of the Administration as expounded by Secretary of State Hull at the outset of the hearings. . . Mr. Sayre said that one of the obstacles discovered in connection with the trade of the "gold bloc" countries is the anti-dumping law of the United States. He revealed that the Administration is now endeavoring to work out a modification of the law which will make possible these countries exporting to the United States. The problem is most difficult, however, he added, and could give no indication as to when a satisfactory solution will be proposed.

If the deal had gone through, he asserted, the United States would have sold Germany 800,000 bales of cotton and in payment this country would have had to accept \$48,000,000 of German imports, and German imports during 1934 only totaled \$78,000,000.

Sees Bank as Dictator

The plan called for the Export-Import Bank to sell the marks at a discount, and this, Mr. Sayre said, would have virtually made it a dictator over importers, being in a position to say just who shall import and what they shall import.

United States-Brazilian Trade Agreement Signed in Washington—Provides Mutual Tariff Concessions —Secretary Hull Calls It "First Break in Log Jam

A reciprocal trade agreement between the United States and Brazil was signed on Feb. 2 in President Roosevelt's presence by Secretary of State Hull and Osswaldo Aranha, Brazilian Ambassador to Washington. Mr. Hull, in a statement issued after the signing, said that the treaty represented a step on the road "away from medieval mercantilism." He also said that the agreement was "the first break in the log-jam of international trade created by restrictions such as quotas, import licenses, exchange controls, special arrangements, and almost numberless other throttling devices."

The agreement provides that the United States will grant large tariff reductions on imports of farm and mineral products from Brazil in exchange for similar reductions by Brazil on imports of manufactured articles from this country. Brazil also agrees to take definite steps looking to the continuance of payment of its governmental and commercial obligations to the United States.

This was the second reciprocal trade agreement concluded by the United States, the first being with Cuba. The treaty will become effective 30 days after ratification by the Senate of the United States and the Congress of Brazil. It is expected to be a model for other similar pacts now being negotiated.

A Washington dispatch of Feb. 2 to the New York "Times" described the signing of the treaty, and summarized some of its principal provisions, as follows:

"The agreement with Brazil," said an official summary issued by the State Department, "is based upon the principle of unconditional most-favored-nation treatment and on the consequent assumption that the concessions which each country grants to the products of the other will, as a general rule, in the absence of special consideration, be extended to like products of other countries."

The question of "special considerations" rose immediately in connection with manganese ore, on which the American tariff was reduced by the treaty from one cent to one-half cent per pound of metal extracted. Russia has large manganese deposits, but is held to have precipitated the recent break-down of efforts to negotiate a debt settlement as was agreed when this country recognized the Soviet Government.

Application to Soviet Undecided

It was stated officially this evening that it had not been decided whether the manganese rate would apply to Russia. The Administration has not attempted to generalize as to Russia pending development and dis-position of special circumstances now under consideration.

The signing of the treaty was witnessed by President Roosevelt, who asked and received of the last Congress authority to revise tariff rates by as much as 50% to effectuate such agreements. It was signed as it lay on the President's desk first by Oswaldo Aranha, the Ambassador of Brazil, and then by Secretary Hull in the presence of a large number of officials who went to the White House from a luncheon tendered by the Secretary

Others present included Arthur de Sousa Costa, Minister of Finance of Brazil and head of a special financial mission from that country, also including Sebastiao Sampaio, Marcos de Sousa Dantas and Paulo Frederico de Magalhaes; C. de Freitas-Valle, counselor of the Brazilian Embassy; Francis B. Sayre and Sumner Wells, Assistant Secretaries of State; James Clement Dunn, special assistant to the Secretary of State; Dr. Herbert Feis, economic adviser of the State Department; Edwin C. Wilson, chief of the Division of Latin American Affairs, and Henry F. Grady, chief of the Trade Agreements Section.

In addition to this group, Secretary Hull also entertained at luncheon Speaker Joseph W. Byrns, Secretary of Agriculture Henry A. Wallace, Representatives Sol Bloom and Robert L. Doughton; T. J. Coolidge, Underetary of the Treasury, and Marvin H. McIntyre, assistant secretary to the President.

Secretary Hull's Statement

Following the ceremonies and the affixing of seals to copies of the

treaty, Mr. Hull issued this statement:
"I have just had the pleasure of signing a trade agreement between this Government and the United States of Brazil. It is the first one of these agreements to be concluded outside of the one with Cuba, which had special features. I am especially gratified because this marks the first break in the log-jam of international trade created by restrictions such as quotas, import licenses, exchange controls, special arrangements and almost numberless other throttling devices. Agreements of a similar nature are in the making with 15 other countries, some of them so far advanced that

their completion may be expected soon.
"Having once started on the road away from the medieval mercantilism which was strangling the commerce of a new world, progress should now

be more rapid and the movement gain momentum.

"I am confident that in our dealings with other countries we shall encounter the same spirit of reasonableness and co-operation for the general welfare that we have experienced with Brazil, and that soon by the expansion of this program we shall be casting a broad beam of light and hope into the existing economic darkness."

Expected to Aid All Trades

The agreement was termed by the State Department as "designed to facilitate an increase in international trade rather than to divert trade away from other countries," and it was added that the treaty "may be regarded as an example of the type of trade agreement which the United States expects to negotiate with other countries."

The general trade background of the new agreement was described as

"Brazil is the second largest South American market for United States exports, Argentina being a slightly better market. Whereas in 1928 and 1929 exports to Brazil exceeded \$100,000,000 they were valued at only \$28,600,000 in 1932 and approximately \$40,000,000 in 1934. Of Brazil's total imports, the United States furnishes from 25% to 30%. This amounts to from 1% to 2% of total exports from the United States. The United States takes from 40% to 50% of Brazil's exports. The economies of the two countries are largely complementary, so that an interchange of products is unusually favorable to both.

"The following table shows the total import and export trade with Brazil

since 1926	:				
	Exports to Brazil	Imports from Brazil		Exports to Brazil	Imports from Brazil
1926	\$95,449,000	\$235,307,000	1931	\$28,579,000	\$110,212,000
1927	88,737,000	203,027,000	1932	28,600,000	82,139,000
1928	100.104.000	220,701,000	1933	29,727,000	82,592,000
1929	108,787,000	207,686,000	1934	40,382,000	91,484,000
1000	EG 000 000	100 OF4 000			

Depression Affected Trade

"It will be seen from the above data that both imports and exports decreased during the depths of the depression. This is suggestive of the necessity and possibility of restoring our trade with Brazil.

"The United States export trade to Brazil is made up of hundreds of industrial and agricultural products. Some of the outstanding exports before the depression were automotive products, gasoline and other petro-leum products, machinery, textiles and wheat flour.

"The decline in the exports of these products has been drastic, particularly in automotive products, the largest single item.

"Coffee, as is well known, is the largest single item imported from Brazil. It is of paramount importance to the economy of that country. Coffee constitutes about 85% of the total imports from Brazil.

"The following table shows the value and quantity of imports of coffee from 1928 to 1933.

from 1926 to 1933:

Pounds
1926.....1,013,344,000
1927.....1,022,986,000
1928......960,940,000
1929.....956,041,000

Coffee Prices Lower

"Although the quantities of coffee imported annually have not changed greatly in recent years, there has been a great decline in the annual value of these imports because of the decline in unit prices. This decline in value, therefore, has greatly reduced the ability of Brazil to purchase products in the United States out of the proceeds of her coffee exports to this country

"Other imports from Brazil are cacao beans, sheep and goat skins, carnauba wax and Brazil nuts. Imports from that source are largely raw materials or non-competitive products."

The tariff concessions in the new treaty include import duty reductions by Brazil on 28 tariff items and an agreement to keep on the free list 13 tariff items now there; the United States gives concessions on seven items and

binds itself to retain on the free list 12 other items, including coffee.

Among the items exported to Brazil by the United States on which the tariff is reduced are automobiles, canned salmon, canned asparagus, oil cloth, gasoline pumps, chewing gum, powdered milk, paints, radio apparatus, electric batteries, tubes, steel files and rubber hose and tubes.

The United States grants concessions on imports including balsam,

natural ipicac, mate, manganese ore, Brazil nuts, both in shells and shelled, and castor beans.

The concessions by Brazil affect 23.8% of American exports to that country in 1933, and concessions by the United States to Brazil cover 2.4% of the total imports from the latter country in 1933.

As part of the trade agreements Brazil sent a note to the United States promising to undertake to provide sufficient exchange to provide payment on future imports from the United States and to make available additional amounts to liquidate existing deferred commercial indebtedn

Brazil also assured this Government that in no event would the Bank of Brazil refrain from "continuing the obligations assumed in June 1933, with respect to the notes issued to refund the commercial indebtedness existing at that time," and that country "definitely engaged" to reserve sufficient exchange "to assure the continuance of service on bonds issued in the United States and held by American bondholders in accordance with the plan of payment concluded in February 1984."

Rumania to Pay Great Britain \$12,500,000

United Press advices Feb. 8 from London said:

Walter Runciman, President of the Board of Trade, announced in the House of Commons to-day that the Government had signed an agreement with Rumania for payment of £2,500,000 (\$12,500,000) due Britain for trade debts.

Great Britain is \$379,461,776 in default on its world war debt to the United States. Rumania is \$2,316,250 in default.

Brazil Hails Pact with United States on Trade-Coffee Traders Pleased—Sao Paulo Coffee Interests Advocate Exchange Freedom

Stating that Brazil received with satisfaction news of the conclusion of an American-Brazil trade treaty, a cablegram, Feb. 3, from Rio de Janeiro to the New York "Times" added,

The work of the Brazilian financial mission headed by Arthur de Sousa Costa, Minister of Finance, in helping negotiate the treaty was praised on all sides.

Relief is felt here that the cotton question did not mar the negotiations Foreign press reports printed here declared the treaty would not be signed

unless Brazil agreed to restrict cotton planting.

Brazilian coffee traders look for increased business as a result of the reciprocal treaty, and several selling schemes are now under study to introduce other Brazilian products in the United States, especially mate. Brazilian tea. Likewise, Brazilian importers believe the treaty opens a

wide field for the marketing of American products here.

The coffee exchange problem is still unsettled. Following criticism of the exchange system by the Sao Paulo Rural Society, the Federal Government conferred and several Cabinet members left for Sao Paulo afterward to consult the Sao Paulo interventor and members of the Rural Society.

Sao Paulo coffee interests advocate exchange freedom, suggesting the Banco do Brazil retain only 30% of the proceeds of coffee exports to help it to meet foreign obligations, thus giving coffee interests enough revenue so that a reduction of the export price could be made.

Brazilian Financial Mission Guests of New York Bankers and State Chamber of Commerce

The Brazilian Financial Mission, headed by Arthur de Souza Costa, Minister of Finance, came to New York on Feb. 3 from Washington, and spent most of this week in conference with bankers and industrialists whose trade with Brazil is heavy. One purpose of the Mission's visit was said to be to endeavor to arrange for credits which would aid in freeing blocked balances of Americans in Brazil, and would release sufficient exchange to liquidate such balances, estimated at around \$21,000,000. The visit of the Mission to the United States was noted in our issue of Jan. 26, page 554. It is understood that the Mission will sail for London to-day (Feb. 9).

On Feb. 4 the members of the Mission were present at a luncheon given at the New York Federal Reserve Bank by the officers and directors of the bank. The Brazilian delegates at the luncheon were:

Osvaldo Aranha

Brazilian Ambassador to the United States

Dr. Marcos de Souza Dantas Dr. Sebastiao Sampaio

Formerly control, of the Banco de Brazil In the Brazilian Ministry of Foreign Affairs

Arthur de Souza Costa

Brazilian Minister of Finance

Members of the Brazilian Mission were guests at luncheon on Feb. 6 at the Chamber of Commerce of the State of New York at 65 Liberty Street. Thomas I. Parkinson, President of the Chamber, welcomed the guests and in a brief address referred to the commercial treaty with Brazil signed at the White House. Arthur de Souza Costa, Brazilian Minister of Finance, said that the work of the mission here had been made easy by the spirit of co-operation, goodwill and friendship which had been shown by American officials and business men. Dr. Sebastiao Sampaio, of the Brazilian Ministry of Foreign Affairs, expressed the thanks of the Mission to the Chamber for its helpfulness.

Other members of the Brazilian party at the luncheon

Dr. Marcus de Souza Dantas Paulo Frederico de Magalhaes

E. Penteado

Dr. Luiz de Faro, Consul General in New York

David Moretzsohn, Deputy Consul Berent Friele, President, American-Brazilian Association

John L. Merrill, President, Pan-American Society, and James S. Carson, Chairman, Brazilian Committee of the Council on Inter-American Relations.

A luncheon in honor of the Brazilian Mission was held in the dining room of the Guaranty Trust Company of New York on Feb. 5.

The hosts included W. Palen Conway, President of the Guaranty Trust Company; Eugene W. Stetson Vice President and Director; Robert F. Loree, Vice President in charge of the bank's foreign department; and the following Vice Presidents of the company: Willis H. Booth, John J. Sample, Zay B. Curtis, and Herman G. Brock.

At the Plaza Hotel in New York on Feb. 5 the Brazilian delegates were the guests of honor at a dinner given by the Pan-American Society and American Brazilian Association.

Expressing his warm gratification at the conclusion of the reciprocal trade treaty between the United States and Brazil, Arthur de Souza Costa, Brazilian Minister of Finance, stated, according to the New York "Journal of Commerce" that one of the aims of the Mission had been not only to arrange to pay Brazil's present but also to pay her past obligations.

From the paper indicated we also quote:

Hails Treaty

Mr. Costa said that the trade treaty demonstrated that there were at least two nations who were up-to-date in that they resisted economic nationalism. The treaty would result in trade advantages to both countries, he added, and would help to extend foreign trade and to bring about stabilization of economic conditions.

The other speakers were Osvaldo Aranha, Brazilian Ambassador to the United States who made the presentation speech in pinning the Order of the Southern Cross on John L. Merrill, President of the Pan-American Society, who presided, conferred by the President of Brazil in acknowledgment of his fifty years' service to bring about good will and develop commercial relations between the two countries. Ambassador Aranha said that Mr. Merrill was the first American to receive such an honor and the first business man in the world to receive the Order of the Southern Cross.

Other Speakers

The other speakers were Berent Friele, President of the American Brazilian Association, who acted as co-presiding officer; and Sebastiao Sampaio, Chief of the commercial services of the Ministry of Foreign Affairs of Brazil, and Severo Mallet Prevost, former President of the Pan-American

Present at the guests' table were the other members of the Commission, Cyro de Freitas-Valle, Counselor of the Brazilian Embassy; Luiz de Faro, Jr., Consul General of Brazil in New York and Paulo Frederico de Magalhaes, member of the technical council of the Ministry of Finance of Brazil. More than 250 guests attended

Mr. Friele said that it was the first time that Brazil had sent a Cabinet Minister, and a Finance Minister to call on the American Government and to confer with business leaders. The two nations had much in common and Brazil was the best customer of this country, he added.

The signing of the trade treaty between the United States and Brazil is referred to elsewhere in this issue.

Chilean Mission to Explain York omini to New Providing for Partial Service on Foreign Debt

The Foreign Bondholders' Protective Council, Inc., announced on Feb. 4 that it had received from Gustavo Ross. Chilean Minister of Finance, a cable stating that a law was promulgated on Feb. 1 authorizing the Office for Amortization of the Public Debt to renew partial service on the foreign debt. It was added that next week a mission will leave for New York to explain the terms and scope of the law and to deal with the details of its application. The Council has been in communication for some time with the Chilean Government regarding the renewal of service on Chilean external dollar bonds.

Patience and Understanding Seen Need in Negotiating with Foreign Countries in Default on Bonds

Holders of defaulted foreign bonds can accomplish much in obtaining fair treatment if negotiations are carried out with patience and an understanding of the problems confronting the defaulting country, Fred Lavis, Vice-President of the American Institute of Consulting Engineers, said on Feb. 6 at the Institute's monthly luncheon in New York City. Mr. Lavis, who is a member of the Bondholders' Committee for El Salvador bonds, discussed the proceedings which resulted in the payments obtained for the benefit of El Salvador bondholders during the past two years.

Colombian Bank Withdraws From Exchange Market The Bank of the Republic of Colombia has abandoned its policy of maintaining a selling rate of 1.55 pesos to the dollar and withdrawn from the exchange market, according to information received in the Department of Commerce from Commercial Attache Clarence C. Brooks, Bogota. Advices to this effect were contained in a Washington dispatch Feb. 3 to the New York "Journal of Commerce" which added:

Immediately after announcement of this action, the rate for dollars increased from 1.60 to 1.70. Henceforth, it is pointed out, the bank will sell drafts on the stock exchanges against its exchange purchases, to holders of schange permits at prevailing rates.

17½% of Face Amount of Feb. 1 Coupons Deposited in New York by Catharina (Brazil) on 25-Year 8% External Sinking Fund Gold Bonds

Halsey, Stuart & Co., Inc., as special agent, are notifying holders of State of Catharina, United States of Brazil, 25year 8% external sinking fund gold bonds, due Feb. 1 1947, that funds have been deposited with them, on behalf of the State of Catharina, sufficient to make a payment, in lawful currency of the United States of America, of 171/2% of the face amount of the coupons due Feb. 1 1935 appertaining to these bonds, amounting to \$7 for each \$40 coupon, \$3.50 for each \$20 coupon, and \$0.70 for each \$4 coupon. nouncement issued Feb. 4 in the matter also said:

Pursuant to the terms of the decree of the Chief of the Provisional Government of the United States of Brazil under which the payment is made, such payment, if accepted by holders of the bonds and coupons, must be accepted in full payment of the cupons and the claims for interest represented thereby. Holders may obtain payment by presenting their coupons for final cancellation at the offices of the bankers, New York and Chicago. No present provision has been made for the coupons maturing prior to Aug. 1 1934, the notice states, but they should be retained for future adjustment.

Partial Payment Made by Porto Alegre (Brazil) on Feb. 1 Coupons on 40-Year 7% Bonds of External Loan of 1928

Ladenburg, Thalmann & Co., as special agent, are notifying holders of the City of Porto Alegre (United States of Brazil) 40-year 7% sinking fund gold bonds, external loan of 1928, that funds have been deposited with them on behalf of the city, sufficient to make a payment, in lawful currency of the United States of America, of 171/2% of the face amount of the coupons due Feb. 1 1935, amounting to \$6.12½ for each \$35 coupon and \$3.06¼ for each \$17.50 coupon. An announcement said:

Pursuant to the terms of the decree of the Chief of the Provisional Government of the United States of Brazil, such payment, if accepted by the holders of these bonds and coupons, must be accepted in full payment of such coupons and the claims for interest represented thereby. Payment, as specified, will be made upon presentation and surrender of the coupons at the office of the special agent, 25 Broad Street. No present provision, the notice states, has been made for the coupons maturing Feb. 1 1932 to Feb. 1 1934 inclusive, but they should be retained for future adjustment.

Funds Remitted for Payment of 17½% of Feb. 1 Coupons on Rio de Janeiro (Brazil) 6½% External Sinking Fund Bonds Due 1953—Rulings on Bonds by New York Stock Exchange

The Federal District of Rio de Janeiro (Brazil), through White, Weld & Co. and Brown Brothers Harriman & Co., special agents, announced Feb. 4 that funds have been remitted for the payment of the Feb. 1 1935 coupons of the City of Rio de Janeiro 61/2% external sinking fund bonds due Feb. 1 1953 at the rate of 171/2% of the dollar face amount of such coupons. The announcement said:

Payment will be made on and after Feb. 4 1935, at the rate of \$5.6875 lawful currency of the United States of America per \$32.50 coupon, at the offices of the special agents.

Holders of Aug. 1 1931 coupons of this loan, who have not received the

partial payment of \$10.06 per \$32.50 coupon, which has been and is

being made, are requested to present such coupons to either of these firms. Rulings affecting the bonds by the New York Stock Exchange were issued as follows on Feb. 4 by Ashbel Green, Secretary:

NEW YORK STOCK EXCHANGE Committee on Securities

February 4, 1935.

Notice having been received that payment of \$5.6875 per \$1,000 bond is now being made on City of Rio de Janeiro $6\frac{1}{2}\%$ external secured sinking fund gold bonds, due 1953, on surrender of the Feb. 1 1935 coupon:

The Committee on Securities rules that transactions made on and after Feb. 5 1935 shall be settled by delivery of bonds bearing only the Aug. 1 1931 (\$10.06 paid), to Feb. 1 1934, inclusive (ex Aug. 1 1934 and Feb. 1 1935), Aug. 1 1935 and subsequent coupons, unless otherwise agreed at the time of transaction;

That beginning Feb. 11 1935 transactions shall be settled by delivery of bonds bearing only the Aug. 1 1931 (\$10.06 paid), to Feb. 1 1934, inclusive (ex Aug. 1 1934 and Feb. 1 1935), Aug. 1 1935 and subsequent coupons; and

That the bonds shall continue to be dealt in "flat."

ASHBEL GREEN, Secretary.

Redemption Sept. 1 of Outstanding 6% Sinking Fund Gold Bonds, due 1954, of City of Christiania (Now Oslo), Norway, Municipal External Loan of 1924

City of Oslo, Norway (formerly City of Christiania) will redeem on Sept. 1 1935 all of the outstanding bonds of the City of Christiania municipal external loan of 1924, 30-year 6% sinking fund gold bonds, due Sept. 1 1954, according to an announcement made Feb. 4 by Kuhn, Loeb & Co., fiscal agents. The issue is being called at par, said the announcement, which added:

The bonds were first publicly offered in October 1924 in the amount of \$2,000,000, at 98 and interest to yield about 6.15%, by Kuhn, Loeb & Co., New York. The bonds and the interest maturing on the redemption date will be paid by the fiscal agents out of moneys to be deposited with them by the City of Oslo for such payment.

Ruling of New York Stock Exchange Affecting Trans-actions in Certain Foreign Bond Issues—Dealing in "Flat" Continued

The New York Stock Exchange on Jan. 31 issued a ruling requiring the settlement of transactions in certain bond issues by delivery of the bonds bearing designated coupons. The ruling follows [we give here only the foreign issues affected by the ruling, Ed.]:

> NEW YORK STOCK EXCHANGE Committee on Securities

> > Jan. 31 1935.

To the Members:

The Committee on Securities rules that transactions made on and after Feb. 11 1935, in the bonds listed below shall be settled by delivery of bonds bearing only the coupons designated in each case and subsequent coupons, and that the bonds shall continue to be dealt in "flat."

This ruling supersedes those previously issued providing for deliveries of the bonds with these coupons attached unless otherwise agreed at the time of transaction and has been made for the purpose of avoiding confusion in the execution of orders. It does not imply any recommendation with respect to the retention or disposal of the past due coupons by bondholders.

Agricultural Mortgage Bank of Colombia—Guaranteed 20-year 6% sink-g fund gold bonds, due 1947; Feb. 1 1935 coupon. Guaranteed 20-year % sinking fund gold bonds, issue of April 1928, due 1948; April 15 1935

6% sinking fund gold bonds, issue of April 1920, that 1920, and 1920 coupon.

Budapest, City of—External sinking fund 6% gold bonds, loan of 1927, due 1962; June 1 1935 coupon.

Bulgaria, Kingdom of—7% settlement loan 1926 dollar bonds, due 1967; Jan. 1 1934 (\$17.50 paid), (ex July 1 1934 and Jan. 1 1935) and July 1 1935 coupons. 7½% stabilization loan 1928 dollar bonds, due 1968; May 15 1933 (\$16.87 paid), Nov. 15 1933 (\$9.38 paid), (ex May 15 1934 and Nov. 15 1934) and May 15 1935 coupons.

Colombia, Republic of—6% external sinking fund gold bonds of 1928, due Oct. 1 1961; April 1 1935 coupon. 6% external sinking fund gold bonds, due 1961 (J. & J.); July 1 1935 coupon.

German External Loan 1924—7% gold bonds, due 1949; April 15 1935 coupon.

German Government International Loan 1930—5½% gold bonds, due 1965; June 1 1935 coupon.

ASHBEL GREEN, Secretary. */A later ruling has been made by the Exchange on these bonds which supersedes this ruling; reference to the new ruling is made elsewhere in our issue of to-day.

Accountants Endorse New SEC Registration Requirement on Balance Sheets—Editorial Says "Basis of Determining Amounts" Will Give Greater Information to Investor

A distinct forward step in the interests of investors has been taken by the Securities and Exchange Commission in requiring issuers of securities to state in financial statements filed for permanent registration on national exchanges, "the basis of determining the amounts," rather than "the basis of valuation" in balance sheets, the "Journal of Accountancy," publication of the American Institute of Accountants. said in an editorial in its current issue. The editorial declared that the "common fallacy" that balance sheets reveal value has done much to deceive those who rely on financial statements for information regarding investments. We quote below in part from the editorial:

The analytical accountant reading the form of registration will be gratified to find that the Commission calls for the "basis of determining the amount" of items in the financial statements, particularly the balance sheet. This is a departure from tradition and custom, and it indicates recognition of a vital truth which too often has been overlooked. The items appearing on balance sheets have generally been spoken of as "values" expressed in dollars and cents. As a matter of fact, some are based on cost without regard to value, yet it would not have been astonishing had the Commission called for a "basis of valuation." There would have been ample precedent behind it.

Here in this country there has been a great deal of loose talk about balance sheet values. Accountants know that the term "values" is a misnomer, but the general public has not yet been sufficiently educated to grasp this fact. The SEC demonstrates its knowledge of its subject by using the far more accurate phraseology "method of determining the

It seems to be high time that the public were undeceived on this subject of values, especially of fixed assets in balance sheets; and no doubt the requirements of the SEC will do much to bring about a better understanding.

The great point to make clear is what the Commission describes as the basis of determination of amounts. With that before him the investor, if he be the reasonably intelligent person he is supposed to be, can form his own opinion as to the true meaning of asset items on the balance sheet and can discern, when the theory of value is removed, that fixed assets are shown at amounts which may be determined in any one of a dozen ways. So long as he knows the way of determination he is not liable to be deceived.

It will be a little difficult to accustom investors to the absence of the precious word "value." It is a kind of fetish which has been overworked by economists and schoolmen generally, who have sought by the use of a simple, common word to afford a method of interpreting financial statements.

We congratulate the Commission on its wisdom.

SEC Simplifies Rules Governing Requirements for Prospectuses to be Used by Issuers of New Securities Under Securities Act

Action toward making easier the flotation of new securities was taken on Feb. 3 by the Securities and Exchange Commission, in making public instructions for a new prospectus to be used in the sale of securities registered on Form A-2the new instructions simplifying the requirements for the prospectuses. The Commission points out that Form A-2 (referred to in our issue of Jan. 19, page 382), was recently

adopted by the Commission for the registration of new securities of seasoned corporations.

The announcement of the SEC issued Feb. 3 added:

Under the new requirements corporations can prepare prospectuses, under the Securities Act, which will be brief, readable, and readily informative to the investor.

In conformity with the powers granted by the Act, the Commission has required that the prospectus contain in full only information of first importance to investors. In this regard, special emphasis is placed on the financial statements of the issuer and on the details of the particular financing involved in the offering.

In order to reduce the size of a prospectus, the new rules will allow the

omission of much data, including all exhibits filed with the Commission in the registration statement. The existence of this information, however, will be brought to the attention of investors by a brief index in the prospectus to the additional information in the registration statement. Registration statements on file with the Commission are always available to investors and security analysts.

With one exception, the precise form of the prospectus is not prescribed. On the first page of the prospectus the registrant must place the amount of the "spread" received by the underwriters of the issue, and a statement to the effect that the securities are not "approved" by the Commission. The purpose of the latter statement is to warn prospective purchasers registration of a security is not to be regarded as a mark of approval by

With respect to the form of prospectuses, it is the opinion of the Commission that a needlessly bulky prospectus can be a hindrance rather than a help to the investor, and can thus defeat its own purpose. It is hoped that in the future all issuers will make a serious effort to prepare prospectuses which will be sufficiently brief, as well as informative, to meet the needs

In the instructions as to the prospectus, the Commission says in part:

The following rules shall govern prospectuses for securities registered on

Form A-2 for corporations:

1. The information set forth in the prospectus, except as to financial statements required to be furnished, may be expressed in condensed or summarized form. The information need not follow the numerical se-quence of the items of information in the registration statement.

Where the incorporation by reference in the registration statement proper of matter contained in exhibits is permitted, a similar incorporation by reference may be made in the prospectus.

3. There shall be placed on the first page of the prospectus, in conspicu-

ous print, the following three paragraphs, with the first and third paragraphs in capital letters:

"THESE SECURITIES HAVE NOT BEEN APPROVED BY THE SECURITIES AND EXCHANGE COMMISSION.

(insert name of issuer) has registered the securities by filing certain information with the Commission. The Commission has not passed on the merits of any securities registered with it. Commission. The Conties registered with it.

"IT IS A CRIMINAL OFFENSE TO REPRESENT THAT THE COMMISSION HAS APPROVED THESE SECURITIES OR HAS MADE ANY FINDING THAT THE STATEMENTS IN THIS PROSPECTUS OR IN THE REGISTRATION STATEMENT ARE CORRECT."

4. The answer to Item 24 of the Registration Statement shall be stated

on the first page of the prospectus.

5. The financial statements should, where possible, be set forth in com-

parative form and shall include the accountant's certificate.

6. There may be omitted from the prospectus matter contained in the Registration Statement in regard to the following:

Registration Statement in regard to the following:

(a) The Facing Sheet;
(b) The Calculation of the Registration Fee;
(c) The following items of the Registration Statement proper:

Item 4 (a); Columns D, E, F, G, H and I of Item 9A; Columns D, E, F and G of Item 10A; Columns D and E of Item 11A; Columns B and C of Item 12A; information set forth in answer to Item 12A; amiliar to that which may be omitted as to Items 9A, 10A, 11A and 12A; Item 14; Items 18 and 19 other than as to securities to be offered; Items 20, 23, 27 (a) and 27 (b); Item 30 other than as to directors and principal executive officers; Items 31, 34, 36, 37, 38, 41, 43 and 46; any item not set forth above, other than Items 7 and 21, as to which the answer is in the negative;
(d) The enumeration of contents of the Registration Statement;
(e) The Signatures and the Consents of Experts;
(f) All schedules to the respective financial statements other than:
(1) Schedule VII, which schedule, however, may be expressed in condensed or summarized form if containing numerous items;
(2) The information required by Columns B and C of Items 1, 2 and 5 of Schedules VIII, and that required by footnote (2) of Schedule VIII, which information shall be set forth by an apposite note to the respective Profit and Loss Statement; and
(3) The information required by Note (1) (c) of Schedule III and Note (2) of Schedule VIII and Note (3) The information required by Note (1) (e) of Schedule III and Note (1) (b) of Schedule V.
(g) All financial statements and schedules of any unconsolidated subsidiary the total assets of which, as shown by its latest balance sheet filed with the registration statement, amount to less than 15 per cent of the total assets of the registrant and its consolidated subsidiaries as shown by the latest consolidated balance sheet filed with the registration statement;
(h) All exhibits.

7. There shall be placed at the end of the prospectus in type as large as that used in the body thereof, the following statement:

"Further information concerning these securities and their issuer is to be found in the registration statement on file with the Securities and Exchange Commission, Washington, D. C. The registration statement may be inspected by anyone at the office of the Commission, without charge, and copies of all or any part of it may be obtained upon payment of the Commission's charge for copying.

"The additional information concerns the following subjects:" "The additional information concerns the following subjects:"

Following the foregoing statement in the prospectus, there shall be set forth: (1) a brief indication of the subject matter contained in answer to the numbered items of the registration statement proper omitted, provided, however, that as to the omissions which may be made as to Items 9A, 10A, 11A, 12A and 13A, it is permissible to make this single sattement: "The number of securities of the registrant held by its subsidiaries and other similar information," or one corresponding thereto and provided that as to the other items omitted, the indication shall not be of more than one line, if possible, per each numbered Item (not sub-item) as to which an omission, wholly or partially, may be made; (2) an enumeration of each financial statement omitted; and (3) a statement without enumeration to the effect that schedules, for example, schedules on Income from Dividends and Reserves for Depreciation, and exhibits such as the charter and indentures are on file with the Commission.

Filing of Patents Under Form A-1 Simplified by SECssuer Need Not File in Cases Involving More Than Ten United States Patents

Announcement was made on Jan. 18 by the Securities and Exchange Commission of an amendment to Form A-1, altering the requirements for furnishing copies of patents. In substance the amendment, which became effective Jan. 18, provides that if more than 10 United States patents are involved, the issuer is excused from filing copies of the patents, provided their United States Patent Office numbers are given. It also excuses the filing of copies of foreign patents which are essentially the same as United States patents described.

The text of the Commission's ruling follows:

Rule Amending the Requirements as to Exhibits in Form A-1—The requirements in regard to Exhibits contained in Form A-1 are amended to substitute

"Exhibit H. Copies of other material documents referred to in answer to Question 46 above."

the following:

"Exhibit H. Copies of other material documents referred to in answer to Question 46 above. If, however, more than 10 material patents, granted by the United States Patent Office, are referred to in answer to said question, a copy of any such material patent may be omitted if there is supplied in its place the United States Patent Office patent number thereof. If the answer to Question 46 refers to any foreign patent in which the invention described is essentially the same as the invention described in any United States patent referred to in answer to that question, a copy of any such foreign patent may be omitted if there is supplied in its place the patent number thereof, the name of the country under which such patent is registered, and, as provided above, either a copy of such United States patent or the patent office patent number of such United States patent."

The above amendment shall because effective Ion. 18, 1925.

The above amendment shall become effective Jan. 18 1935.

J. E. Jones Agrees to Temporary Injunction Restrain-ing Him from Dealing in Oil Royalties—Incident to Suit Brought by SEC.

J. Edward Jones, dealer in oil securities, yesterday (Feb. 8) agreed to consent to a temporary injunction against further dealings in oil royalties pending trial of a complaint filed against him by the Securities and Exchange Commission. The agreement was reached before Judge R. P. Patterson in Federal Court in New York City, and the matter was referred to Judge John C. Knox for a formal order. It is expected that trial may be held in about a month.

The SEC, in its bill of complaint, charged Mr. Jones with failure to register oil royalty securities under the Securities Act of 1933. Four other defendants were also named.

Increase Noted in Short Interest on New York Stock **Exchange During January**

The total short interest existing as of the opening of business on Jan. 31 1935, as compiled from information secured by the New York Stock Exchange from its members, was 764,854 shares, the Exchange announced Feb. 7. This compares with 714,234 shares as of Dec. 31.

Rules Approved for Futures Trading in Tobacco on York Produce Exchange—Committee Tobacco Named

Announcement was made Feb. 7 by Samuel Knighton, President of the New York Produce Exchange, that the Board of Managers has approved the rules for futures trading in tobacco on that Exchange, and that a Committee on Tobacco has been appointed consisting of James Lovatelli, Chairman; Axel Hansen, Vice-Chairman; James Eblen; John McD. Murray; John R. Collins Jr.; Howard E. Norris, and Wallace Brindley, all of whom are at present associated with futures trading in commodities on the Produce Exchange. Necessary sub-committees have also been appointed, Mr. Knighton said. The membership of the Exchange approved the rules on Feb. 5. Mr. Knighton's announcement of Feb. 7 stated:

The rules adopted are required to be posted on the Exchange for 10 days before they become effective, and efforts are being made to complete arrangements to begin trading shortly thereafter. The exact date for beginning trading will be made known in a later announcement.

In early January the Produce Exchange decided to suspend security trading about Feb. 28 and specialize as a market for commodities. Reference to this action was made in our issue of Jan. 5, page 41.

Decrease of \$55,304,994 During January Reported in Outstanding Brokers' Loans on New York Stock Exchange—Total Jan. 31, \$824,958,161—\$48,299,727 of Government Securities Pledged as Collateral

Following two consecutive monthly increases, outstanding brokers' loans on the New York Stock Exchange decreased during January. The Exchange announced Feb. 4 that the loans totaled \$824,958,161 on Jan. 31, against \$880,263,155 Dec. 31, a drop of \$55,304,994. The loans last month were also below those of a year ago-Jan. 31 1934-by \$22,-811,352. The figure for Dec. 31 1934 represented an increase of \$49,147,807 over the total for Nov. 30 of \$831,115,348, which in turn was \$4,081,932 above the Oct. 31 figures.

It is shown by the report for Jan. 31 that demand loans decreased \$40,404,125 during the month from \$616,300,286 Dec. 31 to \$575,896,161 Jan. 31. Time loans dropped \$14,900,869 from \$263,962,869 Dec. 31 to \$249,062,000 at the end of January. The report indicates that \$48,299,727

of Government securities were pledged as collateral for the borrowings during January, against \$50,523,673 in December. The report, as issued by the Exchange on Feb. 4, follows:

New York Stock Exchange member total net borrowings on collateral, contracted for an carried in New York, as of the close of business Jan. 31 1935, aggregated \$824,958.161.

The detailed tabulation follows.

Demand 1. Net borrowings on collateral from New York banks
or trust companies \$513,821,513 \$244,456,000
2. Net borrowings on collateral from private bankers,
brokers, foreign bank agencies or others in the City
of New York 62,074,648 4,606,000

\$575,896,161 \$249,062,000 Combined total of time and demand borrowings, \$824,958,161. Total face amount of "Government securities" pledged as collateral for the borrowings included in items (1) and (2). \$48,299,727.

The scope of the above compilation is exactly the same as in the loan report issued by the Exchange a month ago.

Below we give a two-year compilation of the figures:

1933—	Demand Loans	Time Loans	Total Loans
Jan. 31		\$104,055,300	\$359.341,058

Market Value of Stocks Listed on New York Stock Exchange Feb. 1, \$32,991,035,003, Compared with \$33,933,882,614 Jan. 1—Classification of Listed

As of Feb. 1 1935, there were 1,185 stock issues aggregating 1,304,698,420 shares listed on the New York Stock Exchange, with a total market value of \$32,991,035,003. This compares with 1,187 stock issues aggregating 1,305,-420,004 shares listed on the Exchange Jan. 1, with a total market value of \$33,933,882,614, and with 1,186 stock issues aggregating 1,304,936,095 shares with a total market value of \$33,888,023,435 Dec. 1. The Exchange, in making public the Feb. 1 figures on Feb. 4, said:

As of Feb. 1 1935, New York Stock Exchange member total net borrowings on collateral amounted to \$824,958,161. The ratio of these member total borrowings to the market value of all listed stocks on this date was therefore 2.50%. Member borrowings are not broken down to separate those only on listed share collateral from those on other collateral; thus these ratios usually will exceed the true relationship between borrowings on all listed shares and their market values.

As of Jan. 1 1935, New York Stock Exchange member total net borrowings on collateral amounted to \$880,263,155. The ratio of these member total borrowings to the market value of all listed stocks on that date was therefore 2.59%.

In the following table listed stocks are classified by leading industrial groups with the aggregate market value and average price for each:

	Feb. 1 193	35	January 1 1	935
	Market Value	Aver.	Market Value	Aver.

75% of Industrial Investments Listed on New York Stock Exchange—Richard Whitney Tells Radio Audience Market Is of Paramount Importance in Raising Funds for Nation's Economic Life

Richard Whitney, President of the New York Stock Exchange, in the second of his series of radio broadcasts on Feb. 6, said that the keystones of economic recovery are open and freely functioning security markets, and pointed out that of \$40,000,000,000 invested in industry, \$30,000,000,000 was represented by securities listed on the New York Stock Exchange. Mr. Whitney urged that industry be relieved of its fears and that capital markets be cleared of hindrances. He listed three elements necessary to recovery as follows:

By enabling great corporations to raise necessary sums it makes modern industry possible. Directly and indirectly this accounts for a substantial

portion of all the jobs and all the buying power in the country. Here the security market helps the producer and the worker.

Since the machinery of an organized security market makes it possible for business to solicit capital at a reasonable cost, it likewise enables the investor to find a use for his funds. By bringing together the man with the money and the corporation which can use the money, the market performs a service for both. Here the security market helps the investor.

By making new capital available these markets encourage industrial progress. They stimulate invention, research and experimentation. New

machines are created which multiply the energy of man, annihilate distance. reduce the inconveniences of life and create products and pleasures which our ancestors never knew. Here the security market promotes a higher standard of living and a more pleasurable life.

Emphasizing the importance of the Stock Exchange in the economic structure of the nation, Mr. Whitney stated that "three out of every four dollars . . . used in the construction of plant and the erection of machinery has been raised with the aid of the New York Stock Exchange."

In discussing the interdependence of the Stock Exchange and industry, Mr. Whitney said in part:

Here, for example, is a great telephone system convering the land with a network of wires and myriad switchboards. That single concern has more than 675,000 owners. Not one of those owners holds as much as one-half of one per cent. of the company's stock. This corporation has gone to its owners on ten distinct occasions for additional capital and each time the Stock Exchange was the instrument which brought together the company needing capital and the owners with capital to invest

Let it not be supposed that this miracle of modern finance and industry concerns only the investor and the manufacturer. Passing by for the moment the demonstrated fact that the investor comprehends every family in the land I submit that the stake in this alliance of finance and factory is far broader than that of the immediate parties.

In a normal year our manufacturing units employ 9 million workers to whom they pay 13 billion dollars in wages

To their owners, the stock and bond holders, these corporations pay 3 billion dollars in dividends and interest.

An interesting fact, this, the comparison of what is received by the owners of these industrial concerns, and by those they employ—over four times as much being paid to the workers as to invested capital.

The products which they turn out, products which are a part of the nation's real income, reach the breath-taking total of 30 billion dollars.

Bear in mind that the capital raised with the aid of organized security markets has contributed to the creation of 9 million jobs, that the 13 billion dollars earned by these workers is spent largely for food, clothing, shelter and entertainment.

Here we have a striking instance of the mutual dependence members of our economic family. The capital market creates an industrial job. The worker buys food with his wages, thus furnishing a market for the farmer. This same wage earner lives in a house and therefore creates a job for the man who must build his house, for the miner who produces his coal, for the motion picture industry which provides his entertainment.

Even as the great wells of capital, fed by a million tiny springs, when

opened by our organized security markets, create millions of jobs and billions of dollars in buying power, so do they also release a volume of goods which may be used to satisfy the consumer.

Markets Awaiting Supreme Court Decision on Gold-Clause Cases—Court's Announcement That Find-ings Would Not Be Made Known Last Monday— President Roosevelt Denies Plans for Proclamation in Event of Adverse Ruling

The Securities and Exchange Commission was reported this week to have decided that if the forthcoming gold-clause decision by the Supreme Court should create conditions necessitating suspension of security trading it would ask President Roosevelt for an order to authorize such a step. Meanwhile the Board of Governors of the New York Stock Exchange came to no decision regarding closing that market when the gold-clause ruling is announced, and it was said on Feb. 4 that each Governor would be empowered to control wide price swings in particular issues by holding up transactions. Exchange officials were reported to regard this device as preferable to suspension of trading.

Although there has been much speculation as to when the Supreme Court would announce its decision in the gold clause cases, there has been no definite indication as to when the ruling will actually be made public. The Court announced on Feb. 2 that it would not hand down a decision in the cases on Feb. 4. The Clerk of the Court issued the following statement:

The Chief Justice, in order to avoid an unnecessary crowding of the courtroom on Monday, directs the clerk to announce that the Court is not ready as yet to announce a decision in the gold clause cases and hence there will be no announcement on that day.

This action of the Court was without precedent, since the Court never makes any announcements prior to pending decisions.

Administration officials were reported this week to be confident that the gold-clause decision would sustain the Government, but at the same time were said to be prepared to act in case the rulings were adverse. Attorney General Cummings, who has discussed the matter with Secretary of the Treasury Morgenthau and other officials, said on Feb. 7: "We are ready for any emergency; we are always ready for an emergency."

Preparations of various markets for action when the Court's decision is made public were noted as follows in the New York "Times" of Feb. 5:

The Board of Governors of the New York Stock Exchange met in special session yesterday morning and agreed to maintain close surveillance of trading in stocks after the decision is announced. Their ruling empowers each Governor to curb wide price swings in particular issues by holding up transactions. This, it is believed, will be sufficient, if necessary, to prevent a runaway market.

The device, similar to the price controls employed in commodity markets limiting fluctuations to a certain number of points in any one session, was regarded by officials of the Exchange as preferable to suspension of trading.

officials of the Exchange as preferable to suspension of trading. Officials of the Chicago Board of Trade received power to suspend trading temporarily in both stocks and commodities on the day of the decision, if the ruling is handed down in business hours. The President of the Chicago Mercantile Exchange received like power. Similar action had been taken by the Chicago Stock Exchange early last week. The President of the Merchants' Exchange of St. Louis was authorized to suspend all trading temporarily if, in his opinion, "an emergency exists." Officials of the Winnipeg Grain Exchange decided, however, to take no action, barring unforeseen developments.

Averse to Closing Here

The New York Stock Exchange's Governing Committee decided not to close the Exchange before or during the reading of the decision at their special session which was held yesterday morning.

President Roosevelt denied on Feb. 6 rumors that he might issue a proclamation declaring "a National emergency" in case the Supreme Court ruled against the Government. Such reports were characterized as "100% fake."

New York Stock Exchange Considering 11-Point SEC Program of Reforms—Richard Whitney Announces Approval of Purpose of Suggestions—John W. Davis Retained to Prepare Opinion

Richard Whitney, President of the New York Stock Exchange, announced on Feb. 6 that the Exchange is engaged in a "sympathetic examination" of the 11-point program of administrative changes suggested by the Securities and Exchange Commission, and that it hopes to develop at an early date a program which will meet with the Commission's approval. The announcement said that the SEC recommendations are designed to afford the public a greater degree of protection and added that "with this purpose the administration of the Exchange is in hearty accord."

It was also announced on Feb. 6 that the Stock Exchange has retained John W. Davis, well-known constitutional lawyer, to prepare an opinion on the SEC program.

Mr. Whitney's statement of Feb. 6 is given below:

The administration of the New York Stock Exchange has had before it the Report of the Securities and Exchange Commission on the Government of Security Exchanges, submitted to Congress on Jan. 25 1935. This report contains recommendations made by the Securities and Exchange Commission, representing their considered opinion after careful study of a difficult problem. These recommendations are designed to afford the public a greater degree of protection. With this purpose the administration of the Exchange is in hearty accord. It has been engaged upon a sympathetic examination of this important document, and is hopeful of developing at an early date a program which will meet with the approval of the Commission.

We also quote in part from the New York "Times" of Feb. 7 regarding the retention of Mr. Davis as an attorney by the Stock Exchange:

In the opinion rendered by these attorneys will guide the Exchange's law committee in its recommendation to members either to submit to the mandates of the Commission or carry their opposition to the courts. It was said yesterday at the Exchange that the opinion probably would be in the hands of the law group by the end of this week. Until it is received, the Exchange will take no action on the matter.

the Exchange will take no action on the matter.

Officials of the Exchange contend that admission of non-members to its governing committee, as recommended by the Commission, would jeopardize its legal existence as an association of business men. Operation of the Exchange as a private club in the past has hitherto circumvented attempts of the State to regulate it.

President of New York Produce Exchange to Use Discretion in Closing During Gold-Clause Ruling

Samuel Knighton, President of the New York Produce Exchange, has been authorized to use his discretion in deciding whether to close the Exchange when the Supreme Court makes public its decision on the gold-clause cases. The Exchange announcement, dated Feb. 6, read as follows:

The Board of Managers of the New York Produce Exchange has authorized the president, Samuel Knighton, in his discretion, if and when the decision of the United States Supreme Court with respect to the Gold Clause is made public, to close the Exchange or any part thereof for such time as he, the President, may deem the circumstances warrant, and to re-open the exchange in his discretion upon giving notice of intention to do so.

Mutual Savings Banks Report Increased During 1934 in Assets, Deposits and Depositors—Position of Banks at Outset of 1935 Most Favorable Ever Held

Assets, deposits and depositors of mutual savings banks increased substantially in 1934, bringing the number of depositors to a new high level, with deposits and assets only moderately below their peak in 1932. Gains were well distributed over the 18 States in which such institutions operate, according to the National Association of Mutual Savings Banks, which, under date of Feb. 1, also reported:

Last Dec. 31 assets reached the total of \$11,055,498,096, an increase for the year of \$199,497,834. This figure involved an addition to surplus of \$25,756,405, the consolidated surplus of all the mutuals amounting to

1.192,628,224. Ratio of surplus to deposits is now 12.2%, representing that additional margin of safety for each dollar on deposit.

"Mutual institutions begin 1935 in the most favorable position they have ever held," said Philip A. Benson, President of the National organization. He added:

We are serving a larger number of the people than at any time in a century of operation and our percentage of surplus to deposits affords the greatest measure of protection we have ever offered to the public. Our combined deposits and assets are only slightly below the reoord in each case. We take particular satisfaction in the growing number of depositors, which shows the public will to save. Last year, as usual, mutual institutions regularly earned and paid their dividends. Results for 1934 demonstrated once more the strength of the mutual principle as applied to the conservation and investment of the people's savings.

From the Association's announcement of Feb. 1 we take the following:

The greatest gain of assets was made by the New York banks, amounting to \$109,715,244. Pennsylvania followed with \$17,293,550 and Connecticut with \$16,417,440.

New York led in gain of deposits, having a total of \$81,245,170. Massachusetts being second, \$24,492,395, and Pennsylvania third, \$16,453,961. The increase for the 18 States reached \$163,080,092, raising the total for the country to \$9,757,690,937.

the country to \$9,757,690,937.

New York likewise took the honors in growth of deposit accounts, which increased by 215,497. Massachusetts was second, 44,868, and Pennsylvania third, 39,048. The total of accounts drew near to 14,000,000, numbering 13,836,975.

In average of all accounts, Rhode Island came first, the figure being \$840.76; New York, \$796.84, and Indiana, \$706.07. For the 18 States the average was \$705.19, a decrease of \$10.13 per account for the year, indicating the large number of new accounts opened for small sums.

By reason of restricted investment opportunities and lower earnings, mutual institutions reduced their average dividend rate in 1934 from 3.31% to 3.06%. On Jan. 1 the leading averages were Delaware, 3.50%; Connecticut, 3.40%; New Hampshire, 3.26%.

Central Bank Bills Pending in Congress

In a Washington account, Feb. 6, to the New York "Herald Tribune" it was observed that three radical central bank bills are pending in Congress, one introduced in the House by Representative T. Alan Goldsborough, Democrat of Maryland; a second in the Senate by Senator Bronson Cutting, insurgent Republican of New Mexico, and a third in the Senate by Senator Elmer Thomas, Democrat of Oklahoma. All three go beyond what is contemplated by the Treasury bill, said the advices from which we quote, the "Herald Tribune" account adding:

Under both the Cutting and Thomas bills, the Treasury would be authorized to acquire actual ownership of the key banks of the Federal Reserve System. Senator Thomas would put the Treasury under mandate by Congress to buy all the stock in the 12 Federal Reserve banks, now owned by member banks. Senator Cutting would force the purchase of the member banks as well and eventually of all the banks in the country, non-member as well as member.

Since it is conceded that the pending Treasury bill would establish almost as complete control over the Reserve banks as it could derive by outright ownership, this probably will not be an important issue.

ownership, this probably will not be an important igne.

However, the Cutting and Thomas bills contemplate in differing degrees substitution or non-interest bearing bonds, or what amount to green-backs, for outstanding interest-bearing bonds.

The Goldsborough bill goes so far in this regard as to authorize the controlling board of his central bank to call in all interest-bearing bonds and circulate money in their place. The Goldsborough bill, incidentally, provides for a complete payoff of depositors in closed banks.

The Treasury bill, as interpreted by Administration authorities, including President Roosevelt, carries no provision for substituting non-interest bearing for outstanding interest-bearing bonds.

Interest Rate Cut Possible

Yet it is even contended in some liberal quarters that the politically controlled Reserve Board, through its powers to fix rediscount rates and force Reserve bankers to take Government bonds, could force the interest rate down to the vanishing point and thereby effect the purpose of the Goldsborough bill by indirection.

Revision of Banking and Currency System Urged by Committee of New York Chamber of Commerce in Reply to Questionnaire of Senator Fletcher— Committee Not in Favor of Government Owned System—Uniform Currency Issued by Federal Reserve System Backed by Gold and Commerce Paper Advocated—Would Unify 49 Banking Systems and Lodge Ownership of Reserve Banks with Public

The study in all its aspects of the entire banking and currency problem by a commission created by Act of Congress is urged by the Committee on Finance and Currency of the Chamber of Commerce of the State of New York. The Committees views are indicated in a report, presented to the Chamber on Feb. 7, which is in the nature of a reply to the questionnaire of Senator Fletcher, Chairman of the Senate Committee on Banking and Currency. This questionnaire was referred to in our issue of Nov. 24, page 3237. The report of the Chamber's Committee makes the statement that "we have at the present time neither a currency system nor a banking system." We quote as follows from the report:

The questionnaire submitted by the Chairman of the Senate Banking and Currency Committee calls for and is entitled to more than oridinary consideration by the Chamber and its Committee on Finance and Currency. It is desirable that before attempting to answer any of these questions,

we make certain general observations.

In the first place, the banking and currency system in this country has not been scientifically revised and adjusted for over 20 years. As a result, we have to-day a complexity of banking laws and amendments thereto and a duplication of authority and supervision confusing alike to the banker, the business man and the ordinary citizen.

Furthermore, we have at the present time neither a currency system nor banking system. By reason of the emergency legislation passed since March 1933, our former currency system has been discarded and in its place there has been substituted a currency dictatorship which, no matter how well suited to meet the requirements of an emergency, cannot in any se be described as a system adequate to meet the needs of modern economic life once the normal functions of business and government are

In the same way, it is neces

In the same way, it is necessary to point out that our present banking system is not a system but a hybrid hotch-potch of relies of various old systems, upon which has been superimposed an emergency structure.

The Federal Reserve System has been largely diverted from its original purpose as a source of short term credit and elastic currency based thereon—free from political domination—and the business of the country is increasingly dependent upon administrative subjects of the country is increasingly dependent upon administrative subjects and Taxonway approximation. ingly dependent upon administrative rulings and Treasury supervision—a situation conducive to hesitation and lack of confidence.

In view of these facts, the recital of which is not intended to imply any criticism of recent action, and in view of the vast complexity of the whole banking and currency problem, the Chamber feels that a commission should be created by Act of Congress to study the entire problem in all its aspects, and to prepare the ground for the legislation which will eventually be needed.

The Chamber is convinced that only in this way will it be possible to carry on and complete the reform which has been begun under the present Administration.

As will appear from the answers to the questionnaire which follow, there are some points upon which the Chamber has taken a definite position but there are also many aspects of the banking and currency problem upon which the Chamber feels that it is impossible to form a considered opinion without full knowledge of the facts and without the benefit of competent analysis of these facts.

In such cases the opinions expressed are therefore statements of general principle which the Chamber feels should be tested in the light of a thorough examination of the facts and a thorough consideration of all competent opinion by the proposed commission.

Replying specifically to the questions of Senator Fletcher the report urges "one uniform currency," this currency to be issued by the Federal Reserve System "backed by gold and commercial paper as originally provided in the Federal Reserve Act." The belief that it is desirable that the ownership of the Federal Reserve banks be transferred from the commercial banks to the general public is expressed in the report. It is also stated in the report that "the Chamber is of the opinion that we should not seek to establish a Government-owned and operated banking system." It is the view of the Committee that the private banking system "is in need of a thorough-going reform," a unification of the 49 different banking systems now in operation being advocated, "by requiring all commercial banks to become members of the Federal Reserve System." The Committee making the report is under the Chairmanship of Edwin P. Maynard, Chairman of the Board of the Brooklyn Trust Co. The reply of the Chamber's Committee to Senator Fletcher's questionnaire follows:

The questionnaire falls into three parts, dealing with

I. Money, II. Central Banking, and III. General Banking.

I. Money

The following questions are contained in the questionnaire.

1. Is the power over the issuance of currency to be vested a. in a non-political authority on which both Government and private is iness are represented (such as the Federal Reserve System was intended by).

a. in a non-political authority on which both Government and private business are represented (such as the Federal Reserve System was intended to be), or
b. in the Secretary of the Treasury (as it now is), or
c. in a non-political privately owned but Government-chartered Central Bank (Bank of England), or
d. in a Government-owned and operated Central Bank?
2. Is the currency to be redeemable
a. in gold, or
b. in silver, or
c. in both, or a combination of both?
3. If the currency is to be redeemable, is it to be redeemable
a. in coin, or
b. in bars of bullion, or
c. in bullion for export only?
4. Is a fixed ratio to gold to be re-established, and, if so, under what conditions?
5. If not, under what conditions and by whom is the ratio to gold to be

conditions?

5. If not, under what conditions and by whom is the ratio to gold to be changed from time to time?

6. Should one uniform currency be established for the country in place of the various kinds now circulating, and, if so, what should it be?

7. If the currency is to be irredeemable "managed" currency, upon what terms is it to be issued and how managed?

In reply to the above questions dealing with the currency, the Chamber of Commerce of the State of New York desires to draw attention to the resolutions which it passed on Nov. 3 1933 in regard to the gold standard and recovery, on June 7 1934 in regard to silver legislation, and on Oct. 4 1934 in regard to the Federal Reserve System. Copies of these resolutions

are appended to this report, and are hereby made a part thereof.

It follows from these resolutions that the Chamber believes:

1. That the power over the issuance of currency should be vested in a non-political authority, such as the Federal Reserve System was intended to be, on which both Government and business are represented, and, per contra, does not believe it should be vested in the Executive as it now is, nor in a Government-owned and operated central bank.

2. That the currency should be redeemable in gold and not in silver, nor in a combination of gold and silver.

3. That the currency should be redeemable at a fixed ratio to gold, and that this ratio should not be subject to change from time to time.

Certain other questions require careful study and analysis on the basis of material not available to the Chamber of Commerce. Such questions are:

. Whether the currency should be redeemable in gold coin or in bullion, whether its redeemability should be in any way restricted.

At what fixed ratio to gold the currency should be made redeemable.
Whether one uniform currency should be substituted for the various ds now in circulation.

The Chamber is in principle in favor of a free bullion standard rather than redemption in coin, and in favor of the ultimate substitution of one currency

for the various currencies circulating; however, it is not in a position to form a considered judgment upon these matters, and urges that the proposed Congressional commission be asked to determine:

1. The exact form of gold standard to be adopted as best suitable to present-day conditions.

2. The proper ratio to gold to be established; and

3. What would constitute the best uniform currency, and upon what terms and conditions it should be issued.

In regard to No. 2 above, the Chamber wishes to point out that in its judgment a return to a fixed ratio to gold must be predicated upon similar action by Great Britain and other former gold standard countries now off gold, and that the parities of the various currencies must bear the proper relation to each other in order to insure the future workings of an inter-

In regard to No. 3 above, the Chamber wishes to record its opinion that there should be one uniform currency, and that this currency should be issued by the Federal Reserve System; that the Federal Reserve currency should be backed by gold and commercial paper as originally provided in the Federal Reserve Act; that the gold backing the currency should be held and controlled by the Federal Reserve System; and that Government bonds should not be used as a backing for currency except in emergency, and then only if the Government is carrying on a sound fiscal policy which provides for the regular amortization of its funded debt out of current revenue.

II. Rediscount Functions

The following questions are contained in the questionnaire:

1. Is the rediscount function of the Federal Reserve System to remain as it is, or to be changed? If changed, how?

2. Is the ownership of the Federal Reserve banks to remain where it is, or to be transferred? If transferred, to whom?

3. Is the composition of the Federal Reserve Board to remain as it is or to be changed? If changed, how?

4. Are any other changes to be made in the Federal Reserve System, such as, for instance, in its open-market operation? If so, what changes?

In regard to these questions, the Chamber again calls attention to its resolution of Oct. 4 1934, appended hereto, from which it follows that the Chamber believes in:

1. a continuation of the Federal Reserve System;
2. a freeing of the Federal Reserve System from the present political domination; and
3. such modification of the Federal Reserve System as careful study by competent authorities may show to be desirable.

The Chamber does not consider itself competent to express opinions or make suggestions in regard to the technical details of rediscount functions or open-market operations. In general it desires to record its opinion that the Federal Reserve System has been diverted from its original purpos

supplying short term credit and an elastic currecny based thereon, and that it should be brought back to this purpose as quickly as possible. Here again, the Chamber wishes to stress the desirability of careful

study and analysis by a commission appointed for this purpose.

Subject to such study and analysis, the Chamber would reply to questions

Nos. 2 and 3 above as follows. As to question No. 2, the Chamber believes that it is desirable that the ownership of the Federal Reserve banks be transferred from the commercial banks to the general public, with a limitation on the amount of stock that can be owned by any one holder, with a provision against foreign holdings of stock, and with a provision protecting the system against proxy voting.

As to question No. 3, the Chamber believes that it would be wise to constitute the Federal Reserve Board so that it would consist of a Governor one or more Vice-Governors, and a Secretary General, appointed for long terms at high salaries, plus 4 of the 12 Governors of the 12 banks serving in six months terms of rotation.

III. General Banking

The following questions are contained in the questionnaire.

The following questions are contained in the questionnaire.

1. Is there to be a Government-owned and operated banking system? If so, what system?

2. If not, what changes are to be made in the private banking system? For example:

A. Is there to be a unification of the 49 different banking systems that we now have? If so, is this to be accomplished

(1) by actually merging the systems into one system, or

(2) by compulsory membership of State banks in the Federal Reserve System, or

(3) by making the laws of all the States conform to a uniform pattern?

(4) Requiring all commercial banks to take out Federal charters.

B. Is there to be branch banking? If so, is it to be

(1) Nation-wide,

(2) State-wide, or

(3) Regional?

C. What are to be the capital requirements of a bank in relation to its liabilities?

D. Are commercial banks to be allowed to take savings accounts? If E. Are commercial banks to be allowed to take savings accounts?

E. Are commercial banks to be allowed to do a trust business? If so, on what basis? Are commercial banks to be allowed to underwrite new securities which

F. Are commercial banks to be allowed to underwrite new securities which they are permitted by law to own?

G. Are savings banks to be compelled to mutualize?

H. Must savings banks belong to the Federal Reserve System?

If not, may they belong to it?

I. Is there to be a plan of deposit insurance? If so, what plan?

What banks are compelled to belong to it?

J. Can anyone become a bank officer? If not, what qualifications are to be demanded?

The Chamber is of the opinion that we should not seek to establish a Government-owned and operated banking system.

The Chamber is further of the opinion that the private banking system is in need of a thoroughgoing reform, and that, again, such reform requires the most careful study and analysis of all the available data and opinions. Subject to such study, the Chamber expresses the following convictions in

principle: 1. That there should be a unification of the 49 different banking systems now in operation by requiring all commercial banks to become members of the Federal Reserve System; that duplication of examinations and control should be eliminated in so far as possible; that the authority of the 12 Federal Reserve Banks over the banks in their respective regions be strengthened and their responsibility for the soundness of these banks be increased; and that it be recognized that a certain amount of administrative decentralization is necessary owing to the size and economic diversification

decentralization is necessary owing to the size and economic diversitations of the country.

2. That branch banking should gradually be developed in this country in order that the whole country may be served by strong banks, or branches of strong banks, particularly in those communities which are not large enough to support strong banks of their own. The Chamber is of the enough to support strong banks of their own. The Chamber is of various opinion that branch banking should not be allowed to become nation-wide; that State boundaries have no particular economic significance; that regional branch banking within suitable trade areas should gradually be developed, with the ultimate objective of having these trade areas correspond to the Federal Reserve regions; and that the responsibility for the authorization of branches should be placed upon the Federal Reserve System

system.

3. That there should be some statutory limit to the ratio of aggregate liabilities to capital resources in a commercial bank—this ratio to be established after careful study by the proposed commission, and not necessarily to be uniform for the entire country.

4. That, ideally speaking, commercial deposits and savings deposits should be separated, in order that commercial deposits may be loaned out only in a manner consistent with prompt availability and safety for the de-

positor, whereas savings deposits may seek employment through the investment market in supplying the capital needs of business; that it requires careful study and analysis to determine whether, as a practical matter, such separation can be accomplished and, if so, whether by prohibiting commercial banks from taking savings deposits, or by segregation of commercial deposits and savings deposits within the same institution, or by a combination of these two methods; and that it is particularly important that a method of gradual approach to such separation be developed so as not to create any undue disturbance in the economic life of the country.

5. That commercial banks should be allowed to do a trust business, provided that this function is properly safeguarded.

6. That commercial banks should not be allowed to distribute securities at wholesale or retail, but should be allowed to underwrite new securities of such character and in such amount as they would be permitted under the law to, wm.

at wholesale or retail, but should be allowed to underwind such character and in such amount as they would be permitted under the law to own.

7. That savings banks should gradually be mutualized, should be allowed to have branches within certain defined areas and under certain conditions to be established by careful study, and should come under some form of Federal supervision.

8. That if the general banking system is reorganized and reconstructed upon sound lines as above indicated, and that if this reorganization is brought about gradually over a period of years, with steadfast adherence to a clearly determined course and toward a clearly defined objective, it should not be necessary, when that objective is ultimately reached, to have any form of deposit guarantee; that until the reorganization and reform is complete, some form of deposit insurance should be maintained.

9. That it should not be possible for everyone, irrespective of qualification or experience, to become a bank officer; that, on the other hand, character and integrity are more important than actual knowledge, and that it is difficult to devise any standards or tests of character and integrity; that this is a problem which must be solved by the bankers themselves and not by the Government, although it may be possible to endow accredited bankers' associations with some measure of authority over their members, such as that enjoyed by the Bar Associatio is in the legal profession; and that it is highly desirable that means be provided in educational institutions for the proper training of bank officers in order to give them a background of knowledge of economics which many of them lack at the present time.

The above represents the closest approach to a categorical answer to the

The above represents the closest approach to a categorical answer to the uestionnaire which the Chamber feels itself competent to give within the limited time at its disposal.

The Committee on Finance and Currency is studying the matter further and is preparing a reasoned brief setting forth the considerations which had led it to the conclusions above stated. The Chamber hopes likewise to be able not only to produce support for the conclusions and recommendations herein contained, but also to amplify somewhat its statements in regard to some of the questions submitted.

In view of the fact that many of these questions are now, or may shortly become the subject of discussion in Congress, it was felt best to submit the above in the nature of a preliminary report rather than delay the ver requested by Senator Fletcher until a more comprehensive document could be prepared.

Respectfully submitted, EDWIN P. MAYNARD, Chairman WALTER H. BENNETT ROBERT C. HILL JOHN W. PRENTISS JOHN S. SMALL JAMES P. WARBURG

Of the Committee on Finance and Currency

New York, Jan. 28 1935.

Incorporation of National Monetary Conference senator Owen Announces Permanent Body

The National Monetary Conference, which recently assembled in Washington more than a dozen monetary reform organizations, has been incorporated as a permanent body, former Senator Robert L. Owen, co-author of the Federal Reserve Act, announced on Jan. 27, according to advices from Washington on that date to the Philadelphia "Record," which quoted Senator Owen as saying:

The conference calls for purchase by the Government of the 12 Federal Reserve banks, restoration of the money needed to do business, restoration of property values, and a dollar yardstick no longer stretchable to four, five or six feet long for the destruction of debtors and the unjust benefit of

The account in the "Record" continued:

Favors Federal Control

As President of the conference, called together by Senator Thomas (Dem., Okla.), Mr. Owen announced that the charter specifies.

"It is a non-profit, non-partisan organization, to promote legislation by the Congress of the United States for the purpose of having the Government of the United States control the issue of monetary credit and currency, in order to give them uniform debt-paying, purchasing power, regulating the value of money as authorized and directed by the Constitution of the United States (Article 1, Section 8, Clause 5) which provides that 'Congress shall have power to coin money, regulate the value thereof, and of foreign coin

the United States (Article 1, Section 8, Clause 5) which provides that 'Congress shall have power to coin money, regulate the value thereof, and of foreign coin . "To favor the establishment of an agency for such purpose, particularly, by taking over the ownership and (or) control of the 12 Federal Reserve banks operating the system as one central bank under a legislative mandate and under a reconstituted Federal Reserve Board owing its allegiance exclusively to the United States. "And for other allied or collateral purposes, including investigation and research for the proper basing of legislation to effect such purposes, and publicity of the facts as determined."

13 Organizations Included

The organizations affiliated with the conference include the Sound Money League, of which Senator Owen also is President; the National Union for Social Justice, headed by Rev. Charles E. Coughlin; the National Depositors Committee, whose Chairman is Charles P. Bloome; the Western Governors' Group, the Farmers' Educational and Co-operative Union of America, the World Monetary Reform League, the American Monetary Reform Association. National Social Credit Association, Organization for the Abolition of Poverty, Western Silver States Conference, Public Owner-ship League of America, American Society of Martians and National Veterans' Organizations.

"The resolutions under which this charter has been taken out," Senator Owen said, "set up for the first time the principle of stabilization of the money of the United States, in a way to establish the purchasing power of the dollar and all money throughout the world, on an equitable basis.

"It should stabilize the money of every nation, because, when we fix and give stability to our monetary unit, the dollar, we fix the purchasing power of an ounce of gold.

"Therefore, without any international agreement, it is possible to stabilize the purchasing power of gold throughout the world, and every nation which chooses to adhere to that measure of value and to manage its own domestic currency, can have stability in the purchasing power of its money.

An item with reference to the National Monetary Conference held in Washington Jan. 15, appeared in our issue of Jan. 19, page 416.

Effect of Townsend Plan Described by National City Bank of New York as "Uncontrolled Inflation"— Criticism of 30-Hour Week, Six-Hour Day for Railway Workers and Veterans Bonus Proposal

Discussing the Townsend plan and the bonus, the National City Bank of New York, in its February monthly letter,

The Townsend Plan and the Bonus

The proposals and plans purporting to lead to increases in purchasoing power through Government measures are subject to criticism. . . . The Townsend plan to pay a pension of \$200 a month to each person over 60 years of age, provided the pensioned did not work at any gainful pursuit and would spend the money within a month, is such a proposal. This measure would require about \$24,000,000,000 a year, which it is proposed to raise by a tax on all business transactions. Of course, the accumulated taxes, from the first sale of the raw material until the finished article is sold to the consumer, would all fall on the last transaction, which means that the whole amount would fall on that part of the national income spent in trade or the markets. The total national income in 1933, according to the Department of Commerce, was only \$46,800,000,000. The Secretary of Labor, Miss Perkins, disposes of the scheme when she points out that it would give 9% of the population more than half the income of the country.

The practical effects of such a plan would be to set going an uncontrollable inflation. The annual tax burden could never be borne except by such an inflationary rise of prices as would raise the national income, in paper money, to fantastic heights. Undoubtedly Germany in the year 1922 could have paid a hundred billion reichsmarks in pensions without turning a hair, but the endeavor of any country to pay it to-day would duplicate the German calamity.

The proposal to pay the veterans' bonus without waiting for the due date, raising the present value of the certificates by \$1,400,000,000, is open to the same criticisms as to principle, but is modest by comparison. It would represent a diversion of future purchasing power to the present, and help trade temporarily, but would be a factor keeping alive the fiscal and monetary uncertainties which are a burden on the recuperative powers of the economic system.

From the bank's February letter we also quote:

The Thirty-Hour Week

Within the past month Congress has been asked again to enact into law the 30-hour week for all labor in the manufacturing industries engaged in inter-State commerce, with increases in the hourly wage rate to maintain the weekly pay totals. This proposal is out of harmony with the recovery program. Assuming that the standard factory week now averages 40 hours, the 30-hour week would raise wage rates (already at or above the 1929 level) by one-third, and indirect costs by an amount difficult to estimate. The latter would include the higher labor charges added in the prices of materials purchased, and the loss of efficiency which this arbitrary limitation of working hours would undoubtedly cause, at least for some time. The adaptation of work schedules to such a rigid requirement would vary in the different industries, but would be contusing, expensive would vary in the different industries, but would be confusing, expensive and time-consuming in all. Also the additional labor hired would naturally be less efficient than the selected workers already employed.

This gives one of the answers to the argument that the proposal promote recovery. It would involve a simultaneous increase in labor costs and decrease in productive efficiency. It would necessarily cause a rise in prices, and when this rise had gone around the circle the real income of labor, as measured by its purchasing power over the commodities it produces, would be no greater than before. . . .

Rail Labor Asks Six-Hour Day

Along with the industrial 30-hour week, the Railway Labor Executives Association has declared that it will continue its efforts to have Congress association has declared that it will continue its efforts to have Congress enact the six-hour day and five-day week for railway workers at this session. To be sure, it seems unlikely that the bill will be passed, since the Federal Co-ordinator of Transportation, Mr. Eastman, has delivered a telling blow against it; but the proposal is disturbing. Mr. Eastman states that the six-hour day, unless it were established at the expense of labor, would add at least \$400,000,000 to railroad expenses. The railroads as a whole have been operating for three years at a deficit after paying all charges, and they are pledged to restore wage rates on April 1 1935 to the full pre-degression level, which will make them 157% higher than in 1912. full pre-depression level, which will make them 157% higher than in 1913. The present proposal would increase them at one stroke 33 1/3% above that level.

This proposal is put forward with the claim that it "would extend a ray of hope to approximately 1,000,000 railway employees who comprise one of the largest units of the national army of unemployed." But it may be asked what the hope would be worth if rates were increased to cover the \$400,000,000 of cost, as would be necessary? Freight rates, even though unremunerative, are 37% above the pre-war average, and have been reduced only about 8% since 1929, while many of the commodities moving over the roads are still cheaper than in 1913, and on the average are nearly one-quarter lower than in 1929.

This is an instance of a maladjustment in economic relations that is burdening business, diminishing traffic, and blocking recovery. Freight charges enter into all prices, and in many products several times. If the rates should be raised in the effort to obtain another \$400,000,000 for labor manifestly there would be further disruption of trade, and further loss of traffic to the roads. How much employment could the railroads continue to give under those conditions? Also, where would the \$400,000,000 come

Stock of Money in the Country

The Treasury Department at Washington has issued the customary monthly statement showing the stock of money in the country and the amount in circulation after deducting the moneys held in the United States Treasury and by Federal Reserve banks and agents. The figures this time are for Dec. 31 1934 and show that the money in circulation at that date (including, of course, what is held in bank vaults of member banks of the Federal Reserve System) was \$5,535,671,557, as against \$5,548,533,937 on Nov. 30 1934 and \$5,805,604,277 on Dec. 31 1933, and comparing with \$5,698,214,612 on Oct. 31 1920. Just before the outbreak of the World War, that is, on June 30 1914, the total was only \$3,459,434,174. The following is the full statement:

* Revised figures.

a Does not include gold other than that held by the Treasury.

b These amounts are not included in the total since the gold or silver held as curity against gold and silver certificates and Treasury notes of 1890 is included ader gold, standard silver dollars, and silver bullion, respectively.

c \$211,619,975 secured by silver bullion held in the Treasury

d This total includes \$19,061,155 deposited for the redemption of Federal Reserve notes (\$1,699,205 in process of redemption).

notes (\$1,699,205 in process of redemption).

e Includes \$1,800,000,000 Exchange Stabilization Fund.
f Includes \$31,846,977 lawful money deposited for the redemption of National bank notes (\$21,761,564 in process of redemption, including notes chargeable to the retirement fund), \$1,677,500 lawful money deposited for the redemption of Federal Reserve bank notes (\$2,318,088 in process of redemption, including notes chargeable to the retirement fund), \$1,350 lawful money deposited for the retirement of additional circulation (Act May 30 1908), and \$60,748,982 lawful money deposited as a reserve for Postal Savings deposits.
g The amount of gold and silver certificates and Treasury notes of 1890 should be deducted from this amount before combining with total money held in the Treasury to arrive at the total amount of money in the United States.
h Includes money held by the Cuban agency of the Federal Reserve Bank of Atlanta.

money in circulation includes any paper currency held outside the con-

I The money in circulation includes any paper currency held outside the continental limits of the United States.

Note—Gold certificates are secured dollar for dollar by gold held in the Treasury for their redemption for uses authorized by law; silver certificates are secured dollar for dollar by standard silver dollars held in the Treasury for their redemption (or by silver bullion); United States notes and Treasury notes of 1890 are secured by a gold reserve of \$155,039,431 held in the Treasury. Treasury notes of 1890 are also secured dollar for dollar by standard silver dollars held in the Treasury; these notes are being canceled and retired on receipt. Federal Reserve notes are obligations of the United States and a first lien on all the assets of the issuing Federal Reserve bank. Federal Reserve notes are secured by the deposit with Federal Reserve agents of a like amount of gold certificates or of gold certificates and such discounted or purchased paper as is eligible under the terms of the Federal Reserve Act, or, until March 3 1935, of direct obligations of the United States if so authorized by a majority vote of the Federal Reserve Board. Federal Reserve banks must maintain a reserve in gold certificates of at least 40%, including the redemption fund which must be deposited with the United States Treasurer, against Federal Reserve notes in actual circulation. Federal Reserve bank notes are secured by direct obligations of the United States or commercial paper, except where lawful money has been deposited with the Treasurer of the United States for their retirement. National bank notes are secured by United States bonds except where lawful money has been deposited with the Treasurer of the United States for their retirement. A 5% fund is maintained in lawful money with the Treasurer of the United States for the retirement. A 5% fund is maintained in lawful money with the Treasurer of the United States for the retirement.

New Offering of \$75,000,000 or Thereabouts of 182-Day Treasury Bills—To Be Dated Feb. 13 1935—Tenders Received \$196,853,000—\$75,112,000 Accepted—Average Rate 0.11%

Up to 2 p. m., Eastern Standard Time, yesterday (Feb. 8), tenders were received at the Federal Reserve banks and the branches thereof to a new offering of \$75,-000,000, or thereabouts, of 182-day Treasury bills. The bills, which were sold on a discount basis to the highest bidders, are dated Feb. 13 1935 and will mature on Aug. 14 1935. On the maturity date the face amount will be payable without interest. An issue of Treasury bills in amount of \$75,320,000 will mature on Feb. 13, and the tenders to the new offering are to be used to retire the same. Tenders totaling \$196,853,000 were received to the offering, and bids of \$75,112,000 were accepted. The accepted bids ranged in price from 99.965, equivalent to a rate of about 0.009% per annum, to 99.941, equivalent to a rate of about 0.117% per annum on a bank discount basis. Only part of the amount bid at the latter price was accepted. The average price of the Treasury bills to be issued is 99.944, and the average rate is about 0.11% per annum on a bank discount basis. In announcing the new offering, on Feb. 5, Henry Morgenthau Jr., Secretary of the Treasury, said:

They (the bills) will be issued in bearer form only, and in amounts or denominations of \$1,000, \$10,000, \$100,000, \$500,000 and \$1,000,000 (maturity value).

No tender for an amount less than \$1,000 will be considered. Each tender must be in multiples of \$1,000. The price offered must be expressed on the basis of 100, with not more than three decimal places, e.g., 99.125. Fractions must not be used.

Tenders will be accepted without cash deposit from incorporated banks and trust companies and from responsible and recognized dealers in investment securities. Tenders from others must be accompanied by of 10% of the face amount of Treasury bills applied for, unless the tenders are accompanied by an express guaranty of payment by an incorporated bank or trust company.

Immediately after the closing hour for receipt of tenders on Feb. 8 1935, all tenders received at the Federal Reserve banks or branches thereof up to the closing hour will be opened and public announcement of the accep able prices will follow as soon as possible thereafter, probably on the following morning. The Secretary of the Treasury expressly reserves the right to reject any or all tenders or parts of tenders, and to allot less than the amount applied for, and his action in any such respect shall be final. Those submitting tenders will be advised of the acceptance or rejection thereof. Payment at the price offered for Treasury bills allotted the Treasury bills addited by the price of the company bills and total the Treasure beat the price of the company bills and total the Treasure beat the price of the company bills and total the Treasure beat the price of the company bills and total the Treasure beat the price of the company bills and the price of the pri must be made at the Federal Reserve banks in cash or other immediately available funds on Feb. 13 1935.

The Treasury bills will be exempt, as to principal and interest, and any gain from the sale or other disposition thereof will also be exempt from all taxation, except estate and inheritance taxes. No loss from the sale or other disposition of the Treasury bills shall be allowed as a deduction, or otherwise recognized, for the purposes of any tax now or hereafter imposed by the United States or any of its possessions.

Tenders Totaling \$262,985,000 Received to Offering of \$75,000,000 or Thereabouts of 182-Day Treasury Bills Dated Feb. 6 1935—\$75,185,000 Accepted at Average Rate of 0.12%

Announcement was made on Feb. 4 by Henry Morgenthau Jr., Secretary of the Treasury, that tenders of \$262,985,000 were received at the Federal Reserve banks and the branches thereof up to 2 p. m., Eastern Standard Time, to the offering of \$75,000,000, or thereabouts, of 182-day Treasury bills, dated Feb. 6 1935 and maturing Aug. 7 1935. Secretary Morgenthau said that bids of \$75,185,000 were accepted. Reference to the offering was made in our issue of Feb. 2, page 721. The Secretary's announcement of Feb. 4 said:

The accepted bids ranged in price from 99.950, equivalent to a rate of about 0.099% per annum, to 99.937, equivalent to a rate of about 0.125% per annum, on a bank discount basis. Only part of the amount bid for at the latter price was accepted. The average price of Treasury bills to be issued is 99.939, and the average rate is about 0.120% per annum on a

Other offerings of Treasury bills this year have sold at average rates of about 0.14% (bills dated Jan. 30); 0.15% (bills dated Jan. 23 and Jan. 16); 0.12% (bills dated Jan 9), and 0.10% (bills dated Jan. 2).

Offering of \$12,500,000 of $1\frac{1}{2}\%$ Federal Intermediate Credit Bank Debentures—Books Closed Following Over-subscription

A new issue of 11/2% debentures of the Federal Intermediate Credit banks in amount of \$12,500,000 was offered this week. The books were closed one and one-half hours after their opening on Feb. 7, and announcement by Charles R. Dunn, fiscal agent for the System, indicated that the issue had been heavily over-subscribed. The new debentures are dated Feb. 15 1935, and are due in four and six months. The accepted subscriptions will be used to refund maturing debentures.

Seven previous issues of debentures of the Credit banks have borne the $1\frac{1}{2}\frac{9}{6}$ rate. The last of these, amounting to \$36,000,000, dated Jan. 15 1935, was referred to in our issue of Jan. 12, page 240.

Treasury Tax Refunds During 1934 Fiscal Year Totaled \$48,664,202—Amount About \$3,000,000 Below Preceding 12 Months—New York Life Insurance Co. Receives Largest Disbursement

Treasury tax refunds during the fiscal year 1934 amounted to \$48,664,202 as compared with \$51,484,846 in the preceding 12 months, according to a tabulation submitted by the Bureau of Internal Revenue to Congress on Feb. 3. Refunds of illegally collected taxes during the year ended June 30 1933 were described in our issue of Jan. 27 1934 (page 606). The 1934 fiscal year refunds were less than those of the previous fiscal period despite the fact that income tax collections, from which most refunds are made, were about 10% greater in 1934 than in 1933, while many new taxes were collected during the later period. refunds included several large amounts to insurance companies and railroads, with the largest single disbursement to the New York Life Insurance Co., which received \$4,227,030. Second place on the list was occupied by the Pennsylvania RR., which got \$3,191,938.

Associated Press Washington advices of Feb. 3 contained the following additional information regarding the tax

Railroads drew a big share, \$3,191,938 going to the Pennsylvania; \$1,550,571 to the Delaware Lackawanna & Western; \$727,578 to the Norfolk & Western; \$829,010 to the Chicago & North Western.

The largest refund in New Jersey, \$699,801.37, went to the Wright-Martin

Aircraft Corp.

Sizable corporation income tax refunds in New York included: The Equitable Trust Co., Chase National Bank, successor, \$478,942; the American Cyanamid Co., \$133,147; Interborough Rapid Transit Co., \$272,400; Erie RR., \$84,820, and the Mutual Life Insurance Co., \$1,205,382.

R. H. Macy & Co. overpaid the Government \$545 for its 1934 income,

and this was refunded. The estate of George Ehret, who founded the brewery company bearing

his name, received two refunds for excess income tax paid, one of \$246,408 and the other of \$92,262. To the David Belasco estate the Government returned \$12,178 for

excessive estate tax paid, and to the trust fund set up by the late William Waldorf Astor for John Jacob Astor, \$57,022 was refunded.

Other prominent individuals who received refunds on their income tax

in 1934 were:

Alfred P. Sloan Jr., \$26,500; David Warfield, the actor, \$3,232; Mrs. Grace Vanderbilt, \$2,073; Frederick H. Ecker, President of the Metropolitan Life Insurance Co., \$876; Frank A. Vanderlip, \$516; Walter P. Chrysler, \$15,595; Elihu Root Jr., \$1,061; Mrs. Lucy Cotton Thomas, \$4,736; Albert C. Bostwick, turfman and owner of Mate, \$1,085; R. Fulton Cutting, \$10,781; William Kingsland Macy, \$666.

The report also showed that the Treasury each year is admitting fewer and fewer mistakes in original calculations. Last year's refunds compared

with a \$51,484,000 total the year before.

That decrease was registered despite the first appearance on the list of the New Deal's processing taxes on wheat, cotton and the like.

New Mexico won, hands down, the race for honors of having the fewest refunds in 1934. Where New York's list included literally thousands of names, New Mexico's included one—and that was only \$2,170, to the estate of Noa Ilfield.

North Dakota, Nevada and Idaho, with two each, tied for second low. Individual names which often hit the headlines were sandwiched in between those of lesser lights, all of them listed alphabetically and by States in compliance with the law requiring an annual report to Congress of all tax refunds over \$500.

\$580,496 of Hoarded Gold Received During Week of Jan. 30—\$41,326 Coin and \$539,170 Certificates

The Federal Reserve banks and the Treasurer's office received \$580,469.39 of gold coin and gold certificates during the week of Jan. 30, it is shown in figures issued by the Treasury Department on Feb. 4. Total receipts since Dec. 28 1933, the date of the issuance of the order requiring all gold to be returned to the Treasury, and up to Jan. 30, amounted to \$115,466,081.88. Of the amount received during the week of Jan. 30, the figures show, \$41,326.39 was gold coin and \$539,170 gold certificates. The total receipts are as follows:

Received by Federal Reserve Banks— Week ended Jan. 30 1935 Received previously	Gold Coin \$41,326.39 29,801,809.49	Gold Certificates \$523,970.00 82,837,070.00
Total to Jan. 30 1935	\$29,843,135.88	\$83,361,040.00
Week ended Jan. 30 1935. Received previously	259,306.00	\$15,200.00 1,987,400.00
Total to Jan. 30 1935		\$2,002,600.00 to the amount of

Transfer of Silver to United States Under Nationalization Order—Receipts During Week Feb. 1 Totaled 134,096,Fine Ounces

Silver in amount of 134,096 fine ounces was transferred to the United States during the week of Feb. 1 under the Executive Order of Aug. 9 1934, nationalizing the metal. Receipts since the order was issued and up to Feb. 1 total 112,179,398 fine ounces, it was noted in a statement issued by the Treasury Department on Feb. 4. The order of Aug. 9 was given in our issue of Aug. 11, page 858. In the Feb. 4 statement of the Treasury it is shown that the silver

was received at the various mints and assay offices during the week of Feb. 1 as follows:

F	ine Ounces		Ounces
Philadelphia	84,506.00	New Orleans	534.00 750.00
San Francisco			006.00

Following are the weekly receipts since the order of Aug. 9 was issued:

Silver Received by Mints in Amount of 321,760.37 Fine Ounces During Week of Feb. 1

During the week of Feb. 1, it is indicated in a statement issued by the Treasury Department on Feb. 4, silver amounting to 321,760.37 fine ounces was received by the various United States Mints from purchases by the Treasury in accordance with the President's proclamation of Dec. 21 1933. The proclamation was referred to in our issue of Dec. 23 1933, page 4441. It authorized the Treasury to absorb at least 24,421,410 fine ounces of newly mined silver annually. Receipts by the mints during the previous week of Jan. 25 amounted to 973,304.97 fine ounces. During the latest week the San Francisco mint received 321,144.37 fine ounces and the Denver Mint 616 fine ounces.

The total weekly receipts since the issuance of the proclamation are as follows (we omit the fractional part of the ounce):

Jan. 5 1,157 Aug. 3 11 Jan. 12 547 Aug. 10 25 Jan. 19 477 Aug. 17 64 Jan. 26 94,921 Aug. 24 37	2,719 8,307 4,458 9,757 6,504 1,574 4,307

Legislation Enacted in Nebraska to Invalidate Gold Clauses

The signing by Governor Cochran of Nebraska of a bill passed by the State Legislature invalidating gold clauses in public and private contracts was noted in these columns Feb. 2, page 723. Pointing out that the new Act holds the clauses in contracts requiring payment in gold coin or its equivalent to be usury and provides penalties for violations, Associated Press accounts from Lincoln, Neb., on Jan. 30

It declares also that any provision on a loan contract whereby more dollars would be required for repayment of the principal than was specified in the original agreement likewise shall be usuary and subject to the penalties for that offense.

During discussion of the measure, which was first recommended by Governor Cochran soon after he became Chief Executive, Jan. 3, some legislators said it was intended to circumvent a possible adverse decision by the United States Supreme Court on the National Administration's gold clause abrogation.

The Democrats, possessing a two-thirds majority in both houses of the Legislature, gave the Cochran proposal strong support. Following its passage by the Senate the House added its approval to-day, 83 to 2.

The provisions of the new law were indicated as follows in dispatches (Associated Press) from Lincoln, Jan. 31:

Any contract for the payment of money in satisfaction of indebtedness hich seeks, directly or indirectly, to prevent the debtor from discharging his obligation in full in any lawful money of the United States with the same number of dollars he originally contracted to pay, plus interest not in excess of the maximum legal contract rate, is hereby declared to constitute usury, the same as if the contract sought to bind the debtor to pay

more than the minimum legal rate of interest.

All such contracts are hereby declared contrary to public policy and usurious and in any action therefor the plaintiff shall same number of dollars in any lawful money of the United States as the number of dollars contracted for at the time the original contract was entered into, plus interest not exceeding the maximum legal contract rate and costs and no more.

In the same accounts it was stated:

Although his measure does not mention gold clauses, the Governor said it was designed to circumvent a possible decision of the Supreme Court adverse to the Roosevelt Administration.

Great Britain Accumulates Gold

A wireless message, Jan. 25, to the New York "Times" said:

There is nothing at all remarkable in the fact that London appears to have an endless supply of gold upon which to draw in occasions like the present. Gold imports into Great Britain in 1934 exceeded exports by £134,000,000.

This gold is held privately, with foreign banks controlling a large quantity. Hoarding continues on an extensive scale, but much gold has been bought as a speculation because of the prevalence of the view that, whatever happens eventually regarding international stabilization of currencies, gold is more likely to rise than to fall in value.

Record Gold Production in New South Wales

Record gold production in New South Wales, Australia, during 1934 is reported to the Commerce Department by Trade Commissioner E. C. Squire, Sydney, according to an announcement by the Department on Feb. 4, which said:

The total output of gold during the year is estimated to have amounted to approximately 34,200 ounces, valued at £291,000 in Australian currency. This is the highest yield for New South Wales since 1921, the report points out, and is approximately 5,000 ounces, or £42,000, in excess of the 1933 yield. Reports indicate, Trade Commissioner Squire states, that the gold output would be further increased in the current year.

Preliminary official figures show that total mineral production in New South Wales during the past year was valued at approximately £9,900,000, an increase of more than £1,000,000 compared with the yield for 1933.

President Roosevelt Defends Extension of Automobile Code in Letter to A. F. of L. Counsel—Union Leaders Criticize Donald R. Richberg

President Roosevelt on Feb. 5 made public correspondence with Charlton Ogburn, counsel for the American Federation of Labor, in which the President took full responsibility for the extension of the code for the automobile industry. In defending the Automobile Labor Board against union charges that it had ordered plant elections without the consent of organized labor, the President pointed out that it had been appointed by the Government as a result of the threatened automobile strike in 1934. Therefore, he said, the Board was "created for the benefit of all employers and employees in the industry and to prevent discrimination against any employee who exercised his right freely to designate his representative for collective bargaining." To impair the power of the Board to conduct elections, the President said, would place the Government "in the position of preventing the employees from voting instead of fulfilling its promise to afford them a fair opportunity to exercise this right."

Extension of the automobile code on Jan. 31 was described in our issue of Feb. 2, page 740. John L. Lewis, President of the United Mine Workers, commenting on the recommendation by Donald R. Richberg, Executive Director of the National Emergency Council, that the automobile code be extended, said on Feb. 2 that Mr. Richberg was "a traitor to labor." Mr. Richberg replied on Feb. 2 that the attack was unimportant and amounted "to the demand that as a public official I should put subservience to the policies of a particular labor organization above loyalty to the Government and to my conception of the public interest."

William Green, President of the American Federation of Labor, issued a statement on Feb. 3 in which he assailed Mr. Richberg, and asserted that in recommending extension of the automobile code he had "decided to be subservient to the automobile manufacturers."

President Roosevelt's action in publishing his correspondence with Mr. Ogburn was made on the same day that the Executive Council of the A. F. of L. had voted to ask the President for a conference at which they could give him a "vote of confidence." The letter from Mr. Ogburn, which elicited the President's reply, is given below:

Jan. 28 1935.

Dear Mr. President: You are acquainted with the reasons for the withdrawal by the American Federation of Labor from the automobile settlement of March 25 last. These reasons were made clear to you in a letter sent to you at Hyde Park, Sept. 11 1934, by William Green, President of the A. F. of L., with the accompanying resolutions adopted Aug. 31 by the National Council of Automobile Workers. The reasons for this withdrawal were given you in my letter to you of Dec. 19 and were reiterated in the public announcement made by Mr. Green through the press on the 24th inst., which had heretofore been withheld.

You are thus familiar with our construction of the settlement of March 25, which is that this was an agreement between the parties to the controversy then threatening a strike, to wit, the automobile manufacurers and the A. F. of L. Your successful mediation of this controversy resulted in the announcement by you of the terms of settlement accepted by both sides, one of the terms of which included the appointment of the Board with limited jurisdiction—one a labor representative, another an industry repre-

sentative, and a neutral Chairman, all to be appointed by the National Recovery Administration.

The labor representative was selected by the A. F. of L. labor unions, as parties to the agreement, the industry member by the manufacturers, as parties to the agreement, and the Chairman was designated by the NRA. The announcement of the settlement made by you and the appointment of the Board were not done under your Executive Order.

An analogy is found in many union contracts with employers under which both sides agree to leave unsettled issues to an Arbitration Board composed of one member representing the union, one representing the employer, and an impartial Chairman to be appointed by a Federal District Judge, who, if he accepts the task, thus becomes responsible for the appointment. Such an Arbitration Board, however, is not a Judicial Board or creature of the court.

You are thoroughly familiar with our view that since this agreement was without duration of time, either party could withdraw by giving notice to the other party. Before the ending of the agreement by such withdrawal all decisions and rulings of the Board within its jurisdiction are binding on the two parties.

This withdrawal is in no sense an abrogation of the agreement, but is a perfectly legal manner of ending it. Had the agreement been for a fixed duration of time we would have necessarily awaited the expiration date.

duration of time we would have necessarily awaited the expiration date.

The Automobile Labor Board thus had no legal status except under this agreement of the two parties. The withdrawal of one party from the agreement, thus bringing the agreement to an end, naturally terminates the existence of the Board.

During the period of uncertainty pending the public announcement of the withdrawal of the A. F. of L. from this settlement, serious controversies under Section 7-A of the Recovery Act have been accumulating in the automobile industry, some of them in their nature outside of the limited jurisdiction of the Automobile Labor Board. These issues are pressing for settlement; some are in an acute stage. The automobile labor problem is to-day by far the most serious labor problem in America. The facts adduced by the recent NRA investigation of the automobile industry under your order demonstrates this fact.

Automobile workers have the same rights as all other workers in coded

Automobile workers have the same rights as all other workers in coded industries to self-organization guaranteed them in Section 7-A of the Recovery Act, and to have their controversies under Section 7-A submitted to the National Labor Relations Board for investigation and findings of fact, pending a determination by you of whether a special impartial Board should be appointed for the automobile industry with full powers. The exercise of this jurisdiction by the NLRB will, I am sure, relieve the present tension, which is extremely grave.

Mr. Green's statement and my letter to you of Dec. 19, regarding the disappointing record of the Automobile Labor Board and its unwarranted ordering of elections among employees without the consent and against the wishes of organized labor, make it clear why the personnel of this Board, regardless of other factors, render it completely unacceptable to organized labor.

Respectfully,

CHARLTON OGBURN,

Counsel American Federation of Labor, Federal Labor Unions.

The President,

The White House, Washington, D. C.

President Roosevelt's reply, as made public Feb. 5, follows:

My dear Mr. Ogburn: Your letter of Jan. 28 and communications along the same line, to which you refer, place a construction upon the creation, powers and functioning of the Automobile Labor Board, with which I cannot agree. The Board was established by the Government and not as a board of arbitration, created by the parties to an agreement.

board of arbitration, created by the parties to an agreement.

There was in March 1934 the possibility of a strike in this industry, arising out of controversies particularly concerning the right of employees to organize freely for collective bargaining. The "principles of settlement" at that time recognized not only the possibility but the probability that groups of employees in this industry might choose different representatives of organizations to act in their behalf. Provision was made for the NRA to set up a "board responsible to the President of the United States," and in the "principles of settlement" it was stated that "the Government makes it clear that it favors no particular union or paricular form of employee organization or representation."

Government makes it clear that it favors no particular union or paricular form of employee organization or representation."

The Board established by the Government was, therefore, created for the benefit of all employers and employees in the industry and to prevent discrimination against any employee who exercised his right freely to designate his representatives for collective bargaining.

The Board so established is responsible to the President, and it is for the President to determine whether the Board is fulfilling its duties and how long the existence of the Board should be continued. The Board was not established in the code; but it will be noted that the authority under which the Board and the code were both established expires June 16 1935.

which the Board and the code were both established expires June 16 1935. In the original creation of the Board there was no provision for the nomination of members of the Board by any one, and in accepting advice, or giving to persons an opportunity to suggest selections, the Government did not give to any one a right to name members or otherwise to determine the membership of the Board.

At the present time the Board is not only functioning to prevent discrimination against employees and otherwise to carry out the purposes of its creation, but it is engaged also in the very important work of holding elections, whereby through secret ballot, under Government supervision, all employees are being given a full and fair opportunity to designate their representatives, choosing them either as individuals, or as representatives of a labor organization. The result of these elections must be to provide for the first time conclusive evidence of how and by whom the employees desire to be represented.

When these elections are completed the freely chosen representatives of the employees will be able to associate themselves together to bargain collectively or otherwise to represent the interests of their constituents. Thereby, both the employers and the Government will be able to determine the wishes of the employees and will be assured that those who claim to represent the employees and their wishes are, in fact, their duly designated and authorized representatives.

Under these circumstances it would seem that any organization of employees in this industry or any organization claiming to represent such employees would avail itself fully of the opportunity to establish the authentic character of its representation.

From the reports of recent balloting in the elections now being held it appears clearly that all but a very small percentage of the employees are availing themselves of this opportunity. If the Government should, at this time, annul or impair the power of the Automobile Labor Board to

conduct these elections it would be placed in the position of preventing the employees from voting instead of fulfilling its promise to afford them a full and fair opportunity to exercise this right.

Very sincerely yours,

FRANKLIN D. ROOSEVELT.

We also quote from a Washington dispatch of Feb. 2 to the New York "Herald Tribune" regarding the charges made by union leaders against Mr. Richberg:

Mr. Lewis assailed the "right-hand adviser" of President Roosevelt during a hearing on the Black 30-hour week bill, a measure opposed by the Administration, before a subcommittee of the Senate Judiciary Committee, headed by Senator M. M. Neely, Democrat, of West Virginia.

Coming on the heels of the action of the Executive Committee of the American Federation of Labor, criticizing renewal of the automobile code and charging Mr. Richberg with being "out of sympathy with the aims and purposes of labor," the Lewis denunciation was recognized as accentuating the fact that organized labor has broken with the Roosevelt Administration

The attack of Mr. Williams, ratified through action of the Executive Council of the A. F. of L., now in session here, was based directly on his position in the tobacco industry as President of the R. J. Reynolds Tobacco Co. It was made in connection with the adoption of a program of five points in opposition to the tobacco industry's code now before the President, covering cigarettes, smoking tobacco, chewing tobacco and products other than cigars.

It was made by I. M. Ornburn, speaking for the Allied Trades Tobacco Council, who demanded an end of the influence of S. Clay Williams in tobacco code affairs as long as he is a member of the NRA Board.

Reference to Mr. Green's statement of Feb. 3 was contained in a Washington dispatch of that date to the "Herald Tribune," which, in part, said:

Mr. Green's statement to-night, although dealing with the dispute which has arisen directly out of the Administration's extension of the automobile code despite determined opposition from the A. F. of L., reflected sharply growing discontent in trade union circles over Administration policies.

Mr. Green Criticizes 40-Hour Week

Holding that the 40-hour week, which is about the average established under the codes, has failed to take up the unemployment slack to a very large degree or to create sufficient buying power, Mr. Green said:

"Economic and industrial necessity require the reduction in the work day and work week to create additional work opportunities for those who are being constantly displaced through the introduction of machinery and an enlarged use of electric power.

enlarged use of electric power.

"Notwithstanding the existence of these economic facts the large bulk of the employers of the nation continue to resist any and all attempts to distribute the amount of work available to create enlarged work opportunities for the millions who are idle by reducing work hours and work days."

President Roosevelt Says S. Clay Williams Has Rendered "Devoted, Impartial" Service as Head of NIRB—Letter to William Green Refuses Demands for Dismissal

S. Clay Williams has rendered "a devoted, impartial service which fully justifies his selection" as Chairman of the National Industrial Recovery Board, President Roosevelt said in a letter dated Dec. 21 and addressed to William Green, President of the American Federation of Labor. The President's letter, made public at the White House on Feb. 6, was in reply to a demand from Mr. Green that Mr. Williams be dismissed, in accordance with a resolution adopted by the Federation at its recent convention in San Francisco. The President's letter is given herewith:

The White House, Washington, Dec. 21 1934.

Dear Bill: I think it is perhaps best that I should not reply officially to the resolution and action of the convention of the American Federation of Labor in regard to the appointment of Mr. Clay Williams. There is no need for any controversy over the resolution or in regard to a number of inaccuracies of fact and conclusion in the resolution.

As you know, I appointed Clay Williams after real consideration of all the public and private interests affected and on the basis of my personal knowledge of his qualifications. Since his appointment he has rendered a devoted, impartial service which has fully justified his selection. I think that as time goes on the Federation will agree with me on all of this.

Always sincerely,

FRANKLIN D. ROOSEVELT.

Hon. William Green, President, American Federation of Labor, Washington, D. C.

Senate Ratifies Eight Treaties, Including Six Pacts Covering Extradition Questions—Two Deal with War Service Exemptions

The Senate on Feb. 6 ratified eight treaties with foreign Nations. One was an extradition treaty with Iraq, five were supplementary extradition pacts with Bulgaria, Estonia, Switzerland, Latvia and San Marino, and two, with Albania and Sweden, provided certain exemptions for military service. The treaty with Albania was signed on Apr. 5, 1932, that with Sweden on Jan. 31 1933, and the others since last June.

The treaty with Iraq lists the usual crimes subject to extradition action in treaties of this type. The extradition treaties with the other countries, however, were supplementary in nature, adding fraudulent bankruptcy to the list of extraditable offenses. The Albanian treaty exempts from military service in Albania naturalized Americans during a stay in Albania and persons born in the United

States of Albanian parentage. The treaty with Sweden, as quoted in the New York "Times" of February 7, exempts "persons possessing the nationality of both parties who habitually reside in the territory of one of them and who are in fact most closely connected with that party from all military obligations in the territory of the other party."

United States to Abolish Consulate General in Moscow and Reduce Embassy Personnel

Secretary of State Cordell Hull on Feb. 6 announced that the United States would abolish the Consulate General established in Moscow last March, withdraw the acting naval and air attaches, and reduce the personnel of the embassy. This action follows the collapse of debt and claim negotiations between the United States Government with the Soviet Russian Government to which reference was made in our Feb. 2 issue, page 716.

Despite an initial appropriation by Congress last year for the construction of an embassy building, it was believed that the project will be definitely abandoned. Earlier plans for the establishment of consulates in Leningrad and Vladivostok and other parts of Russia also have been deferred, it was reported in a Washington despatch of Feb. 6 to the New York "Times."

William C. Bullitt will return to Moscow as Ambassador, it is indicated. The United States has adopted a policy of refusing to grant Government credits to Russia, as a result of the debt and claims settlement failure. On his part, M. Litvinoff, Soviet Foreign Minister, has indicated that Russia does not now need the credits. Debts and claims settlements first broke down when Russia demanded a loan equal to the amount of her preferred cash payment of \$100,000,000, as well as an equal amount of credits.

President Roosevelt Signs Bill Amending Second Liberty Bond Act—New Legislation Increases to \$45,000,000,000 the Treasury's Borrowing Power— Provides for Issuance of "Baby Bonds"

On Feb. 4 President Roosevelt signed the bill increasing to \$45,000,000,000 the Treasury's borrowing power. As was indicated in these columns Feb. 2, page 726, the bill passed the House on Jan. 25 and the Senate on Jan. 30. Provision is made in the newly enacted measure for the issuance, through the Postal service or otherwise, of so-called "baby bonds"—to be known as "United States Savings Bonds"—to be issued in denominations as low as \$25 and to be sold on a discount basis. President Roosevelt is to be the first purchaser of the new type of bonds, the first offering of which is scheduled for March 1. Secretary Morgenthau will handle the initial sale to the President and the transfer will be conducted with special ceremonies.

A tentative price range of \$75 to \$78 for a 10-year bond maturing at \$100 has been set by the Treasury for its first issue of "baby bonds" it was stated in Associated Press dispatches from Washington, Feb. 7, which added:

In making the announcement, Under Secretary T. Jefferson Coolidge said that a price of \$75 would yield 2.9% interest on a 10-year maturity, while the higher price would net a return of 2.5%.

while the higher price would net a return of 2.5%.

Mr. Coolidge held the view the bonds would not be eligible as collateral at commercial banks as they did not enjoy the transfer privilege. He said, however, that they would be readily negotiable at commercial banks as well as Federal Reserve banks and all local agencies of the Government.

The amount of the first "baby bond" issue was not disclosed at the Treasury.

In a Washington dispatch Feb. 4 to the New York "Times" it was stated:

Post Office to Safeguard Bonds

Every safeguard will be erected in marketing the new "baby bonds" by the Treasury to secure the investors from loss. Post offices will provide facilities for the safekeeping of the bonds of those who have no safety deposit boxes.

The provisions of the bill increasing the amount of securities of all types which the Treasury may have outstanding at any one time fixes the total for bonds at \$25,000,000,000, or about \$11,500,000,000 more than at present

for bonds at \$25,000.000,000, or about \$11,500,000,000 more than at present.

A general limitation of \$20,000,000,000 is placed on the maximum outstanding total of notes, certificates of indebtedness and Treasury bills, the shorter term securities. The same total was previously in force, but with the restriction that the maximum of notes outstanding should not exceed \$10,000,000,000 and that the same limitation should apply to outstanding certificates and Treasury bills.

The following is the text of the bill as passed by Congress and signed on Feb. 4 by President Roosevelt:

AN ACT to amend the Second Liberty Bond Act, as amended, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, Fhat the Second Liberty Bond Act, as amended, is further amended as follows:

The first paragraph of section 1 is amended to read as follows:
"The Secretary of the Treasury, with the approval of the President, is
hereby authorized to borrow, from time to time, on the credit of the United
States for the purposes of this Act, to provide for the purchase, redemption,
or refunding, at or before maturity, of any outstanding bonds, notes,
certificates of indebtedness, or Treasury bills of the United States, and

to meet expenditures authorized for the national security and defense and other public purposes authorized by law, such sum or sums as in his judgment may be necessary, and to issue therefor bonds of the United States: That the face amount of bonds issued under this section and section 22 of this Act shall not exceed in the aggregate \$25,000,000,000

outstanding at any one time."

Sec. 2. The first sentence of subsection (a) of section 5 is amended to ad as follows: "In addition to the bonds and notes authorized by sections read as follows: "In addition to the bonds and notes authorized by sections 1, 18, and 22 of this Act, as amended, the Secretary of the Treasury is authorized, subject to the limitation imposed by section 21 of this Act, to borrow from time to time, on the credit of the United States, for the purposes of this Act, to provide for the purchase, redemption, or refunding, at or before maturity, of any outstanding bonds, notes, certificates of indebtedness or Treasury bills of the United States, and to meet public expenditures authorized by law, such sum or sums as in his judgment may be necessary, and to issue therefore (1) certificates of indebtedness of the United States at not less than par (except as provided in section 20 of this Act, as amended) and at such rate or rates of interest, payable at such time or times as he may prescribe; or, (2) Treasury bills on a discount basis and payable at maturity without interest."

2. 3. Section 5 is further amended by striking out the final sentence of subsection (a) thereof, reading as follows: "The sum of the par value of such certificates and Treasury bills outstanding hereunder and under section 6 of the First Liberty Bond Act shall not at any one time exceed in the aggregate \$10,000,000,000."

Sec. 4. Subsection (a) of section 18 is amended to read as follows:
"In addition to the bonds and certificates of indebtedness and warsavings certificates authorized by this Act and amendments thereto, Secretary of the Treasury, with the approval of the President, is authorized, subject to the limitation imposed by section 21 of this Act, to borrow from time to time on the credit of the United States for the purposes of this Act, to provide for the purchase, redemption, or refunding, at or before maturity, of any outstanding bonds, notes, certificates of indebtedness, or Treasury bills of the United States, and to meet public expenditures authorized by law, such sum or sums as in his judgment may be neces issue therefor notes of the United States at not less than par (except as provided in section 20 of this Act, as amended) in such form or forms and denomination or denominations, containing such terms and conditions, and at such rate or rates of interest, as the Secretary of the freasury may prescribe, and each series of notes so issued shall be payable at such time not less than one year nor more than five years from the date of its issue as he may prescribe, and may be redeemable before maturity (at the option

of the United States) in whole or in part, upon not more than one year's nor less than four months' notice, and under such rules and regulations and during such period as he may prescribe."

Sec. 5. The Second Liberty Bond Act, as amended, is further amended by adding a new section, as follows:

"Sec. 21. The face amount of certificates of indebtedness and freasury bills authorized by section 5 of this Act, certificates of indebtedness authorized by section 6 of the First Liberty Bond Act, and notes authorized by section 18 of this Act shall not exceed in the aggregate \$20,000,000,000 outstanding at any one time."

Sec. 6. The Second Liberty Bond Act, as amended, is further amended, by adding a new section, as follows:

Sec. 22. (a) The Secretary of the Treasury, with the approval of the President, is authorized to issue, from time to time, through the Postal Service or otherwise, bonds of the United States to be known as "United States Savings Bonds." The proceeds of the savings bonds shall be available to meet any public expenditures authorized by law and to retire any outstanding obligations of the United States bearing interest or issued on a discount basis. The various issues and series of the savings bonds shall be in such forms, shall be offered in such amounts within the limits of section 1 of this Act, as amended, and shall be issued in such manner and subject to such terms and conditions consistent with subsections (b) and (c) hereof, and including any restriction on their transfer, as the Secretary of the sury may from time to time prescribe.

"(b) Each savings bond shall be issued on a discount basis to mature not less than ten nor more than twenty years from the date as of which the bond is issued, and provision may be made for redemption before maturity upon such terms and conditions as the Secretary of the Treasury may prescribe: Provided, That the issue price of savings bonds and the terms upon which they may be redeemed prior to maturity shall be such as to afford an investment yield not in excess of three per centum per annum, compounded semiannually. The denominations of savings bonds shall be in terms of their maturity value and shall not be less than \$25. It shall not be lawful for any one person at any one time to hold savings

bonds issued during any one calendar year in an aggregate amount exceeding \$10,000 (maturity value).

"(c) The provisions of section 7 of this Act, as amended (relating to the exemptions from taxation both as to principal and as to interest of bonds issued under authority of section 1 of this Act. as amended), shall apply as well to the savings bonds; and, for the purposes of determining taxes and tax exemptions, the increment in value represented by the difference between the price paid and the redemption value received (whether at or before maturity) shall be considered as interest. The savings bonds shall not bear the circulation privilege.

"(d) The appropriation for expenses provided by section 10 of this Act and extended by the Act of June 16, 1921 (U. S. C., title 31, secs. 760 and 761), shall be available for all necessary expenses under this section; and the Secretary of the Treasury is authorized to advance, from time to time, to the Postmaster General from such appropriation such sums as are shown to be required for the expenses of the Post Office Department, in connection

with the handling of the bonds issued under this section.

"(e) The board of trustees of the Postal Savings System is authorized to permit, subject to such regulations as it may from time to time prescribe, the withdrawal of deposits on less than sixty days' notice for the purpose of acquiring Savings Bonds which may be offered by the Secretary of the Treasury; and in such cases to make payment of interest to the date of withdrawal whether or not a regular interest payment date. No further original issue of bonds authorized by section 10 of the Act approved June 10 o

25, 1910 (U. S. C., title 39, sec. 760), shall be made after July 1, 1935.
"(f) At the request of the Secretary of the Treasury the Postmast General, under such regulations as he may prescribe, shall require the employees of the Post Office Department and of the Postal Service to perform, without extra compensation, such fiscal agency services as may be desirable and practicable in connection with the issue, delivery, safe-

keeping, redemption, and payment of the savings bonds."

Sec. 7. Section 1126 of the Revenue Act of 1926 is amended by adding the end thereof the following: "In order to avoid the frequent substituat the end thereof the following: tion of securities such rules and regulations may limit the effect of this section, in appropriate classes of cases, to bonds and notes of the United States maturing more than a year after the date of deposit of such bonds as security. The phrase 'bonds or notes of the United States' shall be deemed, for the purposes of this section, to mean any public-debt obligations of the United States and any bonds, notes, or other obligations

which are unconditionally guaranteed as to both interest and principal by the United States."

Nominations of Members of FCC Confirmed by Senate

The Senate on Feb. 7 confirmed the appointments as members of the Federal Communications Commission made by President Roosevelt on June 30 last. No action was taken by the Senate on the appointment of Hampson Gary, of Texas, inasmuch as he withdrew as an appointee. Gary's term, which was for one year from July 1 1934, has since been filled by Anning S. Prall, of New York; the Senate confirmed Mr. Prall's appointment on Jan. 15. Those confirmed by the Senate on Feb. 7 are:

Eugene O. Sykes of Mississippi, Chairman, seven-year term; Thad H. Brown of Ohio, six-year term;

Paul Walker of Oklahoma, five-year term; Norman Case of Rhode Island, four-year term; Irvin Stuart of Texas, three-year term, and

George Henry Payne of New York, two-year term. The appointment of the members of the FCC by President Roosevelt last June was referred to in our issue of July 7 1934,

House Committee Approves Resolution Calling for Investigation by FCC of American Telephone & Telegraph Co.

On Feb. 7 the House Committee on Inter-State Commerce approved a resolution authorizing an investigation of the American Telephone & Telegraph Co. by the Federal Communications Commission. Associated Press advices from Washington Feb. 7 reporting this:

The measure, by Committee Chairman Rayburn, Democrat, of Texas, would direct the Commission to look into the reasons for what was termed the general failure to reduce telephone rates and charges during the years of declining prices.

It also would investigate the effect of monopolistic control upon the onableness of telephone rates and charges, upon methods of competition with independent telephone companies and upon the character of service

While the resolution mentioned the A. T. & T. specifically, it would permit investigation of all other companies engaged in telephone communica-tion in inter-state commerce, including all companies related to any of them through holding concerns

The resolution was drafted with a view to obtaining information to "aid in providing more effective rate regulation." Similar legislation is before the Senate.

Administration's "Banking Act of 1935"—Proposals
Would Broaden Powers of Federal Reserve Board—
Posts of Chairman and Governor of Reserve Banks Would Be Merged—Changes in Open Market Committee Proposed and Provision Made for Real Estate Loans by National Banks—FDIC Amendments

Wider powers than at present would be conferred on the Federal Reserve Board in proposals embodied in the Administration's "Banking Act of 1935," the provisions of which were made public this week. Reference to the fact that a definite legislative program affecting banking in general and the Federal Reserve System was in the making by the Administration was indicated in our issue of a week ago, page 730, in which conferences in the matter between President Roosevelt and Treasury heads were noted. The draft legislation, said the Washington correspondent of the New York "Journal of Commerce" was sent to the Senate and House Banking Committee chairmen at the President's direction, and immediately introduced in the House by Representative Steagall. Mr. Roosevelt's promised reform in the Federal Deposit Insurance assessments form part of the proposals and the other provisions suggested, says the paper quoted, and asks also that provisions would provide a direct tie-in of Federal Reserve activities with the Federal Reserve Board and the Treasury. As the Senate had adjourned early on Feb. 4 the submission of the bill by Senator Fletcher was delayed until Feb. 6. President Roosevelt's letter transmitting the draft of the legislation to Senator Fletcher and Representative Steagall, Chairmen, respectively, of the Senate and House Banking Committees, follow:

THE WHITE HOUSE

Washington, Feb. 4 1935 My dear Mr. Chairman: I have had a number of conferences regarding three banking matters which are to some extent inter-related and which affect the Federal Deposit Insurance Corporation, the Federal Reserve System and the office of the Comptroller of the Currency. I have dissed these matters with Mr. Leo T. Crowley, Chairman of the Federal Deposit Insurance Corporation; Mr. Marriner S. Eccles, Governor of the Federal Reserve Board, and Mr. J. F. T. O'Connor, Comptroller of the Currency. I have asked the representatives of the various departments and agencies affected to give consideration to the matters discus

For the information of your Committee, they have prepared a tentative draft of legislation and I am asking the gentlemen named to give the benefit of the results of their discussions to you as Chairman of the Banking and Currency Committee of the Senate.

I shall be glad to have you call them before your Committee for further information if you desire.

Very sincerely yours. FRANKLIN D. ROOSEVELT.

Incident to the newly-drafted proposals, a Washington account Feb. 5 to the New York "Times" said:

Representative Steagall, who introduced the bill in the House, . pleased with the bill as it stood, he said. Senator Fletcher saw an "improvement over the existing situation," and "some very good features" in the bill, which he finished reading at 2 a. m. to-day.

Questioned as to whether he thought the bill would allow undue currency expansion. Senator Fletcher said that the Federal Reserve Board would be "given more power" over money. When asked if he meant that the Board's control would be "more flexible" and include "up and down" features, he replied affirmatively.

The proposed measure fixed a definite liability for members of the Federal Deposit Insurance Corporation by setting a maximum limit of assessment of 1-12th of 1% of total deposits to replace the present 1% obligatory stock subscription of total deposits with liability for repeated assessments thereafter. A lower rate may be fixed for mutual savings banks, it was noted in Associated Press advices from Washington Feb. 4, which also said:

The temporary insurable maximum of \$5,000 would be continued in the new bill and banks not members of the Federal Reserve System would be permitted to withdraw from insurance after notice to their depositors and to the Insurance Corporation.

At his press conference on Feb. 6 President Roosevelt is reported as having described the new bill as intended to outline the general objectives of the Administration. With the introduction of the bill in the Senate by Senator Fletcher on Feb. 6 it was referred to his Committee on Banking and Currency. No further disposition of the bill will be made until the group meets, probably not before next Tuesday (Feb. 12), said a dispatch from Washington Feb. 6 to the New York "Herald Tribune" which likewise said:

Henry B. Steagall, Chairman of the House Banking and Currency Committee, however, will convene this group before the week ends to decide how the bill should be handled. With the printing of the bill some of the provisions which were not previously fully understood became clarified. The text confirmed the original description that the bill would centralize great power in the Federal Reserve Board over the currency and credit policies of the Government.

A summary of the provisions of the bill was made public on Feb. 4, the text of the measure being made available with its introduction in the Senate on Feb. 6.

As to the proposed legislation, Associated Press accounts from Washington Feb. 4 stated:

Trained observers saw in the provisions a move to vest in the Governor of the Reserve Board and the Board itself many of the powers of a Central

The proposed measure, in short, would bestow on the Board virtually

omplete supervision of the credit policies of the nation.

The old system of having the 12 Reserve banks themselves name the Open Market Policy Committee, which determines Federal Reserve Bank participation in the Government bond market, would be scrapped.

In its place would be substituted a new committee, consisting of the

Governor of the Board, two Board members, and two Governors of Reserve

banks elected annually by the Governors themselves.

Another suggested change would give the Board power of approval over the Governors of the 12 banks before they can be elected, a power heretofore lacking.

The bill would abolish the position of Federal Reserve Agent, maintained by each of the banks, and combine this office with that of Governor. These agents are now appointed by the Board here and act as Chairmen of the boards of the various banks. Appointments would be made annually by the directors.

Open Market Committee

The revised Open Market Committee would take on the additional duties of making recommendations about discount rate policies. It would formulate the System's open market policies, which would be binding on the Reserve banks

Under the present system the Open Market Committee, conceivably, could unload the System's holdings of \$2,430,000,000 of Government securities on the market to-morrow and the Reserve Board would be powerless to stop such action.

As a means of preventing injurious credit expansion or contraction, the Board would be given power to change Reserve requirements as to districts, or cities, and as to time or demand deposits.

As an inducement to get new members, the proposed measure would waive present capital requirements for admission of any insured nonmember institution, provided all regular requirements were met. This permission, however, would expire on July 1 1937, when all insured banks must become Reserve members or lose their insurance.

Real Estate Loans by Member Banks

The bill also would amend the Federal Reserve Act to permit member

bank loans for a 20-year period on real estate, if made on an amortization basis. The permission would extend up to 75% of the value of the property. The bill also would seek to elevate the efficiency of the Board by demanding higher qualifications, but would increase the salaries of future members by \$3,000 to \$15,000, with compulsory retirement at the age of 70 on \$12,000 pension.

In return, it would be required that the Board members be "well qualified by educating and experience, or both, to participate in the formulation of National economic and monetary policies."

The Governor's membership on the Board would expire when he is no

longer designated as Governor by the President.

Collateral requirements of member banks for rediscount would be broadened to take in any sound asset, subject to regulations of the Re Board, and the Board also would have authority to prescribe limitations on maturity of advances to member banks. Obligations wholly guaranteed by the Government would be eligible for purchases by the banks without regard to maturity.

From the Washington advices Feb. 6 to the New York "Herald Tribune" we take the following:

It was said in Administration quarters that the Open Market Committee proposal actually would empower three members of the Reserve Board, named by the President and subject to political pressure, to force the Reserve banks to buy whatever amount of Government obligations they Instead of open market operations being used to regulate the flow of credit for the accommodation of commerce, industry and agri-culture, it was said, the authority could be exercised for the benefit of sury financing.

Friends of the existing Reserve system contend that such a step is the most objectionable in the bill. They would keep authority over open market operations in the hands of the country's financiers, or, at any event, divorced from political pressure and Treasury influence.

The text of the bill showed that instead of the requirement that prime

commercial paper in the face of amount of currency issued must be given as collateral for Federal Reserve notes, each Federal Reserve Bank could issue Federal Reserve notes which would be obligations of the United States, secured by a first and paramount lien on all of the assets of any such Bank

The summary of the bill as made available Feb. 4 follows:

Title I-Federal Deposit Insurance Corporation Amendments 1. Existing temporary funds are merged into the permanent insurance plan, which becomes operative immediately upon enactment of the "Banking Act of 1935."

2. \$5,000 continues to be the maximum insurance protection for each depositor in any bank. Trust funds are insured up to \$5,000 for each trust estate.

3. Maximum limit of assessment of 1-12th of 1% of total deposits is substituted for obligatory stock subscription amounting to 1% of total deposits with liability for repeated assessments thereafter. A uniformly lower assessment may be fixed by the board of directors for mutual savings

4. Banks not members of the Federal Reserve System are permitted to withdraw from insurance after notice to their depositors and to the Corporation. Similarly, after adequate notice and after a hearing the Corporation may terminate the insured status of any bank.

The Corporation's present right to buy assets of closed member banks is extended until July 1 1936 to open banks when it will facilitate mergers and avert loss. For this purpose the Corporation may also make loans to insured banks or guarantee other insured banks against loss in assuming liabilities of insured banks.

 The proceeds derived from the sale of capital stock of the Corporation as be allocated between capital and surplus in such amounts as the board of directors may prescribe, so that in the event of losses exceeding the proceeds of the annual assessments the Corporation will not be forced to operate with impaired capital. Dividends on capital stock of the Corporation are eliminated.

7. Detailed administrative and technical changes, which seem advisable in the light of the experience of the Corporation, include the

(a) Certain important terms used in the Act have been defined;(b) Mechanics of pay-offs have been revised and clarified;(c) The Corporation is given the right to require insured banks to

maintain adequate fidelity and burglary insurance;
(d) The standards for determining whether or not banks should be-

come insured are set forth; (e) Insured banks not members of the Federal Reserve System are required to make reports of conditions, and the Corporation may order

publication of such reports: (f) Corporation approval is required before a merger or consolidation

of insured banks with non-insured banks, or before a reduction of capital of non-member banks takes place;

(g) Other miscellaneous changes:I. The use of the words "deposit insurance" in the name of a bank

is prohibited; II. Examiners of the Corporation are prohibited from borrowing from

III. Criminal provisions are extended to protect all insured banks.

Title II-Federal Reserve Act Amendments

With respect to Federal Reserve Banks:

1. Combine offices of Chairman of the board of directors and Governor at each of the Federal Reserve banks, appointments to be made annually by the directors of the Bank, after approval by the Federal Reserve Board. Vice-Governors are to be selected in the same manner

2. No members of the board of a Federal Reserve Bank, except Governor and Vice-Governor, shall hold office for more than six consecutive years.

With respect to the Federal Reserve Board:

3. Change qualifications for future appointive members of the Federal Reserve Board by providing that they shall be persons well qualified by education or experience, or both, to participate in the formulation of National economic and monetary policies. The present geographical limitation shall not apply to selection of future Governors. The Governor's membership on the board shall expire when he is no longer designated as Governor by the President.

4. Increase the salaries of future appointive members to \$15,000 per annum, with compulsory retirement at 70 on \$12,000 pension. Present members to be eligible for retirement at 70. Proportionate pensions

will be allowed for service of less than 12 years.

5. The Board shall be empowered to delegate specific powers and duties not involving the determination of National or System policies to individual members of the Board or its representatives.

With respect to credit control:

6. Change Section 12-A of the Federal Reserve Act so as to provide for an Open Market Committee to consist of the Governor and two members of the Board elected annually by the Board, and two Governors of Federal Reserve banks elected annually by the Governors of the Federal This Committee shall make recommendations about discount rate policies and shall formulate the System's open market policies. which shall be binding on the Federal Reserve banks.

With respect to collateral requirements:

Any sound asset of a member bank shall be eligible for discount at a Reserve Bank, subject to regulations of the Federal Reserve Board, and the Board shall also have authority to prescribe limitations on maturity of advances to member banks.

8. Section 14 is amended so that obligations, the principal and interest of which are guaranteed by the United States, shall be eligible for purchase by Federal Reserve banks without regard to maturity

9. Collateral requirements for Federal Reserve notes shall be repealed,

and the office of Federal Reserve Agent shall be abolished. With respect to reserve requirements:

10. In order to prevent injurious credit expansion or contraction, the Federal Reserve Board may change reserve requirements as to any or all Federal Reserve districts and(or) any or all classes of cities, and as to time and (or) demand deposits.

With respect to capital requirements:

11. At any time prior to July 1 1937 the Federal Reserve Board may admit any insured non-member bank to membership in the Federal Reserve System; and may waive the capital requirements for admission; provided that such bank shall comply with all of the regular requirements of members within such time as the Federal Reserve Board shall prescribe.

With respect to real estate loans: 12. Section 24 of the Federal Reserve Act is amended to permit loans to be made on amortization basis for periods of 20 years and up to 75% of value of property. The geographical limitation as to location of real estate is removed. The aggregate amount of real estate loans plus other real estate (except bank premises) is not to exceed 60% of time deposits or 100% of capital and surplus, whichever is the greater. All real estate loans are to be secured by first liens, but second and subsequent liens may be taken to secure debts previously contracted in good faith. The limitations of Section 24 are made applicable to State member banks.

Title III—Technical Amendments

Section 301 exempts "accidental" holding company affiliates from voting permit requirements where not engaged as a business in holding

Section 302 provides that member banks need not divorce securities

affiliates which are in formal liquidation.

Section 303 (a) makes it clear that the prohibition against security dealers accepting deposits does not prevent banking institutions from dealing in, underwriting, purchasing and selling investment securities to the extent permitted to National banks and does not prevent banking institutions from selling mortgages without recourse. (National banks are limited, in dealing in and underwriting, to Government obligations, general obligations of States or political subdivisions, obligations issued under authority of the Federal Farm Loan Act, by Federal Home Loan Board or Home Owners Loan Corporation.) (b) Exempts business in-stitutions accepting deposits solely from their employees, from examination and publication of reports of condition; and requires private banks to bear expense of their examination when made by Federal authorities.

Section 304 terminates double liability of shareholders of National banks on July 1 1937. Section 305 corrects omission of National banks in Alaska and Hawaii

from benefit of amendment repealing law requiring directors of National

banks to increase their shareholdings.

Section 306 gives Federal Reserve Board power to control connections of officers, directors and employees of banks with securities companies

by regulation rather than by issue of individual permits.

Section 307 (a) eliminates any question of power of member banks to buy or sell stocks solely for the account of their customers and permits National banks to purchase for their own account investment securities not to exceed 10% of unimpaired capital and surplus. (b) Restates existing prohibition against National banks purchasing stock for their own account.

Section 308 requires new National banks to have paid-in surplus e to 20% of capital, subject to waiver as to State bank converting into

National bank. Section 309 eliminates possibility that present law prevents corporations other than a bank from conditioning transfer of their shares on trans-

fer of bank stock.

Section 310 (a) permits holding company to vote to place bank in voluntary liquidation without obtaining voting permit. (b) Since shares held by bank as sole trustee cannot be voted, same are excluded from determination whether resolution adopted by requisite number of shares. (c) Eliminates any doubt that holding company with voting permit may cumulate its shares as may other shareholders.

Section 311 gives Comptroller discretion to permit converting State

bank to carry over sound assets not conforming to requirements as to assets held by National banks.

Section 312 allows Comptroller to delegate manual labor of counter-

signing bond transfer.

Section 313 permits National bank branches located outside United States to charge interest rate permitted by local law. Section 314 provides for National banks gradually increasing surplus

out of earnings, until equal to capital.

Section 315 extends criminal provisions applicable to member banks

to include insured banks.

Section 316 gives Comptroller closer supervision over banks in volun-

tary liquidation.

Section 317 extends present prohibition on use of word "National" by banks other than National banks, to include combinations of such

Section 318 corrects oversight by requiring member banks to reduce stock holdings in Federal Reserve Bank upon a reduction of surplus Section 319 requires State member banks to publish reports of con-

Section 320 places State member banks on parity with National banks

as regards loans on Government obligations.

Section 321 permits Federal Reserve Bank direct loans to private business to be made on adequate indorsement or security, instead of requiring

both as under present law.

Section 322. Refers to par value of FDIC stock in the "Loans to Industry" Act changed to "Amount paid for said stock."

Section 323. (a) Authorizes Federal Reserve Board to define "deposit" and related terms for reserve and interest requirements respecting de-(b) Permits amounts due from other banks to be deducted from gross deposits, instead of amounts due to banks, in determining reserve requirements. (c) Extends power to regulate payment of interest by

member banks to include all insured banks except mutual savings and Morris Plan banks not members of System. (d) Requires member banks to maintain same reserves against Government deposits as against other

Section 324 permits waiver of reports and examinations of bank af-

filiates where deemed unnecessary fully to disclose relationship. Section 325 (a) extends prohibition against loans and gratuities, to examiners of all insured banks. (b) Extends prohibition against disclosure of confidential information to FDIC examiners. (c) Corrects impractical features of law prohibiting loans to executive officers, by vesting certain discretion in the Federal Reserve Board, substituting power of removal from office for present criminal provisions, and extending time within which existing loans must be paid.

Section 326 excepts affiliates from existing requirements on loans where affiliation arose out of foreclosure by bank on collateral, and excludes affiliate engaged solely in operating property acquired for bank purposes

Section 327 exempts loans for industrial purposes made with Federal Reserve Bank or Reconstruction Finance Corporation from existing restrictions on real estate loans by National banks.

Section 328 amends Clayton Act to permit Federal Reserve Board to supervise matter of interlocking directorates through general regulations instead of by individual permits.

Sections 329 and 330 bring law governing consolidation of National banks into conformity with that governing consolidations of State and National banks, offer additional protection to dissenting shareholders, but require notice of dissent to be given when vote to consolidate is had.

Sections 331 and 332 extend to FDIC protection now given other Federal institutions against misleading use of name and extend to all insured banks law making robbery of member banks a Federal offense.

A statement by Senator Carter Glass indicating that he does not know at this time what his attitude on the bill will be, is given under another head in this issue.

Statement by Senator Carter Glass Says He Does Not Know What Will Be His Attitude on Administra-tion's "Banking Act of 1935"

In a statement issued on Feb. 7, Senator Carter Glass took occasion to answer those who have reported him as antagonistic to the Administration's Banking Act of 1935. In his statement, which we give herewith, the Senator says "I do not know at this time what will be my attitude on the bill." The statement follows:

I regard it as somewhat presumptuous in the persons who have classed me as "in antagonism" to the Federal Administration on the 78-page banking bill just sent up to Congress to be engaged in hostile discussion of my attitude toward a measure not a line of which I had seen nor a copy of which I was able to obtain until the night after it had been sent to the

I have not yet had time to read one-fifth of the bill in the most cursory way, nor have I had time even to read any printed summary of its contents. I do not know at this time what will be my attitude on the bill when it shall have been considered, and it is rather impertinent for certain other per be assuming to state my attitude for me as a prelude to unfriendly criticism.

As to the alleged assertion from one source that I have been proceeding on "undeserved prestige," I may say that whatever prestige, if any, I may have, it was not gotten by using my position as a member of a Banking and Currency Committee of either House of Congress to gamble in foreign exchange with a prison convict partner, nor in any attempt to influence the action of Federal Reserve authorities for my own pecuniary benefit. benefit.

As to the authorship of the Federal Reserve Act, I cannot see that that fact is particularly pertinent at this time, but I am perfectly content to rest that matter with the "Congressional Record" itself, and upon the statements of outstanding persons intimately associated with the circumstances of the time.

Increase of \$1,500,000,000 in Bond Issue of HOLC Proposed in Administration Bill Introduced in Congress-Would Amend Also National Housing

Under bills introduced in Congress by chairmen Duncan U. Fletcher, of the Senate, and Henry B. Steagall, of the House banking committees, an increase is proposed of \$1,500,000,000 (or from \$3,000,000,000 to \$4,500,000,000) in the authorized bond issue of the Home Owners Loan Corporation. Regarding the newly introduced legislation the Washington correspondent of the New York "Journal of Commerce" on Feb. 7, said in part:

Receipt of this bill, which proposed amendments to both the Home Owners' Loan Act and the National Housing Act, had the effect of delaying action on the Roosevelt Banking Act of 1935.

Chairman Stegall of the House Banking and Currency Committee announced to-day that the home loan housing amendments would be taken up first for consideration. There is more popular interest in this newer measure than in the highly technical Banking Act, which does not reach down to the man on the street.

Larger Sum Favored

The Administration had considered that an increased authorization of \$1,250,000,000 would be sufficient to meet the needs for refinancing home mortgages, as indicated by the acceptable applications now on file, but members of Senate and House committees suggasted that the larger sum be provided to take care of some of the "twilight" cases.

In the newly presented legislation it is proposed to extend from 10 years to 20 years the period during which insured institutions created under the National Housing Act are required to build up their maximum reserves and permitting them to pay dividends in any one year when losses are chargeable to reserves, if such are approved by the Insurance Corporation. Purpose of this is to make insurance easier to carry and to enable insured in-stitutions to lend at lower rates.

Annual Premium Cut

The annual premium to be charged by the Insurance Corporation would be reduced from one-fourth of 1% to one-eighth of 1%, a similar reduction being proposed in the amount of the additional assessment, to be based on the total amount in insured accounts, plus creditor obligations. also is done for the purpose of reducing insurance costs and rates.

The Insurance Corporation would be empowered to make loans to, by the assets of, or make a contribution to an insured institution, in its discretion, to prevent defaults.

Under another amendment, the Federal Housing Administration would be permitted to insure not only \$2,000 advances on ordinary property, but also to insure up to \$50,000 advances for financing alterations, repairs and improvements upon apartment houses, hotels, office buildings pitals, commercial buildings, manufacturing and industrial plants, including installation of new permanent equipment and machinery. Purpose of this amendment is to enable the Administrator to promote work on large buildings.

Plan to Cut Capital of National Mortgage Associations

The required capital of national mortgage associations would be reduced from \$5.000,000 to \$2,000,000 to make it easier to organize such associations. They also would be authorized to issue debentures up to 15 times the aggregate par value of outstanding capital stock, instead of the present limit of 10 times such value.

An effort is being made to give the Secretary of Treasury and Director of the Budget supervisory control over the expenditures of the Home Owners' Loan Corporation, Federal Savings & Loan Insurance Corporation and Federal Housing Administration. A similar effort in respect of the Reconstruction Finance Corporation was defeated by Congress.

Amendments proposed to be made in the Home Owners Loan Act are in part as follows:

Mortgages on four-family, instead only of three-family houses, would be made eligible as collateral in Federal Home Loan Banks.

Dividend on Federal Home Loan Bank stock would be permitted without preference as a means of encouraging small banks to lend money at lower rates and induce member institutions to lend more money and at lower

To reduce operating expenses, bank directorates would be reduced from 11 to 9 members, and three of these, instead of two, would be named by

the Government agency.

The Federal Home Loan banks would be authorized to make long term loans on Government obligations and obligations guaranteed by the Government, as well as on mortgage collateral, to encourage member institutions to borrow on Home Owners Loan Corporation bonds on long terms for

It is proposed to increase by \$100,000,000 to a total of \$400,000,000 the amount which may be used for repairs and improvement

The corporation would be enabled to expedite normal mortgage lending by providing cheaper money for the loan banks than can be obtained in the market and by encouraging the development of thrift associations. It would be authorized to buy loan bank bonds or debentures or Federal Savings & Loan Association shares with a fund of \$250,000,000 to be made available for that purpose.

Bill for Drastic Regulation of Utility Holding Com-panies Introduced in Congress—Measure Would Eliminate Such Organizations Within Five Years Denounced by Utility Executives

A bill designed to control, and eventually to eliminate, public utility holding companies was introduced in the House of Representatives on Feb. 6 by Representative Rayburn. The measure is said to have the support of the Administration. Under the bill, holding companies would be entirely abolished at the end of five years. The Federal Power Commission is given extensive authority to regulate such companies and to order them to dispose of securities or to reorganize.

Executives of 10 prominent utility holding companies defended such organizations in a joint statement issued Feb. 7, in which they commented on the introduction of the Rayburn bill. They defended the functions of the holding company and its part in the development of American industry. While admitting that certain additional regulation in this field may be necessary, the executives said that to eliminate holding companies "would seriously impair the service of the country's whole utility system and would irreparably damage many sound operating companies which are to-day dependent on holding company assistance," and "would work untold injustices upon those who have honestly invested in both holding and operating company securities."

A bill similar to that introduced in the House by Representative Rayburn was introduced in the Senate by Senator Wheeler. An outline of the principal features in this measure is given below, as contained in a Washington dispatch of Feb. 6 to the New York "Journal of Commerce":

The legislation is among the most sweeping in scope to come before Congress at any time during the New Deal Administration and is predicated on the findings of the Splawn investigation of utilities made two years ago for the House and Federal Trade Commission, which recently recommended that Congress assume control of public utilities, either under a plan of Fed-

eral incorporation or resort to its taxing powers.

The bill makes no provision for levying a tax, it being understood that this phase of the program would be dealt with later in an omnibus tax bill, expected to be presented to Congress by the Treasury Department. Senator Wheeler said that he plans to offer a tax program of his own,

however, designed to reach holding companies, which would be based on a graduated rate according to the size of the corporation.

Senator Wheeler denounced the holding company as "a device to give a

few men complete control over billions of other people's money," and said "the bill proposes to stop the milking of the operating utilities by the holding company."

ing company."
Stripped of legal verblage, the Wheeler-Rayburn bill provides

1. That the Securities and Exchange Commission order all holding companies which have securities registered with that agency to dispose of these securities, reorganize or dissolve before Jan. 1 1940. Thereafter, the Commission may "in rare instances" permit holding units to continue if their operations are proven conclusively to be of economic necessity to an individual tearlies. vidual territory.

Operating companies are to come under strict Federal regulation. 3. The Federal Water Power Act is to be amended to fit in with the new

Although holding companies are given five years in which to liquidate their assets, the legislation lays down eight restrictions which must be observed by these companies during the interim.

- 1. Unnecessarily complicating holding company structures must be simplified and geographically and economically unrelated properties must be eliminated.
- 2. Future utility holding company investments must be confined to public utility activities. All extraneous or speculative ventures are barred. 3. Pyramiding of structures must stop at once.
- 4. Full reports must be made to the Commission disclosing every detail of the financial condition of companies and the nature of all interlocking relationships.
- 5. Common control of electric utility properties and inter-State gas transmission and domestic and foreign properties is forbidden.

 6. Holding companies are denied the right to earn profits from subsidiary

7. There will be rigid control of intercorporate relations

ary reorganization of holding companies is to be under general administrative control.

United States Supreme Court Sustains Pennsylvania Fuels Tax Act as Applied to Oil Shipped From Delaware to Pennsylvania

The Pennsylvania liquid fuels tax act of 1931 was sustained on Feb. 4 by the United States Supreme Court as applied to oil shipped by the Wiloil Corporation from Wilmington, Del., to Pennsylvania. Advices to this effect were contained in the Philadelphia "Record" of Feb. 5, which also said:

The validity of the act was challenged by the Wiloil Corp., of Pittsburgh, formerly the Willock Oil Corp. It contended the State was attempting to tax oil in inter-State shipment.

It asserted the shipments into Pennsylvania were from its plant at Wilmington, and that Pennsylvania could tax the oil only after it had come into possession of the purchaser.

Federal Court Upholds Secretary of Agriculture Wallace in Reducing Livestock Commission Rates 20%

A Federal Court in Chicago on Feb. 2 upheld the action of Secretary of Agriculture Wallace in ordering a 20% reduction in livestock commission rates, and ordered the dismissal of a suit filed by 157 livestock commission houses attacking the order as arbitrary and confiscatory. The Court dissolved a temporary injunction under which the difference between the higher commission rates previously charged and the lower rates set by Mr. Wallace was impounded by the District Court clerk. The Chicago "Tribune" of Feb. 3 summarized the case as follows:

The orders were issued originally by Secretary Wallace on Jan. 8 and March 12 1934, under power granted to him by the Federal Stockyards and Packers' Act, and 157 Chicago commission firms, headed by C. H. Acker & Co., brought suit to restrain the Government from enforcing them. The suit charged the orders amounted to confiscation of their property with-

out due process of law in violation of the National Constitution and that they were, "arbitrary, capricious and unreasonable."

It was charged in the suit that the orders were against the weight of the voluminous evidence heard by the Secretary in the summer of 1933, in Washington, when farmers, commission men and packers were questioned about the weight of the Chicago starting conditions of the Chicago starting conditions and that they were consistent and packers were provided to the Chicago starting conditions in the Chicago starting conditions and that they were consistent conditions and the Chicago starting conditions are consistent conditions.

about the marketing conditions in the Chicago stockyards.

Policy Held Within Discretion

Objectors charged that Chicago quotations determined largely the live-stock prices throughout the country and that the orders were an attempt to restrict the sales here

The ruling of the judges held the orders were sustained by the evidence and that they were reasonable and not arbitrary. While Judges Alschuler and Barnes concurred in all Secretary Wallace's findings of fact, Judge Wilkerson, in a dissenting memorandum, held that although he did not agree with the adoption by the Court of all of the Secretary's findings of fact, he joined in the entry of the decree which dismissed the bill for want of equity.

Senate Committee Amends \$4,880,000,000 Work Relief Bill—Prevailing Wage Rate Provision Inserted— Substitution of \$2,880,000,000 Dole Almost Wins Secretary Ickes Statement

Three major amendments in the Administration's \$4,-880,000,000 work relief bill were made as the measure was under consideration by the Senate Appropriations Committee on Feb. 7, despite the opposition of Committee members supporting President Roosevelt. The Committee by a vote of 12 to 8 approved an amendment sponsored by the American Federation of Labor requiring that the security payments proposed by the President be abandoned in favor of the prevailing wage rate. The Committee also adopted a provision requiring the employment of private contractors on all projects where more than 10% of the work is performed by skilled labor, and inserted a statement that wherever possible the facilities of private enterprise shall be used.

The Committee on Feb. 7 restored to the bill a section giving the President the right to acquire real property through condemnation proceedings. A Washington dispatch of Feb. 7 to the New York "Sun" discussed the other amendments to the measure as follows:

The amendment made in the Committee to-day, if supported by action of the whole Senate when the bill reaches the floor, will destroy in large measure one of the principal underlying purposes seen in the original work relief program as outlined by the President in his annual message to

That purpose was to use the huge lump sum appropriation as a club with which to compel private industry and enterprise to absorb the present army of the unemployed with the greatest possible speed.

The program was designed to compete with private enterprise, and the President did not hesitate to reveal the fact that it was his intention that no part of the work should be farmed out to private concerns on contract. The Government, he made it clear, was to do the entire job from top to bottom, hiring its men from the relief rolls and, when necessary, employing the key men of private contracting organizations to handle special jobs of great complexity or technical delicacy.

The obvious purpose of all this, it appeared to obervers here, was to threaten private enterprise in such a way as to encourage it to shorten hours and spread the work in its plants to the utmost limit in order to wipe out this Governmental competition.

At the Appropriations Committee hearing on Feb. 6 only a single vote prevented the Committee from substituting for the \$4,880,000,000 work bill a \$2,880,000,000 dole. Senator

Adams of Colorado offered an amendment that would have effected this change, but on the roll call vote there was recorded a 10-to-10 tie, and the proposal was defeated. United Press advices from Washington, Feb. 6, described this action of the Committee in part as follows:

Senator Adams warned that the huge appropriation requested might jeopardize the nation's credit. He was joined in this belief by Chairman Carter Glass (Dem., Va.), who is out of sympathy with the White House in this and other fiscal measures.

■Shortly before the vote Senator James Byrnes (Dem., S. C.), close friend of Mr. Roosevelt and who has presented the Administration's case because of Senator Glass' avowed opposition to the bill, left the committee room hurriedly to telephone the White House.

On the first vote, Senator Adams' amendment was adopted by a vote of 9 to 8. Senator Glass and Senator Elmer Thomas (Dem., Okla.) and Senator William G. McAdoo (Dem., Calif.) did not vote. On the roll call vote, however, the vote was tied, 10 to 10, and the proposal was defeated.

This is the way those who attended the meeting voted:

For the Administration: Hayden Arizona Thomas Oklahoma Parker.

For the Administration: Hayden, Arizona; Thomas, Oklahoma; Byrnes, South Carolina; Russell, Georgia; Coolidge, Massachusetts; Bankhead, Alabama; O'Mahoney, Wyoming; McAdoo, California; Trucan, Missouri,

all Democrats; and Norbeck (Rep., S. Dak.).

Against the Administration: Glass, Virginia; Copeland, New York;

Adams, Colorado; McCarran, Nevada, Democrats. Hale, Maine; Keyes,

New Hampshire; Steiwer, Oregon; Dickinson, Iowa; Townsend, Delaware;

Carey, Wyoming, Republicans

Senator Byrnes was not satisfied when the meeting adjourned to-day that another attempt would not be made to substitute the dole for work relief when the group assembles again to-morrow. The amendment can be offered again and its proponents are determined to carry their fight to the floor if they lose in committee.

Such action would be certain to precipitate a long and bitter fight

Barbour Enters Fight

This was assured to-day when the measure was attacked by Senator W. Warren Barbour (Rep., N. J.), who appealed to Republicans to block further grants of Congressional powers to the White House.

He recommended that \$880,000,000 of the huge fund which is to be diverted to direct relief channels be contained in a separate measure which could receive prompt approval while the Senate debated the works bill. The Administration is opposed to this, however, fearing it would endanger the jobs-for-all program.

Secretary of the Interior Ickes told the Senate Appropriations Committee on Feb. 1 that he had not been consulted about the bill, that he did not know how the money was to be expended, and that he did not know what part he was to play in the distribution of the funds. A Washington dispatch of Feb. 1 to the New York "Herald Tribune" outlined this testimony in part as follows:

The statements surprised members of the Committee, in view of the fact that, as head of the Public Works Administration, he has had charge of allotments of more than \$3,000,000,000 for public works in recent months.

The testimony gave satisfaction to many Democrats at both ends of the Capitol who are hostile to Secretary Ickes and would like to see him pried loose from his powerful place in the Administration organization and retired to private life. They are hoping he will have nothing to do with the expenditure of the huge works fund of \$4,000,000,000 which is carried in the bill, plus \$880,000,000 for direct relief.

Committee Closes Hearings

Secretary Ickes threw doubts on the idea, advanced by the President, that 3,500,000 men now on relief can be employed if the \$4,000,000,000 for that 3,500,000 men now on reher can be employed if the \$4,000,000,000 for mon-Federal projects. If this were turned over for that purpose, he estimated it would serve to employ 600,000 men. On the basis of this estimate, Committee members calculated that 2,400,000 men might be eventually employed by use of the \$4,000,000,000. Secretary Ickes said he could start putting men to work in sixty days if allowed \$1,000,000,000 for non-Federal projects.

Another \$1,000,000,000 the Secretary advised the Committee, could be utilized on Federal projects. Although this was little discussed, it referred to roads, rivers and harbors and the like.

Earlier references to the bill (which passed the House Jan. 24) appeared in our issues of Jan. 26, page 565, and Feb. 2, page 727.

Congressional Committees Consider Social Security Bill—Attorney General Studying Constitutionality of Legislation—Retailers Press Own Program League Urges Attention to Various -Liberty

The Administration's Social Security Bill continued as the principal subject of discussion this week before the House Ways and Means Committee, with Republican opponents of the measure assailing it as one that might stir up a taxpayers' rebellion. These charges were made Feb. 6 by Senator Hastings of Delaware and Representative Treadway of Massachusetts. On the same day, before the Senate Finance Committee, Abraham Epstein, Secretary of the American Association for Social Security, suggested that the Committee investigate both the financing and the "propaganda" behind the Townsend old-age pension program.

A contention that the payroll tax in the bill is not legal brought the disclosure on Feb. 7 (according to the Associated Press) that the Justice Department is studying that phase of the measure. The press accounts from Washington,

Feb. 7 also stated in part:

The argument was advanced by James A. Emery, general counsel for the National Association of Manufacturers, one of the last witnesses before the House Ways and Means Committee. The bill will be considered for possible amendments next week in secret session.

Mr. Emery did not use the word "unconstitutional," but expressed his view of the unemployment insurance tax of 3% on pay rolls in this language; "The tax here imposed we believe to be injurious instead of beneficial, and

when we examine it closely we believe it is not a legal tax at all."

Representative Robert L. Doughton, of North Carolina, chairman of the committee, subsequently informed reporters that he had asked Attorn General Homer S. Cummings to assign an assistant to consider the constitu-

Mr. Emery's argument was that a tax to be legal should be purely for the purpose of raising revenue for the Federal treasury. "This legislation upon its face," he told the committee, "is pointed to one result—that is to secure State legislation upon a subject on which the States have not legislated."

He was referring to provisions in the bill under which the Federal Government would collect the 3% payroll tax, but credit to any employer against that charge 90% of what he had paid into a State job insurance fund provided it had the approval of the Federal Government.

Mr. Emery said also that the 3% tax would pyramid, being collected on very payroll from raw material to finished goods; was not levied in accord with ability to pay, and would tend to make machines replace men because machines draw no salaries and hence do not add to the payrolls.

Mr. Doughton said the bill was so voluminous that the committee would have to pass to-morrow, Saturday and Sunday absorbing it. week we can start talking about amendments," he said.

In a move to harmonize unemployment insurance plans of New York State and the Federal Government, a subcommittee of the State's unemployment insurance committee won the support on Feb. 4 of Senator Robert F. Wagner, Democrat, of New York, for a flat 3% payroll tax on employers according to Washington advices on that date to the New York "Herald Tribune" which also said in part:

The flat tax would take the place of the sliding scale base for employers' contributions which is now incorporated in the Federal legislation. Federal proposal would relate the tax to the Federal Reserve Board's index of industrial production.

The State bill definitely fixes the contribution at 3%, which is the lowest that can maintain the scale of insurance benefits proposed by the President's

Committee on Economic Security, according to the latter's report.

The New York committee also urged the strengthening of the Federal bill and provision of guarantees against discriminations as between different States. It would accomplish this through insertion of more definite standards in the Federal legislation as requirements upon the States.

Definite Benefits Named

While the Federal legislation is silent upon such matters, the State bill provides a 16-week maximum payment period and benefit payments on a 50% wage basis with a maximum of \$15 per week and a minimum of \$5 a week. The committee stated that it was particularly important to have Federal standards laid down with respect to these subjects in order that conditions deemed acceptable in legislation of other competing industrial States might be known in advance

Earlier Committee discussion of the Federal bill was noted in the "Chronicle" of Feb. 2, pages 727 and 728. Retailers who testified before the House Ways and Means Committee Feb. 1 advocated the retailers' economic security plan which was unanimously adopted by the recent convention of the National Retail Dry Goods Association. This testimony was summarized, in part, as follows in a Washington dispatch of Feb. 1 to the New York "Herald Tribune:"

The delegation of retailers was led by Samuel W. Reyburn, President of Associated Dry Goods Corp., operating series of stores from New York to Minneapolis, in presenting the retailer plan. Speaking as a representative of the retailers in the National Retail Dry Goods Association, Albert D. Hutzler, of Hutzler Bros., Baltimore, urged that under unemployment insurance provision be made for establishment of a differential in rates due to experience after two years, as against five years as now written in the bill.

Would Stabilize Jobs ,

"We think this is essential, as it will stimulate employers to stabilize employment and prevent employers from taking wage-saving measures which would throw more people upon the benefits of the unemployment reserves," Mr. Hutzler said. "The incentive to regular employment will be greatly augmented by the differential in the rates."

In the same connection, the retailers urged that minimum standards

of compensation be written into the bill in order that no State may adopt such low standards that most industries can take advantage of differential

rates and thus give the partially-co-operating States a competitive advantage over fully co-operating States.

After considerable study, retailers feel that contributions to any fund for unemployment reserves should be made by the employer, the employee and the State, Mr. Hutzler declared.

Advices from Washington Feb. 5 said that the President's personal approval of the bill in final form will be asked before House leaders seek to push the measure through that body without important change.

Meanwhile, on Feb. 3, the American Liberty League issued a statement urging that more serious consideration be given the social security program. We quote in part from the League's statement, as given in a Washington dispatch of Feb. 3 to the New York "Times":

"The pending Wagner-Doughton bill covers a tremendously broad field," a statement of the Liberty League said. "If passed, none of its provisions become effective before the fiscal year 1936. In these circumstances there no excuse for too hasty action

"The legislation is not of an emergency character. It should be given the most careful consideration by the Congress. The various subjects should be separated into independent measures in accordance with the ordinary procedure.

'Any legislation enacted should be based on sound fiscal policies and should not impose an excessive burden upon the Federal Government. 'Any old age annuity system established by the Federal Government

based on contributions by employers and employes should be self-sustaining. "To the greatest extent possible all social insurance plans should involve reliance upon the co-operation of the States.

"Taxes imposed upon industry for unemployment insurance and old age

pensions should not be so burdensome as to retard recovery.

"Unemployment insurance, amply safeguarded, should tend to place upon industry a proper responsibility for a stabilization of operations.

"There may be justification for the exercise of the Federal taxing power to assure the enactment of unemployment insurance laws by all the States, but the attempt in the pending bill to compel the States to write into their laws controversial collective bargaining provisions is an improper use of

The League termed such proposals as the Townsend Plan "fantastic."

We also quote from Associated Press Washington advices on Feb. 6 regarding the discussion of the bill on that date:

One of the Republican critics was Senator Hastings of Delaware. Before the House Ways and Means Committee he commented that the taxes imposed would "not take effect until after the next general election," and

asserted those taxed would not get back what they put in.

"When you get 40,000,000 people to paying a tax to the Federal Government, I care not how little it may be, I think you'll find a resentment that will be felt by every person in public life," he declared.

The other critic was Representative Treadway of Masaschusetts. He

predicted that, when the Committee later this week takes up the bill with its own legislative clerk, numerous changes will have to be made. Before the Senate Finance Committee, Abraham Epstein, Secretary of

the American Association for Social Security, suggested that the Committee investigate both the financing and "propaganda" behind the Townsend pension plan. The House Committee already has sought such information from Dr. F. E. Townsend, who promised to submit later a statement about his aides and the funds raised by his organization.

Senator Gore said he understood Townsend organizers made as much as

The Postoffice Department has looked into the promotion of the Townsend plan, but no results have been revealed.

Hearings Before Senate Committee on Agriculture to Consider Means for Restoring Export Trade, Particularly Cotton—Secretary Hull Denies Report He Proposed New Economic Conference—George N. Peek, James P. Warburg and B. M. Anderson, Jr., Among Those Heard by Committee

The Senate Committee on Agriculture has continued this week the hearings begun by it on Jan. 30 to consider reasons for the decline in exports and particularly cotton, and to ascertain views as to how a restoration of trade may be effected. A reference to the earlier hearings appeared in our issue of Feb. 2, page 724. On Feb. 1, George N. Peek, Special Adviser to the President on Foreign Trade, was heard by the Committee, and, according to the Washington correspondent of the New York "Journal of Commerce," he charged that his job as head of the Export-Import Bank of aiding industries in financing sales of merchandise abroad has been made "impossible" by the restrictions placed upon his operations. From the same advices we quote:

He also charged that the American Agricultural Administration has been unwilling to use its authority to finance loans to the extent that he believed it should and that there were too many Government agencies having "fingers in the pie" in connection with the expansion of exports.

Cites Cotton Deal

Mr. Peek said that the proposed cotton barter deal with Germany involving three-quarters of a million bales had been blocked by the State Department after it had been approved by the directors of the Export-Import Bank and another deal with Italy involving cotton had been blocked by the AAA when it refused to guarantee the loans. He told the Committee that there should be a consolidation of the govern-

mental agencies dealing with foreign trade under one central organization and announced his intention of recommending to Congress shortly legislation making more elastic and enlarging the powers of the Export-Import Bank. . . During his appearance before the Committee Mr. Peek laid down:

5-point program for American foreign trade policy as follows:

"1. Recognition by us that foreign trade has become a definite and direct concern of governments and that unless our foreign trade interests receive backing and assistance similar to that given by other governments to their traders we will not be able to compete on equal terms.

"2. In order to develop consistent and effective foreign trade policies the present fifty or more organizations in our governmental setup dealing with foreign trade activities should be tied together and should function under unified direction.

3. Accurate and up-to-date records of our commercial and financial relations with each individual country must be kept, as we must know how we stand on our trade and international balances at any given time if we

are to steer our course intelligently.

"4. As international trade cannot move on a one-way street and as we must increase imports if we are to be paid for increased exports, we should pursue a policy of selective exports and imports, sending abroad, preferably in manufactured form, those products we can best produce, particularly agricultural products, and taking in turn those raw materials which we need and such other products the importation of which does the least violence to our domestic economy.

Would Settle Exchange Issue

"5. In the case of countries exercising exchange controls against us, the satisfactory solution of the exchange problem should be a prerequisite to the negotiation of any general trade agreement. When our nationals fill their part of a contract and their foreign customers theirs, and the foreign government intervenes, I think that our nationals have a right to ask our Government to act on their behalf."

'If we want to trade we can trade without waiting upon a general stabilization of the currencies of the world, general reductions in tariffs, or general reduction by international action of other trade barriers," Mr. Peek added. "We can do it by resorting to the common sense principle of Yankee trading. of bargaining without prospective customers, country by country.

The Secretary of State, who was one of those who testified before the Committee on Jan. 31, was quoted to the following effect in Washington advices to the "Wall Street Journal" of Feb. 2:

Published reports that he had proposed before the Senate Agriculture Committee that a new world economic conference be called were denied by Secretary of State Hull.

Mr. Hull explained that there was no use in calling another conference

while the organization of one already exists in London.

The United States has made no overtures to other nations in regard to

reconvening of the London conference, he said. Mr. Hull believes, however, that world trade could be stimulated by exchanges of views through diplomatic channels.

The account from Washington Feb. 1 to the New York "Journal of Commerce" contained the following:

Backs Hull's Views

Indorsement of the views given the Committee by Secretary Hull as to the cause of the depression was expressed at the hearings to-day by Russell C. Leffingwell, partner of J. P. Morgan & Co., who assailed the nationalistic attitude of the United States and other countries and urged that every effort be made to eliminate tariff restrictions and stabilize exchanges so that the capital markets may be reopened.

Alston H. Garside, Economist of the New York Cotton Exchange, told the Committee that the shrinkage in exports of cotton is not due to a decline in the total world consumption but rather to an increased use of foreign cotton due to the fact that it sells below the level of American cotton on the world markets.

Supports Garside

A. E. Hopenberg, President of the American Cotton Shippers' Association, supported the testimony of Mr. Garside, and asserted that the loss of export markets is due to the fact that the method of relief which has been opted under the Agricultural Adjustment Act has had the effect substantially of pricing American cotton out of the world's cotton markets. He read excerpts from several letters from abroad stating that because of the high price of American cotton sales could not be made

At the hearing on Feb. 4, James P. Warburg, Vice-Chairman of the Bank of the Manhattan Co. of New York, stated that bankruptcy faces the United States unless it removes the necessity for relief. In United Press advices from Washington Feb. 4 he was quoted as follows:

"Relief is only relief," Mr. Warburg said in criticizing various New Deal "If we don't remove the necessity for relief, we'll go bankrupt.

Mr. Warburg squarely opposed further devaluation of the dollar, as suggested by Senator Elmer Thomas, Oklahoma Democrat.

'I believe in Government economy, reduction of taxes and reduction of interest rates on debt instead of reducing the value of the currency," he said. "Reduction of interest rates was effected by law in Australia, and I believe we can do it here by law just as we devalued the dollar by law. It is much less vicious than reducing the value of currency.

Urges Foreign Trade Plan Immediate adoption of a definite policy on foreign trade was also advocated by Mr. Warburg.

"Quite irrespective of whether America chooses national self-containment, or internationalism, or a middle road," Mr. Warburg told the Committee, "it is of the utmost importance that the choice be made soon and definitely. Business can adjust itself to almost any set of circumstances. Business, however, cannot adjust itself to perpetual uncertainty, and recovery will be retarded more by a vacillating and undefined foreign policy than by a wrong foreign policy definitely adhered to."

After outlining his ideas on foreign trade, the banker said the President

should be given bargaining powers to use in obtaining agreements with other nations, but the basic decision of what our policy should be, should

remain with Congress.

Mr. Warburg summarized his recommendations in a 4-point plan as

1. The first essential is that we should have a clearly defined foreign policy, which we lack at present. 2. My own opinion is that such a foreign policy should be one which inclines more toward internationalism than economic self-sufficiency-a

policy deliberately designed to stimulate imports. We must shape such a policy on the basis of carefully ascertained interest of the nation as a whole.

4. We must modify our procedural methods so that there will rest more clearly upon Congress the obligation to determine what our foreign policy is to be; and so that there will rest upon the Executive and upon the Tariff Commission the obligation to work out the details of such a policy and to

W. Leslie Harriss, member of the New York Cotton Exchange, urged on Feb. 5 that steps be taken to increase foreign trade by financing of the Export-Import Bank. From Washington Feb. 5 the "Journal of Commerce" further reported:

He said that the bank should be willing to accept I. O. U.'s, believing that the loss will be inconsequential, "because foreign buyers will find a way to get the dollars back.'

Sees Powers Adequate

It was his view that the Export-Import Bank has all the power neces st the present time to aid in the expansion of foreign trade but said that one troubles probably is that it is too permissive and should be made

Senator Smith remarked that he believed the success of the bank will determine the success or failure of this country in getting out of the depre sion and indicated that further steps might be taken to inquire into its

operations.
"It is up to this Committee to find out why it is not functioning," he declared. "If it is not functioning what is the use of keeping it."

Tobacco Tariff at Issue

Support of a lower tariff wall for Dutch imports, said the Feb. 4 advices to the "Journal of Commerce," was seen in the testimony of several leading cigar manufacturers, who held that any increase in the duty on wrapper tobacco from Sumatra would be detrimental to the domestic eigar industry. This type of leaf, they contended, is the one satisfactory wrapper which blends well with American grown filler tobacco. In part, these advices continued:

In addition, these witnesses declared that, despite testimony to the contrary, domestic wrapper leaf is not satisfactory to many consumers who, it was said, state their preference for a Sumatra wrapper when purchasing

Representative Kopplemann (Dem., Conn.), appearing for growers of Connecticut shade grown leaf, recommended pa for Sumatra wrapper leaf imports. This quota could be realized under an amendment to the Kerr-Smith Tobacco Marketing Act, he explained. The speaker also hit the spread in prices between foreign and domestic grown rappers because of the cheaper and more favorable labor conditions in Sumatra.

This stand was echoed by Howard S. Cullman, George Peckham and H. J. Love, representing growers of wrapper tobacco in New England,

Florida and Georgia.

B. G. Meyer, Vice-President General Cigar Co., led the attack against existing tariffs with the declaration that a reduction in duty on Sumatra wrappers would materially aid sales of American grown filler tobacco. An expanded use of the foreign wrapper would, he said, increase cigar con-sumption to such extent that much of the existing tobacco surplus in this country could be diverted into ordinary commercial channels.

The witness was supported in this stand by Harry S. Rothschild, President Bayuk Cigar Corp., who insisted that maintenance of the pres duty would not aid American wrapper growers because the domestic type

is unfavorable to cigar manufacturers

B. M. Anderson, Jr., Economist of the Chase National Bank of New York, appealed for reductions in tariffs on industrial imports before the Committee on Feb. 2, according to the "Wall Street Journal," which also noted:

Mr. Anderson claimed that in many instances at present only about 1% of production of industrial products are allowed in this country from abroad and that if 10% or 15% were allowed to come in, a 30% or 40% expansion in manufacturing would result and also a corresponding benefit to agricultural producers.

Senator Smith (Dem., S. C.) welcomed Mr. Anderson's testimony, stating

that he was revising his opinion of Wall Street.

Government's Cotton Curtailment Program Viewed by John H. McFadden, Jr., as Tantamount to Paying Farmer a Bonus Not to Export Cotton

Characterizing the Government program of curtailment of cotton production as being tantamount to paying the farmer a bonus not to export his cotton, John H. McFadden, Jr., of the cotton merchant firm of Geo. H. McFadden & Bro., contends that it would be cheaper and better to pay the cotton farmers a fixed sum on every bale of cotton that is exported provided the market goes below some specified

According to Mr. McFadden, the present Government policy of crop control and loans cannot be continued indefinitely, and if this program is not abandoned in the very near future this country's export markets for cotton will be definitely lost to foreign countries that are increasing their production. Commenting on the phenomenal increase in production by Brazil, Mr. McFadden expressed the belief that with an increasing supply of labor that country will become one of the major cotton-growing countries of the world. Mr. McFadden also makes the following comments:

It makes no difference what title is given to the various acts of legislation which have resulted in higher prices for cotton. The result is the same. We have embarked upon a program which is tantamount to paying the farmer a bonus not to export his cotton. The program has entailed an expenditure of huge sums of money. Would it not be more to the interest of the country as a whole if we pursued the reverse policy and gave the

farmer a bonus to export his cotton?

Suppose there had been no 12c. loan this year, that the Bankhead Act had provided for 12 million bales, and that this amount of cotton had been produced. Would it not have been cheaper and better in the long run to have pro-rated among all the cotton farmers a fixed sum on eve that was exported provided the market was below, let us say, 10 cents? This idea is not original and it is worthy of the most serious consideration. By such a plan, we would have exported more cotton, avoiding to a large extent the surpluses which are now piling up in the Government's hands, we would have retained the markets which had been ours for years, and substantially more labor would have been employed in the handling, transporting, and shipping of cotton to foreign markets.

To-day the cotton farmer is traversing a charming and delightful road. There is every reason to believe that at the end of it he will find a very

bitter disappointment.

If we are to gradually reduce our cotton crop to domestic needs, what is going to happen to the farmer who in the past has been producing the export surplus? Unless he is prepared to face the situation squarely and make an intelligent choice between a square fight with his ever-increasing competitors and two or three years of halcyon profits, he is surely going to find himself with no means of support and an object of charity. In that event, it would seem that he would be entitled to say to Congress: "Gentlemen, you would seem that he would be entitled to say to Congress: "Gentlemen, you have gotten me into this mess, therefore I am your responsibility from now on." It is to be believed that such a situation would be repugnant to the average American citizen, and, furthermore, there is no guarantee that a future Congress would be willing to accept this responsibility.

United States Supreme Court Sustains Power of Senate to Punish for Contempt—W. P. MacCracken Jr. Must Serve Sentence for Refusal to Furnish Papers in Air Mail Case.

The United States Supreme Court on Feb. 4 handed down gion upholding the power of the Senate to punish William P. MacCracken Jr., Assistant Secretary of Commerce for Aeronautics in the Hoover Administration, for contempt of the Senate. As a result of this ruling, Mr. MacCracken must serve ten days in jail because of alleged failure to produce certain papers which were considered necessary in the air mail investigation. On that occasion he was acting as counsel for several clients figuring in the Senate inquiry. Associate Justice James C. McReynolds did not

participate in the case, but the other eight Justices were unanimous in their decision, which was written by Associate Justice Louis D. Brandeis, Mr. MacCracken's attorneys had contended that the Senate did not have authority to arrest a private citizen "with a view to punishing him directly and without recourse to the courts for the past commission of a completed act which prior to the arrest and proceedings to punish had reached such a stage of finality that it could no longer affect the proceedings of the Senate or any committee thereof, and which, and the effects of which, had been undone long before the arrest.'

A dispatch from Washington Feb. 4 to the New York "Times" summarized the issues in the case and quoted from

the decision as follows:

Written by Justice Brandels, the Court's opinion detailed the history of the MacCracken case, and swept away the defendant's arguments under three heads. Dismissing the contention that the Senate cannot deal with a past act, Justice Brandeis said:

"Where the offending act was of a nature to obstruct the legislative process, the fact that the obstruction has since been removed or that its removal has become impossible is withou, legal significance."

Colonial Assemblies Had Power

Congressional power to punish private citizens went as far back as 1795. and Colonial Assemblies exercised it before the Revolution, Justice Brandei stated. He said that no case had been found where authority to punish was successfully challenged merely because the act had already been consummated.

This power to punish for contempt was not impaired because there was a statute making the destruction of papers a misdemeanor, the court held. In fact, the two punishments could go together.

MacCracken had also held that he should not be punished because he

had surrendered all papers he had, was willing to testify and was not responsible for the acts of other men concerned. But the Court said the question of guilt on this matter should be decided by the Senate.

Lawyers were puzzled when Justice Brandeis spoke of "questions which the Senate proposes to try." The Senate had long since decided the questions in the MacCracken case, but the facts were not in the report of the case before the Supreme Court. case before the Supreme Court.

Senators Voice Satisfaction

The Senate was not in session when the MacCracken verdict was handed down, but there was an air of great satisfaction among those who were

concerned with the air mail investigations a year ago.
"I never doubted the Senate's right to punish for contempt nor about the circumstances of this case coming within the Senate's powers," said

Senator Block, Chief of the air mail investigators.

"To have held otherwise would have been an absolute destruction of the Senate's power to conduct investigations thoroughly. Its hands would have been paralyzed.

Mr. MacCracken came into the air mail inquiry in January last year, when as attorney for the Western Air Express, Pan-American Airways, Transcontinental and Western Air, &c., he declined to give to the investigating committee certain papers because, he said, conflict between lawyer and ciient was involved. The committee suggested that he telegraph to e clients, and he did so, producing the papers on Feb. 1

But before the committee decided to compel production of all the documents, he said he had allowed Gilbert Givven of the Western Air Expres to examine the files to remove documents unrelated to the air mail con-

MacCracken was taken into custody on Feb. 12. Immediately he sued for a writ of habeas corpus in the District of Columbia Supreme Court, which ruled against him. The case was taken to the District of Columbia Court of Appeals, which by a divided opinion held in his favor. The Senate carried the case to the Supreme Court, which to-day sustained the District Supreme Court and reversed the appellate court.

Justice McReynolds engaged in neither consideration of nor the decision in the MacCracken case, but no reason was ascribed.

United States District Court at Birmingham to Rule on Legality of Questions in Suit Against TVA Feb. 11
—Continuance of Temporary Injunction Forbidding Municipalities to Use Federal Funds in Constructing Electricity Systems

Judge W. I. Grubb, of United States District Court at Birmingham, Ala., on Feb. 2 extended an injunction forbidding 14 Alabama municipalities from obtaining funds from any Federal agency to construct electricity distribution systems to obtain "yardstick" rates set by the Tennessee Valley Authority. Judge Grubb said that he would determine on Feb. 11 the legality of the question involved and whether the case depends upon illegal competition.

Samuel Ferguson, of the Hartford Electric Light Co., in making his annual report to stockholders on Feb. 3, said that the activities of the TVA embrace the "potential possi-bilities of a very real social contribution," in showing the people that increased use of electricity will result in lower rates. At the same time, Mr. Ferguson pointed out that taxes equal 25.5% of all other operating expenses, and said that "it is only through the concerted effort on the part of all parties concerned toward the curtailment of governmental expenditures that there is any hope of relief t the obstacle to lower rates."

The plaintiffs in the suit brought by the group of preferred stockholders of the Alabama Power Co. to test the constitutionality of the TVA rested on Jan. 31. On the following day Judge Grubb refused to strike out an attack by the stockholders on the "good faith" of the TVA in lowering the price paid for the Wheeler Dam site from \$150,000 to \$48,700.

A dispatch from Birmingham, Jan. 31, to the New York "Times" discussed arguments in the case as follows

The TVA contends that the only interest of the Chemical National Bank is to protect the security holders and that that is a question for settlement

by the Alabama Power Co. and the trustee.

J. M. Barry, Executive Vice-President of the power company, testified to-day that the company would be forced, if it carried out its contract, to abandon its North Alabama distribution systems or to build new transmission lines to them.

James Lawrence Fly, chief TVA counsel, said that the question of value raised by the Chemical National Bank should be "raised when we sue later for specific performance of the contract."

Ezra B. Whitman, consulting engineer of Baltimore, was another witness for the company on the expected development of power consumption in TVA territory.

Right of Pennsylvania to Liquidate Affairs of State Building and Loan Associations Upheld by United States Supreme Court

On Feb. 4 the United States Supreme Court confirmed Pennsylvania's right to wind up the affairs of building and loan associations in State courts, said the Philadelphia "Record" of Feb. 5, which went on to say:

The decision, given in Washington, is a far-reaching one. It ends a series of test suits to determine whether Federal courts may take jurisdiction.

The U. S. Supreme Court held that the U. S. District courts in Philadelphia erred in appointing receivers for the Mortgage Building & Loan Association and the Christian A. Fisher Building and Loan Association over the protest of the State Department of Banking.

The Supreme Court ruled the State should have allowed to been liquidate sociations and ordered the lower court to turn their affairs over to the State Banking Department.

The Supreme Court held that where the State has not exercised its right to appoint receivers the Federal Courts may do so, but pointed out that in the instances at issue the State already had taken over control

Judge George A. Welsh, of the U. S. District Court, appointed John G. Williams, Joseph B. Simon and Charles Denby, Jr., son-in-law of former U. S. Senator David A. Reed, as receivers of the Mortgage B. & This was on Feb. 9 1933, at the request of a creditor who was a resident

Mr. Schnader Protested

William A. Schnader, then Attorney General, protested on the ground building and loan associations are "creatures of the State.

The Federal Court's action was sustained by Judges J. Warren Davis. Joseph Buffington and J. Whitaker Thompson, in the U. S. Circuit Court of Appeals, and Mr. Schnader carried his protest to the Supreme Court.

Mr. Schnader also filed the protest against appointment of Federal re-

ceivers in May 1933, for the Fisher Association.

In the case of the Penn General Casualty Company of Philadelphia, the U.S. Supreme Court held the Federal Courts had power to appoint receivers, but made its ruling "without prejudice" to an application by the State Insurance Commissioner to assume jurisdiction. This case also

From the Philadelphia "Inquirer" of Feb. 5 we quote the following:

The building and loan battle was fought from start to finish by former Attorney General William A. Schnader, who suffered defeats in the United States District Court and the Circuit Court of Appeals before the final victory in Washington.

"I appealed these cases originally," Mr. Schnader explained last night, "because I felt that to permit Federal receiverships of Pennsylvania banks, sociations and insurance companies would strike a body building and loan as blow at these institutions. The decisions of the Supreme Court mean that these institutions may now operate without the constant threat of Federal receiverships over them."

Net Operating Income of Class I Railroads in 1934 Below 1933—December Income Increased Over Year Ago

Class I railroads in 1934 had a net railway operating income of \$462,698,447, which was a return of 1.77% on their property investment, according to complete reports for the year just filed by the carriers with the Bureau of Railway Economics of the Association of American Railroads and made public Feb. 8. The net railway operating income in 1933 was \$474,212,304 or 1.80% on their property investment. The Association further reported:

Property investment is the value of road and equipment as shown by the books of the railroads, including materials, supplies and cash. The net railway operating income is what is left after the payment of operating expenses, taxes and equipment rentals but before interest and other fixed charges are paid.

This compilation as to earnings in 1934 is based on reports from 147 I railroads representing a total mileage of 239,052 miles

This reduction in 1934, compared with the preceding year, in the amount of net earnings despite an increase in the volume of freight and passenger traffic handled and a continuation in effect of many of the drastic reductions made necessary by the low level of business in recent years. The reduction resulted from the partial restoration of the 10% deduction in wages of employees and a marked increase in the cost of materials and supplies.

Freight revenue amounted to \$2,633,386,912 in 1934, compared with

\$2,492,893,539 in 1933, an increase of 5.6% enger revenue in 1934 amounted to \$346,220,277, an increase of

\$16,878,386 or 5.1% compared with 1933.

Total operating revenues of the Class I railroads in 1934 amounted to \$3,271,446,473 compared with \$3,095,620,731 in 1933, an increase of 5.7%. Operating expenses in 1934 totaled \$2,441,772,339 compared with \$2,249,535,599 in 1933, an increase of 8.5%. The operating ratio, or ratio of expenses to revenues, increased from 72.67% in 1933 to 74.64% in 1934. Class I railroads in 1934 paid \$239,506,857 in taxes, a reduction of

\$10,138,486 or 4.1% compared with 1933.

Thirty Class I railroads operated at a loss in 1934, of which 8 were in

the Eastern, 8 in the Southern, and 14 in the Western District.

For the month of December 1934, net railway operating income of Class I carriers amounted to \$38,729,833 which was a return of 2.43% annually on their property investment. In December 1933, their net railway operating

income was \$37.726,339 or 2.34% on their property investment.

Total operating revenues for the month of December amounted to \$257,505,761 compared with \$245,346,958 in December 1933, an increase of 5%. Operating expenses in December totaled \$195,351,270 compared with \$187,098,404 in the same month the year before, an increase of 4.4%.

Eastern District

Net railway operating income of Class I railroads in the Eastern District Net railway operating income of Class I railroads in the Eastern District in 1934 amounted to \$273,315,087, which was a return of 2.26% on their property investment. In 1933 their net railway operating income was \$281,770,845 or 2.32% on their property investment. Total operating revenues of Class I railroads in the Eastern District in 1934 aggregated \$1,662,244,316, an increase of 4.9% above 1933, while operating expenses totaled \$1,203,860,965, an increase of 7.9% above 1933.

Class I railroads in the Eastern District for the month of December had a net railway operating income of \$23,924,061 compared with \$20,114,241 in December 1933.

Southern District

Class I railroads in the Southern District in 1934 earned a net railway operating income of \$54,523,781, which was a return of 1.69% on their property investment. In 1933, the net railway operating income amounted to \$59,677,489, which was a return of 1.82%. Total operating revenues of Class I railroads in the Southern District in 1934 amounted to \$408,242,451. an increase of 5.1% over 1933, while operating expenses totaled \$315,267,-588, an increase of 8.3%.

Net railway operating income of Class I railroads in the Southern District in December amounted to \$6,570,303 while in the same month of 1933 it was \$6,615,028.

Western District

Class I railroads in the Western District in 1934 earned a net railway operating income of \$134,859,579, which was a return of 1.25% on their property investment. In 1933, the railroads in that District had a net railway operating income of \$132,763,970, a return of 1.22% on their property investment. Total operating revenues of the Class I railroads in the Western District in 1934 aggregated \$1,200,959,706, an increase of 6.9% above the preceding year, while operating expenses totaled \$922,643,-786, an increase of 9.4% compared with 1933.

For the month of December, net railway operating income of Class I railroads in the Western District amounted to \$8,235,469. Net railway operating income of the same roads in December 1933, totaled \$10,997,070.

Report of Railroad Credit Corp. for January— Liquidating Distribution Made Jan. 31 **-\$726,166**

The Railroad Credit Corporation, according to report as to its financial condition filed Feb. 4 with the Interstate Commerce Commission, has, through liquidating distributions since termination of its lending period on June 1 1933, returned \$21,353,344, or 29%, of the net emergency freight revenues collected by it. Of this amount, \$9,442,565 has been in cash and \$11,910,779 in credits on obligations due the Corporation. The Corporation announced:

The fourteenth liquidating distribution was made by the Railroad Credit Corporation on Jan. 31, to participating carriers, and amounted to \$726,166, or 1%. Of the total amount, \$344,834 was in cash and \$381,332 in credits on carriers' obligations.

Cash receipts in January amounted to \$210,852, of which \$181,335 was on account of loans, \$29,508 for interest on loans and \$9 from miscel-

The following is the Corporation's statement of condition as of Jan. 31:

Approved: E. R. WOODSON, Comptroller. Washington, D. C., Feb. 1 1935. No. 35.

Selected Income and Balance Sheet Items of Class I Steam Railways for November

The Bureau of Statistics of the Interstate Commerce Commission has issued a statement showing the aggregate totals of selected income and balance sheet items of Class I steam railways in the United States for the month of November. These figures are subject to revision and were compiled from 143 reports representing 149 steam railways. The present statement excludes returns for Class I switching and terminal companies. The report in full is as follows:

TOTALS FOR THE UNITED STATES (ALL REGIONS)

Parama Mana	For the Mon	uth of Nov.	For the 11	Months of
Income Items	1934	1933	1934	1933
Net railway operating incomeOther income	\$ 31,882,801 12,225,455	\$ 37,662,127 13,616,973	\$ 423,117,536 152,881,528	\$ 436,485,963 156,341,551
Total income	44,108,256	51,279,100	575,999,064	592,827,514
Rent for leased roads Interest deductions Other deductions	11,259,868 43,477,835 1,495,401	11,027,701 43,642,196 1,725,666	122,686,064 477,475,747 18,894,173	485,902,725
Total deductions	56,233,104	56,395,563	619,055,984	621,013,700
Net income	c12,124,848	c5,116,463	c43,056,920	c28,186,186
On common stock	13,313,420 874,617			

Balance Sheet Items	Balance at End of Nov.	
	1934	1933
Selected Asset Items—	8	\$
Investments in stocks, bonds, &c., other than those of affiliated companies.	801,458,295	753,047,157
Cash	348,401,163	340,969,389
Demand loans and deposits	36,146,518	40,195,729
Time drafts and deposits	34,963,578	57,313,344
Special deposits	54,361,403	28,849,113
Loans and bills receivable	6,698,805	10,064,384
Traffic and car-service balances receivable	49,271,497	53,058,170
Net balance receivable from agents and conductors	43.756.679	43,407,467
Miscellaneous accounts receivable	156,507,021	136,535,202
Materials and supplies	300,793,376	295,733,197
Interest and dividends receivable	51,285,364	49,373,672
Rents receivable	3.262.073	2.565.094
Other current assets	3,873,045	4,455,713
Total current assets	1,089,320,522	1,062,520,474
Selected Liability Items— Funded debt maturing within 6 months. a	178,427,295	297,222,440
Loans and bills payable b	307.559.735	340,005,656
Traffic and car-service balances payable		66,593,413
Audited accounts and wages payable	220,750,051	217.182.494
Miscellaneous accounts payable		56,741,411
Interest matured unpaid		216,459,534
Dividends matured unpaid.		
Funded debt matured unpaid		
Unmatured dividends declared		
Unmatured interest accrued		
Unmatured rents accrued	41,734,563	
Other current liabilities	16,356,938	
Total current liabilities	1,434,097,979	1,190,570,653
Tax liability—U. S. Government taxes	34,842,892	
Other than U. S. Government taxes	140,891,026	157,689,948

a Includes payments which will become due on account of principal of long-term debt (other than that in Account 764. Funded debt matured unpaid) within six months after close of month of report. b Includes obligations which mature less than two years after date of issue. c Deficit.

National Industrial Traffic League Opposed to Regulatory Policies Embodied in Transportation Legislative Proposals of Co-Ordinator Eastman

Opposition to the general regulatory policies expressed in the transportation legislative proposals submitted to Congress and the President on Jan. 30 through the Interstate Commerce Commission, by Joseph B. Eastman, Federal Co-Ordinator of Transportation, was voiced on Jan. 30 at the offices of The National Industrial Traffic League, in Chicago. Joseph H. Beek, Executive Secretary of the League, in expressing his views said:

The members of the League are generally opposed to binding other forms of transportation with the tight chains now wound about the railroads. It has been our idea, for instance, that although it would be wise to have Federal regulation of the interstate moter vehicle transportation, both as regards rates and services, the proper way to bring that form of transport into regulative balance with the railroads would be to ease up a bit on the latter. Mr. Eastman's proposals, as we read them, would affect not the slightest relaxation on railroad regulation but, on the contrary would strangle progress in other forms of transportation as effectively as the railroads have been strangled.

The Traffic League, which through its membership, it is said, voices the opinion of those in control of a large part of the freight tonnage of the country, has expressed itself officially on practically every one of the Eastman proposals. In principle, it approves of motor truck transportation regulation as well as of the reorganization of the Interstate Commerce Commission into separate divisions with specific jurisdiction over firance, railroads and motor vehicles.

It does not favor a division to supervise water transportation for the simple reason that it opposes Federal regulation of water carriers, Mr. Beek said. On the other hand, the proposal that ports and gateways be included under the preference and prejudice parts of the Interstate Commerce

law marches with recommendations made by the League at its 1933 annual meeting in Chicago. Mr. Beek added:

But we shall strenously oppose Mr. Eastman's proposal to eliminate that part of the fourth section of the law that would free the Commission from consideration of the compensatory factors of rates when it grants permission to depart from that section, not because we do not favor such a change, but because it does not go nearly far enough. For years sentiment among shippers opposing the "long-and-short-haul" provisions of that act has been growing, and more than a year ago we instructed our committee to work unfalteringly toward that end.

Mr. Beek said that these proposals represented the most important single matter to come before shippers for consideration in a good many years. He likewise stated:

We shall convene our executive committee as soon as possible to consider ways and means of making our voice heard, and it is quite possible that we shall deside to call a special meeting of the membership, something we have not found it necessary to do for a number of years.

The plan proposed by Co-Ordinator Eastman for Federal control of major transportation agencies was referred to in our Feb. 2 issue, page 693.

New York State Recovery Act Held Invalid by State Supreme Court Justice

The New York State Recovery Act was declared invalid, Feb. 1, in a ruling handed down by State Supreme Court Justice Meier Steinbrink of Brooklyn. The Court decided that the Legislature in passing the bill had virtually surrendered its soverign legislative power to Federal administrative authorities, and in so doing ignored constitutional provisions designed to prevent this evil. Mrs. Anna M. Rosenberg, New York Compliance Director of the National Recovery Administration, said Feb. 2 that State NRA officials were not disturbed by the decision, which she contended "stands alone against an overwhelming weight of contrary authority in courts of equal and higher jurisdiction."

The ruling was issued in a suit brought by members of the Allied Motion Picture Operators Union against the Parkside Ridge Amusements, Inc., operators of three Brooklyn motion picture theaters. The union members sought the reinstatement of seven discharged union operators and the recovery of money damages. Justice Steinbrink, in deciding in their favor, overruled the defense plea invoking the State Recovery Act.

The motion picture union made a contract with the defendant in August 1934, whereby the operating company was to employ Allied motion picture machine operators. Formerly they had employed members of the Empire State Motion Picture Operators Union. The operators belonging to the Empire State Union were discharged and Allied operators were taken on. The Empire State union filed a complaint with the Regional Labor Board

The Empire State union filed a complaint with the Regional Labor Board charging the defendant had violated Section 7-A of the NRA, with the result that the theater concern discharged the Allied operators and re-employed members of the Empire State Union. In challenging the Allied union's suit for relief in the Supreme Court, the theater company contended that it had to breach the contract of August 1934 under the State law. It also alleged that the discharge of the Empire State members was based on a discrimination against their union.

The findings of Justice Steinbrink were quoted, in part, in the Brooklyn "Daily Eagle" of Feb. 2:

"The desirability of subjecting those engaged in intra-State commerce within the State to the same standards of fair competition applicable to those engaged in intra-State commerce within the State cannot be questioned. Nor may one doubt that the method adopted by the State to equalize standards of commercial conduct is calculated to prevent duplication with its attendant expense and perhaps confusion. But these considerations, salutary as they may be, cannot be employed as a means of leveling constitutional barriers. While the State Recovery Act does not purport to make the NRA or any of the codes adopted thereunder the law of this State, it does provide that in the field of intra-State commerce violations of the Federal statutes and the codes may be punished or restrained where such violations occur within the State.

Questions Constitutionality

"The Legislature has not alone declared a policy but created a new crime, the definition of which is left to agencies foreign to the State. By indirection the entire machinery for the adoption of codes and agreements and issuance of licenses under the Federal statutes is carried into the State Act. The question is whether this short cut to a perhaps desirable end is sanctioned by the State Constitution.

"The Legislature," he concluded, "should neither invite Federal encroach-

"The Legislature," he concluded, "should neither invite Federal encroachment nor surrender to a foreign agency over which it has no control or supervision."

Ohio Recovery Act Held Invalid as Unwarranted Delegation of Legislative Power to Administrative

The Ohio Recovery Act, modeled after the National Industrial Recovery Act, was declared invalid Jan. 28 in a ruling issued by the State Court of Appeals at Toledo in the case of the State against Edward Dusha, coal dealer of Toledo operating as the City Coal Co. The opinion said that the State Act was an unwarranted delegation of legislative power to an administrative officer, and in this respect the Court's finding was remarkably similar to that of a New York court incident to the Recovery Act of that State. The New York decision is noted elsewhere in this issue of

the "Chronicle." The opinion of the Ohio Court of Appeals, written by Judge Phil M. Crow of Kenton, of the Third Judicial District, sitting at Toledo with Judges Harry W. Lloyd and Silas S. Richards. Judges Richards and Lloyd

The decision reversed that of Judge Stahl of the Lucas County (Ohio) Common Pleas Court, who upheld the State Act together with the price-fixing clause. Mr. Dusha had attacked this clause, and admitted he undersold code prices and refused to join in the formulation of a code, also declining to contribute assessments.

The decision was summarized as follows in the Toledo "Blade" of Jan. 28:

The suit was brought by the State, in the name of Frazier Reams, prosecutor, under provisions of the law, and was prosecuted by Oscar Brown of the Attorney-General's office, and Arnold Bunge, at that time Assistant County Prosecutor. U. G. Denman represented Mr. Dusha, operator of the business for his mother, Mrs. Edith Dusha.

An injunction was sought to compal Mr. Dusha to saide by the coal rate.

An injunction was sought to compel Mr. Dusha to abide by the coal price schedule set up by the Authority and to contribute assessments. It was charged that Mr. Dusha had violated wage regulations and gave short weights, but in the lower court it was held that these contentions were not sustained.

The Court of Appeals in its opinion said, in part:

"On the trial in this court defendant conceded that he had not complied with certain requirements of the code, namely, that he had not made any report pursuant thereto, and that he made and would continue to make

sales below code prices.

"There was no evidence tending to prove that he in any manner participated in or encouraged the formulation or establishment of the code, nor did in any way consent thereto."

Supreme Court Cited

The opinion then cites a ruling of the United States Supreme Court, Jan. 7, in which grounds for the disposition of the Dusha case are found.

The opinion continues: "The Ohio Act under which the code was established with which defendant has not complied in the particulars we have alluded to, possesses in essence the identical infirmities found by the Supreme Court of the United States in the Federal statute which was the

subject of controversy in the case cited.
"We could not, were we inclined to so undertake, add or take from the reasoning of the opinion of the learned Chief Justice, for, as would have

"Therefore, without further words, we find that as to the matters requiring decision in the case at bar, the provisions of the Ohio Act under which the code in issue arose, are invalid in that the Act in its relation to such matters is an unwarranted delegation of legislative power to an administration officer, the Governor of the State, and to the other persons sought to be authorized with him to formulate codes. to be authorized with him to formulate codes.

"The finding and judgment will, therefore, be for the defendant at the cost of the plaintiff."

Gov. Lehman of New York Signs Bill to Further Housing Program

Yesterday (Feb. 8) Gov. Lehman of New York signed five new bills, one of which is intended to speed up President Roosevelt's housing program in New York State. An Albany dispatch to the New York "Sun" said:

This was the Hamerman bill permitting banks to invest in the bonds of the Federal Housing Administration. It was passed by the Legislature after President Roosevelt had appealed to the States for laws to facilitate the housing program. Gov. Lehman signed without comment.

Gov. Lehman Signs Bill Extending New York State Longer Milk Control Law

Governor Lehman signed, on Jan. 25, the Kelly-Dunn bill extending New York State's milk control law for another year. Associated Press advices from Albany, Jan. 25, said:

The measure passed both houses without debate, and Governor Lehman signed it without comment. It provides for an extension of the law in its present form. Amendments may be submitted and considered separately under an agreement reached by party leaders. The milk law now will run until March 31 1936.

Bill Relieving Bank Stockholders from Double Liability Passed by New York Assembly

A proposed constitutional amendment which would relieve stockholders of banks from double liability was passed by the New York State Assembly on Feb. 5 by a vote of 130 to 10, and now goes to the Senate, where similar action is expected. We quote from an Albany dispatch, Feb. 5, to the New York "Herald Tribune," which also said:

Passage by the Senate would bring it before the voters at the election

next fall, as it was passed by both houses last year.

The proposal would repeal Section 7, Article 8, of the Constitution, which requires that when a banking institution fails its stockholders lose not only the amount of their stock but are required to contribute an additional equal equal amount. additional equal amount. The proposal was introduced by Assemblyman Jacob H. Livingston, Democrat, of Kings, Chairman of the Committee on Banks.

A similar bill in the Senate is sponsored by Senator McCall. In Albany advices to the "Wall Street Journal" of Jan. 31 it was noted:

The recommendation to eliminate the double liability on bank stocks was made originally by the State Banking Board, and embodied in the 1933 report of Joseph A. Broderick, former Superintendent of Banks, to the Governor and the Legislature.

Banking Bills Passed by New York State Assembly-One Authorizing Banks and Trust Companies to Maintain Insurance in FDIC Signed by Governor

The New York State Assembly passed and sent to the Senate three Livingston bank bills, said an Albany dispatch, Feb. 5, to the New York "Herald Tribune," which further

One prohibits banks and trust companies from lending to officers and s without the approval of directors. companies to convert themselves into State banks, and the third authorizes banks and trust companies to maintain deposit insurance in the Federal Deposit Insurance Corporation.

The last of the three bills was opposed by Assemblyman Abbot Low Moffat, Republican, of New York, and the vote by which it passed was

On Feb. 8 Gov. Lehman signed (after it has passed the Assembly and Senate) the bill amending the banking law to authorize banks and trust companies to maintain deposit insurance in the FDIC.

Report of Joint Legislative Committee on Banks Submitted to New York State Legislature—Many Changes in Banking Law and Practices Recommended

A report of the Joint Legislative Committee on Banks was submitted to the New York State Legislature on Jan. 31 by the Chairman of the Commission, Senator Thomas F. Burchill. It is pointed out by the Savings Banks Association of the State of New York that while the report itself is not yet available, a statement to the press gives a general idea of the Committee's recommendations. From the Association's "News Bulletin," dated Feb. 1, we also quote:

The Committee recommended many changes in the banking law and in banking practices. Senator Burchill said that the Committee was greatly concerned with the matter of licensed lenders, finance companies and auto loan companies. He also said that the Committee believed "that a serious and menacing social danger exists due to the vicious and oppressive practices now prevalent in the field of money lending." The report of the Committee stated that the growth of the organizations and the individuals under the supervision of the Banking Department has been rapid, but, unfortunately, the stress that has been placed upon the people has led to the mushroom growth of the group of individuals, who by trick or device or sheer terrorism are oppressing those unfortunates who have found it neces-

sary to obtain small amounts of money for immediate needs.

Senator Burchill also said that the Committee would further such regulatory legislation as is essential to curb the vicious activities of the finance

companies and loan sharks.

A summary of such legislation was given out, as follows, by Senator Burchill:

1. That the Banking Law be amended to provide that all persons or corporations who engage in the business of lending money on the security of mortgages, endorsed notes, assignments or other similar forms of securities, or who purchase paper secured by such mortgages, be brought under the supervision and inspection of the Banking Department, and that any and all forms of the instruments or agreements that they use in conducting their business be subject to the approval of the Banking Department.

2. That no seizures or repossessions of automobiles be made except in

the presence of and with the assistance of a police officer or peace officer, and an inventory of the contents of the automobile be filed with the police or other similar department.

 That no charge for insurance obtained for the benefit of the lender shall exceed the rates filed by the Superintendent of Insurance.
 That no officer or employee of a company or corporation operating under this section of the banking law shall give to any borrower his own

check or cash in exchange for the company check issued to the borrower.

5. That in the event that there be included in the finance charges on the sale of any automobile a reserve of any kind that is to be rebated to the dealer by the finance company, the fact of such rebate shall be made known to the purchaser of the automobile. In addition, the committee feels that the present rates allowed to licensed lenders under the small loan act should be made the subject of careful study to see if a scaling down of the interest charges might be in order.

The Association's "Bulletin" also had the following to say:

It was further said by Senator Burchill that the Committee recommended that it be continued so that it could commence work upon a re-codification of the banking law. Senator Burchill pointed out that the last general revision of the banking law took place 25 years ago, in 1909. The Committee believes that now is the proper time for such a project. "It is not that our banking law is fundamentally unsound or out-moded, but rather that through the necessity of expediency a great deal of patch work has been done upon the original code." Times and conditions have changed materially, and it is believed that our banking law should be studied so that the State of New York will have as soon as possible a banking law that will be a model of clarity, comprehension, conciseness and practicability for the protection of its citizens and its banks, and for the emulation of our sister States and the National Government.

Senator Burchill further stated that the report contained many salutary and advisable changes in the present banking law, the principal ones of

which are as follows: 1. The clarification of the powers of the Banking Board so that it will he able to fix maximum rates of interest on thrift accounts or the dividends of mutual institutions, the power to limit withdrawals in cases of emergency, and the power to remove officers for violations of the banking law or for continued unsafe and unsound practices.

2. An endeavor has been made to enable the average depositor in the bank to be placed upon an equal footing with any other depositor in the State. Accordingly, the Committee has recommended that the practice of pledging assets to secure the various forms of governmental deposits be and secondly, that the statutes now granting preferences upon the liquidation of a bank be repealed.

3. That the present requirement of two examinations by the Superintendent of Banks in a year be changed to provide for two examinations to

be made in 15 months, and that the Banking Department make thorough and comprehensive examinations of the trust departments of banks or trust companies. The Committee renewed its recommendations that Senator McCall's bill of last year (Senate introductory 704), which would bring about the divorcement of commercial banking from the business of buying and selling securities, be passed, and it further urged the re-passage of the joint legislation affecting Article 8, Section 7, of the Constitution, which imposes a double liability upon bank stocks.

4. The Committee recommended that Section 188, Subdivision 7, be

amended so as to provide that no trust company wishing to sell participat-ing interests in a mortgage to its trust estates could purchase the same with its own funds, and further that any trust company selling or transferring such interests to its trust estates should be required to obtain, before so doing, a certificate as to the value of the mortgage from the Banking Department, and further, that notice of the intention to make such a purchase for the trust estate be given to the beneficiary 15 days beforehand together with a statement that the mortgage is not in arrears or delinquent in any respect. Under no circumstances is a mortgage that

is in arrears or delinquent in any respect to be sold or transferred.

5. In regard to savings banks, the Committee recommended that the maximum amount which they could receive from any one person be reduced to \$5,000 and that the so-called moratorium bill on railroad bonds be extended for another year. It also recommended that savings banks be required to publish annually a detailed list of their bond investments.

6. The Committee recommended the creation of an insurance fund for the shareholders of savings and loan associations, and has prepared and submitted a bill on the same which is Senator McCall's bill (Senate introductory 38). Further, in regard to savings and loan associations, the Committee recommends that they be compelled to establish cash reserves and that they be limited in their investments in mortgages, real estate, banking premises, furniture and fixtures and other non-liquid assets, to not more than 90% of their total assets, and further that the maximum of savings shares which can be held by any one individual shall be not more than \$5,000. A further recommendation was that the associations be permitted to accumulate a surplus of 20% rather than 15% now allowed before compulsory distribution of dividends must be made.

7. The Committee has conducted an exhaustive survey of the cost of liquidation of closed banks in this State and has published its findings thereon. One major recommendation on this subject is that the counsel fees should be limited to 2% of the total amount of assets realized and not more than \$25,000 in any case except that application may be made to the Supreme Court for additional allowance where necessary.

District Supreme Court in New York Dismisses Injunction Suit Charging NIRA Illegal—Steel Firm of W. Ames & Co. Refused Order to Require Government to Buy Its Products

An injunction suit attacking the constitutionality of the National Industrial Recovery Act and an Executive Order requiring bidders on work financed by Federal funds to adhere to National Recovery Administration codes was dismissed on Feb. 1 by District Supreme Court Justice F. D. Letts of Washington. The suit was brought by W. Ames & Co., New Jersey iron and steel manufacturers, against Secretary of Agriculture Wallace, Secretary of Interior Ickes and Thomas H. MacDonald, Chief of the Bureau of Public Roads. Judge Letts, in refusing to direct the Government to purchase the Ames products, said that "Congress has unlimited power to prescribe such rules and regulations as it sees fit regarding the public works of the United States, and for work for which its funds are to be expended." We quote below regarding the decision from an account in the Washington "Post" of Feb. 2:

The company contended that it was doing an intra-State business and was unable to compete with the larger steel firms which, it claimed, had drawn up the code of fair competition for the industry.

The Ames company admitted that it was a non-signer of the code, and because of a Presidential edict it was prevented from even submitting a bid where Federal funds were used. This amounted to a boycott, the firm charged, and therefore was illegal. The edict required prospective bidders to file a certificate showing compliance with the code before the bids could be opened.

Secretary of Agriculture Wallace, Secretary of the Interior Ickes and Thomas H. MacDonald, Chief of the Bureau of Public Roads, who are in charge of Federal moneys earmarked for road building, were named defendants. W. Ames & Co. charged it had formerly done a large portion of its business with the State of New Jersey in providing steel for road work. The State cannot now, it was shown, buy their products because of the restriction.

Four Possible Roads Out of Depression, According to Dr. Louis H. Haney—End of Spending, Balanced Budget and Currency Stabilization Listed as Necessary to Upturn

There are four possible ways in which the "wasteful experiments" of the present Administration may be terminated and business recovery may begin, Dr. Louis H. Haney of New York University, said Feb. 2, in an address before the Real Estate Board of Baltimore. The Supreme Court, he said, may compel "honest observance of the spirit of our Government"; taxpayers may revolt; the radicals may revolt, or the American sense of humor may come to the rescue. The only way out of the depression, he declared, is to cease spending for unproductive purposes, balance the budget, correct inflation and stabilize the currency.

High taxes and the high cost of building constitute the principal difficulties in connection with the real estate situation, Dr. Haney said. Next year, he predicted, will see

the end of the trough of the building cycle, while already a discriminating person may find bargains in real estate, which furnish one of the best hedges against inflation.

We quote below, in part, from a summary of Dr. Haney's address, as made public Feb. 2:

Dr. Haney stated that he could see at least four possibilities as to termination of these experiments and the beginning of recov "First, I can see a bare possibility that the Supreme Court will uphold the Constitution, in ways which will limit the financial and other experiments of the Administration, and compel the honest observance of the spirit of our Government. As long as the Administration has the will to borrow and spend, however, Supreme Court decisions can hardly stop it.

"Second, I can see the possibility of a revolt of the taxpayers, which might stop the spending, and thus prevent more serious inflation."

Dr. Haney stated it as his opinion that taxes are already too high, as evidenced by the large percentage of the national income taken from taxpayers, and by the incre eased resort to indirect "nuisance" taxes which are burdensome to the small consumer

'Our governments, State and Federal, are spending so much that they don't dare send the bills home to the taxpayers. So they 'charge it,' and run up debts, thus leaving their budgets unbalanced. Taxes, however, are becoming so burdensome, both on business and on individual consumers, that effective opposition to spending may arise."

Third, there may be a falling out among the radicals, the specker said, for it is not unusual to find great disagreement among them. He referred in this connection to Huey Long, Senator Olsen, Father Coughlin and Dr. Townsend as differing from the New Dealers in radicalism.

Fourth, the speaker saw the possibility that the American sense of humor would come to the rescue. He said: "Maybe that great forgotten than the American sense of humor would come to the rescue.

man, the American sense of humor, may be found; and in the midst of our troubles we will come to see the joke. Then we will grin and bear the necessary liquidation and readjustments still required for sound recovery." Dr. Haney suggested a young persons' pension of \$200 a week as being better than the Townsend old age pension with its \$200 per month, since the former would give a more rapid "turnover," and by compelling the youth of the land to spend their money on the old folks, it would inculcate respect for age. "After all, many of the experiments which we have tried in vain have been rather funny."

It was the speaker's conclusion that the only way out of this depression to follow the way which led us into it. "The steps which led us in is to follow the way which led us into it. were inflation, overspending and overproduction. We borrowed our way in.
Consequently, we must reverse the process and cease spending for unproductive purposes. We must quit trying to borrow ourselves out of debt and balance our budgets. We must correct inflation and stabilize our currency."

In reference to the real estate situation, Dr. Haney stated that in his opinion there are two great difficulties: (1) High taxes, which have resulted in a large percentage of delinquency in the case of real estate, and (2) the high cost of building, notably wages, in the building trades. The distressed condition of real estate is still an important handicap, said he, and mortgage insurance, together with steps to broaden the market for insured mortgages, may afford some assistance.

President Roosevelt to Seek Extension of NRA for Two Years—Message to Congress Expected to Propose Limited Revision—Permanent Legislation Avoided for Fear of Further Experimentation

President Roosevelt is expected to send to Congress a special message recommending the extension of the National Recovery Administration for a period of two years, and certain simple revisions in its method of procedure, according to Washington announcements Feb. 6, following a conference of legislative leaders at the White House. It was said that the decision to make the NRA extension for a limited period was in accord with suggestions by Administration officials who discussed the subject with the President, and it was agreed that it would be better not to seek permanent legislation at this time, since that might result in further experimentation. An outline of some of the proposed changes in the NRA was given as follows in a Washington dispatch of Feb. 6 to the New York "Herald Tribune":

The modifications in NRA procedure to be sought by the Administration

Lightening the penalties for violations and writing them into the law rather than leaving them to administrative and executive orders.

Declaring against price-fixing, but providing for price control under exceptional circumstances and with strict governmental supervision.

Granting power to the NRA to impose hour and wage conditions where an industry fails to come to an acceptable agreement.

Simplifying trade practice regulations and emphasizing self-government in this field.

Provision of special governmental regulation for the natural resource industries.

Provision for Small Business.

Definite machinery is also expected to be proposed for giving small businesses a hearing when protesting code provisions and to prevent the codes from monopolistic practices.

"We discussed the proposal to extend the NRA," said Senator Joseph T. Robinson, Democratic leader of the Senate and spokesman for the "It is expected the President will send to the Congress at his convenience, probably in a few days, a message on the subject announcing certain principles which he thinks ought to be incorporated in

the legislation. I shall not assume to anticipate his announcement.

"The committees will proceed to consider the message and report legislation in time for its disposal before June 16. It is expected the NRA will be extended for a definite period. The modifications will be simple and such as have been demonstrated necessary by experience.

At the conference were Donald R. Richberg, the President's recovery program co-ordinator; Senator Robinson, Senator Robert F. Democrat, New York, one of the sponsors of the original NRA legislation; Senator Pat Harrison, Chairman of the Finance Committee; Speaker Joseph T. Byrnes, Representative Robert L. Doughton, Chairman of the Ways and Means Committee; Representative Sam Rayburn, Chairman of the House Interstate Commerce Committee, and Representative Edward T. Taylor, acting House floor leader.

A Washington dispatch of Feb. 6 to the New York "Journal of Commerce" discussed the prospects for extension of the NRA as follows:

At the very outset it can be said that the proposal will be subjected to attacks by Senators Borah, Idaho, and Nye, North Dakota, who charge that, far from preventing monopoly, the codes and NRA have fostered monopoly, and that the pacts and their administration have largely been

in the interests of the larger units in industries.

Further, Representative Connery (Dem., Mass.) will continue his fight to have equal representation for organized labor on all code boards. The thirty-hour week also will figure very largely in discussions, for there even are business men who have openly charged that a shorter than the present work week is necessary to take up the slack in unemployment.

Price fixing and production control will be flayed by the Senators, if

these provisions are retained in the draft legislation presented to Congress. However, price fixing, except as to the natural resources industries, is believed to be out of the picture, and production control is questionable.

The legislators named are not to be overlooked for they each have very substantial followings and there are promises of heated debates that will prevent hurried action on the proposed legislation.

Ticket Agencies Refused Injunction to Prevent En-forcement of NRA Theater Code—Had Contended Regulations Act to Create Monopoly-Decision to Be Appealed

An application by five theater ticket agencies for an injunction to restrain the NRA Code Authority for the Legitimate Theater from enforcing a provision of the amended code requiring the licensing of brokers and the posting of a \$500 bond was dismissed on Jan. 31 by Justice John E. McGeehan of the New York Supreme Court. Abrams, counsel for the ticket brokers, said the case would be appealed. The brokers contended that the regulations act to create a monopoly by restricting competition and are therefore illegal and unconstitutional. The agencies argued that they cannot comply with the code and continue in business, since they are required to sell tickets at only 75c. above the box office price and they are compelled to pay that much to certain brokers. The decision was summarized in part as follows in the New York "Herald Tribune" of Feb. 1:

"It appears that certain theatrical proprietors have signed a contract regulating the terms under which they will sell tickets to brokers," Justice McGeehan wrote in an opinion accompanying the dismissal, "and those who have not signed are satisfied to adopt those terms. One of these terms is that they will not sell to brokers who do not conform to certain rules.

Board to Enforce Rules

"The theatre manager can sell his tickets to whom he pleases, provided only he does not refuse on the ground of race, creed or color. These plaintiffs seek to enjoin the body which the managers have agreed shall make the rules. I fail to see how the plaintiffs have any standing. "As I see this case, I think the plaintiffs have failed to recognize

what the code of fair competition really is. It is not a fiat of the Legislature. It is not an executive decree. It is not a judgment of the courts. It is a contract drawn up by members of a business, under the supervision of the executive agencies. Unless the members specifically relinquish rights, they still have them."

Brock Pemberton, chairman of the Code Authority's Committee on ticket distribution, hailed the dismissal of the application as the beginning of real enforcement of the code, explaining that it was the first time the code authority's regulations for ticket brokers had been upheld by the courts. "I think the move now will be to enforce the code," he said, explaining that it had not have afformed by the courts. plaining that it had not been enforced before because of argument over the authority's legal right to do so.

George N. Peek, President's Adviser, Advocates Extension of Foreign Trade by Greater Use of Barter—Chester C. Davis Urges Continued AAA Control of Farm Production

George N. Peek, Special Adviser to the President on Foreign Trade, on Jan. 30 told the Illinois Agricultural Association, meeting in Quincy, Ill., that the Nation's foreign commerce could be materially stimulated through the adoption of a "barter" program that would partially supplant the usual processes of outright buying and selling. Pointing out that foreign trade is a definite concern of governments, Mr. Peek said that the "50 or more" Governmental agencies dealing with foreign trade should be united under a single direction. The Government should act, he said, to settle foreign exchange problems, and should develop a policy of selective exports and imports.

Chester C. Davis, Administrator of the Agricultural Adjustment Act, told the Association on the same day that continued control of farm production is needed to maintain the farmer's "present improved condition." He also advocated the restoration of farm exports and increased industrial production with lower industrial prices. A Quincy (Ill.) dispatch Jan. 30 to the Chicago "Journal of Commerce" quoted Mr. Peek as saying:

"If we are to abandon any measure of protective tariff, it should be only in exchange for tangible advantages to us. Foreign nations will scramble to preserve and increase their trade in the United States upon any fair basis. I desire only what is fair, but fair to our agriculture, industry, labor, and to America.'

From the same advices we quote:

Wants to Trade Now

Prefacing his address with the statement that he wants to trade now and not await the millenium when all currencies may be stabilized to a common standard and all trade barriers reduced to a common basis, the President's adviser carried his audience through an exposition of trade and money, studies conducted on foreign trade, England's activities as the world's greatest foreign trade financing and trading nation, what the United States has done, and his views as to what should be done now.

Mr. Peek reiterated his five-point program for foreign trade policy.

Government should back and assist foreign trade interests.
 Co-ordination and unification of direction of all Governmental foreign trade activities.
 Maintenance of accurate and current records.
 Selective exports and imports.
 Governmental action on foreign exchange problems.

Perhaps the most potent factor in the congestion of America's interna tional trade, Mr. Peek said, is that of exchange restrictions imposed by about 35 nations, more or less arbitrarily. The satisfactory solution of the exchange problem, he said, should be made a prerequisite to negotiation of any general trade agreement.

The discussion of foreign trade and money was the highlight of to-day's session of the Association, as much of the day was consumed by some 15 separate district meetings of the delegates. Chester C. Davis, AAA Administrator, discussed his activities and W. I. Myers, Governor of the Farm Credit Administration, talked on the future farm credit system, in sion.

Earl C. Smith, in his address as President of the Association, declared that the most potent of all efforts directed toward National recovery has been the National farm program, and pointed out advantages of crop adjustment programs and surplus control.

Advocating a feed grain control program financed from a processing tax on live stock, Mr. Davis assured the Association that corn loans will be continued in 1935. The rate of the tax would be decided on the basis of the benefits derived by each kind of stock, Administrator Davis said. He called upon his farm listeners to do everything in their power to aid the AAA in securing an amendment to the farm act in order that the livestock tax could be imposed.

According to Associated Press advices from Quincy, Jan. 30, Mr. Davis told the Association that continued control of farm production was necessary to maintain the farmer's "present improved condition." The same account said:

He added two other suggestions. Restoration of as much foreign exports as can be had on reasonable terms, and increased industrial production with lower prices on industrial goods.

Mr. Davis said that "agriculture sailed blindly on" during the depres maintaining a 5-year production level at 87% of the 1929 level through 1934, although in 1932 industrial production fell to 41% of the 1929 level.

Some progress was made last year, he asserted, when the total National cash farm income rose 20% above 1933, but it was due to various factors and not by all means to the adjustment program.

He pointed to an improved condition in grain and cotton stocks as encouraging.

Increase in Farm Income Shared by all Agricultural Regions and States Excepting Oklahoma—Analysis by Bureau of Agricultural Economics

An analysis of the increase in farm income during the past year, made by the Bureau of Agricultural Economics, United States Department of Agriculture, shows that all agricultural regions and all States except Oklahoma shared in the improvement. Although in North Dakota, South Dakota, Oklahoma, Texas, New Mexico and Utah, receipts from farm marketings in 1934 were less than receipts from farm marketings during 1933 the bureau points out that when rental and benefit payments are added for both years, all States except Oklahoma, show larger total farm receipts in 1934 than in 1933. Oklahoma's position is largely the result of severe drought damage to the cotton crop. In noting this, an announcement issued Feb. 4 by the Department of Agriculture, said:

The analysis is part of a new statistical series by the Bureau, to report monthly farm receipts by States, for principal farm products. The reports are intended to furnish a more current measure of the changing economic conditions of farmers in the various States than has been available heretofore. This series is especially important, says the Bureau, in times of marked fluctuations of both farm marketings and farm prices

Cash receipts from farm marketings in the North Atlantic States were about 16% more in 1934 than in 1933. Rental and benefit payments have not been an important factor in the income to farmers in this area, and the

improvement noted is attributed principally to increased receipts from the sale of dairy and poultry products.

Cash receipts from the sale of farm products in the East North Central States are computed at 14% more in 1934 than in 1933. When rental and benefit payments are included, total cash receipts in these States last year were 19% more than receipts in 1933.

For the West North Central States the Bureau says that with the exception of North and South Dakota, all States in this region had larger receipts from farm marketings in 1934 than in 1933. Almost complete failure of crop production in the Dakotas reduced farmers' income from crops despite higher prices, but large payments by the Government in 1934 in this region raised the total farm receipts in North Dakota 21% above 1933, and in South Dakota 12% above 1933. When rental and benefit payments are included, the region as a whole showed improvement in receipts amounting to 33% over 1933.

For the South Atlantic States the Bureau says the influence of the smaller production in the drought area on prices was an important factor in the increased receipts from marketings last year, the increase from crops and livestock combined being 28%. Tpayments, were 32% above 1933. Total receipts, including rental and benefit

Receipts for the South Central States in 1934, excluding Oklahoma and Texas, were substantially above 1933, it is stated, and including rental and benefit payments the percentage increase was 13% for the region. severe drought in Oklahoma and Texas, it is stated, greatly restricted crop production in these States and was accompanied by a decline in income from marketings of 14% for Oklahoma and 4% in Texas. The Bureau points out, however, there were considerable emergency sales of cattle to the Government and receipts from these together with rental and benefit payments raised the total receipts of Oklahoma to within 4% of 1933 and of Texas to 4% more than in 1933.

The Western States as a group showed an increased of 17% in 1934 compared with 1933, and the addition of rental and benefit payments and income from emergency sales of livestock raised the increase to 26%.

\$629,614,037 Disbursed to Farmers Co-operating in AAA Adjustment Programs

Disbursements to farmers co-operating in the adjustment programs of the Agricultural Adjustment Administration, including payments in connection with the exercise of cotton options and the cotton producers' pool, reached a cumulative total of \$629,614,037 as of Jan. 31, according to the latest tabulation of rental and benefit checks, it was announced Feb. 4. Total payments, as shown by more than 10,000,000 checks issued, were as follows by commodity and program:

In the announcement of Feb. 4, issued by the AAA, it was also stated::

The regular monthly report of expenditures issued to-day by the Comptroller of the AAA, showing detailed analysis of expenditures from date of organization, May 12 1933 to Dec. 31 1934 inclusive, classifies total expenditures of \$733,983,535, showing by State and county the distribution of \$527,501,795 in rental and benefit payments, distribution of \$170,296,958 in removal of surplus operations by disbursing office and commodity, and administrative expenses of \$36,184,780.

The Comptroller's report lists rental and benefit payments, cumulative for all programs to Dec. 31 1934 by commodities, as follows:

Cotton \$202,546,560 | Corn-hogs 159,154,075 | Wheat 146,749,953 | Sugar 55,541 | Tobacco 18,995,664 |

As of the same date as the Comptroller's report, through Dec. 31 1934, the returns from processing and related taxes had reached a cumulative total of \$640.871.403. By commodity on which collected, the cumulative receipts from processing taxes were as follows:

Wheat		Sugar cane & sugar beets.	
Cotton	193,635,531.89	Peanuts	430,917.85
Tobacco		Cotton ginning tax	121,517.31
Field corn	8,191,908.50	Tobacco producers sales	
Hogs	175,896,167.47	tax	1,065,105.01
Paper and jute	11,347,487.37	Unclassified	4,683.~

Loans on Farm-Stored Corn Provided in AAA Corn-Hog Program for 1935

The provision for Government loans on corn stored on the farm in surplus-producing areas definitely will be a part of the corn-hog adjustment program for 1935, it was announced Jan. 30 by Administrator Chester C. Davis. In a speech before the Illinois Agricultural Association at Quincy, Ill., Mr. Davis said:

. . I want to announce definitely that provision for corn loans will be an essential part of our corn-hog program for 1935. Just as last year, only farmers who sign the corn-hog contract soon to be offered will be eligible for these loans. But by this I do not mean that the amount of the loan will be the same. The amount to be loaned per bushel this year has not been determined, and cannot be until later in the season when the essential facts have developed in regard to probable production and feed requirements.

Although not a part of the 1935 corn-hog contract, a Government corn loan program which would be available next fall only to those producers and landlords who signed the 1935 corn-hog contract has been under consideration for several weeks, and loan agency arrangements and other details are being prepared, the Agricultural Adjustment Administration announced. "Since its inauguration in the fall of 1933, Government lending on farm-stored corn has proven very satisfactory and is now recognized as a valuable device for carrying surpluses from one year to another, provided it is coupled with sound production control," Dr. A. G. Black, chief of the corn-hog section of the AAA, commented when definite plans for the loan were announced. He said:

The corn loan program is an important supplement to the corn-hog adjustment program. It will aid contract signers in a financial way and will be an additional factor in stendard production and prices.

be an additional factor in steadying production and prices.

In planning to make loans on farm-stored corn and by tieing the loan program to production control, the Government is, in effect, inaugurating the "ever-normal granary" policy. Contracting producers are enabled to carry adequate reserve supplies over to following seasons, thus preventing excessive marketing of corn and depression of corn prices. In following adjustment programs corn plantings can be regulated in accordance with

these storage supplies and by prospective future requirements. In event of anything like normal weather in 1935, there will be plenty of corn raised in this country for reserve supplies. The maximum acreage of corn which may be planted by contract signers was increased this year from 80% of the 1932-33 average acreage up to 90% of this two-year base in order that farmers might have such a margin. Besides, the contract signers have unlimited use of the acres shifted from corn.

The announcement issued by the AAA, from which the foregoing is taken, added:

The "ever-normal granary" plan would help materially in offsetting variations in yield per acre due to weather, officials believe. Whatever kind of adjustment program is in effect, there always remains the factor of weather which, in any given year, is a variable that cannot be controlled. The weather factor tends to even up over a series of years and thus a sound farm-storage plan to hold over a part of the bumper crops from favorable years would assist in maintaining a fairly constant grain supply. With adequate reserves once established by means of an "ever-normal granary" plan, subsequent plantings could be fitted largely to the estimated current requirements based on effective demand outlook.

An important result of a farm-storage policy would be stabilization of

An important result of a farm-storage policy would be stabilization of the volume of fat livestock coming on the market, according to administration officials. In the past, production of large feed supplies, due to favorable weather, invariably has been followed by greater livestock production almost without regard for the real demand situation. This shift usually continues until the price relationship between livestock and feed grain reaches a neutral point, that is, a point where the return from the hundred-weight of livestock is no longer any greater than the cash price for the amount of grain that would be required to produce the hundredweight of livestock. This shifting about in production of livestock until the price relationship with feed grains is neutral, however, really gains nothing in the long run if production of both feed grains and livestock is overshooting

Scrip Provisions of NRA Retail Trade Codes Stayed to May 1

The National Industrial Recovery Board on Feb. 5 continued until May 1 1935 "or such prior date as may be further ordered," the stay of the effective date of the retail trades code provisions regulating the acceptance of script. The announcement of the NIRA said:

The provisions affected are Article IX, Section 4, of the code for the retail trade; Article VIII, Section 4, of the code for the retail jewelry trade, and Article IX, Section 3, of the code for the retail food and grocery trade.

Each of the sections had been approved subject to a temporary stay. In each case, and then collectively, the stays have been extended. The latest stay would have expired Feb. 6 1935.

A special committee of three was appointed under the code for the retail

A special committee of three was appointed under the code for the retail trade to study the scrip problem. Its report, submitted Oct. 22 1934, recommended substitute provisions for those which had been stayed, but further recommended that the scrip problem be approached in codes of industries issuing scrip in wage payments, rather than in codes for trades accepting such scrip.

After the NIRA Advisory Council studied the report of the Committee, it reached a similar major conclusion, that the scrip problem should be attacked through codes for industries using scrip for wages. The Advisory Council recommendations and those of the Special Committee are now before the NIRA Board.

To-day's order extending the stay cites the Board's findings that such a stay is "desirable until further efforts have been made to effect a control of the problem relating to company scrip, either by amending the codes of fair competition for the so-called basic producing industries, or otherwise."

Stay of Injunction Order Averts Threatened Strike of New York Teamsters and Longshoremen—Appeal to Be Heard in March

A threatened strike of more than 20,000 New York City teamsters and longshoremen, which would have demoralized traffic along the waterfront, was averted Feb. 5 when Justice Burt Jay Humphrey of the Kings County Supreme Court issued an injunction restraining members of labor unions and others from "interfering with the commerce" of the port. This order was made to apply to two classes of workers and to certain steamship companies, but at the same time Judge Humphrey granted a stay pending an appeal. The New York Appellate Division is expected to hear the appeal in March, but in the meanwhile the stay will be operative only during the good behavior of the defendants. Union leaders said they were satisfied with the decision.

The threatened strike was described in the "Chronicle" of Feb. 2, pages 741 and 742. Issuance of the injunction was noted, as follows, in the New York "Times" of Feb. 6:

A week ago last Monday [Jan. 28] more than 20,000 teamsters carried out a one-day strike demonstration, crippling trucking operations, and threatened that if Justice Humphrey granted the restraining order they would strike again and try to bring about a general strike of all organized labor.

The injunction is directed against the International Brotherhood of Teamsters, the International Longshoremen's Association, and a group of steamship companies and agencies accused of co-operating with the unions in interfering with the movement of non-union trucks along the waterfront. Plaintiffs in the suit are the Merchants Association, the Brooklyn Chamber of Commerce and a group of trade organizations, shippers and importers.

of Commerce and a group of trade organizations, shippers and importers. The injunction restrains the unions from interfering with non-union trucking crews at the piers and enjoins the steamship companies and agencies from refusing to accept delivery from shippers using non-union truck drivers, and also from refusing to accept cargo consigned to individuals and concerns employing non-union trucks.

In granting a stay of the restraining order, Justice Humphrey made it clear that it would remain operative only with the understanding that there would be no interference with the free flow of traffic and that the unions would refrain from violence reading the appeal

unions would refrain from violence pending the appeal.

Although no confirmation was obtained, it was intimated that the stay granted by Justice Humphrey was on the basis of a "gentlemen's agreement," under which the plaintiffs agreed not to enlarge their non-union personnel and the unions agreed not to molest non-union crews already at work, pending final disposition of the dispute.

at work, pending final disposition of the dispute.

Walter Gordon Merritt, chief counsel for the plaintiffs, said he was entirely satisfied with Justice Humphrey's decision. He said:

"Justice Humphrey held the combination (of teamsters, longshoremen and steamship companies) to be illegal on the following grounds:

"Because it aims to prevent the carriers from performing their public duty of serving the public without discrimination; because it aims to

force shippers to dictate to their employees as to the union they shall join and thus to force the shippers to violate the provisions of Section 7-A of the National Industrial Recovery Act; and because strikes and refusal to work on the part of the steamship employees constitute a violation of the col-lective bargaining agreements entered into last October between the steamship companies and the International Longshoremen's Association."

FTC Criticizes Banking Influence on Utility Holding Companies—Report to Senate Says Control of "Concentrated Power" to Prevent Abuse Is Difficul

The banking influence in the utility field has become very important, and in some instances might conceivably be exerted in favor of utilities and to the possible detriment of conflicting interests, the Federal Trade Commission said in a chapter of its final report on utility holding companies and their subsidiaries, transmitted to the Senate Feb. 2. Through the joining of large financial and public utility interests, the Commission said, "it would seem possible that machinery might be set up by which dominating interests within the organization might reach out to specific industries and communities over a vast area to influence important factors in the economic progress of such areas and industries."

Economic history has usually shown, the report added, that when such situations exist regulation in the public interests is necessary so to control "concentrated power as to prevent its abuse, and by the same token becomes increasingly difficult."

Discussing regulatory authorities, the report said that their problem "is to see to it that a just portion of benefits of these economies are passed on to the consuming and investing public."

The chapter of the Commission's report made public Feb. 2 described the forms of organization under which holding companies have been developed, the types of control which they have exercised over subsidiaries, and the functions they have undertaken to perform in lieu of subsidiary operating companies. The chapter also discusses the general principles underlying the holding company type of organization, and the results which have arisen from the conduct of such companies in controlling public utilities.

A press release by the Commission on Feb. 2 summarized the section of the report dealing with banking influences as

Discussing the importance of banking influence in the utility field, the Commission says it has become very great, and that inherent in this influence are large potentialities as to the effect on industrial development in the areas served by companies within the sphere of such influence. ing out that the profit of the operating utility as such depends upon the prosperity of the industries and commerce of the communities served, the t says that even beyond this the prosperity of many individual industrial units is dependent on efficient, adequate and low-cost service from the utilities. "If," says the report, "the banking interests should become interested in any particular industry in a given locality, it is conceivable that their influence might be exerted in favor of that interest and to the possible detriment of conflicting interests. Through the joining of such large financial and public utility holding and operating interests, it would seem possible that machinery might be setup by which dominating interests within the organization might reach out to specific industries and communities over a vast area to influence important factors in the economic progress of such areas and industries. Economic history usually indicates that wherever such situations exist, regulation in the public interest becomes necessary in order so to control concentrated power as to prevent its abuse, and by the same token becomes increasingly difficult."

In Section 3 of Chapter IV, entitled "Economic Basis for Holding Com-

panies," the report says that on the one hand this basis is certain needs of small operating companies for financial, engineering and managerial services, but on the other it lies in the personal ambitions of the individuals who form the holding companies. The report adds that if promotion of the organizers' purposes is accomplished only through straightforward performance of service functions, it may be in accord with the theory underlying general industrial organization on the basis of private ownership and private initiative for profit. However, there have been instances in which only a pretense was made of performing these legitimate functions, "and the conduct of the holding company's business in promo-tion of the organizers' selfish purposes has resulted in great detriment to

Business Advisory and Planning Council Recommends Federal Agency With Fund of \$2,500,000 to Aid Industries to Shift from Cities to Rural Areas— Secretary Roper Fails to Indorse Recommendation

Recommendations for a program of decentralization of industry were contained in a report by the Business Advisory and Planning Council of the Department of Commerce, made public Feb. 3 by Secretary of Commerce Roper. The report suggested the establishment of a Government agency to administer a \$2,500,000 revolving fund from which to make loans to industries that can operate more advantageously in rural districts than in crowded metropolitan areas. The amount of the loans, under this program, would be based principally on payroll requirements. Although Mr. Roper did not state what action he would take on the recommendations, he indicated that he does not believe that the decentralization of industries should be carried to the point

when industrial plants might be shifted from metropolitan centers to rural areas to such an extent that it might harm property owners and general business conditions in the city. Rural rehabilitation, he declared, could better be brought about through the building up of branch establishments in the isolated communities.

The various recommendations were based on a survey made by a committee headed by William A. Julian, Treasurer of the United States. Mr. Julian, in his communication to Secretary Roper, said:

The Government through its various agencies is now relocating a great many families from congested cities and placing them in partial self-insurance communities

There are a great many old established communities which have been built up around manufacturing or resource industries which have become stranded because of the failure of the manufacturing enterprise or the depletion of the resources. Many of these towns are now on a partial self-sustenance basis or could be revamped with gardens and small cooperative farms

A large portion of the industrial workers still living in the congested centers of our country should be removed to partial self-susten munities where they can enjoy leisure time and supplement their cash income by their own efforts on a plot of ground.

Therefore, we find that population is now being and should further be decentralized, but that industry is not being decentralized to keep pace with the population and there is no cash income provided for these rural communities except government relief money.

The cash required by our decentralized population is now being handled

on a relief basis with no thought of return. The longer this practice continues, the more dependent and demoralized the people will become and, unless we stimulate the decentralization of industry, it undoubtedly will take years for these stranded communities to attract or establish wagepaying enterprises.

While there is a great deal of interest on the part of various government agencies in the decentralization of industry, no department has primary responsibility. It is our proposal that a department be set up to select and encourage the relocation of such industries as would contribute to the welfare of these communities, and that a revolving fund be made available to this department to be used when necessary as loans to these industries to defray the cost of moving and insure their success in getting started in

A fund of \$2,500,000 has been suggested as the amount required to start this program. While it is realized this fund would not adequately meet all the demands placed upon it, it would be sufficiently large to start and maintain the project for one year. After a satisfactory credit rating had been established through prescribed procedure, taking into consideration the advantages of a rural community to the manufacturer, the amount of the loan would be predicated on the number of workers employed as the loan would not be greater than the actual monthly payroll for a limited number of months plus the actual cost of moving. A ratio limit between cost of moving and monthly pay roll could be established to avoid investing too much of the capital in anything except labor wages.

There is a type of industry which by reason of its seasonal production can not furnish steady employment to its workers. Such an industry is a liability to a congested area as it upsets the labor market during its peak periods and creates unemployment during its slack seasons.

Such an industry is also penalized by having a metropolitan location

because it must pay 12 months of high overhead in items asuch insurance, taxes, and other expenses incident to a city location, while it actually needs its location only eight or nine months out of the year. This industry also has to carry a skeleton organization of keymen the year around to retain them. Therefore, this industry would have a much better chance of success in a rural community with low overhead and with all its employees on a satisfactory part-time basis.

Summarizing, we have a great many part-time towns which need pa time industry to supply the cash income required by the population. We have a great many part-time industries which would have a better chance of success in a rural community, and we have a large city which is now burdened with part-time industries which cause unrest with their intermittent employment. All of these factors will be benefited by this limited program of decentralization.

1 A selection of the town requiring industrial pay roll to reduce unemployment relief;

2 The proper selection of the industry to fit the town;

A suitable low cost factory building to rent to the industry; 4 Provisions for.

a A loan to the industry, if neces sary, to cover cost of moving; and b A monthly loan not to exceed the actual pay roll to be granted for a limited number of months.

Cost of Administering NRA Codes \$41,400,000 a Year

The actual cost to industry of administering all National Recovery Administration codes was indicated on Feb. 5 to be in the neighborhood of \$41,400,000 a year, with an average assessment rate amounting to not more than 10-65ths of 1% of the volume of sales by coded industries. The announcement to this effect Feb. 5 by the NRA continued:

This figure was reported by a special accounting unit under Hiram S. Brown, NRA Budget director, after an extended analysis not only of the code authority budgets passed on by NRA but also of those pending. The survey also includes the estimated expenditures of code authorities, which operate on the basis of voluntary contributions from industry.

The indicated total was considerably below most official expectations and unofficial estimates. The figures are not final and indications are that after code authorities complete their organization and are able to relate their estimated needs to actual operation, the total expenditures will be still

Establishing an annual total was difficult because budgets run for varying periods of time, are calculated on widely differing bases of contribution, and are undergoing revision as code authorities enter their second budget periods.

In calculating the percentage of assessment rate to volume of business great difficulty was encountered because only in the case of 352 approved budgets was it possible to establish the total sales for the industries affected. For these 352 budgets it was found that \$38,118,000 of assessments applied on \$70,380,000,000 worth of business, or a ratio of 1-19th of 1%.

This ratio was low because the figures included six budgets for industries having very large volumes of business with relatively low code administration costs. These six budgets included Baking Industry, Construction Industry, Retail Automobile Industry, Retail Drug Industry, the General Retail Industry and the Investment Bankers Industry for which the ratio was only 12--.000ths of $1\,\%$. Eliminating these six budgets the remaining 346 industries showed an operating ratio of 10--65ths of $1\,\%$.

High assessment rates were found prevalent in the smallest industries which cover only a handful of establishments each. Fourteen such codes had a rate of 1% or slightly more. In the total list of 352, however, the accountants made the following classifications:

53 budgets under 1-10th of 1% of sales. 109 budgets from 1-10th to $\frac{1}{4}\%$ of sales.

51 budgets from $\frac{1}{2}$ to $\frac{3}{4}$ % of sales. 19 budgets from $\frac{3}{4}$ to $\frac{1}{6}$ % of sales.

14 budgets 1% or over.

NLRB Mediation Produces Accord Between Workers and S. Klein—Dispute Between Employees and New York Merchant Ended, and Picketing Ceases

Francis Biddle, Chairman of the National Labor Relations Board, announced on Feb. 2 that a dispute between workers and S. Klein, New York City merchant, had been settled as a result of mediation by the NLRB. The settlement was represented by an agreement between Mr. Klein and the Office Workers Union, which negotiated on behalf of the employees. Mr. Biddle said that the workers, who had been picketing Mr. Klein's store since Nov. 17, would discontinue this activity immediately, and that they would be placed on a preferential list to receive jobs as soon as possible. The agreement also provided for satisfactory reimbursement to the workers for time lost. Mr. Biddle added that all complaints before regional and national boards would be withdrawn as a result of the agreement.

Building Service Employees in New York City Threaten Walkout

A strike of building service employees, which has been threatened in New York City since last fall, continued as a possible menace this week, when union leaders representing the workers said that they would issue a strike call against building owners if they failed to comply with the decision handed down by an arbitration committee appointed by Mayor LaGuardia. The Building Service Employees International Union claims a membership of 150,000, and has asserted that all members would participate in a walkout. The arbitration committee, headed by Major Henry H. Curran, sought to fix standards of wages and improved working conditions. The strike, if one were called, would involve elevator operators, scrubwomen, janitors and bellboys in almost 500 large buildings.

The arbitration committee was appointed by Mayor LaGuardia last November. The principal points of differences between the employers and union leaders are on the stabilization of wages and hours.

We quote in part from the New York "Herald Tribune" of Jan. 31 regarding the grievances alleged by the union representatives:

With the union members ready to heed a strike call yesterday, James J. Bambrick, President of the Council, ordered a secret meeting of the Executive Committee and presented Major Curran's request. He announced later that his conferees had agreed to withhold action until another secret meeting to-night, but had in no way backed down on their intention to calling for a walkout.

"While some of the owners have fallen into line, most of these warlike rugged individualists show nothing but contempt toward any honorable means of stabilization of wages and hours," Mr. Bambrick said, referring to those owners who refused to sign an agreement to abide by any ruling handed down by the Mayor's arbitration board.

"The communication from Major Curran, coming as it does from a man whose entire life has been devoted to public service, presents a complication that is rather hard to overcome. We want peace and I think that Major Curran realizes that only too well. However, these defiant building owners whose actions are the essence of contempt for the entire principle of progressive ideals must be dealt with summarily. We cannot countenance the continuation of miserable wages and inhumanly long hours forced upon the workers in these buildings.

hours forced upon the workers in these buildings.
"The Greater New York Council will not stop this campaign until each and every building service employee in New York City is enjoying the decent conditions that rightly belong to him."

Owners and relief investigators expressed the belief that the union was

Owners and relief investigators expressed the belief that the union was greatly exaggerating the situation—that conditions were not as bad as they were painted, that the majority of the owners had agreed to abide by the decision of the arbitration board, and that in any event the union could not muster enough men to make the strike effective. It was also hinted that Mr. Bambrick, with an eye to the future, was merely attempting to gain publicity to build up the union in the public eye.

tempting to gain publicity to build up the union in the public eye.

Mr. Bambrick, however, insisted that the situation was dangerous.

Not only would 10,000 persons walk out on his say so, he said, but he was having a difficult time holding them in check.

Thomas W. Lamont, of J. P. Morgan & Co., Sails for California and Central America

Thomas W. Lamont, a partner of J. P. Morgan & Co., sailed on the Grace liner "Santa Rosa" Feb. 2 for California, Mexico and Central American ports.

Safety-at-Sea_Legislation Likely as Result of Sinking of Ward Liner SS. Mohawk—Senator Wagner and and Representative Dickstein Press Congressional Action

Congressional legislation designed to prevent a recurrence of steamship disasters such as that of the Morro Castle and several other vessels in recent months was spurred when the Ward liner Mohawk, with 160 passengers and crew aboard, sank on Jan. 25 off the New Jersey coast after a collision with the freighter Talisman. Forty-five persons, including Captain Joseph E. Wood, master of the Mohawk, perished in the accident. United States Attorney Martin Conboy began an investigation of the disaster in New York City on Jan. 28, while the United States Steamboat Inspection Service started a separate inquiry in New York City on Jan. 26.

President Roosevelt, at a press conference on Jan. 25, said that safety-at-sea legislation, drafted by the Department of Commerce and designed to insure proper construction and operation of American ships, would be approved by him. The President also indicated that he would consider advising the Senate to approve the London Ship Convention of 1929, providing for the safe construction of ships, especially in enforcing the construction of large bulkheads on vessels to enable them to remain afloat after an accident such as that which sank the Mohawk. The Senate Commerce Committee has never released this Convention for a vote on the floor.

Senator Wagner of New York on Jan. 28 introduced a resolution asking for a Senate investigation of all recent ship disasters, in order to formulate legislation to promote greater safety in sea travel. On Jan. 30 Representative Dickstein introduced a resolution in the House designed to prevent a recurrence of such disasters as the Morro Castle and the Mohawk.

A dispatch to the New York "Times" from Washington, Jan. 27, quoted Senator Wagner, and mentioned legislation already drafted by the Department of Commerce, as follows:

President Roosevelt said on Friday that he would send to Congress soon a program designed to insure safety to passengers and crews on American ships at sea. This program was completed after months of labor by Commerce Department aides working under the direction of Secretary Roper. Senator Wagner remarked to-day, however, that "legislation being proposed cannot be effective legislation until the facts are known."

In announcing his intention to call for the establishment of a select committee to devote its exclusive efforts to the safety problem, Senator Wagner said:

"In September 1934 the disaster of the Morro Castle off the New Jersey coast took its toll of 124 lives. During the next four months the American people stood at shocked attention while a story was unraveled raising grave doubts as to safety on the seas.

"On the opening day of Congress I introduced a resolution for an investigation."

"On the opening day of Congress I introduced a resolution for an investigation, by the Committee on Commerce, of the Morro Castle and of all the factors making for safety at sea. I believe that Congress owes this duty to the bereaved families of the Morro Castle victims, to the shipping industry of America, which is entitled to have its name untarnished if its record is clear, and to the seagoing public if their lives are not to be consigned lightly to watery graves.

"For almost a month Congress has done nothing. Some of us had come to despair that the wrongs of the Morro Castle would go as unrectified as the wrongs of the Vestris. But now another vessel of pleasure has become a ship of grief. On Jan. 25 the Mohawk plunged to the bottom of the same New Jersey coast, with an already ascertained loss of 46 lives. Action can no longer be delayed.

"Legislation is being proposed. It cannot be effective legislation until the facts are known. It will never be passed at all unless the facts are known. We are still in the valley of doubt about the Morro Castle. We know practically nothing about the Mohawk.

"I shall introduce in the Senate another resolution, calling for a special select committee to confine its attention to a single task; it should probe to the very depths of these horrible tragedies and there lay the foundation for fulfilling the responsibility of Congress toward all those whose lives or livelihoods touch upon the sea."

The safety program approved by President Roosevelt includes provisions for approval of all ship designs by the Commerce Department Bureau of Navigation and Steamboat Inspection, higher pay for competent inspectors and maximum loading requirements for ships in coastwise service.

United Press New York advices of Jan. 25 recounted the story of the Mohawk tragedy, in part, as follows:

Captain J. E. Wood, master of the Mohawk, who stood on the bridge clutching a broken steering mechanism as the Talisman's bow cut through his vessel's forecastle, was given up as lost with his ship. From the survivors and from Captain Edmund Wang of the Talisman, came the story of the collision and the flight of passengers and crew from the Mohawk.

Like a great blade, the freighter's prow cut into the steel of the Mohawk's port bow. The blade cut through and smashed the forecastle where many of the liner's crow were asleep. At least two of them died in the twisted mass of steel and wood. Probably two more were thrown overheard.

mass of steel and wood. Probably two more were thrown overboard.

The Talisman's prow swung slowly away. Falling back into the sea, the Mohawk began filling with water.

The decks of the Mohawk turned at a sharp angle as the lifeboats were being lowered. Men and women—and among them two infants who were saved—crawled desperately to reach the last lifeboat, often fell back and were forced to struggle again to the rail. . . .

The rescue vessels were soon on the scene—the Algonquin, the S. S. Limon, the Coast Guards Champlain and Icarus, and many small craft from shore which later were joined by two amphibian planes and two blimps.

The Algonquin took aboard five lifeboats with 38 passengers and 58 of the crew. The Limon rescued 21 of the crew and one passenger. All were suffering from exposure and about 62 received hospital or emergency treatment when landed here by the Algonquin and the Champlain, which took the Limon survivors.

Isidor J. Kresel Reinstated to Full Standing at Bar-Former Counsel for Bank of United States Again Permitted to Practice, Following Reversal of Conviction

Isidor J. Kresel, former attorney for the defunct Bank of United States, was reinstated to full standing at the bar on Feb. 4 by a unanimous vote of the Appellate Division of the New York Supreme Court, First Department, with the consent of the three bar associations concerned in the proceedings. This followed the action of the Appellate Division, Third Department, at Albany in reversing Mr. Kresel's conviction on a charge of misapplying funds of the Municipal Safe Deposit Co., a subsidiary of the bank, and in dismissing this indictment against him. The reinstatement decision was handed down without any opinion. The New York "Times" of Feb. 5 outlined the circumstances that had induced the motion for reinstatement as follows:

The motion for reinstatement of Mr. Kresel, who prosecuted the ambulance-chasing investigation of lawyers in 1928 and was chief counsel to Samuel Seabury in the inquiry into the magistrates' courts, was made by John W. Davis and Theodore Kiendl, who defended Mr. Kresel at his trial in the Supreme Court, and conducted the appeal.

The bar associations declining to oppose the motion for reinstatement were the Association of the Bar of the State of New York, the Association of the Bar of the City of New York, and the New York County Lawyers The motion for reinstatement to the bar was made by Mr. Kresel's attorneys as soon as the refusal of Judge Crane to permit an appeal precluded further prosecution under this indictment.

The local branch of the Appellate Division voted to reinstate Mr. Kresel

despite the fact that six indictments growing out of the Bank of United States case are still pending against him.

His disbarment was voted by the Appellate Division here on April 13

1934, under Section 477 of the Judiciary Law, which requires the disbarment of any lawyer convicted of a felony. The court recited then that on Nov. 27 1933 Mr. Kresel had been convicted of "a violation of

Section 305 of the Penal Law, which is a felony."

The Appellate Division took similar action reinstating Herbert Singer, son of Saul Singer, executive of the Bank of United States, after the Ccurt of Appeals had cleared young Mr. Singer by dismissing a similar indictment against him. When the disbarment of Mr. Kresel was voted

indictment against him. When the disbarment of Mr. Kresel was voted it was understood that if the conviction were reversed he might apply for reinstatement.

District Attorney William C. Dodge last Friday appeared in Brooklyn before Chief Judge Crane of the Court of Appeals and sought permission to go before the Court of Appeals on a motion to set aside the recent action of the Appellate Division of the Third Department in Albany revers ing the conviction of Mr. Kresel and quashing the indictment on which was convicted.

The prosecutor was understood to have made the application with a view to arguing on his motion before the Court of Appeals on the law on which the Appellate Division justices acted, but, it was reported, Judge Crane peremptorily denied his application.

E. Burd Grubb, Retiring as President of New York Curb Exchange, Honored at Dinner

The testimonial dinner to E. Burd Grubb, who is retiring as President of the New York Curb Exchange next week was held Feb. 7 at the Hotel Plaza. About 500 members of the Curb Exchange and their guests attended the dinner. The speakers were Richard Whitney, President of the New York Stock Exchange, Frank R. Hope, President of the Association of Stock Exchange Firms, and William A. Lockwood, counsel for the New York Curb Exchange. Walter H. Sykes, Jr., a member of the Board of Governors, was toast-

Mr. Grubb has been elected a member of the New York Stock Exchange, and is joining the firm of Coggeshall & Hicks, members of that Exchange.

B. K. Schaefer Elected to Board of Managers of New York Coffee & Sugar Exchange

Bernhard K. Schaefer, President of the Schaefer-Klaussmann Co., Inc., was elected a member of the Board of Managers of the New York Coffee & Sugar Exchange on Feb. 7. Mr. Schaefer succeeds Charles C. Riggs, resigned.

J. L. van Zelm Re-elected President of Netherlands Chamber of Commerce in New York, Inc.

J. Louis van Zelm, Vice-President of the Bank of New York & Trust Co., New York City, had been re-elected President he Netherlands Chamber of Commerce in New York, Inc. The Chamber has also elected J. A. De Lancy, of the Asiatic Petroleum Corp., and Hugo H. Hayman, of Funch, Edye & Co., as Vice-Presidents.

British Empire Chamber of Commerce Re-elects R. R. Appleby as President

At its annual meeting Jan. 24 the British Empire Chamber of Commerce in the U.S.A., New York, re-elected Robert R. Appleby as President for the sixth consecutive term of office.

Mr. Appleby is associated with Rockefeller Center. Also elected at the meeting were Charles W. Bowring, First Vice-President; William A. Mitchell, Second Vice-President, and Thomas R. Dester, Treasurer.

Samuel H. Squire Recently Appointed Ohio Superintendent of Banks

Samuel H. Squire, of Elyria, Ohio, recently appointed Superintendent of Banks of Ohio by Governor Martin L. Davey, brings to his new office an extensive background of diversified experience both in the field of banking and other walks of life. Following graduation from public schools, he entered the employ of the old Elyria (Ohio) National Bank which later changed its title to The First National Bank of Elyria. He was Executive Vice-President of this institution when, in 1922, it surrendered its Federal charter and merged with The Lorain County Savings and Trust Company, of Elyria. Mr. Squire served this bank as Vice-President until June, 1933, when he was advanced to the Presidency. He relinquished this office to become Superintendent of Banks, the duties of which he assumed actively January 21, 1935.

In addition to his banking activities, Mr. Squire has taken a prominent part in the affairs of his home city, having been a member of the City Council and the Board of Education and President of the city sinking fund commission. He founded the Elyria Rotary Club in 1918, was its first President and still retains his membership in the organization.

First of Boston Corporation Elects Directors

The annual meeting of stockholders of The First Boston Corporation was held Feb. 7 at the executive office of the corporation, Boston, Mass. The following directors were elected:

Harry M. Addinsell, James Coggeshall, Jr., Eugene I. Cowell, Nevil Ford, Duncan R. Linsley, John R. Macomber, Allan M. Pope, William H. Potter, Jr., George Ramsey, Arthur C. Turner, and George D. Woods. Alfred A. Gerade was elected Treasurer. Arthur B. Kenney was elected Clerk. An announcement in the matter continued:

Allan M. Pope, President, reported that the period from June 16 1934 to the end of the year produced varying market conditions which gave The First Boston Corporation an opportunity to make use of its diversified facilities, thereby making it possible under unfavorable market conditions in one class of securities to expand its activities in other departments. result, the total amount of all classes of securities purchased and sold during this same period, exceeded the volume for the similar period of 1933

Earnings of approximately \$1.50 per share were reported for the period June 16 to Dec. 31 1934.

Plans of Federal Reserve Board for Erection of New Building in Washington—Program for Competition for Selection of Architect

The Federal Reserve Board has announced on Feb. 4 that the preparation of the program for a competition for the selection of an architect for its new building has been completed. The immediate purpose of the competition said the announcement is to enable the Board to choose from among the competitors who have been invited to participate an architect to whom shall be entrusted the development of the final plans and specifications for the building which the Board proposes to erect. The announcement also said:

Invitations to participate and programs containing the terms and conditions of the competition have been sent to Arthur Brown Jr., S an Francisco, Calif.; Coolidge, Shepley, Bulfinch and Abbott, Boston, Mass.; Paul Philippe Cret, Philadelphia, Pa.; Delano and Aldrich, New York City; Holobird and Root, Chicago, Ill.; John Russell Pope, New York City; James Gamble Rogers, New York City; Egerton Swartwout, New York City, and York & Sawyer, New York City.

It was also announced that a jury composed of three architects and two laymen has been selected by the Board to pass upon the designs submitted by the competing architects. The architects upon the jury are John W. Cross, New York City; William Emercon, Boston, Mass., and John Mead Howells, New York City. The other members of the jury are Frederic A. Delano, Chairman of the National Capital Park and Planning Commission, and Adolph C. Miller, a member of the Federal Reserve Board.

The Reserve Board's announcement also had the follow-

ing to say:

The Federal Reserve Board was authorized by the Act of June 19 1934. It has acquired property for this purpose on the ment for its purposes. north side of Constitution Avenue between 20th and 21st Streets, adjoining that of the National Academy of Sciences on the west and the Public Health Service on the east. The site was selected after a careful canvass of numerous properties which had been offered for the Board's consideration. It was approved for this purpose by the National Capital Park and Planning Commission and by the Secretary of the Interior who recommended it to the President and the President gave his approval on July 13 Title was transferred to the Board on Jan. 22 1935.

The program for the competition was prepared under the direction of Everett V. Meeks, Dean of the School of the Fine Arts in Yale University, and has been approved by the Fine Arts Commission, the National Capital

Park and Planning Commission and the American Institute of Architects. ion with the preparation of the program the Board has had the benefit of the assistance and co-operation of the National Park Service of the Department of the Interior.

The general architectural character of the proposed building is indicated by the following provision of the program.

The general architectural character of the proposed building is indicated by the following provision of the program.

The conditions under which the Federal Reserve Board has acquired its building site on Constitution Avenue provide that the design and material of the exterior of the building shall be subject to the approval of The Commission of Fine Arts. The Commission has prescribed that "the material of the exterior of the building is to be of white marble, to conform to the other buildings along this portion of Constitution Avenue," and has also given an indication of its views as to the general architectural character of the building.

While it is the desire of the Federal Reserve Board that the proposed building should be designed with regard primarily to the commodious and suitable housing of the activities of the Board and its staffs, the exterior design of the building should be carefully studied and developed in order that a building shall result which will at the same time satisfy the requirements of utility and beauty.

The architectural character of the exterior should be suggested by the governmental quality of the Federal Reserve Boards' activities. It is not a banking institution—it is a governmental body which has general supervisory and administrative powers. The "nature of the functions performed by the Federal Reserve Board," in the view of the Commission, "dictates an architectural concept of degrinty and permanence." "It must, consequently, have impressive dignity."

The proximity of the building to the Lincola Memorial and other nearby permanent structures already erected on Constitution Avenue or to be erected by the Government in the West Rectangle suggests that the exterior design of the building for the Federal Reserve Board should be in harmony with its environment.

It is, however, thought desirable that the aesthetic appeal of the exterior design should be made through diginity of conception, purity of ine, proportion and scale rather than through stressing of merely decorative or

During the formulation of the program a thorough study of the Board's needs was made by E. F. Abell, Consulting Engineer, as the Board intends by careful planning to provide adequately for the future needs of the Board and its staff, having in mind the possibility of changes of duties and responsibilities which may entail rearrangement and expansion of its forces from time to time. The need for such planning is demonstrated by the fact that within the past three years the Board's organization has increased 50% in size and substantial rearrangements of divisions have occurred, chiefly because of new duties which developed in connection with the banking holiday of 1933 and as a result of legislation enacted since that time. Ample room will be allowed for expansion so that when the building is occupied the Board will not find itself in the position of having failed to make proper provision for its needs, and soundproof movable partitions will be used in the greater part of the building so that alterations in space

will be used in the greater part of the building so that alterations in space allotments may be made economically.

During the formulation of the program a thorough stu— of the Board's The property acquired is of sufficient size to permit expansion of the building if the Board finds it necessary, and also, if future developments warrant, to build a suitable annex to the north of the presently proposed building. The program of competition provides that the competitors shall take these possibilities into consideration in the designs submitted.

General Manager S. H. Logan of Canadian Bank of Commerce Says That in Addition to Exceptional Gains in New Construction Contracts, the Most Recent Progress in Canada Appears to Have Been in the Automotive and Allied Industries

Commenting on business conditions throughout Canada at the present time as compared with the same period last year, S. H. Logan, General Manager of the Canadian Bank of Commerce at Toronto, says that "as was the case a year ago, only a few leading industries are notably less active than in December. He adds in part:

A slackening in the operations of the textile and forest industries is attributable to seasonal influences as well as to severe climatic conditions, which also interfered somewhat with the commencement of work on the comparatively large volume of new construction contracted for in January about two-thirds more than was recorded in December. Appreciable in-creases in activity in certain groups of secondary industries have more than offset recessions in other branches and, in fact, have partly counteracted the asonal declines.

Apart from the exceptional gain in new construction contracts, the most recent progress appears to have been in the automotive and allied industries, which have entered their season of peak production with, judging from the latest official reports, a greater domestic, but a smaller foreign, demand than was found a year ago.

The course of export trade continues to be of unusual interest. The value of December exports declined from the preceding month, but this rece as of seasonal proportion and smaller than recorded in the closing month of 1933. Moreover, the trade of the last month under review was, contrary to the usual course, the third largest of the year and about 20% higher in value than in December, 1933. While fortunately there was but a slight decrease in the value of major agricultural exports, apart from that of animal products which rose somewhat, the volume of grains declined below the subnormal figure shown in the November returns. The greatest decrease was, how-ever, in the metallic minerals division, in which there was a marked falling off in copper and aluminum shipments. These losses were partly offset by higher values registered in iron products, although there was a quite marked decline in exports of automobiles, and in wood products, an ex pansion in shipments of newsprint and wood pulp more than overcoming a moderate drop in lumber.

On the import side of the foreign trade account there was a decline from the preceding month of more than seasonal proportions, although the total value was the highest for any December since 1931.

of Trust Division, Mid-Winter Trust Conference American Bankers Association, to Hear Repre-sentatives of Banking, Business, Insurance, and Government-Meeting to Be Held in New York Feb. 12, 13 and 14

Present-day problems in the administration of estates and trusts will be surveyed from four different angles in the

forthcoming sixteenth annual mid-winter Trust Conference of the Trust Division, American Bankers Association, to be held Feb. 12-14, at the Waldorf-Astoria, New York City, Leon M. Little, President of the Trust Division, said Jan. 22 in announcing the program for the meeting. Representatives of business, insurance, and the Government, as well as of banking institutions, will discuss various aspects of trust business in the light of current conditions, he said. The program for the three-day meeting follows:

First Session, Feb. 12, 10:00 A. M.

"The President's Address," Leon M. Little, President Trust Division, American Bankers Association and Vice-President New England Trust Co., Boston, Mass.

Address of J. W. Allison, Vice-President and Trust Officer First and Merchants National Bank, Richmond, Va. Address of G. M. Hubbard, President, Doremus & Co., New York City.

Address of Dr. Harold Stonier, Educational Director, American Bankers Association.

Second Session, Feb. 12, 2:15 P M.

There will be three informal round-table conferences on the following general subjects: "Real Estate Acquired by Foreclosure," "Operating Efficiency in the Trust Department" and "Trust Department Responsibilities and Liabilities."

Third Session, Feb. 13, 9:30 A. M.

Address of Robertson Griswold, Vice-President Maryland Trust Co., Baltimore, Md.

Address of L. E. Birdzell, General Counsel, Federal Deposit Insurance Corporation, Washington, D. C.

"Greetings from the American Bankers Association," President Rudolf S. Hecht, Chairman of the Board Hibernia National Bank, New Orleans, La. Address of Richard L. Austin, Chairman of the Board Federal Reserve Bank of Philadelphia.

Reactions to Present-day Examination Procedure—a Symposium: "Trust Investments," J. Harvie Wilkinson Jr., Vice-President State-Planters Bank & Trust Co., Richmond, Va.; "Records and Statistics," Francis A. Zara, Assistant Vice-President City Bank Farmers Trust Co., New York City; "Trust Instruments," Harold Eckhart, Vice-President and Secretary, Harris Trust & Savings Bank, Chicago, Ill.; "General Procedure," Oliver Wolcott, Vice-President Old Colony Trust Co., Boston, Mass.

Fourth Session, Feb. 13, 2:15 P. M.

Address of William C. Cope, President Drake College, Newark, N. J. Address of Philip A. Benson, President Dime Savings Bank, Brook-

Address of William L. Hildeburn, Second Vice-President the Chase

National Bank, New York City.

Address of George W. Edwards, Chief Department of Economics, City College of New York, New York City.

Fifth Session, Feb. 14, 9:30 A. M.

Address of Samuel C. Waugh, Executive Vice-President and Trust Officer the First Trust Co. of Lincoln, Lincoln, Neb.
Address of Carl W. Fenninger, Chairman Special Committee on Common Trust Funds, Trust Division, American Bankers Association, and Vice-President Provident Trust Co., Philadelphia, Pa.
Address of L. G. Hammer, of Johnson & Higgins, San Francisco, Calif. Address of D. J. Needham, General Counsel American Bankers Association.

Previous reference to the conference appeared in our issue of Dec. 29, page 4069.

Annual Eastern Regional Savings Conference Savings Division, American Bankers Association, to Be Held in New York City March 7 and 8

The annual Eastern regional savings conference, sponsored by the Savings Division, American Bankers Association, will be held at the Waldorf-Astoria, New York City, March 7 and 8 1935, it was announced in New York, Feb. 4. On the evening of March 7 the annual banquet will be held. The conference area comprises the States of Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia and West Virginia. The announcement said that the theme for this year's conference will be "Security of Bank Investments." Other subjects will cover the management of real estate mortgages, revision of bank investment portfolios, and the effect on savings deposits of proposed social security legislation.

Henry R. Kinsey, President of the Savings Bank Association of the State of New York and Vice-President of the Williamsburgh Savings Bank of Brooklyn, is Chairman of the Confernce Committee, and W. Espey Albig, Deputy Manager of the American Bankers Association, in charge of the Savings Division, is Secretary.

Four National Banks Reopened During January, According to Comptroller of Currency—Review of Federal Reserve Board Showed 190 Unlicensed State and National Banks at Close of December— Bank Suspensions in 1934 Smallest Since 1920

Comptroller of the Currency J. F. T. O'Connor announced Feb. 7, that at the close of business on Jan. 31 there remained yet to be disposed of only three unlicensed National banks, with deposits at closing aggregating \$3,280,000, and that the reopening of these three awaits consummation of plans which have been approved for their reorganization. The deposits involved in the three unlicensed banks is compared with the total of \$1,971,960,000 involved in the 1,417 banks under the supervision of the Comptroller which were not licensed following the banking holidays of March 1933. The Treasury Department's announcement also said:

Summarizing the activities of his office in disposing of unlicensed banks since the banking holidays, the Comptroller stated that 1,091 banks, with deposits at closing aggregating \$1.805.627,000, had been reorganized under old or new charters or sold to going national banks; 31, with deposits of \$11,513,000, either quit or left the National Banking System; and 292, with deposits of \$151,540,000, are now in receivership following disapproval of plans for reorganization.

There are now in receivership 1,547 banks under the supervision of the Comptroller, including those banks which were placed in receivership prior to Mar. 16 1933, and those for which receivers have been appointed since; and these had deposits at closing aggregating \$1,880,710,184. However, provisions have already been made for the return of \$1,016,439,935, or slightly more than 54% of these funds to depositors.

Since Mar. 16 1933, 1,652 active national banks have issued \$450,116,500 in preferred stock and 134 have issued \$17,149,776 in common stock for

pruposes of capital strengthening.

During the month of January four unlicensed National banks were reorganized two from conservatorship and two from receivership. These were as follows

Date	Deposits
Reorganized	Involved
Jan. 11 1935	\$173,000
Jan. 16 1935	3,063,000
Jan. 5 1935	283,000
Jan. 2 1935	\$3,713,000
	Jan. 11 1935 Jan. 16 1935 Jan. 5 1935

A list of banks licensed and opened or reopened during December was given in our issue of Jan. 19, page 417.

Reviewing Federal activities in the rehabilitation of the banking structure in the 22 months which have elapsed since the bank crisis of 1933, the Federal Reserve Board, in its "Bulletin" for January, states that "unlicensed banks reduced from more than 4,500 to less than 200 at the end of December." At the end of December, the Board said, "the Federal Government through the Reconstruction Finance Corporation had authorized investments in the capital structure of about 6,694 banks in an aggregate amount of \$1,202,000,000." It added:

On Sept. 1 1934, when the most recent figures became available, the members of the Federal Deposit Insurance Corporation comprised all licensed commercial banks of the country except 1,200. The number of licensed member banks in the Federal Reserve System increased by 439

Banks Suspended 1934

Bank suspensions in 1934 were fewer than in any similar period since 1920. The suspensions during the year comprised 56 licensed banks with deposits of \$37,000,000, one of which, with deposits at time of suspension of \$40,000, was a member of the Federal Reserve System. Included in these figures of suspensions were eight other (non-member) banks participating in Federal Deposit Insurance.

Preliminary reports indicate that during the past 12 months, 920 banks, were not licensed to operate on an unrestricted basis, with deposits of \$647,000,000, were placed in liquidation or receivership. These included 396 National banks with deposits of \$402,000,000, 23 State member banks with deposits of \$40,000,000, and 501 banks, not members of the Federal Reserve System, with deposits of \$205,000,000.

Unlicensed Banks

On April 12 1933, 4,215 banks with deposits of \$4,000,000,000 had not been given licenses to operate on an unrestricted basis. Of these, 1,108 were National banks with deposits of \$1,819,000,000 and 148 were State member banks with deposits of \$841,000,000. By the end of December 1934 all except 190 banks had either been restored to an active status or placed in liquidation or receivership. Of the banks remaining unlicensed, six were National banks with deposits of \$6,800,000, four State member banks with deposits of \$1,800,000, and 180 State non-member banks with deposits of \$88,000,000. of \$88,000,000.

Reopening of Closed Banks for Business and Lifting of Restrictions

Since the publication in our issue of Feb. 2 (page 744) with regard to the banking situation in the various States, the following further action is recorded:

Judge Eugene O'Dunne has signed an order in Circuit Court No. 2, directing John D. Hospelhorn, Deputy State Bank Commissioner of Maryland, and receiver for the old Baltimore Trust Co., Baltimore, to demand and collect from 3,929 stockholders of the institution their statutory liability of \$10 a share on the stock they hold or held as of March 4 1933. Baltimore advices on Feb. 7, printed in the "Wall Street Journal," from which the foregoing is taken, continuing said:

The court action was taken on a petition filed by the receiver. Stockholders have until Feb. 25 next to show cause why they should not be compelled to make such payments.

MICHIGAN

The State Savings Bank of Carlton, Mich., which had been closed since Feb. 11 1933, was reopened on Jan. 25 with the following officers: Dr. E. C. Maxwell, President; Edward Kahlbaum, Vice-President, and Harry German, Cashier. In noting the matter, advices from Monroe, Mich., printed in the Toledo "Blade," furthermore said:

The last named has been conservator of the bank since it closed. Fifty per cent of the desposits aggregating about \$130,000, are made available at once. The remaining 50% have been placed in a trust fund.

In addition to the State Savings Bank of Carlton, Mich., four other Michigan banks, the Port Austin State Bank, Port Austin; the Liberty State Bank of Hamtramek; the Moline State Bank, Moline, and the Morley State Bank, Morley, recently reopened for business, we learn from the "Michigan Investor" of Feb. 2.

OHIO Regarding the affairs of the closed Guardian Trust Co. of Cleveland, Ohio, the Cleveland "Plain Dealer" of Feb. 1 carried the following:

Announcement is made that the National City Bank of Cleveland is distributing \$659,629 as the seventh dividend of the Guardian Trust Co. Mortgage Participation Trust. This makes $27 \frac{1}{2}\%$ that has been distributed, of which $22 \frac{1}{2}\%$ represented principal and 5% interest.

In the present distribution of 7%, 6% is distribution of principal and 1%

The Farmers' Bank of Lakewood, Ohio, with capital of \$25,000, opened for unrestricted business on Jan. 28, releasing 50% of its deposits, according to advices from Bellefontaine, Ohio, printed in "Money & Commerce" of Feb. 2, which also named the bank's officers as follows: E. S. Sheets, President; V. V. Gray, Vice-President; H. S. Chapman, Secretary; W. G. Hyre, Cashier, and C. W. Heller, Assistant

According to advices from Martins Ferry, Ohio, printed in "Money & Commerce" of Jan. 26, resumption of unrestricted business by the Morristown State Bank of Morristown, Ohio, was scheduled for Feb. 1 under terms of a plan presented to the Belmont County Court by Attorneys George Thornburg for the Ohio Banking Department and W. J. Walker representing the bank.

The Mt. Gilead National Bank, Mt. Gilead, Ohio, is to be reorganized under the title of the First National Bank in Mt. Gilead, releasing \$350,000 in deposits, we learn from a dispatch from that place, appearing in "Money & Commerce" of Feb. 2.

The Farmers' State Bank of New Madison, Ohio, closed for liquidation, has been licensed to reopen on a reorganized basis, with capital of \$25,000, contingent upon the Federal Deposit Insurance Corporation, according to Greenville, Ohio, advices, printed in "Money & Commerce" of Feb. 2.

Concerning the affairs of the closed Rudolph Savings Bank, Rudolph, Ohio, advices from Bowling Green, Ohio, on Jan. 28, appearing in the Toledo "Blade", had the following to say:

The second dividend for depositors of the Rudolph Savings Bank since it closed a year ago is asked in an application filed in Common Pleas Court here by the liquidator. The dividend would be 15%. Accounts of \$5 or less would be paid in full. The bank has made one 20% payment to depositors.

ITEMS ABOUT BANKS, TRUST COMPANIES, &c.

Announcement was made this week of the appointment by the executive committee of The National City Bank of New York of Walter G. Speer as an Assistant Vice-President and Joseph G. McCarthy as an Assistant Cashier.

Authority to open a branch office at 263 Utica Avenue, Brooklyn, has been granted to the Manufacturers Trust Co., New York City, by the New York State Banking Department. The Banking Department granted the permission conditional upon the discontinuance of the branch previously authorized to be maintained at 1455 St. John's Place, in Brooklyn.

On Jan. 26, the New York State Banking Department approved plans for the reduction of the capital stock and par value of shares of the Trust Co. of Northern Westchester, Mount Kisco, N. Y., from \$100,000 at a par value of \$100 a share to \$25,000 at a par value of \$25 a share, and subsequently on the same date approved an increase in the capital from \$25,000 to \$100,000.

Plans for the reduction of the capital sotck and par value of shares of the Bank of Ellicottville, Ellicottville, N. Y., from \$100,000, at a par value of \$20 a share, to \$50,000 at a par value of \$10 a share, were approved by the New York State Banking Department on Jan. 28.

The New York State Banking Department on Jan. 30 approved a proposed reduction of the permanent capital of the North Java Co., private bankers, of North Java, N. Y., from \$40,000 to \$25,000.

On Jan. 30, plans to reduce the capital stock and par value of shares of the Liberty Bank of Buffalo, Buffalo, N. Y., from \$5,500,000 at a par value of \$25 each, to \$2,200,000 at a par value of \$10 each, were approved by the New York State Banking Department.

The First National Bank of Mount Vernon, N. Y., on Feb. 1 was authorized by the Comptroller of the Currency to open a branch in the village of Pelham, N. Y.

The New York State Banking Department on Jan. 24 approved plans for the reduction of the capital stock and par value of shares of the People's Bank of Potsdam, N. Y., from \$200,000 at \$20 a share to \$100,000 at \$10 a share.

That depositors in the savings department of the defunct West Haven Bank & Trust Co., West Haven, Conn., were to receive an additional dividend of 5% beginning Jan. 21, through the New Haven Bank, N. B. A., New Haven, Conn., was reported in the New Haven "Register" of Jan. 19. The dividend would bring the amount paid up to 75%, it was said.

James S. Newkirk, Secretary-Treasurer of the Provident Institution for Savings, Jersey City, N. J., which he joined 62 years ago, retired on Feb. 5 and was succeeded by his son, Clarence G. Newkirk, according to the New York "Times" of Feb. 6, which added, in part:

He started work as a clerk when he was 18 years old. In 1896 he was made Secretary-Treasurer, and in 1907 he was appointed to the Board of Managers.

On Jan. 22 the Scottsville National Bank, Scottsville, Va., with capital of \$50,000, went into voluntary liquidation. The institution was absorbed by the National Bank & Trust Co., Charlottesville, Va.

The Conneaut Mutual Loan & Trust Co., Conneaut, Ohio, has changed its title to the Conneaut Banking & Trust Co. The institution is a member of the Federal Reserve System.

According to Ironton, Ohio, advices, appearing in "Money & Commerce" of Feb. 2, Hon. Homer M. Edwards was chosen President of the First National Bank of Ironton at the directors' annual meeting held recently, in lieu of E. S. Culberton, who was made Chairman of the Board of Directors. The dispatch added:

(A. D. Markin was named Vice-President, succeeding Mr. Edwards. O. C. Gray was also renamed Vice-President and Cashier, with A. T. Turnbull, E. O. Meistedt and John D. Hayes as Assistant Cashiers.

That two Gary, Ind., closed banks had announced further payments to their depositors is learned from the Chicago "Tribune" of Jan. 29. We quote the paper:

David H. Jennings, receiver for the First National Bank of Gary, Ind., announced that another 10% will be paid within 10 days to raise the total to 51½%. Checks are in Washington for signatures now. The National Bank of America, for which he also is receiver, is to return 15% more in about three weeks, Mr. Jennings added. The institution already has repaid 45 2/3%. Both Gary banks closed in January 1932.

In indicating that two closed suburban Chicago banks—the Bank of Harvey and the North Shore Trust & Savings Bank of Highland Park—were about to make deposit refunds, the Chicago "Tribune" of Jan. 27 said, in part:

State Auditor Edward J. Barrett yesterday (Jan. 26) authorized a payment of 10% to depositors of the Bank of Harvey, while Circuit Judge Ralph J. Dady, in Waukegan, ordered Receiver S. Parker Johnstone to pay 30% to depositors of the North Shore Trust & Savings Bank in Highland Park.

The Harvey payment . . . amounts to \$63,659. It brings total repayments to 40%, and checks will be given out beginning to-morrow. Funds were obtained in ordinary liquidation, according to Receiver William L O'Connell.

The North Shore bank payment amounts to \$131,415 and lifts the total return to depositors to 55%.

A membership on the Chicago Board of Trade sold, Feb. 2, at \$4,800 net to the buyer, off \$200 from last previous transfer.

Regarding the proposed merger of the First State Savings Bank and the Citizens' State Bank, both of Otsego, Mich., the following appeared in the "Michigan Investor" of Feb. 2:

Merger of the First State Savings Bank and the Citizens State Bank, both of Otsego, has been approved by the stockholders. The consolidated institution will be named the State Savings Bank of Otsego and will establish tiself in the quarters of the former First State Savings Bank. Directors have been elected and they will meet soon to name the new officers.

Louis W. Hill, son of the late James J. Hill, "empire builder" of the Northwest, announced on Feb. 5 his retire-

ment as Chairman of the Board of Directors and as a director of the First National Bank of St. Paul, Minn. He had been connected with the institution for more than 20 years. St. Paul advices appearing in the New York "Times," authority for the above, went on to say:

The move was in pursuance of his policy of retiring gradually from active business. F. R. Bigelow, President of the St. Paul Fire & Marine Insurance Co., was elected the new Chairman of the Bank Board.

The following promotions were made recently in the personnel of the Merchants' National Bank & Trust Co. of Fargo, N. Dak., we learn from the "Commercial West" of Feb. 2: H. W. Gearety from President to Chairman of the Board; F. R. Scott from Vice-President and Trust Officer to President, and F. L. Dwight from Assistant Trust Officer to Trust Officer. At the same time it is understood, S. L. Allen was elected Vice-President.

From the Omaha "Bee" of Jan. 30 it is learned that Ben N. Saunders, State Superintendent of Banks for Nebraska, announced at Lincoln on Jan. 29, the payment of a first dividend of 53%, or \$82,449, to depositors of the failed Union State Bank of Omaha.

The First National Bank of Moline, Kan., was placed in voluntary liquidation on Dec. 10. The institution, which was capitalized at \$25,000, was replaced by the Exchange State Bank of the same place.

A charter was issued on Jan. 26 by the Comptroller of the Currency to the American National Bank in Wetumka, Wetumka, Okla. The new institution succeeds the American National Bank of Wetumka and is capitalized at \$50,000, consisting of \$25,000 preferred stock and \$25,000 common stock. E. D. Hall is President and D. G. Hall, Cashier, of the new organization.

Evan M. Johnson, Assistant Comptroller of the First National Bank & Trust Co. of Minneapolis, Minneapolis, Minn., on April 1 will become Comptroller of the Anglo-California National Bank of San Francisco, Calif. The "Commercial West" of Feb. 2, authority for the above, also had the following to say regarding Mr. Johnson's banking career:

He started his banking career in 1906 with the old Security Bank, which merged with the First, being currency shipping teller, assistant unit teller, unit teller, manager country bank books, auditor 1920-29, then Assistant Comptroller. He is First Vice-President National Association of Bank Auditors and Comptrollers, Past President Twin City Bank Auditors and Comptrollers' Conference.

The Bank of Montreal (head office Montreal, Canada) on Feb. 5 announced that B. C. Gardner, its First Agent in New York, had been appointed an Assistant General Manager, located in Montreal, with jurisdiction over the Quebec, Maritime and Newfoundland districts of the bank, and that A. J. L. Haskell, Manager of the securities department of the bank at head office, had been appointed First Agent in New York, succeeding Mr. Gardner. Details regarding Mr. Haskell's and Mr. Gardner's banking careers follow:

Mr. Haskell was on the staff of the London City and Midland Bank in England prior to entering the service of the Bank of Montreal at Sarnia is 1911. From Sarnia he was transferred to the Ottawa branch, where he rose to the position of assistant accountant. Later he was for a year accountant in the Halifax branch, and then returned to Ottawa as accountant. In 1921 he served for a period in the bank's New York office, and since 1923 has been a member of the head office staff. He was appointed Assistant Manager of the securities department in 1928 and has been Manager of this important department since 1930.

Mr. Gardner began his banking career in Canada with the former Bank

Mr. Gardner began his banking career in Canada with the former Bank of British North America, which was taken over by the Bank of Montreal in 1918. He held important positions in branches in various parts of Canada, from British Columbia to the Maritimes, and was for a period Manager for the bank in St. John's, New Foundland, prior to his transfer to the New York agency three years ago.

Course of Bank Clearings

Bank clearings this week will again show a decrease as compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ended to-day (Saturday, Feb. 9) bank exchanges for all cities of the United States from which it is possible to obtain weekly returns will be 6.6% below those for the corresponding week last year. Our preliminary total stands at \$4,786,601,640, against \$5,123,400,771 for the same week in 1934. At this center there is a loss for the week ended Friday of 15.0%. Our comparative summary for the week follows:

Clearings—Returns by Telegraph Week Ending Feb. 9	1935	1934	Per Cent
New York Chicago Philadelphia Boston Kansas City St. Louis San Francisco Pittsburgh Detroit Cleveland Baltimore New Orleans	178,117,555 221,000,000 144,000,000 62,931,682 55,600,000 90,565,000 74,799,443 57,513,475 41,558,676 39,204,692	\$2,900,493,310 152,991,967 199,000,000 149,000,000 49,252,972 47,500,000 82,119,000 61,672,205 46,029,643 37,699,712 37,412,342 23,875,000	-15.0 +16.4 +11.1 -3.4 +27.8 +17.1 +10.3 +21.3 +24.9 +10.2 +4.8
Twelve cities, 5 days	\$35,814,225	\$3,787,045,151 465,763,420 \$4,252,808,571 870,592,200	-8.8 +15.0 -6.3 -8.4

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them to-day inasmuch as the week ends to-day (Saturday) and the Saturday figures will not be available until noon to-day. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results for the week previous—the week ended Feb. 2. For that week there is a decrease of 1.2%, the aggregate of clearings for the whole country being \$5,676,933,116, against \$5,744,439,183 in the same week in 1934.

Outside of this city there is an increase of 12.2%, the bank clearings at this center having recorded a loss of 7.0%. We group the cities according to the Federal Reserve districts in which they are located, and from this it appears that in the New York Reserve District, including this city, the totals register a decline of 6.7% and in the Boston Reserve District of 1.4%, but in the Philadelphia Reserve District the totals show an increase of 17.8%. The Cleveland Reserve District has to its credit a gain of 11.0%, the Richmond Reserve District of 3.4%, and the Atlanta Reserve District of 11.5%. In the Chicago Reserve District the totals are larger by 25.7%, in the St. Louis Reserve District by 6.7%, and in the Minneapolis Reserve District by 0.7%. The San Francisco Reserve District enjoys an increase of 16.7%, the Dallas Reserve District of 4.4%, and the San Francisco Reserve District of 15.8%.

In the following we furnish a summary of Federal Reserve districts:

Week Ended Feb. 2 1935	1935	1934	Inc.or Dec.	1933	1932

We also furnish to-day a summary of the clearings for the month of January. For that month there is an increase for the entire body of clearing houses of 19.4%, the 1935 aggregate of clearings being \$25,538,411,841 and the 1934 aggregate \$21,395,408,904. In the New York Reserve District the totals show an increase of 19.6% in the Boston Reserve District of 4.6% and in the Philadelphia Reserve district of 25.2%. The Cleveland Reserve District has

managed to Tenlarge its totals by 19.0%, the Richmond Reserve District by 16.1% and the Atlanta Reserve District by 17.2%. In the Chicago Reserve District there is an improvement of 33.2%, in the St. Louis Reserve District by 13.7% and in the Minneapolis Reserve District by 7.6%. In the Kansas City Reserve District the gain is 23.3%, in the Dallas Reserve District 6.7% and in the San Francisco Reserve District 16.2%.

THE CURB EXCHANGE

Price movements on the New York Curb Exchange displayed a strong downward tendency during the early part of the present week, and while there were occasional periods of strength, the gains were generally limited to small fractions. On Thursday the trend turned upward, and as the volume increased, the market improved all along the line. The turnover on Friday was the largest of the week and price

changes were generally upward.

The Curb Exchange was a comparatively quiet affair during the abbreviated session on Saturday as most of the transfers were unimportant and the changes were within a narrow channel. Practically all groups were apparently unwilling to increase commitments and were marking time awaiting the announcement of the gold clause decision in Washington. Some of the public utilities were slightly easier and the alcohol stocks about held their own, but the oil shares were generally soft. The principal changes were on the side of the advance, the gains including among others Allied Mills, 12% to $13\frac{1}{8}$; Atlas Corp., $8\frac{1}{2}$ to $8\frac{3}{4}$; Commonwealth Edison, 55 to 551/4; Creole Petroleum Corp., 113/4 to 12; Ford Motor of Canada A, 293/4 to 301/4; Gulf Oil of Pennsylvania, 56 to 563/8; International Mining Corp., 131/8 to 14½; Lake Shore Mines, 50½ to 50¾; Newmont Mining 35½ to 36; Sherwin-Williams, 87 to 88; Swift International, 34 to 34½, and Hiram Walker, 29¾ to 30.

The smallest volume of trading recorded in several months marked the dealings on the curb market on Monday, the total transfers reaching only about 84,800 shares. Moderate losses were apparent all along the line, though there were a few special stocks that showed minor gains. Pepperell Manufacturing Co. was the best of these and showed an advance of 2 points over the previous close. The list of active stocks closing on the side of the decline included among others, Allied Mills, American Cyanamid B, Atlas Corp., Carrier Corp., Creole Petroleum, Fisk Rubber Corp., Ford Motor of Canada A, Glen Alden Coal, Greyhound Corp., National Bellas Hess, Niagara Hudson, Pennroad Corp., Sherwin-Williams and Standard Oil of Kentucky.

Public utilities and industrial stocks continued to move downward on Tuesday, and while trading was in somewhat larger volume than on the preceding day, prices in general were lower in all sections of the list. Pepperell Manufacturing Co. moved against the trend and showed a gain of 5 points on a small turnover. Outstanding among the recessions were such market leaders as Aluminum Co. of America, American Gas & Electric com., American Light & Traction, Creole Petroleum, Distillers Seagrams, Gulf Oil of Pennsylvania, Humble Oil & Refining Co., International Petroleum, Sherwin-Williams Co., Swift International and

Wright-Hargreaves.

Moderate declines were again in evidence during the session on Wednesday, and while the recessions were small in most instances, there were occasional stocks that dropped off sharply as in the case of Pepperell Manufacturing Co., which lost most of its 5 point gain of the previous day. Western Auto Supply also was weak and yielded about a point before the close. Other prominent stocks showing losses at the end of the session were Allied Mills, American Cyanamid B, American Light & Traction, Distillers Seagrams, Ford Motor of Canada A, General Tire & Rubber, Greyhound Corp., Gulf Oil of Pennsylvania, Lake Shore Mines, Newmont Mining, Swift & Co. and Hiram Walker.

Moderate improvement was apparent on Thursday, though irregular price tendencies were in evidence during most of the session and the final changes were comparatively narrow. The volume of sales was small and closing prices showed only modest gains and numerous recessions. Prominent among the stocks on the upside were Hiram Walker, Swift & Co., Sherwin Williams Co., Pioneer Gold Mines of B. C., International Petroleum, Greyhound Corp., Ford Motor of Canada A, Creole Petroleum Corp. and Commonwealth

Dealings on the curb exchange continued to show improvement on Friday, the volume of sales being the largest of the week and the trend of prices was generally toward higher levels. The power and light issues were the strong stocks and led the upward swing, followed by the specialties and the mining shares, the gains ranging from 2 to 5 or more points. As compared with Friday last, the changes for the week were about evenly divided between advances and losses, Aluminum Co. of America closing last night at 44 against 45 on Friday of last week, American Gas & Electric at 1978 against 20,

Atlas Corp. at 81/4 against 81/2, Electric Bond & Share at 51/4 against 61/8, Fisk Rubber Corp. at 83/4 against 9, Gulf Oil of Pennsylvania at 56 against 56½, New York Telephone pref. at 117 against 1171/2, and Sherwin Williams Co. at 861/4 against 867/8. On the side of the advance, Consolidated Gas of Baltimore closed at $56\frac{1}{2}$ against $55\frac{1}{2}$, Distillers Seagrams Ltd. at $17\frac{1}{4}$ against $16\frac{1}{2}$, Ford of Canada A at $30\frac{7}{8}$ against 301/8, Glen Alden Coal at 21 against 205/8, Greyhound Corp. at 221/8 against 213/4, Hiram Walker at 301/4 against 295/8, Hollinger Consolidated Gold Mines at 181/2 against 17%, Humble Oil (New) at 46% against 46, Lake Shore Mines Ltd. at 513/4 against 503/8, and Swift & Co. at 181/4 against 18.

THE ENGLISH GOLD AND SILVER MARKETS

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of Jan. 23 1935:

The Bank of England gold reserve against notes amounted to £192,403,692 on the 16th inst., as compared with £192,302,099 on the previous Wednesday. Bar gold to the value of £2,200,000 was disposed of in the open market during the week. The United States Supreme Court has adjourned until Feb. 4 and its decision with regard to the gold clause is postponed accordingly; consequently very large gold shipments have been made to New York calculated to reach there before the date mentioned. but there is still nervousness as regards making arrangements further ahead. The amount of gold shipped from London to New York since our last letter is estimated to be at least £11,000,000. Prices have ruled at a discount on dollar parity, and showed only small variations during the period under review. Quotations during the week:

	er Fine Ounce	Equivalent Value of £ Sterling

	10 602 600	£5 949 597

SILVER

The market continued to show a very steady tone and, during the past ok, prices showed a variation of only 1-16d. Further re-sales have been made by the Indian Bazaars and speculators, but America has been a good buyer at current rates and with some China speculative demand, offerings were well absorbed. There is no indication of any important charge at present but the undertone is still firm. The following were the change at present, but the undertone is still firm. The following were the United Kingdom imports and exports of silver registered from mid-day on the 14th inst. to mid-day on the 21st inst.:

MONTHLY REPORT OF THE UNITED STATES TREASURY AS OF DEC. 31 1934

The monthly report of the Treasury Department showing assets and liabilities of governmental corporations and credit agencies, financed wholly or in part by the United States, was contained in the Department's daily statement for Jan. 31. The report is the seventh such to be issued by the Treasury; the last previous for Nov. 30 1934, appeared in our issue of Jan. 12, pages 266–268.

The report for Dec. 31 shows in the case of agencies financed wholly from Government funds a proprietary interest of the United States as of that date of \$3,363,816,735, which compares with \$3,300,231,049 Nov. 30 1934. In the case of these wholly owned Government agencies, the proprietary interest represents the excess of assets over liabilities, exclusive of inter-agency items.

The Government's proprietary interest in agencies financed partly from Government funds and partly from private funds as of Dec. 31 was shown to be \$1,113,525,728. This compares with \$1,082,176,333 as of Nov. 30. In the case of these partly owned Government agencies, the Government's proprietary interest is the excess of assets over liabilities, exclusive of inter-agency items, less the privately owned interests. The statement follows:

a Non-stock (or includes non-stock proprietary interests).
b Excess inter-agency assets (deduct).
c Deficit (deduct).

a Non-store of Berein Seeds (Geduct).

c Deficit (deduct).

d Exclusive of inter-agency assets and liabilities (except bond investments).

e Adjusted for inter-agency items and items in transit.

f Excludes contingent assets and liabilities amounting to \$5,464,767 for guaranteed loans, &c.

f Excludes on Nov. 30 1934.

h Includes U. S. Housing Corporation; U. S. Spruce Production Corporation; U. S. Rallroad Administration, and notes received on account of war supplies.

h Includes Inland Waterways Corporation (as of Nov. 30 1934); Federal Subsistence Homesteads Corporation; Tennessee Valley Authority, Inc.; Electric Home and rm Authority, Inc.; Federal Housing Administration; Farm Credit Administration (crop production and other loans); Agricultural Adjustment Administration; Tennessee liev Associated Co operatives, Inc., and inter-agency interests held by the U. S. Treasury, and loans to railroads.

j Preliminary statement.

k In liquidation.

l Inter-agency capital stock, paid-in surplus, and other proprietary interests.

a Less than \$1,000.

o Appropriation provided by Congress.

J Includes \$78,371,929 loans to Federal Land banks.

q Assets not classified. Includes only amount of capital stock subscribed by the United States.

I Assessments paid in by member banks and trust companies.

I Includes accrued interest.

J Tachides unissued hands amounting to \$232,459,675 covering loans in process.

CURRENT NOTICES

"List of Legal Investments for Savings Banks and Trust Funds in the State of Connecticut" is the title of a brochure prepared by R. L. Day & Co.'s New Haven office at 215 Church Street. This book contains a complete list of the securities which were legal investments for savings banks in Connecticut, as of Jan. 1 1935. It also contains analyses of railroad and public utility companies and financial statements of all Connecticut municipalities having bonds outstanding.

—Arthur Cohn, Contract Manager of Collier Advertising Service, Inc. New York, has been made Vice-President and Manager of the contract department. He recently was given a dinner by Barron Collier in honor of his thirty years with the company.

-Recent reports compiled by the Realty Investors Service departmentnow being distributed by Amott, Baker & Co., Incorporated, 150 Broadway, New York, include London Terrace Apartments 1st & general 6s, Frontenac Apartments (Rochester) 1st 61/4s, One Park Avenue 1st 6s and Westbrook Apartments (Buffalo) 1st 61/2s.

-Following the dissolution of the New York Curb Exchange firms of T. F. Rittenberg & Co. and Fechheimer & Mayer, the new firm of Rittenberg & Mayer, members New York Curb Exchange, has been formed by Theodor F. Rittenberg, Sidney N. Mayer and John S. Spear. Offices will be at 120 Broadway, New York.

-John B. Barchfield Jr. and Arthur N. Billard announce the formation of Barchfield, Billard & Co. as successors to the investment securities business of Barchfield & Co., with offices at 42 Broadway, New York. COMBINED STATEMENT OF ASSETS AND LIABILITIES OF GOVERNMENTAL CORPORATIONS AND CREDIT AGENCIES OF THE UNITED STATES

a Non-stock (or includes non-stock proprietary interests).

b Excess inter-agency assets (deduct).

c Deficit (deduct).

d Exclusive of inter-agency items and items in transit.

f Excludes contingent assets and liabilities amounting to \$5,464,767 for guaranteed loans, &c.

g Statement as of Nov. 30 1934.

h Includes U. S. Housing Corporation; U. S. Spruce Production Corporation; U. S. Raiiroad Administration, and notes received on account of war supplies.

i Includes Inland Waterways Corporation (as of Nov. 30 1934); Federal Subsistence Homesteads Corporation; Tennessee Valley Authority, Inc.; Electric Home and Farm Authority, Inc.; Federal Housing Administration; Farm Credit Administration (crop production and other loans); Agricultural Adjustment Administration: Tennessee Valley Associated Co-operatives, Inc., and inter-agency interests held by the U. S. Treasury, and loans to railroads.

k In liquidation.

i Inter-agency capital stock, paid-in surplus, and other proprietary interests.

n Less than \$1,000.

o Appropriation provided by Congress.

p Includes \$78,371,929 loans to Federal Land banks.

q Assets not classified. Includes only amount of capital stock subscribed by the United States.

r Assessments paid in by member banks and trust companies.

s Includes accrued interest.

t Includes accrued interest.

q Assets not classified. Includes only amount of capital stock subscribed by the r Assessments paid in by member banks and trust companies.

Includes accrued interest.

Includes unissued bonds amounting to \$232,459,675 covering loans in process.

CURRENT NOTICES

- -Kidder Peabody & Co. have prepared a study of General Electric Co. special stock, which has been called for payment on April 15, suggesting that holders give careful consideration to the alternative of selling their shares or holding for retirement.
- -M. F. Schlater & Co., Inc., announce that James H. Dewson, Jr., who has been associated with Eldredge & Co. and Stone & Webster and Blodget, is now associated with them.
- -Adams, McEntee & Co., Inc., 40 Wall St., New York, has prepared a circular on the City of Mount Vernon, N. Y., with special reference to its Water Supply Department.
 - -George P. Morrell is now associated with Taylor, Bates & Co.
- -Homer & Co., Inc., 40 Exchange Place, New York, has prepared a circular on institutional bonds, with special comment on high grade rails and public utilities
- -G. V. Grace & Co., Inc., 29 Broadway, New York, has prepared an analysis of the reorganization possibilities of Utilities Public Service secured gold 6s of 1933.
- -At the annual meeting of the board of directors of H. B. La Rocca & Co., Inc., Chicago, Chas. G. Scheuer was elected Vice-President.
- —Ira Haupt & Co., 30 Broadway, New York, are distributing a financial statement showing tax collections of Atlantic County, N. J.
- —James Talcott, Inc., has been appointed factor for Eskimo Knitting Mills, Inc., Philadelphia, Pa., manufacturers of knit goods.

FUNDS APPROPRIATED AND ALLOCATED TO EMERGENCY ORGANIZATIONS, EXPENDITURES THEREFROM, AND UNEXPENDED BALANCES AS OF JAN. 31 1935

The statement of funds appropriated and allocated as of Jan. 31 1935, taken from the daily Treasury statement, is as follows (see explanatory note below):

Grand total 2,565,132,284 3,300,000,000 1,426

a The emergency expenditures included in this statement for the period prior to the fiscal year 1934 include only expenditures on account of the Reconstruction Finance Corporation, and subscriptions to capital stock of Federal Land banks under authority of the Act of Jan. 23 1932. Expenditure by the several departments and establishments for public works under the Emergency Relief and Construction Act of 1932 were made from general disbursings accounts, and, therefore, are not susceptible to segregation from the general expenditures of such departments and establishments on the basis of the daily Treasury statements.

b Includes (a) \$350,000,000 specific appropriations from the General Treasury under the Act of May 12 1933, May 25 1934 and June 19 1934; (b) \$924.885,000 advanced by the Secretary of the Treasury under authority of Sec. 12-B of the Agricultural Adjustment Act, which must be returned to the Treasury from the proceeds of processing taxes collected on farm products; (c) \$1,753,795 advanced by the Secretary of the Treasury under authority of Sec. 10-A of the Act of June 29 1934; and (d) \$8,000,000 allocated from processing taxes for purchase of surplus sugar under the Act of May 9 1934.

c There are no statutory limitations on the amounts of funds which may be made available by the Reconstruction Finance Corporation for carrying out the purposes of Sec. 5 of the Agricultural Adjustment Act, and for the purchase by the Reconstruction Finance Corporation for preferred stock or capital notes of banks and trust companies under the Act of March 9 1933. The Reconstruction Finance Corporation is required to make available to the Federal Housing Administrators such funds as he may deem necessary for the purposes of carrying out the provisions of the National Housing Act. The amounts included in this column for the purposes specified are based upon checks issued therefor from time to time by the Reconstruction Finance Corporation. The authority of the Reconstruct

struction Finance Corporation is authorized to have outstanding at any one time is increased by the sums necessary for such purchases, not to exceed \$250,000,000. The purchase of such securities by the Reconstruction Finance Corporation is reflected as expenditures of the Reconstruction Finance Corporation and as credits against expenditures of the Reconstruction Finance Corporation and as credits against expenditures of the Federal Emergency Administration of Public Works. The amount by which the available funds on account of such transactions has been increased is, therefore, included in the funds of the "Reconstruction Finance Corporation—direct loans and expenditures."

k Includes \$500,000 allocated for savings and loan promotion as authorized by Sec. 11 of the Act of April 27 1934.

1 The appropriation of \$500,000,000 for subscription to capital stock is included in the figures shown in the column for Reconstruction Finance Corporation is authorized to purchase at par obligations of the Federal Deposit Insurance Corporation is authorized to purchase at par obligations of the Federal Deposit Insurance Corporation in a face amount of not to exceed \$250,000,000, and the amount of boilgations which the Reconstruction Finance Corporation is authorized to have outstanding at any one time is increased by \$250,000,000. The amount to be included in this column will represent the proceeds deposited with the Treasurer of the United States on account of the sale of such obligations by the Federal Deposit Insurance Corporation to the Reconstruction Finance Corporation.

n This amount represents the unallocated balance of an allocation of \$400,000,000 by the President to the Administrator of Public Works. As and when such funds are allocated by the Administrator to specific projects, the amounts are transferred from an unallocated status to an allocated status.

NOTE—The expenditures in this statement are on the same basis as those exhibited on page 2 of the deliv Treasury statement, but differ with respect to

such funds are allocated by the Administrator to specific projects, the amounts are transferred from an unallocated status to an allocated status.

NOTE—The expenditures in this statement are on the same basis as those exhibited on page 2 of the daily Treasury statement, but differ with respect to classification. The purpose of this statement is to show all funds appropriated or allocated to the respective emergency organizations, the expenditures therefrom, and the unexpended balances. The principal difference in classification of expenditures is with respect to amounts paid from funds allocated by the Reconstruction Finance Corporation to various emergency organizations. The expenditures on page 2 under the caption "Reconstruction Finance Corporation" comprehend all expenditures from funds of the Reconstruction Finance Corporation, including those allocated to other organizations, whereas expenditures included in the foregoing statement on account of such allocated funds are exhibited as expenditures of the organizations to which the funds were allocated rather than expenditures of the Farm Credit Administration and the Commodity Credit Corporation, representing funds allocated to those organizations for the purpose of carrying out the provisions of the Agricultural Adjustment Administration," whereas such expenditures are exhibited in this statement as expenditures of the Farm Credit Administration and the Commodity Credit Corporation, respectively. The total amount of expenditures for the fiscal year 1935 in this statement can be reconciled with the total amount of emergency expenditures shown on page 2 by adding to the latter the amounts included in general expenditures under the captions "Agricultural Adjustment Administration," "Refunds of receipts—Processing tax on farm products," and "Subscriptions to stock of Federal Land banks," and deducting the receipts under the caption "Processing tax on farm products."

a Excess of repayments and collections, deduct.
b These figures have been adjusted by eliminating certain non eash transactions involving the allocation of funds by the Reconstruction Finance Corporation to other ernment organizations, the purchase of the Corporation's notes by the Secretary of the Treasury, and the transfers of funds between disbursing accounts. The adjust-time does not affect the net expenditures of the Reconstruction Finance Corporation.

* "Other cash" does not include Federal Reserve notes or a bank's own Federal eserve bonk notes.

s These are certificates given by the U.S. Treasury for the gold taken over from the Reserve banks when the dollar was on Jan. 31 1934 devalued from 100 cents to 59.08 cents, these certificates being worth less to the extent of the directed the difference itself having been appropriated as profit by the Treasury under the provisions of the Gold Reserve Act of 1934.

Weekly Return of the Federal Reserve Board

The following is issued by the Federal Reserve Board on Thursday afternoon, Feb.. 7, showing the condition of the twelve Reserve banks at the close of business on Wednesday. The first table presents the results for the System as a whole in comparison with the figures for the seven preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve note statement (third table following) gives details regarding transactions in Federal Reserve notes between the Reserve Agents and the Federal Reserve banks. The fourth table (Federal Reserve Bank Note Statement) shows the amount of these bank notes issued and the amount held by the Federal Reserve banks along with the collateral pledged against outstanding bank notes. The Reserve Board's comment upon the returns for the latest week appears in our department of "Current Events and Discussions."

^{*&}quot;Other cush" does not include Federal Reserve notes or a bank's own Federal Reserve bunk notes. † Revised figures.

x These are certificates given by the U. S. Treasury for the gold taken over from the Reserve banks when the dollar was devalued from 100 cents to 59,06 cents, on Jan. 31, 1934, these certificates being worth less to the extent of the difference, the difference itself having been appropriated as profit by the Treasury under the provisions of the Gold Reserve Act of 1934.

a Caption changed from "Government" to "U. S Treasurer—General account" and \$100,000,000 included in Government deposits on May 2 1934 transferred to "Other deposits."

Weekly Return for the Member Banks of the Federal Reserve System

Following is the weekly statement issued by the Federal Reserve Board, giving the principal items of the resources and liabilities of the reporting member banks in 91 leading cities from which weekly returns are obtained. These figures are always a week behind those for the Reserve banks themselves. The comment of the Reserve Board upon the figures for the latest week appears in our department of "Current Events and Discussions," immediately preceding which we also give the figures of New York and Chicago reporting member banks for a week later.

CURRENT NOTICES

-The firm of Peter Lander & Co., Inc., has been formed to deal in general investment securities. Offices have been established in the Buhl Building, Detroit.

The principals of the new firm include Julius C. Peter, John Z. Lander,

and E. Price Kimbrough, Julius C. Peter came to Detroit in 1913 to join the Bond Department of Paine, Webber & Co., and the following year became associated with the Bond Department of the Detroit Trust Co. He remained with that institution for over 19 years, becoming Vice-President in charge of new trust

business activities. John Z. Lander became associated with the Bond Department of the Fidelity Trust Co. at the time of its organization in 1924, later joining Cray,

McFawn & Co., Detroit bond house, at its inception in 1930.

E. Price Kimbrough has for many years been actively engaged in the investment banking business both in Detroit and New York, having been Vice-President of the Guardian Detroit Co. in charge of distribution of

New York Stock Exchange—Bond Record, Friday, Weekly and Yearly Feb. 9 1935

On Jan. 1 1909 the Ezchange method of quoting bonds was changed and prices are now "and interest"—except for income and defaulted bonds.

NOTICE—Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of the week, and when selling outside or the play weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

NOTICE—Cash and deferred de regular weekly range are shown in a fo	livery sales are disre	in which they	week's range, occur. No ac	unless they are the only transactions count is taken of such sales in compu	ting the range for	or the year.

New York Curb Exchange—Weekly and Yearly Record

NOTICE.—Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of the week, and when selling outside of the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

In the following extensive list we furnish a complete record of the transactions on the New York Curb Exchange for the week beginning on Saturday last (Feb. 2 1935) and ending the present Friday (Feb. 8 1935). It is compiled entirely from the daily reports of the Curb Exchange itself, and is intended to include every security, whether stock or bond, in which any dealings occurred during the week covered:

which any dealings	Week's R of Pric	ange	Sales	July 1 1933 to Jan. 31 1935	A	ange	Since			Week's		Sales for Week	July 1 1933 to Jan.31 1935		ange 8

Alabama Power Co.—Federal Judge in Birmingham Hears Suit Seeking Petition to Halt TVA Electrification Program.— See Chronicle Feb. 2, p. 730

Judge Declines to Allow Cost Debate—
Federal Judge William I. Grubb at Birmingham, Ala., on Feb. 1, refused to allow the Chemical Bank & Trust Co., New York, to go into the question of adequacy of the Tennessee Valley Authority's offer for transmission lines of the company. The bank is trustee for the bondholders. Its attorneys argued that the Court should ascertain if the TVA offer was fair. Judge Grubb previously had ruled that the question at issue was whether the TVA had the power, constitutionally, to enter a contract for the purchase.—

Net loss \$1,039,405 \$2,893,905 Orders booked by the company in 1934 amounted to \$21,875,088, compared with bookings in 1933 of \$14,270,940. This represents a gain in bookings over the year 1933 of \$7,604,068 or 53.3%. Unfilled orders on the books Dec. 31 1934 amounted to \$8,013,858, compared with \$6,425,998 Dec. 31 1933, an increase of \$1,587,860 or 24.7%. The Dec. 31 1934 balance sheet discloses net current assets of \$23,361,977. This compares with \$23,454,642 as shown on Dec. 31 1933.—V. 139, p. 2668.

Alpine Montan Steel Corp.—New York Stock Exchange Ruling-

The Committee on Securities of the New York Stock Exchange rules that transactions made on and after Monday, Feb. 11 1935, in the bonds listed below shall be settled by delivery of bonds bearing only the coupons designated in each case and subsequent coupons, and that the bonds shall continue to be dealt in "flat."

This ruling supersedes_those previously issued providing for deliveries of the bonds with these coupons attached unless otherwise agreed at the time of transaction and has been made for the purpose of avoiding confusion in the execution of orders. It does not imply any recommendation with respect to the retention or disposal of the past-due coupons by bondholders.

Alpine Montan Steel Corp. 7% closed 1st mtge. 30-year sinking fund gold bonds, due 1955; March 1 1935 coupon.

Lower-Austrian Hydro-Electric Power Co. guaranteed 20-year closed 1st mtge. sinking fund 6½% gold bonds, due 1944; Feb. 1 1935 coupon. Rima Steel Corp. 7% closed 1st mtge. 30-year sinking fund gold bonds, due 1955; Aug. 1 1935 coupon.

Tyrol Hydro-Electric Power Co. 7% guaranteed secured mortgage sinking fund gold bonds, due 1952; Aug. 1 1935 coupon; and 7½% 30-year closed 1st mtge. sinking fund gold bonds, due 1955; May 1 1935 coupon.

—V. 140, p. 136.

American Business Shares, Inc.—Rights—
The stockholders have received rights to subscribe to one share of capital stock for every five shares held on Jan. 25 at the offering price when the right is exercised, less a discount of 2 cents a share.—V. 139, p. 2668.

American Brake Shoe Foundry Co.—Annual Report—

American Brake Shoe Foundry Co.—Annual Keport—William B. Given, Jr., President, says in part:

The Ramapo Ajax Corp. realized a consolidated net profit of \$8.245 during the year and this with its payment of a \$2 preferred dividend resulted in a reduction of \$47.875 in its consolidated surplus account. As of Dec. 31 1934 the accumulated preferred dividend was \$13 per share, or \$364,780. Net current assets increased \$127.854 during the year. Outstanding bonds were reduced \$81,000 to \$699,500. The earnings compare with a net loss of \$219.944 in 1933.

The National Bearing Metals Corp. 's net earnings amounted to \$329,533. Dividends on its preferred stock amounted to \$448,518 covering \$7.25 per share on account of accumulated dividends and the \$7 per share annual dividend. As of Dec. 31 the accumulated dividend amounted to \$3 per share, or \$94,068. Net current assets decreased \$18,715. Bond purchases

of \$54,500 reduced the outstanding debt to \$1,365,000. The net earnings in 1933 were \$358,083.

The Bucyrus-Erie Co., in which company has an interest, showed in 1934 a substantial improvement. Although the final figures for the year again will show a net loss, it was materially reduced. Fundamental conditions in their markets and in the company indicate an encouraging position when an improvement in the capital goods industry is realized.

There was a gradual increase in the tonnages shipped by the companies until May when a recession, which lasted until Sept. occurred Since then there has been a continuing minor improvement. Shipments exceeded those in 1933, not only for the full year but also for each month except Sept. and Oct. After April, shipments were approximately the same as in 1931. The present outlook is somewhat improved from the year preceding.

1931. The present outlo	ok is somewh	nat improved	from the year	ar preceding.

ganization Advisers Appointed—
Stein Bros. & Boyce, with offices in Baltimore, New York and Louisville, have been appointed reorganization advisers and investment counsel to the receivers in connection with the plan of reorganization for the 6% mortgage bonds of American Insurance Union Building, Columbus, of which \$3,455,-000 principal amount are outstanding of an original issue of \$3,800,000, which bonds have been in default since the latter part of 1933.—V. 138, n. 328.

American Rolling Mill Co.—To Pay \$2 on Preferred—
The directors have declared a dividend of \$2 per share on account of accumulations on the 6% cumulative preferred stock, series B, par \$100, payable March 1 to holders of record Feb. 15. This is the first payment to be made on this issue since Jan, 15 1933 when a regular quarterly dividend of \$1.50 per share was paid. Accumulations after the March 1 disbursement will amount to \$10 per share.—V. 140, p. 312.

American Silver Co.—To Liquidate—
The company, employing 175 men and women, closed its plant on Feb. 1 and officials announced that liquidation of assets had begun. It has capital stock of \$400,000. Organized in 1857 as part of the Bristol Brass & Clock Co., the concern was virtually given to the brass company's stockholders in 1914 and 1916 as dividends.—V. 132, p. 1417.

American Steel Foundries-50-Cent Accumulated Div.-American Steel Foundries—30-Uent Accumulated Div.—
The directors have declared a dividend of 50 cents per share on account of accumulations on the 7% cum. preferred stock, par \$100, payable March 30 to holders of record March 15. A like amount was paid in each of the eight preceding quarters, prior to which the company made regular quarterly distributions of \$1.75 per share. Accruals on the preferred stock, after the payment of the March 30 dividend, will amount to \$11.25 per share.

American Telephone & Telegraph Co.-President Gifford Asks Permission to Retain Directorships in Associated Companies-

Walter S. Gifford, President, appeared before the Federal Communications Commission on Feb. 5 seeking permission to remain as a director of the 21 Associated Bell companies.

Under the Communications Act, the Commission is empowered to remove officers who hold more than one position in the communications business, should that be found against public interest.

Mr. Gifford said that none of his companies competed and that an interlocking directorate was necessary to keep the telephone service at its present high standard.

\$750,000 Fund for Investigation Approved by Senate Committee. An appropriation of \$750,000 for further investigation by the Federal Communications Commission was approved Feb. 5, by the Senate Interstate Commerce Committee.—V. 140, p. 467.

American Water Works & Electric Co.—Weekly Output
Output of electric energy for the week ended Feb. 2 1935, totaled 38,450,000 kilowatt hours, an increase of 13% over the output of 33,939,000
kilowatt hours for the corresponding period of 1934.
Comparative table of weekly output of electric energy for the last five
years follows:

American Writing Paper Co., Inc.—Deposits of Bonds.

The protective committee for the 1st mtge. 6% gold bonds due Jan. 1 1947, headed by D. Samuel Gottesman, is calling for deposits of these bonds in a notice sent to holders Feb. 4. Deposits may be made with Chase National Bank, 11 Broad St., New York, or with Old Colony Trust Co., 17 Court St., Boston, Mass., depositaries.

Other members of the committee, which was formed last August, are Benjamin L. Allen, Albert A. Harvey, George E. Warren and Oliver Wolcott. Edward A. McQuade, 22 East 40th St., New York, is Secretary. Bonds deposited must be accompanied by the July 1 1934 and subsequent coupons and certificates of deposit transferable on the books of the depositaries will be issued for all bonds deposited.—V. 139, p. 3319.

Archer-Daniels-Midland Co.—25-Cent Special Dividend
The directors have declared a special dividend of 25 cents per share, in addition to the regular quarterly dividend of 25 cents per share, on the common stock, no par value, both payable March 1 to holders of record Feb. 18. Similar distributions were made on Dec. 1 and Sept. 1 last. Regular quarterly dividends of 25 cents per share have been paid since and incl. Dec. 1 1931, prior to which 50 cents per share was paid quarterly from May 1 1929 to and incl. Feb. 1 1931.

Arizona Edison Co.—Committee Formed—Trustee—
Organization of a bondholders' committee for the first mortgage 5% bonds, due Jan. 1 1948, and first mortgage sinking fund 6% bonds, series A, due Oct. 1 1945, was announced Feb. 5. The committee comprises Francis E. Frothingham, of Coffin & Burr, Inc. Henry B. Shaw, Burlington Savings Bank, Burlington, Vt. John Witter of Dean Witter & Co., San Francisco C. W. Adams, Jr., Franklin Savings Bank, Franklin, N. H. Paul M. Binzel, of Morris Fox & Co., Milwaukee, and Willard D. Rand, Amoskeag Savings Bank, Manchester, N. H.

After noting that the Jan. 1 1935 coupon on the 5% bonds was not paid, and that any default under the mortgage affects the 5s and 6s equally, the committee says:

"The company has been placed by the United States District Court of Arizona in the hands of a bankruptcy trustee for the purpose of reorganiza-

tion, and a plan for reorganization has been filed in that Court in behalf of the holders of junior securities of the corporation, which plan the committee does not consider is suitable to the situation. Immediate action is, therefore, necessary."

The committee asks that bondholders give it the power of attorney authorizing it to act. Forms may be obtained from John T. Beach, Secretary of the committee, 70 Pine St., N. Y. City Ehrich, Royall, Wheeler & are acting as counsel.—V. 134, p. 3634.

Artloom Corp.—Accumulated Preferred Dividend—
The directors have declared a dividend of \$1.75 per share on the 7% cumulative preferred stock, par \$100, payable March 1 to holders of record Feb. 15. This payment represents the dividend due June 1 1934. Similar distributions were made each quarter since and incl. June 1 1933, as against \$1.50 per share on March 1 1933, \$1 per share on March 1 and Nov. 18 1932 and \$1.75 per share previously each quarter to and incl. Dec. 1 1931.—V. 139, p. 2669.

Associated Gas & Electric Co.—Weekly Output—
For the week ended Jan. 26, the System reports net electric output of of 56,161,557 units (kwh.), an increase of 7.2% over the same week a year ago. This is the largest percent increase over a comparable period reported since May 12 1934.

Net output for the four weeks to date showed an increase of 5.1%.—V. 140. p. 791.

Aviation Securities Corp. of New England-To Exchange Shares for National Aviation Corp. Stock-

The company on Feb. 5 offered to exchange its holdings of National Aviation Corp. stock for its own shares. The notice to stockholders from Richard F. Hoyt, President, says in part:

"Certain stockholders have expressed a desire to obtain stock of the National Aviation Corp. in exchange for their holdings of Aviation Securities Corp. of New England, pointing out that while the stock of your company is listed on the Boston Stock Exchange, trading in it is very inactive, whereas the stock of National Aviation Corp. is listed on the New York Stock Exchange and enjoys a better market. Your directors are unwilling to give such privilege to any without extending it to all stockholders.

"Your company's sole investment is 130,509 shares of National Aviation Corp., equivalent to approximately 9-10ths of a share of National Aviation Corp., equivalent to approximately 9-10ths of a share of National Aviation Corp., equivalent to approximately 9-10ths of a share of National Aviation Corp., equivalent to approximately 9-10ths of a share of National Aviation Corp., equivalent to approximately 9-10ths of a share of National Aviation Corp., equivalent to approximately 9-10ths of a share of National Aviation Corp. of New England are being kept at a minimum, no officer drawing any salary, corporate expenses will continue and there will be an additional item of expense for transfer taxes and other items in connection with any exchange of Aviation Securities Corp. of New England's holdings of National Aviation Corp. for this company's stock.

"Your directors have decided, therefore, that any shareholder may exchange one share of your company's stock for 8-10ths of a share of the capital stock of National Aviation Corp. this right to remain open until the close of business Feb. 28 1935.

"It is impossible to issue fractional shares of National Aviation Corp. stock, but. in lieu thereof, any stockholder entitled to less than one full share may sell the fraction to which he is entitled or purchase any necessary fractional share to en

x Represented by 762,000 shares of no par value.—V. 138, p. 2912. Berkey & Gay Furniture Co.-Plan to Reopen-

A press dispatch from Detroit states:

A plan has been developed at Grand Rapids to form a new corporation to reopen the Berkey & Gay Furniture Co. which went into receivership three years ago following acquisition of control in 1929 by Simmons Co.

K. J. Stanford, expert hired by the city to work out a plan, announced that assurances have been received from the Reconstruction Finance Corporation and the Federal Reserve Bank that they will consider a \$750,000 loan to the new company. Local interests have agreed, he said, to buy \$50,000 of new common stock to provide working capital and will also provide the management. The plan will be presented to receiver Charles H. Bender, Vice-President of Michigan Trust Co., who in turn will seek Federal Court approval. City of Grand Rapids has agreed to accept one of the company's five plants in satisfaction of tax liens totaling about \$100,000.

Bell Telephone Co. of Pennsylvania-Earnings-

Net operating income \$1,169,829 \$941,767 \$13,972,832 \$12,037,955 V. 140, p. 138.

Bird-Archer Co.—Larger Dividend—
The directors have declared a dividend of \$2 per share on the common stock, par \$50, payable Feb. 15 to holders of record Feb. 11. This compares with \$1.50 per share distributed on Sept. 1 and March 1 1934.—V. 138, p. 1401.

Boeing Air Transport, Inc.—Airlines Can Sue Court Rules

Boeing Air Transport, Inc.—Airlines Can Sue Court Rules
The District of Columbia Court of Appeals held Feb. 4 that Postmaster
General Farley's cancellation of airmail contracts amounted to a breach of
contract which gave the air lines the right to sue the Government in the
Court of Claims.

The action of the District Supreme Court in dismissing injunction suits
brought by five air line companies attacking Mr. Farley's order was upheld.
The injunction suits were brought by the Boeing Air Transport, National
Air Transport, Pacific Air Transport, Co, Varney Air Lines and Pennsylvania Air Lines.

After holding the applications for an injunction were properly dismissed
by the lower court because the complainants had a "remedy at law afforded
by a suit in the Court of Claims," the opinion of the Appellate Court said:
"What has occurred in these cases amounts to a breach of the contracts by
the Postmaster-General. Whether properly or improperly breached,
cannot be determined in this action, but remains to be established in the
appropriate action at law."—V. 139, p. 2514.

Boston Store of Chicago, Inc.—To Sell Nash Cars—
This company has acquired dealership for the Nash-Lafayette automobile line. The store, it is said, will handle demonstration and sales, with delivery of cars and service to be undertaken by the Chicago branch of Nash Motors Co.—V. 139, p. 3635.

Motors Co.—V. 139, p. 3635.

Boss Manufacturing Co.—Larger Dividend—

The directors have declared a dividend of \$1.50 per share on the common stock, par \$100, payable Feb. 15 to holders of record Jan. 31. This compares with \$1 per share paid in each of the four quarters of 1934, \$1.75 per share paid on Nov. 15 1933, and 25 cents per share in each of the five preceding quarters. On May 15 and Feb. 15 1932 \$1 per share was paid. In addition an extra dividend of \$3 per share was disbursed on Dec. 24 last, and one of \$1.50 per share was paid on Dec. 22 1933.—V. 139, p. 4121.

Bridgeport Machine Co.—Accumulation Dividend—
The directors have declared a dividend of \$2 per share on account of accumulations on the 7% cumulative preferred stock, par \$100, payable Feb. 25 to holders of record Feb. 15. This compares with \$1 per share distributed on Jan. 25, last, and on Sept. 29, Aug. 30, July 31, June 30, May 31, April 30, March 25, March 1 and Jan. 2 1934. In 1933 the company only paid two quarterly dividends on the above issue, the Oct. 1 and July 1 payments having been passed.

Accruals as of Jan. 1 after the payment of the Feb. 25 dividends will amount to \$4.50 per share.—V. 140, p. 313.

(The) Broadmoor, N. Y. City-Reorganization-

(The) Broadmoor, N. Y. City—Reorganization—

A proposed plan of reorganization has been filed with the U. S. District Court for the Southern District of New York. The plan provides that holders of 1st mtge. fee 6% sinking fund gold bonds are to receive:

(1) New bond certificates equal to their present holdings of 1st mtge. bond certificates, to mature in a period of 12 years and to bear interest from date of issue at the fixed rate of 4% per annum and additional interest at the rate of ½ of 1% per annum, if earned, after payment of non-cumulative interest at the rate of 2% per annum, if earned, on the gen. mtge. bonds. The mortgage securing the new bond certificates is to provide for an annual sinking fund out of net earnings for the redemption of the new bond certificates before any interest is payable in any year on the gen. mtge. bonds; and

(2) One-half of the stock of the new corporation which is to be formed to acquire title to The Broadmoor. This stock (together with the remaining one-half which the stockholders of the present owner are to receive) is to be placed in a voting trust, under which all of the voting trustees are to be named by the Real Estate Bondholders Protective Committee (Geo. E. Roosevelt, Chairman) to represent the 1st mtge. bondholders. In this manner, in addition to the ownership of one-half of the equity of the new corporation, the 1st mtge, bondholders are given control of the mortgaged property through their representatives, the voting trustees. Holders of General Mortgage Bonds Are to Receive: New gen. mtge, bonds (income bonds) in the same principal amount, to mature in a period of 15 years, and to bear interest at the rate of 2% per annum, if earned, which shall be non-cumulative, with additional interest and additional interest and sinking fund requirements with respect to the 1st mtge, bond certificates shall have been met.

Owners of the Capital Stock of the Present Owner Are to Receive: One-half of the shares of the capital stock of the new corporation. These shares of sto

Broadway & 7th Ave. Ry., N. Y. City—Foreclosure—
Federal Judge Robert P. Patterson on Feb. 6 approved the report of the special master recommending the foreclosure of a mortgage and interest claims amounting to \$6,603,106 against the company, which has surface claims amounting to \$6,603,106 against the company, which has surface line rights on Broadway from South Ferry to 15th St. and down from 59th St. along Seventh Ave. The foreclosure proceedings were started in 1933 by the Manufacturers Trust Co. as trustee under consolidated 5% mortgage dated Dec. 22 1893. The court order provides a period of 10 days in which the mortgage may be satisfied and unless this is done a sale at public auction is ordered.

The company is controlled by New York Railways Corp.—V. 137, p. 2976.

Brooklyn-Manhattan Transit Corp. - Purchase Details Remain to Be Worked Out-

Published statements as to an alleged agreement between the City of New York and the B.-M. T. on acquisition of rapid transit properties are premature and inaccurate, according to Samuel Seabury, the city's special counsel on unification.

It was reported on Feb. 1 that the city and the company had reached a final agreement for the purchase by the city of the B.-M. T. lines for a price of approximately \$192,500,000.—V. 140, p. 634.

notice to stockholders stated that the plan of reorganization promulgated by the committee has already received the support of more than 70% of the company's debt (including bonds, debentures and claims), of a majority of the preferred stock and a large minority of the common stock. The plan, the committee states, has also received the endorsement of the stockholders' committee.

The committee urges stockholders that if their stock is not registered in their own name, to do so at once, or (1) to advise the secretary of the committee of their name, address and holdings in order that they may be furnished with full information regarding the plan or (2) if they are familiar with the plan, to instruct their broker immediately to execute a proxy and power of attorney in their behalf in favor of the plan.

Names Committee to Report on Stock—

Names Committee to Report on Stock—
At a special meeting of the directors held Feb. 7, a committee was appointed to report on the status of the company's shares listed on the New York Stock Exchange. This action was taken in lieu of the original proposal to remove the stock from the list.

B. G. Dahlberg, President of the company, was authorized to file an answer for the management consenting to the reorganization proceedings, under Section 77B of the Bankruptcy Act, now pending in the U. S. District Court of Delaware.

Two new directors, B. K. Edwards, Chicago, and A. E. Black, St. Louis, were elected.—V. 140 p. 635.

Central States Utilities Corp.-Time for Deposits

Extended-

Deposits of the 6% 10-year secured bonds now total \$2,650,000, or more than 75% of the total of \$3,500,000 outstanding, according to W. A. Horner, secretary. The time-limit for deposits has been extended from Feb. 1 to April 1 next.—V. 139, p. 2198.

In valuing the assets of corporation for the statement of asset value first given below all securities owned were valued at the closing prices on Dec. 31 1934, provided there was a sale on that date. When no sales occurred on that date, values were taken at the last sale made in December or at an estimated fair value. On the above basis of valuation, the net asset value of corporation's preferred stock outstanding as of Dec. 31 1934, was \$80.49 per share, before deducting accumulated unpaid dividends. On the basis of taking corporation's holdings of Interstate Equities Corp. stock at the net asset value applicable thereto (trather than market), the net asset value of corporation's preferred stock outstanding as of Dec. 31 1934, was \$72.25 per share. As of Jan. 15 1935 the corresponding asset values per share of preferred stock based on company figures were \$67.80 per share and \$71.35
per share. As of Jan. 15 1935 the corresponding asset values per share of preferred stock based on company figures were \$67.80 per share and \$71.35 per share respectively. The common stock had no asset value on either basis at either date.

....12,975,793 11,941,973 Total.... a After deducting reserve for cash discount and bad debts amounting to \$83,521 in 1934 and \$78,047 in 1933. b Represented by 192,391 shares of no par value. c After depreciation of \$4,173,863 in 1934 and \$3,945,061 in 1933. d Represented by 3,960 shares of \$100 par preferred stock in 1934 (4,010 shares in 1933) and 4,100 no par shares of common stock.

The stockholders at the annual meeting to be held Feb. 27 will consider changing the annual meeting from the fourth Wednesday in February to the second Wednesday in March.—V. 140, p. 796.

Columbia Gas & Electric Corp.—Board Changed to

Columbia Gas & Electric Corp.—Board Changed to Eliminate Interlocking Directorates—

Floyd L. Carlisle, George H. Howard, H. C. McEldowney, William C. Potter and Harold Stanley resigned on Feb. 7 as directors of this company, and four new directors were elected, resulting in a reduction in the board to 19 members.

The new directors are Edward W. Edwards, Harry A. Wallace, Douglas M. Moffat and James M. Simpson.

The purpose of the resignations and the election of business men in the territory served or of executives of major subsidiaries to replace the investment and banking interests is to leave the distinct holding companies without interlocking directorates, in pursuance of a policy adopted many months ago.—V. 139, p. 3151.

Columbian Carbon Co.—Larger Dividend—
The directors have declared a dividend of \$1 per share on the common (v. t. c.) stock, no par value, payable March 1 to holders of record Feb. 15. This compares with 85 cents per share paid on Dec. 1 and Sept. 1 1934, 75 cents per share on June 1 '934, 50 cents distributed each quarter from March 1 1933 up to and including March '934, and on Nov. 1 and Aug. 1 1932, and 75 cents per share paid on May 2 and Feb. 1 '932. In addition a special dividend of 20 cents per share was paid on Dec. 24 last, and a dividend of 25 cents per share was paid on March 1 1934.—V. 140, p. 472.

Columbian National Life Insurance Co. (Boston)-Resumes Dividends-

A dividend of \$2 per share was paid on the common stock on Feb. 4 to holders of record Feb. 1. This is the first payment made on this issue since a semi-annual dividend of \$4 per share was paid on Feb. 3 1934.

—V. 139, p. 1702.

Consolidated Gas Co. of New York-Merger Proposed to Stockholders-Unification to Come Up at Annual Meeting Feb. 25-

The company in notices sent Jan. 31 of its annual meeting of stockholders on Feb. 25, announced that there will come up for consideration a proposal for merging the gas, electric and steam companies of the system into one

on Feb. 25, announced that there will come up for consideration a proposal for merging the gas, electric and steam companies of the system into one company.

The unification is expected by the company to result in lower operating costs, and in increased efficiency, and is one of the steps in connection with the so-called Washington plan for progressive rate reductions proposed by Floyd L. Carlisle, Chairman of the board. It is dependent upon the enactment of certain essential legislation by the present Legislature with regard to minority interests.

The Washington plan can be adapted to the situation here, the company states, "in such a way as to provide progressive rate reductions as the result of substantially increased uses of service. It is proposed that the inauguration of the plan be facilitated by immediate rate reductions and changes in the form of rates."

As to taxes, the company states that "operating taxes for 1935 are estimated as about 40% more than in 1933. These figures are based on the assumption that taxes already imposed are enforced against our companies. The end of increases in operating taxes for our companies does not appear to be yet in sight. The City of New York has recently undertaken to levy a tax on transformer vaults, and there is a proposed Federal or State tax on payrolls for social security for workers. A 1½% tax on payrolls, as at present suggested, would add \$1,000,000 to the expenses of operation.

"In Washington, where lower rates have been realized, operating taxes have been stated to amount, for 1934, to about 11¼% of gross revenues. In New York City, where such rate reductions as our companies would like to make have been practically barred by the great burden of increased taxes, the 1935 operating taxes have been estimated at about 22%, on the basis of 1934 revenues. This difference bewteen 22% and 11¼% would amount, in the case of our companies, to about \$26,000,000, which would insure a very large rate reduction if this great disparity in tax burdens were removed.—V. 1

Incl. \$69,000 of unusual charges for previous years.—

Plans to Reduce Electric Rates—Samuel Ferguson, Chairman, says there are two reasons for believing the coming year will see the greatest decrease in the price of electricity in the history of the company. He says:
"The use of Federal funds to popularize electric appliances in the Tennessee Valley area will have an indirect effect in lowering their price and in popularizing them throughout the whole country. The development of a method of giving free kilowatt-hours opens a new road for more rapid progress toward greater use and lower rates.
"It is therefore possible at this time for the company to entertain, as its Immediate objective, an average price of 3 cents per kwh. (this year it was 5.7 cents)."

Consolidated Gas Utilities Co.—Opposes Plan—A letter has been sent to holders of the 6½% convertible debentures of the company by Gaston F. Balme, independent representative of bond-holders, advising holders that have deposited with the Diefenbach committee that they have the right to dissent from the amendments to the deposit agreement and to withdraw the debentures which have been deposited.

posited. He said that no plan of reorganization has yet been proposed to the court as required by law. Mr. Balme asked holders to accept the independent plan of reorganization dated Oct. 22 1934.—V. 140, p. 473.

Consumers Co., Chicago-V. T. C. Warrants Off List-The Chicago Stock Exchange has approved the removal of 246,890 voting trust certificate purchase warrants of the company due to their expiration.

—V. 140, p. 796.

Continental Can Co., Inc.—Annual Report—
The largest net earnings in its history are reported for 1934 by the company, the amount being \$10,707,122 after deducting all charges, Federal, State and foreign income taxes and a \$500,000 contingency reserve. The earnings, which are equivalent to \$4.02 a share on 2,665,191 capital shares outstanding at the year end, after payment of the 50% stock dividend in October 1934, compare with similar earnings in 1933 of \$7,547,401, or \$4.31 a share on 1,750,934 capital shares then outstanding.

Copperweld Steel Co.—Resumes Dividend-

The directors have declared a quarterly dividend of 12½ cents per share on the common stock, no par value, payable Feb. 28 to holders of record Feb. 15. This is the first distribution to be made on this issue since Feb. 15 along a quarterly dividend of 50 cents per share was paid. An initial distribution of like amount was made on Nov. 15 1930.—V. 132, p. 4063.

-Portfolio Changes, &c.

L. B. Manning, President, in his remarks to stockholders covering the year ended Nov. 30 1934 says in part:

During the year company materially increased its holdings in the Auburn Automobile Co. [A Chicago dispatch states: Corporation's portfolio as of Nov. 30 1934, reveals that during 1934 it repurchased 33,740 shares of Auburn Automobile Co. stock. On that date it held 37,691 shares, against

Auburn Automobile Co. stock. On that date it held 37,691 shares, against 3,879 a year earlier. Corporation repurchased the bulk of its Auburn holdings prior to May 31 1934. Its total net purchases from May 31 to Nov. 30 1934, amounted to 3,301 shares.]

The New York Shipbuilding Corp., in which company has had a substantial interest since Aug. 2 1933, has made considerable progress during the year on its construction work for the U. S. Navy, and during the year received additional contracts for further naval work, which will take 27 months to complete.

year received additional contracts for further naval work, which will take 27 months to complete.

As of Nov. 30 1934 company sold its interest in Stinson Aircraft Corp., manufacturer of Stinson airplanes; Airplane Development Corp., manufacturers of Vultee planes; Smith Engineering Co., under whose patents the Lycoming-Smith controllable pitch propeller for airplanes is manufactured and certain other patents and propeller manufacturing machinery, tools, dies, jigs and fixtures. The sale was made to Aviation Manufacturing Corp. for cash and shares of that company's common stock.

The Aviation Corp., in which company has a large investment, suffered a severe set-back as a result of the cancellation of the air mail contracts of its subsidiary, American Airways, Inc., Feb. 9 1934.

American Airlines, Inc., the company organized to bid on the temporary air mial contracts authorized by the Air Mail Act of 1934, had to be segregated from the parent company on account of certain terms of this Act. Consequently, the stock of American Airlines, Inc., has been trusteed for the benefit of Aviation Corp. stockholders, and if a final distribution of American Airlines, Inc., stock is approved by the stockholders of Aviation Corp., stockholders of the Cord Corp. will receive their pro rata share of the American Airlines, Inc., stock distributed. American Airlines, Inc., in order to protect its large investment, has been forced to operate under most unsatisfactory conditions since last May, awaiting the outcome of the Federal Aviation Commission's report and recommendations for permanent legislation. This report has recently been made, and it is hoped that a more constructive attitude towards the air transportation industry will shortly result. For comparative tables of earnings and balance sheet, see V. 140, p. 797.

Deere & Co.--Annual Report-

Deere & Co.—Annual Report—

William Butterworth, Chairman, says in part:
Sales during the year were more than double those of 1933, each month showing an increase over the corresponding month of the previous year. Collections also were better, there being an increase of about 50% over the collections for 1933.

Total amounts due from customers decreased \$3,372,433 during the year. This reduction in the receivables was brought about by better collections during the year, which were the direct results of better prices of farm products and payments made to farmers under the Agricultural Adjustment Act. Reserves amounting to \$6,341,047 are carried to protect the company against possible losses or allowances on these receivables. These reserves amount to approximately 18% of the total receivables. These reserves amount to approximately 18% of the total receivables. Inventories increased \$2,972,627 during the year.

Company had no banking indebtedness at Oct. 31 1934, and the total llabilities at the end of the year amounted to \$2,908,782.

Including the reserves deducted from assets in the balance sheet, the company's total reserves at Oct. 31 1934, amounted to \$35,712,687, an increase of \$1,561,419 as compared with the previous year.

Under the Business Corporation Act of Illinois which became a law on July 13 1933, directors on July 31 1934 adopted a resolution canceling 341,425 shares of preferred stock and 73,640 shares of common stock owned by the company and held in its treasury. This left the outstanding preferred stock at 1,550,000 shares (par \$20) or a total of \$31,000,000. The outstanding common stock amounted to 1,005,000 shares of a stated value of \$20 per share or a total value of \$20,100,000. Company still holds in its treasury, uncanceled, 8,635 shares of preferred stock and 3,546 shares of common stock at a total cost of \$171,953.

During the year the company exchanged real estate mortgages held in its pension fund for Home Owners Loan Corp. bonds to the amount of \$418,075, which bonds were on hand a

Detroit Railway & Harbor Terminals Land Co .-Reorganization-

William E. Devine, trustee, in a letter to the holders of the \$300,000 1st mtge. 6 ½ % 15-year sinking fund gold bonds says in part:

Under date of Sept. 14 1934, by an order signed by Federal Judge Edward J. Moinet, of the U. S. District Court at Detroit. William E. Devine was appointed permanent trustee, pursuant to the provisions of Section 77-B of the Federal Bankruptcy Act as amended.

Under date of Nov. 28 1934, William S. Sayres, special master, filed his report on the plan of reorganization as amended. While the special master found that the company was insolvent and that therefore it was unnecessary to the confirmation of the plan that the consent of any stockholders be obtained, he nevertheless found that it was fair and equitable to grant the preferred stockholders a small interest in the new company, to the extent of something less than 2% of the stock to be issued by the new corporation.

Brief Outline of Amended Reorganization Plan

preferred stockholders a small interest in the new company, to the extent of something less than 2% of the stock to be issued by the new corporation.

Brief Outline of Amended Reorganization Plan

Briefly stated, the amended plan contemplates the organization of a new corporation there the Michigan law. After paying from the assets on hand reasonable compensation and expenses as provided in the plan, and as determined by the U.S. District Judge, and after transferring to the new company not in excess of the sum of \$3.000 in cash, to constitute an adequate reserve for taxes and other charges and expenses, the balance of all cash on hand or in bank will be distributed pro-rata among the holders of the 1st mige, bonds. The entire remaining assets of the company will be transferred by the trustee to the new corporation to be organized.

The authorized capital stock of the new corporation shall consist of 30.600 shares of common stock (par \$7.50), making a total authorized capital stock of \$229.500. There will be no other class of stock.

The surplus of such new corporation shall consist of the fair value of the assets so transferred to the new company over and above such authorized capital stock, such determination to be based upon the appraisal made by the appraiser appointed by the special master.

The entire authorized capital stock will be issued to voting trustees, consisting of Lewis LeB. Goodwin of Detroit, Mich.; F. Morris Cochran of Albion, Mich., and Walter H. Steere of Marquette, Mich. Mr. Goodwin represents laterest in Detroit holding bonds of the old company; Mr. Cochran represents interest in Detroit holding bonds of the old company; Mr. Cochran represents interest in Detroit holding bonds of the old company; and the placing of Mr. Steere on the voting trust was requested by a large number of bondholders in the northern part of the State.

Voting trust certificates will be issued to the holders of the 1st mtge, bonds of the old company and to the preferred stockholders thereof, in the following propor

proportions:
Holders of 1st mtge. bonds shall receive voting trust certificates representing shares of stock in the proportion of 100 shares for each \$1,000 bonds or a total of 30,000 shares of the authorized and issued stock of the new

or a total of 30,000 shares and corporation.

Holders of the 7% preferred stock (6,000 shares, par \$10), of the old company shall receive voting trust certificates representing shares of stock in the proportion of one share of stock for each ten shares of 7% preferred stock, or a total of 600 shares of the authorized and issued stock of the new

stock, or a total of 600 shares of the authorized and issued stock of the new corportion.

Holders of common stock (24,000 shares, no par value) of the old company will receive nothing for the shares of common stock held by them.

The voting trust under the Michigan law is limited to 10 years. It contains restrictions against mortgaging or selling the assets of the company or entering into leases for a term longer than a period of three years in the event that the holders of one-third or more in amount of the voting trust certificates which are to be issued shall object in writing to any such proposed mortgage, sale or lease. The voting trust further provides for the removal of any of the voting trustees upon the affirmative vote of registered holders of not less than two-thirds in amount of such voting trust certificates.

The proposed plan or reorganization cannot be confirmed by the District Judge or become effective unless and until it is accepted in writing by or on behalf of the holders of two-thirds in amount of the 1st mtge. 6½% 15-year

sinking fund gold bonds whose claims have been or shall be allowed. This acceptance must be in writing.—V. 130, p. 1658.

Eastern Massachusetts Street Ry.—Orders Buses—
The company has placed an order with Mack Motor Truck Co. of Boston, a subsidiary of Mack Trucks, Inc., for 42 buses to cost approximately \$420,000. The new buses are of the pusher type, streamlined, with capacity for 35 to 37 passengers each. Delivery is to be made within 60 to 90 days—V. 140, p. 798.

To 35 to 37 passengers each. Delivery is to be made within 60 to 90 days—V. 140, p. 798.

Eight & Ninth Aves. Ry.—Bus Grants Asked—
The Eighth Avenue Coach Corp., a new subsidiary of the New York Railways Corp., filed with the Board of Estimate on Feb. 6 an application for a 10-year franchise to operate buses over the street-car routes of the Eighth & Ninth Avenues Ry.

The bus company has offered a 5-cent fare service, with 2-cent transfers between its lines and the crosstown routes of the New York City Omnibus Corp. and the Comprehensive Omnibus Corp.

In return for the franchise grant the company offers to the city 3% of the annual gross revenue of the bus line, plus an immediate cash payment of \$475,000, of which \$75,000 would go to meet the cost of repaving the streets after the street railway tracks are removed.

A recent agreement between the city and the Eighth & Ninth Avenues Ry., under which the company is to surrender its perpetual trolley franchise and the city to waive claims against the company aggregating about \$2,000,000, paved the way for consideration of applications for bus grants covering the street car routes.

If the franchise is granted to the Eighth Avenue Coach Corp. it will add about 16 miles to the bus network now planned by the New York Railways Corp. Already one of its subsidiaries, the Madison Avenue Coach Co., has begun bus operation over the old trolley routes on Madison and Fourth Avenues. Another subsidiary, the New York City Omnibus Corp., is ready to begin operation soon over some of the surface car lines of the New York Railways system to pave the way for its complete motorization was taken when Federal Judge Robert P. Patterson signed an order for the sale, at public auction within the next 10 days, of all the lines of the Broadway & Seventh Avenue RR., South Ferry RR. and "all railroads on Broadway between South Ferry and 15th St." The sale will be in satisfaction of a lien of \$6.603,106 held by the Manufacturers Trust Co. as trustee of a consolidated mortgage. The sale or

European Electric Corp., Ltd.—To Pay Dividends Semi-annually-

At the annual meeting held Jan. 26 the directors decided to take no action on the payment of a quarterly dividend ordinarily due Feb. 15 on the class A and class B common stocks, par \$10. The directors, however, stated that it was their intention hereafter to pay dividends semi-annually instead of quarterly and that the said semi-annual dividends will be paid about the middle and end of each calendar year. Dividends of 15 cents per share were paid Nov. 15, Aug. 15 and May 15 1934, 10 cents per share on Feb. 15 1934 and Nov. 15 and Aug. 15 1933, and 7½ cents per share each quarter from Feb. 15 1932 up to and including May 15 1933.—V. 138, p. 3088.

Farmers' Grain & Shipping Co.—Extension of Bonds— The Interstate Commerce Commission on Jan. 26, authorized the company to extend to July 1 1936, the date of maturity of \$438,000 of 20-year

gold bonds, with unpaid interest accrued thereon amounting to \$326,000.

The report of the I.-S. C. C. says:

These bonds, which constitute all the applicant's bonded indebtedness outstanding, were issued during 1906 and 1907, \$104,000 having been issued to retire outstanding bonds, \$324,000 in part payment for construction of the applicant's Rock Lake extension, and \$10,000 to provide funds for making improvements. They were acquired by the Great Northern Ry., which in 1910 disposed of them to the Brandon, Devils Lake & Southern Ry., to which it also transferred at the same time all the shares of stock of the applicant it then owned, consisting of 4.841 shares out of a total of 8.000 shares then and now outstanding. These bonds and the 4.841 shares of stock are still owned by the Brandon, Devils Lake & Southern, all the stock of which is owned by the Great Northern.

The bonds to be extended are dated July 1 1905, and bear interest at the rate of 5% per annum, payable semi-annually on Jan. 1 and July 1, and the mortgage securing them constitutes a lien on the applicant's entire line of about 53 miles. The bonds matured July 1 1925, and the applicant was then unable to pay the principal and has not been able to pay it since. It is also in default in the payment of \$326,000 of interest which had accrued on them prior to July 1 1925. The applicant represents that it has not now and in the near future is not likely to have sufficient funds available for payment of the bonds, and that the statutory time limit for proceeding under the mortgage to enforce their payment will expire July 1 1935, and in order to postpone the necessity for such proceeding, an agreement for the proposed extension of the bonds will be entired into between the applicant, the owner of the bonds, and that the statutory time limit for proceeding under which the bonds were issued and of the maturity date of the bonds to July 1 1925. By the terms of the agreement the holder of the bonds were issued and of the maturity date of the bonds to July 1

Federal Union Life Insurance Co., Cincinnati— Policyholder Asks Receiver Be Named—

An intervening petition has been filed in U. S. District Court at Cincinnati by Charles Kelly Kiphart, a policyholder, chargeing that the company has admitted its insolvency and inability to meet its maturing obligations through a proposal dated Oct. 30 1934, to Superintendnet of Insurance Charles T. Warner, "whereby it proposed to load the reserve of each of its outstanding policies with a lien, without consideration, when agreed to by the policyholders." The court is asked to name a receiver and take over the assets of the company.

Fourth National Investors—Meeting Adjourned—
The special stockholders' meeting to consider a plan to consolidate all of the National Investors group has again been adjourned from Feb. 7 to March 4. The adjournment was adopted in order that stockholders may consider several modifications to the original plan. It was stated by the management that meetings of Third National Investors would be adjourned to March 8 and Second National Investors to March 7 and of National Investors to March 6.

There were 270,867 shares voted in favor as against 70 opposed. Ther are 500,000 shares outstanding.

The need for modifying the plan submitted to stockholders Dec. 20 1934, according to the management, grew out of a recent decision of the Appellate Division under which National Investors Corp. might be confronted with substantial liabilities. That decision reversed a ruling by the New York Supreme Court dismissing an action involving an accounting and the allocation of options in connection with the original promotion in 1928 and 1929 of the existing National Investors.

The plan therefore has been amended to protect the new company, if ormed, from liabilities of the existing company.—V. 140, p. 317.

The plan therefore has been amended to protect the new company, if ormed, from liabilities of the existing company.—V. 140, p. 317.

Foreign Bond Associates, Inc.—Annual Report—

Robert S. Byfield, President, says in part:
As of Dec. 31 1933 the asset value per \$100 debenture (with non-detachable escrow receipt representing two shares of common stock) amounted to \$113.92 and the issue price was \$124.86. As of Dec. 31 1934 these figures

were respectively \$145.49 and \$159.44, representing an increase of 27.7%. On Jan. 9 1935 directors declared a dividend of 75 cents a share on the common stock payable Jan. 16 to holders of record Jan. 9 1935. During 1934 dividends aggregating \$2.25 per share were paid on the common stock. This was equivalent to more than 32% of the asset value of the stock on Dec. 31 1933.

Statement of Surplus-For Year Ended Dec. 31 1934 Capital surplus—Balance, Dec. 31 1933.

Excess of amounts received on issuance of 5% debs., series A, with escrow receipts annexed over the prin. amt. of debs. issued 46,335

ortion of redempt. price paid on the redemp. of 775 shs. com. stk. applicable to capital surplus. Daiance
Arned surplus (before increase in mkt. value of secs. owned—
Added as a separate item on the balance sheet) Balance, Dec. 31 \$46,460

1933 et profit realized from sale of securities (based on avge. cost) rovision for Federal income tax \$52,550 15,188 6,876 Excess of oper. exps. & deb. interest over int. earned.
Dividends paid.
Portion of redemp. price paid on the redemp. of 775 shs. com.
stock applicable to earned surplus. Total earned surplus x\$25,523

x The certificate of incorporation requires that any profits from the sale of securities shall be excluded from the net earnings required thereby to be paid out as dividends once in each year. However, earned surplus resulting from such profits may be declared as dividends. After allowance for the fiscal agent's fee applying to dividends, the earned surplus applicable to each two shares of common stock outstanding on Dec. 31 1934, was \$14.45.

Balance Sheet Dec. 31 1934 securities owned.....

\$239,386 Total.... x Under its agreement dated Oct. 6 1933 with the fiscal agent, the company is obligated to pay to the fiscal agent an amount equal to 10% of any dividend that may be declared, and upon termination of the agreement, 10% of the earned surplus and undivided profits of the company no provision has been made in the above balance sheet for any such payments which may be made subsequent to Dec. 31 1934. As at Dec. 31 1934, the asset value per \$100 deb. with escrow receipt annexed (the net asset value of two shares of common stock, as defined in the indenture, plus the principal amount of one such debenture) amounted to \$145. y Representing the excess of amounts received on issuance of 5% debentures, series A, with escrow receipts annexed over the principal amount of debs. issued, &c.

Earnings for Year Ended Dec. 31 1934

Deficit (before profit on sale of securities)_____ x As there was an excess of operating expenses and debenture interest over interest earned during the year ended Dec. 31 1934, for this period there were no net earnings (as limited by the certificate of incorporation) which would be required to be distributed at the end of the year. As at Dec. 31 1934, the accrued interest since the last payment date per \$100 debenture was \$1,667.—V. 140, ρ. 316.

General Motors Corp.—Workers Get \$11,000,000 from Corporation?

General Motors Corp.—Workers Get \$11,000,000 from Corporation's Savings Suystem—

The proposals of the President of the United States, looking toward greater social security, were referred to by Alfred P. Sloan Jr., President, General Motors Corp., Feb. 8, in announcing the distribution of nearly \$11,000,000 to approximately 30,000 General Motors employees under that organization's savings plan.

"The objective of the General Motors Savings and Investment Plan now in its 16th year of operation," said Mr. Sloan, "is to provide financial competence under adversity. It offers the possibilities of protection against unemployment as well as provision against the time when old age makes work impossible. It is a mutual plan between management and employee—each making a contribution toward the objective.

"I am convinced that it is the duty of all branches of industry to recognize more and more the importance, not only from the social standpoint, but in its own interests, of providing greater social security. I am gratified to believe that the General Motors' plan is in harmony with that desirable objective.

"Our experience over 16 years has indicated that a mutual plan in which

gratified to believe that the General Motors plan is in narmony with that desirable objective.

"Our experience over 16 years has indicated that a mutual plan in which the employee and the employer both contribute is not only feasible, but creates an excellent opportunity of thrift and a sense of responsibility on the part of those participating, which adds materially to the excellent relations and morale of the organization. Furthermore, it develops self-reliance—it is in no sense paternalistic.

"Each employee, who in 1929 saved \$25 per month, amounting to \$300 for the year—the maximum permitted—receives, in this present settlement, the original \$300, plus \$321.52 in benefits contributed by the employer, of which \$114.35 represents interest. In other words, each employee, who five years ago saved \$300 under this plan, now receives \$621.52.

"The possibilities of this plan may be realized through the fact that, as General Motors employees entered the depression, at the beginning of 1930, they had accumulated a reserve of approximately \$75,000,000 to tide

them over the following emergency. In addition to this, there were available equities to the extent of \$15,000,000 that had been diverted toward the purchase of homes.

"From the time the plan was put into effect to date, the distribution to employees, covering both maturity and interim settlements, has aggregated \$215,000,000, of which \$126,000,000 represented the employees' savings and the balance of \$89,000,000 interest and investment fund credits paid by the corporation.

"In normal times, over 90% of the entire General Motors organization has availed itself of this opportunity for protection against contingencies."—

General Railway Signal Co.—Annual Report-

W. W. Salmon, President, says in part.

W. W. Salmon, President, says in part.

The dollar value of unfilled orders on hand at close of business Dec. 31
1933 equalled 9.5% of that on the same date in 1932, and 2.9% of the
average value of unfilled orders on hand on the same date in the 10-year
period ended Dec. 31 1932.

The dollar value of all orders booked in 1934 was 4.18 times that in
1933 and 61.9% of the average annual bookings for the 10-year period ended
Dec. 31 1933. Of the orders booked in 1934 75% were for new signaling
projects and 25% for repairs and renewals.

The dollar value of orders booked for new signaling projects in 1934 was
12.2 times that in 1933 and 64.1% of the average annual bookings for
such projects during the 10-year period ended Dec. 31 1933. Of these
orders 1.7% were booked in the first and 98.3% in the second half of the
year 1934.

12.2 times that in 1933 and 64.1% of the average annual bookings for such projects during the 10-year period ended Dec. 31 1933. Of these orders 1.7% were booked in the first and 98.3% in the second half of the year 1934.

The dollar value of orders booked for signal repairs and renewals in 1934 was 1.4 times that in 1933 and 55% of the average annual bookings of such orders for the 10-year period ended Dec. 31 1933. Of the total of all such orders in 1934, 52.9% were taken in the first and 47.1% in the second half of the year.

The total dollar value of orders filled in 1934 was 23.5% of the average annual dollar value of orders filled during the 10-year period ended Dec. 31 1933. Of the orders filled in 1934 38% were executed in the first and 62% in the second half of the year. In this connection it should be noted that as of Jan. 1 1934 company had on hand an unprecedentedly small amount of unfilled orders; that new orders booked in the first half of the year amounted to 14.5% of the total bookings for the year and that 91.1% of the bookings in the second half of the year was for installation projects requiring a great deal of engineering work before fabrication of materials could be started, with the unavoidable result that delivery and installation of almost all of these materials were necessarily deferred until the year 1935. Company enters the year 1935 with a sizable volume of business, the dollar value of unfilled orders on hand as of Jan. 1 1935 eling 33.5 times that on hand Jan. 1 1934, and 116% of the average dollar value of unfilled orders on hand as of Jan. 1 1936 eling 33.5 times that on hand a not the same date for the 10 prior years ended Dec. 31 1933; but in view of what company's management regards as uncertainties respecting early future railway earnings, the volume of which will influence railway purchases of our devices and systems, it does not feel warranted in making a forecast as to prospects for additional business during the year 1935.

year 1935.

Goodman, Inc., only. c Represented by 200,000 shares (par \$5) before deducting shares in treasury amounting to 13,475 shares in 1934 and 6,900 shares in 1933. d Represented by 13,475 shares (6,900 in 1933) of A. Hollander & Son, Inc., stock.—V. 139, p. 280.

Hollinger Consolidated Gold Mines, Ltd.—Extra Div.

The directors have declared an extra dividend of 5 cents per share in addition to the regular monthly dividend of like amount on the capital stock, par \$5, both payable Feb. 25 to holders of record Feb. 8. Similar distributions were made on Jan. 28, last, Dec. 31, Dec. 3 and Nov. 5, as against an extra of 10 cents per share in addition to the usual monthly dividend paid on Oct. 8. Extra dividends of 5 cents per share were also paid on Sept. 10, Aug. 13, July 16, June 18, May 21 and April 23 1934, while on March 26 1934 an extra of 15 cents per share was distributed. —V. 140, p. 318.

Homestake Mining Co.—Extra Dividend of \$2 per Share—
The directors have declared an extra dividend of \$2 per share in addition to the regular monthly dividend of \$1 per share on the capital stock, par \$100, both payable Feb. 25 to holders of record Feb. 20. Similar distributions were made in each of the seven preceding months. The company paid extra dividends of \$1 per share and regular dividends of \$1 per share each month from Jan. 25 1934 to and incl. June 25 1934.—V. 140, p. 146.

(Geo. A.) Hormel & Co.—Listing—
The Chicago Stock Exchange on Jan. 31 approved the application of the company to list 47.564 additional shares of common stock, no par value.

—V. 139, p. 3326.

Hotel St. George (Clark Henry Corp.), Brooklyn-

Deposits of Bonds Asked-

Mannouncing its adoption of the plan of reorganization as approved with amendments by the New York Supreme Court, the protective committee, headed by Aivin J. Schlosser, for Hotel St. George-Clark Henry Corp. 1st mtge. 5½% serial gold bond certificates, series A, which now represents about 42% of the outstanding issue, is asking holders of these securities to deposit them with the depositary on or before March 15 1935.

The committee includes, in addition to Mr. Schlosser, Joseph W. Dixon, Sylvan Gotshal, Wm. M. Greve, William T. Hunter, George V. McLaughlin and Douglas Vought.

Under the plan as approved by the Court, bondholders will be entitled to receive dollar for dollar principal amount in new first mortgage 15-year 4% bonds and are also to be reimbursed for all past due interest at 4% in cash to the extent available and to the extent not available in new first mortgage bonds at the rate of \$1.50 principal amount of new bonds for each \$1 of unpaid interest.

New money to carry out the plan, amounting to \$350.000, is being furnished by a syndicate of which Bing & Bing is syndicate manager.

each \$1 of unpaid interest.

New money to carry out the plan, amounting to \$350,000, is being furnished by a syndicate of which Bing & Bing is syndicate manager for the new money the underwriters get equity securities of the new company subordinate to bonds being issued to bondholders.

In regard to a subscription right under the plan whereby holders are permitted but not required to subscribe \$43.80 new money for each \$1,000 bond now held, the Schlosser committee recommends that bondholders do not exercise this right and in addition quote from Judge Lockwood's opinion that the Court does not advise the old 1st mtge, bondholders to subscribe. In any event the right to subscribe will not be issued until registration under the Securities Act is completed. The notice points out that all expenses incurred in connection with the carrying out of the plan will be taken care of under the plan and there will be no assessment upon any bond certificate holders assenting to it.

The depositary for the committee is Halsey, Stuart & Co., Inc., New York and Chicago, the Pennsylvania Co. for Insurances on Lives and Granting Annuities in Philadelphia, acting as sub-depositary. Frueauff, Robinson & Sloan are counsel and R. W. Wilson, 15 Broad St., N. Y. City, is Secretary.

Son & Sloan are counsel and 15. ...
Secretary.

Hupp Motor Car Corp—President Resigns—New Directors William J. McAneeny has resigned as President and General Manager. Three new directors have been elected, viz.: Emlen S. Hare, Frank E. Beall, and L. A. Herbert.—V. 140, p. 803.

Illinois Bell Telephone Co.—Report for 1934-

Illinois Bell Telephone Co.—Report for 1934—
F. O. Hale, President, says in part:
The results shown on the 1934 income statement are not directly comparable with those of 1933 because of adjustments made in June 1934, in accordance with prescribed accounting rules, to give effect to the court order requiring refunds to certain coin box subscribers in Chicago for several past years. Elliminating these adjustments for comparative purposes, net earnings for 1934 by itself were at the rate of 3.92% on the average cost of the property and other assets amounting to \$228,526,000 and net income was \$6.66 per average share of capital stock outstanding. Net earnings for 1933 were at the rate of 4.15% and net income was \$6.94 per share.

share.

Because of considerations as to the effect of the court decision on earnings and cash resources, dividends usually paid in June and Sept. were omitted. Payments were made of \$2 per share on March 31 and \$1.50 per share on Dec. 31.

During the year there was a net increase of 30.439 in the number of telephones in service. This is the first year since 1929 that there has been any important increase in telephones and compares with net losses in 1932 of 174,676 and in 1933 of 52,130.

Chicago Rate Case

Chicago Rate Case

Chicago Rate Case

On April 30 1934, the U. S. Supreme Court reversed the decree of the special statutory court sitting in the U. S. District Court for the Northern District of Illinois. The case was remanded to the lower court with discribers to dissolve the injunction and to provide for refunding to subscribers the amounts collected for telephone servire in excess of the rates prescribed by the Illinois Commerce Commission in its order dated Aug 16 1923, for application in the City of Chicago. On June 1 1934, the U. S. District Court entered a decree dissolving the injunction and reserving jurisdiction for the purpose of supervising the making of refunds, the manner and form of making such refunds being prescribed in a supplemental decree dated June 11 1934. The established rates were put into effect on June 1 a sperial force of about 2,000 employees was promptly assembled to carry on the necessary work involved in making refunds and the company began making payments on Oct 15 1934 By the end of the year over 194 000 separate payments of refunds and interest amounting to more than \$3.745 000 had been made, and the work will proceed as rapidly as possible until completed.

a1934 1933 840 810 656 \$56 734 952

Following the opinions and decrees of the courts the company in June adjusted its accounts for the period covered by the rates in suit (Oct. 1 1923 to May 31 1934), so that the books now reflect the estimated results involved in carrying out the court orders. Lake St. John Power & Paper Co., Ltd.—Interest-

The company in a notice to the first mortgage sinking fund 6½% 20-year bonds, series A, states that on and after Feb. 1 it will pay in Canadian funds at the office of National Trust Co., Ltd., in Toronto, or Montreal, in respect of the half-year's interest originally due Aug. 1 1932, the sum of \$32.50 per \$1,000 bond and \$16.25 per \$500 bond against surrender in the case of coupon bonds of Coupon No. 11.

Hopes to Continue Interest .-

Hopes to Continue Interest.—
Committees representing bondholders and debenture holders of the company, who now control the directorate of the company under a voting trust agreement, after pointing out in a report just issued that a half-year's interest on both bonds and debentures recently was declared add: "While not wishing bondholders to regard this distribution as definite evidence of resumption of regular interest payments, it is hoped that with the prospects for stable market prices for newsprint, the company will be able to continue at least one-half of its bond interest each year."

Regarding the newsprint price situation, the committees report states: "Your committee are reasonably assured that the market price for news print in 1935 will not recede, but will be maintained, and there is some reason to believe that a slight increase over 1934 prices will prevail."

Directors of the company, in a statement accompanying the annual "Inventories are conservatively and that the statement accompanying the annual

report, say:
'Inventories are conservatively valued and the pulpwood supply has been further increased to the point where it is now ample to meet any emer-

ncy." President A. Stewart McNichols in his report to the shareholders says

part:
Profits from operations, after allowing for depletion but before providing for depreciation or bond and debenture interest amount to \$405.822, compared to \$305.944 for the previous year. After allowing \$210,370 for depreciation there still remains a favorable balance of \$195.452, which is equal to 63% of the annual charge for bond interest of \$306,215. Defict for the year after charging up bond and debenture interest and interest on arrears amounts to \$367.066.

Output at the mill averaged \$4.5% of capacity during the year; though this represents an increase over the previous year yet the amount of tonnage ordered was below the amount stipulated in the sales contract of the company.

Inventories are conservatively valued and pulpwood supply has been further increased to the point where it is now ample to meet any emergency. Years Ended Dec. 31— 1934 1933 1932 1931

Langleys, Ltd.—Accumulated Dividend—
The directors have declared a dividend of \$1.75 per share on account of accumulations on the 7% cum. conv. red. pref. stock, par \$100, payable Feb. 15 to holders of record Jan. 31. A similar distribution was made on Nov. 15, Aug. 15 and May 15 1934. Regular quarterly payments at the same rate were made up to and incl. May 15 1932. The balance of accumulations due after the Feb. 15 payment will be \$12.25 per share.

V 139, p. 2682.

Lyon Lumber Co.-Annual Report-

Lyon Lumber Co.—Annual Report—
The company in a report to stockholders states in part:
Your officers and directors have been studying the possibilities of liquidating part of the company's Oregon timber, and in 1934 succeeded in selling approximately 15,000,000 feet from lands not a part of the main body of timber. The purchasers were small mill owners who make a down payment and remit the balance as the timber is cut. We expect to continue efforts along this line.

The income of the company last year was about \$10,000 less than the previous year, due to a non-recurring item of income during 1933 and a decrease in interest earned. The expenses of the company were decreased over \$5,000 for the year. The net income before taxes amounted to \$2,329, but Oregon and other taxes, plus a new Federal capital stock tax, aggregating \$25,111, left a deficit for the year of \$22,781.

Lawyers Title & Guaranty Co .- Payments on Guaranteed

Mortgages-Interest payments on guaranteed mortgages of this company, in rehabilitation, are aevraging 3.37% on certificates and 3.84% on whole mortgages, according to D. William Leider, Special Deputy Superintendent in charge of rehabilitation of the company.

From Aug. 11 1933, when the company was put in rehabilitation, to Dec. 31 1934 \$6.678,784 was paid out as interest to certificate holders and mortgages of the company, which is one of 19 title and mortgage guarantee companies in State rehabilitation. Of this sum \$2,557,277 was disbursed

to certificate holders and \$4,121,507 to mortgagees holding whole mortgages. During the same period \$2,343,519 was paid by the rehabilitator to reduce tax arrears on properties underlying certificated mortgages. Payments in reduction or full satisfaction of mortgage principal in the same period amounted to \$302,038 on certificated issues and \$651,301 on whole mortgages, making total disbursements for interest, taxes, and on account of principal of \$9,094,120.—V. 139, p. 3328.

Long Island Lighting Co.—Annual Meeting Date Changed—Earnings for 1934-

Changed—Earnings for 1934—

More than 90% of the common stock, represented at the annual meeting of stockholders held Feb. 5, was voted in favor of a resolution advancing the date of the annual meeting from the first Tuesday in February to the second Tuesday in March of each year. The purpose of the change is to enable completion of audit of the annual report so that it will be ready in advance of the meeting date.

A tentative income statement of the company, subject to annual adjustments and final audit, presented at the meeting by E. L. Phillips, President, placed gross revenues during 1934, exclusive of dividends from subsidiaries, at \$10,986,255, net earnings on the same basis at \$4,435,822 and total net earnings, including \$292,053 dividends from subsidiaries at \$4,727,875.

Mr. Phillips reported the balance after fixed charges, which were earned approximately 1.98 times, as \$2,337,000, or approximately 1.46 times the preferred dividend requirement of \$1,597,988, the balance remaining being \$739,012 or 24.6 cents earned per share on the common stock. He pointed out that the mortgage bond interest had been earned approximately 4.16 times and the total bond interest about 3.28 times.

Edward J. Crummey was elected Secretary in place of Henry R. Frost, resigned. All other officers were re-elected by the directors following the meeting.—V. 139, p. 3328.

McLellan Stores Corp.—Sale Abandoned-

3,603,976 8,365,931

The sale of the assets of the corporation has been abandoned, Norman S. Goetz, attorney for the trustee, at a hearing held Jan. 31 before Harold P. Coffin, referee in bankruptcy, having secured permission to enter an order to that effect.

At the hearing, which has been also as the property of the company of the second secured permission.

At the hearing, which has been adjourned from Sept. 28 last, it was stated by Mr. Goetz that all bids had been withdrawn and deposits accom-

panying the proposals had been returned to the bidders. He also stated that the company had entirely liquidated the claims of creditors, with the exception of interest charges. Recently the final payment of 10% on creditor claims was made.

During the closing months of 1934 control of the company passed to the George K. Morrow interests, that group having acquired more than 50% of the outstanding common stock.

As a result, late in November a new board of directors was elected, followed by the election of George K. Morrow as Chairman on Dec. 3. At that time Mr. Morrow stated that the board had authorized the filing of a petition in the bankruptcy proceedings in the United States District Court looking to the prompt termination of the bankruptcy and the return of the property to the company.

1934 Profits Estimated at \$1.739.171—

1934 Profits Estimated at \$1,739,171-1954 Profits Estimated at \$1,739,171—
Estimated profits before depreciation, amortization, Federal taxes and non-recurring charges for the year ended Dec. 31 1934, amounted to \$1,739,-171. Sales for the year were \$19,644,569. The above figures are given in a report submitted at the creditors' meeting by J. B. Simpson, representative of the trustees, the Irving Trust Co.

Cash on Dec. 31 amounted to \$1,804,978, and inventories were valued at \$2,347,472.

The next meeting of creditors has been set for March 5, at which time it is probable that final report for the year will be available.—V. 140, p. 644.

McWilliams Dredging Co.—Dividends Increased—
The directors have declared a dividend of 50 cents per share on the common stock, no par value payable March 1 to holders of record Feb. 15.
This compares with regular quarterly disbursements of 25 cents per share paid from Sept. 1 1933 up to and including Dec. 1 1934, prior to which quarterly dividends of 37½ cents per share were distributed. In addition a special dividend of 50 cents per share was paid on Dec. 1 1934.—V. 139, p. 2836.

Madison Square Garden Corp.—Registration Effective— The Securities and Exchange Commission has ordered effective immediately the application for registration on the New York Stock Exchange of 324.860 outstanding shares of no par capital stock of the corporation to be issued in exchange for outstanding voting trust certificates.—V.140, p.805.

Work is in progress ting up equipment for the processing of material for the company's new ne of wrinkleproof cloth for soft collar shirts.—V. 140, p. 805.

Manhattan Towers, N. Y. City—Seeks to Reorganize—
An involuntary petition for permission to reorganize the 2168 Broadway
Corp., which operates the Manhattan Towers, was filed Feb. 1 in U. S.
District Court by Harper & Matthews, attorneys. Current liabilities
set forth in the petition were \$392,385. It was also stated that the properties of the corporation were assessed at \$1,500,000 and that a mortgage for
\$1,600,000 was given to secure a loan.—V. 137, p. 4706.

(Glenn L.) Martin Co.—New Directors—
John K. Shaw, Silliman Evans and Otis A. Glazebrook, Jr., have been elected directors and members of the Executive Committee. They succeed A. A. Van Duzen, Thomas H. Jones and John G. Gosling.—V. 139, p. 3811.

Mayfair Investment Co., Los Angeles—Dividend—
The company, owner and lessor of the Mayfair Hotel property, recently declared an initial quarterly dividend of 75 cents a share on 13,675 shares of outstanding capital stock, payable Feb 1 to stock of record Jan. 31.
The stock was issued in connection with reorganization and foreclosure proceedings, the Mayfair Investment Co. taking over the hotel property and commencing its operations on Feb. 1 1934. The hotel is leased on a percentage basis fixed upon both the gross and upon the net income of the hotel property. Sun Realty Co. was the former owner of the property.

Mayflower Hotel Co., Washington, D. C .- Title Transferred-

First mortgage bondholders of the company on Jan. 29 became owners of the property. Justice F. Dickinson Letts, acting at the behest of Paul E. Lesh, who represented the noteholders in their fight to take over the property because of default in interest and amortization payments, signed orders which turned the property over to the newly formed Mayflower Hotel Corp.

Hotel Corp.

The reorganization of the hotel's financial structure, which involved a \$9,900,000 bonded indebtedness, was accomplished by an agreement that second trust noteholders, who purchased a total of \$2,500,000 secondary paper, should be paid off with \$117,820 and should, in addition, be allowed the costs of prosecuting their suit.

Justice Letts directed the three men who have been operating the hotel as trustees in bankruptcy—John Lewis Smith, J. Miller Kenyon and Rush L. Holland—to transfer the property from the old owner to the new corporation.—V. 140, p. 322.

Mineola Bond & Mortgage Guaranty Co.-To Be Rehabilitated by State-

George S. Van Shaick, New York State Superintendent of Insurance, was authorized Feb. 4 by Supreme Court Justice Brower in Brooklyn to take over the company for rehabilitation.

Impairment of the company's guaranty fund to the extent of \$44,288 was the basis of the Insurance Department's request for permission to rehabilitate.

Minnesota Power & Light Co.—Time for Depositing Great Northern Power Co. Bonds Extended—

The holders of first mortage 5% gold bonds of Great Northern Power Co. are advised that the time within which holders of such bonds may become parties to the extension agreement dated Nov. 15 1934 has been extended to and including Feb. 28 1935.

"To date, insurance companies, banks and other investors have presented for extension under the extension agreement more than \$4,540,000 of bonds, constituting move than 71% of the total issue outstanding (exclusive of bonds now held in the sinking fund).

"Bondholders are urged to present their bonds for extension without delay. Bondholders may obtain copies of the extension proposal and agreement from M. L. Hibbard, 2 Rector St., New York, N. Y." (Details of extension agreement were given in V. 139, p. 3329.)—V. 139, p. 4131.

Mission Corp.—Application to List Stock—
Application to list 1,399,345 shares of common stock without par value is pending before the Committee on Stock List of the N. Y. Stock Exchange.
—V. 140, p. 322.

Missouri & North Arkansas Ry.—Sale-The sale of the property and assets of the company will be held March 12 at Harrison, Ark., to satisfy claims of creditors, it was ordered Feb. 5 by Federal Judge J. E. Martineau. The order also named Joe H. Schneider, referee in bankruptcy, as master to conduct the sale, and specified conditions thereof. The company owns and operates the railway between Helena, Ark., and Joplin, Mo. A minimum bid of \$350,000 has been fixed by the Court.—V. 140, p. 806.

Missouri Pacific RR.—Independent Group Renews Attack Warns Future of Road Depends on Change in Management-

Missouri Pacific RR.—Independent Group Renews Attack
—Warns Future of Road Depends on Change in Management—
Pointing out that hasty railroad reorganizations are not a substitute for earning power, the independent committee for the road's bondholders, composed of Charles A Beard, Matthew Josephson and James B. Murray, in a letter to bondholders, dated Feb. 4, urges that they seek a change in management to obtain disinterested control of the property for the benefit of all parties concerned.

The letter, which follows the recent announcement of the Van Sweringens that a plan was being prepared for a reorganization of the road, and would be announced shortly, seeks to impress upon the bondholders that the future value of their securities depends not upon current market fluctuations, but upon conservative and proper management.

Explaining their stand, the committee's statement reads in part as follows:

"The facts to bear in mind are these: Reorganization is no magic with which to get rid of the depression; stock market activities bode no good for investors when based on mere paper changes and fanned by speculators acting on advance tips; the substantial goal for which to aim is the getting of a management and control as far as possible from that provided by the Van Sweringen interests and the bankers who have been behind them.

"Quick reorganization at the present time holds certain disadvantages for ordinary investors in Missouri Pacific securities. It tends to cover up the past by turning people's attention to something else. As a result, inquiries into past wrongs to the company and lawsuits, to recover for past mismanagement can be more easily washed away. As a further result, with the past forgotton and with no inquiry to ascertain the relations between the Van Sweringen interests, their bankers and the management designated for the property in the reorganization, control will sooner or later be back in the same hands as before, or in the hands of people not very different from those who have controlled the

management group are opposed to those of the mortgage bondholders.

(Philip) Morris Consolidated, Inc.—Liquidating Div.—
The company has notified stockholders that it will pay to stockholders of record Feb. 7 a liquidating dividend of 50 cents in cash and 4-10ths of a share of Philip Morris & Co., Ltd., stock. Books will be permanently closed on that date.

A cash balance will be held by the company pending determination of taxes to be paid and liquidating expenses. When these items have been settled, the balance (estimated unofficially at about \$1 per share) will be distributed pro rata to stockholders.—V. 139, p. 3646.

Mortgage Bond Co. of New York—Distribution—
Pursuant to regulations issued by the Superintendent of Banks of the State of New York, the company is distributing to the holders of its mortgage bonds of all series, as a payment on account, the interest accrued on such bonds from Jan. 16 1934 to March 1 1934.

In order to obtain such payment, it will be necessary for holders of bonds not now registered both as to principal and interest, to present their bonds for such registration at the office of the company, 120 Wall St., N. Y. City. Arrangements have been made with the bondholders' committee, acting under the agreement dated as of April 5 1933, whereby registered holders of its certificates of deposit will receive such payment through the committee.—V. 139, p. 3160.

Munson Building, N. Y.—Filing of Claims—See Munson Steamship Line below.—V. 139, p. 604.

Munson Steamship Line below.—V. 139, p. 604.

Munson Steamship Line—Filing of Claims—

The bondholders, debentureholders and creditors of and claimants against the corporation and its subsidiary and affiliated companies are notified that pursuant to an order of the U. S. District Court for the Southern District of New York, dated Jan. 16, they are required to file their claims on or before March 15.

Holders of the 6% secured gold bonds of Munson Steamship Line shall file their proofs of claim with the bonds and unpaid coupons annexed, with Guaranty Trust Co., 140 Broadway, New York.

Holders of the 6% % gold debenture bonds of Munson Steamship Line shall file their proofs of claim, with the debenture bonds, unpaid coupons and warrants annexed, with Guaranty Trust Co.

Holders of the first mortgage 15-year 6¼% sinking fund gold loan certificates of Munson Building Corp. (guaranteed by Munson Steamship Line) shall file their proofs of claim in respect of such guarantee with the trustees of Munson Steamship Line, 67 Wall St., New York, and deliver their certificates to the trustees for stamping so as to indicate that proofs of claim on account of the guarantee of such certificates by Munson Steamship Line have been filed.

All other creditors of or claimants against any of the corporation slisted shall file their proofs of claim with the trustees of the corporation slisted shall file their proofs of claim with the trustees of the corporation slisted shall file their proofs of claim with the trustees of the corporation slisted shall file their proofs of claim with the trustees of the corporation slisted which such claim is being made, at 67 Wall St., New York.—V. 139, p.1559.

National Title Guaranty Co.—Liquidation Ordered—
Liquidation of the company, which has been in rehabilitation under the supervision of George S. Van Schalck. N. Y. State Superintendent of Insurance, was approved formally Jan. 23 in an order signed by Supreme Court Justice George E. Brower in Brooklyn.

The liquidation order followed the submission to the court by the State Insurance Department of an examiner's report indicating the insolvency of the company. The company's liabilities were said to exceed its assets by \$147,849, and these are expected to be increased by further claims, it was said.

The company was taken over by the State authorities on Aug. 2 1933. At the time of the March 1933 banking holiday it had outstanding mortgages and certificates of \$41,000,000. These have been reduced to about \$13,000,000 by releases and revocations of agency. Servicing of the remaining guarantees has been transferred to two servicing corporations created by the State Superintendent of Insurance.—V. 139, p. 3331.

New Orleans Public Service Inc .- Time Extended for Deposit of Bonds-

The holders of the gen. lien $4\frac{1}{2}\%$ gold bonds are notified that the directors have extended the time within which holders of the bonds may become parties to the extension agreement of Aug. 24 1934 to and including April 1 1025

parties to the extension agreement of Aug. 24 1934 to and including April 1935.

As of Jan. 25 insurance companies, banks and individual investors have deposited under the extension agreement more than \$9,470,000 of bonds, constituting more than 82% of the total issue outstanding.

The officers and directors of the company believe that under existing conditions the extension plan is fair and that the bondholders' interests will best be protected by prompt deposit of their bonds.

The plan provides: (a) Upon the deposit of bonds thereunder, for the immediate payment in cash by the company of all interest coupons maturing on or prior to July 1 1935; and (b) when the plan becomes operative, for (1) the payment in cash of 10% of the principal amount of the deposited bonds; (2) the extension of the maturity of bonds to July 1 1942; and (3) an increase in the interest rate for the extended period to 5% instead of 4½% as at present.—V. 140, p. 323.

New York Central RR.—PWA Increases Loan—An allotment of \$2,500,000 made to the road last spring by the Public Works Administration for purchasing and laying 37,000 tons of new ralls has been increased to \$3,706,000. The additional money will be used to purchase 20,000 tons of fastenings, it was stated. The New York Central has purchased and laid all the rail provided for in the original allotment; spending \$2,075,427 for rails and paying its track forces \$424,599 in wages for laying them, it was announced.—V. 140, p. 481.

New York Chicago & St. Louis RR .- Trustee

The company has informed the Interstate Commerce Commission that, subject to the Commission's approval, it has named G. A. Tomlinson of Cleveland as trustee to represent its holdings of Wheeling & Lake Erie stocks. Mr. Tomlinson would succeed the late E. R. Fancher.—V. 140,

New York & Harlem RR.—Buses Supplant Trolleys

The substitution of modern motor coaches for street cars on the Fourth-Madison Ave, line, New York City, went into effect midnight Feb. 1. The company's franchise and surface rights on Madison Ave, and Fourth Ave, were sold in the latter part of 1934 for \$450,000 to New York Rys. Corp., which owns the Madison Ave. Coach Co. The latter company oper ates the buses.—V. 139, p. 1876.

New York New Haven & Hartford RR .- Notes-

New York New Haven & Hartford RR.—Notes—
The Interstate Commerce Commission on Jan. 30 authorized the comapny to issue, reissue, renew or extend from time to time not exceeding \$19,821,888.44 of promissory notes. The report of the Commission states:

As of Dec. 26 1934 the company had outstanding \$25,821.888 of promissory notes with a maturity of two years or less. Of these, \$6,000.000 had been issued to the Reconstruction Finance Corporation and are not involved in this application. The remainder of the notes, \$19,821.888, had been issued to banks, trust companies, and the Railroad Credit Corp. Since Dec. 26 1934 a number of these notes have been renewed. The notes now outstanding have various dates, mature at various times in 1935, and bear interest at the rate of 4½% per annum, with the exception of three notes to the Railroad Credit Corp. amounting to \$3,546.888, two of which mature during 1935, and one of which matures Dec. 25 1936, and all of which bear interest varying according to the New York Federal Reserve rediscount Included in the outstanding notes of \$2,242.174.682.

rate.

Included in the outstanding notes are \$13,171,888 of notes that were issued without the Commission's authority at times when each note so issued together with all other then outstanding notes of the applicant of a maturity of two years or less exceeded 5% of the applicant's securities then outstanding. The notes so issued are as follows: \$1,000,000 dated Nov. 30 1934 and maturing May 31 1935 to the Bank of the Manhattan Co. \$1.546,888 dated Dec. 26 1934 and maturing Dec. 25 1936, to the Railroad Credit Corp. \$4,750,000 dated Dec. 31 1934 and maturing July 1 1935, to the Chase National Bank, New York \$4,000,000 dated Dec. 31 1934 and maturing July 1 1935, to the First National Bank, Boston; \$500,000 dated Dec. 31 1934 and maturing July 1 1935, to the Merchants National Bank, Boston \$500,000 to Rhode Island Hospital National Bank,

Providence, R. I. \$200,000 to the Union Trust Co., Springfield, Mass.; \$175,000 to the State Street Trust Co., Boston, Mass., and \$500,000 to the Second National Bank, Boston. Each of the last four notes is dated Jan. 7 1935 and will mature July 8 1935. These notes are, by the plain letter of the statute, void, and no means are provided for validating them. The proposed notes will be issued to replace the void notes upon their surrender and cancellation, and to renew or extend valid notes at their maturities. The notes to be replaced, renewed or extended aggregate \$19,821,888. The new notes will be payable on demand or upon such due dates as may be specified therein, but not later than Dec. 31 1936. Our order herein will provide that they bear interest or be discounted at a rate not exceeding 6% per annum.—V. 140, p. 807.

New York Title & Mortgage Co.—Reorg. of Issue—
Justice Alfred Frankenthaler of the N. Y. Supreme Court on Jan. 21
signed an interlocutory order approving a Schackno law reorganization of
series N-72 guaranteed mortgage issue of the company. Series N-72 covers
a \$1,200,000 mortgage on the 16-story apartment house at 900 West End
Ave., corner of 104th St. The reorganization plan provides for a corporation headed by a board of 7 directors to take over supervision of the property
from Superintendent of Insurance George S. Van Schaick, who is in charge
of the rehabilitation of the New York Title & Mortgage Co. Six certificate holders and a seventh person to be designated by Superintendent
Van Schaick will serve as directors until the first stockholders' meeting.

Engalizing Payment—

Equalizing Payment—

Edward McLoughlin, special Deputy Superintendent of Insurance in charge of rehabilitation of the company, announced Feb. 1 a payment of \$240,000 in interest to 3,500 holders of certificates of the \$27,889,158 series F-1 mortsage issue.

The disbursement, the first since Sept. 15 1933, was in the nature of an equalizing payment to place all certificate holders on the same basis. Those whose certificates bear March and September interest due dates did not receive any checks because they already had received more interest than other creditors. All certificate holders have now been paid at the full rate of 5½% up to March 1 1933, and at the rate of 2% up to Sept. 1 1933—V. 140, p. 481.

Niagara Hudson Power Corp.—Company Files Reply emorandum with Investigating Committee—Contradicts MemorandumTestimony of Committee's Accountant-

Memorandum with Investigating Committee—Contradacts
Testimony of Committee's Accountant—

A factual memorandum contradicting parts of the testimony given last
December before the (New York) Joint Legislative Committee to Investigate
Public Utilities, was handed to Judge John E. Mack, counsel, by Randall
J. LeBoeuf, Jr., Gen. Counsel of the corporation, at the hearing Feb. 1.

The charge that there had been a "write-up" of approximately \$83,000,
000 in the value of the securities acquired by Niagara Hudson at organization
in 1929 is met by a complete explanation of all the facts. This figure,
previously given by Walter H. Seymour, the Committee's accountant, is
which admittedly takes no account of the real value of the investment in
these underlying companies." The memorandum further sets forth that
if this is to be regarded by the Committee as significant, their attention
should be called to subsequent "write-downs."

In this connection it is stated that the organization of Niagara Hudson
as a holding company in no way raised the rates charged by the subsidiary
operating companies, but on the contrary the joint operation of the properstantial rate reductions since 1929

The memorandum further seeks to straighten out for the Committee
Seymour's testimony regarding the dividend policy of Niagara Hudson.
His original statements, later corrected under questioning by Judge Mack,
had made it appear that dividends had been paid while the company was
operating in the red. This is declared to have been erroneous because
Seymour substracted the dividends had been paid while the company was
operating in the red. This is declared to have been erroneous because
seymour substracted the dividends which from gross revenues. Since the
Seymour substracted the dividends twice from gross revenues. Since the
seymour substracted the dividends which the company has had a large capital
or paid-in surplus, which under the New York law is applicable to the
payment of dividends.

Denial is made of the inference before the Committee tha

Niagara Share Corp.—New Trial Denied— A new trial of the \$148,000,000 stockholders' suit against the corporation and its management was denied Feb. 1 by Justice James E. Norton at Burralo, N. Y.

Humaio, N. Y.
The suit was dismissed by Justice Alonzo G. Hinkley after hearing considerable evidence. The Appellate Division upheld him.—V. 140, p. 807.

North American Co.—Answers Charges of FTC—Explains Property Write-Ups-

Property Write-Ups—
The company, one of the major public utility holding companies criticized Feb. 4 by the Federal Trade Commission for write-ups in property values, issued a statement Feb. 5 through its President, J. F. Fogarty, taking exception to the Commission's findings.

"A misleading impression has been created as far as the North American Co. and subsidiaries are concerned." said Mr. Fogarty, "by a tabulation prepared by the FTC showing \$27,995,239 as total 'write-ups, improperly capitalized intangibles and inflation' of capital assets of the North American System. Of this total, \$21,209,500 is included under the heading of operating companies and results from the interpretation placed by the FTC upon initial capitalization of a property 11 years before it became a part of the North American System.

"The figures of \$4,228,390 and \$1,862,349 shown in the tabulation as applicable to holding companies are before \$1,045,634 eliminated in consolidation and so reported by the FTC examiner. Thus the net appreciation found by the FTC examiner was \$5,040,105, which was offset by deduction of \$4,538,115 leaving net appreciation of \$681,990 "—V. 139, p. 3486.

North German Lloyd—Receiver Asked—
A bondholders' suit asking appointment of a receiver for the assets of the company in the United States and charging an attempt to defraud bondholders of the company was begun Feb. 7 in the New York Supreme Court, but transferred to United States District Court by Justice Louis A. Valente, on petition of the defendants.

The suit was brought on behalf of Beatrice M. Blumenkopf and Joseph Samuels as bondholders, against the Norddeutscher Lloyd (Bremen), the German corporation, and the N. G. L. Corp., a Delaware corporation. The complaint declared that on June 21 1934 the German comanpy assigned to the Delaware company all of its present and future "gross dollar revenues derived from sources within the United States."—V. 140, p. 808.

Parker Pen Co.—Dividends Resumed—
The directors have declared a dividend of 15 cents per share on the common stock, par \$10, payable March 1 to holders of record Feb. 15. This is the first payment since Aug. 15 1931 when 25 cents per share was paid; prior to which 37½ cents per share was paid on May 15 1931 as against 62½ cents per share previously each quarter.—V. 138, p. 4473.

Pennsylvania RR.—PWA to Sell Equipments—
The Public Works Administration plans to sell any or all of \$15,525,000 of Pennsylvania RR. series E 4% equipment trust certificates it has received from the road in return for loans made for equipment maintenance and repairs, it is stated in an application filed by the road with the Interstate Commerce Commission. The road asks permission to issue definitive instead of temporary equipment trust certificates.

The Interstate Commerce Commission has granted authority to the company to equip 500 additional cars, being built under a Public Works Administration loan, with auto loaders. Originally the road planned to equip only 500 cars with these devices, but it reported that demand for cars so equipped exceeded the supply and therefore asked that the number be increased to 1,000.—V. 140, p. 809.

The First National Bank of Boston, trustee, will until 12 noon Feb. 18 receive bids for the sale to it of sufficient 10-year 7% convertible gold debentures due May 1 1935 to exhaust the sum of \$64,360 at 110 and int.—V. 140, p. 483.

Portland (Ore.) General Electric Co.-Over 57% of Bonds Approved Plan-Payment of March 1 Coupons-

Proxies, waivers and consents have now been executed by holders of more than 57% (\$23,000,000 of the outstanding 1st & ref. mtge. 4½% bonds, due 1960, according to an announcement made Feb. 4 by the company. The bondholders' meeting has been postponed to March 1 1935, according to the announcement and holders are urged by the company

promptly to execute the proxy, waiver and consent in order to insure the required affirmative vote of 85% of the bonds by that date.

Coupons payable March 1 1935, may now be detached from bonds of this issue with respect to which proxies, waivers and consents have been executed and presented for immediate payment at the office of the Chase National Bank, New York. Coupons appurtenant to other outstanding bonds will be paid immediately upon receipt of proxy, waiver and consent properly executed.—V. 140. p. 647.

Prentice-Hall, Inc .- Increases Dividend-

The directors have declared a dividend of 40 cents per share on the common stock, no par value, payable March 1 to holders of record Feb. 19. This compares with 35 cents per share paid in each of the four quarters of 1934, 50 cents paid on Dec. 1 1933, and 70 cents paid each quarter from June 1 1929 up to and including March 1 1931.—V. 139, p. 2372.

Properties Realization Corp.—Second Liquidating Div.—
The voting trustees have declared a dividend of 80 cents per share on the new 33 1-3 cents par stock. payable Feb. 20 to holders of record Feb. 14. This is the second liquidating dividend to be paid on this issue, an initial distribution of \$1 per share having been paid on Jan. 10 last.—V. 139,p. 3972

V. 139, p. 3816. Prudence Bonds Corp.—Payment on Bonds-

Prudence Bonds Corp.—Payment on Bonds—
The Bank of the Manhattan Co., trustee, on Jan. 28 notified the owners of the Prudence Bonds Corp., fifth series, that they may present the same at the office of the trustee, 40 Wall St., New York, and receive an amount equal to 5% of the principal amount thereof in cash.

The holders of ninth series were likewise notified that they may present the same at the office of the trustee and receive an amount equal to 10% of the principal amount thereof in cash.

After trying for more than a year to enforce, as trustee, the rights of holders of Prudence, fifth and ninth series, and losing in the lower courts, the Bank of the Manhattan Co. obtained from the New York Court of Appeals a decision in its favor, upholding the title of the bondholders to certain moneys collected upon mortgages underlying the bonds.—V. 139, p. 2060.

Prudence Co., Inc.—State Ousted from Control—
Federal Judge Grover M. Moscowitz of Brooklyn on Feb. 4 denied an application for a stay of his order, issued Feb. 1, ousting the New York State Banking Department from control of the company. The application was made by counsel for the Bank Superintendent.

At the same time Federal Judge Robert A. Inch reserved decision on the motion as to whether it would be for the best interests of holders of Prudence bonds to lay out now the money collected by various financial institutions as trustees.

The State Banking Department took over the affairs of the company in September last. On Feb. 1, on motion of a group of creditors, Judge Moscowitz ordered the Banking Department to surrender control of the company and turn it over to three trustees named by the Court for reorganization under the Federal bankruptcy laws. State officials applied for a stay pending appeal. In denying the stay, Judge Moscowitz held that to grant it "will interfere with the proper administration of the estate by the trustees and will cause delay."

"It is important that the trustees should proceed at once with their duties," he stated.

In the case before Judge Inch attorneys were informed by the Court that when a decision was reached the Court would restrain the financial institutions concerned from foreclosure of any mortgage or collateral security unless on notice to the Court with opportunity for hearing.—V. 140, p. 647.

Puget Sound Power & Light Co.—Securities Undervalued—Banker Says Bonds Would Get Par if City of Seattle Took Over Company

Took Over Company—

The Boston "News Bureau" Jan. 31 stated:
Following an exhaustive study of the company, the investment firm of Drumheller, Ehrlichman & White of Seattle, Wash., reached the conclusion that the "company's outstanding securities are very much undervalued, after taking all the unfavorable factors into consideration." After making their study, the investment firm accumulated bonds of the Puget Sound company for their own account.

The company can meet securities maturing in the next few years out of earnings, states Ben B. Ehrlichman, President of the investment firm, and its rates are so low—only about half the national average—that pressure for lower charges is not likely to succeed. The first mortgage bonds are amply protected by plant assets.

Company's Low Rates—"Because of municipal competition at the major centers it serves, chiefly Seattle, company has exceptionally low rates," states Mr. Erhlichman. "In 1933 its average domestic rate was 2.95 cents per kwh., or only 53.7% of the national average of 5.49 cents. These low rates are a source of protection against political pressure for further reductions, and, paradoxically, so is the municipal competition at Seattle. The Seattle municipal plant covenants to maintain rates sufficient to meet interest on and serial maturity of its bonds, and it could not lower its rates and fulfill this obligation.

"The Puget Sound company, with its rates thus protected, is not likely to have to be reorganized in years just ahead, and it should be able to meet maturities out of earnings. On Jan. 1 of this year it had cash of approximately \$2,000,000 and bank loans of \$1,000,000. Latter have

meet maturities out of earnings. On Jan. 1 of this year it had cash of approximately \$2,000,000 and bank loans of \$1,000,000. Latter have since been reduced.

"Next maturity is one of \$1,167,000 Whatcom County 1st 5s on Nov. 1 next, for which cash will be available. Then will come maturities of \$1,800,000 in 1939 and \$7,000,000 in 1940. Even in its poorest earnings periods the company had \$2,250,000 in cash per year remaining after interest and other deductions, and if this situation continues over the next six years the company will accumulate \$13,500,000 to meet the maturities of just under \$10,000,000. Company's plants are in excellent shape, and no large expenditures for maintenance or new construction are in sight.

Plants Might Be Taken Over—"There is a proposal before the Seattle City Council for purchase of the company's plants and other assets for

\$95,000,000, and there seems to be a very good possibility this transaction could be consummated. As to the fairness of the figure, on the same basis that assets of Tennessee Public Service are to be taken over by the Tennessee Valley Authority, the price for Puget Sound assets would be Tennessee \ \$90,000,000

\$90,000,000.

"The proposed figure of \$95,000,000 is less than 82% of the depreciated book value of the company's property; it is 147% of the par value of the outstanding 1st & ref. mtge, and prior lien bonds and is 135% of the total outstanding indebtedness. It would leave about \$25,000,000 to be distributed to holders of junior securities, the preferred and common stocks."

—V. 140, p. 324. . 140. p. 324.

Punta Alegre Sugar Corp.—Earnings—
The report covering year ended Sept. 30 1934 shows an operating loss after all charges of \$2,621. For the year ended Sept. 30 1933 company reported an operating profit of \$272,091, before deductions for depreciation and cyclone damage. After charges for depreciation and cyclone damage, there was a loss of \$62,767 charged to surplus account.

The balance sheet as of Sept. 30 1934 shows current assets totaling \$3,198,123, of which \$790,144 was cash, and total current liabilities of \$3,289,179, including \$2,704,100 of 6% notes due Sept. 1 1935. As of Sept. 30 1933 company reported current assets of \$3,434,909, of which \$1,654,950 was cash, and current liabilities of \$852,424. The 6% note issue amounting to \$2,705,700 was not included in current liabilities.—

V. 138, p. 161.

Puritan Ice Co.—Resumes Dividends—
The directors have declared a dividend of \$8 per share on the common stock, payable on April 1 to holders of record Dec. 31. This is the first payment to be made on this issue since April 1 1932, when a like amount was distributed.—V. 122, p. 2961.

Railroad Receiverships and Foreclosure Sales in 1934. The "Railway Age" Jan. 26 said in part:

Ther "Railway Age" Jan. 26 said in part:

There was little change in the roads in the hands of receivers or trustees during the year. Only one line, 81 miles in length, came into the hands of the courts during the year—affording a marked and pleasing change from the preceding year, when companies with 21,222 miles of line went bankrupt. The total mileage operated by receivers still exceeds that of any previous period in history, and, except for the aid of the Reconstruction Finance Corporation, the total would be much higher.

No definite progress was made during the year in reorganizing any of the large companies which are in the hands of trustees or receivers. Tentative plans were formulated by interests concerned in several such companies, but they continued in the discussion stage throughout 1934. If Congress permits the RFC to purchase securities for its own account or for that of the railways, and if it modifies the bankruptcy act in one or two particulars, perhaps the present year may witness greater progress in the matter of reorganizations.

Republic Steel Corp. - Meeting to Affirm Consolidation Seeks More Opportune Time-

The directors of the corporation voted on Jan. 31 to adjourn from week to week the stockholders' meeting, scheduled to be held on Feb. 5, to pass on the plan for acquiring the assets and business of the Corrigan McKinney Steel Co., of obtaining control of the Truscon Steel Co., and for the recapitalization of Republic itself.

The imminence of the decision of the U. S. Supreme Court in the gold clause cases makes impossible at the moment completion of arrangements for the sale of the corporation's new bonds, which are to be issued under the terms of the plan, it was stated by T. M. Girdler, Chairman and President, following the meeting. He said the plan of adjournment from week to

week was intended to "enable the corporation to proceed promptly as soon

week was intended to classify the state of the preferred stock as conditions permit."

Mr. Girdler added: "Proxies for more than 65% of the preferred stock and more than two-thirds of the common stock have been received in support of the plan. It is apparent that proxies for the requisite two-thirds of each class of stock will be in hand shortly."

Federal Suit Asks Steel Merger Ban—
The Department of Justice filed two suits in Federal Court at Cleveland Feb. 7, invoking the anti-trust laws in one suit to prevent the merger of two big steel concerns and, in the second action, to dissolve an alleged interlocking directorate involving seven prominent steel men and ten steel companies

two big steel concerns and, in the second action, to dissolve an alleged interlocking directorate involving seven prominent steel men and ten steel companies.

The Federal suit against the proposed merger involves the Republic Steel Corp. and the Corrigan-McKinney Steel Co.

Attorney-General Cummings' explanation of the suits was issued by the Department of Justice. The statement says in part:

"Two anti-trust proceedings against members of the steel industry were instituted this morning in Cleveland, Ohio.

"The first suit, against six steel corporations, seeks to restrain consummation of the proposed merger agreement between Republic Steel Corp. and the Corrigan-McKinney Steel Co. and its subsidiaries. The petition alleges that the various stock acquisitions in connection with this proposed merger are in violation of Section 7 of the Clayton Anti-Trust Act, and that the effect of the stock acquisitions will be to substantially lessen competition between the companies involved.

"Republic Steel Corp. will acquire all of the assets of the Corrigan-McKinney Steel Co., including approximately 80% of the stock of the Newton Steel Co. and virtually 100% of the stock of the N. & G. Taylor Co., now held by Corrigan. Corrigan will acquire at least 17½% of the common stock of Republic in addition to other Republic securities.

"Under the terms of the merger agreement, Corrigan will dissolve within 30 days, and will distribute the Republic's stock and other securities to its stockholders, including McKinney Steel Holding Co.

"Both Republic and Corrigan are alleged to be integrated steel companies, engaged in the produced for sale in the entire United States, and 12% of the merchant bars produced for sale in the entire United States, and 12% of the merchant bars produced for sale in the entire United States, and 12% of the merchant bars produced for sale in the entire United States, and 12% of the merchant bars produced for sale in the entire United States, and 12% of the merchant bars produced for sale in the corporati

Roanoke Water Works Co.—Extension of Notes Asked—Holders of the 3-year 6% notes, due Feb. 1, which were not redeemed, have been asked to extend the payment of the principal to Feb. 1 1938, at an interest rate of 5%.

Vernon F. West, President, says that net earnings have been more than sufficient to meet all note interest and prior charges, but not enough to payfor necessary property additions and extensions and also provide for payment of principal.

Holders consenting to the extension would receive, under the plan, 3% of the principal amount of their notes in cash. The New York Trust Co. is depository. See also V. 139, p. 4135.

Rochester Gas & Electric Corp.—To Modernize Plant—The company has announced that it will spend \$1,000,000 to modernize one of its power generating units. Work is expected to start not later than April 1 and will give immediate employment to 150 men for six months. The company, as its first step, will install a new high pressure boiler and turbine.—V. 139, p. 3164.

Rockwood & Co.—\$2 Accumulation Dividend—
A dividend of \$2 per share was declared on account of accumulations on 8% cum. pref. stock, par \$100, payable Feb. 20 to holders of record Feb. 11. Similar distributions were made on Oct. 20, April 20, and Feb. 20 1934, and on Nov. 24, July 20, and May 20 1933 prior to which no dividends had been distributed on this issue since April 1 1932 when a regular quarterly dividend of \$2 per share was paid.

Accumulations after Feb. 20 dividend amount to \$8 per share.—V. 139, p. 2690.

Rollins Hosiery Mills—New Director— Gardner Symonds has been elected a director, replacing Ralph Bard.— 138, p. 4475.

St. Louis Gas & Coke Corp.—Hearing Set Feb. 12—
The U. S. District Court in Bloomington, Ill., has adjourned to Feb. 12
the hearing on a plan of reorganization for the corporation.
The trustee in bankruptcy is to be directed to commence action against the Utilities Power & Light Corp. for the recovery of inventories and a general accounting unless an equitable plan of reorganization is submitted, according to the 1st mtge. bondholders' protective committee, consisting of W. H. Sullivan, Eben Burroughs and E. M. Goodman.
"Certain substantial improvements and concessions affecting the plan of reorganization have been offered by the representatives of Utilities in negotiations with this committee," the committee has written to bondholders, "but we are of the opinion that further concessions should be made."
The committee has asked holders to deposit their bonds with the First National Bank & Trust Co., of Racine, Wis., to facilitate its work.—V. 139, p. 3656.

Shawinigan Water & Power Co.—Annual Report for 1934—Julian C. Smith, President, in his remarks to stock-

holders, says in part:

-V. 140, p. 811.

holders, says in part:

Results.—The financial statement shows: Gross earnings for the year, \$12,504,406; net before depreciation, \$3,367,443. These figures compare with gross of \$11,945,863 and net, before depreciation, of \$2,943,043 for the year 1933. From the net earnings of \$3,367,443 the following appropriations have been made: Transferred to depreciation and renewal reserve \$1,000,000; transferred to contingent reserve, \$100,000. Dividends amounting to \$1,089,125 have been paid, being at the rate of 50 cents per share, leaving a balance of \$1,178,318. To this has been added the balance from the previous year of \$1,134,213. There has been transferred to the surplus account the amount previously standing at the credit of general reserve account amounting to \$1,199,526, bringing about a surplus of \$3,512,058. From this sum there has been appropriated for depreciation and renewal reserve a special amount of \$700,000, and for insurance reserve \$499,526. There is carried forward, subject to deduction for the 1934 income taxes, an amount of \$2,312,531.

No deduction has been made from fixed charges for interest charged to power development on the cost of work in course of construction, although in the statement issued to shareholders for the period ended Sept. 30 there had been deducted an amount of \$150,000.

The special transfer to depreciation and renewal reserve of \$700,000 covers amounts previously charged as interest during course of construction on the Rapide Blanc plant for the year 1932. The delay in the construction during that year increased the total cost fo the plant by approximately the amount above mentioned.

During the year the company purchased \$393,000 6% 5-year notes.

Change in Security—During the year bonds of Shawinigan Chemicals, Ltd. to the amount of \$2,000,000 held by the trustee as part of the security for the company's first mortgage and collateral trust sinking fund gold bonds have been withdrawn. In exchange therefore there have been substituted additional properties representing capital expenditures during the year of an equivalent value, and these properties have been pledged in accordance with the deed of trust.

Power Output—The output from the company's generating stations was 3.228,290,263 kwh., and there was purchased under contracts 688,000,786 kwh., a total for 1933 of 3,916,291,049 kwh., as compared with 3,505,-111,325 kwh. for 1933.

In addition to the above quantity, 669,586,258 kwh. were purchased from other companies for sale as secondary power, as compared with 396,-660,802 kwh. so purchased for 1933. The total amount of secondary power sold was 1,653,992,946 kwh. as compared with 1,343,859,833 kwh. for 1933.

The total energy generated and purchased for all purposes for 1934

660.802 kwh. so purchased for 1933.

The sold was 1,653,992,946 kwh. as compared with 1,343,859,833 kwh. for 1933.

The total energy generated and purchased for all purposes for 1934 was 4,585,877,307 kwh. as compared with 3,901,772,127 kwh. for 1933.

The peak load of the electric system exclusive of purchased secondary power was 927,426 hp. This compares with 760,530 hp. in 1933 and 729,442 hp. in 1932. The total peak load on the company's electric system for 1934 was 1,056,400 hp.

Construction—Company's new plant at Rapide Blanc, having a present total capacity of 160,000 hp., started operating early in 1934. The ultimate total capacity of this plant is 240,000 hp. and the two additional units can be installed at low cost, when conditions warrant. The total expenditure on this plant, including interest during course of construction, amounts to \$13,599,517.

Shawinigan Chemicals, Lid.—This company, a wholly owned subsidiary, has continued in successful operation during the year. Its operations have resulted in a profit of \$774,914 before payment of bond interest. From this sum there has been applied to depreciation and obsolescence an amount of \$396,788, leaving \$378,125, from which there has been paid to Shawingan Water & Power Co. \$367,414, in part payment of interest on bonds held by the latter company.

The income account and balance sheet for the year 1934 will be found in the advertising pages of to-day's issue.

Sherry-Netherland Hotel (59th St. & Fifth Ave. Corp.)

Creditors Seek to Reorganize-

Creditors of the Fifty-ninth Street and Fifth Avenue Corporation (owner of the Sherry-Netherland Hotel) filed a petition Jan. 31 in U. S. District

Court, New York, asking permission to reorganize under Section 77-B of the Bankruptcy Act.

One of the petitioners was the Manufacturers Trust Co., which is owed \$250,000 and is trustee of a mortgage for \$1,600,000 given to protect holders of \$1,000,000 "in series B (or junior) certificates."

Other petitioners include Louis K. Jacobson, Lewis H. Pounds, George Gordon Battle, Frank J. Murphy, John D. Reilly, George W. Ritz, George U. Tompers and A. L. Warner, members of a committee for the protection of junior first mortgage gold certificates valued at \$414,500.—

V. 137, p. 2989.

Shoreland Arcade Building, Miami, Fla.-Sale of Deposited Bonds

Deposited Bonds—
The Real Estate Bondholders' Protective Committee (George E. Roosevelt, Chairman), in a letter to depositors of first mortgage fee and leasehold 6½% sinking fund gold bonds of Shoreland Building Co. secured by the Shoreland Arcade Building, Miami, Fla., states:
Subject to the approval of Charles E. Hughes Jr., arbiter, as provided in the deposit agreement, the committee has entered into an agreement dated Jan. 10 1935 for the sale of the deposited bonds of this issue. The agreement provides that the bonds on deposit with the committee at the time of the closing of the agreement, which it is expected will take place on or about March 30 1935, are to be sold for a price of \$33 in cash for each \$100 in principal amount thereof.

There were on deposit with the committee at the close of business on Jan. 26 1935, \$785,000 of bonds. The total principal amount of bonds outstanding, is \$795,500.

It is estimated that the committee will be in a position shortly after the date of closing to distribute to depositors approximately \$30.25 in cash for each \$100 of bonds deposited by them.

Socony-Vacuum Oil Co .- To Pay Dividends Semi-Annually-

The directors on Feb. 5 declared a dividend of 15 cents per share, payable March 15 1935, to stockholders of record Feb. 20 1935. Similar payments were made in previous quarters.

The directors also decided to consider dividend action in the future semi-annually in Feb. and August, for March and Sept. payment. In a letter sent to stockholders, J. A. Brown, Chairman of the Executive Committee said:

mittee, said:
"This policy should enable the directors to act with better knowledge of the company's financial requirements and the trend of earnings each year. The next regular meeting for dividend action will be in August, this year.
"Earnings for 1934 can not be accurately stated until accounting is completed, but are estimated to be more than in 1933. Current asset position was somewhat reduced, but continues strong. Cash and marketable sesurities at the end of the year were approximately \$54,000,000, it being impossible to state the exact amount until reports from all world operations are received. Necessary capital expenditures, always large, were particularly

great in 1934, and it is expected that they will be unusually heavy for some time. This is due in part to being unable to defer any longer important improvements and replacements and in part to trends in the industry requiring new investment in plants and production to protect the future of

your business.

"Your directors believe that prudent and conservative management requires the change in dividend policy of which you are now informed. Future dividends will depend upon the earnings and current asset position with relation to the need for maintaining the strength of your business, and to-day's action is not to be considered as indicating any regular dividend

basis.

"During the past year, consumption of petroleum products in the world increased and your company increased its sales. Potential oversupply of crude oil and difficulties of marketing competition have operated to prevent satisfactory prosperity for the industry as a whole. The directors will endeavor to keep your company in a position to benefit from any future improvement in the industry's condition."

Makes Soviet Deal-Will Buy Petroleum for Fuel to Supply Trade This Year in Far East-\$2,000,000 Involved-

Trade This Year in Far East—\$2,000,000 Involved—
The New York "Times" Jan. 27 had the following:
The company signed last week a contract with the oil syndicate of Russia whereby the Soviets will supply the fuel oil required by the American concern in the Near East this year. The contract provides for a minimum of 700,000 barrels and a maximum of 1,750,000. The price will be based on the world figure, but it is estimated that the sum may reach \$2,000,000.

It was said that two other contracts for oil between Socony-Vacuum and the Soviets were about ready to be closed. One covers about 200,000 barrels of diesel and gas oil for Socony's outlets in the Near East, and the other, 500,000 barrels of gasoiine and kerosene to be marketed in Egypt.

These contracts will be in addition to one now existing between the Soviets and the Standard-Vacuum Oil Co. for approximately 1,200,000 barrels of kerosene annually for the Indian market. This contract, made several years ago between the Standard Oil Co. of New York and the Soviets, will not expire until 1936. Last year, when Standard-Vacuum Oil was formed by the Standard Oil Co. of New Jersey and Socony-Vacuum to take over their operations in the Far East, the contract was assumed by the new company.

Purchases of oil products from the Soviets by Socony-Vacuum and Standard-Vacuum this year, it is estimated, will reach \$6,000,000 to \$8,000,000, depending on prices.—V. 140, p. 485.

Southern Ice & Utilities Co.—Tenders—

Southern Ice & Utilities Co.—Tenders—
The Chase National Bank, successor trustee, is inviting offers for the sale to it, at a price not exceeding 103% and interest, of 1st mtge. gold bonds, conv. 6% series, due Feb. 1 1946, in an amount sufficient to exhaust the sum of \$40,192 in the sinking fund. Offers will be opened at noon, Feb. 11 1935, at the Corporate Trust Department of the bank, 11 Board St.—V. 139, p. 1720.

Southern Illinois & Kentucky RR.—Note—
The Interstate Commerce Commission on Jan. 25 authorized the company to issue a promissory note for \$22,230,715 to be delivered to the Illinois Central RR. in payment of a like amount of advances.—V. 117, p. 896.

Southern Pacific RR.—Orders Rails—
The company announced on Feb. 1 that it had placed orders for steel rails totaling \$1,156,500 as follows: Columbia Steel Co., 12,559 tons; Pacific Coast Steel Co., 6,000; Colorado Fuel & Iron Co., 7,615. All deliveries are to be made before June 30.—V. 140, p. 812.

Southern Pipe Line Co.—15-Cent Dividend—
The directors have declared a dividend of 15 cents per share on the capital stock, par \$10, payable March 1 to holders of record Feb. 15.
A similar payment was made on Sept. 1 last and compared with 10 cents per share paid on March 1 1934, Sept. 1 1933 and March 1 1933; 15 cents per share paid Dec. 1 and Sept. 1 1932; 35 cents per share on June 1 1932 and 50 cents per share each quarter from March 2 1931 to and including March 1 1932.—V. 139, p. 778.

Thermoid Corp.—Subsidiary Develops New Product—
The Thermoid Rubber Co., a subsidiary announced that it has gone into quantity production of a new brake block for trucks and buses which, under rigorous tests on the road and in the company's laboratories has proved virtually indestructible. The new compound is the invention of Carl Schell, Vice-President of Thermoid.

Forms Canadian Unit—

The company has announced the formation of Thermoid, Ltd. under a Dominion Charter as its Canadian subsidiary, with offices at 47 Simcos Street, Toronto. Arthur B. Dougall has been elected President of the Canadian subsidiary, and Allen G. Sylvester of Toronto, is Vice-President and Sales Manager.

The company will maintain a complete warehouse stock in Toronto of the entire line of automotive products of Thermoid Co.—V. 140, p. 813.

United American Utilities, Inc.—Securities Sold—
The reorganization committee acquired at auction on Jan. 31 for \$350 in cash, \$1,947,436 of promissory notes of affiliates drawn to the order of United American Utilities and pledged under the indenture securing 10-year 6% bonds of that company.
This action was taken pursuant to the carrying out of the reorganization of the properties. There were no bids for lots comprising stocks of the Eastern States Public Service Corp. and the Pacific Freight Lines Corp.

The reorganization committee has received deposits of $80\,\%$ of the debt of United American Utilities and Pacific Freight Lines.—V. 139, p. 2065.

United Fruit Co.—Annual Report for 1934—

Francis R. Hart, President, in his remarks to stockholders, says in part:

"During the year 49,879,345 stems of bananas were shipped from tropical divisions, as compared with 46,181,163 stems in 1933. Growing conditions have been uniformly better than average throughout the banana producing area. Market conditions in the United States and Canada improved in volume but unit sales were slightly below the average for last year. In Europe the situation with respect to restrictive quotas and tariffs, which was mentioned last year, has grown worse rather than better.

"As a whole, the fluctuations in the value of foreign currencies in relation to United States dollars have been beneficial.

The company has 114,920 acres of banana cultivations, 99,991 acres of sugar cane, 38,769 acres of cacao, 7,423 acres of coconuts, and lesser areas of other products.

"The company's fleet comprises 92 owned ships, aggregating 426,935 gross tons, and 6 ships chartered from other companies, aggregating 17,066 gross tons, a total of 98 ships, aggregating 444,001 gross tons. During the year the fleet made 1,233 round-trip voyages and steamed 5,247,701 nautical miles. The fleet carried 47,082 passengers and 875,867 tons of general cargo, in addition to transporting company fruit and other products. The operations of the company's subsidiary, Refrigerated Steamship Line, Inc., contributed to the increased number of voyages and tons of cargo.

"The company's raw sugar quota was limited by Cuban legislation originally to 546,947 bags. Due to the inability of other Cuban producers to furnish sufficient cane to make the crop desired by the Government of Cuba and to the fact that the company was in a position to produce more raw suga. because its cultivations had been fully maintained during the years of restriction, the company's quota was increased and its crop amounted to 1,288,227 bags as compared with 536,

This is the third largest crop and the lowest cost crop in the history of the company.

"The Revere Sugar Refinery melted 381,279,871 pounds of raw sugar, an average of 1,417,397 pounds per working day, as compared with 391,-319,495 pounds in 1933, an average of 1,528,592 pounds per working day. Deliveries of refined sugar to customers amounted to 369,434,167 pounds, as compared with 362,423,777 pounds in 1933."

United States Leather Co. - Sells Timber and Land-

The company has sold 4,300 acres of standing timber and Land—
of stripped lands to the U. S. Government for which it expects to receive \$760,000, David G. Ong, President, told stockholders at the annual meeting. When the funds are received it is the intention to purchase prior preferred stock for retirement and tenders probably will be asked from stockholders.

"We will be fortunate if me and the standard probability of the standard probability o

holders. "We will be fortunate if we can show a profit for the first quarter of the fiscal year to Jan. 31," Mr. Ong told stockholders. "I rather expect that we may show a slight loss."

Mr. Ong estimated that the company is now operating on a profit basis in the current quarter. He said he believed that hide and leather prices are headed definitely upward.

New Director-

E. G. Brooke has been elected a director, succeeding John Hertz.— V. 140, p. 652.

United States Fidelity & Guaranty Co.—Annual Report

E. Asbury Davis, President, says in part:

"In April the capital stock was increased by the issue of 800,000 shares of preferred stock, (par \$1). The Reconstruction Finance Corporation financed the purchase of this stock at \$5 per share, enabling us to retire the loan of the RFC of \$4,900,000, so that now there are no bills payable of any kind.

the loan of the RFC of \$4,900,000, so that now there are no bills payable of any kind.

"In addition to full legal reserves, we have set up a voluntary contingency reserve of \$1,500,000; a reserve of \$5,402,207, representing the sum required to place, on a basis of actual market quotations, all of the company's stocks and all of its bonds not amortized and a reserve of \$210,260 to take care of depreciation of our office buildings."

Virginia-Carolina Chemical Corp.—Court Orders Dividend Paid on 7% Preferred Stock—

Judge E. H. Wells in Hustings Court, Part 2, in Richmond, Va., on Feb. 1 handed down a mandatory decree ordering the company to pay a dividend of \$7 per share on its 7% prior preference stock, amounting to about \$380,000, covering accruals for one year. The dividend is to be paid out of 1934 profits. Accruals on the stock as of Dec. 1 1934 amounted to \$21 a share. After this payment the remaining accruals amounting to \$14 per share will total about \$760,000.

The suit was brought by prior preferred stockholders in order to get a court ruling that would clarify the situation, since the majority of the directors took the position that the company could not pay preferred dividends as long as it had a profit and loss deficit.—V. 139, p. 3008.

Wabash Ry.—Pays Equipments—
The receivers have issued the following statement: "In accordance with the deferment plan of June 1 1933, the receivers are paying the principal maturity of the equipment trust series H due Feb. 1 1935, in the amount of \$225,000."—V. 140, p. 815.

Wilcox & Gibbs Sewing Machine Co.—Dividend Passed
The directors have decided to omit the dividend ordinarily due at this
time on the common stock, par \$50. A semi-annual payment of 50 cents
per share was made on Aug. 15 1934 as against \$1 per share each on Feb.
15 1934 and Feb. 15 1932, and semi-annual distributions of \$1.25 per
share prior thereto.—V. 139, p. 949.

Willys-Overland Co.—Financing, &c.—
The "Wall Street Journal" Jan. 26 stated:
Financing of Willys-Overland's renewed operations with John N. Willys taking active charge of the plant for the third time to lead it out of its receivership has begun with Mr. Willys also playing the role of finance chief.
On Jan. 24 he purchased \$200,000 of the receivers' certificates authorized recently in U. S. District Court, and arranged the sale of \$200,000 worth to Toledo Trust Co., \$75,000 to the Ohio Citizens Trust Co. and \$50,000 worth to the Commerce Guardian Bank. Dealers also have given cash deposits on 11,000 cars.
Earlier on Jan. 24 Judge George Hahn criticized preferred stockholders for seizing control of the company on Jan. 18, and naming Mr. Willys President by ousting David R. Wilson, operating receiver, from the position.—V. 140. p. 653.

CURRENT NOTICES

—Substantial gains were made by the New York Life Insurance Co. in 1934, Thomas A. Buckner, President of the company, stated in reviewing the New York Life's financial condition on Dec. 31 1934.

The general recovery of business in 1934 was reflected in an increase of over \$60,000,000 in new insurance issued during the year, a decrease of over \$17,000,000 in the total volume of policy loans, and a decrease of over \$27,000,000 in surrender values.

New insurance issued during 1934 exceeded \$440,000,000. In addition, men and women paid over \$50,000,000 to the company for annuities. the close of the year total insurance in force, represented by 2,649,953

policies, amounted to \$6,661,514,072.

Assets of the company at the end of 1934 totalled \$2,109,505,224, an increase of \$98,562,112 over the previous year. The gain in assets during the single year 1934 is greater than the total amount of assets accumulated by the company during the first 44 years of its history.

U. S. Government Bonds Increase \$110,561,670

During the year the company increased its holdings of the most conservative forms of investment. Total holdings of United States Government, direct, or fully guaranteed bonds were \$208,726,056, a gain of \$110,561,670 over Dec. 31 1933. State, County and Municipal bonds were increased by \$36,357,116 and amounted to \$191,270,360 at the year-end.

The company increased its holdings of United States Government, direct, or fully guaranteed bonds from 4.9% of assets at the end of 1933 to 9.9%at the end of 1934. State, County and Municipal bonds increased from 7.7% to 9.1%. Railroad bonds decreased from 17.9% to 16.2% and public utility bonds decreased from 7.7% to 7.5%. The total of real estate owned and first mortgages on real estate decreased from 29.1% of total assets to 27.0%. There was also a decrease in policy loans from 20.6% to 18.8%.

Surplus of \$115,370,645

After deducting liabilities of \$1,994,134,579, which include reserves to meet all contractual obligations, the company's surplus funds reserved for general contingencies amounted to \$115,370,645.

In addition to this surplus the company voluntarily set up and included in its liabilities a Special Investment Reserve of \$28,000,000 not required by The company also set aside reserves of \$45,734,207 for dividends payable to policyholders in 1935.

Over \$4,142,000,000 Paid to Policyholders

From its founding April 12 1845 to Dec. 31 1934 the New York Life has aid over \$4,142,000,000 to living policyholders and the beneficiaries of paid over those who died.

Over one billion dollars of this total was paid since 1929. bution of this vast sum," said President Buckner, "has contributed to the stability of homes, businesses and individuals during a five-year period of severe economic stress.

The amount which the company has paid to policyholders since organiza tion together with the amount now held for their benefit is over \$600,000,000 more than has been received from them in premiums.

COMMERCIAL EPITOME

Friday Night, Feb. 8 1935

Coffee futures on the 2d inst. after showing early weakness recovered and closed 2 points lower to 1 point higher on Santos with sales of 5,000 bags and unchanged to 2 points higher on Rio. Spot coffee was quiet. On the 4th inst. Santos contracts declined 4 to 7 points and Rio ended unchanged to 3 points lower; sales 9,750 bags of Santos. New lows were again reached. Cost and freight offers from Brazil were 5 points lower to 5 points higher. On the 5th inst. the market became more active and prices advanced 4 to 10 points on Santos with sales of 14,750 bags and 2 to 5 points on Rio with sales of 2,750 bags. The opening of the Brazilian futures market and local covering caused the strength here. On the 6th inst. futures were weaker and some months touched new low ground for the season. Santos contracts ended at net declines of 2 to 12 points and Rio contracts were 7 to 9 points lower; sales 24,250 bags of Santos and 2,500 bags of Rio. Cost and freight offers from Brazil advanced 5 to 10 points. Spot coffee was in better demand with Santos 4s at 10¾ to 11c.

On the 7th inst. futures closed unchanged to 7 points higher on Santos contracts with sales of 32,250 bags and 3 to 5 points higher on Rios with sales of 6,500 bags. To-day prices closed 9 to 13 points lower on Rio contracts and 1 to 15 points lower on Santos. New lows for the season were

eached.

Cocoa futures on the 2d inst. closed 3 points lower with sales of 3,658 tons. Wall Street liquidation was well taken. March ended at 4.96c.; May at 5.09c.; July at 5.22c.; Sept. at 5.34c.; Dec. at 5.50c. On the 4th inst. futures declined 3 to 4 points, owing to nervousness over the pending gold clause decision. Spot commanded a premium of 15 to 20 points over March futures. Sales were 132 lots. March ended at 4.92c.; May at 5.06c.; July at 5.18c.; Sept. at 5.30c.; Dec. at 5.46c., and Jan. at 5.51c. On the 5th inst. futures showed losses in the end of 2 to 4 points; sales 185 lots. Warehouse stocks decreased 1,213 bags to 846,518 bags or the smallest total since July 1933. March closed at 4.89c.; May at 5.03c.; July at 5.15c.; Sept. at 5.26c.; Oct. at 5.33c., and Dec. at 5.43c. On the 6th inst. the market was more active and futures advanced 4 to 6c. points. The 1934-35 Gold Coast production was estimated in London cables at 232,000 tons, against 220,901 tons in 1933-34. March ended at 4.94c.; May at 5.08c.; July at 5.20c.; Sept. at 5.32c., and Jan. at 5.53c.

On the 7th inst. futures ended 2 to 5 points higher with sales of 418 lots. March ended at 4.98c.; May at 5.10c.; July at 5.24c.; Sept. at 5.36c., and Dec. at 5.52c. To-day futures closed 3 to 5 points higher with March at 5.02c.; May at 5.15c.; July at 5.28c.; Sept. at 5.39c., and Dec. at 5.55c.

Sugar, after showing weakness early in the week, became more active and stronger on the 5th inst. when prices advanced 3 to 4 points on the old contracts with sales of 23,000 tons and 2 to 3 points on the new contracts with sales of 19,950 tons. There was considerable covering against sales in the actual market. Raws were active and higher with duty free sugars selling up to 2.89c. The spot price rose 3 points to 2.85c. on sales of prompt Puerto Ricos and Cubas. London on the 5th inst. closed unchanged to 4d. higher. On the 6th inst. futures closed unchanged to 3 points lower with sales of 8,950 tons of old and 11,800 tons of new contracts. Raws were quiet. Puerto Ricos sold at 2.85c. London closed unchanged to 4d. lower.

On the 7th inst. futures reached new high levels in light

On the 7th inst. futures reached new high levels in light trading. Old contracts touched 3.13c. for Dec., the highest for any delivery since February 1930. New contracts closed 2 to 3 points higher on sales of 10,100 tons and old contracts were 2 to 4 points higher on sales of 4,900 tons. Philippines sold at 2.86c. in the raw market. To-day prices closed unchanged to 2 points higher. A sale of duty free Puerto Rico was reported at 2.90c. Speculative and trade buying resulted in a firmer market. Prices were as follows:

Petroleum—The summary and tables of prices formerly appearing here regarding petroleum will be found on an earlier page in our department of "Business Indications," in the article entitled "Petroleum and Its Products."

Rubber futures on the 2d inst. closed 1 to 6 points higher after sales of 1,150 tons. Spot ribbed smoked sheets were higher at 12.67c. London closed unchanged to ½d. lower but Singapore was up 1-16d. to 3-32d. March ended at 12.74c., May at 12.90c., July at 13.02 to 13.03c., Sept. at 13.16 to 13.19c. and Oct. at 13.25c. On the 4th inst. futures were 1 point lower to 5 points higher with sales of 1,220 tons. Spot ribbed smoked sheets rose to 12.68c. London advanced 1-16 to 3-16d. and Singapore was closed owing to a holiday. March ended at 12.76c., May at 12.89 to 12.91c., July at 13.02 to 13.04c., Sept. at 13.21c. and Dec. at 13.48c. On the 5th inst. the market closed 1 to 4 points higher for futures; sales, 2,290 tons. The spot price of ribbed smoked sheets were up to 12.70c. London was unchanged and Singapore was closed. March ended at 12.68c., May at 12.93 to 12.95c., July at 13.06 to 13.07c., Sept. at 13.23 to 13.25c. and Dec. at 13.49c. On the 6th inst. futures after early weakness firmed up somewhat to close 7 to 10 points lower after sales of 1,770 tons. Spot ribbed smoked sheets dropped to 12.60c. London was 1-16d. to ½d. lower and Singapore was unchanged to 1-16d. lower. March ended at 12.68c., May at 12.85 to 12.86c., July at 12.97c., Sept. at 13.15 to 13.16c., Oct. at 13.25c. and Dec. at 13.41c.

weakness firmed up somewhat to close 7 to 10 points lower after sales of 1,770 tons. Spot ribbed smoked sheets dropped to 12.60c. London was 1-16d. to ½d. lower and Singapore was unchanged to 1-16d. lower. March ended at 12.68c., May at 12.85 to 12.86c., July at 12.97c., Sept. at 13.15 to 13.16c., Oct. at 13.25c. and Dec. at 13.41c.

On the 7th inst. futures closed 1 to 7 points higher on sales of 3,440 tons. March ended at 12.75c., May at 12.88 to 12.90c., July at 13.03 to 13.05c., Sept. at 13.16 to 13.17c., Oct. at 13.24c. and Dec. at 13.42c. To-day prices ended 35 to 41 points higher at 13.12c. for March, 13.23c. for May, 13.41c. for July, 13.54c. for Sept., 13.65c. for Oct. and 13.83c. for Dec.

Hides futures on the 2d inst. closed 7 to 15 points lower after sales of 1,240,000 lbs. In the Chicago spot market 3,500 hides sold with heavy native steers selling at 11c. Sales were made in the Argentine spot market of 8,000 frigorifico steers at 10 7-16c. March ended at 9.18 to 9.22c., June at 9.47c., Sept. at 9.80 to 9.87c., and Dec. at 10.15c. On the 4th inst. futures declined 5 to 10 points after sales of 1,040,000 lbs. March ended at 9.10 to 9.15c., June at 9.40c., Sept. at 9.75 to 9.78c. and Dec. at 10.05c. On the 5th inst. futures were 3 to 10 points lower; sales, 1,480,000 lbs. Sales of 27,000 hides were reported in the Chicago spot market with heavy native steers at 11c. and branded cows at 8c. March ended at 9.00 to 9.09c., June at 9.35 to 9.37c., Sept. at 9.67c. and Dec. at 10.01 to 10.05c. On the 6th inst. prices dropped 2 to 10 points; sales, 440,000 lbs. March was 8.98c. at the close, June 9.27 to 9.29c., Sept., 9.61 to 9.63c. and Dec. 9.93 to 9.95c.

On the 7th inst. futures closed 7 to 12 points higher on sales of 2,640,000 lbs. Light native cows sold in the Chicago market at a decline of ½c. March ended at 9.05c., June at 9.38 to 9.39c., Sept. at 9.70 to 9.75c. and Dec. at 10.05c. To-day prices ended 27 to 33 points higher with March at 9.34c., June at 9.65c., Sept. at 10.03c. and Dec. at 10.30c. Trade was somewhat broader.

Ocean Freights were moving a little more freely.

Charters included—Grain booked—2½ loads to Copenhagen at 13c.; a few loads to Havre at 7c. Tankers—Feb. 4, prompt Gulf to N. H. 20e, 21c, and 22c. fuel Tampico, Mar., crude, to U. K.—Continent, 10s. 3d. Scrap iron—New York, prompt, to Japan about 13c.; several ports each way, Mar., Gulf to Japan. 13s. 3d. Trip—West Indies round, \$1 North Atlantic, redelivery U. K.-Continent, 80c. Atlantic range, redelivery U. K.-Continent, 65c. West Indies round, 90c. same, 62½c.

Coal was in good demand. Bituminous output last week was the heaviest in a year, totaling 8,480,000 tons. For three weeks to Feb. 2 it was 24,490,000 tons and the weekly average 8,163,000 tons, against 22,375,000 and 7,458,000 tons respectively a year ago.

Copper was weaker of late both here and abroad. Domestic sales were below the average. The London market was under considerable liquidation and the range there was was under considerable inquidation and the range there was $6.62\frac{1}{2}$ to 6.65c. c.i.f. European ports. Blue Eagle was still 9c. In London on the 7th inst. spot standard dropped 2s. 6d. to £27 1s. 3d. and futures dropped 1s. 3d. to £27 6s. 3d.; sales 800 tons of spot and 1,000 tons of futures; electrolytic fell 2s. 6d. to £30 2s. 6d. bid and £30 7s. 6d. asked; at the second session futures declined 1s. 3d. on sales of 50 tons of spot and 225 tons of futures.

Tin was slightly stronger on the 7th inst. at 51.20c. for spot Straits. The market was quiet. Stocks in New York warehouses decreased 25 tons to 1,046 tons. In London on the 7th inst. spot standard declined 5s. to £232 10s.; futures unchanged at £228 17s. 6d.; sales 150 tons of spot and 250 tons of futures; spot Straits dropped 5s. to £232 15s.; Eastern c. i. f. London was 5s. higher at £232: at the second London session standard was unchanged, with sales of 5 tons of spot and 95 tons of futures. of spot and 95 tons of futures.

Lead was in better demand and firmer at 3.50 to 3.55c. New York and 3.35c. East St. Louis. World production in December totaled 130,651 short tons against 125,612 in November and 130,651 in December 1933, according to the American Bureau of Metal Statistics. United States production in December was 32,500 tons against 29,755 in November. In London on the 7th inst. prices were 1s. 3d. higher at £10 2s. 6d. for spot and £10 7s. 6d. for futures; sales 350 tons of spot and 550 tons of futures.

Zinc was rather quiet but steady at 3.70c. East St. Louis. Surplus stocks of slab zinc increased 76 tons during January, the smallest net change for a month in several years. Stocks at the end of the month were 119,906 tons, the largest since June 1934. Production during the month was 35,614 tons, as against shipments of 35,538 tons. Production at 1,149 tons daily or just two tons per day less than in Dec., according to the American Zinc Institute. In London on the 7th inst. prices were unchanged at £11 15s. for spot and £12 for futures; sales 350 tons of spot and 900 tons of futures.

Steel-Sales of structural steel were the best in many weeks. In the local district sales in Jan. exceeded those in Dec. Most of the demand came from railroads and automobile manufacturers. The time is near at hand for filing second quarter prices but the general belief is that no important changes will take place. Iron billets were reduced \$1.90 per ton. Quotations: Semi-finished billets, rerolling \$27.; billets, forging \$32.; sheet bars \$28.; slabs \$27.; wire rods \$36.; skelp 1.70c.; sheets, hot rolled annealed 2.40c.; galvanized 3.10c.; strips, hot rolled 1.85c.; strips, cold rolled \$2.60c. heaves \$2.5c. 2.60c.; hoops 1.85c.; bands 1.85c.; tin plate, per box \$5.25; hot rolled bars, shapes and plates 1.80c.

Pig Iron production gained more rapidly in January than that of steel. It showed an increase of 44%. Sales in the New York district were rather small. Prices for second quarter delivery will be filed on Feb. 18 but no changes are expected. Quotations: Foundry No. 2 plain, Eastern Pennsylvania \$19.50; Buffalo \$18.50; Chicago, Valley and Cleveland \$18.50; Birmingham \$14.50; basic Valley \$18; Fastern Pennsylvania \$19.50; Eastern Pennsylvania \$19; malleable, Eastern Pennsylvania \$20; Buffalo \$19.

Wool was rather quiet. Boston wired a government report on Feb. 7th saying: "The volume of business is about steady, compared with the early part of the week. Sales continue scattered and are largely confined to the finer Western grown wools at steady prices. Ohio and similar fleeces remain quiet. Quotations are firm on the higher grades at 27 to 28c. in the grease for strictly combing 64s and finer, or fine delaine, and at 28c. to 29c. for strictly combing 58s, 60s, half blood." In London on Feb. 4th at the Colonial wool auctions offerings of 7,225 bales were quickly absorbed by home and Continental buyers. Prices were firm. On the 5th inst. the Colonial wool auctions at London closed with offerings of 5 820 helps which were readily talent by Vorley offerings of 5,829 bales which were readily taken by Yorkshire and the Continent at firm prices. Compared with December merinos and crossbreds were par to 5% higher. The home trade was estimated to have taken 60,000 bales, the Continent 59,000 and America 100 bales. Stocks carried over including old stock amounted to 78,000 bales. Details of Feb. 5th sale:

Sydney, 2311 bales scoured merinos, 15 to 16d. greasy, 9¾ to 12¾d. Queensland, 857 bales scoured merinos, 18½ to 21½d.; greasy, 9½ to 10½d. Victoria, 884 bales; scoured merinos 17½ to 19½d.; greasy, 10½ to 13¾d.; scoured crossbreds, 7½ to 16½d. South Australia, 185 bales; scoured merinos, 17½ to 19½d.; greasy merinos, 9¾ to 10½d. West Australia, 299 bales; greasy merinos, 9 to 10d. New Zealand, 1208 bales; greasy crossbreds, 5¾ to 8¾d. New Zealand slipe ranged from 6d. to 12d. the latter price for halfbred lambs. The next series will begin on March 12th.

Silk futures on the 4th inst. closed ½c. lower to 1½c. higher. Sales totaled 700 bales. Crack double extra spot fell 1½c. to \$1.43. Japanese markets were stronger. March ended at \$1.35; April at \$1.35 to \$1.35½; May at \$1.35; June at \$1.35 to \$1.35½; July, \$1.35, and Aug. and Sept., \$1.35 to \$1.35½. On the 5th inst. futures dropped 1 to 2c. with sales of 2,180 bales. Crack double extra spot was down to \$1.41. The Yokohama Bourse ended 5 to 11 points lower. February ended at \$1.33 to \$1.34; March at \$1.33: lower. February ended at \$1.33 to \$1.34; March at \$1.33; April at \$1.33 to \$1.33½; May and June, \$1.33; July and August, \$1.33½, and Sept. at \$1.33. On the 6th inst. futures closed ½ to 1½c. lower with sales of 1,580 bales. Crack double spot in the spot market fell 3c. to \$1.38. Lapanese cables were weaker. Feb. ended at \$1.32 to \$1.33½; March at \$1.32½; April and May, \$1.32; June and July, \$1.32 to \$1.32½; Aug., \$1.32, and Sept., \$1.32 to \$1.32½.

On the 7th inst. futures closed 1½ to 2c. higher on sales of 940 bales. February ended at \$1.33½ to \$1.34½; March at \$1.34; April at \$1.33 to \$1.34; May at \$1.34½; March at \$1.34; April at \$1.33½ to \$1.34; Aug., \$1.34 and Sept. at \$1.33½ to \$1.34. To-day prices ended 2c. to 3c. higher with Feb. at \$1.36; March, April and May, \$1.36; Jan. and July, \$1.36½; Aug., \$1.36 and Sept. at \$1.36½. lower. February ended at \$1.33 to \$1.34; March at \$1.33;

COTTON

Friday Night, Feb. 8 1935

The Movement of the Crop, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 54,614 bales, against 44,884 bales last week and 52,473 bales the previous week, making the total receipts since Aug. 1 1934 3,523,693 bales, against 6,011,550 bales for the same period of 1933-34, showing a decrease since Aug. 1 1934 of 2,487,-

The exports for the week ending this evening reach a total of 107,689 bales, of which 13,276 were to Great Britain, 12,882 to France, 4,512 to Germany, 16,547 to Italy, 23,572 to Japan, 15,000 to China, and 21,720 to other destinations. In the corresponding week last year total exports were 154,460 bales. For the season to date aggregate exports have been 2,993,257 bales, against 5,053,262 bales in the same period of the previous season. Below are the exports for the week:

Speculation in cotton for future delivery was very small, with the uncertainty over the gold clause decision checking business. Liquidation sent prices downward, but at times trade price-fixing acted as a prop to the market.

On the 2d inst. prices ended 10 to 12 points under general on. The Continent and Bombay interests were Weakness at Alexandria accounted for some of the liquidation. selling. selling. Weakness at Alexandria accounted for some of the selling. The new crop deliveries were under the most pressure. The recent liquidation, however, has strengthened the technical position. Mills were fixing prices on a scale down but this support was not large enough to offset the selling. The world's consumption of American cotton during ing. The world's consumption of American cotton during December, according to the New York Cotton Exchange Service totaled 916,000 bales against 1,007,000 in November and 1,025,000 bales in December last year. For the first five months of the current season it totaled 4,828,000 bales as compared with 5,882,000 in the corresponding period last year and 5,785,000 two seasons ago. World's spinners' year and 5,785,000 two seasons ago. World's spinners' takings of foreign cotton totaled 1,115,000 bales in December against 1,126,000 in November and 972,000 in December last year; consumption for the first five months of the current 5,344,000 bales against 4,615,000 last season and 4,173,000 two seasons ago. On the 4th inst. prices ended 3 to 4 points higher or slightly under the highs for the day. Trading was slow owing to the failure of the Supreme Court to render a decision in the gold clause cases. The market to render a decision in the gold clause cases. to render a decision in the gold clause cases. The market moved within a range of 3 to 6 points. Liverpool after an early decline of 2 to 5 American points firmed up somewhat later in the morning. New Orleans, Wall Street and Japanese interests were buying. The trade was fixing prices on a small scale. The weather map showed fair to partly cloudy conditions in the Eastern Belt and eastern parts of the Central and Western Belts. There was a trace of snow at Asheville, N. C. Reports from southern Texas said that some planting had taken place but that the cold said that some planting had taken place but that the cold weather was greatly interfering with it. On the 5th inst. prices ended 6 to 8 points higher reflecting a stronger technical position. Liverpool cables were better than expected. The trade was fixing prices on a fair scale and spot interests and Wall Street bought moderately. Brokers who usually act for the ACCA were good buyers. This buying was believed to have represented lifting of hedges against the sale of actual cotton. Some early sellers became buyers late in the

session. There was little if any change in underlying conditions in the market. The general belief is that little if anything will develop from the Senate Agricultural Committee conference in regard to exports. Except for light frost at New Orleans the weather was generally clear. Indian exports during December were the largest of any total for that month since 1930, according to cable advices to the Cotton Exchange Service. During December India exported 236,000 running bales against 166,000 in November and 163,000 in December last year. The total for the season to Dec. 31 was 842,000 bales against 611,000 in the same period last season. India consumed 249,000 bales (400 lbs.) of its own cotton in December as compared with 228,000 in November and 200,000 bales in December 1933; first five months of present season the consumption amounted to 1,144,000 bales against 955,000 in the same period last season. Worth Street report business quiet with prices generally unchanged. On the 6th inst. prices ended unchanged to 5 points lower on light selling prompted by the weakness in outside markets. Demand was small. Southern advices said the spot basis was firm but that very little business was being transacted. Commission houses and the South were early sellers. Liverpool cables were disappointing. Yet Bombay, Liverpool and the Continent were among the early buyers and there was some trade price fixing. The Indian crop was reported to have been further reduced by the recent frost, but this had little if any effect on the market here. The weather over the belt was clear except for cloudy conditions in the north-central and northwestern areas.

On the 7th inst. cotton showed a better tone, closing unchanged to 7 points higher. There was less selling pressure. The trade was again fixing prices. Southern advices said the basis continued firm, but indicated that it was difficult to obtain any substantial quantity of actual cotton. Old crop deliveries at one time improved 10 points. Exports were 2,061,000 bales behind those of a year ago. Certificated stocks at delivery markets showed a further reduction. The total was around 98,000 bales, or the smallest amount since 1930, and compared with the peak of more than 1,300,000 bales in 1931. The certificated stock here was only 22,000 bales, the lowest in many years. West Texas had good general rains, the first in many weeks. They were badly needed in that section.

To-day prices, after some early weakness, rallied on trade buying and closed 6 to 11 points higher. Liquidation of near months and disappointing Liverpool cables caused the early weakness.

World Consumption of American Cotton Declined Seasonally from November to December—Use of Foreign Cotton Lower, Contrary to Usual Trend-Consumption returns in recent months indicate that the long-extended increase in world consumption of foreign cottons has been halted for the time being, and that world consumption of American cotton is no longer declining, according to a report issued Feb. 4 by the New York Cotton Exchange Service. During December, world use of foreign cottons registered a decline from November whereas it usually shows an increase. World consumption of American cotton registered about the usual seasonal decline from November to December. Exchange Service's report continued:

Exchange Service's report continued:

World consumption of foreign cottons was 1.0% smaller in December than in November, whereas, in the past seven seasons, it has been 3.4% larger in December than in November on an average. World consumption of American cotton declined 9.0% from November to December, exactly the same percentage as the average decline in the past seven seasons. World consumption of all growths of cotton, that is, both American and foreign cottons combined, declined 4.8% from November to December as compared with an average decline of 3.4% in the past seven seasons.

During December, world cotton spinners used 1,115,000 bales of foreign cottons as compared with 1,126,000 in November, 972,000 in December last season, and 914,000 two seasons ago. December consumption of foreign growths was the largest for any December on record. During the first five months of this season, that is, from Aug. 1 through Dec. 31, world consumption of foreign cottons totaled 5,344,000 bales as against 4,615,000 in the corresponding portion of last season, and 4,173,000 two seasons ago.

As for American cotton, world mills used 916,000 bales in December as compared with 1,007,000 in November, 1,025,000 in December last season, and 1,145,000 two seasons ago. From Aug. 1 through Dec. 31, world consumption of American cotton aggregated 4,828,000 bales as compared with 5,882,000 in the corresponding portion of last season, and 5,785,000 two seasons ago.

During December, world consumption of all cottons ran at a season rate.

with 5,882,000 in the corresponding portion of last season, and 5,765,000 two seasons ago.

During December, world consumption of all cottons ran at a season rate of about 24,500,000 bales. Last season, the world used 25,261,000 bales of all kinds of cotton, and two seasons ago 24,712,000 bales. In December this season, world sponners used 2,031,000 bales of all cottons as compared with 2,133,000 in November, 1,997,000 in December last season, and 2,059,000 two seasons ago. During the five months of this season from Aug. 1 through Dec. 31, world consumption of all growths totaled 10,172,000 bales as compared with 10,497,000 in the corresponding portion of last season, and 9,958,000 two seasons ago.

Receipts from the Plantations-The following table indicates the actual movement each week from the planta-The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week	Receipts at Ports			Stocks	at Interior	Receipts	Receipts from Plantations

Feb									
1					2,027,706				161,920
8	54.614	85.311	121,163	1,740,457	1.964.746	2.084.026	27,759	22,351	86,978

The above statement shows: (1) That the total receipts from the plantations since Aug. 1 1934 are 4,104,640 bales; in 1933-34 were 6,690,633 bales and in 1932-33 were 7,426,863 bales. (2) That, although the receipts at the outports the past week were 54,614 bales, the actual movement from plantations was 27,759 bales, stock at interior towns having decreased 26,855 bales during the week.

Weather Reports by Telegraph—Reports to us by telegraph this evening indicate that in areas in both the east and west there have been complaints of the soil getting in bad plowing condition due to the continued dry weather of the cotton belt in general. In the extreme west and northwestern portions, the drought is becoming serious.

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 4,000 bales. Exports from all India ports record an increase of 14,000 bales during the week, and since Aug. 1 show an increase of 350,000 bales.

Manchester Market—Our report received by cable to-night from Manchester states that the market in both yarns and cloths is dull but steady. Demand for India is poor. We give prices to-day below and leave those for previous weeks of this and last year for comparison:

BREADSTUFFS

Friday Night, Feb. 8 1935

Flour demand was slow, but a better business is expected when the gold clause decision is out of the way.

Wheat was an evening-up affair on the 2d inst. and prices closed ¼ to ¾4c. higher. Shorts covered. Early prices were lower owing to selling influenced by the weakness at Liverpool. Winnipeg ended ½ to ¾6c. higher reflecting the strength at Chicago. There was no improvement, however, in the export demand for Canadian wheat. Liverpool declined ½ to ¼d. On the 4th inst. came a reversal of trend and prices ended 1 to 1¾6c. lower, owing to a lack of support more than anything else. Liquidation was not very heavy, but it was persis ent. The decline in corn prompted some of the selling in the wheat pit. Winnipeg was ½ to ¾6c. lower and Liverpool ended unchanged to ¼d. lower. The weakness at Liverpool ended unchanged to ¼d. lower. The weakness at Liverpool was attributed to the big increase in supplies on ocean passage. World shipments were 10,384,000 bushels, including 2,628,000 bushels from North America. Supplies on ocean passage increased 3,488,000 bushels and totaled 33,464,000 against 37,784,000 last year. On the 5th inst. prices declined in the early trading but rallied later and ended unchanged to ½c. higher. The May delivery was down close to the season's low. Mill buying of cash wheat and futures on the recessions strengthened the market. Shorts covered and some longs were reinstating long lines. Weakness at Liverpool prompted liquidation and stop-loss selling which caused the early decline. Winnipeg closed ½ to ¾c. higher but Liverpool ended lower, and prices there were down to new low levels on all options in American currency. On the 6th inst. prices reflected the weakness in Liverpool and Winnipeg and declined ½ to ¾c. Buying by mills caused a rally at one time. Broomhall estimate world's requirements at 552,000,000 bushels from his previous estimate. He placed European needs at 32,000,000 bushels from his previous estimate. He placed European needs at 32,000,000 bushels less, non-European at 8,000,000 more.

On the 7th inst. prices advanced ¼ to ½c., under short covering. There seemed to be less fear of the pending gold clause decision. A leading operator was reported to have bought 1,000,000 bushels of May. Selling pressure was rather light. Many operators who had sold early in the day became buyers later on. Liverpool was ½ to ½c. higher, and Winnipeg ended unchanged to ½c. up. Buenos Aires was up ½ to ½c.

To-day prices ended ¼ to %c. higher. The open interest was 100.834,000 bushels.

Indian Corn was in rather slow demand with trading checked by the failure of the Supreme Court to make a decision on the gold clause cases. On the 2d inst. prices advanced ½ to ¾c. in sympathy with wheat. Shipping sales were 43,000 bushels and receivers booked 5,000 bushels to arrive. On the 4th inst. prices declined 1½ to 1½c. on moderate selling by Northwestern interests. Stop loss orders were uncovered. Support was lacking. Shipping sales were 26,000 bushels, and 6,000 bushels were booked to arrive. On the 5th inst. prices closed ½ to ½c. higher, reflecting the strength in wheat. Shipping sales were 43,000 bushels and 5,000 bushels were booked to arrive. At one time prices were down to the lowest level reached since Nov. 10, owing to general liquidation. Later came a rally under short covering. Shipping sales were 103,000 bushels and receivers booked 3,000 bushels to arrive.

On the 6th inst. prices closed ¼c. lower to ⅙c. higher. The market showed weakness in the early dealing owing to the decline in Buenos Aires. Eastern buying caused a late rally. Shipping sales were 16,000 bushels. Receivers booked 3,000 bushels to arrive. The area seeded to corn in Argentina was estimated officially at 17,364,000 acres, again t 15,800,000 seeded last year.

On the 7th inst. prices ended ¾ to 1½c. higher, on buying stimulated by the strength in wheat. There was more friendly feeling towards the buying side. Country offerings to arrive were light. To-day corn led other grain upward and ended ½ to 1½c. higher. Unfavorable weather has interfered with the movement of corn and encouraged buying. Higher prices for hogs also helped.

Oats were dominated by the movement in other grain in relatively light trading. On the 2d inst. they ended unchanged to ½c. lower and there was a further decline of 5% to 1½c. on the 4th inst. On the 5th inst. they showed some strength in sympathy with wheat and corn, ending unchanged to ½d. higher, and on the 6th inst. the close was unchanged to ½c. lower.

On the 7th inst. prices ended % to 1c. higher, under short covering. Cash interests were buying May early. To-day prices ended % to %c. higher, reflecting the strength in

Weather Report for the Week Ended Feb. 6-The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ended Feb. 6, follows:

Department of Agriculture, indicating the influence of the weather for the week ended Feb. 6, follows:

The week ending Feb. 5 brought unusually marked contrasts in temperature conditions to different areas and, for the country as a whole, it was one of the driest weeks of record. In the Atlantic States temperatures were abnormally low, but in the northwest they were persistently high. The table on page 4 shows the departure of temperature from normal for first-order Weather Bureau stations. In the Atlantic States, from Florida to Maine, the weekly means were from 6 to 11 degrees below normal, but, from the Mississippi Valley westward, they were abnormally high, especially from northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas, Oklahoma and New Mexico northward. Over the northern Arkansas and the chart and northward and for this season, while in the West, North Dakota and eastern Montana had temperatures on proported for a first-order station being 32 degrees below zero at Northfield, Vt., on Jan. 31.

The table shows also that, except locally, there was practically no precipitation in any part of the country. A few light to moderate falls are shown in the Lake region and in the central and north Pacific area, while heavy rains occurred in

eastward have sufficient for present needs.

SMALL GRAINS—The most important features of the week's weather as affecting winter grains were the recession of the snow cover over many central sections and the change to more moderate temperatures.

In the Ohio Valley the snow cover is largely gone and the ice blanket in the western part melted; wheat is still apparently good, although some detrimental effects of heaving were noted in central and western sections. In Iowa the sleet and ice cover also has diminished considerably, while in Missouri the melting of the snow and sleet revealed wheat in satisfactory shape, with some greening noted the last few days. Conditions in the Great Plains area have not changed appreciably from last week, with winter wheat mostly fair in the eastern part and very poor in the western where extremely dry conditions continue. In Texas most wheat is recovering from the effects of the recent low temperatures, but much of the oat crop was totally destroyed.

The snow cover was largely removed from the lower levels in Montana, with thawing and freezing hard on wheat in the eastern part. In most of the northwest winter grains are satisfactory and in the northeast, from Maryland northward, an ample snow cover still prevails. Some injury from the previous cold was noted in the southeast, but most winter grains are in good shape there.

THE DRY GOODS TRADE

New York, Friday Night, Feb. 8 1935.

While improved weather conditions in the local area brought a slight upturn in retail sales, comparisors with last year continued to make a poor showing with the still prevailing traffic hindrances, the effects of the recently imposed sales tax and the general restraint caused by the pending decision on the old clause cases, constituting the main deterrent factors. The bulk of the demand again centered in winter merchandise, and inventories of these goods both in retailers' and wholesalers' hands were reported

to be sharply diminished and requiring urgent replenishing. Other sections of the country, particularly in the Middle West and the southwest continued to report moderate gains in sales volume as compared with last year. In the metropolitan district a decrease for January against last year of about 3% was anticipated while out-of-town stores are expected to show gains ranging from 2 to 8%. One large chain store organization reported a decrease in sales from January 1934 of 5.4%, compared with a gain of 6.9% shown in December.

Trading in the wholesale dry goods markets, in a growing measure, reflected the less favorable results shown by retail establishments, with merchants curtailing their buying activities even in lines such as ready-to-wear merchandise which heretofore had been the scene of some animation. While unfavorable weather conditions and the lateness of Easter were partly held resopnsible, it was commonly admitted that the uncertainty caused by the pending decision on the gold clause cases had a good deal to do with the caution shown by buyers in all lines. Despite the paucity of buying orders no real weakness appeared in the more important lines although it was conceded that if the present uncertainty is prolonged, a general easing of the price structure may be looked for. Business in silk goods continued quiet, with most of the buying coming from the retail piece goods departments rather than the garment trade. Chief interest again centered in taffetas. Price advances of 5 to 10c. a pound were made by individual throwsters. Trading in rayon yarns showed a distinct falling-off as compared with the activity prevailing during the recent past. While some of the larger producers are reported to have sold about half of their March output, others do not seem to be in such a fortunate position although, in view of the spurt in sales preceding the present lull, the condition of the industry as a whole is still considered quite promising with virtually the entire February output having been absorbed by buyers.

Domestic Cotton Goods-Trading in print cloths continued listless, with the uncertainty over the pending gold clause decision again proving the chief hindrance to a revival of activities. Prices, however, held fairly steady as the majority of mills showed little inclination to meet the demands of buyers for concessions. Meanwhile, the movement of finished goods was reported to hold up relatively well resulting in an accumulation of uncovered requirements by converters which, in the event of a favorable gold decision, might lead to a rush for goods. Tobacco cloths were in fairly active demand at steady prices, and there was some scattered buying of narrow sheetings. Business in fine goods was quiet, and occasional transactions came to light where slight price concessions had been made. Deterrent factors were the nervousness over the gold decision and the disappointment over the failure of the recent curtailment proposals to make any headway. Closing prices in print cloths were as follows: 39-inch 80s, 9 to 91/8c.; 39-inch 72-76s, 85/8c.; 39-inch 68-72s, 71/2 to 75/8e.; 381/2-inch 64-60s, 61/2 to 65/8e.; $38\frac{1}{2}$ -inch 60-48s, 5 9-16 to $5\frac{5}{8}$ e.

Woolen Goods—While new business in men's wear fabrics was restricted, owing to the general caution displayed in all markets caused by the pending gold decision, mills were kept busy on existing orders, and there appeared no desire on the part of buyers to ask for cancellations or deferred shipments. Quick deliveries continued to be difficult to Overcoatings again met with active demand. Orders received by clothing manufacturers were less numerous than heretofore, probably due to the fact that spring needs of merchants have been covered rather extensively and also owing to the somewhat less active movement of goods in retail channels. Business in women's wear fabrics likewise was less spirited, largely as a result of the slower flow of merchandise in wholesale and retail centres. Mill operations, however, are well sustained, because of the substantial orders placed previously.

Foreign Dry Goods—Trading in linens shared the fate of most other markets being adversely affected by the uncertainty surrounding the coming gold clause decision. While transactions in both the suitings and household divisions were small, prices held steady reflecting the continued firmness of the foreign markets. Burlap prices ruled a shade higher, in consequence of slightly better Calcutta cables. A moderate business in spot goods was transacted but shipments attracted little attention. A restraining influence was the prevailing nervousness over the gold question. Domestically lightweights were quoted at 4.50c., heavies at 6.15c.

MUNICIPAL BOND SALES IN JANUARY

Continuance during January of the favorable conditions which prevailed throughout the year 1934 for the sale of State and municipal bonds resulted in the disposition of new issues in the past month aggregating \$96,492,689. Although awards in December amounted to \$121,826,239, the total for that month was augmented considerably by the sale of such issues as \$42,900,000 by New York City and \$22,300,000 by the Chicago School District, Ill. The uncertainty in the money and investment markets created during January by the pending decision of the United States Supreme Court in the gold clause litigation also contributed to some extent to the decline in volume of municipal financing in the past month as compared with the total sales in December. awards of State and municipal bonds in January 1934 totaled only \$55,071,204.

Among the larger issues of municipal bonds sold during the month just ended were \$10,500,000 by Newark, N. J., \$10,000,000 by the State of New Jersey and \$9,175,000 by Allegheny County, Pa. In addition, the Reconstruction Finance Corporation contributed heavily to the January bond sales total of \$96,492,689, having made public award of more than \$5,000,000 of municipal bonds which had originally been acquired by the Public Works Administration. The sales included an issue of \$2,987,000 New York City bonds.

The outlook for further improvement in the municipal bond market appears very promising, particularly in view of the constantly increasing taxes being levied on incomes by the Federal, State and local governments. The taxexemption privileges enjoyed by municipal liens add considerably to their attractiveness as investments. It should be noted, however, that there is a strong possibility that the subject of elimination of the tax-exempt feature from future issues of Federal, State and local government bonds will be considered at the present session of Congress. Both President Roosevelt and Secretary of the Treasury Henry Morgenthau are reported to be in favor of the move. V. 140, p. 666. Still another factor which is unquestionably enhancing the demand for municipal bonds is maintenance of the restrictions placed on new corporate financing by the onerous provisions of the Federal Securities Act. This has served to virtually leave the entire field of profitable investment of funds to the obligations of States and municipalities.

The issues of \$1,000,000 or more sold publicly during January are shown herewith:

- \$10,500,000 Newark, N. J., bonds, of which \$3,000,000 were sold at competitive bidding and \$7,500,000 accepted by banks in exchange for a like amount of temporary obligations of the city held by them. The block of \$3,000,000, due serially from 1936 to 1950, incl., was purchased by Lehman Bros. of New York and associates at a price of 98.10, a basis of about 4.02%. Reoffered on a yield basis of from 2% to 4%, according to maturity. cording to maturity.
- 10,000,000 New Jersey (State of) 2½% emergency relief bonds, of \$1,250,000 each year from 1936 to 1943, incl., awarded to syndicate headed by Lehman Bros. of New York at 100, a basis of about 2.32%. Reoffered for public investment to yield from 0.60% to 2.50%, according to maturity.
- to yield from 0.60% to 2.50%, according to maturity.

 9,175,000 Allegheny County, Pa., 2¾% bonds, including \$7,298,000 sold to the Union Trust Co. of Pittsburgh and associates at 101.26, a basis of about 2.55%, and \$1,877,000 purchased by the Union Trust Co., bidding alone, at 100.17, a basis of about 2.73%. Seven individual issues were included in the sale, due serially from 1936 to 1965, incl. Public reoffering of the \$7,298,000 bonds was made at prices to yield from 0.625% to 2.50% on the maturities from 1936 to 1945, incl., while the remaining maturities were offered at prices ranging from 101.50 for the 1946 bonds to 101 for those due from 1956 to 1945. Of the \$1,877.000 bonds, a block of \$1,609.000 was priced to yield from 0.75% to 2.60% on those due from 1935 to 1944, incl., while the maturities from 1945 to 1964, incl., were offered at prices of 101, 100.50 and par.

 5.066,000 St. Louis, Mo., bonds, comprising \$3.500.000 3s. due from
- 5,066,000 St. Louis, Mo., bonds, comprising \$3.500,000 3s, due from 1950 to 1955, incl., and \$1,566,000 2\(\frac{1}{2} \) s, due in 1951, were awarded to a syndicate headed by Ladenburg, Thalmann & Co. of New York at 100.18, a basis of about 2.92\(\tilde{\chi} \). Reoffered at prices to yield 2.80\(\tilde{\chi} \) and 2.85\(\tilde{\chi} \).

- 5,225,000 Jersey City, N. J., $4\frac{1}{2}\%$ general and school refunding bonds were taken by the city's Sinking Fund Commission in exchange
- 5,225,000 Jersey City, N. J., 4½% general and school refunding bonds were taken by the city's Sinking Fund Commission in exchange for an equal amount of matured temporary obligations. Bonds mature serially from 1939 to 1964, inclusive.
 4,312,000 South Carolina (State of) 4½% certificates of indebtedness purchased by a group managed by Lehman Bros. of New York at 101.07, a basis of about 4.14%. Reoffered to yield from 3.90% to 4.05%, according to maturities, which are from 1942 to 1953, inclusive.
 3,412,000 Buffalo, N. Y., bonds, including \$3,040,000 3.40s and \$372,000 4s, due serially from 1936 to 1955, incl., purchased by the Bankers Trust Co. of New York and associates, on their bid of 100.119 for the 3.40% bonds, a basis cost of 3.39%, and 104.529 for the 4s, or a basis of about 3.44%. Reoffering of all of the bonds was made at prices to yield from 1% to 3.40%, according to interest rate and maturity.
 3,200,000 Golden Gate Bridge and Highway District, Calif., 4½% bonds, sold to Blyth & Co., Inc., of San Francisco, and associates, at 102.65, a basis of about 4.57%. Due serially from 1942 to 1971, incl., and offered for general investment on a yield basis of from 3.75% to 4.45%, depending on maturity.
 2,987,000 New York, N. Y., 4% bonds, maturing serially from 1935 to 1949, incl., were sold by the Reconstruction Finance Corporation to Hallgarten & Co. of New York and associates, at 102.34, a basis of about 2.95%. Reoffered at prices to yield from 0.50% to 3.75%, according to due date.
 2,750,000 Eric County, N. Y., 3.40% bonds awarded to a syndicate under the leadership of Halsey, Stuart & Co., Inc., of New York at 100.30, a basis of about 3.32%. Due serially from 1936 to 1945, incl., and priced to investors to yield from 1.50% to 3.40%.
 2,250,000 Massachusetts (State of) 2½% water bonds, due \$75,000 each year from 1936 to 1975, incl., sold to 2 group beaded by

- to 3.40%.

 2,250,000 Massachusetts (State of) 2½% water bonds, due \$75,000 each year from 1936 to 1975, incl., sold to a group headed by Kidder, Peabody & Co. of New York at 100.869, a basis of about 2.43%. Offered for general investment to yield from 0.35% to 2.50%, according to maturity.

 2,000,000 Delaware River Joint Commission, N. J., 4½% bonds, maturing serially from 1938 to 1973, incl., sold to Graham, Parsons & Co. of Philadelphia and others, at 108.27, a basis of about 3.75%. Bonds are callable on any interest payment date on and after Sept. 1 1943 at a price of 105 and accrued interest. Reoffered to yield from 2.25% to 3.80%; yield to callable date on the 1944 to 1973 maturities is 3.50%.

 2,000,000 New Mexico (State of) 3.60% refunding bonds reported sold

- callable date on the 1944 to 1973 maturities is 3.50%.

 2,000,000 New Mexico (State of) 3.60% refunding bonds reported sold at par to a syndicate of seven investment houses. Due over a period of 16 years.

 1,945,000 Utah (State of) deficit bonds purchased by the State Board of Loan Commissioners. Additional details not yet available.

 1,829,000 Kearny, N. J., bonds, comprising \$1,429,000 4\frac{3}{4}\$\$ due from 1938 to 1952, incl., and \$400,000 4s, maturing from 1936 to 1940, incl., purchased by a syndicate headed by Blyth & Co., Inc., of New York.
- Inc., of New York.

 1,500,000 Texas (State of) bonds, comprising \$651,000 3s, due from 1938 to 1940, incl., \$479,000 3¼s, due from 1935 to 1937, and \$370,000 2¾s, maturing \$180,000 in 1942 and \$190,000 in 1943, sold to the Mercantile Commerce Bank & Trust Co. of St. Louis and associates, at 100.016, the net interest cost to the State being about 2.95%.

 1,200,000 Passaic, N. J., 4¼% bonds, due serially from 1935 to 1951, incl., sold privately to Blyth & Co., Inc., of New York and associates.
- 1,078,000 Columbus, Ohio, 4% bonds, sold by the RFC to Brown Harriman & Co., Inc., of New York and others at a price of 105.41, a basis of about 3.26%. Due serially from 1940 to 1949, incl., and reoffered at prices to yield from 2.75% to 3.25%, depending on maturity.
- 3.25%, depending on maturity.

 1.050,000 San Francisco, Calif., 4% bonds sold to a syndicate headed by the Bankamerica Co. of San Francisco at 103.62, a basis of about 3.59%. Due serially from 1935 to 1963, incl.

 1,000,000 West Virginia (State of) bonds, including \$600,000 3s and \$400,000 23/s, due \$40,000 each year from 1935 to 1959, incl., awarded to Gertler & Co. of New York at 100.013, a basis of about 2.74%. Reoffered at prices to yield from 0.50% to 2.85% on the 3% bonds and at a price of par for the 23/s.

Although the market for State and municipal bonds was of an extremely favorable nature during January, a number of municipalities failed to dispose of their offerings. In many of such instances no bids were submitted for the loans. The number of issues unsuccessfully offered during January was 13, representing bonds having an aggregate par value of \$4,924,235. They are listed herewith, together with the page number of the "Chronicle" where an account of the abortive offering appears; also the rate of interest named by the prospective borrower, amount of the loan and the reason given for the non-sale:

RIVEII I	or the non-said.

	lloughby Ohio		77.935	No bids

Temporary loans negotiated by States and municipalities during the month of January aggregated \$141,812,000. This figure includes \$33,000,000 contributed by the City of New York and \$60,000,000 by the State of New York. Continuance of easy money rates, particularly for credits of short duration, resulted in the sale in the past month of an unusually large number of municipal loans. The bulk of these represented issues of New England municipalities. The demand for investments of that character has reduced the cost of such financing to States and municipalities to levels heretofore untouched.

The outstanding feature of the Canadian municipal bond market in January concerned the announcements by several large cities of their intention to take action toward lowering current principal and interest charges on outstanding debts. The most important of these units is the City of Vancouver, British Columbia, whose intention in that regard attracted the most attention due to the size of its indebtedness and the nature of the relief sought. This provides for a reduction of 50% in interest rates on all existing loans. Mayor McGeer has called a meeting of holders of bonds and registered stock of the city to be held in Vancouver on Feb. 11 for the purpose of discussing the proposed reduction—V. 140, p. 836. Other large municipalities that propose to obtain concessions of one form or another from bondholders are the cities of New Westminster, B. C., and Verdun, Que.

Canadian municipal bond financing during the past month aggregated \$34,172,600, of which \$20,000,000 was contributed by the Province of Ontario and \$13,730,000 by the Province of Quebec. The borrowing by Ontario consisted of the sale of 2.25% Treasury notes due Jan. 31 1937 to a group of Canadian banks—V. 140, p. 676. The Provvince of Quebec likewise negotiated its financing in Canada, having sold \$13,720,000 2½% five-year bonds to a syndicate headed by the Bank of Montreal and the Banque Canadienne Nationale—V. 140, p. 508.

During January the Reconstruction Finance Corporation sold \$158,000 4% Maui County, Hawaii, bonds to Dean Witter & Co. of San Francisco, and \$200,000 4% Hawaii County, Hawaii, bonds to (\$100,000 each) Heller, Bruce & Co. of San Francisco, and Lowry Sweney, Inc., of Columbus. In addition, the Government of Puerto Rico made public award of \$75,000 4¼% bonds to the Huntington National Bank of Columbus, Ohio. These represented the first United States Possession loans to be sold publicly since December 1933.

Below we furnish a comparison of all the various forms of municipal obligations sold in January during the last five years:

January	1935	1934	1933	1932	1931
	S	8	8	8	8
Perm. loans (U.S.)	96,492,689	55,071,204	35,834,606	138,248,064	50,648,907
*Temp. loans (U. S.)	141,812,000	130,353,200	47,293,039	111,071,967	75,051,000
Can'dian I'ns (temp.)		None	4,300,000		3,000,000

Bonds U. S. Posses'ns	433,000	None	None	None	None
Total	273 410 289	226.242.253	106.760.045	295,483,867	162.826.02

* Includes temporary securities issued by New York City—\$33,000,000 in 1935, \$56,672,200 in 1934, \$17,000,000 in 1933, \$55,350,000 in 1932 and \$30,000,000 in 1931.

The number of municipalities in the United States emitting permanent bonds and the number of separate issues made during January 1935 were 241 and 296, respectively. This contrasts with 130 and 154 in January 1934.

For comparative purposes, we add the following table showing the aggregate of long-term bonds put out in the United States for January for a series of years. It will be observed that the 1933 and 1931 January disposals were the smallest of any year since 1919.

1935 \$96,492,689	1920 \$83,529,89	1,1905	\$8,436,253
1934 55,071,204	1919 25,090,62	5 1904	23,843,801

PUBLIC WORKS ADMINISTRATION MUNICIPAL ALLOTMENTS CHANGED

During recent months many of the municipal subdivisions which had been awarded loans and grants by the Public Works Administration found that they could float their bonds more advantageously in the open market, or that the condition of their various sinking funds warranted their application for cancellations of the loan portion of their allotment, utilizing only the grant customarily given by the Federal Government. Recent press releases by the Administration have been laying greater stress on these changes than on announcements of new allotments, and we therefore give below summaries of the latest changes we have received.

The following announcements were made public by the

PWA this week:

Release No. 1213

The changing of three allotments from loans and grants to grants only was announced to-day by Public Works Administrator Harold L. Ickes. These changes released \$156,400 for reallotment. The changes were requested by recipients of allotments who have notified PWA that they have sold their bonds privately and will not need PWA loans. A total of \$57,695,216 released by several hundred such changes has been reallotted to expand the public works program.

The following allotments were changed to-day:
Albuquerque, N. M.—Docket 3528: Loan and grant of \$92,700 for improvements to the water system changed to a grant of \$15,000.

Scarsdale, N. Y.—Docket 4364: Loan and grant of \$15,000 for sewer construction changed to a grant of \$21,000.

Kannapolis, N. C.—Loan and grant of \$58,500 allotted to Cabarrus County for a new high school building in Kannapolis changed to a grant of \$32,800.

Kannapolis, N. C.—Loan and grant of \$58,500 allotted to Cabarrus County for a new high school building in Kannapolis changed to a grant of \$32,800.

**Release No. 1214*

Increases in 22 previously awarded non-Federal allotments were announced to-day by Public Works Administrator Harold L. Ickes. The increases total \$159,330.

Allotments for the following projects have been increased:

Guin, Ala.—Docket 569: Loan and grant of \$79,000 for water and sewer systems increased to \$83,000 because contracts awarded show that the projects will cost more than originally estimated.

Richford, Vt.—Docket 827: Loan and grant of \$80,000 for a dam and water supply line increased to \$87,000 because of increased costs.

Newark, N. J.—Docket 1146: Grant of \$27,100 for improving the municipal airport increased to \$40,100 to enable the city to do more work. The additional improvements provided for by the increase awarded to-day include installation of a field radio system, telephone extensions, electrical service alterations and repaving an old runway.

Newton, Mass.—Docket 1581: Grant of \$41,700 for an addition to the Park Street School, Newton Corner, increased to \$61,300 to cover increased costs and to include certain additional work not provided for in the original allotment.

Newton, Mass.—Docket 1586: Grant of \$69,600 for a new school building in Newtonville increased to \$33,450 to cover increased costs of construction and to include cost of furniture and equipment not provided for in the original allotment.

Cumberland, Md.—Docket 1609: Grant of \$78,000 for sewer construction increased to \$121,000 because of increased costs and additional work. Glenwood Springs, Colo.—Docket 1977: Grant of \$8,300 allotted to Garfield County for a hospital building in Glenwood Springs increased to \$1,550 to cover increased costs.

Lewis County, Wash.—Docket 2407: Grant of \$1,000 for relocating a bridge increased to \$1,550 to cover increased costs.

San Buenaventura. Calif.—Docket 2647: Grant of \$1,000 for a sehool building increased to \$1,550

Pine Bluff, Ark.—Docket 3479: Loan and grant of \$65,000 allotted to the State Agricultural, Mechanical and Normal School at Pine Bluff for a gymnasium and eight faculty residences increased to \$79,500 because of increased costs and additional work.

**Tallahatchie County, Miss.—Docket 3900: Loan and grant of \$16,000 allotted to Cascilla Consolidated School Distric, for a school building increased to \$17,250 because of increased costs.

**Jefferson, Mo.—Docket 4936: Grant of \$1,700 for sewer construction increased to \$2,450 to cover increased costs and additional work.

Pierce County, Wash.—Docket 5168: Grant of \$7,600 for road construction work increased to \$9,800 because of increased costs.

Brentwood, Mo.—Docket 5775: Loan and grant of \$43,400 for a city hall building increased to \$47,600 because of increased costs.

Cape Ezizabeth, Me.—Docket 5972: Grant of \$1,500 for a fire station increased to \$1,850 because of increased costs.

Greensboro, N. C.—Docket 6118: Grant of \$31,400 allotted to the University of North Carolina for a new building increased to \$39,600 because of increased costs.

Delaware County, Pa.—Docket 6847: Grant of \$14,600 allotted to the School District of the Township of Nether Providence for an addition to additional work.

Woodford County, Ill.—Docket 8302: Grant of \$3,600 allotted to School District No. 115 increased to \$4,180 because of increased costs.

Release No. 1215

Reductions in three non-Federal allotments were announced to-day by Public Works Administrator Harold L. Ickes. The reductions total \$88,000.

Allotments for the following projects were reduced:

Waukegan, Ill.—Docket 8144: Grant of \$274,000 allotted to the North Shore Sanitary District for construction of intercepting sewers and a sewage treatment plant at Waukegan, and an outfall sewer and sewage treatment plant at Waukegan, and an outfall sewer and sewage treatment plant at Waukegan, and an outfall sewer and sewage treatment plant at Waukegan, and an outfall sewer and sewage treatment plant at Waukegan and an outfa

plans.

Roseville, Calif.—Docket 8352: Grant of \$55,000 for waterworks improvements reduced to \$19,000 because the city has revised its plans.

Onaga, Kan.—Docket 8629: Loan and grant of \$24,000 for improving the water system reduced to \$18,000 because the city has revised its plans.

MUNICIPAL ALLOTMENTS RESCINDED

In line with the above changes, the Public Works Administration has been forced to rescind many loans and grants to municipal bodies for various causes, such as unsuccessful bond elections, cancellation of projects, &c. It has been our custom to publish these under their separate headings whenever reported, but for the sake of convenient reference we have gathered together the following latest reports issued from Washington.

The following are the latest announcements received:

rom Washington.

The following are the latest announcements received:

Release No. 1216

Revocation of 18 allotments totaling \$2,129,000 previously awarded to municipalities for local public improvements was announced to-day by Public Works Administrator Harold L. Ickes.

The following allotments were rescinded:
Youngstown, O.—Docket 1072: Loan and grant of \$106,000 for repairing the Milton Dam across the Mahoning River rescinded because the city has not compiled with the terms of the bond contract and grant agreement covering the allotment. The city contracted to issue general obligation bonds payable from unlimited taxation to secure the PWA loan. These bonds have not been issued nor has the necessary election required to authorize standard been called The city has offered bonds payable from the city in the city, it is the opinion of the PWA Finance Division that the bonds offered do not constitute the reasonable security required by the Public Works Act. The Finance Division has requested the city to furnish additional information, but it has not been furnished. Because of the failure of the city to fulfill the terms of its contract and its failure to co-operate with PWA by furnishing information which might justify a revision of the contract, the allotment is rescinded. Youngstown, O.—Docket 1694: Loan and grant of \$175,000 for storm sewer construction rescinded for the same reason as Docket No. 1072.

Butte, Mont.—Docket 1694: Loan and grant of \$30,000 allotted to School District No. 1 of Silver Bow County for a new high school building in Butte rescinded because the town has abandoned the project.

Max. N. Dak.—Docket 2184: Loan and grant of \$3,500 for a municipal building rescinded because the town has abandoned the project.

Max. N. Dak.—Docket 2184: Loan and grant of \$14,000 for improving the water system rescinded because of local court action which my provement rescinded at the request of the town.

Nederland, Tex.—Docket 2998: Loan and grant of \$14,000 for improving the water system rescinded at

watseka, III.—Docket 6083. Loan and grant of \$14,000 for an electric distribution system rescinded because the city has not executed and returned the loan and grant contract sent out on Nov. 8.

Ingleside, Neb.—Docket 8239: Grant of \$4,600 allotted to the Nebraska State Board of Control for a dormitory building at the State Hospital for the Insane at Ingleside rescinded at the request of the Board of Control.

NEWS ITEMS.

Alabama—Refunding of Bonded Debt Contemplated—According to recent news dispatches from Montgomery a bill has been approved by the Senate Committee on Finance and Taxation, which would authorize Contemplate Pith Contemplate to the Contemplate of the Contemplate Taxation, which would authorize Governor Bibb Graves to refund the bonded debt of the State, estimated at from \$60,000,000 to \$80,000,000, and is said to be scheduled for early action by the Senate. The bill as approved by the Committee is reported to direct the Governor to refund "all or any part" of the debt at an interest rate of not more than $4\frac{1}{2}\%$. Members of the Committee are said to have expressed the belief that the debt might be refunded at not more than 4% interest.

Astoria, Ore.—Complete Financial Reports Issued—It is announced by the Baker, Fordyce, Harpham Co. of Port-

OHIO and MICHIGAN

OHIO and MICHIGAN Cities—Towns—Counties—School Districts Bought—Sold—Quoted Gearhart & Lichtenstein 99 Wall Street, New York A. T. & T. Teletype-New York-1-852 Tel. WHitehall 4-3325

land, that a new report has just been compiled on the City and the Port of Astoria, thus bringing down to date a report which they issued in 1934. Complete statistics on financial condition are given, and attached to the report is a copy of an article appearing in a recent issue of the "Weekly Astorian," which includes articles of agreement between the City of Astoria Commission and the City of Astoria Bondholders' Committee.

Indiana—Gross Income and Intangibles Tax Laws Upheld. We quote in part as follows from the Indianapolis "News" of Jan. 29, regarding a decision of far-reaching interest handed down on that date by the State Supreme Court, in ruling on cases involving two State taxes:

Constitutionality of the gross income and intangibles tax laws was upheld Tuesday by the Indiana Supreme Court.

The decision upholding the gross income tax was in a case brought by J. Harry Miles and Frank L. Moore, Indianapolis realtors, in the Marion County Superior Court, Room 5. The suit was a friendly one by real estate groups intended to bring the constitutionality of the tax law to a full test.

The decision in the income tax case, in which the Court was unanimous, was written by Judge Michael Fansler, Logansport.

Judge James P. Hughes, Greencastle, wrote the prevailing opinion in the intangibles tax case decision. Judge Curtis W. Roll, Kokomo, and Judge Fansler dissented from this finding and will file dissenting opinions later. Judge Walter E. Treanor, Bloomington, while agreeing with the result reached in this case, did not agree with the method of arriving at it. He, too, will submit a separate opinion later.

Sales Tax Not Barred

Sales Tax Not Barred

Late Monday Philip Lutz Jr., Attorney-General, had made public an opinion to Clarence A. Jackson, Administrator of the State gross income tax division, holding that the State Constitution did not bar enactment of a sales tax as there was no specific bar against such tax. The power to tax, he said, lies in the Legislature. The opinion, it was disclosed, was dated Jan. 22, but had not been made public before.

"The act as a whole is clear and we see no reason why it is not workable," said the Court opinion in the gross income tax case. "The suggestion that it is so vague as to be impossible of interpretation and therefore unconstitutional does not appeal to us as worthy of serious consideration. There are numerous provisions for the operation and enforcement of the act. "It may develop that some of these need construction or interpretation, as is the case with a comprehensive tax law, but, as we see it, could not conceivably require that the entire act be held unconstitutional." Sales Tax Not Barred

Los Angeles, Calif.—Improvement Shown in Financial Condition—In contrast with many other large cities, the above city has steadily improved its financial position throughout the past five years, has met all debt service payments promptly without resort to short-term financing and without registering its warrants, and at the same time has set a unique record in tax reduction. The city also has reduced its cost of operation from \$33,361,074 in the year 1928-29 to \$18,873,339 in the year 1934-35, or a decrease of \$14,487,735. These facts are revealed in an analysis by R. H. Moulton & Co., municipal bond dealers in the preparation of which they are said to have been assisted by the municipal authorities.

Assessed valuation of taxable property in the city has been reduced approximately \$752,000,000, or 42% from that of the peak year, 1929-30. Tax collections in the city over the past five years have never fallen below 87.72% (1932-33), and for the year 1933-34 have recovered to 89.66%, as compared with 95.42% in 1929-30. A similar improvement is indicated in the survey for the County of Los Angeles.

Municipal Bonds—Outlook During 1935—A booklet has been issued recently by Gertler & Co., municipal bond dealers of New York, giving the views of Donald D. Mackey, economist of that company, regarding the prospect for municipal credit during this year. In this comprehensive survey of conditions calculated to affect the municipal bond market in 1935, Mr. Mackey lays proper stress upon the fact that continuance of low money rates will do much for municipal credit. He cites several refunding plans that have been adopted under the encouragement of a bond market made relatively stable by low money rates, and that with the "prevalence of cheap money, municipalities which were forced to incur unwieldy floating debts will be able to fund such debts on terms that will not be perennially operous." such debts on terms that will not be perennially onerous.

Nebraska—Proposal to Broaden Mortgage Moratorium Before Legislature—On Jan. 31 the legislators took under consideration the problem of extending and broadening the mortgage moratorium. It is stated in the Omaha "Bee" of Feb. 1 that the House was to act on a proposal to broaden the moratorium covering notes and contracts on which real estate mortgages are based. Representative Cone is said to have argued for this provision on the ground that the moratorium is evaded through suits on notes instead of foreclosure actions. Other legislators are reported to be seeking the elimination of the Cone plan for fear that the last shreds of constitutional authority by which the moratorium act is justified might be torn away and the moratorium invalidated.

New York State—Governor Signs Mortgage Aid Bill—Governor Herbert H. Lehman signed on Feb. 5 the Joseph bill creating a mortgage commission of three members, according to Albany advices. This commission will be

vested with broad powers and will be authorized to take over all certified guaranteed mortgage issues from the Superintendents of Banks and Insurance and seek to rehabilitate the property underlying the investments. The bill, for which the Governor had fought strenously for the last year, was passed by the Legislature on Jan. 30—V. 140, p. 827.

It is said that the Governor does not expect to appoint the commission for some days. He is understood to have a number of men under consideration, but has not yet weighed his decision on the job which involves a convex decision. his decision on the job, which involves a great deal of responsibility. According to report, the commission would be empowered to borrow money from Federal and other agencies and loan it on the certificates.

Legislature Passes New York City Bills Easing "Bankers' Pact"—The Assembly passed and sent to Governor Lehman for his signature on Feb. 5 the Dunnigan bill modifying the so-called New York City bankers' agreement, it is said in a United Press dispatch from the Capital on the 5th. The bill as approved required the city to set aside \$16,000,000 reserve against delinquent taxes in this year's budget. This is less than the \$25,000,000 required under the law as amended last summer but more than the \$11,000,000 which Mayor La Guardia provided in the budget in anticipation of

The Assembly is said to have also approved another Dunnigan bill authorizing New York City to set up the additional \$5,000,000 in its budget as a reserve against tax delinquencies.

Mastick Report Cites Need for Reorganization—Large-scale revision of the State Constitution and laws, involving various constitutional amendments and 55 proposals which can be enacted by the Legislature, was recommended to the Legislature on Feb. 6 to permit the reorganization of local government for the purpose of economy, in a report by the New York State Commission for the Revision of the Tax Laws, headed by former State Senator Seabury C. Mastick.

The Commission had been acting under instructions to explore the possibilities of local reform in connection with the constitutional amendment on reform of county government. which will be up before the voters at the next genera! election. The Commission is said to have found that, after the economies of recent years and in consideration of the increased responsibilities of government, the only prospect of preventing an increase of the tax load is in reorganization.

Temporary Emergency Relief Bill Advanced—The Wicks bill, continuing for another year the Temporary Emergency Relief Administration, was passed on Feb. 6 by the Senate under pressure of an emergency message from Governor Lehman, and forwarded to the Assembly, according to news dispatches from Albany. The bill increases the membership of the administration from five to six, with a new provision that at least one shall be a member of the State Board of Social Welfare. Another added provision requires that the Commissioner of Social Welfare shall attend the meetings of the administration and participate in its discussions and deliberations, without the right of voting.

Budget and Tax Bills Reported Out-While the Republican members of the Legislature protested in vain against the steamroller tactics employed by the Democrats, Governor Lehman's entire fiscal program, including the \$294,000,000 budget and the emergency tax bills, was reported out by committees of the Senate and Assembly on Feb. 6, and it is said that they will be ready for adoption very shortly.

Bill to Safeguard New York City Sinking Funds Proposed— Under the provisions of a bill introduced in the Legislature on Feb. 5 by Senator Joseph Clark Baldwin 3d, and Assemblyman Abbott Low Moffat, Republicans of New York, the city would be compelled to purchase its own securities at market prices "so as to safeguard the sinking fund of the city from paper manipulation." It is felt by Senator Baldwin that in the past the city has failed to create and maintain a market for its own securities, thus resulting in the loss of much money.

-Governor Moodie Ruled Ineligible by State North Dakota-Supreme Court—The State Supreme Court on Feb. 2 ruled Governor Thomas H. Moodie, Democrat, who took office on Jan. 7, is not qualified to hold that office. The ruling came in proceedings instituted by Attorney-General P. O. Sathre, who questioned Governor Moodie's right to hold office on the ground that he had not lived in the State five consecutive years before election, as required by the State Constitution. An Associated Press dispatch from Bismarck on Feb. 2 reported in part as follows on the ouster proceedings:

The Governor admitted he had voted in Minnesota in 1930, while temporarily employed on a newspaper there, but contended it was not his intention to give up his North Dakota citizenship.

Mr. Moodie is the second Governor to be removed by the Supreme Court in a seven-month period. William Langer was removed last June after his conviction of conspiracy to solicit political contributions from workers paid with Federal relief funds.

Lieutenant Governor Walter Welford, affiliated with the Nonpartisan League, apparently will become Chief Executive, the State's fourth in seven months. Ole Olson, then Lieutenant Governor, succeeded Mr. Langer.

Mr. Moodie, second Democrat to be elected Governor in the history of the normally Republican State, quickly accepted the Court's decision and called on citizens to co-operate with Mr. Welford.

Oklahoma—Governor Signs Cigarette Tax Bill—It is reported in an Associated Press dispatch from Oklahoma City on Feb. 5 that Governor Marland on that day had signed a House Administration bill providing a tax of 3 cents a package of 20 cigarettes. It is said that collections will begin on March 7.

Port of New York Authority-Comparative Study of Earnings Prepared—Consolidated statement of the Port of New York Authority bridges and tunnel shows an increase of \$512,098, or 5.08% in gross income for last year over 1933 and a resulting increase of \$421,525, or 5.24% in the amount available for interest and reserves, according to a comparative study of earnings for the last three years by Van Alstyne, Noel & Co., Inc. Consolidated gross income for 1934 amounted to \$10,581,115, as compared with \$10,069,017 in 1933 and \$10,203,862 in 1932, while balance for interest and reserves of \$8,467,441 compared with \$8,045,916 in 1933 and \$8,066,544 in 1932. Operating expenses for 1934 showed a slight increase over 1933 but the net for sinking and reserve funds last year rose \$163,275. Interest was earned 1.61

In commenting on the results of the year 1934, Van Alstyne, Noel & Co., Inc., says, "The increase in gross income of the bridges and tunnel during 1934 over 1933, compared with a slight decrease in 1933 over 1932, would appear to indicate that the bottom of the traffic depression has been reached and that the Trans-Hudson vehicular movement has resumed its upward trend which was interrupted for the first time in 1933."

New Jersey House Authorizes Inquiry—The New York "Herald Tribune" of Feb. 6 carried a Trenton dispatch to the effect that on the previous day the New Jersey Assembly authorized an investigation into the affairs of the above Authority by a committee of five members and adopted a resolution requesting the co-operation of the New York Assembly in the proposed inquiry. It is said that the committee will be named shortly. The Attorney General's office will be asked to furnish legal assistance as no money is to be spent in the investigation.

The resolution is said to have been adopted by a count of 29 to 20, with the Democratic minority opposing the inquiry on the ground that it was a fishing expedition, unjustified by any charges of irregularities and calculated to impair favorable prices for the forthcoming \$52,000,000 bond issue-(See item on subsequent page).

Utah—Child Labor Amendment Signed—22d State to Ratify—Action by the House of Representatives on Jan. 31, giving concurrence to approval by the Senate, made Utah the 22d State to approve the child labor amendment to the Federal Constitution, according to press dispatches of that date. To become a legally ratified amendment, the proposal still needs approval by 14 more States.

It is also stated that the State Affairs Committee of the

Kansas House, has recommended against ratification.

Virginia—Financial Statistics on Counties Compiled—The Richmond Corp., of Richmond, recently compiled certain financial information relative to the counties in this State, of which there are 100. The cities in Virginia are separate political subdivisions from the counties in which they are located and the property in the cities is not included in the assessed values of such counties nor is it subject to county taxation. All taxes on real estate and on tangible personal property are segregated to the cities and counties for taxation and are not subject to State taxation. It is stated that the basis of assessment varies with the different counties but probably would average around 50% of real values.

Among the financial statistics presented in this compilation, are: Assessed values subject to local taxation in 1933; long term indebtedness as of June 30 1934; the tax levy of 1933, and the delinquency as of June 16 1934.

ALBANY, Albany County, N. Y.—ADDITIONAL INFORMATION—The provisions of the bill now pending in the State Legislature empowering the city to refund \$1,000,000 of 1935 principal maturities do not apply to bonds issued for revenue deficiency and welfare purposes. Surplus revenues that may accrue in 1935 as a result of the refinancing would be used to reduce the tax levy for operating purposes in 1936.

AKRON, Summit County, Ohio—BOND OFFERING—Ross F. Walker, Director of Finance, will receive sealed bids until 12 m. on Feb. 25 for the purchase of \$2.249.432.77 4½% refunding bonds, divided as follows: \$920,450.89 bonds. One bond for \$450.89, others for \$1,000. Due Oct. 1 as follows: \$92,450.89 in 1939 and \$92,000 from 1940 to 1945 incl.

592,485.88 bonds. One bond for \$485.88, others for \$1,000. Due Oct. 1 as follows: \$118,485.88, 1939; \$118,000 in 1940 and 1941, and \$119,000 in 1942 and 1943.

584,360.00 bonds. One bond for \$360, others for \$1,000. Due Oct. 1 as follows: \$116,360 in 1939 and \$117,000 from 1940 to 1943 incl.

152,136.00 bonds. One bond for \$136, others for \$1,000. Due Oct. 1 a follows: \$30,136, 1939; \$30,000, 1940 and 1941, and \$31,000 in 1942 and 1943.

Each issue is dated Oct. 1 1934. Bonds are callable in whole or in part on Oct. 1 1939 or on any interest payment date thereafter. Principal and interest (A. & O.) payable at the office of the Director of Finance. Coupon bonds, registerable as to principal only or may be exchanged for registered bonds. Bids for the bonds to bear interest at a rate other than 4½%, expressed in a multiple of ¼ of 1%, will also be considered. A certified check for 2% of the bonds bid for, payable to the order of the Director of Finance. Coupon bonds; legal opinion to be furnished by the successful bidder.

ALBANY COUNTY (P. O. Albany), N. Y.—PROPOSED REFUNDING—A bill authorizing the county to refund \$700,000 bonds materials.

TALBURTIS, Lehigh County, Pa.—BOND SALE—The \$19,950 water bonds offered on Feb. 4—V. 140, p. 500—were awarded as 4s to Singer, Deane & Scribner of Pittsburgh at a price of 102.25, a basis of about 3.73%. Dated Dec. 30 1934. One bond for \$450, others for \$500. Due two bonds annually over a period of 20 years.

passed by the Legislature on Jan. 30, it is said—V. 140, p. 830.

CLIFTON, Passaic County, N. J.—BOND SALE—At the offering on Feb. 5 of \$2,715,000 coupon or registered water bonds—V. 140, p. 667—award was made of \$2,705,000 worth to a syndicate headed by Blyth. & Co., Inc., of New York, as 434s, at a price of \$2,715,820, equal to 100.40, a basis of about 4.72%. The group also included Bancameria-Blair Corp., Stone & Webster & Blodget, Inc., E. H. Rollins & Sons, Inc., B. J. Van Ingen & Co., Kean, Taylor & Co., Graham, Parsons & Co., George B. Gibbons & Co., Inc., Bacon, Stevenson & Co., Roosevelt & Weigold, Inc., J. S. Rippel & Co., Newark; A. C. Allyn & Co., Inc., Edward Lowber Stokes & Co., Minsch, Monell & Co., Inc., H. L. Allen & Co., MacBride, Miller & Co., and Adams & Mueller, both of Newark, and Van Deventer, Spear & Co., Inc., all, unless otherwise noted, of New York City. The bonds are dated Feb. 1 1935 and mature Feb. 1 as follows: \$20,000, 1936 to 1940; \$25,000, 1952 to 1954; \$45,000, 1955 and 1956; \$50,000, 1957 and 1958; \$55,000, 1959 and 1960; \$60,000, 1961 and 1962; \$65,000, 1963 and 1964; \$70,000, 1965; \$76,000, 1966 and 1967; \$80,000, 1968; \$85,000, 1969; \$90,000, 1970; \$95,000, 1971 and 1972; \$100,000, 1973; \$105,000, 1974; \$110,000, 1975; \$115,000, 1976; \$120,000, 1977; \$130,000, 1978; \$135,000 in 1979 and \$130,000 in 1980.

PUBLIC OFFERING MADE—Members of the successful group made with the section of the

In 1979 and \$130,000 in 1980.

PUBLIC OFFERING MADE—Members of the successful group made public re-offering of the bonds on Feb. 7 at prices to yield, according to maturities, as follows: 1936, 3%; 1937, 3.50%; 1938, 3.75%; 1939, 4%; 1940, 4.10%; 1941 to 1944, 4.20%; 1945 to 1949, 4.25%; 1950 to 1954, 4.30%; 1955 to 1964, 4.35%, and from 1965 to 1980, incl., 4.40%. In connection with the issue, the bankers state as follows: "These bonds constitute, in the opinion of counsel, valid and legally binding obligations of the city of Clifton, N. J., payable as to both principal and interest from ad valorem taxes levied on all of the taxable property therein without limitation as to rate or amount. In addition, the payment of both principal and interest on these bonds has been assumed, in the opinion of counsel, by the Passaic Valley Water Commission without in any way relieving the city of its obligation. Under the Act creating the Commission water rates must be maintained so that earnings will be adequate to cover all operating expenses and debt service, and this requirement is made a part of the contract with the bondholders."

CLYDE PARK, Park County, Mont.—BONDS NOT SOLD—The

CLYDE PARK, Park County, Mont.—BONDS NOT SOLD—The \$11,000 issue of 6% semi-ann. refunding bonds that was offered at public auction on Jan. 21—V. 140, p. 501—was not sold, according to the Town Clerk. Dated Jan. 1 1935. Due on Jan. 1 1950, optional on Jan. 1 1936.

COCONINO COUNTY SCHOOL DISTRICT NO. 1 (P. O. Flagstaff), Ariz.—BOND OFFERING—Sealed bids will be received by Geo. A. Fleming, Clerk of the Board of Supervisors, until 2 p. m. on Feb. 23, for the purchase of a \$35,000 issue of 4% school building bonds. Denom. \$1,000. Dated Oct. 1 1934. Due on Oct. 1 as follows: \$2,000, 1935 to 1941, and \$3,000. 1942 to 1948, all incl. Prin. and int. (A. & O.) payable in lawful money at the County Treasurer's office. These are coupon bonds registerable, at the option of the holder, as to principal only. No bid will be accepted for less than par and accrued interest. These bonds are part of a total issue of \$53,000, approved by the voters at an election on Oct. 20 1934.

COLORADO SPRINGS. El Paso County. Colo.—BOND ELECTION

COLORADO SPRINGS, El Paso County, Colo.—BOND ELECTION—It is stated by the City Clerk that the issuance of \$200,000 in sewage disposal plant bonds, mentioned in V. 140, p. 502, will probably be submitted to the voters on April 2.

mitted to the voters on April 2.

CONNECTICUT (State of)—\$12,000,000 HIGHWAY BONDS PROPOSED—The Hartford "Courant" of Jan. 31 had the following to say:

"Speedy construction of the Merritt Highway to relieve the congested traffic on the Boston Post Road and to provide unemployment relief is proposed in a bill to be introduced in the Senate to-day by Republican Leader J. Kenneth Bradley. The bill, in addition to authorizing borrowing money from the Federal Government, if necessary, provides for a State bond issue of \$12,000,000 for the construction, and the allocation from the highway fund of the State each year of \$750,000 or 5%, whichever is larger, to pay interest and retire the bonds. By this means, Senator Bradley, estimates, the entire cost of the road would be paid in less than 25 years."

CONNECTICUT (State of)—PROPOSED BOND ISSUE—A bill to issue \$1,000,000 $4\,\frac{1}{4}\,\%$ bonds to finance the acquisition of land and water rights for public hunting and fishing grounds is reported to have been introduced in the General Assembly.

CONSHOHOCKEN, Montgomery County, Pa.—BOND SALE—The \$54,000 coupon bonds offered on Jan. 30—V. 140, p. 502—were awarded as 2½s to M. M. Freeman & Co. of Philadelphia at par plus a premium of \$55.55, equal to 100.102, a basis of about 2.73%. Dated Feb. 1 1935 and due Feb. 1 as follows: \$6,000 from 1936 to 1939 incl., and \$5,000 from 1940 to 1945 inclusive.

cook county (P. O. Chicago), III.—DEFAULTED INTEREST PAYMENT—Robert M. Sweitzer, County Treasurer, has announced that funds are available for payment of past-due interest on the following described bonds and that the coupons will be paid upon presentation through any bank or to the County Treasurer:

Series N—New County Pavilions, &c. bonds interest due Jan. 1 and July 1 1934.

Series P—Road bonds interest due April 1 and Oct. 1 1934.

Series Q—Oak Forest Infirmary and County Agent's Building bonds interest due May 1 and Nov. 1 1934.

Series R—County, State and road bonds interest due April 1 and Oct. 1 1934.

Series S—New Detention Home bonds interest due April 1 and Oct. 1 1934.

Series T—New Criminal Court House and Jail bonds interest due June 1 and Dec. 1 1934.

Series U—Addition to County Hospital bonds interest due June 1 and Dec. 1 1934.

Series Z—Revolving Fund bonds interest due Dec. 1 1935.

Series C—Poor Relief bonds of 1932 interest due Dec. 1 1934.

Series DD—Poor Relief bonds of 1933 interest due Feb. 1 and Aug. 1 1934 and Feb. 1 1935.

COOK COUNTY (P. O. Chicago), III.—TAX LEVY AT SEVEN-YEAR LOW—Michael J. Flynn, County Clerk, stated on Jan. 27 that the 1933 tax bill total was \$178,841,148, the lowest of any total since 1926. The levy in 1932 was \$217,863,487, while the peak load was in 1930, when the aggregate levies amounted to \$290,284,505, it is said. Collections of 1933 taxes to date amount to \$69,679,596, it is said, of which realty owners paid \$47,695,184 and personal property holders \$21,984,412. Collections to date of previous levies are reported as follows: P.C. of Levy

Amount Collected \$194,699,815 211,947,771 213,262,849 Collected 70.31% 61.30%

COOK SCHOOL DISTRICT (P. O. Cook), Johnson County, Neb.—BOND DETAILS—The report that an election will be held on Feb. 11 to vote on the issuance of \$12,500 in school bonds—V. 140, p. 830—is confirmed by the Secretary of the Board of Education, who states that if the bonds are approved they will mature on May 1 1947, callable not more than \$1,000 in any one of the first three years. Balance optional on and after the fourth interest paying date. Interest rate not to exceed 4%.

COOPER, Delta County, Tex.—BONDS VOTED—At the election on Jan. 31—V. 140, p. 668—the voters approved the issuance of the \$104,900 in 6% electric light plant bonds by a count of 235 to 161. Due serially in 15 years, optional before maturity.

in 15 years, optional before maturity.

CORINTH UNION FREE SCHOOL DISTRICT NO. 7 (P. O. Corinth), Saratoga County, N. Y.—BOND OFFERING—Ralph F. Pyle, District Clerk, will receive sealed bids until 1 p. m. on Feb. 13 for the purchase of \$225,000 not to exceed 6% interest coupon or registered school bonds. Dated March 1 1935. Denom. \$1,000. Due March 1 as follows: \$4,000, 1936 to 1939 incl.; \$5,000, 1940 to 1944 incl.; \$6,000, 1945 to 1948 incl.; \$7,000, 1949 to 1952 incl.; \$8,000, 1953 to 1955 incl.; \$9,000, 1956 to 1958 incl.; \$10,000, 1959 and 1960; \$12,000, 1961 to 1964 incl., and \$13,000 in 1965. Bidder to name a single interest rate for all of the bonds, expressed in a multiple of ½ or 1-10th of 1%. Principal and interest (M. & S.) payable in lawful money of the United States at the Marine Midland Trust Co., New York City. A certified check for \$4,500, payable to the order of Harley B. Andrew, District Treasurer, must accompany each proposal. Bonds are direct obligations of the district, payable

from unlimited taxes. Legal opinion of Clay, Dillon & Vandewater of New York will be furnished successful bidder.

CORPUS CHRISTI, Nucces County, Tex.—BOND REFUNDING PLAN—A dispatch from Corpus Christi to the "Wall Street Journal" of Feb. 5 reported as follows: "The city council has entered a contract with the bondholders committee of the city for the refunding of all its outstanding tax-supported bonds, exclusive of seawall and breakwater construction bonds. Total amount of bonded indebtedness now is \$3,166,000 in principal with \$59,000 in interest payments past due. The refunding bonds which will take up these obligations, will mature from 1935 to 1969. The contract does not become effective until 80% of all bonds have been collected by the bondholders committee."

CRAIG, Moffat County, Colo.—PROPOSED BOND REFUNDING—It is stated by the Town Recorder that the Board of Trustees is contemplating the refunding of a 1925 issue of \$35,000 5% bonds, due on April 1 1940, and optional on April 1 1935. (A tentative report on this proposal was given in V. 140, p. 830.)

It is also stated that the Board is considering the possibility of erecting a water filtration plant system, which would involve the issuance of about \$7,000 or \$8,000 in bonds.

CRANFORD TOWNSHIP (P. O. Cranford), Union County, N. J.—BOND OFFERING—Alvan R. Denmann, Township Clerk, will receive sealed bids until 8.30 p. m. on Feb. 19 for the purchase of \$125,000 4\%, 4\% \% outpoon or registered trunk sewer bonds of 1935. Dated March 1 1935. Denom. \$1,000. Due \$5,000 on March 1 from 1937 to 1961 incl. Principal and interest (M. & S.) payable in lawful money of the United States at the Cranford Trust Co., Cranford, or, at holders' option, at the Chase National Bank, New York. A certified check for 2\% of the bonds bid for, payable to the order of the township, must accompany each proposal. Legal opinion of Hawkins, Delafield & Longfellow of New York will be furnished the successful bidder.

CROCKETT COUNTY (P. O. Alamo), Tenn.—BONDS AUTHOR-IZED—It is said that Governor McAllister has signed a bill validating \$35,000 of funding bonds.

CUMBERLAND, Allegany County, Md.—VOTE ON LIGHT PLANT—City Solicitor Lewis M. Wilson has been instructed to draw up a bill providing for an election on a proposal to construct a municipal electric light plant. Vote would be taken on July 1.

CURRY COUNTY (P. O. Gold Beach), Ore.—BOND SALE—The \$10,000 issue of 5½% semi-ann. refunding bonds offered for sale on Feb. 2—V. 140, p. 830—was purchased by Conrad, Bruce & Co. of Portland. Dated Jan. 15 1935. Due \$1,000 from Jan. 15 1937 to 1946, incl. No other bids were received.

DALLAS, Dallas County, Texas—PROPOSED BOND ISSUANCE—It is stated by the City Auditor that it is intended to issue some of the \$800,000 city-county hospital bonds that are now on hand but the amount to be issued as well as the date of sale has not been definitely decided.

DAVENPORT, Scott County, Iowa—BOND SALE—It is reported that a \$39,236.68 issue of 5% semi-ann. special assessment, street improvement bonds was purchased on Jan. 26 by the McCarthy Improvement Co. of Davenport. Due in from 1 to 9 years.

DAVIDSON COUNTY (P. O. Nashville) Tenn.—BOND SALE—The \$2,000,000 issue of public building and court house bonds offered for sale on Feb. 8—V. 140, p. 502—was awarded to a syndicate headed by the Chemical Bank & Trust Co., Blyth & Co., and Eldredge & Co., all of New York, paying a price of 100.27 for 3s, a basis of about 2.98%. Dated Jan. 1 1935. Due from Jan. 1 1936 to 1962.

The second highest bid for the bonds was an offer of 102.43 for 3¼% bonds, tendered by a syndicate headed by the Harris Trust & Savings Bank the Chase National Bank, and the Boatmen's National Bank of St. Louis, Bonds outstanding Jan. 1 1919.

DAVISON COUNTY (P. O. Mitchell), S. Dak.—BOND SALE—The two issues of coupon bonds aggregating \$175,000, offered for sale on Feb. 5—V. 140, p. 668—are said to have been purchased by the Public Works Administration, as 4s at par. The bonds are divided as follows: \$150,000 court house bonds. Dated Jan. 1 1934. Due from 1937 to 1953 incl. 25,000 poor farm bonds. Dated Nov. 1 1933. Due from 1937 to 1953.

DECATUR COUNTY (P. O. Leon), Iowa—BOND SALE DETAILS—The \$20,916.25 funding bonds that were purchased by Jackley & Co. of Des Moines—V. 140, p. 830—were awarded as 4½s, at par. Due on Nov. 1 as follows: \$4,916.25 in 1942, and \$4,000, 1943 to 1946.

DEMAREST, Bergen County, N. J.—BONDS NOT SOLD—No bids were submitted for the \$249,000 not to exceed 5% interest coupon or registered bonds offered on Feb. 6—V. 140, p. 668. The offering included \$163,000 public impt. refunding bonds, due from 1935 to 1949 incl., and \$86,000 funding bonds, maturing from 1935 to 1949 incl.

DENTON COUNTY (P. O. Denton), Tex.—BOND AUTHORIZA-TION RESCINDED—It is stated by the County Judge that the order to issue \$65,000 in 5% refunding bonds—V. 140, p. 668—was rescinded by action of the County Court on Jan. 26.

DENVER (City and County), Colo.—VOTE ON MUNICIPAL POWER PLANT SOUGHT—The following report is taken from a Denver dispatch to the New York "Journal of Commerce" of Feb. 4:

"Climaxing several years of attempts to get lower rates on gas and electric light and power from the Public Service Co. of Colorado, a movement has been started here to get the approval of voters for the establishment of a municipally-owned plant. If enough signatures are obtained to the petition now in circulation, which appears likely, the question will be placed on the ballot at the municipal election next May.

"Similar movements are reported in progress in other Colorado municipalities, although in most cases when the voters have been asked to approve the actual establishment of plants, they have voted them down, despite the example of Colorado Springs, which has owned its own utilities and successfully operated them for several years."

DENVER (City and County), Colo.—BOND SALE PROPOSAL—It is stated by Wm. F. McGlone, Manager of Revenue, that no definite date has been fixed for the sale of the remaining \$177,000 of Cherry Creek flood control bonds, out of the total authorized issue of \$295,000. It is considered possible that these bonds will be offered about March 1.

DICKSON, Dickson County, Tenn.—NOTES AUTHORIZED—It is reported that Governor McAllister has signed a bill permitting the issuance of \$50,000 in notes.

DOVER, Kent County, Del.—PLANS REFUNDING ISSUE—A bill empowering the city to refund \$450,000 of outstanding bonds has been introduced in the State Legislature.

DULUTH, St. Louis County, Minn.—PROPOSED BOND ISSUANCE—It is stated by the City Auditor that a curative Act is being asked of the Legislature, legalizing an authorized issue of \$275,000 in permanent impt., revolving fund refunding boads, dated Oct. 1 1934, and if secured the bonds will probably be sold to local investors.

He states that the city will probably issue refunding bonds for a water and light plant issue due on March 1, and also refund \$100,000 of permanent improvement bonds due on July 1.

EAST ORANGE, Essex County, N. J.—DEBT REDUCTION—City Auditor Gilbert reported to Council on Jan. 28 that the gross debt of the city at the close of 1934 was \$13,542,555.27, compared with \$15,686,065.18 in the preceding year, and that the net debt was \$4,669.985.88 compared with \$5,939,599.77. Proportion of net debt to average assessed valuation at the close of 1934 was 3.84%, as against 4.84% in the previous year. Mr. Gilbert declared the reduction in indebtedness had come about through the payment of large obligations owed the county and the schools.

EDEN TOWNSHIP RURAL SCHOOL DISTRICT, Seneca County, Ohio—INJUNCTION AGAINST BOND ISSUE VACATED—Judge Ralph Sugrue in Common Pleas Court on Jan. 30 vacated the temporary injunction granted last November restraining the district from proceeding with the sale of \$61,000 school bonds voted at the Nov. 6 general election.—V. 139, p. 3835. Ruling that legal requirements had been compiled with, Judge Sugrue said, in his opinion, that he was unable to find any just, lawful reason for making the temporary order permanent, according to report.

EDWARDSVILLE, Madison County, III.— $PROPOSED\ BOND\ ISSUE$ —A proposal to issue \$300,000 5% water plant purchase bonds was scheduled for consideration of the City Council on Feb. 5.

ELBERT COUNTY SCHOOL DISTRICT NO. 43 (P. O. Simla) Colo.—BOND SALE—A \$9,000 issue of 500 refunding bonds has been purchased recently by Oswald F. Benwell of Denver. Denom. \$500. Dated Jan. 1 1935. Due on Jan. 1 as follows: \$500, 1936 to 1941, and \$1,000, 1942 to 1947, all incl. Prin. and int. (J. & J.) payable at the County Treasurer's office in Kiowa. Legality approved by Myles P. Tallmadge of Denver.

ELKIN, Surry County, N. C.—PROPOSED BOND ISSUANCE—A bill is said to have been introduced in the Legislature recently, authorizing the city to issue \$528,250 in refunding bonds for the purpose of refunding like amount of the principal of existing bonded indebtedness. It is reported that the bill also provides for the issuance of \$40,420.83 in funding bonds to be used for the payment of interest on the said outstanding debt.

ENID, Gartield County, Okla.—BONDS DEFEATED—At the election held on Jan. 29—V. 140, p. 502—the voters rejected the proposal to issue \$124,000 in water works system bonds.

EPHRATA SCHOOL DISTRICT, Lancaster County, Pa.—BOND CALL—George L. Nies, District Secretary, announces the call for payment on April 1 1935 at the Farmers National Bank, Ephrata, of \$28,000 4½% school bonds, Nos. 1 to 56, issued in 1927. Coupons due April 1 are to be paid through the usual course of collection.

FAYETTEVILLE, Fayette County, Tenn.—BOND SALE—A \$42,000 issue of funding bonds is reported to have been purchased recently by the Equitable Securities Corp. of Nashville as 4½s, paying a premium of \$361, equal to 100,859.

It is stated that a bill is now under consideration by the Legislature, for the validation of these bonds.

FLINT SCHOOL DISTRICT, Genesee County, Mich.—\$60,000 BORROWED FROM BANKS—Ann Macpherson of the Board of Education informs us that the district borrowed \$60,000 on 5% notes, due in 30 days, from the Genesee County Savings Bank and the Citizens Commercial & Savings Bank. The loan was first reported in amount of \$100,000.—V. 140, p. 669.

FOREST CITY INDEPENDENT SCHOOL DISTRICT (P. O. Forest City), Winnebago County, Iowa—BOND ELECTION ABANDONED—It is stated by the Secretary of the Board of School Directors that the proposal to vote on the issuance of \$20,000 in school and auditorium bonds—V. 139, p. 4153—has been dropped.

FORT SMITH, Sebastian County, Ark.—COURT DECISION CLEARS PWA BOND CONTRACT—In a decision handed down on Feb. 4, the State Supreme Court is reported to have sustained the rulings of Chancellor C. M. Wofford, thus clearing the way for the execution of a contract drawn between the city and the Public Works Administration, for the purchase of \$1,650,000 in revenue bonds, the proceeds of which will be used to construct a water supply system—V. 140, p. 503. It had been contended by the plaintiff, a former Mayor of the city, that the city officials were overstepping their discretionary powers by making an unnecessary expenditure of public funds.

stepping their discretionary powers by making an unnecessary expenditure of public funds.

FORT WORTH, Tarrant County, Tex.—BOND REFUNDING CONTRACT—In connection with the reports that several offers had been received to purchase \$1,700,000 of refunding bonds from the city—V. 140, p. 831—it is now reported that the City Council has authorized the Mayor to sign a contract with Donald O'Neil & Co. of Dallas and Frazier Moss & Co. of Fort Worth for a refunding program. The proposal is said to include the refunding of \$1,737,000 of 5% bonds that fall due in 1941, 1949 and 1951, by the issuance and sale to the two companies of \$264,000 4% bonds maturing from 1935 to 1942 and \$1,473,000 4½% serial bonds maturing from 1936 to 1956. The program is said to provide for the refunding of all except \$495,000 of the city's \$3,523,000 in outstanding term bonds. The City Manager is reported to have stated that the remainder will be refunded on the Sept. I optional date.

In connection with the above report we give the following news dispatch from Fort Worth to the "Wall Street Journal" of Feb. 6:

"The City Council has authorized Mayor Van Zandt Jarvis to sign a contract with Donald O'Neil & Co. of Dallas and Frazier Moss & Co. of Fort Worth for a refunding program which will reorganize completely the debt structure of the city. Effect of the transactions involved in the refunding proposal will be to reduce the city's bonded indebtedness by \$1,-291,000. This will be accomplished by canceling bond issues of that amount which become callable April 1.

"The proposal includes the refunding and sale to the two companies of \$1,737,000 of 5% city term bonds, maturing in 1941, 1949 and 1951, by the issuance of \$264,000 in 4% serial bonds maturing from 1935 to 1942, and \$1,473,000 in 4½% serial bonds maturing from 1935 to 1956. The program provides for refunding all except \$495,000 of the city's \$3,523,000 in outstanding term bonds. The remainder will be refunded, City Manager George Fairtrace said, when they become callable Sept. 1, le

FOWLER, Otero County, Colo.—BOND SALE—Two issues of 4½% bonds, aggregating \$16,500, were purchased recently at par by the J. K. Mullen Investment Co. of Denver. The issues are divided as follows: \$10,000 city hall refunding bonds. Due \$1,000 from 1939 to 1948. 6,500 water extension bonds. Due in 15 years, optional in 10 years.

FREDERICA, Kent County, Del.—PROPOSED BOND ISSUE—A bill authorizing the issuance of \$15,000 water plant bonds has been introduced in the State Legislature.

FREMONT, Dodge County, Neb.— $BOND\ SALE$ —A \$90,000 issue of refunding bonds is reported to have been purchased by the United States National Bank of Omaha as 2%s and 3s, paying a premium of \$105, equal 100.

FULTON AND KNOX COUNTIES COMMUNITY HIGH SCHOOL DISTRICT NO. 218 (P. O. London Mills) Ill.—BOND SALE—R. R. Nichols, Secretary of the Board of Education, states that Bartlett, Knight & Co. of Chicago purchased an issue of \$38,000 4% school building bonds at a price of 103.61.

FULTON, Oswego County, N. Y.—PROPOSED REFUNDING—Bills have been introduced in both houses of the State Legislature to permit the city to refund \$60,000 bonds maturing in 1935 and to borrow money temporarily in anticipation of the refinancing.

GASTONIA, Gaston County, N. C.—NOTE SALE DETAILS—The \$45,000 revenue anticipation notes that were purchased by the National Bank of Commerce and the Citizens National Bank, both of Gastonia. at 6%—V. 140, p. 831—are said to be dated Jan. 25 1935, and to mature on April 25 1935.

GRANT TOWNSHIP CONSOLIDATED SCHOOL DISTRICT (P. O. Ledyard), Kossuth County, Iowa—BOND ELECTION—It is stated that an election will be held on Feb. 18 to vote on the issuance of \$15,000 in school building bonds. (This report corrects the election notice previously given under the caption of Swea City, Iowa.—V. 140, p. 835.)

GRAYVILLE, White County, III.—BOND ELECTION—On March 5 the voters will be asked to approve an issue of \$7,600 4% general obligation street improvement bonds. Dated Sept. 1 1934. Denom. \$100. Due Sept. 1 as follows: \$900 from 1937 to 1940 incl., and \$1,000 from 1941 to 1944 inclusive.

IOWA CITY, Johnson County, Iowa—BONDS AUTHORIZED—At a recent meeting the City Council is stated to have approved the issuance of \$403,000 of bonds to finance the sewage disposal plant and main extensions that are planned as a Public Works Administration project.

IRON COUNTY (P. O. Crystal Falls), Mich.—TO SEEK BIDS ON \$150,000 BONDS—The \$150,000 highway bonds authorized at an election held Jan. 8—V. 140, p. 504—will be offered for sale soon. The Board of Supervisors has fixed the interest rate at 4½%.

JACKSON COUNTY (P. O. Maquoketa), Iowa—ADDITIONAL INFORMATION—The \$18,000 coupon poor funding bonds that were purchased by the White-Phillips Co. of Davenport as 3½s at par—V. 140, p. 802—are dated Jan. 1 1935 and mature from 1944 to 1946, incl. Denom. \$1,000. Interest payable M. & N.

\$1,000. Interest payable M. & N.

JEFFERSON COUNTY (P. O. Birmingham), Ala.—BIDS REJECTED IN COUNTY REFUNDING—The following report is taken from the Birmingham "Age-Herald" of Jan. 31, regarding the rejection of bids for the purchase of a refunding bond issue:

"Bids for a \$1,083,000 refunding road warrant issue were rejected by the Jefferson County Commission Wednesday and Feb. 5 was set as the date for receiving additional bids.

"The Commission took this course on the grounds that a better offer should have been made.

"The maturing bonds, falling due in March, May and June, were issued in 1920 and 1921 and bear interest at 5 and 6%.

"Two groups of offers were submitted, one by Equitable Securities Corp., Birmingham; Robertson-Humphries Corp., Atlanta: Kalman & Co., St. Paul, Minn., and Watkins, Morrow & Co., Birmingham; and the other bid by Ward-Sterne & Co., Marx & Co., and Steiner Brothers, all of Birmingham, and certain out-of-town firms."

JEFFERSON COUNTY (P. O. Oskaloosa), Kan.—BOND OFFERING

JEFFERSON COUNTY (P. O. Oskaloosa), Kan.—BOND OFFERING Sealed bids will be received until 10 a. m. on Feb. 11, by the County Clerk, for the purchase of a \$25,000 issue of 2¾ % Wellman Road bonds. Dated Feb. 1 1935. Due \$2,500 from Feb. 1 1936 to 1945 incl. Interest payable F. & A. The legal opinion will be furnished by Dean & Dean of Topeka. a certified check for 2% must accompany the bid.

JOHNSON, Stanton County, Kan.—BOND ELECTION CONTEMPLATED—It is said that an election will be held in the near future to vote on the issuance of \$20,000 in municipal light plant bonds.

JUNCTION CITY, Perry County, Ohio—BOND ELECTION—At a special election to be held on Feb. 21 the voters will be asked to approve an issue of \$15,000 water works construction bonds.

KANSAS CITY, Jackson County, Mo.—BONDS AUTHORIZED—It is reported that the issuance of \$50,000 in airport impt. bonds has been approved recently by the Bond Advisory Board. Due in 10 years.

KEARNY (P. O. Arlington), Hudson County, N. J.—ADDITIONAL INFORMATION—Payment of principal and interest on the \$1,829,000 4% and 4 ½% bonds recently sold to Blyth & Co. of New York and associates—V. 140, p. 832—will be made as follows: \$1,429,000 water funding bonds at the West Hudson County Trust Co., Harrison, or at the Bankers Trust Co., New York; \$400,000 serial funding bonds at the Kearny National Bank, Kearny, or at the Irving Trust Co., New York City.

Financial Statement (Officially Reported as of Jan. 1 1935)

Assessed valuation, 1935 \$76,555,698

Total bonded debt (incl. these bonds after giving effect to fund.) 14,796,410

Less: Water debt \$7,368,000

Sinking fund 613,144

Net bonded debt 6,815,266

Population, 1930 U. S. Census—40,716.

The above financial statement does not include the debts of other political divisions having power to levy taxes on property within the Town of Kearny.

divisions having power to levy taxes on property within the Town of Kearny.

KINGSTON, Luzerne County, Pa.—BOND OFFERING—Charles H.
Blochberger, Borough Secretary, will receive sealed bids until 7:30 p. m.
on Feb. 18, for the purchase of \$80,000 2 \frac{1}{2}, 3, 3 \frac{1}{2}, 3 \frac{1}{2}, 3 \frac{1}{2}, 4 \frac{1}{2}, 2 \frac{1}{2} \text{ p.m.}

no Feb. 18, for the purchase of \$80,000 2 \frac{1}{2}, 3, 3 \frac{1}{2}, 3 \frac{1}{2}, 3 \frac{1}{2}, 4 \frac{1}{2} \text{ coupon}

storm sewer bonds. Dated Jan. 1 1935. Denom. \$1,000. Due Jan. 1 as
follows: \$10,000, 1938 to 1940, incl.: \$15,000, 1941; \$20,000, 1944 and
1945 and \$5,000 in 1946. Registerable as to principal only. Bidder to
name a single interest rate for all of the bonds. Interest payable J. & J.
A certified check for 1% of the amount bid for, payable to the order of the
Borough Treasurer, must accompany each proposal. Bonds will be sold
subject to favorable legal opinion of Townsend, Elliott & Munson of
Philadelphia and approval of the Pennsylvania Department of Internal
Affairs. This sale was originally scheduled to have been held on Feb. 4—
V. 140, p. 504, although the offering notice did not indicate the specific
amount of bonds proposed for award. The Borough has since been advised
that the project will cost \$80,000 and has changed the sale date as indictaed
above.

LAKEWOOD, Cuyahoga County, Ohio—PROPOSED BOND ISSUE—Preliminary legislation has been passed by the City Council to issue \$50,000 hospital repair and improvement bonds.

LANE COUNTY (P. O. Dighton) Kan.—BOND ELECTION CONTEMPLATED—It is reported that an election will be held soon to vote on the issuance of \$33,000 in lake bonds.

LA PORTE CITY, Black Hawk County, Iowa—BONDS VOTED—At the election held on Feb. 5—V. 140, p. 670—the voters approved the issuance of not to exceed \$100,000 in electric light and power plant revenue bonds by a count of 605 to 131. The offering date has not been determined as yet, according to the City Clerk.

LEWISVILLE, Lafayette County, Ark.—FEDERAL FUND ALLOT-MENT DECLINED—It is stated by the City Recorder that the city has declined the loan and grant of \$14,000 from the Public Works Administration for a water works system—V. 140, p. 498—since it has secured financing of the project through other sources.

LIBERTY CENTER VILLAGE SCHOOL DISTRICT (P. O. Liberty Center), Henry County, Ohio—BOND OFFERING—Warren C. Sharp, Clerk of the Board of Education, will receive sealed bids until 12 m. on Feb. 15 for the purchase of \$8,496.64 4\% funding bonds. Dated Dec. 15 1934. Due as follows: \$846.64 Dec. 15 1935; \$850 June 15 and Dec. 15 from 1936 to 1939 incl. and \$850 June 15 1940. Interest payable semi-

annually. Bids for the bonds to bear interest at a rate other than $4\frac{3}{4}\%$, expressed in a multiple of $\frac{1}{2}$ of $1\frac{1}{6}$, will also be considered. A certified check for 5% of the issue, payable to the order of the Board of Education, must accompany each proposal.

LIBERTY TOWNSHIP SCHOOL DISTRICT (P. O. Saxton), Bedford County, Pa.—BOND SALE—The \$18,000 4\fomega % coupon school bonds offered on Feb. 2—V. 140, p. 670—were awarded to Glover & MacGregor, Inc. of Pittsburhg, at a premium of \$542.20, equal to 103.01, a basis of about 4.10%. Dated Jan. 1 1935 and due \$1,000 on Jan. 1 from 1940 to 1957 incl. Bonds due after Jan. 1 1945 are subject to redemption at any time, at a price of par. Other bids were as follows:

LINCOLN COUNTY (P. O. Libby), Mont.—BONDS NOT SOLD—The issue of not to exceed \$75,000 court house construction bonds offered on Feb. 5—V. 140, p. 171—was not sold as no bids were received, according to the County Clerk. Interest rate is not to exceed 4%, payable J. & D. Dated June 4 1935. Due in 20 years.

LITTLE RED RIVER LEVEE DISTRICT NO. 1, White County, Ark.—DEBT ADJUSTMENT PLAN SOUGHT—The said District is reported to have filed a petition in the U.S. District Court at Little Rock, under the provisions of the corporate bankruptcy act, for adjustment of its debt and refinancing of \$56,000 outstanding bonds at a 25% basis.

LONDONGROVE TOWNSHIP SCHOOL DISTRICT, Chester County, Pa.—BONDS APPROVED—Approval of an issue of \$10,000 operating expenses bonds was announced by the Pennsylvania Department of Internal Affairs on Feb. 1.

LOS ANGELES COUNTY SANITARY DISTRICT NO. 1 (P. O. Los Angeles), Calif.—BOND OFFERING—It is reported that sealed bids will be received until Feb. 13, by the Chairman of the Board of Directors, for the purchase of a \$2,000,000 issue of sewer bonds.

for the purchase of a \$2,000,000 issue of sewer bonds.

LOUISVILLE, Jefferson County, Ky.—BOND OFFERING CONTEMPLATED—The following report is taken from a Louisville dispatch to the "Wall Street Journal" of Feb. 6:

"The Sewer Commission plans to offfer shortly \$1,500,000 in sewer bonds, bearing 2½ % to 3% interest, the lowest rate ever set for a city of Louisville bond. Under the law they must sell at par or better, a level the Commissioners feel confident the bids will touch because of the high market for other city of Louisville bonds. The new issue will mature in 1969.

"The city's net bonded debt is \$31,700,000, about \$8,000,000 under the constitutional limit, 10% of the present total assessment of \$401,000,000.

"City of Louisville bonds have enjoyed consistent favor because of the city's conservative fiscal policies. There has not been a year even during the depression, that the city treasury has not finished with a surplus, ranging from \$300,000 to \$700,000 out of approximate income of \$10,000,000 annually. City officials have faithfully followed their budget system.

"The \$1,000,000 sale proposed by the Sewer Commission is part of an issue of \$10,000,000 authorized by the voters of which \$7,000,000 has been sold. Outstanding bonds of all issues are bringing the highest prices in the city's history. The 1941 3%s are bringing bids of 97, ranging upward to 118½ for 4½s of 1965 and 125 for 5s of 1963."

LOWER MAHONOY TOWNSHIP SCHOOL DISTRICT, North

LOWER MAHONOY TOWNSHIP SCHOOL DISTRICT, North umberland County, Pa.—BONDS APPROVED—The Department of Internal Affairs of Pennsylvania on Feb. 1 approved an issue of \$23,100 school building site and construction bonds.

McDONALD SCHOOL DISTRICT (P. O. McDonald), Rawlins County, Kan.—BOND SALE—The \$35,000 school building bonds approved by the voters at the election held on Oct. 16—V. 139, p. 2550—have been purchased by the State of Kansas, according to the Clerk of the Board of Education.

MAINE (State of)—\$1,000,000 BOND ISSUE FOR ROAD CONSTRUCTION—A bill now pending in State Senate provides for issuance of \$1.-000,000 bonds during 1935 and 1936 to provide funds to match possible Federal appropriations for road construction in the State.

MALDEN, Middlesex County, Mass.—BOND SALE—Tyler, Buttrick & Co. of Boston were awarded on Feb. 7 two issues of coupon bonds, aggregating \$75,000, as 21/4s, at a price of 100.377, a basis of about 2.17%. Dated Jan. 1 1935 and described as follows:

\$60,000 street construction bonds. Due \$6,000 on Jan. 1 from 1936 to 1945, inclusive.

15,000 sewer construction bonds. Due \$3,000 on Jan. 1 from 1936 to 1940, inclusive.

Other bidders were: (for 2½s) Blyth & Co., 100.136; (for 2½s) Bond, Judge & Co., 100.856; Hornblower & Weeks, 100.620; Whiting, Weeks & Knowles, 100.17; E. H. Rollins & Sons, 100.199; First National Bank of Bo.ton, 100.152; A. C. Allyn & Co., 100.117; (for 2¾s) Faxon, Gade & Co., 100.875 and R. L. Day & Co., 100.159 for 3s.

MALDEN, Middlesex County, Mass.—TEMPORARY LOAN—The First National Bank of Boston was awarded on Feb. 1 a \$500,000 revenue anticipation loan at 0.53% discount basis. Due \$250,000 on Nov. 20 and on Dec. 20 1935. Other bidders were: Faxon, Gade & Co., 0.55%; National Shawmut Bank, 0.59%; Whiting, Weeks & Knowles, 0.61%; First National Bank of Malden, 0.61%; W. O. Gay & Co., 0.64%; Malden Trust Co., 0.64%; Malden Savings Bank, 0.54% plus \$10 for \$250,000 maturing Nov. 20 and 0.68% plus \$7 for \$250,000 maturing Dec. 20.

MAMARONECK, Westchester County, N. Y.—BOND ELECTION—At an election to be held on March 19 the voters will be asked to approve an issue of \$35,000 harbor basin bonds.

MANITOU, El Paso County, Colo.—BOND SALE—A \$15,000 issue of 4% water refunding bonds was purchased at par recently by the J. K. Mullen Investment Co. of Denver. Due \$1,000 annually in from 1 to 15

MARCELINE, Linn County, Mo.—BOND ISSUANCE NOT CONTEMPLATED—It is reported by the City Clerk that it is not expected anything will be done in the near future toward the issuance and sale of the \$70,000 water supply bonds approved by the voters last August.—V. 139, p. 1274.

MARION COUNTY (P. O. Indianapolis), Ind.—BOND OFFERING—Charles A. Grossart, County Auditor, will receive sealed bids until 10 a.m. on Feb. 28 for the purchase of \$15.000 not to exceed 5% interest refunding bonds. Dated March 20 1935. Denom. \$1,000. Due \$3,000 on June 1 from 1936 to 1940 incl. Principal and interest (J. & D.) payable at the County Treasurer's office. A certified check for 3% of the bonds bid for, payable to the order of the County Commissioners, must accompany each proposal. No conditional bid will be accepted and the opinion as to the validity of said bonds to be furnished by the bidder, and bids are made subject to the legality of the issue.

MARION SCHOOL TOWNSHIP (P. O. Mitchell), Lawrence County, Ind.—BOND SALE—We are advised that an issue of \$5,000 coupon refunding bonds was sold on Jan. 21 to the First National Bank of Mitchell at a price of par and accrued interest. Denom. \$1,000. Dated Sept. 1 1933 and due in 1941 and 1942. One bond bears 5% interest and the others $4\frac{1}{2}$ %. Interest payable J. & J.

MARYLAND (State of)—\$8,000,000 BOND ISSUE RECOMMENDED—The advisory committee on State revenues, of which William J. Casey is Chairman, in a letter submitted recently to Governor Harry W. Nice, declared that an additional \$16,000,000 must be raised for the balance of the current fiscal year and the two succeeding years ending Sept. 30 1937, and recommended that an \$8,000,000 bond issue be immediately floated by the State to cover half of the amount required. Previous estimates of the sum needed for extraordinary purposes during the period named had placed the figure at \$30,000,000. The bonds would bear 3½% interest and mature over a period of 15 years. The committee suggested that \$700,000 be appropriated each year out of the State Roads Commission funds to service the proposed bonds. The State, it is said, will retire \$3,900,000 of outstanding bonds during the present year.

MEMPHIS, Shelby County, Tenn.—BONDS AUTHORITED—The following report is taken from a Chicago dispatch to the "Wall Street Journal" of Feb. 1: "City of Memphis has been authorized to sell \$75,000 in bonds for the construction of an abattoir. Net bonded debt of the city, as of Jan. 2 1935, amounted to \$20,457,564, which is 7.5% of 1934 assessed

values and 8.33% of 1934 realty assessed values. The city has due in the current year \$1,290,698 in interest and \$1,218,000 in principal. Of these amounts \$270,668 interest and \$218,000 principal are payable out of the water revenues, an entirely self-sustaining department."

MIAMISBURG, Montgomery County, Ohio—ADDITIONAL IN-FORMATION—The \$11,000 fire department apparatus purchase bonds sold last October to the City Retirement Fund—V. 139, p. 2711—bear 5% interest and were disposed of at a price of par. Due serially from 1935 to

MILLCREEK TOWNSHIP (P. O. Erie), Erie County, Pa.—BOND SALE—The \$70,000 coupon sewer construction bonds offered on Jan. 31—V. 140, p. 671—were awarded as 4s to E. H. Rollins & Sons of Philadelphia, at a price of 102.81, a basis of about 3.70%. Due Jan. 1 as follows: \$3,000 from 1936 to 1945 incl. and \$4,000 from 1946 to 1955 incl.; optional Jan. 1 1945. A bid of 100.21 was submitted by the Mehl Co. of Erie.

MINDEN CITY, Sanilac County, Mich.—BOND ELECTION—A proposal to issue \$14,000 water works system bonds, in connection with a proposed loan and grant of \$21,000 from the Public Works Administration, will be considered by the voters at an election on March 11.

MINNEAPOLIS, Hennepin County, Minn.—LIST OF BIDDERS—
The following is an official list of the bids received on Jan. 31 for the purchase of the three issues of bonds aggregating \$675,000, a complete report on which sale appeared in V. 140, p. 833:

Bonds awarded to Phelps, Fenn & Co., Wells-Dickey Co. and the Milwaukee Co. for par, a premium of \$4,200 and interest at the rate of 2.90% per anum.

The best bids of the other bidders were as follows:

bonds. Dated March 1 1935. Denom. \$1,000. Due \$5,000 on March 1 from 1936 to 1955 incl. They would be general obligations of the city NASSAU COUNTY (P. O. Mineola), N. Y.—BOND SALE—The \$3,000,000 coupon or registered bonds offered on Feb. 7—V. 140, p. 833—were awarded as 3¼s and 3¾s to a syndicate composed of the Chase National Bank; First Boston Corp.; Salomon Bros. & Hutzler; Stone & Webster and Blodget, Inc., Graham, Parsons & Co. and Roosevelt & Weigold, Inc., all of New York, at a price of 100.039, the net interest cost to the County being 3.4289 %. Award was made as follows: \$2,000,000 emergency relief bonds sold as 3¾s. Due Aug. 15 as follows: \$240.000, 1937; \$250,000, 1938; \$450,000, 1939; \$150.000, 1940; \$140,000, 1941; \$190,00; in 1942 and 1943; \$200,000 in 1945. \$1,000,000 land purchase bonds sold as 3¼s. Due Aug. 15 as follows: \$80,000, 1949; \$100,000, 1950; \$80,000, 1951 to 1954 incl. and \$100,000 from 1955 to 1959 incl.

Each issue is dated Feb. 15 1935. Public re-offering of the \$2,000,000 3¼% bonds is being made at prices to yield from 2.50% to 3.40%, according to maturity, while all of the \$1,000,000 3¼s are priced to yield 3.40%. Other bids for the bonds were as follows: The second highest tender on this issue, submitted by Lehman Brothers and associates, was 100.2137 for \$2,000,000 4% bonds and \$1,000,000 3¼s, are priced to yield 3.40%. Other members of this group were Ladenburg, Thalmann & Co.; the Bancamerica-Blair Corporation, Phelps, Fenn & Co.; Kean, Taylor & Co.; George B. Gibbons & Co., Inc.; Bacon, Stevenson & Co.; R. H. Moulton & Co.; the Manufacturers and Traders Trust Company, Wertheim & Co., Darby & Co.; Hemphill, Noyes & Co.; Adams, McEntee & Co.; the Wells-Dickey Company and the South Shore Trust Company of Rockville Center. The final bid was 100.171 for \$2,000,000 390 and \$1,000,000 34s, a net interest cost of 3.636%. This was submitted by a syndicate composed of Halsey, Stuart & Co., Inc.; Goldman, Sachs & Co.; E. H. Rollins & Sons; Dick & Merle-Smith; B. J. Van Ingen & Co.; B

Sons; Dick & Merle-Smith; B. J. Van Ingen & Co.; Burr & Co. and Piper, Jaffrey & Hopwood.

NEWARK, Essex County, N. J.—BONDS OFFERED FOR INVEST-MENT—A syndicate composed of Lehman Bros., Estabrook & Co., Blyth & Co., Inc., Stone & Webster and Blodget, Inc., Phelps, Fenn & Co., F. S. Moseley & Co., Graham, Parsons & Co., Kean, Taylor & Co., R. H., Moulton & Co., Inc., First of Michigan Corp., Hemphill, Noyes & Co., Adams & Mueller of Newark, A. C. Allyn & Co., Inc. and Van DeVenter, Spear & Co., Inc. made formal offering on Feb. 5 of \$1.894.000 coupon or registered funding bonds, including \$1,335,000 3 %s and \$559,000 41/4s, at prices to yield from 3.50% to 3.80%, according to interest rate and maturity. Bonds are dated July 1 1934 or Feb. 1 1935 and mature as follows: \$1.335,000, due \$55,000, 1940; \$135,000 in 1941 and 1942 and \$1,010,000 during the years from 1943 to 1950 incl.; \$559,000 due on July 1 from 1944 to 1946 incl. The same group recently offered and quickly sold a \$3,000,000 issue of bonds purchased from the city. Coincident with that sale, which occurred on Jan. 17, the city arranged for the exchange of an additional \$7,500,000 bonds for temporary obligations held by banking institutions. The current \$1,894.000 bonds represent the initial part of the \$7,500.000 to be re-offered publicly.—V. 140, p. 505. All of the \$10,500,000 bonds have been issued under Chapter 60 of the New Jersey laws, which provides for the funding of the city's temporary debt and the establishment of the city's operations on a cash basis. They do not constitute any addition to the city's debt. Coincident with the formal offering of the \$1,894,000 black the banking syndicate announced that more than one-half of the bonds had already been sold.

NEW HAMPSHIRE (State of)—\$2,500,000 BOND ISSUE BILL CON-

NEW HAMPSHIRE (State of)—\$2,500,000 BOND ISSUE BILL CONSIDERED—State officials are giving detailed study to a bill introduced in the House recently by Representative Joseph B. Periey of Lebanon, under which \$1,250,000 bonds would be issued in 1935 and 1936, respectively, to finance a class five rural road improvement program to provide employment.

NEW MEXICO, State of (P. O. Santa Fe)—BOND SALE—It is reported by the State Treasurer that a \$2,000,000 issue of refunding bonds has been purchased as 3.60% bonds, at par, by a syndicate composed of John Nuveen & Co. of Chicago, the International Trust Co. of Denver, Moore & Hyams of New Orleans, Stranahan, Harris & Co., Inc., of Toledo, Blyth & Co. of New York, E. M. Knox & Co. of Kansas City, and Bosworth Chanute, Loughridge & Co. of Denver. The maturities are said to begin not later than two years from March 1 1935, not to extend beyond the date of final maturity of such bonds to be so refunded. The State Board of Finance is to fix the schedule of maturities of principal to the end that total annual principal and interest requirements shall be approximately equal in each year when any of said bonds mature. (A tentative report on this sale appeared in V. 140, p. 833.)

The "Wall Street Journal" of Feb. 8 carried the following San Francisco dispatch of the sale of bonds by this State:

"Blyth & Co., Inc., in joint account with R. W. Pressprich & Co.; Stranahan, Harris & Co., and Stern Bros., yesterday purchased \$2.080,000 State of New Mexico 3.60% refunding bonds, due 1937 to 1952. The bonds were immediately re-offered at prices to yield from 1.50 to 3%.

"Assessed valuation of taxable property in the State of New Mexico was reported at \$29,1489,671 as of Jan. 29, last. Total direct bonded debt was \$2.951,500, excluding \$8,350,000 highway debentures which are payable solely from gasoline tax and other revenues of the highway department which are stated to be almost two times annual principal and interest requirements."

NEWPORT, Newport County, R. I.—TEMPORARY LOAN—B. F Downing, City Treasurer, made award on Jan. 31 of a \$150,000 revenue anticipation loan to the Boston Safe Deposit & Trust Co. at 0.247% discount basis. Dated Feb. 4 1935 and due Aug. 29 1935. Other bidders were: First National Bank of Boston, 0.27%; First Boston Corp., 0.31% plus \$2; Faxon, Gade & Co., 0.31%; Newport Trust Co., 0.33%; W. O. Gay & Co., 0.34%; Second National Bank, 0.345%; Whiting, Weeks & Knowles, 0.42%; Merchants National Bank, 0.45%; G. M.-P. Murphy & Co., 0.53%; R. L. Day & Co., 0.59%.

Tax Data 1934 levy \$1,383,300—uncollected Dec. 31 1934, \$186,478. 1933 levy \$1,406,924—uncollected Dec. 31 1934, \$98,973. 1932 levy \$1,485,354—uncollected Dec. 31 1934, \$9,415. No tax notes outstanding.

NEWTON, Middlesex County, Mass.—TEMPORARY LOAN—The Boston Safe Deposit & Trust Co. was awarded on Feb. 6 a \$100,000 revenue anticipation loan at 0.21% discount basis, plus a premium of \$3. Due Nov. 12 1935. Other bidders were: National Shawmut Bnak, 0.23% plus \$6; Whiting, Weeks & Knowles, 0.24%; Newton, Abbe & Co., 0.45%; West Newton Savings Bank, 0.31% plus \$1; First National Bank of Boston, 0.31%; Faxon, Gade & Co., 0.325% and W. O. Gay & Co., 0.33%.

NEW YORK, N. Y.—\$10,000,000 BRIDGE LOAN BILL INTRO-DUCED—Under the provisions of a bill introduced in both houses of the State Legislature, the city is authorized to finance the construction, at a cost of up to \$10,000,000, of the Henry Hudson Memorial Bridge, together with adjacent approaches, highways and parkways, between the northerly end of Riverside Drive in the Borough of Manhattan and the comparative point of the City of New York in the Borough of Bronx. Payment of the indebtedness would be provided for through collection of tolls and the obligations issued for the project would be excluded from the ordinary debt limitations of the city.

NEW YORK, N. Y.—TEMPORARY FINANCING IN JANUARY—New short-term financing negotiated by the city during January aggregated \$33,000.000 and included sale of \$25,000.000 3% revenue bills of 1935, due June 29 1935 and \$8,000.000 3% assessment bonds, due on or at any-time before Jan. 24 1945. This latter issue, taken by the sinking funds, was sold for the purpose of financing local improvements in various parts of the city, and will be repaid immediately upon collection of assessments levied on property owners benefitting from the projects undertaken. The city also effected during January exchange of \$46,530,000 of 3% revenue notes of 1935, due on or before Jan. 1 1938, for a like amount of revenue bills of 1934 which matured and could not be retired owing to insufficiency of tax collections last year. This transaction was arranged under the 4-year compact between the city and a syndicate of New York City banks.

NEWSYORK (State of)—PROPOSED \$50,000,000,000 HOME RELIEF

NEW-YORK (State of)—PROPOSED \$50,000,000 HOME RELIEF BOND ISSUE—Under the provisions of a bill introduced in both houses of the State Legislature, the State is authorized, subject to approval of the voters at the November 1935 general election, to issue \$50,000,000 bonds to provide funds during the period from Nov. 15 1935 to Nov. 15 1936 "to relieve the people of the State from the hardhsips and suffering caused by imminent foreclosure of mortgages upon single and two family houses in this State." The obligations, to be known as "home owners mortgage relief bonds," would bear interest at not more than 5% and mature in from 1 to 20 years. Interest payable in New York City. It is provided that the bonds be sold in whole or part at public sale, after advertisement for a period of 10 consecutive days, Sundays excepted, in at least two daily newspapers printed in New York City and one in the City of Albany. Provision also is made for the State to borrow funds temporarily to meet the purposes of the legislation pending sale of the bonds.

NOME, Alaska—BONDS AUTHORIZED—The City Council has

NOME, Alaska—BONDS AUTHORIZED—The City Council has adopted a resolution to issue \$70,000 4% general improvement bonds. Application has been made to the Public Works Administration for a loan and grant of \$100,000.

NORTH ANDOVER, Essex County, Mass.—TEMPORARY LOAN—The New England Trust Co. was awarded on Feb. 4 a \$25,000 revenue anticipation note issue at 0.43% discount basis. Due Dec. 10 1935. Other bidders were: Second National Bank of Boston 0.57%; National Shawmut Bank 0.62%; Faxon, Gade & Co., 0.63%; R. L. Day & Co., 0.63%; First National Bank of Boston, 0.66% and Washburn Frost & Co., 0.66%.

NORTH BERGEN TOWNSHIP, N. J.—NEW REFUNDING PLAN BEING PREPARED—The Seaboard Trust Co. of Hoboken announced on Feb. 7 that it has a plan now in preparation for the refinancing of the bonds and obligations of the township. This plan will be completed Feb. 25 1935, and a copy thereof sent to all bondholders and others interested.

NORTH EAST, Erie County, Pa.—BONDS SCHEDULED FOR SALE—A. I. Loop, Acting Borough Secretary, states that the \$35,000 water works bonds voted on Dec. 11 1934 may be offered for sale within the next 30 or 60 days.

OAKLAND COUNTY (P. O. Pontiac), Mich.—TO REFUND DE-FAULTED COVERT ROAD DEBTS—As of Nov. 1 1934 the county was in default on \$8,362,687 of Covert road indebtedness, including \$7,304,500 in unpaid principal and \$918,187 of interest. Board of Supervisors is negotiating with bondholders to refund the obligations, it is said.

OKLAHOMA COUNTY (P. O. Oklahoma City), Okla.—BOND ISSUANCE CONTEMPLATED—We are informed by the County Clerk that a petition for submitting a bond issue of \$1,200,000 for a new court house and jail to the voters is now being circulated. He states that the matter has not been submitted to the Commissioners as yet and it is doubtful at the present time if enough signatures to the petition can be secured to present the matter to the Board.

ONEIDA, Madison County, N. Y.—SEEKS REFUNDING AUTHORITY—The Common Council on Jan. 15 voted to seek legislative authority to refund \$50,000 of the \$70,000 bonds maturing Jan. 1 1936.

authority to refund \$50,000 of the \$70,000 bonds maturing Jan. I 1936.

ORADELL, Bergen County, N. J.—BOND SALE—The \$300,000 coupon or registered bonds offered on Feb. 4—V. 140, p. 672—were awarded as 5s to a syndicate composed of M. F. Schlater & Co., Inc., C. A. Preim & Co., both of New York; MacBride, Miller & Co. and C. P. Dunning & Co., both of Newark, at par plus a premium of \$932, equal to 100.31, a basis of about 4.43%. The sale included:

\$170,000 public improvement refunding bonds. Due \$17,000 on Dec. 15 from 1935 to 1944 incl. Redeemable at par and accrued interest on Dec. 15 of each year, upon public notice of such intention in a financial journal published in New York City, at least six months prior to the date set for redemption.

130,000 funding bonds. Due \$13,000 on Dec. 15 from 1935 to 1944 incl. Each issue is dated Dec. 15 1934.

ORANGE, Essex County, N. J.—BONDS PUBLICLY OFFERED—

Each issue is dated Dec. 15 1934.

ORANGE, Essex County, N. J.—BONDS PUBLICLY OFFERED—
A syndicate headed by Blyth & Co. of New York which purchased recently, at par, \$697,000 4% general refunding bonds—V. 140. p. 834—are making public reoffering at prices to yield from 2.50% to 3.85%, according to maturities, which are from 1936 to 1949 incl. Bonds have been issued under Chapter 233, Pamphlet Laws of 1934 of New Jersey.

OSAWATOMIE, Miami County, Kan.—BONDS VOTED—At the election held on Jan. 18—V. 139, p. 4155—the voters approved the issuance of the \$15,000 in stadium construction bonds.

OSWEGO, Oswego County, N. Y.—BOND SALE—The \$200,000 coupon or registered emergency relief bonds of 1935 offered on Feb. 2—V. V. 140, p. 672—were awarded as 2.60s. to Edward B. Smith & Co. of New York, at a price of 100.569, a basis of about 2.49%. Dated Feb. 1 1935 and due \$20,000 on Feb. 1 from 1936 to 1945, inclusive.

PAINT RURAL SCHOOL DISTRICT, Ohio—ABOLITION OF UNIT URGED—C. B. Hatch, special investigator of the State Department of Education, on Jan. 27 urged upon the Ross County Board of Education the abolition of the above district by splitting the territory between Buck-

skin and Bainbridge districts. His recommendation was made in connection with the plan of the district to sell the \$12,000 bonds voted at the last general election. Mr. Hatch declared that the "Paint District is an unnecessary district both from an educational and financial standpoint."

PALESTINE, Anderson County, Texas—BOND CALL—It is stated by Irma Campbell, City Secretary, that she is calling for payment on March 5 and on April 10 certain bonds of the city carrying dates of issuance that range from March 1 1906 to Oct. 1 1921. All of these bonds may be presented for redemption at the places of payment therein specified, or at the office of the City Secretary, or at the City Treasurer's office. Interest shall cease on dates called.

PALESTINE, Anderson County, Tex.—BOND REFUNDING PLAN—The "Wall Street Journal" of Feb. 7 carried the following report on a bond refunding plan for the above city:

"The City Council has consummated a deal with Garrett & Co. of Dallas to refund \$389,000 of outstanding term bonds of the city, which bear interest ranging from 4½% to 6%, with a new serial issue which would be completely retired in 14 years and would pay from 4% to 4¾% interest. Annual payments on the entire \$389,000 would range from \$23,000 the first year to \$20,000 the final year, which would be 1949. Of the issue, \$81,000 would pay only 4%."

PAYSON, Utah County, Utah—BOND SALE—We are informed by the City Recorder that the \$25,000 water works bonds approved by the voters on Oct. 9—V. 139, p. 2713—were sold recently to Snow, Goodart & Co. of Salt Lake City. Dated Jan. 1 1935.

PERCY, Randolph County, Ill.—BONDS APPROVED—Benjamin H. Charles of St. Louis has approved as to legality an issue of \$27,000 4% water revenue bonds, dated May 15 1934. Application has been made to the Public Works Administration for a loan and grant of \$35,000.

PHILADELPHIA, Pa.—FINAL ASSESSMENT FIGURES—A dispatch from the city to the "Wall Street Journal" of recent date reported as follows: "Board of Revision of Taxes announced actual assessments for Philadelphia for 1935 as follows: Real estate, \$2,906.748.766, decrease of \$165.129.180 under 1934; personal property, \$816.284.575, decrease of \$20,106,934 under 1934. Figures by wards were not made public. Actual figures on which taxes will be levied were shown to be \$75,633.341 higher than estimates of last August, on which budget for this year was based. Decreased assessments mean lower taxes for individuals favored by Board of Revision, but wiping out of last vestiges of a borrowing capacity for the city."

PHILADELPHIA, Pa.—SINKING FUND COMMISSION VOTES SUIT—The Sinking Fund Commission on Feb. 4 voted to sue "the City of Philadelphia and its officials" for \$7.771.780, the amount that the fiscal body unsuccessfully sought to have included in the budget for 1935, which was approved recently by the City Council over the veto of Mayor Moore—V. 140, p. 834. The action will be brought before the State Supreme Court and, according to the Philadelphia "Inquirer," will petition for the following: "An injunction preventing the city from 'diverting' every cent of sinking fund appropriation to other purposes, as was done in the budget ordinance recently passed over the veto of Mayor Moore. A requirement that the city 'raise and appropriate' to the sinking fund the \$7.771,780 requested by the Commissioners prior to budget hearings last year."

PIERPONT TOWNSHIP SCHOOL DISTRICT, Ohio—BOND ELECTION—The Board of Education has received permission from the State Tax Commission to hold a special election on Feb. 26 to consider the issuance of \$25,000 school building bonds—V. 140, p. 672.

PITTSFIELD, Somerset County, Me.—BOND SALE—Smith-White & Co., Inc. of Waterville were awarded on Feb. 7 an issue of \$20,000 4% water bonds at a price of 101.75, a basis of about 3.80%. Due serially from 1936 to 1955 incl.

PLEASANT RIDGE, Mich.—BOND EXCHANGE—The \$61,329.89 special assessment refunding bonds authorized by the State Public Debt Commission last November—V. 139, p. 3358—have since been exchanged for the original bonds, according to Ashton J. Berst, City Manager.

for the original bonds, according to Ashton J. Berst, City Manager.

PLEASANTVILLE, Westchester County, N. Y.—BOND SALE—The \$4,000 coupon or registered public improvement bonds offered on Feb. 2—V. 140, p. 672—were awarded as 4.20s., at a price of par, to Sherwood & Merrifield, Inc. of New York. Dated Feb. 1 1935 and due \$1,000 on Feb. 1 from 1937 to 1940, incl. White, Weld & Co. of New York offered par plus a \$4 premium for 4½% bonds, while George B. Gibbons & Co., bidding for 4.40s, offered a premium of \$5.60.

POMPTON LAKES (P. O. Pompton Lakes), Passaic County, N. J.—BOND SALE—The \$106,450 coupon or registered 1935 funding bonds offered on Jan. 31—V. 140, p. 672—were awarded as 4½s to Fisher, Hand & Co., of Newark, at par plus a premium of \$260, equal to 100.244, a basis of about 4.71%. Dated Feb. 1 1935 and due Aug. 1 as follows: \$6.450, 1936; \$6,000, 1937 to 1942 incl. and \$8,000 from 1943 to 1950 incl.

PORTLAND, Multnomah County, Ore.—BOND SALE DETAILS—It is stated by the City Auditor that the \$151,639.03 6% semi-ann. street lighting bonds purchased by the First National Bank of Portland at a price of 106.87—V. 140, p. 506—are due on Dec. 1 1939, the city reserving the right to take up and cancel such bonds upon the payment of the face value thereof, with accrued interest to date of payment, upon the first day of any month at or after three years from the date of the bonds.

PORTLAND, Multnomah County, Ore.—BOND SALE—The \$30,000 to the bonds and the bonds.

PORTLAND, Multnomah County, Ore.—BOND SALE—The \$30,000 issue of public works bonds offered for sale on Feb. 6—V. 140, p. 834—wag sold to Camp & Co. of Portland, as 4s, at a price of 101.43, a basis of about 3.87%. Dated Feb. 1 1935. Due from Feb. 1 1941 to 1955 incl.

PORT OF NEW YORK AUTHORITY, N. Y.—PLANS \$52,500,000 BOND FINANCING—Commissioners of the Port Authority on Feb. 1 voted to issue \$52,500,000 bonds, of which \$22,000,000 will be offered at public sale early in March according to present plans. All of the bonds will bear 4% interest and a substantial part of the authorization will be applied toward completing the first step in the general plan of consolidating all of the outstanding bonds of the Authority. J. E. Ramsey, General Manager of the Authority, announced last November that the question of consolidating existing indebtedness had been discussed with a group of bankers headed by Brown Harriman & Co. of New York. Such a plan, it was said, would result in a large saving to the municipal unit, in addition to simplifying its financial setup and the public understanding thereof—V. 139, p. 3024. Frank C. Ferguson is Chairman of the governing body. The projected financing is subject to approval of the Governors of New York and New Jersey. In connection therewith, Van Alstyne, Noel & Co., Inc., 52 Broadway, N. Y. City, have issued a new report containing a comparison of the separate and consolidated earnings for 1932, 1933 and 1934 of the various facilities of the Port Authority.

The purposes of the Projected \$52,500,000 bond financing are detailed

The purposes of the Projected \$52,500,000 bond financing are detailed as follows:

For mid-Hudson construction (1935) \$10,500,000

To retire notes publicly held \$2,500,000

For series A exchange \$9,000,000 Possible public offering \$34,300,000 To exchange for outstanding Port Authority bonds 18,200,000

Total issue \$52,500,000

* Whether \$22,000,000 or \$34,300,000 is publicly offered depends on whether the PWA elects to take the new bonds, or cash, in exchange for its notes. Policy of the PWA would suggest that it would take cash in order to have funds available for other projects.

**VOTE INVESTIGATION OF PORT AUTHORITY*—The New Jersey Assembly this past week adopted a resolution to make a complete investigation into the finances and all other matters pertaining to operations of the Authority. The matter is reported in greater detail on a preceding page of this section.

POUGHKEEPSIE, Dutchess County, N. Y.—BOND SALE—The \$240,000 coupon or registered general bonds offered on Feb. 5—V. 140, p. 673—were awarded as 2.40s to the Harris Trust & Savings Bank of New York, at par plus a premium of \$277, equal to 100.115, a basis of about 2.37%. Dated March 1 1935 and due \$30,000 on March 1 from 1936 to 1943 incl. A feature of this sale was the closeness of the bidding, the accepted offer having been but \$1 better than the second highest tender,

as Halsey, Stuart & Co. of New York, also bidding for 2.40s, named a premium of \$276. Other bids were as follows: 425.00

PRINCETON SCHOOL DISTRICT, Mercer County, N. J.—ADDITIONAL INFORMATION—The \$35,000 (not \$30,000) 4½% school building bonds purchased at par by the Teachers' Pension and Annuity Fund of Trenton—V. 140, p. 834—are dated Oct. 1 934 and mature serially from 1936 to 1953 incl. Registered, in denoms. of \$1,000. Int. payable A. & O.

PROSPECT PARK, Delaware County, Pa.—BONDS APPROVED—An issue of \$35,000 refunding bonds was approved on Jan. 29 by the Department of Internal Affairs of Pennsylvania.

An issue of \$35,000 refunding bonds was approved on Jan. 29 by the Department of Internal Affairs of Pennsylvania.

RECONSTRUCTION FINANCE CORPORATION—OFFERING OF BONDS TAKEN OVER FROM PWA HOLDINGS—It was announced on Feb. 8 by Jesse H. Jones, Chairman of the above Corporation, that 33 municipal bond issues, taken over from the holdings of the Public Works Administration, having an aggregate face value of \$4,938,450, will be offered for sale on Feb. 20. This offering includes \$1,964,000 New York City rapid transit subway and water tunnel 4% bonds. Unlike the several other sales conducted by the RFC, this one contains thirteen issues on which bankers will be permitted to enter "all or part" bids. No bid will be entertained for less than one-third of the amount offered in any one case. Bids for an entire issue will be given preference.

The issues on which partial bids will not be accepted are as follows: Austin, Texas, \$95,000.
Blackwell, Okla., Board of Education, \$99,500.
Carroliton, Board of Education, \$8,000.

30,000 Village of Sharon Springs, Schoharie County, N. Y., 4% water bends, A. C. Allys & Co., New York, N. Y.; \$1,002.20 per thousand.

REEVES COUNTY (P. O. Pecos), Tex.—BOND ELECTION CONTEMPLATED—It is reported by the County Clerk that an election will be held soon to vote on the proposed issuance of \$144,000 in court house bonds.

REYNOLDSBURG, Franklin County, Ohio—BOND ISSUE RE-PORT—Delay in the sale of the \$10,000 water works and \$5,000 sanitary sewer system bonds authorized at the primary election Aug. 14 1934 is due to technical points in the proceedings of the transcript, according to Mayor F. B. Poole.

RHODE ISLAND (State of)—PROPOSED BOND ISSUE FOR BRIDGE CONSTRUCTION—A proposal providing for a referendum on a plan to issue \$5,200,000 bridge construction bonds has been introduced in the House of the Legislature.

RICHMOND, Wayne County, Ind.—PROPOSED BOND SALE—Harold D. Salter, City Clerk, under date of Feb. 6 advises us as follows with respect to the proposed sale of \$360,000 sewage disposal system construction bonds mentioned in—V. 140, p. 834. "Date of sale is not yet set but will be some time after Feb. 14 1935, and advertised as per law. The purpose of these bonds is to finance the building of a sewage disposal plant and intercepting sewers, at estimated cost of \$500,000. The United States Government has granted the city \$140,000 to apply on the building of said plant and said grant is being made under the Public Works Administration and was made on the date of Aug. 16 1934."

Financial Statement

RIDLEY TOWNSHIP SCHOOL DISTRICT (P. O. Woodlyn) Delaware County, Pa.—BOND OFFERING—Vincent A. Mallon, District Secretary, will receive sealed bids until 7:30 p. m. on Feb. 11 for the purchase of \$100,000 3½%, 3½%, 4%, 4½%, or 4½% coupon school bonds. Dated Feb. 1 1935. Denom. \$1,000. Due Feb. 1 as follows: \$10,000 in 1940 and 1945; \$15,000 in 1950 and 1955; \$20,000 in 1960 and \$30,000 in 1965. Bidder to name a single interest rate for all of the bonds. They are registerable as to principal only. Interest payable F. & A. A certified check for 2%, payable to the order of the District Treasurer, must accompany each proposal. Issue subject to approval as to validity by Townsend, Elliott & Munson of Philadelphia.

RIPLEY, Tippah County, Miss.—BOND ELECTION—It is reported that an election will be held on Feb. 19 to vote on the issuance of \$52,000 in water works improvement bonds. (An allotment of \$65,000 has been approved by the PWA for this purpose.)

RIVER HILLS (P. O. Milwaukee), Milwaukee County, Wis.—BOND SALE—It is reported that \$45,000 3½% semi-ann. bridge bonds were purchased recently by the Securities Co. of Milwaukee. (A \$30,000 issue of these bonds were approved on Nov. 6—V. 139, p. 3192.)

ROANE COUNTY (P. O. Kingston), Tenn.—BOND ISSUANCE PROPOSED—The County Court is said to have recommended to the Legislature an Act authorizing the Court to issue \$150,000 6% funding bonds to be described as follows: Denom. \$1,000. Dated Jan. 1 1935. Due \$5,000 from 1936 to 1965, incl. Prin. and int. (J. & J.) payable at the Chemical Bank & Trust Co. in New York City.

ROCHESTER, Oakland County, Mich.—PROPOSED BOND ISSUE—The village plans to ask the Public Debt Commission for permission to refund \$25,000 of outstanding bonds and tax anticipation notes.

ROCHESTER, Monroe County, N. Y.—BONDS AUTHORIZED—The City Council has voted to issue \$3,000,000 bonds for welfare and tax revenue purposes. It is not expected that they will be offered for sale for another month or six weeks. A plan to cut interest on delinquent tax payments to 4%, provided the 1935 tax is paid, is being considered by Council. The offer would be available to taxpayers until May 1 1935, after which date the present charges, amounting to 10% after Nov. 15, will prevail.

date the present charges, amounting to 10% after Nov. 15, will prevail. BOND OFFERING—Paul B. Aex, City Comptroller, will receive sealed bids until 11 a. m. (Eastern Standard Time) on Feb. 13 for the purchase of \$1,200,000 not to exceed 3½% interest water bonds. Dated Feb. 1 1935. Due Feb. 1 as follows: \$136,000 in 1936 and \$133,000 from 1937 to 1944 incl. Bidder to name a single interest rate for all of the bonds, expressed in a multiple of ¼ of 1%. Principal and interest payable at the paying agency of the city in New York City. A certified check for 2% of the bonds bid for, payable to the order of the Comptroller, must accompany each proposal. Legal opinion of Reed, Hoyt & Washburn of New York will be furnished the successful bidder. Bonds will be delivered at a place in New York indicated by the purchaser, on or about March 4 1935. The City redeemed \$1,200,000 4% water bonds on Feb. 1 through the proceeds of a temporary loan negotiated previously in anticipation of the present bond financing.

temporary non incomparishments the financing. TAX COLLECTIONS—The city had a 1934 tax delinquency of \$256.010, the lowest in recent years, according to report. This compares with \$2,103,408 in 1933. Lowering the interest rate on past due taxes, the city Comptroller says, was responsible for the drop. In 1929 the total was \$1,913,269, in 1930, \$457,281, in 1931, \$978,957, in 1932, \$1.659,784; in 1933, \$2,103.408.

ROUTT COUNTY SCHOOL DISTRICT NO. 4 (P. O. Steamboat Springs), Colo.—PRE-ELECTION SALE—A \$34,000 issue of 4½% refunding bonds is stated to have been purchased by Bosworth, Chanute. Loughridge & Co. of Denver, at par, subject to a pending election. Denom. \$1,000. Dated March 1 1935. Due as follows: \$1,000, 1944 to 1948; \$2,000, 1949 to 1958, and \$3,000 in 1959 and 1960. All bonds maturing from 1949 to 1960, are optional in 1948.

RUSK COUNTY (P. O. Henderson), Tex.—BOND ELECTION—A election is said to be scheduled for March 2 to vote on the issuance of \$3,000,000 in road bonds.

RYE (P. O. Port Chester), Westchester County, N. Y.—CER-TIFICATE ISSUE SOLD—Faxon, Gade & Co. of Boston purchased on Jan. 23 an issue of \$325,000 tax anticipation certificates of indebtedness at 1.95% interest. Dated Feb. 1 1935 and due Oct. 1 1935.

SABETHA, Nemaha County, Kan.—BONDS VOTED—At an election held on Jan. 10 the voters are said to have approved the issuance of \$100,000 in reservoir bonds by a count of 690 to 141. The bond ordinance setting the date of sale has not as yet been passed, according to the City Clerk.

ST. CLAIRSVILLE, Belmont County, Ohio—BOND ISSUE REPORT—Issuance of the \$65,000 sewage disposal plant bonds authorized last December depends on approval and acceptance of the undertaking as a Public Works Administration project.

ST. ELMO, Fayette County, Ill.—BONDS HELD LEGAL—Legality of an issue of \$50,000 4% water revenue bonds has been approved by Benjamin H. Charles of St. Louis. They will be dated Aug. 1 1934 and probably form the basis of a loan and grant of \$65,000 by the Public Works Administration.

SANGER UNION HIGH SCHOOL DISTRICT (P. O. Fresno), Fresno County, Calif.—BOND SALE—The \$40,000 issue of school bonds offered for sale on Feb. 5—V. 140, p. 674—was awarded to Earl S. Carper of Fresno, as 4½s, paying a premium of \$783, equal to 101.57, a basis of about 4.07%. Dated Jan. 1 1935. Due from 1941 to 1955.

SPRING VALLEY, Fillmore County, Minn.—BOND ISSUANCE NOT CONTEMPLATED—It is stated by the Village Clerk that no further action has been taken on the \$45,000 in not to exceed 6% power bonds that were approved by the voters at an election on Dec. 4—V. 139, p. 3841. It is said that the election is being contested on the question for which they were voted. Until such time as a decision is rendered by the District Court no further action can be taken.

SPRINGFIELD, Sangamon County, Ill.—MAY LOSE PWA GRANT—Warning that the city will lose a Public Works Administration grant of \$415,000 unless it fulfills the obligations of its contract and completes the construction of its water works was given recently by Administrator Harold L. Ickes. In a letter to Mayor John W. Kapp, the Administrator denied a request of the City Council that it be permitted to obtain the free grant of PWA for already completed work without constructing remaining and integral parts of the water system—a filtration plant and a clear well. The project was made possible by a PWA loan and grant of \$1,385,000. PWA has actually purchased bonds totaling \$533,000, which are secured by revenues of the water system. An investigation by PWA engineers revealed that failure to carry out the terms of the contract would not only result in partial abandonment of costly improvements already finished but would also, through impairing water revenues, threaten the value of the bonds now held by PWA. Cessation of work would aggravate Springfield's unemp oyment problem, they reported, and loss of the grant might result in an increase in city water taxes.

STANBERRY SCHOOL DISTRICT NO. 53 (P. O. Stanberry).

STANBERRY SCHOOL DISTRICT NO. 53 (P. O. Stanberry), Gentry County, Mo.—BONDS NOT SOLD BY RFC—The \$27,500 issue of 4% semi-ann. school bonds offered by the Reconstruction Finance Corporation on Jan. 30—V. 140, p. 673—was not sold as no bids were received. Due from Aug. 1 1935 to 1954 incl.

STEARNS COUNTY (P. O. St. Cloud), Minn.—BOND OFFERING—Sealed bids will be received until 1 p. m. on March 4, by the Secertary of the County Board, for the purchase of a \$50,000 issue of refunding bonds. Interest rate is not to exceed 3%, payable M. & S. Denom, \$500. Due on March 1 1942. It is stated that these bonds are being issued for the purpose of refunding court house bonds maturing in 1935.

STEPHENVILLE, Erath County, Tex.—BOND ELECTION—An election is said to have been called for Feb. 26 to vote on the issuance of \$190,000 in light plant bonds.

SULLIVAN COUNTY (P. O. Newport), N. H.—LOAN OFFERING—Sealed bids addressed to the County Commissioners will be received until 2 p. m. on Feb. 11 for the purchase at discount basis of an \$80,000 tax anticipation loan, dated Feb. 15 1935 and due Dec. 16 1935. County reports an assessed valuation for 1934 of \$27,209,204 and total bonded debt of \$294,000. There are no revenue anticipation notes now outstanding.

SUMMIT COUNTY (P. O. Akron), Ohio—BOND SALE—The \$500,000 refunding bonds re-offered on Feb. 1 were finally sold, after the county on three previous occasions had rejected the bids submitted in each instance as unsatisfactory. Award of the issue was made to Fox, Einhorn & Co. of Cincinnati and associates, as 4½s, at par plus a premium of \$3,888, equal to 100.777, a basis of about 4.36%. This was the first time that a bid had been received by the county for the bonds to bear interest at a rate below 4¼%. The bonds are dated Oct. 1 1934 and mature \$100,000 on Oct. 1 from 1939 to 1943 incl.

SUMNER SCHOOL DISTRICT (P. O. Sumner), Bremer County, Iowa—BOND ISSUANCE CONTEMPLATED—It is stated that the School Board plans to issue \$28,000 in 4% refunding bonds, to take up a like amount of 5% school bonds.

SUNBURY, Northumberland County, Pa.—BOND SALE—Mary E. Holsapple, City Clerk, states that the \$5,000 4½% coupon street improvement bonds offered on Feb. 1 were sold to local investors, as follows: \$3,000 to John R. Kauffman Jr., at a price of 103 and \$2,000 to L. J. Rogers at 102.125. Bidding for "all or none," E. H. Rollins & Sons offered to pay 102, while J. H. Drass & Co. bid 102.511.

SUPERIOR, Douglas County, Wis.—BOND SALE—It is stated by the City Comptroller that an issue of \$133,000 refunding bonds has been purchased as 5½s, at par, by Seipp, Princell & Co., and Morris Mather & Co., both of Chicago, jointly. Due serially from July 1 1948 to 1954. (This report corrects the notice of a sale of \$91,639.53 of these bonds to the above named companies, reported last October—V. 139, p. 2241.) It is also stated by the City Comptroller that of \$151,000 5½% refunding bonds authorized last November, a block of \$69,000 has been sold to Morris Mather & Co. of Chicago. Due serially from Jan. 1 1945 to 1949.

SWEETWATER, Nolan County, Tex.—BONDS VOTED—It is reported that the voters have approved recently the issuance of \$55,000 in city hospital bonds.

SYRACUSE, Onondaga County, N. Y.—TEMPORARY LOAN—N. W. Markson, City Comptroller, made award on Feb. 4 of \$2,000.000 tax anticipation certificates of indebtedness jointly to Halsey, Stuart & Co., Inc., and the Bancamerica-Blair Corp., both of New York, on their bid of 0.87% interest plus a premium of \$25. Dated Feb. 6 1935 and due Oct. 15 1935. Public reoffering was made at a price to yield 0.65%. The bid of the Chemical Bank & Trust Co. and associates for the issue at 0.85% interest plus a premium of \$7.10 was received too late for consideration by the city. Other bidders were: Marine Trust Co., Buffalo, 1.15% plus \$19; Blyth & Co. and Dick & Merle-Smith, 1.19% plus \$12; Chase National Bank, 1.22% plus \$11; First National Bank of Boston, 1.48%, and Faxon, Gade & Co. at 1.57%.

BOND OFFERING—Mr. Markson will receive sealed bids until 12 m. (Eastern Standard Time) on Feb. 15 for the purchase of \$4,779,000 not to exceed 6% interest coupon or registered bonds, divided as follows: \$2,000,000 welfare bonds. Due \$200,000 each year on March 1 as follows: 10.45 incl. 1.430,000 series A general refunding bonds. Due March 1 as follows: 10.45 incl. 1.045 incl. 1.045 incl. 10.45 incl. 10.

1,430,000 series A general refunding bonds. Due March 1 as follows: \$72,000 from 1936 to 1945 incl. and \$71,000 from 1946 to 1955

740,000 series B general refunding bonds. Due \$74,000 each year on March 1 from 1936 to 1945 incl.
609,000 welfare refunding bonds. Due \$87,000 on March 1 from 1936 to 1942 incl.

Each issue is dated March 1 1935. Bidders are asked to name the rate of interest in. multiple of ¼ or 1-10th of 1% and all of the bonds of each issue must bear the same rate. Principal and semi-annual interest payable in lawful money of the United States at the Chase National Bank, New York. A certified check for 2% of the bonds bid for, payable to the order of the City Comptroller, must accompany each proposal. Approving opinion of Caldwell & Raymond of New York will be furnished the successful bidder. Bonds will be delivered on or about March 1 1935 at the Chase National Bank, New York.

Financial Statement

Financial Statement 43,142,712.89 6,051,750.00 2,624,000.00 174,600.00 5,560,938.74

TAYLOR, Williamson County, Tex.—BOND OFFERING—Sealed bids will be received until 7:30 p. m. on Feb. 14, by O. W. Davis, City Secretary, for the purchase of \$20,000 4½ or 5% city hall building bonds. Denom. \$1,000. Due \$1,000 annually from 1936 to 1955 incl. These bonds are offered subject to rejection of purchase by the State Board of Education. A certified check for \$500 must accompany the bid.

TOLEDO, Lucas County, Ohio—STATUS OF REFUNDING PLAN—Committee for Bondholders announced under date of Feb. 4 that holders of 70% of the bonds to be refunded under the plan agreed upon last November—V. 139, p. 3360—have assented to the program and that it expects the deposit of a sufficient amount of additional bonds to declare the plan operative on or about Feb. 15. Philip A. Benson, President, Dime Savings Bank, Brooklyn and President of National Association of Mutual Savings Banks, is Chairman of the Committee, while W. D. Bradford, 115 Broadway, New York City, is Secretary. Depositary is the Bankers Trust Co., New York. The committee advises that if the plan is declared operative by Feb. 15, a distribution of interest on deposited bonds to Dec. 15 1934, less the bondholders' share of expenses, can be made.

TOLEDO, Lucas County, Ohio—BABY BOND ISSUE NEARER—The Toledo "Blade" of Jan. 29 contained the following report:
"Issuance of \$1,946,000 in baby bonds to pay the holders of old city scrip and other debtors of the city was one step nearer to-day when Charles Austin, Finance Director, was given a certification from the County Auditor showing that the city still has due \$5,186,089 in delinquent taxes. Mr Austin explained that he will confer with the State Tax Commission to determine whether the city must set aside \$2,000,000 of these delinquent taxes as due the sinking fund.
"If this must be done the city must also set aside \$600,000 against which Hyre Act bonds were issued; \$50,000 against which Miller Act certificates were issued and \$1,500 to retire outstanding Marshall Act scrip, Mr. Austin explained. The city then could issue baby bonds in the amount of 70% of the remaining delinquency or a total of \$1.775,000, Mr. Austin estimated. This would not take care of the city's entire floating debt, but would provide for the retirement of the \$900,000 of outstanding city certificates of indebtedness.
"The city plans to exchange the baby bonds with the holders of the old scrip and other debtors of the city. Mr. Austin expects a ruling in order to get the legislation before Council by Feb. 18."

TOLEDO SCHOOL DISTRICT (P. O. Chehalis) Wash.—BOND SALE—The \$19,000 issue of school building bonds offered for sale on Feb. 1—V. 140, p. 507—was purchased by the State of Washington, as 4¾s, at par. Denom. \$500. Dated Feb. 1 1934. Due in 20 years, optional after two years. Interest payable annually.

TOM BEAN COMMON SCHOOL DISTRICT (P. O. Tom Bean), Grayson County, Tex.—BONDS VOTED—At the election held on Jan. 26—V. 140, p. 348—the voters are said to have approved the issuance of the \$22,500 in school bonds.

TOOELE, Tooele County, Utah—BONDS DEFEATED—At the election held on Jan. 26—V. 140, p. 174—the voters are stated to have rejected the proposal to issue \$61,000 in 4% water works construction bonds. (This corrects the tentative report that these bonds had been approved—V. 140, p. 835.)

TOPEKA SCHOOL DISTRICT (P. O. Topeka) Shawnee County, Kan.—BOND ELECTION CONTEMPLATED—In connection with the report that the voters would pass on the issuance of \$300,000 in school construction bonds at the regular election in April—V. 140, p. 835—we were informed on Feb. 6 by the Business Manager that the matter will not be definitely determined until March 4.

TOWER HILL SCHOOL DISTRICT NO. 185, III.—BOND SALE—The H. C. Speer & Sons Co. of Chicago has purchased \$35,000 4% school bonds. Dated Jan. 1 1935. Due Jan. 1 as follows: \$1,000 in 1940 and 1941; \$2,000 from 1942 to 1949 incl.; \$3,000 from 1950 to 1952 incl. and \$4,000 in 1953 and 1954. They are part of an issue of \$41,000 authorized at an election held Dec. 22 1934. Payable in Tower Hill. Legality to be approved by Thomas W. Samuels of Decatur, III.—V. 140, p. 348.

TRENTON, Grundy County, Mo.—FEDERAL COURT CONSIDERS RESTRAINING ORDER ON MUNICIPAL ELECTRIC PLANT—Federal Judge M. E. Otis is said to have taken under advisement recently an application of the Missouri Public Service Co. to restrain the city from using an allotment from the Public Works Administration for the construction of a municipal electric plant. In September 1934, the city was denied a petition by Federal Judge Albert L. Reeves, which sought to dismiss the company's action—V. 139, p. 2403. Application was made by the city for an allotment of \$315,000 from the PWA, following the approval of a \$225,000 bond issue.

TRENTON, Mercer County, N. J.—TAX REVENUE BONDS AUTHORIZED—The City Commission voted on Jan. 23 to issue \$125,000 tax revenue bonds of 1934.

TULSA SCHOOL DISTRICT (P. O. Tulsa), Tulsa County, Okla.—BOND SALE—It is reported by the Clerk of the Board of Education that

\$53,300 5% semi-annual funding bonds have been purchased recently by the Brown-Crummer Co. of Wichita, at par.

TWIN FALLS COUNTY INDEPENDENT SCHOOL DISTRICT (P. O. Twin Falls), Ida.—BOND CALL—It is reported by S. H. Graves, District Treasurer, that the following bonds are being called for payment: Nos. 41 to 50 of an issue dated March 1 1920, int. to cease after March 1; Nos. 76 to 90 of an issue dated April 1 1919, int. to cease after April 1, and Nos. 31 to 36 of an issue dated July 1 1919, int. to cease after July 1. Prin. and int. payable at the office of the District Treasurer.

TYLER, Smith County, Texas—BOND SALE—The \$10,000 issue of 5% coupon park bonds offered for sale on Feb. 1—V. 140, p. 508—was purchased by the Citizens National Bank of Tyler at a price of 102.50, a basis of about 4.43%. Denom. \$1,000. Dated Feb. 1 1935. Due \$1,000 from 1936 to 1945, incl. Interest payable F. & A.

UNION COUNTY (P. O. Monroe), N. C.—ADDITIONAL INFORMATION—In connection with the sale of the \$36,000 notes to the American Bank & Trust Co. of Monroe, at 4½%—V. 139, p. 3842—it is stated by the Clerk of the Board of County Commissioners that the money will be advanced as needed.

▶ UTICA, Oneida County, N. Y.—BONDS AUTHORIZED—The Common Council recently voted to issue \$350,000 school bonds and referred the proposal to issue \$200,000 welfare bonds for consideration of the Finance Committee.

VERMILION, Eric County, Ohio—BOND SALE—The \$54.680 special assessment bonds offered on Feb. 4—V. 140, p. 508—were awarded as 4½, to Stranahan, Harris & Co., Inc. of Toledo, at par plus a premium of \$217.22, equal to 100.397, a basis of about 4.41%. The sale consisted of: \$29.680 water distribution system and street improvement bonds. One bond for \$680, others for \$1,000. Due Dec. 1 as follows: \$4,680 in 1936; \$4,000, 1937 to 1940, incl., and \$3,000 from 1941 to 1943, inclusive.

25,000 sanitary sewer construction bonds. Denom. \$1,000. Due Dec. 1 as follows: \$4,000 in 1936 and \$3,000 1937 to 1943, incl. Each issue is dated Dec. 1 1934.

VINCENNES SCHOOL CITY, Knox County, Ind.—BOND SALE—The \$13,000 4½% refunding bonds offered on Feb. 1.—V. 140, p. 508—were awarded to the American National Bank of Vincennes at par plus a premium of \$550, equal to 104.23, a basis of about 4.23%. Dated Feb. 1 1935 and due \$7,000 Feb. 1 1946, and \$6,000 Aug. 1 1946. Other bidders were:

VIRGINIA, St. Louis County, Minn.—BOND SALE—The \$185,000 issue of coupon hospital construction bonds offered for sale on Feb. 4—V. 140, p. 675—was awarded to the Wells-Dickey Co. of Minneapolis, as 3½s, paying a premium of \$1,410, equal to 100.76, a basis of about 3.30%. Due from 1936 to 1942. This company also submitted an offer of \$6,845 premium for 4% bonds.

VIRGINIA, St. Louis County, Minn.—BOND SALE—The \$185,000 issue of hospital construction bonds offered for sale on Feb. 4—V. 140, p. 675—was awarded to the Wells-Dickey Co. of Minneapolis, as 3¼s, paying a premium of \$1,410, equal to 100.76, a basis of about 3.15%. Due from 1936 to 1942.

WAKE COUNTY (P. O. Raleigh), N. C.—BONDS NOT SOLD—The 44,500 issue of 4% coupon semi-ann. school bonds offered on Jan. 22—140, p. 508—was not sold as no bids were received. It is stated by the ecretary of the Local Government Commission that the bonds may be purhased privately by the Public Works Administration. Dated June 1 934. Due from June 1 1935 to 1954, inclusive.

WALLOWA, Wallowa County, Ore.—FEDERAL FUND ALLOT-MENT REJECTED—It is stated by the City Recorder that the loan and grant of \$62,000 for water system improvement, approved by the Public Works Administration recently—V. 140, p. 498—was rejected by the City Council on Jan. 24.

WAPAKONETA, Auglaize County, Ohio—ADDITIONAL INFORMATION—The \$8,000 electric light plant bonds purchased by the Sinking Fund Trustees—V. 140, p. 836—will bear 4% interest, dated Oct. 1 1934, in \$500 denom., and mature one bond annually on Oct. 1 from 1936 to 1951, incl. Prin. and int. (A. & O.) payable at the City Treasurer's office.

WAPELLO COUNTY (P. O. Ottumwa), Iowa—BOND OFFERING—Sealed bids will be received until 2 p.m. on Feb. 13 by Guy Kitterman, County Treasurer, for the purchase of an issue of \$164,000 judgment funding bonds. Interest rate to be stated by bidder. Denom. \$1,000. Dated Feb. 1 1935. Due as follows: \$16,000, 1940 to 1943; \$56,000, 1944, and \$44,000 in 1945. Bonds maturing prior to Nov. 1 1940 are optional on that date and on any interest payment date thereafter. Open bids will be received after all sealed bids are in. The county agrees to furnish the blank bonds and the approving opinion of Chapman & Cutler of Chicago, and all bids must be so conditioned. Bonds will have a provision for the registration of principal. Delivery of the bonds will be made at the County Treasurer's office. A certified check for 3% of the bonds offered, payable to the County Treasurer, is required.

WARM SPRINGS SCHOOL DISTRICT (P. O. Oakland), Alameda County, Calif.—BOND SALE—The \$35,000 issue of coupon or registered school bonds offered for sale on Feb. 5—V. 140, p. 836—was awarded to Blyth & Co. of San Francisco, as 3 1/4 s, paying a premium of \$419, equal to 101.197, a basis of about 3.60%. Dated Feb. 1 1935. Due from Feb. 1 1937 to 1951.

WASHINGTON TOWNSHIP (P. O. Indianapolis), Marion County, Ind.—BOND OFFERING—Charles M. Dawson, trustee, will receive sealed bids until 3 p. m. on March 4 for the purchase of \$13,533.61 not to exceed 5% interest judgment funding bonds. Dated March 15 1935. Denoms. not less than \$50 nor more than \$1,000. Due July 15 as follows: \$1,533.61 in 1936 and \$3,000 from 1937 to 1940 incl. Payable from ad valorem taxes to be levied on all taxable property in the township.

WAYNE COUNTY (P. O. Corydon), lowa—MATURITY—The \$11,609 4 \% % funding bonds that were taken over recently by Jackley & Co. of Des Moines—V. 140, p. 836—are due on Nov. 1 as follows: \$3,609.38 in 1936; \$3,000, 1938, and \$5,000 in 1939, according to the County Auditor.

WAYNESFIELD, Auglaize County, Ohio—BONDS AUTHORIZED—The Village Council passed an ordinance providing for the issuance of \$17,500 4% water works system mortgage revenue bonds. Dated Sept. 1 1934. Due Sept. 1 as follows: \$500 from 1938 to 1946, incl., and \$1,000 from 1947 to 1959, incl. Principal and interest (M. & S.) payable at the Village Treasurer's office. The project will cost about \$35,000 and will be financed by the Public Works Administration.

WATERVILLE, Kennebec County, Me.—NEW FINANCING—Chairman Leon O. Tebbetts of the Finance Commission has been negotiating with the First National Bank of Boston for a \$500,000 temporary loan in anticipation of 1935 taxes, to mature next October. Negotiations have recently been completed with Smith, White & Co. of this city for sale of \$100,000 bonds. The money will be used for the express purpose of refinancing the city enabling it to pay every outstanding obligation save its bonded indebtedness. State and county taxes, long overdue, will be met promotly.

WELD COUNTY SCHOOL DISTRICT NO. 103 (P. O. Galeton), Colo.—BOND SALE—A \$12,000 issue of 4%% refunding bonds was purchased by Oswald F. Benwell of Denver. Denominations \$1,000 and \$500. Dated Dec. 1 1934. Due on Dec. 1 as follows: \$1,000, 1938; \$1,500, 1939 to 1944, and \$2,000 in 1945. Prin. and int. (J. & D.) payable at the County Treasurer's office in Greeley. Legality of issue will be approved by Myles P. Tallmadge of Denver.

WELLESLEY, Norfolk County, Mass.—TEMPORARY LOAN—The \$200,000 revenue anticipation notes offered on Feb. 4—V. 140, p. 836—were awarded to the Boston Safe Deposit & Trust Co. at 0.22% discount basis plus a premium of \$7. Dated Feb. 4 1935 and due \$100,000 each on Nov. 12 and Nov. 18 1935. Other bidders were: National Shawmut Bank of Boston, 0.23; Newton, Abbe & Co., 0.235; Wellesley Trust Co., 0.24; Whiting, Weeks & Knowles, 0.25; G. M.-P. Murphy & Co., 0.26; Norfolk County Trust Co., 0.263; First National Bank of Boston, 0.325 Wellesley National Bank, 0.34; Faxon, Gade & Co., 0.35; Second National Bank of Boston, 0.41; Halsey, Stuart & Co., 0.47.

Carleton D. Beh Co. \$390 on 23/s 325 on 23/s 1,750 for 3s

WOODBURY HEIGHTS, Gloucester County, N. J.—REFINANC-ING PLAN APPROVED—The Borough Council on Jan. 14 voted to proceed with the refinancing of unpaid State and county taxes, delinquent payrolls and other indebtedness through the issuance of between \$80,000 and \$90,000 bonds. The bonds are to bear interest at not more than 5% and the program will be placed in operation by M. M. Freeman & Co. of Philadelphia, it is said. Current bonded debt of the Borough, not including the school debt, is \$86,000, with interest rates ranging from 5% to 6%.

WORCESTER, Worcester County, Mass.—TEMPORARY LOAN—The city awarded \$1,000,000 revenue anticipation notes on Feb. 8 as follows: \$500,000, due Nov. 20 1935, to the National Shawmut Bank at 0.27% discount basis, and \$500,000, due Feb. 7 1936, to the First Boston Corp. at 0.39%.

YADKIN COUNTY (P. O. Yadkinville), N. C.—BONDS NOT SOLD—The \$140,000 issue of 4% semi-ann. school bonds offered on Jan. 29—V. 140, p. 676—was not sold as no legal bids were received. The Secretary of the Local Government Commission states that it is contemplated that the bonds will be sold privately to the Public Works Administration. (An allotment of \$199,000 has been approved by the PWA.)

YONKERS, Westchester County, N. Y.—TAX COLLECTIONS HIGHER—Reporting collection of \$2,200,000 in 1935 taxes to Feb. 5, James Hushion, City Comptroller, stated that the amount received was about 20% of the \$11,000,000 tax levy and constituted a much larger percentage than had been paid in the same period last year. He attributed the increase to the desire of taxpayers to avoid penalities.

YOUNGSTOWN, Mahoning County, Ohio—PLANS \$120,000 BOND FLOTATION—The city law department is preparing ordinances providing for the issuance of \$120,000 swimming pool construction bonds in blocks of \$60,000 each.

CANADA, Its Provinces and Municipalities.

CANADA (Dominion of)—NOTE SALE—The Government on Feb. 5 sold an issue of \$18,300.000 Treasury notes to banks and other institutions at an average interest rate of 2.055%. Due May 1 1935.

FOUR-YEAR RECORD OF MATURITIES—Pointing out that maturities of Government, municipal and corporation obligations in the next four years aggregate \$1,181,950,000, C. H. Carlisle, President of the Dominion Bank stated, in his address at the bank's annual meeting recently, that Canada would be well advised to appoint a non-political commission to investigate the country's financial problems, with a view to correcting them. He suggested a Commission similar to the May Committee in Great Britain, which in July 1931 made public the first realization of an impending deficit of \$120.000,000 and was responsible in large measure for England's suspension of the old standard. Mr. Carlisle set forth the maturities as follows:

follows:

Debt Maturities Next Four Years

Dominion \$773.800,000 All others \$30,000,000

Provincial \$1,150,000 Total \$1,181.950,000

Adding interest charges, the total would be over \$2½ billions, said Mr. Carlisle. While continuation of the rate at which Government expenditures have exceeded revenues in the past 10 years, would bring total obligations to be met in the next four years to almost \$3 billion. Of the total shown in the foregoing table, £232,000,000 is held abroad, he stated. Mr. Carlisle further initimated that the aid of these investors abroad is important to Canada and that this country is closing the doors to them by rapidly increasing its debt.

MAYORS FAVOR REFUNDING OF DEBTS.

creasing its debt.

MAYORS FAVOR REFUNDING OF DEBTS—At a two-day meeting concluded in Calgary on Jan. 29, the Mayors of Western Canada confirmed a resolution providing for complete refunding all municipal capital indebtedness at a maximum interest rate of 3%, with Federal Government guarantee, according to a report of their deliberations as given in the Montreal "Gazette" of Jan. 30. Mayor Andy Davidson of Calgary was continued as chairman, with power to reconvene the delegates if necessary.

HALDIMAND COUNTY (P. O. Caledonia), Ont.—BOND OFFER-NG—Harrison Arrell, County Clerk, will receive sealed bids until March for the purchase of \$35,000 4% improvement bonds, due in from 1 to) years. This issue was previously offered on Nov. 14 1934, at which me all bids were rejected. C. H. Burgess & Co. of Toronto entered a bid 99.51 at that time.—V. 139, p. 3362.

vancouver as companies, for the purpose of considering the proposed interest payments and clearly a meeting of the document of vancouver securities, it is said. Stock jobbers previously had decided to withhold quotations on city bonds—V. 140, p. 836. Mayor McGeer has called a meeting of holders of considering the proposed interest payments to be held in London totals \$16,171,300 and debentures amount to \$3,975,000, it is said. Interest rates on the obligations are 4% and 4½%. Next interest payment is due Aug. 1. In connection with the city's proposal to suspend 50% of the interest payments on all outstanding obligations, various committees have been formed in London, including representatives of trust and insurance companies, for the purpose of protecting interests of 5,500 British holders of Vancouver securities, it is said. Stock jobbers previously had decided to withhold quotations on city bonds—V. 140, p. 836. Mayor McGeer has called a meeting of holders of city obligations to be held in Vancouver on Feb. 11 for the purpose of considering the proposed interest reduction.
